

MRS. MINIX NAMED MOTHER OF THE YEAR

Mrs. Emily Minix, a 98-year-old McLean widow and mother of seven children, has been named District 10 Texas Baptist Mother of the Year. Leaders said here Saturday.

Mrs. Minix has read the Bible completely through more than once a year for her entire life. She has, in fact, read it through 126 times. Her favorite passage is the 23rd Psalm. Even though Mrs. Minix lacks only two years having lived a century, she still reads the Bible daily without the aid of glasses.

She is one of 17 district winners who will compete for statewide Baptist Mother of the Year honors. The award is made each year to honor Texas Baptist's mothers who have made outstanding contributions to Christianity. The statewide winner will be announced around May 1.

A member of the First Baptist Church of McLean, Mrs. Minix has been active in Sunday school work as well as WMU.

Her late husband, C. E. Minix, was a McLean rancher.

Four of Mrs. Minix's children are still living. They are W. C. Carpenter, a hardware store owner, Sundown; Mrs. Clara Colebank, a McLean housewife; James Carpenter, lineman, Opelousas, La.; and B. I. Carpenter, a Southern Baptist missionary to Alaska. She has flown to Alaska twice in the past eight years to see her missionary son.

Mrs. Minix has 24 grandchildren, 52 great-grandchildren and 18 great-great-grandchildren. Included among the grandchildren are a missionary, a pastor and two ministerial students.

Sponsors of the Mother of the Standard and the Baptist General Convention of Texas. District 10 extends from Hall County on the south to the north, east and west borders of the Texas Panhandle. The 19 county area contains 112 Baptist churches and missions.

Ten Units Reserved For McLean's New Housing Authority Project

The Housing Authority of McLean was informed this week that the Public Housing Administration has reserved ten units for possible future construction in McLean.

Although the notification by the PHA is not a definite statement of the construction in McLean, it is an indication that further plans and studies will be made.

Jimmie Morris, chairman of the McLean Housing Authority, stated that the group would file an application for a preliminary loan as the next step toward grant on the units. Following the loan application a census will be made of McLean to determine the housing needed, and the outcome of this survey will directly affect the number of units that will be added.

Morris became chairman of the authority with the departure of Bill Perkins, who has served in the past.

Along with Morris on the authority are Bill Reeves, Elmo Whaley and Jim Hathaway. In the vacancy W. C. Simpson will be named to serve with the group.

McLean Seniors To Present Play

"Monkey's Uncle" is the name of the three-act play that the seniors of McLean High School will present Friday, April 18. A matinee will be given, starting at 1:15 p. m., and the night performance starts at 8:00. "The Monkey's Uncle" is a rip-roaring farce in three acts; it is written by Joy Tobias and published by the Drama Guild publishers. The cast is composed of five boys and six girls out of the senior class.

A young girl of 18 named Bonibel Piper is portrayed by Fern Grimsley. Bonibel runs away

from her stepfather in Wyoming and comes to her step-uncle who lives in a small midwestern town of Blue Hills. Her step-uncle is Gary Abershaw, played by David Woods, whom she falls madly in love with. To get from Wyoming she had to impersonate her younger brother and everyone in Blue Hills thinks she is a boy. Aunt Dossie (Charlotta Vaughn), the billywag Negress maid, finds out that she is a girl and that she is in love with Gary, but she doesn't tell her secret. Billy Bob Hefferfield, a young bully of 13,

makes life miserable for Bonibel as he bullies her around. Gary tries to make a he-man out of her by teaching her boxing lessons. Billy Bob is played by Kenneth Gossett.

Three women are trying to marry Gary and the fiendish ways that they go about this provide hilarious entertainment. These women are Rhonda, Darla Hill; Minnie Mae, Flo Nell Crockett; and Lili, Derlene Potter. Charlene Hall plays the part of Mrs. Dufrayne, the sophisticated old lady who has fainting spells. Larry Back, Jim Goldston and Jackie Bailey make up the rest of the hilarious cast.

Tickets are now on sale. Reserve tickets are 75c; adult, 50c; and student, 25c. Advance ticket sales are being conducted. People wanting tickets will contact Jim Vineyard for advance tickets.

Everyone is urged to come and bring their family and friends. The receipts will go into the fund for financing the senior trip.

WESLEYAN GUILD SETS DATE TO COLLECT CANCER DRIVE FUNDS

The Wesleyan Service Guild will solicit contributions to the 1958 Cancer Crusade on April 22.

Beginning at 6 p. m. on that day, the Guild will call at homes in McLean in behalf of the Cancer Fund drive that started here April 3.

Charles Cousins, chairman of the drive, has emphasized the importance of such a campaign here as the dread disease has affected the lives of so many local residents.

Cousins said that any church group that would like to aid in the drive is welcomed and may contact him for details.

In answer to the question, "Why a cancer crusade?" sev-

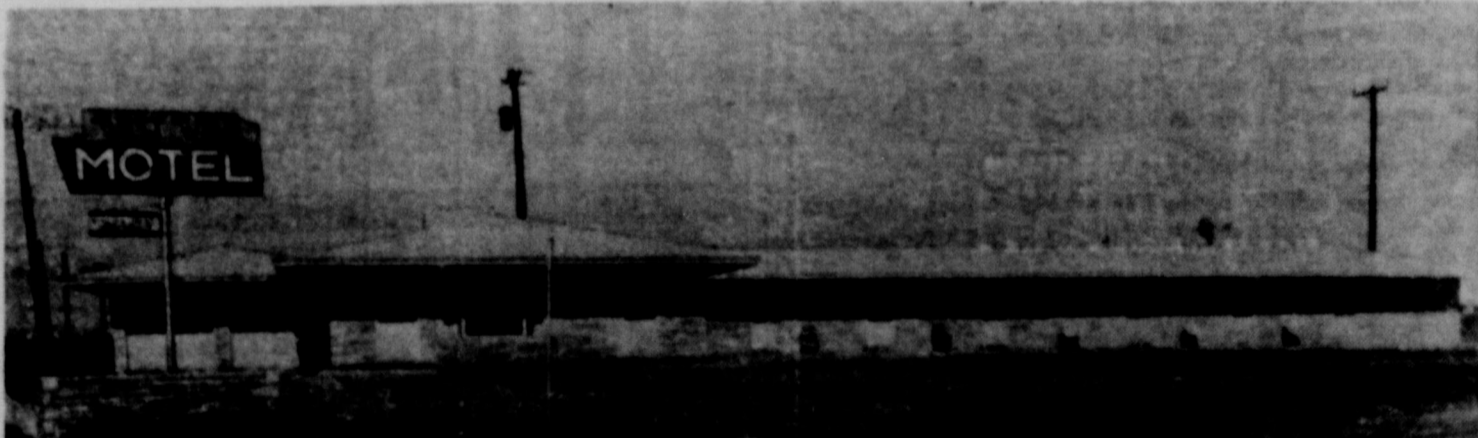

eral facts have been pointed out. It is estimated that if present rates continue, cancer will strike one in four Americans.

Cancer is the number two killer of men, women and children. It is estimated that if present rates continue, 40,000,000 Americans now living will die of cancer.

More children from 3 to 15 years of age die of cancer than from any other disease.

Radiation and surgery, used together or individually, will cure many cancers if treatment is started in time.

Last year, approximately 150,000 men, women and children were saved from dying of cancer by early detection and prompt treatment.

HEART OPERATION SUCCESSFUL!

Specialists arrived in McLean this week for a very delicate operation . . . the transfer of a heart. Feverish activity around the old, tired heart to be replaced started at 12 noon Monday. The new, younger heart was prepared for the operation, which had to be carried out on a split-second schedule so the system would continue to function.

After the new heart was spliced in, leaving both hearts in operation momentarily, the signal was given for the old heart to be severed. A tense moment of apprehension followed! Would it work? A great gasp of relief could be heard as the anxious crowd proceeded to breath again as the intricate piece of surgery was announced a success.

In a matter of seconds Southwestern Bell had replaced the old machinery with a modern new switchboard.

SPRING HOUSE CLEANING

Is spring house cleaning under way at your home? And are you planning to do a little redecorating, too? I have a suggestion that will help add a little color to your home whether you're cleaning or redecorating. It is this: Put some color telephones in your home.

We now have nine attractive colors plus black. The colors are: white, cherry red, pastel yellow, ivory, moss green, rose pink, aqua blue, light beige, light grey.

From this variety you can choose one or several to blend or contrast with any colors in your home.

Color extension telephones are practical, too. You'll be surprised at the steps they save: No more running from one end of the house to the other to answer. And, an extension telephone will give you more privacy on calls.

Color extensions are economical, too. Here in McLean they cost only \$10 (one-time charge) plus a small installation charge. The monthly extension charge is only \$1 a month.

GOING SOMEWHERE?

Some people I know have started planning their vacations because they know planning ahead can make a vacation more fun.

They've found, too, that calling ahead makes a vacation even more fun. No worry about whether you'll find accommodations. No guessing as to whether the people you want to visit are home. Calling ahead on your vacation trip or on any trip makes it more fun, gives you more peace of mind.

And, don't forget that the people at home like to hear from you, too. A telephone call is a personal, easy way to keep in touch.

Next time, call. Take the worries out of travel.

Call by number. It's twice as fast.

HERE WE GO AGAIN

Readers of the news coming out of Washington, D. C., must be getting that "here we go gain" feeling. It's about as certain as anything can be that a big federal deficit—perhaps totaling many billions in a single year—is looming.

Without arguing the pro's and con's of deficit spending, one thing can be said with certainty: the greater the deficit, the greater the chance will be of uncontrollable inflation. Other countries have been racked with depressions accompanied by ever-soaring prices. We aren't immune necessarily to the same fatal disease.

There are ways to hold the deficit to the lowest figure. One is to cut costs and spending in all the non-essential areas of government activity.

Another has to do with commercial services which the government provides. The charges for these should, wherever necessary, be increased to the point where they pay all the bills.

Many examples could be listed here. An excellent one is parcel post. It is a purely commercial service if there ever was one. It is competitive with taxpaying-private carriers, national, regional and local. It is not a basic post office function. To cap the climax, it has commonly been operated at a loss—which means that all the taxpayers pay a part of the bills of those who use the service.

Post office charges are in the news now, with bills under consideration for raising rates generally. Let's not overlook parcel post.

CHATTEL WITHOUT A VOICE

Independent electric companies expand ahead of their customers' needs and constantly work to encourage the use of the service. By contrast, power shortage has often been the order of the day in areas served by publicly-owned, politically-managed systems. Orderly growth of electric power facilities cannot be assured when the funds needed depend upon the vagaries of political favor, and when politics block private development.

This is being demonstrated again in sections of the country dominated by REA Co-ops.

Farm and rural electrification is 95% complete, so REA, like TVA, now seeks to perpetuate itself by extending its service into urban and industrial areas which it was never intended to serve, and where power from private companies is presently available.

REA Co-ops seek money they need for expansion through 2% loans from the Rural Electrification Administration. In other words, they ask for money from the government for less cost than it can borrow it. If REA is allowed to expand in this manner with "cheap" money at the taxpayer's expense, political pressure to turn it into a vast federal power monopoly, local in appearance, but controlled from Washington, could not be resisted.

The farmer would not be helped by destruction of private ownership and operation of one of the country's

basic industries. This would just bring him one step closer to a system which could deny him the right to manage his own land as he saw fit, and it could reduce him to the level of a chattel without voice in his own political destiny.

A DOLE FOR THE U. S.?

The Portland Oregonian says "With the 'panic button' being pushed by many hands . . . for rush legislation to halt the recession, there is a clear and present danger of getting 'emergency' laws which will become a permanent burden to production, expansion and employment." This observation was prompted by proposed legislation which, in effect, would federalize unemployment insurance and supersede the state laws. Benefits would be increased, the period during which compensation is paid would be lengthened, and the tax (which is paid entirely by employers) would be raised. The experience rating provision, under which employers with stable employment get lower rates than those with big personnel turnover, would be abandoned.

As the Oregonian sees it: "It is almost inconceivable at Congress, made up of representatives of the states, could submit even in panic to what would certainly be an all-out federalization of unemployment compensation. Employment and living conditions are greatly in variance over the country. . . . The ability of employers to sustain high benefits and a healthy economy is not the same in all states. Yet the drive for federalization . . . would deprive the states of discretion in the matter." The paper adds, with full justice, that the result would be "not 'earned compensation,' but the dole."

If the pushers of that "panic button" have their way, we're going to wind up with a centralized welfare state comparable to the British model—and, with it, we're going to have degree of inflation that really will curl the national hair. It's becoming obvious that the current recession is providing a crucial test of the American character.

**Congressman Rogers Reports—
TO THE PEOPLE**

Ten persons, representing themselves as former members of the Cuban Congress, have sent a memorandum to the members of the United States Congress. This memorandum includes statements of a very serious nature, insofar as the United States is concerned. For instance, the second paragraph of the letter is as follows:

"There is at present a widespread belief in Cuba that the United States is supporting Batista's ruthless dictatorship in contradiction to the repeatedly declared American policy in favor of world freedom and democracy. This belief is buttressing Batista's dictatorship, prolonging the terrible civil war now ravaging the country and seriously impairing the prestige and good will of the United States in Cuba."

You will note that the statements contained in that paragraph are conclusions of the writers and not factual; however, this paragraph is followed by another paragraph containing four sub-heads purporting to document supporting facts. A close observation of the matter contained in the four sub-heads reveals the assumption of facts rather than the documentation thereof.

The information has been sent out by one Dr. Lincoln Rodon, 5121 Alton Road, Miami Beach, Fla., and he is joined by nine others. The gravity of the charges would certainly warrant a full investigation by the Department of State, the Department of Justice, and the Department of Defense.

Reorganization of the Defense Department

The President's proposal to reorganize the Defense Department will probably cause major fire-works on Capitol Hill. There is a decided division of opinion as to the role that should be played by civilians in the military setup. It is accepted that the military has always been very jealous of what it considers its jurisdiction. This applies not only to the military as a whole, but to the several departments of the military, to wit, the Army, the Air Force and the Navy. In fact, there have been rumors of jealousies cropping up between the different branches of each of the departments. It is these inter-service rivalries that could be the major factor prompting the President's new proposal. It will be remembered that it was only a few years ago that our military establishment was reorganized and the office of Secretary of Defense created. This new office was given cabinet status and replaced the former Secretary of War and Secretary of the Navy. That reorganization was supposed to answer all of the inter-service problems and unify under one command the operations of our military. The purpose to be accomplished was a more effective military operation at less cost to the taxpayer.

It has been argued many times that unification was not accomplished by that reorganization and that costs were not reduced but increased; that the actual result was nothing more than the creation of a new and additional department of the military. It would certainly be safe to say that the sought after result was not accomplished by the previous reorganization; otherwise, there would be no need for the new proposals of the President. Whether or not the President is right in this new approach is not the controlling question in my mind.

The fact is that something must be done in order to clarify our entire military establishment. Our national security program now consumes over 60c of each tax dollar. In other words, the security program is slated to receive almost 46 billions of dollars out of the 72 billion dollar budget request of the President for the 1959 fiscal year. During the 1959 fiscal year the government will collect 38.5 billions of dollars in individual income taxes. This is more than half of all of the taxes collected by the federal government from every source.

The military not only consumes all of the individual income taxes but must dip into other taxes to the tune of an additional 7.3 billions of dollars. The back of the American taxpayer is already at the breaking point; therefore, it is essential that every effort be made to provide better efficiency at less cost in the military. This will not only better serve the defense of this nation, but can also be the source of much needed tax relief for John Q. Public. Let us all hope partisanship will not prevent a sound and practical evaluation of our military establishment to the end that proper changes be made in keeping with our best interests. F. A. I.

Delegates of the Federation Aeronautique Internationale met

in Los Angeles, Calif., on April 14 for their 51st convention. Those delegates came through Washington and were entertained several times. The delegates came from both sides of the Iron Curtain, some being from Russia, Poland, Rumania, Bulgaria, Czechoslovakia and Yugoslavia. They were welcomed in the Rose Garden of the White House by the President, who told them, among other things:

"If we can get people talking to each other, living together, going to each other's homes, I think the world's troubles would be over."

"I have tried in this country to talk about people meeting people. I think governments are far more stupid than are their people."

These delegates, 200 strong, were also entertained by the Washington Aeronautics Club at the Mayflower Hotel where they were addressed by Secretary of State John Foster Dulles. F. A. I. is an international organization which held its first meeting in Paris on October 14, 1905. Aviation at that time was just about as young as is space travel at the present time. If the same progress is made in space travel as has been made in air travel, watch out, Mr. Moon.

Massachusetts is the only state governed under its original constitution.

WHAT IS A BANK WORTH — TO YOU?

We don't mean the physical assets, but a bank's worth as a place to save your money safely . . . for the convenience of checks . . . for safekeeping of valuables . . . for loans when you need money, etc.?

It would be difficult to name a value for the many services a progressive bank can offer, for its prestige in your business and personal transactions, for the financial friendship built up thru the years.

For your day-to-day money needs, for the times in life when you face financial opportunities or emergencies, the services of your bank can be an asset beyond price.

Setting the style trend

There's a lot of Thunderbird in every Ford Station Wagon. All six Ford wagons have Thunderbird-inspired style. You'll see it in the trim, sculptured lines and in the impressive front and rear treatment. It's style that sets the style.

Reversing the price trend

Ford made price news everywhere by being the only car in its field to reduce prices in '58. While prices of other cars went UP, Ford made big news by actually pricing some '58 models below comparable '57 models. What's more, Ford Station Wagons are the lowest priced of the low-price three.

With the world's newest V-8, Ford makes engine news, too, with a great new V-8, brim full of Thunderbird power, yet surprisingly economical to operate. Precision Fuel Induction gives you more power on less gas by delivering the fuel-air mixture directly to the cylinders through eight expressways. Result: you GO better, for less.

With Cruise-O-Matic, 58's answer to the chauffeur shortage. It's the newest, most versatile automatic transmission yet. It's like having a built-in chauffeur to shift gears for you. Try it today!

Miss Quattlebaum Entertains

Miss Lillian Quattlebaum honored the senior class Tuesday evening with a six o'clock spread. Every guest, excepting members of the senior class, brought a dish or a lunch. Outdoor games were indulged in until the dinner was spread. Music was furnished and everyone spent an enjoyable evening.

The guests were as follows: Misses Willie Morton, Eunice Stratton, Alma Anderson, Janie Cousins, Lois Bullock, Leona Watkins, Thelma Rogers, Dolores Dougherty, Gaynelle Wilson, Alma Evans, Blanche Mayfield, Maudie Wilson, Dora Dean, Kate Wilson, Julia Foster, Robbie Ashby, Audie Henson, Estelle Cooper, Mary Henry, Opal Davis and Lorene Stanfield; and Messrs. Foster Van Sant, Hughes Quattlebaum, Millard Newton, Raymond Bell, Otto Mayfield, Johnnie Back, Andrew

Jordan, Lucius Rogers, Henry Bailey and John Stockton. Commencement Sermon

The sermon to the class of 1918, McLean High School, was preached at the Methodist church Sunday morning at 11 o'clock by Dr. Geo. S. Slover, president of Clarendon College.

Because of the inclement weather, only a few people were present.

Dr. Slover delivered a masterful sermon that should prove a source of inspiration to the class as well as all young people who were fortunate enough to hear him.

Women Must Register to Vote

In order to qualify as voters, women must register at the county tax collector's office. The date of registration begins June 27 and continues 15 days, closing

15 days before the election July 27. You must be 21 years old, having resided in the county six months and the state one year. You must have in possession this year a registration receipt and hereafter a poll tax receipt when you go to the polls to cast your ballot. Your poll tax must be paid on or before January 31 of each year.

It is expected that the women will assume this new duty quite naturally and intelligently, since for several years their interest, reading and conversation have embraced all subjects upon which they will be expected to approve or disapprove.

A CHALLENGING CHOICE TO MAKE

There is a dilemma to confront each life that would live constructively. The New Testament records a number of such choices. "The Rich Young Ruler" failed. "The Woman at the Well," "The Prodigal Son" and others won. The one that solicits our sympathy is that of Peter. He had vowed that he would follow Jesus all the way. Matthew 26:33-35, but when caught between being

loyal to Christ, now condemned to the cross, or playing safe with his own life, he chose the latter. Yet, when faced with the reality of his conduct, his better nature led him to prayer and deep confessions.

Where there is sincere honesty of soul, God has an opportunity of reestablishing proper relationship with Himself and the dependent soul. It is interesting the way Peter was directed after the resurrection (Mark 14:66-72; Mark 16:7); also (St. John 21:

McLean News

15-19). The three denials called for three confessions. Peter was then in position to take his place with the disciples in telling his generation about the Risen Christ. It is not too difficult to tell others about Christ when your love for Him has been reaffirmed by a person to person contact through confession, and a full commitment to His way of life. Millions have since followed Peter's example and find that it works. It is God's way of bringing fullness of life to us as individuals. Have you tried this way to happiness?
