## Cemetery Ass'n Membership Drive Started

A concentrated drive for memberships in the newly-formed Hillcrest Cemetery Association will get underway in McLean this week, Feb. Everett, chairman of the association, has announced.

"It is our hope to contact every adult resident of the McLean area," Mrs. Sinclair Armstrong, chairman of the membership committee, said. "We feel that everyone will want to become a member, and thereby do his part in improving the cemetery property. The amount of work to be done will depend largely on the success of our membership drive."

Individual memberships are \$3 per person per year. However, the committee is stressing that more will be gladly accepted if someone wants to make a larger contribution. The committee also stressed the idea of members planning to make their contributions each year, and not just the first year alone.

The money derived from memberships will be used to supplement that which is already being spent on maintenance of the cemetery by the City of McLean. Everett emphasized that the city will continue with their portion of the work, but that the membership funds will be used to aid the city and to enable more beautification to be done.

Letters explaining the new association, its purpose, and its aims have been mailed to many lot owners who live out of town whose addresses are known. No letters will be mailed to people here in town, since personal contact is to be made with them. Mrs. Armstrong said.

Working with Mrs. Armstrong on the committee are Mrs. C. E. Cooke, Mrs. Frank Wilson, Mrs. M. L. Johnson, Mrs. Grace Windsor, Mrs. T. H. Andrews, Mrs. J. R. Phillips, Mrs. C. P. Callahan, Mrs. Corinne Trimble, Mrs. Mattie Graham, Mrs. Wheeler Carter, and Mrs. Jewel Meacham.

## Funeral Rites To Be Friday For Mrs. Jones

Funeral rites for Mrs. George (Alice Mae) Jones will be held Friday afternoon at 2:30 o'clock at the First Baptist Church in McLean, with Dr. Buell T. Wells, pastor, officiating.

Mrs. Jones died Wednesday morning in the home of her daughter, Mrs. R. L. McDonald, in McLean. She was 86 years, 10 months, and 10 days of age.

Pallbearers at the services will be Leland Newberry, James Barker, Clayton Peabody, Calvin Evans, R. L. Appling, and Homer Abbott.

Survivors include the daughter, Mrs. McDonald; two sons, W. J. Jones of Vallejo, Calif., and R. L. Jones of Foster, Ore.; seven grandchildren, and eight great-grandchildren.

Mrs. Jones was born September 6, 1865, and had lived in and near Wheeler County since 1907. She moved to McLean four years ago, and had been making her home with her daughter since that time.

Floella Cubine, daughter of Mr. and Mrs. Ercy Cubine of McLean, is the new sweetheart of the McLean Lions Club. She will be senior student in McLean High School next term, and the Lions automatically choose a senior girl for their sweetheart. Floella was introduced at the regular meeting Tuesday noon.

## Softball--

The Shamrock team and the Oilers have dropped out of the summer softball league, leaving four teams. Only one league game has been played during the past week, the Post Office downing the Methodists 14-10 Tuesday night.

Remainder of the schedule is as follows:

- July 17: Holloway vs. Methodist. FFA vs. Post Office.
- July 24: FFA vs. Holloway.
- One game is yet to be made up, the Methodist-FFA game postponed from July 1.

## Showers Are Light—Bring .22 of Inch in Moisture Here

Some rain came during the past week—a total of .22 of an inch—but crops throughout the Panhandle area were still waiting for more moisture.

The showers in McLean came on three different mornings. Saturday morning .07 of an inch fell, Monday morning .02 of an inch, and Tuesday .13 of an inch. The moisture total for the month is now .74, and the year's total stands at 10.34, Pete Fulbright, local weather observer, said.

## A hard downpour coming Wednesday night brought a total of .72 of inch here

Miss Sue Glass, T. W. Duncan, Don Godfrey, and Sponsor Vernon Gibson are representing the McLean chapter of the Future Farmers of America at the annual state convention being held in Dallas this week.

Miss Glass will be one of ten area sweethearts to compete for the state sweetheart title. The contest is to be held Friday morning when the group convenes for the final session of the meeting.

Accompanying the four to Dallas early Wednesday morning were Mrs. Gibson and Mrs. J. R. Glass, Sue's mother. They plan to return Friday following the closing of the convention.

Duncan and Godfrey are official delegates from the McLean chapter. Miss Glass was first chosen as the sweetheart of the local chapter, and then was named sweetheart of Area 1 at Canyon.

Other girls in the contest will be Ann Way of Big Lake, Area 2; Judy Middleton of Calvert, Area 3; Murlene Phillip of Vernon, Area 4; Barbara Seale of Honey Grove, Area 5; Sarah Reynolds of Pittsburg, Area 6; Margaret Epperhart of Luling, Area 7; Juanita Wright of Waco, Area 8; Peggy Green of Nacogdoches, Area 9; and Shirley Youngblood of Boeville, Area 10.

## Mrs. Coleman Named Teacher Of Homemaking

Mrs. J. D. Coleman has been elected by the board of the McLean Independent School District to serve in the capacity of home-making teacher in McLean High School next year, Superintendent Paul Kennedy said this week.

Her husband, who was re-elected to the school board at the last election, has resigned. His resignation was necessary before the board could employ Mrs. Coleman as the home-making teacher. The board has named no successor to Coleman.

Mrs. Coleman is well known here for her ability as a teacher in that department. She served here several years, resigning four years ago.

She will succeed the late Miss Betty Stuart, who died of Bright's disease a short time ago. Miss Stuart had taught in the local high school the past year, and was in Lubbock at the time of her sudden death.

Although Mrs. Coleman will not officially assume her duties until August 1, she will aid girls who have summer projects at any time. Since records of the summer projects are not available, Superintendent Kennedy is asking that these girls contact either him or Mrs. Coleman for any assistance needed. The summer projects count toward academic credit, and in some cases, the girls must have approval and aid to complete them.

## Derbies Drop League Game To Hedley Nine

The McLean Derbies had the game all sewed up at the end of seven innings, but something happened in the 8th and 9th frames, and the visiting Hedley team wound up on the long end of a 19-10 score in a Caprock League game here Sunday afternoon.

The Derbies had a comfortable 9-3 lead at the end of seven periods, but the Hedley nine blasted Pitcher L. M. Watson in the 8th frame, and got in five runs. Then in the 9th, after Watson was relieved by Magee and later Edwards, the visitors got eight more tallies.

But Watson didn't do bad by himself. He got seven strikeouts, and then in the third inning he blasted a homer completely over the fence into the adjoining football field. The other homer of the game was gained by Marcum, center fielder for the Hedley nine, who socked his as he led off the batting in the first inning.

The Derbies took the lead in the first inning, running in five scores. Adding two more in the 3rd, and one each in the 6th, 7th, 8th, and 9th, they held the lead until those disastrous 8th and 9th innings.

Next Sunday afternoon, the McLean nine goes to Pampa to meet the Black Oilers. The league game with Washburn will not be played, since Washburn has dropped out of league play, Manager W. W. Edwards said.

## Precinct Conventions to Be Held On Day of First Primary—July 26

### Top o' Texas Rodeo Planned For August 5-9

Cowboys and cowgirls of Texas, Oklahoma, New Mexico, and Kansas will soon start shining their boots and getting their "ridin' and ropin' arms in shape for the big 'Top o' Texas rodeo to be held in Pampa August 5 through August 9.

The big amateur show will get underway Tuesday night, August 5 with the Kid Pony Show and miniature rodeo when the small fry will have the arena to themselves to compete for the many prizes offered. Contests for the kids will include bull riding, roping events, barrel rides, doughnut races, and many other novel contests. Little Bobby Benson, the kid cowboy and famous Mutual Broadcasting company radio star, will lead the grand entry for the kid show and have a part on the evening's program. He will also appear nightly at the regular rodeo performances.

The rodeo proper will get under way Wednesday evening, August 6, at 8 o'clock, following a downtown street parade at 4.

Many fine special attractions have been booked for this year's show, including the Amarillo Air Force band of 42 pieces. The band will lead the parade on Wednesday, and will furnish music for each rodeo performance.

The rodeo menu will include all the regular rodeo events including calf roping with a purse of \$360, plus one-half of all entry fees; double muggin, purse \$360, plus one-half entry fees; bareback bronc riding, purse \$200, plus one-half entry fees; bronc riding, purse \$230, plus one-half entry fees; bull riding, purse \$200, plus one-half entry fees; bull dogging, purse \$260, plus one-half entry fees; cutting horse contest, purse \$300, plus all entry fees. As an added prize for the winner of the cutting horse contest, Cree and Chamberlain Insurance company will pay \$160 on a special made-to-order saddle. The cutting-horse contest will be an approved NCHA contest and will attract some of the best horses in the nation. Cutting horses will work on each night's card.

The cowgirls' sponsored contest will again be one of the popular events of this year's show and will attract the best cowgirls of the country. They will be riding for the top prize, a special made Top o' Texas saddle presented by the association. Second prize will be a fancy riding outfit, and third prize will be a pair of shop made boots. The girls will be competing for cash prizes for day money. All entry fees will be added back in day money.

DICKY SLIGAR gets scholarship

## Dicky Sligar Named Winner Of Scholarship

Dicky Sligar, son of Mr. and Mrs. Fred Sligar, has been awarded one of 50 scholarships given annually by the Phillips Petroleum company to outstanding children of its employees.

The scholarship is worth about \$2,000, to be used over a four-year period so long as the recipient makes satisfactory progress in his college work. Young Sligar may use the scholarship at any institution of higher learning of his choice, and he has planned to attend NTSC in Denton to continue his study of music.

The Phillips company begins the selection of the award winners each September. This past year, a total of 90 students were selected on the basis of their high school records and upon recommendation of school officials. Then in May, the 90 went to Amarillo and took the aptitude and intelligence tests made up by the company, and 50 of the 90 making the highest records were awarded the valuable scholarships.

Superintendent Paul Kennedy, who was informed of Sligar's award, stated that he and others have figured that Sligar's studying outside of class hours over a four-year high school period have earned for him approximately \$2.75 per hour. That, as Kennedy pointed out, is good pay for extra-time work on the part of a student.

Sligar is a member of the Amarillo Junior Chamber of Commerce, and will be in the city during the week-end, and already about 75 tickets is to be limited, since only a certain number of people can be accommodated in the American Legion Hall.

The tickets are \$1.50 per plate, and are being sold by four Jaycees. They are Odell Mantooth, Chevron Gas Station, J. W. Meacham, McLean Hardware; Lester Campbell, McLean News; and W. C. Simpson, Cooper's Foods.

The program during the banquet will be highlighted by the appearance of Wes Izzard, publisher of the Amarillo Daily News, who will make the principal address. Izzard returned this week from Chicago, where he attended the national Republican convention, and will speak on national politics at the banquet. His voice is known throughout

## Texas Demos Meet Amarillo September 9

Democrats of Gray County will hold their second precinct conventions of the year Saturday morning, July 26, County Chairman Aaron Sturgeon has announced.

The county convention will meet in the district courtroom in Pampa on Saturday, August 2, the date set by the Texas election laws. The state convention is to be held in Amarillo September 9, at which time all primary nominees will be certified for appearances on the general election ballot in November. Also at the state meeting, policies, etc., are to be decided upon.

No word was available here concerning the time or locations of the Republican precinct and county conventions. However, the Republicans are expected to be quite active in many places in Texas this year. Ordinarily, a Democratic nomination is equivalent to winning the office sought in Texas, but the Republicans plan to have opponents for many of the state offices this year.

Governor Allan Shivers has called on all Democrats of the state to attend their precinct conventions. Here, he points out, the voter has a voice in state and national politics under the present convention set-up. But if a voter does not attend a precinct convention, and is not a delegate to one of the higher conventions, he has no voice whatsoever in the higher-level politics.

Voting Precinct No. 5, McLean, will have its convention in the City Hall—Charles Cousins is the precinct chairman; No. 17 will meet in the Dysart Motor company building—Ercy Cubine is the precinct chairman; and Alan-ree's Precinct 4 will be in the office of W. H. Blakney—he is the chairman of that precinct.

## New John Deeres To Be Displayed

Two new heavy-duty John Deere 2- and 3-plow tractors, successors to Models "A" and "B," will be announced Saturday, July 19, by Joe B. Taylor of the McLean Implement company.

According to Taylor, these new tractors feature a host of engineering achievements and major improvements which make them the greatest values ever offered by John Deere. Taylor states that one of the new models will be on display Saturday at the McLean Implement building, and he extends a cordial invitation to everyone to stop by and see the new tractor.

## Kellerville Polio Case

Tommy Sargent, 6-year-old son of Mr. and Mrs. Dick Sargent of Kellerville, is suffering this week in St. Anthony's Hospital in Amarillo with a light case of polio. Tommy is the first in this area to contract the dreaded disease this summer.

His case was reported as light thus far, although complications might set in which are unforeseen at the present time.

Don Sargent, 9-year-old brother of Tommy, was sent to St. Anthony's Wednesday for observation. Don showed symptoms of the disease, but his case is very light if he has polio, it was explained.

The Sargents had been to Fort Worth on a vacation, and Tommy became ill just before they left Fort Worth.

## Youth Burglarizes Four Places

A young man whose address has not been definitely determined had a busy evening last Thursday in McLean, gaining entrance to four different places via the burglary method. But he failed to use a car which he allegedly had stolen in Tulsa, Okla., to make his get-away.

The young man, who has given his name as Franklin Dewey Sopek, was arrested early Friday following a suspicion by Ted Simmons of the Texaco Service Station that something was wrong.

Deputy Sheriff Jimmy Shelton, who made the arrest, found the following items in Sopek's possession: the automobile; a tape recorder taken from the Church of Christ; a portable typewriter taken from the First Presbyterian Church; considerable equipment taken from the concession stand

at the softball park, including five or six bats, eight new softballs, a five-gallon can packed with soda water and ice, and breast protectors for the catcher and umpire; and \$14.60 of the \$19.60 taken from the cigarette machine at Dawson's Magnolia Station.

Chief Deputy Shirley Nichols of Pampa came to McLean soon after the arrest. Upon questioning by Nichols and Shelton, the youth confessed to the four burglaries, and was taken to the county jail at Pampa. Federal officials have been notified of the stolen car.

Sopek was wearing a set of Navy identification tags bearing the name of Franklin Dewey Mize. He gave three different addresses as his home—Juarez, Mex., El Paso, and Carlsbad, N. M.

Friday morning, Simmons, having heard of some of the burglaries of the night before, became suspicious of the youth when he again came by the station. This time, he stated his car was stuck in the sand near the City Park.

Simmons then offered to help him, and they started to the park. En route, Simmons contacted Deputy Shelton, and asked him to follow. Upon arrival at the park, Shelton discovered some of the money taken from the Dawson station, and other small items. The trunk lid was opened, and the other loot was found there.

**JOHN H. HARNLY FOR COUNTY JUDGE**

Friends, Neighbors, Voters of Gray County: This is the third of a series of ads to acquaint you with my candidacy for County Judge of Gray County.

A year ago the County Commissioners Court, whom the judge presides over, sent out notices skyrocketing our state and COUNTY taxes as high as 700% in some instances. These increases applied to property all over the county and affected each and everyone of you taxpayers.

When the court sat as an equalization board there were several hundred angry taxpayers present. These taxpayers represented farmers, ranchers, business men, and oil operators. I led the fight of these men to have these taxes lowered. IT WAS THRU MY EFFORTS AND THOSE OF TOM ROSE JR., along with the unanimous support of those present that the court reconsidered and placed a 10% raise across the board.

We adjourned and thought that everything was settled on an equitable basis. Late in the fall when the tax notices were sent out we found that the court had acted in bad faith and had left the increase on certain types of property. This was not equitable or honest on their part. The way to insure that such things do not happen in the future is to elect JOHN H. HARNLY County Judge along with a new set of County Commissioners that will see to it that taxes are assessed on an HONEST AND EQUITABLE BASIS.

Furthermore, the court tabled the proposed tax increase for further study, and if a majority of the present Commissioners Court along with the present judges are re-elected, you can look for higher taxes even though the county took in \$150,000.00 more in 1951 than they spent.

Remember that your county taxes have been increased 53% since the present judge took office, based on increases in valuation and increase in rate. All figures quoted are based on auditor's report.

REMEMBER THAT I AM A LONG-TIME TAXPAYER OF GRAY COUNTY AND THAT MY ONLY REASON FOR RUNNING FOR COUNTY JUDGE IS TO PROTECT YOUR AND MY INTERESTS BY SEEING THAT THE COUNTY HAS AN HONEST AND EQUITABLE ADMINISTRATION.

**GROWING PAINS  
In Gray County**

By FOSTER WHALEY

Although the acreage of cotton is somewhat less than anticipated earlier, the prospects look good for this time of year. Dry weather and hot south winds prevented many people from getting stands.

Bag worms seem to be invading our shrubs and evergreens. They are easy to kill by spraying with a mixture of 6-8 tablespoons of arsenate of lead to one gallon of water.

In Pampa I have lots of calls on how to control squash bugs. Dust the plants with 20 per cent sabadilla dust. If 100 per cent sabadilla dust is all you can get, mix one part with four parts

of flour and this will give you the proper mixture.

I was at the Amarillo livestock auction sale on Monday, July 14, and watched a few cattle go through the sale. The market is still pretty weak, but somewhat recovered from the drastic drop of a few weeks ago.

Occasionally I am asked what is a good creep feed for calves. As you know, this is a method of feeding stock calves while they run with the mother cows. Here's a good mixture: after you have the calves started on oats, 200 pounds of coarsely ground barley, ground corn or grain sorghum grain; 100 pounds of oats, and 50 pounds of cottonseed meal.

Some experts say 450 pounds of grain and concentrates will produce a calf that will weigh 100

pounds more in the fall. To figure the economy of a creep feeding program, you should figure the cost of 450 pounds of feed and see if it would pay you to feed.

All poison grain has been removed from the Paymaster Gin. Mr. Earthman tells me he has had a few calls for this grain in the last few days. Arrangements have been made with Smoky Price to handle this grain at cost for the convenience of McLean farmers.

Right now I've got to run help Joe Franklin up on McClellan Creek lay out an irrigation system for some alfalfa.

**Small House with Custom Touches**

This house on a typical suburban lot can be bought complete, except for fences, for \$14,000 in the San Francisco area. It has 1,111 sq. ft. of enclosed space, and its features include paved terrace, fenced service yard, private garden, storage room, double carport, and completely equipped kitchen. The price is based on the quantity produced by the builder. On your own lot it would cost about \$16,000, and in other parts of the country an additional 10 percent for a larger heating plant and more insulation. As shown in House Beautiful magazine's special issue "Guide for the Bride," this house is completely furnished of wood and plywood on a concrete slab floor.

**Donley County SOIL NEWS**

Although the weather has been hot, dry and windy for the past month, some farmers are still reporting good stands of grass being obtained. One of the most enthusiastic farmers over his stand of grass is H. L. Riley, who lives about five miles northeast of Clarendon. Mr. Riley only planted about 9 acres this spring, but after obtaining such good results he wishes he had planted about 40 acres. Mr. Riley drilled his grass on April 17, 1952, with one of the district drills. A mixture of blue grama, side oats grama, buffalo, and weeping lovegrass was used, and some of each can be found, but the weeping love is the one that is making the showing. Part of the land planted was deep plowed last winter and part the winter of 1950 and farmed to cotton last year. The cotton land was chiseled in the spring before drilling, and has a better stand of grass on it than the land that was deep plowed last winter although both are good. Mr. Riley mowed the weeds and grass down to within two inches of the ground on June 16, and now the grass is green and has grown to an average height of at least six inches, with some bunches making seed heads one and one-half to two feet tall. Beside planting grass, Mr. Riley is trying to get alfalfa started on his place, and has a stand on one small area—if it would rain enough to allow it to establish itself.

Another grass planting which looks promising in spite of dry weather and a heavy infestation of Johnson grass is on S. M. Fedric's place about one mile north from Clarendon. Mr. Fedric planted a mixture of weeping lovegrass and madrid sweet clover May 1, 1952, on land he plowed 12 inches deep with his own equipment. There is an excellent stand of grass, sweet clover and lots of weeping lovegrass, which is harder to find in the Johnson grass because it is smaller. Mr. Fedric has mowed the area once and plans on starting to graze it this week—which will help control the Johnson grass. Beside weeping lovegrass and sweet clover, he has planted a few buffel grass seed by hand to see what this much publicized new grass will do in this area. He has some of it up, but so far it has not made as much growth as the weeping lovegrass.

Two other plantings were seen, one of them King Ranch blue stem and blackwell switch grass on the J. T. Trew ranch near Alameda, and the other on the O. P. Blackwell half-section south of McLean. Mr. Trew has a good stand of blackwell switch grass, but very little King Ranch blue stem. Mr. Blackwell planted 76 acres of weeping lovegrass and madrid sweet clover mixture, and 58 acres of sand lovegrass and Indian grass mixture. He has a fair to good stand on all of it, but there are lots of weeds sapping the moisture, and if it remains dry part of the stand may

**GOLDEN RING APPLE-PEAR SALAD**

Salads taste good in any season. Crisp, fresh vegetables and fruits in a harmonious combination make an appetizing, nutritious addition to any meal. A savory dressing adds body and taste appeal to any type of salad. Try golden ring apple-pear salad with savory cooked dressing for a course to delight even the connoisseurs.

**Apple-Pear Salad**

4-6 carrots, shredded  
2 pears, peeled and sliced  
2 apples, sliced  
Shred the carrots. Prepare apples and pears and sprinkle with lemon juice to prevent darkening if they are to stand. Just before serving, arrange carrots in a ring on a big plate. Fill the center with the apple-pear mixture. Serve with

**Savory Cooked Dressing**  
1/2 cup vinegar or lemon juice  
2 tablespoons margarine  
1/2 - 3/4 cup sugar  
2 tablespoons flour  
1/2 teaspoon salt  
1 teaspoon dry mustard  
1 teaspoon celery seed  
1 egg  
1/2 cup water

Heat vinegar or lemon juice in the upper part of a double boiler or over slow heat. Mix dry ingredients with egg and water. Stir into the hot mixture and cook slowly, stirring constantly until smoothly thickened. Store in a covered jar in the refrigerator until ready to use. This yields about 1 1/2 cups and keeps well. (This is a perfect dressing for fruit salad. It may be combined with about one-third whipped cream. When used with a vegetable salad, thin with cream or fruit juice to suit taste.)

Comparisons of the four plantings indicates that grass, like other crops, responds to the deep plowing and comes up to a better stand and grows off faster than on land which has not been deep plowed. The sandier the soil, the more important the deep plowing seems to be.

JUDGE JOE S. MOSS

**The Law Can Be in Simple Language**

Any simple document signed by a Gray County citizen may some day have to be interpreted by the Court of Civil Appeals at Amarillo. In over 41 years the court has existed, it has decided over six thousand civil cases. It is to the interest of the people of Gray County that qualified men of the people sit on that high court. Judge Joe S. Moss of Garza County believes that legal papers and proceedings should be in the language of the people, rather than in legal fine print. Judge Moss will help simplify and speed up the machinery of the law. Ask the people who know him. Vote for Moss. A Civil Judge for a Civil Court.

### THE RACE IS ON

**THE REPUBLICAN CONVENTION**, which ended last Friday evening, turned out to be one of the most interest-raising conventions in modern political history, and its final outcome was most surprising to political observers throughout the world.

When the convention delegates began to gather in Chicago, Senator Robert A. Taft stood far out in front as the leading candidate, and was even slated to win the Republican nomination for president on the first ballot.

But apparently, his pre-convention maneuvering for delegates eventually cost him the nomination. From the time the forces of Dwight D. Eisenhower started the ball rolling on their "fair play" amendment to the convention rules, the Taft cause was slipping. The general's forces never let up, and the bandwagon gathered momentum as it carted up the hill to victory on that first ballot.

It is evident that the rank and file of Republicans felt that their party is badly, very badly, in need of a candidate popular enough to win in the general election next November 4. Should the Republicans lose, their party will have suffered much, and they will find it hard to recuperate in time for the next battle in 1956. But the Republicans now have a new element in charge. Instead of the old smaller national committee, the membership will include several hundred, and it will be much harder for a few "old guard" Republicans to gain control of the party machinery as was the case of Taft's grab of delegates prior to the convention.

We are not, at this time, endorsing the Republican slate for president and vice president. We do believe that the party has named two men who will be hard to beat—Eisenhower, and Richard Nixon of California as his vice-presidential running mate. Nixon, junior senator from California, is apparently a popular man in his state and in the work of the U. S. Senate. He is only 39 years of age, and this should appeal to the younger voters of the nation. The Republican slate does look good, and it is likely to be a very popular slate. The Republican platform—what part of it we have had a chance to study—is also likely to be a popular platform to most sections of the country.

So it appears to us that the Republicans, if they do not "let up" as they did four years ago, are standing in a good spot to control the election—at least the presidential end of the election.

The nomination of the two popular men will also be felt throughout all states, even the traditionally-Democratic states like Texas. The Republicans plan to have opposition to the Texas Democratic nominees to the U. S. Senate, whoever he may be. Ben Guill of Pampa is slated to run for representative against Walter Rogers again. And there will be much more Republican opposition in the grand old Lone Star State in many years.

The Democrats convene in Chicago in a few days. They certainly have a powerful challenge to meet. Will they be able to meet that challenge?

## TALK

By LESTER

Not too many weeks ago, we ran the picture of Mrs. C. M. Eudey in this column. By a strange coincidence, the day the paper reached its readers—with Mrs. Eudey's picture in it—was the 32nd wedding anniversary of Mr. and Mrs. Eudey.

Can't recall who it happened to now, but we have also run one picture of a person on his or her birthday. This also was a coincidence, and we didn't know anything about the birthday angle.

Last week we skipped running any pictures—for one reason, we had something else to say for a change. But this week we are resuming the picture deal with shots of two of our fine local male citizens.

This picture is, of course, of Laroy (Buddy) Sutton, better known at the McLean Lions Club meetings as "85c Sutton." The 85c refers, incidentally, to the price of haircuts at the current rate. Nearly all of you know Bob Everett. He owned and operated a barber shop in McLean for many, many years. But apparently his feet got tired, and he decided to retire from the active profession of cutting hair. He began looking around for a buyer for his shop. But he loved the shop and the trade he had built up, and he wanted a good man to take over. So Buddy Sutton turned out to be that man. Buddy, in addition to being a good hair-cut and shave artist, is making McLean a good citizen. He is active in Lions Club work, and only last week was installed as third vice president of the club. He is particularly interested in sports, and as a result of this interest, he has been valuable to the club in its softball program. Buddy is also an active member of the Jaycees, and of the American Legion. He is one of the many young men who have come to our community since the war ended to make his home, and he is adding to the daily progress of the community.

This second gent is Guy Saunders—he's kinda the "daddy" of the S. and H. Cattle company. He came here just a few years ago, and with his son and son-in-law, went into the ranching business near McLean. He lives within the city limits, and takes a great interest in almost every worthwhile activity. He has become one of the most faithful and probably the hardest-working member of the McLean Church of Christ. There are few activities of this church in which Guy Saunders is not taking a most active part. To Guy Saunders, church work comes first. But the church isn't the only thing which he supports, both with his keen mind and will to work, and also with his money. He is one of our largest contributors to the

March of Dimes campaign each year; he contributes heavily to other worthy causes, too, such as the Red Cross, etc. Right at the moment, I expect that Guy Saunders is relieved to a certain extent. The most successful Singing Normal of the Church of Christ is over. You see, he was the leading man in getting the Singing Normal in McLean, so I would imagine he is glad it is over.

Both of these men are only short-time residents of McLean. But look at what they have accomplished, and are accomplishing. It is a lesson all of us should study.

One of my ambitions is to some day attend one of the national political conventions. Don't really care whether it's the Democrat or Republican. Just one of them. I would like to see the show. It simply must be something. However, I don't believe I would care to go as a delegate, for I would have to miss so much. Seems as though the delegations are in caucus about half the time. Anyway, with all due respect to the conventions and to their purposes which are important, these political conventions must be just as entertaining as any form of recreation could be.

A fellow named John walked into a restaurant one day and ordered soup. When it came, he turned to the waiter and said:

"I can't eat this soup."  
"Sorry, I'll call the manager," was the waiter's reply.

To the manager, John said: "This soup, I can't eat it."

"I'll take care of it at once," the manager said. "Call the chef."

"I can't eat this soup," John informed the chef.

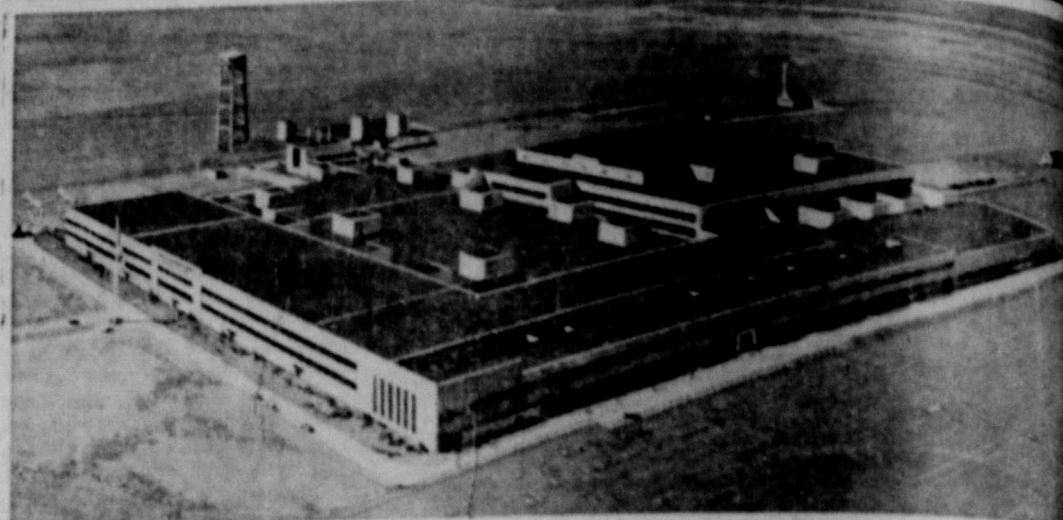

"What's the matter with it?" asked the chef.

"Nothing, only I ain't got any spoon."

Which just goes to show how some people jump at conclusions... and lots of folks do.

We've known instances right here in McLean where people generally assumed that certain

## GM Builds New 'Two-Way' Plant in Texas

Construction work has begun on the new General Motors "dual purpose" plant (above) at Arlington, Texas, where GM's Buick-Oldsmobile-Pontiac Assembly Division will build a Grumman-designed airplane for the United States Navy and assemble passenger cars simultaneously. The flexible layout of the plant will permit combined aircraft-automotive operations or it can be converted in a matter of days to either

total aircraft or total automotive production, depending upon military requirements. The "dual purpose" plant idea was first proposed a year ago by C. Wilson, GM president, as a means of maintaining strong military and civilian production levels with disruption of plant facilities or working forces. Most of the Buick, Oldsmobile and Pontiac cars produced in the Arlington plant will be for distribution in Texas.

Since 1941, the male death rate has exceeded the female rate by something like 70 per cent, the health officer said. For those 75 and over the risk of death from heart disease is a fourth again as great for men as it is for women.

These ever increasing deaths to heart, kidney, and blood vessel disorders have been observed for the last 30 or 40 years.

"If a state-wide heart program is to develop," he declared, "it

will be necessary that there be provided a professional investigating committee that will act on program procedures, give necessary directions, and formulate a control program for the heart.

He credited the American Heart Association with "fully influencing" fund appropriations, and for formulating a control program for the heart. It's the fresh egg that slapped in the pan.

## Heart Disease Fatal to Many Below 70 Years

State Health Officer Geo. W. Cox has forecast the death this year of some 30,000 Texans due to heart and blood vessel diseases. Twenty thousand will be men, and at least half the total figure—both men and women—will be less than 70 years old.

The problem of worn-out hearts, thickened blood vessels, and kidney disorders is an old one, he asserted, but said the longer length of average life isn't the whole reason for the great number of heart disease deaths.

To prove that point he quoted these figures: Of the 30,000 Texans that cardiovascular (heart and blood vessel) diseases will kill in 1952, about 15,000 will be less than 70 years old, 700 will be in their 30's, 2,000 will be in their 40's, 4,500 in their 50's, and at least 7,000 in the 60's.

Taken from the Files of The  
McLean News, 1912

**Gold Found in Panhandle**  
For several months there have been rumors afloat that gold had been discovered, and it is believed in paying quantities, on the Tule about nine miles northwest of Silverton. Several specimens of this find have been sent to experts in the gold mines in Mexico and in other places, and very encouraging reports have come from all of these who have examined it.

During the past few weeks, Dr. Carroll of Lockney and Mr. Howard of Amarillo, who is an expert mineralogist, have been prospecting the find. Mr. Howard has made a very favorable report on his investigation, and preparations are being made to sink a shaft at once. It is estimated that the dirt at the surface contains \$100 worth of gold to the ton.

**E. F. Barnes Badly Hurt**  
E. F. Barnes of Albreed was brought to McLean late Friday afternoon of last week for surgical treatment following a severe kick in the mouth by a horse. It seems that he was removing a block from the horse's foot when the animal reared up and pawed him over, bruising him in several places. As he was about to get up, the horse suddenly wheeled and kicked with both hind feet, one striking Mr. Barnes on the shoulder and the other in the

corner of the mouth. Medical examination disclosed the fact that the cheek was severely cut, four stitches being taken to close the wound, and he was also minus four teeth. The horse, which belonged to Cary Lane, was an old buggy horse and had never been known to do such a vicious act before.

While the wounds sustained by Mr. Barnes were very painful and the loss of the teeth a deplorable one, yet it is not thought likely that any serious results will follow the accident. He is considerably advanced in years, but is remarkably vigorous and it would likely take more than one horse to keep him down.

**Social Event**  
An interesting social event of the week was the shower given at the pretty home of Mrs. J. M. Noel Monday afternoon for Mrs. J. L. Hess, nee Bessie Sitter. A large crowd of friends was in attendance and many valuable and useful gifts were presented.

**Revival at Back**  
We are requested to announce that there will be a revival at Back school house commencing Saturday (tomorrow) night and lasting through the coming week and over Sunday. Elder J. H. Whisenant of Texola, a minister of the Church of Christ, will do the preaching. The public is cordially invited to attend every service.

Next Sunday there will be dinner served on the ground and it is certain there will be plenty for all.

## Retail Furniture Dealers to Meet

Texas retail furniture dealers will flock to Dallas July 21-24 for their annual convention and market, according to an announcement received from Frank C. Allen Jr. of Corpus Christi, president of the Retail Furniture Association of Texas.

In announcing the convention and market dates, Allen, who has just returned from the northern and eastern furniture markets, commented that there is an increasing trend toward modern and provincial furniture lines. This is due entirely to customer demand, he added, and many customers have an unshakable preference for the elegant, traditional furniture styles.

The Dallas convention and market will enable Texas dealers to choose furniture from the newest lines in all furniture styles offered by manufacturers. Many exhibitors in the market will be from the ranks of Texas' own growing furniture manufacturing industry.

Hundreds of dealers from Arkansas, New Mexico, Oklahoma, and Louisiana will join the Texas furniture men in Dallas. All furniture people are welcome to attend the association's social events, Allen's announcement said. The market, however, is limited to furniture dealers.

Bill Day, local furniture dealer, is planning to attend the Dallas convention.

## Star Recipes

As Told to Betty Blake  
Genial ED SULLIVAN provided the inspiration for this open-face sandwich named for his popular CBS TV show, "Toast of the Town." For between-the-acts refreshment in your house, you'll find these sandwiches are excellent. They're fast to prepare; and taste like the subtlest recipe from a French chef's hand. Ed Sullivan disdains any food other than corn flakes and milk during rehearsals, but the rest of the cast enjoys pattering in their "kitchen" behind the scenes and whipping up this easy-to-make sandwich.

U. S. Needs Civil Defense VOLUNTEERS ARE RESPONSIBLE FOR PROTECTING THE HOME FRONT

(This is the eleventh of a series of articles on civil defense, based on the booklet "This Is Civil Defense" prepared by the Federal Civil Defense Administration. It may be obtained from the Superintendent of Documents, Government Printing Office, Washington, D. C., for ten cents.)

By MILLARD CALDWELL, Federal Civil Defense Administrator. All persons experienced in work having to do with health or medicine, others who can be trained in special weapons defense (against atomic, biological, and chemical warfare), are needed for the civil defense Health Service.

The Health Service also must have thousands of persons trained in more than just first aid who can be organized for definite jobs at first aid stations, and women volunteers who have taken courses in home nursing and nurses' aide.

Defense against disease and gas warfare, and against radiological contamination will need extra food inspectors, and sanitation workers. Radiological monitoring teams will need teachers, or advanced students of physics and other related subjects, as team leaders, and high school graduates who have studied elementary physics, and radio repairmen, who can serve as members of such teams.

Other volunteers are needed for clerical work, to keep records of the ill, the injured, and the dead, to aid in the procurement of blood for the blood service under the charge of the American Red Cross, and to be trained as assistants in laboratory work.

Mrs. Madge Page and Mrs. Martha Aldridge spent the week-end in Wheeler with Mrs. C. H. Clay. Mrs. J. L. Hess and Mrs. Jesse Coleman were Amarillo visitors Monday.

THE STATE OF TEXAS TO any Sheriff or any Constable within the State of Texas—GREETING:

You are hereby commanded to be published once each week for four consecutive weeks, the first publication to be at least twenty-eight days before the return day thereof, in a newspaper printed in Gray County, Texas, the accompanying citation, of which the herein below following is a true copy.

CITATION BY PUBLICATION THE STATE OF TEXAS TO: ROBERT H. MIDDLETON, Defendant—Greeting:

YOU ARE HEREBY COMMANDED to appear before the Honorable District Court of Gray County at the Courthouse thereof, in Pampa, Texas, by filing a written answer at or before 10 o'clock a. m. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 25th day of August, A. D. 1952, to Plaintiff's Petition filed in said court, on the 1st day of July, A. D. 1952, in this cause, numbered 10,405 on the docket of said court and styled JOYCE MIDDLETON, Plaintiff, vs. ROBERT H. MIDDLETON, Defendant.

A brief statement of the nature of this suit is as follows, to-wit: Plaintiff sues for divorce and custody of two minor children, Montey Eugene, a boy 3 years of age, and Larry Keith Middleton, a boy 13 months of age, as is more fully shown by Plaintiff's Petition on file in this suit.

If this citation is not served within ninety days after the date of its issuance, it shall be returned unserved. The officer executing this writ shall promptly serve the same according to requirements of law, and the mandates hereof, and make due return as the law directs.

Issued and given under my hand and the seal of said court at Pampa, Texas, this 7th day of July, A. D. 1952.

Attest: Dee Patterson, Clerk, District Court, Gray County, Texas.

Health Talk—OXYGEN ROUTE

Since the primary function of the nose is the intake of oxygen to feed the body, the tour that the oxygen takes in its feeding job makes up a jolly jaunt that keeps the body healthy and happy.

From the throat (pharynx) to the bronchial tubes the oxygen seems to have little to do except to stay on the right track. Somehow those little balls of oxygen seem to know that they are destined for the forward track (larynx) out of the throat, leading into the trachea (windpipe), instead of the backward track that is the esophagus (gullet).

If too much oxygen is pulled in to the throat, however, the excess seems to slip into the gullet track and end up in the stomach. It evidently isn't wanted there in any great amount and it gets tossed back up the throat in the form of a belch. Or it may go on into the intestinal tract where it causes flatulence, gas in the intestines.

Oxygen is a gas, one of the gases in the air that is constantly exchanged in the body for its life-sustaining substance. It is the most essential of all the gases in the process of breathing. Actually, oxygen is only about one-fifth of the air you take in when you breathe; the rest of the air is made up largely of nitrogen with smidgens of other substances, including some carbon dioxide.

When you breathe out, you exhale some oxygen, more carbon dioxide and practically the same amount of nitrogen that you took in.

On the way in, oxygen slips into the windpipe, an elastic tube that has a slippery, wet lining with lots of little hairs sticking out of it. At the center of the body, halfway between the shoulder and the armpit, this tube curves down into two branches, the bronchi, which form a sort of stem for the lungs. Each branch

flows upward out of the heart to start feeding that oxygen all the body.

All that action takes place on the left side of the heart. The oxygen has been fed out into the bloodstream and waste has come back to the top of the right side of the heart. The oxygen enters the right stream, the dam known as the tricuspid valve, flows into the basin known as the right ventricle, into a stopper known as the pulmonary valve, and then flows upward to dump the waste product you breathe out.

There are more holes on the right side lung than on the left side because the right side is bigger. The heart shoves up where part of the left lung might be if the two lungs were the same size.

When the oxygen gets into the lungs, the lungs are big because they expand when you breathe in. Then when you breathe out, the lungs contract and that oxygen gets shoved into one of those honeycomb holes which turns into a blood vessel. And thus the oxygen gets started on the way to the heart.

There are four main streams of blood vessels which carry this oxygen-laden blood to the heart, streams which are called pulmonary veins. Two come from the right lung and two from the left, but each one represents thousands of smaller streams which have come together.

They all lead to the top of the left side of the heart, entering what is called the left atrium. Here they all come together again with a great deal of force and the stream is stopped short by a dam which is called the mitral valve (sometimes also called the bicuspid valve). In due time that dam opens and the oxygen-laden blood flows on deeper into the heart into a basin known as the left ventricle. The only outlet from that basin is at the top where there is a stopper known as the aortic valve. In due time this stopper also opens and the blood

**Large Crowd Attends Rally Of Candidates**

A crowd estimated at 500 enjoyed the bi-annual political rally sponsored by the McLean Lions Club last Saturday night, and the club took in \$113.50 from the auctioning of pies and cakes.  
Ed Lander, who was in charge of the rally, worked out an entertainment program which preceded the candidate speaking. A trio of Bill Day, E. J. Windom Jr., and Conald Cunningham sang several numbers, and music was furnished by a string band composed of Gene Greer, Buck Henley, Pete Henley, and Johnny Taylor.  
S. B. Kiser once more handled the auctioning end of the affair, and his begging for higher bids gave the club the needed \$113 for its activity fund.  
Tom Braly, unopposed in his race for the Democratic nomination for district attorney, served as master of ceremonies. He introduced each of the candidates present, and, in a few cases where some of the candidates were unable to be present, he explained the reasons for their absence.  
John Lee Smith of Lubbock, who is seeking the office of congressman-at-large, was among the candidates present. He was the only candidate for a national office who attended. Both candidates for the state senate post, Grady Hazlewood, the incumbent, and Jim Crow of Canadian, his opponent, spoke. Boyd Meador of McLean spoke for Herb Petry Jr., another candidate for congressman-at-large.  
The affair was held on the vacant lot between Callahan's and the White Auto Store. A trailer was used as the speaking platform, and a public address system was used by the candidates. Benches were brought to the lot, and all were filled with the members of the audience in a short time.

RECOMMENDED BY THE NATIONAL FOUNDATION FOR INFANTILE PARALYSIS  
Seven-year-old Karen Blecha enacts 1952 polio precautions recommended by the National Foundation for Infantile Paralysis. When polio is around, the National Foundation cautions parents to watch for these signs: headache, fever, sore throat, upset stomach, tenderness and stiffness of neck and back. A person showing such symptoms should be put to bed at once, away from other children. Then, call your doctor and follow his advice. If polio is diagnosed, call your local chapter of the March of Dimes for advice and assistance, including needed financial help.

**Singing School Comes to Close**

The first Top of Texas Singing Normal, sponsored by the McLean Church of Christ, came to a close Friday night of last week.  
The school enjoyed good interest throughout its sessions, and attracted 178 students from New Mexico, Colorado, Oklahoma, Arkansas, and Texas.  
A period of congregational singing and a program of songs by the students was a fitting climax to the school Friday night. A large number of visitors were present for the closing program, and expressed their appreciation for the fine work done.  
Plans have been made to have

the second such school from July 15 to 26, 1953. Everyone is urged to make plans to attend this year, Guy Saunders, who has been instrumental in the school this year, said.  
"Thanks to all who assisted the school this year," Saunders said on behalf of the local church.  
Mrs. Ralph Miller and daughter Mary of San Diego, Calif., and Bobby Watkins of Amarillo visited Tuesday with their son, Tommy Watkins, and their mother, Mrs. C. A. Watkins.  
Mrs. Irven Baker of New Mexico visited Sunday with her parents, Mr. and Mrs. T. A. Langston. Mrs. Langham accompanied her to Pampa for a visit.
