

Tigers to Meet Mustangs on Wheeler Field

The junior high school grid-iron football players of the future can be seen in action tonight. The junior high school grid-iron football team will play at Duncan Field tonight at 7:30 o'clock with a similar group from the White River junior high. Fans are invited to be on hand to see the hard-fought game.

Oh well, it made a better lead sentence in last week's story anyway. We mis-read the notes about the P-T-A's forthcoming page show and called it a variety show. Actually, the members of the P-T-A are calling it a "Variety Show," instead of variety. The show will star the football players in a beauty revue, and also will include other special entertainment features. It will be given in the McLean High school auditorium on Tuesday night, October 7, at 8 o'clock.

Most local fans believe the two teams will be about evenly matched, although little is known here of the strength of the Wheeler team. The Estelline group was also playing its first game of the season.

Coaches Don Leach and Wayne Hill are hoping that Wayne Smith will be able to play in the Wheeler game. Smith injured his right arm in practice prior to the opening game with Stinnett. He did not even suit out for the Stinnett match, and was used only sparingly last week.

Eddie Reeves, another back who was slated to be a backfield mainstay, played a good part of the game against Price College. Reeves, whose left knee was injured in a scrimmage session with Claude, is wearing a brace on the knee, and it handicaps his running ability. However, his punting against Price College was good, since he averaged 34 yards in five kicking attempts.

Joe Crockett, who suffered a toe injury before the fall practice began, played most of the Price College game. However, his foot was badly swollen after the game. Crockett, in walking on the side of the foot to protect his toe after the injury, had caused a bone in the foot to be drawn out of its proper position. He went to Amarillo Monday to obtain arch supports which will aid in restoring the foot to its proper shape, and will likely see much action against Wheeler.

The remainder of the team seems to be in fairly good shape, barring possible practice injuries this week. Ricky Mantooh, the sophomore back who has been having to do most of the ball carrying, showed considerable improvement against Price College. James Jolly, left guard, is turning out to be an outstanding lineman with his hard-charging tactics.

The P-T-A will meet Wednesday, October 1, at 4 o'clock in the grade school cafeteria. Everyone is invited to attend. T. A. leaders said.

Mrs. Thomas J. Insall, president of the National Story League in Dallas, visited the kindergarten class, taught by Mrs. Lawrence Watson, Tuesday morning.

Mrs. Insall told several interesting stories and illustrated them to the children. One that was especially enjoyed was "Jack and the Bean Stalk," in which she used newspaper to make the bean stalk.

Children attending the kindergarten are Eddie Jay Windom, Jimmy Edwards, Jimmy Kritzer, Freddie Smith, Ann Terry, Sharon Smith, Linda Tindall, Linda Gayle Watson, Jennifer Turner, and Betty Cummings.

Mrs. Insall, a relative of Betty Cummings, visited in her home Tuesday night. She was en route to Denver, Colo., to visit her mother who is in service.

Building news: Mr. and Mrs. Hershel McCarty and family moved into their new home in the northeast part of town recently. The two-bedroom house is beautifully furnished throughout, and includes many modern building features.

Mr. and Mrs. Douglas Groves are watching the progress of their new home, located in the north central part of town. The lot is immediately north of the home of Mr. and Mrs. J. E. Kirby.

The Groves home will be a three-bedroom house, and the framing has already been erected.

The new home of Mr. and Mrs. E. Smith, on South Main, just south of the Rock Island tracks, is nearing completion. The house will be a two-bedroom structure, and will soon be ready for occupancy.

Lyman Pierce has completed work on a new house one block west of the Baptist pastor's home. (Continued on back page)

Derbies of McLean Rate Long Article In National Mag

The story of the derbies—McLean derbies, that is—has broken into print in one national magazine.

Appearing in The Hat Life, a trade publication distributed to thousands of hat manufacturers and retailers throughout the U. S. and Canada, is a story of the derbies as worn by men of the McLean community. The article appears in the September issue of the magazine.

Accompanying the story are several pictures of local residents wearing the derbies. The article explains the reasons for wearing the derbies, and calls on any hat manufacturers interested to help along the idea.

A copy of the magazine carrying the article may be inspected at The News office.

Heading the steering committee in charge of the birthday celebration is M. K. Brown. Vice chairman is C. P. Buckler, treasurer is DeLea Vicars, and secretary is E. O. Wedgeworth.

A brief outline of the program is as follows:

Sunday, October 12:
2:30 p. m.—E. S. A. Sorority style revue, featuring styles of 1902 and 1952, junior high auditorium.

8:30 p. m.—Memorial program dedicated to the pioneers of Gray County.

Monday, October 13:

Pete Henley Home Damaged Badly by Fire

The home of Mr. and Mrs. Pete Henley in McLean was gutted by fire of an undetermined origin Monday night.

The fire alarm sounded at about 8:45 o'clock, and flames were high, especially in the front bedroom of the house, by the time local firemen arrived.

Fire Marshal J. A. Sparks said that it appeared that the fire may have started in a clothes closet, but there has been no definite proof of this.

Mr. and Mrs. Henley were both at the home of his father, C. E. Henley, when the fire started.

Loss was estimated at several thousand dollars. The interior of the house was badly damaged by fire, water, and smoke. Practically all of the home furnishings were ruined by the flames.

Henley had insurance on the home, although it has not been definitely determined whether the insurance will cover the loss completely.

The house was formerly the home of the late Mrs. Mittie Paschall. Mrs. Paschall suffered serious burns in the house about two years ago, when the hot water heater exploded, and she died from the injuries received in the fire.

Red is the favorite color of two out of three people.

Price College Hands McLean Tigers Second Defeat 19-0

Price College boys showed up well in both speed and power. Tom Kelly and Alex Tenorio did most of the ball carrying, but Gary McKenwa and Ray Cutshall also did their share. Kelly did an excellent job of passing, especially on the long downfield tosses, one of which was good for 71 yards and a touchdown.

The first score came early in the second quarter. The Tigers gambled on a fourth down try for a needed yard, and the Cardinals took over the ball on the McLean 31. McKenwa, Tenorio, and Kelly alternated carrying the ball to work it to the 11. Then Tenorio hit left tackle and got to the one-yard stripe, and on the next play he went through right guard to score. Cutshall's attempted kick failed.

In the third period, a McLean fumble was recovered by Carroll Kalka on the Price College 44. Kelly picked up five, but a holding penalty moved the ball back to the Price 29. Kelly missed with two attempted passes. Then on the third one, he uncorked a long one to Kalka, who took it on the McLean 32, and raced untouched all the way to score. Cutshall's kick was again no good, and the score was 12-0.

In the final stanza, the visitors took over on a punt on the McLean 49. McKenwa picked up 8 yards, and then Dave Bobberschmidt passed to Kalka, with the play moving the ball to the 11. Kelly hit right tackle to the 7, and on the next play he tossed to Cutshall who stepped over the goal line. Tenorio hit right guard to plunge the extra point, giving the Cardinals the 19-0 score.

Gray County, 50 Years Old, Plans Shindig

Pioneers of Gray County—and thousands of others who haven't been residents long enough to be declared pioneers—will gather in Pampa October 12, 13, and 14 to help celebrate the 50th birthday of the county.

The program for the three days includes a gigantic parade, dances, fireworks display, "Miss Gray County" contest, old-timers barbecue, and a memorial program dedicated to the pioneers of the county.

Heading the steering committee in charge of the birthday celebration is M. K. Brown. Vice chairman is C. P. Buckler, treasurer is DeLea Vicars, and secretary is E. O. Wedgeworth.

Shamrock Man Buys Lockers

Sale of the McLean Zero Lockers to Albert Williams of Shamrock was announced this week by A. B. McPherson and Everett Watson, who bought the plant the past summer from John Cooper.

The new owner of the firm took over management Monday morning, McPherson and Watson said.

Williams announced that J. E. (Tot) Conner, also of Shamrock, will manage the business in the future. Conner, who plans to move to McLean as soon as possible, has been in the service station and grocery business in Shamrock for a number of years.

The owner of the business is experienced in the wholesale meat trade. He is presently operating a slaughtering business, as well as a meat processing business, in Shamrock. He does not plan to be active in the management of the lockers here, however.

Heald Revival Begins Friday

A revival meeting will begin Friday evening, September 26, at the Methodist church at Heald. It was announced this week. Services will begin at 7:30 o'clock.

Rev. Wade Griffin of Wheeler will serve as the evangelist.

The public is invited to attend. Pastor Johnny Wood said.

A person married legally the second time is a digamist.

Autumn Ushers in Cool Weather; Slow Shower Yields .46-Inch Rain

Concert Drive For Members Huge Success

The annual membership drive of the Wheeler County Community Concert Association, with headquarters in Shamrock, was a huge success, leaders in the drive reported this week.

Memberships were sold in Shamrock, McLean, Wheeler, Miami, Wellington, Samnorwood, Lela, Kellerville, Kelton, Briscoe, Allison, and Erick, Okla.

The series of concerts, admission to which is by membership only, will open November 25, with the Jaroff Male Chorus, consisting of 35 voices, doing piano, vocal, and dance numbers.

The second concert, some time in January (definite date to be announced later), will feature selections from light operas, such as "Porgy and Bess," "Show Boat," and "South Pacific."

Highlight of the series will be the appearance February 16 of Alec Templeton, noted blind pianist. Templeton puts on a variety show, playing request numbers, popular numbers, and classical numbers.

A total of 432 adults bought memberships. In addition, 154 student memberships were sold, and 31 were earned by workers.

Lions to Sponsor Poster Contest During Fire Week

The McLean Lions Club will once more sponsor the fire poster contest for the various classes in the McLean elementary school during National Fire Prevention Week October 5-11.

Decision to sponsor the contest was made at a directors meeting Tuesday, President J. C. Claborn said.

Three prizes will be given to the top three poster authors in each of the ten classes. In addition, the members of the fire department have agreed to give the children winning prizes a ride on the local fire trucks.

Judging of the posters, as in the past, will be handled by the faculty of the school.

Jaycees Plan Highway Signs Of Derby Shape

Materials for road signs, to be placed at various intervals on the highways approaching McLean, are being assembled by the McLean Junior Chamber of Commerce, and the Jaycees hope to have the signs erected within a few months.

The signs, to be in the shape of small derbies, will have a minimum amount of wording on them. Jimmy Dawson heads the committee in charge of the sign project, and he has obtained steel sheeting from which the signs will be cut. W. W. Boyd will cut out the signs, although he plans to do the work in spare time, and it will be several weeks before they will be ready for painting.

The Jaycees also plan to erect a score board at the football field, and they hope to have it ready by the next home football game. Larry Fuller is chairman of the committee in charge, and began work on the details of the board Tuesday, following a meeting of the Jaycees Monday night.

The Jaycees will also have a representative in the "Miss Gray County" contest, being held in connection with the 50th birthday celebration of the county, President Sammy Haynes said. The winner of the contest will receive an expense-paid trip to the State Fair at Dallas.

The float, which was entered in the St. Patrick's Day parade in Shamrock and later in the rodeo parade here, will be entered in the parade at Pampa, Haynes said. Ed Lander is chairman of the committee to put the float in readiness for the parade.

Ted Simmons is in charge of a committee to work out plans for a Halloween dance, to be held Friday night, October 31, following the football game here. The dance is one of several money-raising projects of the Jaycees which were discussed at the Monday night meeting.

'Cotton Opening' Fast; Harvest Help Is Needed

Autumn, scheduled by the almanac to arrive at 8:24 o'clock on the night of September 22, got a few hours head start and showed up in the McLean area Saturday night, September 20, instead.

The opening of the fall season also found a nice, slow falling of rain; but the rain was not sufficiently heavy to be called a drought-breaker.

The moisture total, including the light rainfall which started Saturday night and continued until early Sunday, was 46 of an inch, Pete Fulbright, local weather observer, reported. The rain brought the month's total to .89 of an inch, and the year's total to 12.30 inches—far below the usual rainfall at this time of the year.

Temperatures dropped during the week-end, too. Many residents found themselves utilizing heating stoves for the first time this fall as the thermometers dropped to below 60 degrees on several occasions. Daytime temperatures remained in the cool-to-less range, however.

The shower slowed down cotton ball pulling, but not as much as the shortage of boll pullers is slowing down the harvest. S. R. Jones, manager of the McLean Gin, states that a great deal of cotton in the local area is ready for pulling, but somebody to pull it is needed, and needed badly. Quite a number of farmers have several bales ready for harvest, but have been unable to find the necessary help.

A total of 116 bales of cotton have been ginned to date, Jones said. The cotton is holding up well in grade and staple. It is mostly middling and strict middling, Jones stated, and the staple will average out slightly better than 7-8.

The local gin is not operating its grain elevator this fall. Some grain is being hauled out by trucks, but the crop was so short that the company did not open its elevator. Practically all the grain which will be harvested is being bought by the operators of the trucks, and at higher than regular market prices due to the feed shortage.

Family Employment Not Covered

Recent changes in the Social Security Act do not change the old provision in the law that family employment, in general, is not covered by the Social Security Act. John R. Sanderson, manager of the Amarillo social security office, points out that work by a parent for a son or daughter, or of a spouse for the other spouse, or of a child under age 21 for a parent is not covered by the law and should not be reported.

Work done by an employee for a parent is covered if the employee is age 21 or older. Also covered is work for a partnership unless all members of the partnership are within the relationship excluded by law. Thus, work by a parent for a partnership would not be covered if all partners were his sons or daughters, but would be covered if one partner were not a son or daughter.

Mr. and Mrs. Bill Carpenter and son Billy of Perryton spent the week-end here in the homes of Mrs. D. C. Carpenter and Mrs. Odessa Gunn. Mrs. Carpenter and Billy remained for a longer visit.

U.S. Needs Civil Defense

GETTING A BOMBED COMMUNITY ON ITS FEET TAKES ORGANIZATION

(This is the last of a series of articles on civil defense, based on the booklet "This Is Civil Defense" prepared by the Federal Civil Defense Administration. It may be obtained from the Superintendent of Documents, Government Printing Office, Washington, D. C., for ten cents.)

By MILLARD CALDWELL
Federal Civil Defense Administrator

Getting a stricken city back into working order as soon as possible by restoring damaged facilities and clearing away debris is the job of the Engineering Service. Under their regular supervisors, but with civil defense direction, men employed by public works and utility departments or contracting firms, would do the same kind of work in the event of enemy attack.

Men would be needed who can operate special equipment, such as cranes, bulldozers, dump trucks and welding machines, and volunteers in the labor force that would help clean away wreckage and open the streets to traffic. Help would be recruited from equipment and material dealers, labor unions, engineering schools, and other groups which have skilled workmen, tools, and material.

The Rescue Service

Rescue work is mainly an engineering job and requires some basic knowledge of shoring, rigging, and building construction. Hence, its personnel will be drawn from the building trades and similar occupations. Untrained rescue workers often make a bad situation worse by causing additional damage, creating more casualties, or becoming casualties themselves.

Rescue teams will have their own specially equipped rescue vehicles, and will be made up of eight men each. Three teams, working 8-hour shifts to provide around-the-clock operation, will be assigned to each rescue vehicle, and will be known as a rescue squad. Ability and willingness to work as a team under emergency conditions, and strength and stamina to perform that work, are the requirements for the good rescue worker.

Skilled drivers are needed for the Transportation Service. In case of enemy attack, people and equipment would have to be moved carefully and rapidly: the injured to hospitals, emergency food and

medical supplies to the stricken areas. Women can be very useful in these operations, and many of them acted as drivers for the military and Red Cross in the last war.

The Transportation Service will teach people to drive in organized fleets under emergency conditions, and give them instructions in simple repair and maintenance work if necessary. Assembly points will be set up and a mission will be assigned to every volunteer and every official vehicle.

Persons skilled in rail, air, or water transportation are also needed and should contact their local civil defense transportation service.

Will Need Volunteers

Your local civil defense headquarters will need many volunteers for staff work. No matter what job you undertake, it will be vital to your organization. You are just as important in a small job as in a big job.

It is not necessary to have any technical knowledge. By volunteering for staff work you may give some one with technical skill the opportunity to serve where he is most needed.

All the civil defense services you have been reading about are for the purpose of protecting lives and property in the United States. Every one in every community is fitted for some job in civil defense. Select one or more for which you are best qualified and volunteer NOW.

New Organization—DEMOS FOR IKE

"Texas Democrats for Eisenhower" is the name of a new citizens' organization which opened headquarters in Austin this week. Plans are being made to conduct a grass-roots campaign among members of the Democratic party in behalf of Dwight D. Eisenhower, a native-born Texan, for president.

Claud H. Gilmer of Rocksprings, former speaker of the Texas House of Representatives, was named chairman. In accepting the office, Gilmer commented: "I have been a lifelong Democrat, and still consider myself a Democrat. It is a case of deciding: When do you get enough? What are the best interests of Texas, and what are your best interests? We've got to help take the national leadership of the Democratic party to the woodshed. This is not a creeping socialism we are fighting against; it's a galloping socialism."

Gilmer and other speakers stressed the mandate issued by the state Democratic convention

at Amarillo on September 9, which resolved: "It is the recommendation of this convention that every Democrat in Texas vote and work for the election of Dwight D. Eisenhower for president and Richard Nixon for vice president."

The meeting was called by Tom Sealy of Midland, who was elected co-chairman of the organization with Miss Nan Proctor, Victoria school teacher. Miss Proctor was a member of the Gilmer-Aikin committee that reformed the Texas school laws in 1949. Gilmer was co-sponsor of the reform bill.

Democratic party leaders selected for a state-wide steering committee, to assist the officers, were Sam Aldridge, Farwell; E. C. Aycock, Fort Worth; W. R. Beaumier, Lufkin; H. E. Childs Jr., Midland; Lester Clark, Breckenridge; Mrs. Charles K. Devall, Kilgore; Charles W. Duke, San Antonio; Charles E. Long Jr., Dallas; Maston Nixon, Corpus

AN OPINION POLL

IT PROBABLY DOESN'T MEAN too much, particularly since the general election is several weeks away, but a poll of weekly and daily newspapers throughout the United States indicates that the Republican presidential ticket has more supporters than the Democratic ticket.

The Publishers Auxiliary, a weekly publication published by the Western Newspaper Union and distributed throughout the U. S. to newspapers, conducted the poll. Ballots were mailed to 8,570 weeklies and 1,406 dailies. Of these, 3,062, or 35.7 per cent of the weekly papers answered; and 449, or 31.9 per cent of the dailies answered. Replies in significant quantity were received from 47 of the 48 states.

The ballots were mailed August 14, and returns were received and tabulated between August 18 and September 3. Thus the sampling indicated the situation prior to the much publicized and heralded Labor Day kick-offs of both campaigns. It should also be explained that ballots were mailed only to dailies having circulations of less than 25,000 in order to maintain the "grassroots" picture.

Here's the compilation of the answers:
To the question, "I think the people of my community favor?"—64.3 per cent of the weeklies and 65.3 per cent of the dailies named Ike; 25.9 per cent of the weeklies and 23.2 per cent of the dailies named Stevenson; 9.8 per cent of the weeklies and 11.5 per cent of the dailies were undecided.

To the question, "My personal choice at this time is?"—66.5 per cent of the weekly publishers named Ike and 70.4 per cent of the dailies had the same choice; 25.2 per cent of the weekly publishers personally favor Stevenson, and 22.5 of the dailies favor the same man; 8.3 per cent of the weekly and 7.1 per cent of the daily publishers were undecided.

To the question, "My paper will support editorially?"—47.5 per cent of the weeklies and 56.1 per cent of the dailies said they would support Eisenhower, while 14.2 per cent of the weeklies and 12.9 per cent of the dailies showed up in the Stevenson column. 28 per cent of the weeklies and 20.3 per cent of the dailies indicated they would back neither candidate; and 10.3 per cent of the weeklies and 10.7 per cent of the dailies were undecided.

In Texas, the weekly newspapers replied that they believe Stevenson is more highly favored by the people than is Eisenhower. Of those answering, Stevenson was believed favored by the people by a percentage of 48 for the Illinois governor and 37.7 for Ike. 14.3 per cent were undecided about how their communities felt.

But the weekly publishers favored Ike by a percentage of 52.6, against 33.8 for Stevenson and 13.7 undecided. Not all of these will support the Republican editorially, however. 26.5 per cent said they would, while 19.1 per cent will stand up for Stevenson, 20.1 per cent of the weekly publishers were undecided about who to support, and 34.3 per cent do not plan to support any candidate.

We have passed these figures along to you, for they do make interesting reading. But polls do not always mean what they seem to mean. That "margin of error" can be stretched and stretched. As a matter of fact, about 85 per cent of the papers of the U. S. were against Truman in 1948 when he ran, yet he won handsily. This fact, though, does not mean the Republicans have already lost the campaign, simply because the majority of newspapers seem to favor Ike.

A poll simply gives us a means of sampling opinion, and also gives us an inkling of how other people feel. The missing factor is made up of those people who are "undecided" or have no candidate.

LES TALK

By LESTER

This cute young lady is one of my favorite people. She is, as most of you know, now Betty Jo Allen. Was Betty Jo Patterson prior to her marriage this summer to Don Allen, who is now in the armed forces in Newfoundland (I think that's where he is). Anyway, whether Don is around or not, Betty Jo is a favorite personage to me. She always has such a pleasant smile, and manages to smile even though very, very busy behind the fountain at Brown's Drug. Unlike many young people of today, Betty Jo is an energetic gal. I recall one day Rev. Parmenter and I were in the drug store having our coffee and he remarked that it seemed to him every time he saw Betty Jo she was working. He said it in admiration of her willingness to work. Every since I have known Betty Jo, she has been most friendly, friendly to everyone she sees. And personally (now don't get mad, Don). I think Betty Jo is a very pretty girl, as well as being cute. Some others have thought she is pretty, too, since she has finished high the past two years in the beauty contest held annually by the high school Press Club. Enough about Betty Jo; she might get the big head.

Here's a distinguished gentleman who has made his name around these parts for many a year. He is Kester Rippy, and is one of the mainstays out in the Heald community. It's never been my pleasure to be associated with him a great deal. But, you know, I have heard people mention him on numerous occasions, and nobody has ever said anything against him. Too bad that cannot be said about me. There are some people around here, whom I see occasionally, that I

Si: Naw, Judge, I only took it for a joke.

Judge: How far did you carry it?
Si: Up to my barn, about three miles.

Judge: Ten days for carrying a joke too far.

He: I see your wife's back from Florida.

Him: I always knew she wore a low neck gown, but I never thought you could see her back from that distance.

Okay, okay, that's enuf. Except that I surely do want you to come by this station and fill up with that good Chevron gas.

NEW TWIST ON AN OLD GAME

YOU CAN BET this wild brahma bull didn't learn that Conga twist at Arthur Murray's. It's only one of the many cute tricks these playful critters use to get rid of their convict riders at Texas' Annual Prison Rodeo. The big event takes place this year on Sunday afternoons, October 5, 12, 19 and 26.

almost have to trip to get them to speak when I speak to them. But not so with Kester Rippy. Actually, I have a little trouble in getting the first "hello" or "howdy" before he speaks to me. As I said before, I don't know him too well, but I do know he is a good God-fearing church worker, and that's a pretty good recommendation for any man. So I am glad I have his picture on hand to run in this column.

The big Gray County 50th Birthday Celebration will be held October 12, 13, and 14 at Pampa. There are many events on the program, most of them taking place Monday and Tuesday, October 13 and 14.

Perhaps the event which more people will attend than any other will be the parade, to be held on the afternoon of October 13 at 2:30 o'clock. The program also includes a "Miss Gray County" contest, dances, barbecues for the old-timers, memorial program dedicated to the pioneers of Gray County, style show, breakfast for aviators, fireworks display, concerts by various bands, and the unveiling of the pioneer monument on the courthouse lawn.

The festivities will be many and varied, and entertainment for all will be featured. McLean has

representatives on the planning committee, and everyone is invited to attend.

On the opening day of the Gray County celebration, October 12, the McLean Methodist Church will observe its 50th anniversary also. The church members, and any others who wish to attend, will enjoy a "dinner on the ground" program following the morning church services. Rev. C. W. Parmenter and other church leaders are hoping for a big day October 12.

This Friday night, the McLean Tigers play their first game away from home. If nothing happens to prevent my going, I'll be there. I hope you will be, too, for the boys need your shouting support. And if you have a derby, howsa about wearing it to the game? And all the rest of the time, too—except, perhaps, when you are in bed sleeping.

Some people have told me that you can't get grass to grow on a school lawn. I'll agree that it can't be developed much in the winter, but it can be in the spring and summer, and part of the fall. Not long ago, I happened to be in Dumas, and passed by the high school building. The grounds are covered with a blanket of some of the prettiest grass I have ever seen. To get the lawn that beautiful took some work, and yes, some money. But it can be done. I have a picture of the grounds to prove that the Dumas school has grass on its lawn. It isn't a colored picture, and you can't tell by looking at it that the grass is green. But it is, and the picture does show the

grass. I've never said much about the school lawn before this year, we didn't have much incentive on the old grade school. But now we have our school facilities centralized, and the opportunity is here. Let's take advantage of those opportunities and have a beautiful school grounds by this time next year.

Children Need Dental Care

One-half of all children between three and nine have never been to a dentist, according to surveys, and the State Department of Health tags that as one reason why there are some 284 million cavities in the teeth of American kids between those ages.

Dr. Geo. W. Cox, state health officer, recommends these four rules as a method of getting children into sound dental health habits:

1. A well-balanced diet with consumption of sweets kept to a minimum. Sugar in excessive quantities produces the destructive mouth acids that cause dental decay.
2. Proper tooth brushing, beginning at an early age. This means brushing the teeth within ten minutes after eating.
3. Early detection and care of dental defects. This will prevent larger troubles later. Neglect may produce serious dental problems which will continue throughout life.
4. Either access to drinking water from a community water system containing the proper amount of fluorides for tooth decay prevention, or application of sodium fluoride to the teeth at periodic intervals. Children who drink fluoridated water from birth have from one-half to two-thirds less tooth decay than those who drink fluoride-free water.

Americans as a whole are highly susceptible to tooth decay by virtue of their diet, the state health officer points out. As a matter of fact, dental authorities say, this country has often been called "a nation of dental cripples."

They urge all parents to realize that so-called "baby teeth" are vital to good dental health in adulthood.

Health Talk— SCHOOL... FOOD

As classes start, mama starts to wonder if what the children eat at noon will be what is best for their health.

With the youngsters eating with the family at noon, no special problem will exist. If the children eat in a school cafeteria, the mother should tell them how to choose the right kind of food. Finally, if she packs lunches, she must adapt her thinking toward planning individual noonday meals.

Many of the things which make eating a pleasure at home may carry over to lunch time at school. For example, children as well as adults, like food appetizingly prepared and like to be free from hurry, worry, nagging, and arguments. At school a clean attractive place to eat should be provided. If possible, an adult should supervise the selection and eating of food and see that children do not bolt their food, then rush out and play like mad.

For lunches that have to be packed, planning should begin with breakfast and include supper, too. If the breakfast is small or of poor quality, it is unlikely that lunch and supper combined can make up the loss, nor can breakfast or supper make up for a lunch which doesn't carry its share of the load. The mother should keep in mind that the lunch should fill approximately one-third of the day's requirements.

What are these requirements? The things needed in the daily diet in general are the same for children as adults, varying only in amount. The "basic seven," as these types of foods are called, have been arranged in the form of a "wheel of good eating," which might be pictured as having seven spokes. The first spoke is milk and milk products. The daily requirement for children is one quart, which may be consumed as a beverage or partly in cooked foods. The thermos bottle of milk in the lunch kit, then, is a decided help in seeing that John and Sue get their daily quota of milk.

Enriched or whole grain bread, flour, or cereals are the basic parts of the second spoke. Two slices of bread or its equal should be given at each meal, and sandwiches might be an easy way to fill this need in the mid-day meal. The third spoke is butter or oleomargarine with vitamin A added; two to three level table-spoons are needed daily. Part of this amount can be spread on sandwiches.

From the fourth spoke might come the filler for sandwiches: meat, poultry, fish, or eggs. The amount needed each day is one serving of meat, poultry, or fish, plus one egg (at least four a week). Dried beans, peas, nuts,

or peanut butter may be used in place of meat.

The number 5 spoke includes at least one helping of a yellow or green vegetable. One serving of grapefruit, oranges, tomatoes, raw cabbage, or raw greens makes up the sixth spoke, and one or more potatoes, plus two servings of other kinds of vegetables or fruits, as number 7, rounds out the wheel of good eating for the daily diet.

Within these seven classes, similar foods might be substituted, for example, rice or macaroni for potatoes. The only food which is almost impossible to replace is milk.

Needless to say, even if the basic needs of the diet are known, much planning still remains to be done. The old saying "variety is the spice of life" was never truer than in the case of school lunches. It takes only a short run of potted meat sandwiches, for instance, to make the child head for the nearest hot dog stand. If the child's "druthers" don't run contrary to good nutrition, there is no reason why he can't have what he wants. If his tastes run too much to sweets or carbonated drinks, which may cut down on more important foods, he may have to be held back a little.

Once the problem of variety is solved, care should be taken to see that sandwiches remain fresh; fresh vegetables like lettuce should be paper crisp and the bread free from soggy. Wrapping watery vegetables separately in waxed paper is helpful; in fact, waxed paper should be used freely throughout the lunch. For economy, bread paper can be saved and re-used.

Chicken salad or other foods which spoil readily if not kept could be omitted. Foods easiest to pack are the solid kind; however, small glass or plastic jars can be used to pack liquids and softer foods. Wooden forks and spoons or kitchen cutlery which can be returned can add to the enjoyment of food which would be difficult to eat otherwise.

During warm weather, as in early fall in Texas, children are likely to eat less; there is no need to worry over this temporary setback, because usually activities are curbed also. As cool weather approaches, however, the amount of food in the school lunch should be increased so that the little stomachs are well filled.

The "wheel of good eating," if used in planning school lunches, can be a wheel of good fortune for growing youngsters.

The X-ray was so named because its discoverer was uncertain of the nature of the rays, and used "X" as a symbol.

Year after year, more people buy Chevrolets because—

There's **NO** value like Chevrolet value! ... the lowest-priced line in its field!

The very fact that more people are buying Chevrolets than any other car proves that Chevrolet does offer more value than any other car.

Come in and let us demonstrate exactly how much more Chevrolet offers you in solid quality and finer features... and how much less you need to pay.

Leather in Fashion Spotlight

Here's a girl whose whole appearance spells style. Her green tweed suit with boxed jacket is straight from the pages of Harper's Bazaar. And her accessories point up the editor's report that "leather is big fashion news." The zippered bag and cord-seamed gloves are made of tan pigskin—a perfect leather in color and texture to go with rugged tweeds.

"It's built like the big ones"

—that's why a GMC pickup will last longer, cost less to maintain!

WHEN the big GMC over-the-highway truck and the small pickup, shown above, are loaded to capacity—there's 30,000 pounds difference in their weights.

Yet they are alike in a lot of important ways that make GMC light trucks tops in all-around service!

For GMC is the ONLY pickup truck with all five of the important features which most manufacturers reserve for their bigger, "heavy duty" vehicles.

They are: Tocco-Hardened crankshafts, full-floating piston pins, airplane-type main and rod bearings, rifle-drilled connecting rods and full-pressure lubrication all the way to the piston pins—things that increase the life of any truck.

But that's not all. We'll be glad to demonstrate how other features like "pillow action" springs and recirculating ball-bearing steering give GMC's a real "passenger-car ride." Come in and see firsthand the fine features that make GMC today's top buyer in pickup, panel and stake rack trucks!

TEXAS-BORN IKE
...a man of integrity

He is the Choice of Texas Democrats for President!

Texas Democrats for Eisenhower!
That is the rallying cry of Texans who believe in the traditions and time-honored principles of the Democratic Party—but NOT in the policies and practices of Trumanism. We are the Texas Democrats who have studied the candidates and platforms of the two major parties and are ready to announce: "We like Ike!" We are the Texas Democrats who feel that best interests of our party, our state and our nation would NOT be served by another four years of Trumanism. We are the Texas Democrats who stand ready to carry out the mandate of the State Democratic Convention which on September 9, 1952, resolved: "It is the recommendation of the Convention that every Democrat in Texas vote and work for the election of Dwight D. Eisenhower for President and Richard Nixon for Vice President." If you, as a Democrat, feel as we do—join us! Be a Texan—not a Trumanite... Vote Ike!

LIBRARY NEWS

By LADY BRYANT, Librarian

Our subject for today is "Are you using the library?" All right, by this time you are aware that your public library is outstanding among small town libraries. So far this year 83 new borrowers have active library cards. Among the more recent members are 11 families of the highway construction crews.

Mysteries for the week: "The Whispering House," by Seely; "Harvard Has a Homicide," by Fuller; "Bulldog Drummond Strikes Back," by McNeile; "Silver Dollars," "Biography of the Colorado Tabors," and many others.

Be considerate. The unread library book on your table is do-

ing you no good and is preventing the other fellow from getting his share. Return the books and magazines you borrow from the library on time. Come to see us, you are welcome.

GOOD HEALTH

Answer to Question No. 1:
 Healthy individuals between the ages of 18 and 60 usually can give blood five times a year with safety. Donations should be properly spaced so that the body can replace the blood removed before the next blood is given. People over sixty should rarely, if ever, give blood. In the aged, the ability to rebuild blood is diminished.

Answer to Question No. 2:
 Most calcium obtained by the human body comes from milk and milk products. There is some calcium in green leafy vegetables, broccoli, kale, mustard greens, turnip greens, and water-cress are the best of these. Canned salmon, including the bones, is also a good source of calcium. If you are not obtaining enough calcium in your diet, it may be necessary to prescribe extra calcium to take with your meals.

Answer to Question No. 3:
 Yes, if this condition is treated early. Proper eyeglasses will often be all that is needed. Sometimes a comparatively minor operation is required to straighten the eyes. This operation should not be performed when the child is too young. The eyes should be watched by your physician because neglect may produce eye weakness and other defects.

McLean—FFA NEWS

The McLean F. F. A. boys are making plans now for a big year under the capable leadership of Archie Dwyer, who was elected to serve as president of the chapter for the year.

Other officers serving with Dwyer are David Wilson, vice president; Don Trew, secretary; Wayne Woods, treasurer; Ricky Mantooh, reporter; Eddie Reeves, parliamentarian; Joe Glass, sentinel; and Vernon Gibson, advisor.

Each officer is busy now learning his part for the opening and closing ceremonies. Plans are underway for a night meeting at least once a month. At these meetings it is hoped to have a guest speaker to address the boys on some subject related to their work.

The chapter is large this year, probably one of the largest in this section of the state. About 68 members are in class and another 12 or 14 members who have completed their agriculture work, yet still have their membership in the organization. This will make about 80 members in the local chapter.

Newcomers and Teachers Honored By Pioneer Club

The Pioneer Study Club met Thursday afternoon in the home of Mrs. Carl Jones for a tea honoring the teachers and newcomers of the town.

Hostesses were Mrs. Jones and Mrs. Forrest Hupp.

Tea was served by Mrs. Clyde Magee and Mrs. June Woods from a table laid with a lace cloth and centered with an arrangement of yellow roses and baby's breath. Beautiful flower arrangements were carried out throughout the house.

Mrs. C. R. Griffith and Mrs. Bill Webb were in charge of the program. Interesting games were played in order to get acquainted. Donna Gail Stubblefield and Floella Cubine played several piano numbers. Dortha Chase, Bethie Mantooh, Floella Cubine, and Donna Gail Stubblefield sang "Dearie" and "Tell Me Why."

Guests present were Misses Winifred Almond, LaRue Black, Gussie Bledsoe, Leona Forbes, and Bettye Lynch; and Mesdames Harold Bunch, J. W. Cummings, J. P. Dickinson, Wayne Hill, Earl Stubblefield, Nep Trew, Earl Riley, June Story, Charles Weaver, Birdwell, Luke Armstrong, and Lawrence Hauck.

Members attending were Mesdames Magee, Griffith, Webb, Hupp, Woods, Jones, C. W. Parmenter, Freeman Melton Jr., Vera Back, Sinclair Armstrong, Vernon Gibson, J. D. Coleman, Jesse Coleman, W. W. Shadid, W. E. Bogan, Paul Kennedy, Bill Day, and Miro Pakan.

Mrs. H. J. Pettit, Mrs. Wheeler Carter, and Billie Sue Pettit made a business trip to Elk City, Okla., Tuesday.

Dale Johnston underwent a tonsillectomy Monday at Worley Hospital in Pampa.

Sacramento, Calif., was formerly called Sutter's Fort.

Father of Local Resident Dies

Funeral services for James Calvin Cummins, father of Mrs. Victor Cliett of McLean, were held in Ramona Chapel in Hemet, Calif., Saturday afternoon, September 20.

Cummins died at Hemet September 17. He was 73 years of age.

Survivors include his wife, Mrs. Lillie Cummins of Hemet; six daughters, Mrs. Rosalie Schumm, Mrs. Bonnie Cliett, and Mrs. Dell Blodgett, all of Hemet; Mrs. Nell Hodges of San Pedro, Calif.; Mrs. Era Lamp of Seagraves, and Mrs. Jewel Cliett of McLean; and two sons, Mack and Bill Cummins of Marysville, Calif.

Mrs. Cliett was in Hemet last week for the funeral services, returning to her home here this week.

Varsity Show Prizes Given

Prizes donated by some of the McLean merchants are to be given to the winners starting in various features in the P. T. A. Varsity Show, to be held in the high school auditorium Tuesday evening, October 7.

Since there are only 33 football squad members and their coaches, each being sponsored by a merchant, there are not enough boys to go around. So other merchants have donated the prizes to be given during the show performance.

Those donating prizes are Brooks Dry Goods, Johnnie Mertel's Shoe Shop, Mertel's Men's Wear, Moore's Cafe, Consumers Supply, McLean Cafe, The Children's Wear, Corinne's Style Shop, White's Auto Store, Harris King, Lee's Grocery, City Barber Shop, Harrell's 5 and 10, T. and G. Electric, W. C. Shull, and Margaret's Gift Shop.

High school girls who wish to enter the "Tiny Tot Revue," a feature of the Varsity Show, are asked to contact Mrs. Genella Wilkerson immediately.

ATTEND FUNERAL

Mr. and Mrs. E. C. Lisman and son Philip were in Sherman last Thursday to attend funeral services for J. E. Miller. Miller was a brother-in-law of Mr. Lisman.

Mr. and Mrs. J. A. Brawley and Mrs. Luke Johnson attended the State Line Fair in Shamrock Friday.

Mrs. T. E. Crisp spent Thursday night at Sayre, Okla., with her daughter, Mrs. Chick Crisp and family.

NOTICE TO EVERYBODY WHO DRIVES A CAR

The City, in cooperation with the School, is undertaking to make your child safe while coming and going from school and while on the school grounds or nearby.

We have erected suitable signs calling your attention to the requirements necessary to provide what we are trying to do.

You parents who go after your child should abide by the markers. You speeders are going to have to slow down. We expect to patrol the school areas and habitual violators will be picked up and fined.

HAM CASSEROLE
 An old-fashioned favorite that is back with a new twist is this succulent ham 'n hominy casserole. You'll want to add this fine combination to your permanent file of favorite main dish recipes.

Ham-Hominy Casserole

- 1 slice ham, 1/2-3/4" thick whole cloves
 - 1/2-cup brown sugar
 - 1 teaspoon dry mustard
 - 1-2 cans hominy
 - 2 tablespoons minced parsley
 - 2 tablespoons minced onion salt
 - Pepper
 - 1/2 cup margarine
 - steamed dried apricots
- Mix the sugar and mustard. Score the fat edges of the ham. Stud with cloves. Place in baking dish. Sprinkle ham with the mustard and sugar. Cover and bake in a moderate oven (350-375° F.) for 20 to 30 minutes. While the ham is cooking, drain the hominy; then melt the margarine and add the hominy, salt, pepper, onion, and parsley. Cook slowly about 20 minutes. Arrange the hominy around the ham slice. Garnish with parsley and steamed dried apricots. Serve with tossed green salad, muffins, and margarine.

For other nutritious, taste-tempting recipes write today to National Cotton Council, P. O. Box 76, Memphis, Tenn., for your free copy of the new 24-page, two-color recipe booklet, "Menu Magic with Margarine."
