New Manager Light Company Is Appointed

Joe Key, district manager, has announced the appointment of Howard Horse as manager of the McLean Public Service Company. Horse succeeds Cleo Meharg, who has been transferred to Hereford as district manager of the Hereford Public Service Company. Horse comes to McLean from Vega, where he was local manager.

Horse has been with Southwestern Public Service Company for several years. He began with the company as a lineman at Pampa, and after serving in this capacity for approximately nine months, was named manager at Vega.

Horse was active in civic and church work at Vega. He is now serving as secretary and a member of the board of the Kiwanis Club and he is the immediate past commander of the American Legion post.

Horse served in the Seabees during the war, spending more than three years in the Pacific theater.

Mr. and Mrs. Horse have three children, Pauline, Anita, and John. Cleo Meharg's well-deserved promotion takes a tireless civic worker from McLean. Cleo was an active Lion, a leader in the chamber of commerce, an active church worker and a member of the local volunteer fire department.

Lions Present Meharg Gift

W. C. Meharg, who is being transferred to Hereford by the Southwestern Public Service Company, was presented a wrist watch at the Tuesday meeting of the McLean Lions Club for his support of club activities during the time he has lived here.

Meharg, while living here, has served in several offices of the club, including that of president, and has also served as zone chairman. He will be assistant manager of the Hereford district of the public service company.

Six Are Hurt In Car Crash Near Alanreed

Six persons were injured Sunday afternoon when two cars collided head-on about a half mile east of Alanreed on U. S. Highway 66.

The accident occurred at about 1:30 o'clock, Highway Patrolman Jeff Heard, investigating officer, said.

Most seriously injured was Mrs. Earl Ong, about 57 years of age, of Pomona, Calif. Mrs. Ong was taken to the Groom hospital, along with her two daughters, Mrs. June Dyke of Pomona and Mrs. Barbara Ruth High of Anaheim, Calif., and James R. High, Mrs. High's husband, also of Anaheim. These four were riding in a 1941 Buick sedan, with Mrs. High as driver. They were traveling toward Oklahoma City.

In the second car, a 1950 Cadillac sedan, were Tom Gillum, used car dealer from Bakersfield, Calif., and Thurman Jones of Weleetka, Okla., a hitchhiker en route to Dumas who had been picked up by Gillum. Gillum was driving and was proceeding west.

Mrs. Ong suffered compound fracture of the right leg, possible broken knee, and head and facial lacerations; Mrs. Dyke, broken right arm, facial cuts, leg injuries; James R. High, minor scratches; Mrs. High, knee injuries, numerous cuts about the face; Gillum, severe nose injuries, arm injuries; and Jones, arm injuries, possible back injuries.

Heard stated that the two cars collided in a bar ditch north of the highway. Apparently Mrs. High had attempted to pass a car on a hill, it was explained, meeting Gillum's west-bound car as she did so. Both cars swerved off the highway in an attempt to avoid collision.

An ambulance from the Claborn Funeral Home took the four persons to the Groom hospital.

way 66 from the Wheeler County line to the Donley County line has been completed, G. K. Reading of Pampa, resident engineer, stated this week.

All culverts and other structures on the highway have been completed, and most of the crew of the Norman Larson construction firm have left the area. The dirt contract was awarded to the M. E. Ruby company.

Of the estimated one million cubic yards of dirt to be moved, only 370,000 have been moved, it was explained.

Completion of the four-lane project will see about 12 miles of the present crooked road abandoned, most of the abandoned sections being sharp curves that will be eliminated by the near-straight road.

Engineers point out that in all probability the topping to be applied to the new highway will be of the asphalt type. However, the split highway through McLean, with west-bound traffic on the present highway (First Street) and the east-bound on Railroad Street, will be left as is where there is already paving. There is a possibility that some of the strips through town which are already paved will have to be widened to some extent. Only two blocks are paved on Railroad Street, and they will, of course, be utilized.

The fills on the new road are the biggest jobs for the dirt contractor. The fills run from a few inches to 28 feet, and as wide as 118 feet at the bottom. The median strip which will separate the two, two-lane strips will range from 15 to 50 feet in width. The paved lanes will be 24 feet, with 10-foot dirt shoulders.

Reading estimated the primary job will be finished some time in October. No contract for the paving has been let, but will be when the road-bed work is completed.

The dirt work and structures were awarded to Larson and Ruby for a combined total of about \$331,000. Rights-of-way through the area cost the county slightly more than \$91,000.

Where the highway dips into Donley County, and then on west through Gray County to the Carson County line is not included in the present work. This will be done at a later date.

Week's Rains Bring Total Of 2.25 Inches

June is only eight days old today, but the rainfall total for the month is already 2.25 inches.

The moisture came in two downfalls over the week-end. Thursday night and early Friday morning, a heavy rain brought 1.74 inches of moisture, with 1.70 of the rain coming before midnight and the additional .04 of an inch falling between midnight and 4 o'clock in the morning. The rainfall started at about 5 o'clock Thursday afternoon, and fell heavily for about 30 minutes. Slow rain continued intermittently until early Friday morning.

Second of the two showers came Sunday, when .45 of an inch fell between 4-15 and midnight, and another .06 of an inch came between midnight and 8 o'clock in the morning.

The two rains raised the total for the year to 6.66 inches of moisture, Pete Fulbright, local weather observer, reported.

The moisture has delayed the beginning of harvesting of this year's light wheat crop, not only in the McLean area but throughout western Oklahoma and the eastern Panhandle. Wellington, however, did receive its first wheat last week.

The Texas Employment Commission reports there is no shortage of combines or workers in the harvest, at any points where wheat harvest is about to begin, or has already begun.

In Gray County, as well as most other counties of the general area, less than 10 to 15 per cent of the seeded acreage is expected to be harvested. Wheeler County, however, does expect to harvest about 45 per cent of the seeded acreage.

New Drive-In Opened Here

Another new business was added in McLean last week, when Don Warren of Pampa opened his new drive-in at the east edge of McLean on U. S. Highway 66.

The new business is known as the Toot-N-Tell Drive-In. Warren will feature "bulldogs on a stick," sandwiches, malts, and ice cream. He will give curb service at the drive-in.

Seven in Race for Governorship As State Filing Deadline Passes

Judges Named For Elections To Consolidate

T. N. Holloway will serve as presiding judge in the McLean district, and Mrs. Jesse Roberts as judge of the Back district, when the two elections are held Saturday, June 17, to determine the judges for the consolidated school district.

The elections were called late in May by County Judge Bruce L. Parker, following his receipt of two petitions, one from the Back school patrons and one from the McLean school patrons.

All qualified voters, regardless of whether they own property in either district, will be allowed to cast ballots in the election. Those within the McLean district will vote at one box in the City Hall and those in the Back district will vote at the Back school house.

No school was held at Back during the past year. Under the Gilmer-Alkin law, a district must consolidate within two years after becoming dormant, but the dormant school may consolidate at any time within that limit if it is the will of the voters. Residents of the Back district decided at a group meeting held in May that they would seek the election to consolidate with the McLean school now, rather than wait the second year.

As a formality, the McLean district voters must accept the Back district into the McLean district before the consolidation is complete. Therefore, the election to accept the Back district here will be held on the same date. School board members hope that a large number of voters will turn out to give the acceptance a whole-hearted approval.

Fulbright to Get Degree in Music

Evey Glenn Fulbright, son of Mr. and Mrs. Pete Fulbright of McLean, will receive his bachelor of music degree from Northwestern University, Evanston, Ill., Monday night at commencement exercises at Evanston.

A total of 3,567 degrees and diplomas, representing one of the largest classes in the history of Northwestern, will be awarded.

Caprock League Tilts Rained Out

All games scheduled in the Caprock League for last Sunday afternoon were rained out.

Next Sunday afternoon's schedule is as follows: McLean at Groom; Panhandle at Hedley; Claude at St. Francis; and Washburn at Goldston.

Golf Meeting--for All Persons Interested--Called for Friday

A meeting of all members of the old McLean Golf Club, and any others interested in the fixing up of the former golf course at the northwest edge of town, has been called for Friday night at 8 o'clock in the City Hall.

The meeting was called by M. D. Bentley, president of the club, and W. E. Bogan, secretary-treasurer.

Several of the members of the club, which has been inactive for a number of years, believe that there is sufficient interest—particularly among the younger men and women of the town—to warrant repair and operation of the golf course this year.

In a discussion on the subject in last week's issue, The News suggested the possibility of selling associate memberships, which entitle the associate members to play on the course during this

SYBIL GRESHAM and CARA STARK of Oklahoma City will conduct revival services each night at 8 o'clock June 11-25 at the Pentecostal Holiness Church in McLean. It was announced this week. In connection with the revival, a Vacation Bible School will be held June 12-23, five days each week, from 8:30 to 11:30 o'clock in the morning, for children 4 to 18 years of age. Miss Gresham will serve as principal of the school, and Miss Stark will assist.

S. F. Wilson Funeral Rites Held in McLean

Funeral services for Samuel Frank (Uncle Frank) Wilson, a former resident of McLean, were held at the First Presbyterian Church in McLean Monday afternoon.

Conducting the rites was Rev. George E. MacDonald, Presbyterian pastor. Interment was in the Shamrock Cemetery under the direction of the Claborn Funeral Home of McLean.

Wilson, 51 years of age, died Thursday of last week at Dinuba, Calif., at the home of a brother, Eli Wilson. He had moved there from this area four years ago.

A native of Fort Smith, Ark., Wilson moved to Montague County in Texas when he was ten years of age. He moved to Wheeler County in 1928, and came to McLean ten years later. He made his home here with a sister, Mrs. R. D. Marrs. Four years ago he moved to California to make his home with his brother.

Survivors include two sons, R. W. and K. P. Wilson of Oklahoma City; five sisters, Mrs. Marrs, Mrs. J. L. Percell of Dalhart, Mrs. L. J. Large of Denver, Colo., Mrs. A. J. Watson of Missoula, Mont., and Mrs. K. E. Alleman of Center Point, Ore.; and two brothers, Eli Wilson, and L. L. Wilson of Electra.

Lions to Have Political Rally Here July 1

State, county, and precinct politics for the Democratic primaries this summer are beginning to shape up.

Filing deadline for state office positions passed Monday, and seven candidates, led by Governor Allan Shivers and Caso March of Waco, are seeking the top job in the state, that of governor.

Eleven have filed for lieutenant governor, with Preston Smith of Lubbock and Roger Q. Evans of Denison heading that list.

The seven gubernatorial candidates are Charles B. Hutchinson of Dallas, Wellington Frederick Abbey Jr. of Houston, Allan Shivers of Port Arthur, Gene S. Porter of Houston, Mrs. Benita Louise Marek Lawrence of Brenham, Caso March of Waco, and J. M. Wren of Houston.

The eleven out for lieutenant governor are W. O. Reed of Dallas, Kyle Vick of Waco, Arion Barton Davis Jr. of Dallas, R. B. McArthur of Ingram, Fred Red Harris of Dallas, Virgil E. Arnold of Houston, Preston E. Smith of Lubbock, Ben Ramsey of San Augustine, Pierce P. Brooks of Dallas, Roger Q. Evans of Denison, and Peyton Elliott Womack of Austin. Womack is a Negro teacher and minister.

June 17 will be the final date for candidates to file for county and precinct offices. The deadline for filing for district offices, and for the state legislative offices, was in May.

The McLean Lions Club has set Saturday, July 1, as the tentative date for the every-other-year political rally and picnic supper in McLean. The club sponsors the event every two years to allow voters in the south end of the county to "see what the candidates look like," and also in an effort to raise money for projects the club may carry out. The rally will probably be held on the vacant lot between Calhoun's and Roy's Food Market, the same site where it was held two years ago.

Locally, the interest thus far has been confined to precinct and county races, with that for the office of commissioner of Precinct No. 4 holding the spotlight. Four men, Commissioner Earnest Beck, Jesse Roberts, Leon Waldrop, and Clyde Brown, have announced for the commissioner's post.

Two are out for the constable's job, and two are now in the race for justice of the peace. Seeking to be constable are Luther (Lake) Henley and J. A. (Jim) Wheeler. J. W. Sullivan, present constable, originally announced for re-election, but withdrew his announcement. Wanting to be justice of the peace are C. S. Rice, incumbent, and S. G. Robinson.

In the county race, John F. Studer and Bill Waters are seeking the county attorney's job; F. E. Leech asks re-election as tax assessor-collector, and has no opponent as yet; Huey Laycock is unopposed for county superintendent; Ola Gregory is unopposed for county treasurer. Mrs. Dee Patterson has the race for district clerk to herself, Charlie That is the lone man in the race for county clerk.

Sheriff G. H. Kyle has two opponents thus far, one his former deputy, Rufe Jordan, and Horace S. Johnson. District Attorney Tom Braly of Pampa drew one opponent, Guy Hardin of Shamrock. District Judge Lewis Goodrich is being opposed for re-election by a fellow townsman, H. B. Hill of Shamrock.

In the congressional race, only four of the ten Democrats who ran in the special election in May remain in the race for the Democratic nomination. They are Altvater Clark, Blake Timmons, Walter Rogers, and Lefty LeMaster.

ATOMIC WARFARE

IF THE DEVELOPMENT of atomic power for weapons of various types continues, the next war could be by far the most disastrous, deadly, dangerous, and devastating affray the world has ever known.

Every major war is worse than the past one, history tells us, and the next major war—which we hope will never come—will spell more disaster than all the previous wars added together.

Last week-end, the Associated Press reported that atomic artillery shells and atomic warheads on guided missiles have been developed by the United States.

In World War II, we can recall, atomic bombs were dropped in two instances, and immediately the methods of warfare were revolutionized. Development of atomic artillery and atomic warheads on the guided missiles will revolutionize warfare almost as much as the atomic bomb did.

The atomic warheads, for example, could be placed on the ends of torpedoes in submarines. Many ships have been torpedoed in past wars, and have not sunk. They would be blown to bits with an atomic warhead, and the water contaminated with radiation to such an extent that no one would escape alive. Other ships in the area, even though not reached by the explosion, would be endangered.

But that is only one possibility. Imagine a lone artillery shell which formerly knocked out only one building, or one shore installation, screaming through the air from its original gun barrel and practically destroying an entire town or city—depending, of course, on the size of the shell and the size of the town. Imagine, too, one of the guided rockets flying through the air for hundreds of miles and finally finding its mark and leaving only destruction over an area of many, many square miles.

It appears that warfare is developing to such an extent, and so rapidly, at the present time, that no one will be safe in the future. If the developments continue, caverns will afford little or no protection.

The only protection we can have in such times as we are now starting will be in peace. The world leaders are rapidly approaching the point where there must be a world understanding and a world peace, or there will be "no world for long."

How can we be so intelligent, and yet be so ignorant?

LES

TALK

BY LESTER

Sometimes I think that every person should be forced to edit a newspaper for a few weeks of their lives at least. And in editing the paper, they should also have to make progressive suggestions (or what they think are progressive anyway), and take stands on issues which are often "cussed and discussed on the street corners, in the drug stores, and over cups of coffee."

Taking a stand on an issue or making a suggestion while talking on a street corner or over a cup of coffee is, by the way, quite different from taking the same stand and having it come out in print. To give you an example, very, very few people will "write the editor" of any small town paper concerning some issue, sign their name, and be willing to have their message printed in the paper. It isn't human nature. But it is expected of a newspaper editor, regardless of the size of his paper or his town, to take stands and make suggestions.

That is the way I make enemies, and I make them every week.

The trouble with me is that I believe I stand for progress and pleasure, and I enjoy living. I enjoy living even more where there is progress.

Since moving to McLean, I have seen a great deal of progress take place here. There are many more business houses here than there were when I came here. Only one, to my immediate knowledge, folded up and was not replaced by a similar business. Some have changed hands, but as far as I can remember, only one has actually quit business.

New businesses which I can think of right off-hand include the following (these are not in the order in which they have put in since I have been here, but are in the order in which I can think of them):

McLean Electric Company, Master Cleaners, Sheddick Jewelry, B and C Children's Wear, 66 Service Station (replacing the old one which is still in business), Andrews and Johnson Equipment Company, Fine Foods cafe, Windom Garage, Dysart Motor company, Mullanax Men's Store, Atorney S. G. Robinson, McLean Furniture company, G. and G. Automotive Supply, T. and G. Electric, Economy Lumber company, Post-N-Tell Drive-In, Watt Tourist Court and Station, and Roy's Food Market. Please forgive me for any I may have forgotten.

I said before only one had quit, but I now change that to two: they were the bakery and the Kaiser-Frazer agency. Many changes have been made. For example, J. A. Meador closed up his cafe, later built a new one. The former Ford garage got a new building and the Ford franchise, and Clell Windom started a garage in their old location, recently selling to Floyd Guthrie. And many, many others.

The town has a new football stadium, a new softball and baseball field and rodeo arena, a new gym-auditorium, and a new church building. Plans are well under foot for a new grade school building. There are many more new homes here than you actually

think a close check will reveal. There is progress. And I'm glad of it.

What brings all the above on was the reaction to the article concerning the rejuvenation of golf, and the golf course, in McLean. A few people have come to me, men with experience concerning the course in the past, and have said that undertaking to "fix up" the course is not practical.

It so happens that I have respect for these men, and their judgment. So this is certainly no condemnation of their ideas.

But I am just crazy enough (I suppose that's the right phrase to use) to believe that we can have a golf course in McLean, if a sufficiently large number of people want one. And I think they do. Young people, people we should want to stay and make their homes in, McLean.

Personally, I am about the world's worst golfer, although I have played quite a number of rounds. But, also personally, I love to try to play, and every opportunity I have, I play. I usually try to find someone who also is a duffer, so that I won't be embarrassed when my opponent, or opponents, have to wait on me to catch up.

Now I do NOT believe that we can afford to fix up, or maintain, a course anywhere near equivalent to that in Shamrock. We cannot

afford to have smooth fairways which have to be mowed and rolled and watered.

But, as I see it, we can have one with rough fairways and sand greens. Mowing of the weeds and wild grass on the present location of the old golf course can be done very, very reasonably, although it probably wouldn't be a very fancy job. Cost of fixing sand greens has been estimated at about \$30 per green—\$450 in all.

The plan I suggested on the front page last week would work very well, I believe. I may be wrong, for I am wrong very often. If I can be convinced that I am wrong, I will drop my meager part of the whole matter.

I do think that we should not attempt a fancy course. We simply can't afford it—neither the initial cost nor the upkeep. But we can have a place to do our duffing if about 40 or 50 men of the town want such a place. And I believe they do.

think? Or would you prefer to continue to drive the 40-mile round trip to Shamrock to do your playing? It won't take long to use up \$10 driving back and forth and paying green fees. Maybe some action will be taken before this gets into print.

Why is it that I am always sticking my neck out? Is it because I have such a hard head it weighs more and will stretch my

Range Riders Rodeo July 1-4

Featuring nationally known attractions, the Range Riders rodeo will be held at Tri-State Fair grounds in Amarillo July 1 through July 4. It has been announced by Robert Dalby, president of the Bill Rogers Range Riders.

Invitations have been extended to all out of town riding clubs to participate in the parade to be held at 5 o'clock July 1. Dalby said local riders and owners of western rigs will be welcome to participate. The parade will take place on First and Polk Streets. Stunts will be asked to feature western motif decorations during the rodeo, and everyone will be encouraged to "go western" for the occasion.

Performances will be held at 8 o'clock Saturday, July 1, at 2 o'clock Sunday, July 2, at 8 o'clock Monday, July 3, and at both 2 and 8 o'clock July 4.

City Students A. C. C. Grads

Two students from McLean were graduated from Abilene Christian College Monday, May 29, at the spring commencement. They were Miss Ruth Fulbright, daughter of Mr. and Mrs. Pete Fulbright, and Ethel Cox, daughter of Mrs. Alma Bauer.

Both students received the bachelor of science degree. Miss Fulbright majored in music education, and Mrs. Cox was a biology major.

Amarillo News Article Tells Of Mrs. Payne's Work in School

(Editor's Note: Mrs. J. M. (Lee Ola G.) Payne has submitted her resignation from the teaching staff of McLean High School, effective at the end of the past school semester, and the following story, accompanied by her picture and a picture of the plaque which was recently made an annual award in her name, appeared in last Friday's Amarillo News. Due to the interest in Mrs. Payne's excellent work here during the past years, the story is being re-printed.)

McLEAN, June 1—A new plaque at McLean High School commemorates the work of Mrs. Lee Ola G. Payne, retiring commercial subjects teacher, for her efforts in promoting interest in journalism.

The yearbook was at first a mimeographed publication, later switching to a regular commercially-printed affair in 1947.

In 1946, Mrs. Payne was named sponsor of the Tiger Post, the school newspaper, and organized a course in journalism. The class later became known as the Press Club and assumed leadership in publishing both yearbook and newspaper.

Recognition to the newspaper came the following year when the Tiger Post was designated "all state rating" at the annual press convention sponsored by the Texas State College for Women at Denton.

During the past school year, two of Mrs. Payne's pupils participated in the journalism regional contests at Lubbock. Sue Young, one of Mrs. Payne's outstanding students, took second place in the regional meet and later won a fourth in the state meet.

There is no record or recollection of a McLean High School student winning such honors in journalism previously.

The plaque was given to the school by an anonymous donor to commemorate Mrs. Payne's work with the journalism youngsters. The award is to be a permanent affair, with the outstanding journalism student in each year's class being enrolled on the plaque. The first winner was Sue Young.

Mrs. Payne has no specific plans for her retirement, except "resting." Before coming to McLean she taught for several years in Ellis County.

The following attended a picnic at Lake McClellan Sunday: Mr. and Mrs. Perry Carruth and children, Mr. and Mrs. T. A. Landers and Fern, Mr. and Mrs. Arlie Grigsby and children, Mrs. Mildred Grigsby and children, Mr. and Mrs. Clyde Mead and children of Pampa, Mr. and Mrs. V. B. Bible School At Kellerville

A total of 65 students enrolled in the Vacation Bible School of the Kellerville Baptist Church Monday morning, Rev. H. Price Bishop, pastor, said this week. The number of students was increased to 76 on the second day, Rev. Bishop said, and an even greater number is expected during the week.

The school, which opened Monday morning, will be concluded Friday night, June 15, when commencement exercises are held. Interest in the school is higher than in any previous Bible schools conducted at the Kellerville church, Rev. Bishop said.

Square Dance Club Formed

Approximately 20 couples from the McLean area met in the American Legion Hall last Saturday night to begin organization of a Square Dance Club here.

Meeting with the group was Harvey Close of Shamrock, who has taught many beginning clubs the various couple dances and the square dance.

The group voted to continue with the organization, and set Saturday night at 8:30 o'clock at the Legion Hall as the time and place for their second session. Close will again meet with the group.

It is probable that only a few meetings of the club will be held during the summer months, and that it will resume meetings in the fall when the weather is cooler.

Norman Grigsby, who has been visiting his parents, Mr. and Mrs. H. W. Grigsby, returned to Canyon Sunday to attend summer classes at W. T. S. C.

Sunday guests in the home of Mr. and Mrs. T. A. Landers were Misses Gertrude Graham, Reda Mae Gary, Lee Dale Clubb, Geneva Collins, and Fern Landers, and Mrs. Harry Kelsey, all of Lubbock.

A Red Cross field director loses no time in relaying word from home in this air force sergeant, busy at a motor check on the line. More than 2,000 Red Cross field workers are serving the armed forces in this country and overseas.

Mr. and Mrs. John Bayless of Sunday. They were accompanied by Mr. and Mrs. Homer Abbott, home by their grandmother, Mrs. Lucy McCarty.
