Tigers to Meet

Easy Money Not So Easy—McLean Youth Charged There's all kinds of ways to

make a little spending money. But sometimes some of those ways do not pay off in the right manner.

A 12-year-old McLean boy thought up an idea which he believed to be good, but it backfired on him.

The youth fixed up a "March of Dimes" jar, a rather crude job at that, and took it to the Graves Jewelry store and placed it on the counter. The new store had not opened for business when the official March of Dimes cans were distributed. When the boy came back last Saturday night to empty the iar. J. C. Hickerson, manager of the store, reported the inincident to the local dimes chairman, J. Lester Dysart.

The youth was caught in the act of trying to empty the jar again Monday, and charges were filed against him. It was a smooth trick-but it didn't work long

Phillips Quintet **Here Friday Night** The McLean High School Tiger

basketball team will meet the strong Phillips Blackhawks quintet Friday night in the Municipal Building, in what promises to be one of the best games of the season this year.

Games will be between the McLean and Phillips B teams, and then the two A teams will play. The first game will start at 7:30 o'clock, Coach Don Leach has announced. The local girls will not play, since Phillips has no girls team.

The McLean teams, both boys and girls, won over the Shamrock Irish at Shamrock Tuesday night. The boys won a close one 45-41, with L. M. Watson scoring 19 points. The local boys tossed in 16 of 20 attempted free shots. In a game earlier in the season, the Irish lads had eked out a victory over the Tigers. The girls took the Shamlassies to the tune of 31-25, with Dorothy Gudgel leading the scoring with 17 points.

THE NEW FIRE TRUCK

PERHAPS BY THE TIME you read this, you may have seen the new pumper-type truck of the McLean Volunteer Fire New Mexico, and Guy Beasley the postmaster to be included in Department, for it's here, ready for use on a moment's notice for any and all types of fires.

equipped with a large tank and high pressure pump for never been filled, since the terms just hand the money to the chairuse principally in fighting grass fires and other fires of both men expire in April any- man, J. Lester Dysart. outside the city limits where the city water pressure and way. So the city election should In whatever form you give your supply is unavailable. However, the truck will probably again be interesting, and you money, you can rest assured that be used extensively in fighting fires within the city limits, fires which can be controlled and extinguished with water at a high pressure and with only a small amount of water.

The public is fairly well familiar with the method used to buy the truck. The fire department had in its treasury about \$1,000 which had accumulated over a period of months and which came principally from money received from Gray County for fighting fires outside the city limits.

The department members, sensing the need for a new tank truck suitable for extinguishing fires where there was no water supply and also the need of a truck which would pump water while moving, decided to undertake to raise the remainder of the needed \$4,500 to do the job. That meant about \$3,500 was needed.

So far, the firemen have asked for voluntary contributions only. The response has been good to date, and at the last account, about \$2,525 had been donated. Very little solicitation was necessary to obtain this amount.

But another \$1,000 is needed, if the bill is to be paid. Most of the money contributed so far has been given by farmers and ranchers of the area, who feel the need ;

of protection for their grass lands, as well as for their homes and other buildings on their property. The people

There are a couple of things which I guess I had better mention before I forget it.

One is to pay your poll tax
