GOSSIP (More or Less)

Two head of cattle belonging to Mr. and Mrs. Gene Herron, who live west of McLean, died following a brief grazing on some Johnson grass last Thursday.

Harris King reported that he had also lost one cow recently when she got into some drying Johnson grass.

Local ranchers report that on some occasions both Johnson grass and sudan may prove deadly to cattle, although at other times it provides good grazing.

Fun Nite for teen-agers will be held in the American Legion Hall Friday night at 8 o'clock, it was announced this week.

We got word that a good gas well was brought in last week west and north of McLean about five miles. The well is on the June Woods place.

Three softball games are scheduled for tonight and Friday night as a part of the summer recreation program. Hag Rogers, supervisor of the program, said this week.

McLean girls will play the Wheeler girls Friday at 7 o'clock, the McLean boys, age 9-14 years, will play a similar team from Shamrock, and at 8:30 o'clock, the McLean girls will play the White Deer girls.

Adult night will also be held at the City Park Friday night. Among games scheduled will be a match between the Baptist team of married couples and Sherman Crockett's team.

Rogers also announced that the Friday movies for children will be held at 1 o'clock Friday afternoon instead of the usual time of 2:30 o'clock. The supervisor also explained that unless more children are allowed to attend the show, it will have to be discontinued due to a lack of funds.

A fire sale is now in progress at the Cousins building under the direction of the D. and S. Salvage company of Oklahoma City. Most of the merchandise being sold is that from the recent fire of the T. and G. Electric company.

Softball Meet Re-Scheduled For Next Week

Due to conflicts with other tournaments, the annual McLean Lions Club invitational tourney will be postponed from this week to next week, Buddy Sutton, chairman of the local league, has announced.

Dates for the tournament will be Thursday, Friday, Saturday, and Monday nights, July 16, 17, 18, and 20. Two games will be held each night, with the finals on Monday night, July 20.

Regular league play will be resumed Tuesday night, July 21. Eight teams, two of them local teams, will be invited to enter the tournament. Each team will pay an entrance fee of \$25.

Winning team will receive \$100, second place team \$50, and third place \$25. Three teams from Borger are expected to enter, and at least one from Lefors, Sutton explained, and others are being contacted at the present time.

Admission will be charged at each of the tournament sessions. The money will be used to aid in defraying expenses of the summer softball league, which is sponsored by the Lions Club.

Second half of the summer league will be on a single round-robin basis, with the following schedule:

Tuesday, July 21: Holloway vs. F. F. A.

Thursday, July 23: Methodist vs. P. O.

Tuesday, July 28: Holloway vs. P. O.

Thursday, July 30: F. F. A. vs. Methodist.

Tuesday, August 4: Holloway vs. Methodist.

Thursday, August 6: F. F. A. vs. P. O.

Following the conclusion of the league schedule, a play-off among the top teams is planned, although details have not yet been worked out.

Table with 3 columns: Team, W, L. Rows: Holloway (6, 0), Post Office (3, 3), Methodist (2, 4), F. F. A. (1, 5).

Pampa Seek Parade Entries

The big Top o' Texas rodeo parade will be held in Pampa Wednesday afternoon, August 5, at 4 o'clock, and Holly Gray, chairman of the parade committee, has issued a call for all types of frontier and cowboy parade entries.

Gray stated that his committee was particularly interested in chuck wagons, covered wagons, buggies, surreys, oxcarts, and anything of a frontier nature. A beautiful trophy will be awarded to the best ranch or frontier type parade entry.

NEW BOSS

Mr. and Mrs. Bill Willingham of Chadron, Nebr., are the parents of a son, born June 30. He was named Frank Young and weighed 6 pounds, 15 ounces at birth. Grandparents are Mr. and Mrs. F. L. Willingham of McLean, and Mr. and Mrs. F. Y. Moseley of Arlington, Colo.

John Pakan, Preston Morgan To Race in Soap Box Derby

Two McLean boys will be among the 75 contestants in the annual Soap Box Derby, to be held Sunday afternoon on the old Miami highway near Pampa.

The two local boys are John Pakan, son of Mr. and Mrs. Miro Pakan, and Preston Morgan, son of Mr. and Mrs. Charlie Morgan. Pakan's sponsor for the race is The McLean News, while Morgan is being sponsored by the Boyd Meador Insurance Agency.

Both boys took their racers to Pampa Wednesday to be inspected by the race officials. Outstanding civic leaders of Pampa are standing in line to assist in the matter of fact, handle all details prior to, during, and after the race.

In the race at Pampa, two cars streak down the hill selected for the event in each heat. Winner

LUKE HENLEY re-elected by Legion

Henley Chosen Head of Legion For 2nd Year

Luke Henley, commander of the Floyd-Corbin-Florey Post 315 since being installed last September, was re-elected to serve another year as the Legion leader at a meeting of the post Monday night.

Henley, along with other officers, will be installed at a special program some time in September.

E. J. Lander, first vice commander during the past year, was also re-named, and O. L. Barr was chosen as second vice commander. Also re-named were Eugene Smart as adjutant, Lester Campbell as service officer, and Elwin Curry as chaplain.

Other officers chosen were J. C. Claborn as child welfare chairman, succeeding E. J. Windom Jr.; C. L. Gentry, sergeant-at-arms, replacing Bill Kingston; and Hal Mounce, finance officer, to succeed Ed Jones.

The local Legion Post is now in the process of paying off all remaining bonds which were bought by citizens a few years ago. The greater portion of the non-interest bearing bonds have already been paid off, and the post now has sufficient money to call in all outstanding bonds.

Jaycees Host To Girl Scouts From Arizona

Twenty-four Girl Scouts and their adult leaders from Coolidge, Ariz., spent Tuesday night in McLean, and were treated royally by members of the McLean Junior Chamber of Commerce.

Arrangements were made in advance by the Scouters, when they wrote for permission to spend the night in the local City Park. The Jaycees then arranged to greet the visitors, and make them welcome in McLean.

Heading the group of girls was Mrs. Ina St. Clair Reed, who has been working with the Girl Scouts in Coolidge for the past 125 years, Jaycee President Jimmie Don Morris said.

The special bus arrived in McLean at about 7:30 o'clock Tuesday evening, and the girls were taken to the Windom Pool for a swim. Larry Fuller, certified lifeguard, and Hickman Brown were at the pool to welcome the visitors.

Following the swim, the Municipal Building showers were opened, and the girls were allowed the use of the facilities. Then they were treated to four gallons of home made ice cream, with Morris, W. W. Boyd, and E. J. Lander serving as hosts.

The group of girls and their leaders spent the night in the park, arising early and leaving for their next destination. The visitors left their Arizona home June 9, and have been to Washington, D. C., and New York. They are now en route home.

Coolidge is a town of about 4,000 population, Mrs. Reed stated, and boasts of more than 200 Girl Scouts. Each year a selected group of senior-age girls are taken on a trip; in the past such places as Mexico City and Carlsbad Caverns have been visited. The intensive Girl Scout program starts for the girls of Coolidge when they reach the 5th grade, and is carried out throughout their school days.

Norvell Praises Lions Crippled Children's Camp

The Lions Crippled Children's Camp, located near Kerrville, is a wonderful place, and I wish I could go back again. So said Roy Norvell, who returned from the camp last week-end after spending two weeks there.

Norvell, stricken with polio a few years ago and now handicapped, was sent to the camp by the McLean Lions Club. He and Max Murry, son of Mr. and Mrs. F. J. Murry of Dozier, were taken to Kerrville by Lions J. D. Coleman and Paul Kennedy two weeks ago. Mr. and Mrs. Murry went to Kerrville to bring the two boys back.

The McLean boy, a graduate of the local high school this spring, outlined some of the activities he underwent during the two weeks, at the regular meeting of the Lions Club Tuesday noon.

The camp is now set up to handle 40 children (20 boys and 20 girls) for eight two-weeks periods during the summer. The routine of getting up at 7 o'clock and going to bed at 8:15 o'clock, is strictly followed, Roy said, and practically all of those present are ready for bed after their day of strenuous activity.

During the two weeks, Roy, who said he had never learned to swim, did learn that sport. At first, he said, he learned to float, and was then taught some swimming before his period was over. One instructor is made available to each of the two camp members in swimming, he explained.

In addition, numerous games were enjoyed by the campers. These included ping pong, and such other sports. One hour each day was spent in arts and crafts work, and there Roy learned something of weaving—enough to enable him to make a nice woven basket during his second week.

The camp was opened early in June for the first time, and is sponsored by the Texas Lions League for Crippled Children, made up of Lions Club members throughout the state. Additional

Two Nearby Areas Get Moisture As Light Shower Falls in McLean

Rogers Urging Hay Be Included In Surplus Feed

The fact that hay is not included in the present surplus feed program to aid cattlemen in the drought area, and the fact that no special credit arrangements for stricken ranchers and farmers have been made, were stressed by Congressman Walter Rogers when he talked to about 125 farmers, ranchers, and other interested people in the City Hall in Pampa Monday noon.

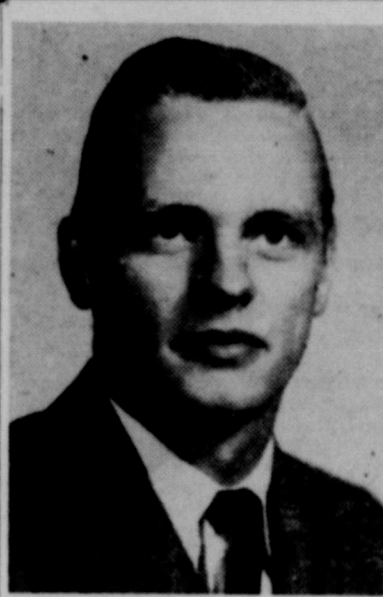

Rogers stated that he is urging Secretary Ezra Benson of the Department of Agriculture, as well as others who will aid in governing the drought relief plan, to include hay in the feed to be furnished at a lower-than-market price to cattlemen in the 125 counties in Texas, Oklahoma, and Kansas declared as disaster counties. However, by Wednesday, only cottonseed meal and pellets, corn, oats, and wheat were being shipped.

Application forms for these feeds were on hand Tuesday in the office of the Production and Marketing Administration in Pampa, and already numerous cattlemen were taking advantage of the offer.

Under the plan, the surplus feed is being bought from the Commodity Credit Corporation with funds appropriated by President Eisenhower from his special emergency fund. An amount of eight million dollars has been set aside by the president to take care of the immediate needs of those in the disaster area, and Rogers stated Monday that more could be made available when needed.

A bill has been introduced to allow the government to make direct loans to farmers and ranchers without red tape. The Senate agriculture committee Tuesday unanimously approved the legislation and it is likely that such credit will be made available.

Rogers explained that he had been assured by L. J. Cappleman, state administrator for the FHA, that loans could be obtained through this government agency without the long-delaying red tape which usually accompanies such loans. The congressman said that Public Law 38 gives the necessary authority for such loans (Continued on back page)

B. W. DUNCAN, son of Mr. and Mrs. E. T. Duncan of McLean, has been selected to receive a scholarship for the agriculture division of Texas Tech in Lubbock. The scholarship is given by the Sears-Roebuck Foundation, and consists of \$150, of which Duncan will receive \$75 each of the two semesters during the 1953-54 year. The scholarships are given to boys who show a need for assistance in attending college, and are also based on scholarship, leadership, character, interest in agriculture, and a determination to finish college.

Rain for Year Is Far Below Usual Amount

While a light shower Tuesday afternoon was bringing only .04 of an inch in moisture in McLean, at least two other communities nearby received appreciable moisture.

At Lefors the rainfall was reported to be slightly more than two inches. At Groom, about one inch of rain fell to relieve to some extent the drought situation.

The moisture Tuesday in McLean brought the year's total to 4.94 inches, far, far below the normal rainfall at this time of year. Here's a rundown on rainfall at this time of year since 1947:

Table with 2 columns: Year, Inches. Rows: 1947 (15.55), 1948 (10.34), 1949 (16.87), 1950 (12.94), 1951 (17.32), 1952 (10.09), 1953 (4.94).

The drought is general throughout the Panhandle of Texas, and practically all points report a much lower than average amount of moisture. Only in spotted areas have thunderstorms produced sufficient moisture to make the year's total any where near normal.

Meanwhile, numerous steps are being taken by the state and federal governments to aid those farmers and ranchers in the drought area.

The president has declared 152 counties in Texas, Oklahoma, and Kansas as a disaster area, with Gray County among them. Some feed is already on its way from other areas to aid the cattlemen. The U. S. Senate and House members are working on legislation which will enable those in need to get credit to carry them over. Some congressmen are advocating price support on cattle to place these prices on a level with the cost of feed.

On Saturday, Governors Allan Shivers of Texas, Dan Thornton of Colorado, Edward F. Arn of Kansas, Johnston Murray of Oklahoma, and Edwin L. Mechem of New Mexico will meet in Amarillo. The five governors will discuss the drought situation with hundreds of farmers, ranchers, and federal and state agricultural experts; and will try to arrive at some solution of the problems caused by the drought.

Photos to Be Made At News Office Monday, July 13

An experienced photographer, Winston B. Lucas of Dallas, will be at The News office Monday, July 13, from 10 o'clock in the morning until 7 in the evening to take pictures of individuals of the area.

No charge for taking the pictures will be made, and The News will be furnished with an engraving of each adult picture, to be used in the future in the paper. Additional prints of the photos can be purchased from the photographer if desired.

Publishers of The News invite all area residents to have their photos made, so that they can be used some time in the future in the paper. Children's photos may also be made, and it is hoped that the children will be brought to the office in the morning instead of the afternoon.

Trained Dog to Perform Here

Did you ever see a dog, at the slight command of his master, sneeze? Or untie your shoe? Or scratch at make-believe fleas first on one side of his body and then the other?

Such a dog will be presented in a show at the Municipal Building Saturday night at 8 o'clock, when the Floyd-Corbin-Florey Post 315, American Legion, presents Tex Chambers and his trained collie, "Mr. Troubles."

Chambers, a former resident of McLean, has four other dogs in his act, but Mr. Troubles is the best-trained of the animals. Tex says he has the other dogs do only their best tricks, but that Mr. Troubles can do just about anything.

The dog has made numerous appearances before all kinds of gatherings. In addition, Chambers has clippings and pictures to prove that his dog has appeared in several movies, as well as on television programs. In one picture, produced by Warner Bros. and starring James Cagney, Mr. Troubles was insured for \$100,000 during the making of the film, according to the clippings.

Chambers has been making his home in Hollywood for several years. He returned here last week to see his father, the late Charlie B. Chambers, and was unaware that his father had died. At the time of his father's death in December of 1951, Tex could not be located. He had planned to take his father back to California with him.

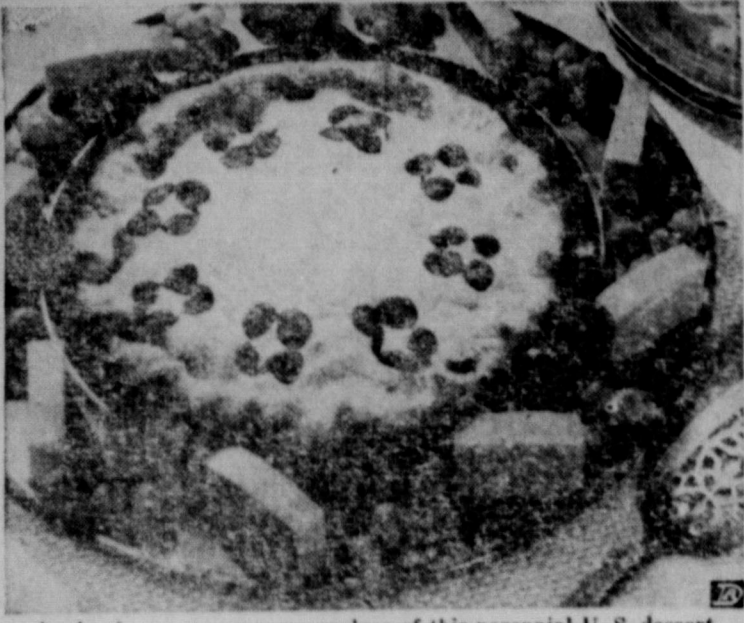

Mr. Troubles, the feature dog in the group belonging to Tex, has over 200 tricks in his category

of knowledge. Some of the tricks Admission to the show will be performed with Chambers 60 cents for adults and 25 cents only thinking of them, and without giving any visible command, is expected to attend.

Apple Pie

Apple pie—serve generous wedges of this perennial U. S. dessert with a hunk of Cheddar-type cheese.

Perhaps the all-time, all-American favorite dessert is apple pie. Surely it ranks among the top ten. And it's no wonder that this should be so in a country with the heritage of Johnny Appleseed. Summer is a slim season for fresh apples so treat your family now before the dearth sets in. To create a memorable dessert course, escort the pie with Cheddar cheese and cups of steaming, fragrant coffee.

This particular pie makes the most of good apple flavor. There's an accent of lemon juice and a hint of cinnamon to enhance the "apple-ness." With the envelope of flaky, tender pastry it's a dessert suitable for a simple family meal or for your most favored guests. Remember to use enriched flour when you're baking. The extra B-vitamins and food iron it supplies are there at no extra cost. If your time just won't stretch far enough to let you bake an apple pie, don't despair. Your neighborhood baker or grocer can supply you with one. Put the pie into the oven for a few minutes before serving. This pie makes a hearty and satisfying conclusion to a meal, so why not use it to round out a luncheon menu or a dinner that's on the light side.

APPLE PIE

- 2 cups sifted enriched flour
 - 1 teaspoon salt
 - 5/8 cup shortening
 - 3 to 5 tablespoons cold water
- Sift together flour and salt. Cut or rub in shortening. Sprinkle with water, mixing lightly until dough begins to stick together. Divide dough in half and let stand while preparing Apple Filling. Roll out half of pastry to circle 1/4 inch thick and line pie pan with it. Fill with Apple Filling.
- Apple Filling**
- 1 1/2 quarts apples
 - 3 tablespoons melted butter or margarine
 - 1 tablespoon lemon juice
 - 1 cup sugar (about)
 - 2 tablespoons enriched flour
 - 1 teaspoon cinnamon
- Peel and slice apples. Mix lightly with butter or margarine and lemon juice. Combine sugar, flour and cinnamon and mix well with apples. Arrange evenly in pie shell. Makes 1 9-inch pie.

During July social security tax returns will be filed by employers who had one or more employees during April, May, or June. These reports will list the name, social security number, and amount of wages paid each employee.

According to J. R. Sanderson, manager of the Amarillo Social Security office, experience has shown that the reports of large employers, listing hundreds or even thousands of employees, will be almost 100 per cent accurate. Most cases of returns filed with missing or incorrect social security numbers will be among the smaller employers, those with only a few employees.

The reason large employers submit accurate reports, Sanderson said, is because they have learned that the only way to do so is to examine the social security card of each employee when he starts to work for them, copying his name and number directly from the employer prevents needless correspondence and contacts, saves money for his government and himself, and insures his employees getting credit for wages earned. Such a practice, of course, is available to all employers and affords all the same advantages.

When a hearing is to be held on the creation of a road district, notice must be published in the counties included in the proposed district. The law provides that: "... the county clerk shall forthwith issue notice of such time and place of hearing, which notice shall inform all persons concerned of their right to appear at such hearing and contend for or protest the ordering of such election. Such notice shall set forth in substance the contents of the petition, and shall give the name of each county proposed to be included within the road district. The clerk shall execute said notice by posting true copies thereof in five public places, to-wit: One copy at the courthouse door, and one copy in each commissioners precinct. Said notice to be posted for ten days prior to the date of such hearing. Said notice shall also be published in a newspaper of general circulation, published in the county one time, and at least five days prior to such hearing; provided, however, that if no newspaper is published in the county, then the posting of the notice as hereinabove directed, shall be sufficient. The law also requires publication of notice that road district bonds are to be sold: "... the commissioners courts of the counties embraced in such district, at a joint meeting held in the county having the largest number of inhabitants, as shown by the last federal census, shall advertise such bonds for sale, and the advertisement or notice of such proposed sale, shall be published in a newspaper of general circulation published in the district, one time, and at least ten days before the time fixed for such sale." * Price Daniel's book of Texas

Dependable Economy In the 1953 Mobilgas Economy Run, the Dodge V-8 beat all other cars in its class... outperformed all 8's in every price class.

Dependable Power-for-Safety Ten days later, the same Dodge V-8 set 2 new official AAA performance records for standard American cars. Proof of reserve power-for-safety.

Dependable Comfort Dodge Modern Design does away with "meaningless metal" and waste space outside--provides more comfort space than ever inside.

Dependable Handling Ease Dodge for '53 brings you new mastery of the road, new maneuverability in traffic, new parking ease. It snugs down on curves like a true sports car.

Dependable Extra-Value Features Safeguard hydraulic brakes with two brake cylinders in each front wheel... Oriflow ride control... Safety-Rim wheels... electric windshield wipers... foam rubber seat cushions... and many others.

Here is our invitation! Come in for a "Road Test Ride." Find out all that Dodge Dependability means in terms of economical power, safety power, riding comfort and handling ease. There is no obligation. You will discover a new kind of car, a new kind of driving enjoyment... at prices that start below many models in the "lowest-priced" field.

SLOW PROCESS

WHO IS BOSS of the Executive Branch of the government? The obvious answer, of course, is that the President has this power, and discharges it through his cabinet members and other top-level appointees. That is theoretically true. But, in actual practice, the situation isn't nearly so simple nor clear-cut.

In one of his Newsweek columns, under the significant title "The Shackles of Victory," Raymond Moley wrote: "A conquering general who turned statesman, the Duke of Wellington, once said that 'nothing except a battle lost can be half so melancholy as a battle won.' Another victorious general turned statesman, Dwight D. Eisenhower, is probably thinking something exactly like that. For this warrior who hurled armies across Europe is beating futile blows against the rubber wall of bureaucracy. . . . He cannot as of this date administer his government because he lacks the very vitals of control. He can and has appointed a group of what are technically called top policymaking officers. . . . They, like the President, are Gullivers bound down by Lilliputians, without whom they can know nothing and do nothing but because of whom they cannot effectively carry out the policies and promises of their party."

Mr. Moley went on to cite some examples. According to him, Secretary Hobby has some 30,000 employees under her, but when she took over she had only 16 available job openings. Secretary Weeks supposedly runs 55,000 people, but he could fill only 4,000 jobs, most of them of an extremely minor nature. Secretary Benson found that he could immediately replace only 500 of his more than 55,000 workers. Matters seem to have been similar in the other branches and departments.

As Mr. Moley pointed out, the vast army of hold-over government employees includes many people of high ability and integrity. But it is an obvious fact that the great majority of them got their jobs because they had served the opposition party well, and it would be unreasonable to expect them to feel any real enthusiasm for the man who finally defeated the forces of the New Deal and the Fair Deal.

That this poses a tremendous problem to the Eisenhower administration goes without saying. It stands in the way of rebuilding the Republican party through the disposition of patronage. Patronage is a word in bad odor in many quarters, but it stands for one of the salient and basic facts of political life, regardless of what men or what party happen to be on top. Patronage, which simply means jobs, is one of the roots of party strength. Honestly and wisely used, it can create vigor and efficiency within the government.

Little by little, of course, the faces behind the government desks

will change. But it will be a slow process—much slower than the top administration officials apparently realized when they took over. This is symptomatic of the enormous change that has taken place in government. Without arguing the virtues and evils of what has happened, it is apparent that government has grown so swiftly, and in many instances so haphazardly, that effective control is unbelievably difficult. Attempting to rectify this will be as difficult a long-range problem as the administration will face.

Then there was this bright young thing:

She wore her stockings inside out.

All thru the summer heat; She said it always cooled her off.

To turn the hose upon her feet.

Heard one feller say last week-end that this drouth was the longest since that time when it never did rain.

Last week we had a little squib in the paper about television, and called our local viewers "would-be-television fans." Would be if they could get anything.

Mrs. Earl Eustace came in to tell us that she gets good reception at her house. The reception is not perfect all of the time, but is perfect nearly all of the time.

As many of you know, Mrs. Eustace lives only about two miles north of town. They have a 60-foot antenna (the same height as that at the home of Mr. and Mrs. Truitt Johnson here in McLean). The elevation of their home is little different from that in most of McLean.

Yet the Eustaces get much, much better reception than anyone here in town.

This television reception is quite a mystery.

A few months ago, George Terry mounted an antenna and a TV set, and some sort of electrical generator on his pick-up. He took the entire apparatus out in the country, in an attempt to find out something about reception.

The trouble was this: George found that at one spot the reception was very poor, yet only a hundred yards or so away, the reception was good. So actually, he didn't find out much that would help him in his TV sales.

"This television reception is quite a mystery." Next Monday, July 13, the photographer who was here in the fall of 1951 to take pictures of local citizens will be back again. There will be no charge for making the pictures. If you want to buy some prints from

Assistant Cashier: Yes, I'm afraid so. He's fast enough on the deposit, but she's quicker on the draw.

Officer: Slow down that truck, Sambo. Haven't you got a governor on it?
Colored driver: Nawwah, boss. The governor is back at the capitol. That's fertilizer you smells.

BORN TINKERERS

IN THIS AGE OF SPECIALIZATION, AMERICANS STILL LIKE TO ROLL UP THEIR SLEEVES AND TRY THEIR HANDS AROUND THE HOUSE. IT DOESN'T REALLY MATTER MUCH WHAT IT IS—IF IT NEEDS FIXING, THEY'LL TRY.

him, he will be happy to sell them, for that's the way he makes his money out of the deal.

He will furnish us an engraving, a one-column engraving, of every adult picture he takes—the same proposition he made in 1951. If you recall, we have used most of those pictures during the past year and a half, and we are mighty happy that we have had them. We like to run pictures of people.

The photographer, Winston P. Lucas, also wants to take pictures of children of the area. There will be no charge for that either, and pictures may be bought from him later, if you like the proofs. However, we are hoping that if you want your child's picture made, you will come in the morning between 10 and 12. If you can't make it then, then come on in the afternoon. He will be at The News office from 10 in the morning until 7 in the evening.

Everybody's invited to have their pictures made. We had excellent reception from the deal in 1951, and I surely hope that all of you will come back, and that many more will show up, too.

Remember, it doesn't cost anything. You don't have to buy extra pictures, and Mr. Lucas isn't the high-powered, forceful type of fellow who will embarrass you if you don't want any pictures. He's really a nice fellow.

So come on down Monday, July 13, and get your likeness struck.

Don Alexander brought in an old paper the other day. The paper is a reprint of the Ulster County Gazette, published in Kingston, N. Y., January 4, 1800.

Thought you might enjoy reading a few of the little items it contains:

"For Sale—Stout, Healthy, Active NEGRO WENCH. Any person inclined to purchase may get the full particulars by applying to John Schoonmaker, jun., at Rochester."

"Second Notice—Of my wife Hannah is hereby given, forbidding all persons whatever from harboring or keeping her, and from trusting her on my account, as I am determined to pay no debts of her contracting, Matys Van Steenberg."

"Strayed—From the subscriber, red a Helfer, 3 years old; has a small scar in her forehead, is white under her belly, and a little white to her tail; has a piece cut off her left ear. Whoever gives information to the subscriber so that he can get her again, shall be handsomely rewarded. Benjamin Demyer."

"To the President of the United States—the senate of the United States respectively takes leave sir, to express to you your deep

regrets for the loss their country has sustained in the death of General George Washington. This event, so distressing to all of our fellow citizens, must be peculiarly heavy to you, who have been long associated with him in deeds of patriotism. Permit us, sir, to mingle our tears with yours; on this occasion it is manly to weep. To lose such a man at such a crisis is no common calamity to the world. Our country mourns her Father. The Almighty disposer of human events has taken from us our greatest benefactor and ornament. It becomes us to submit with reverence to him, who "maketh darkness his Pavilion."

Trim for summer travel or urban living is this cotton suit from Ike Clark of Dallas. Stripes of linen brush the collar, cuffs and slit pockets on the cutaway jacket. The skirt is admirably straight and narrow. In M and W Thomas fabric, the colors are black, brown, navy and grey. Sizes 8 to 18.

be loosened, the face rubbed with cold water, and spirits of ammonia or smelling salts held under his nose. After consciousness returns, he may be given a glass of cold water.

Convulsions may have any number of causes, ranging from serious conditions like epilepsy to more temporary ones like high fever in a child. The patient should be laid down and kept from hurting himself. A feverish child may be given a lukewarm bath or wrapped in sheets wrung from lukewarm water. An enema of lukewarm water also may be given. With fainting or convulsions which are unexplained or often repeated, a doctor should be consulted.

Nose-bleed, too, may be of little importance or may point to a serious condition, such as high blood pressure. The patient should be told to sit, hold his head back, and keep from blowing his nose. Cold compresses may be applied to the back of the neck and over the nose (swallowing a little blood is harmless), and the patient should remain in this position until bleeding checks. Anyone with excessive or long lasting bleeding or repeated attacks should have medical examination and treatment.

Among causes of earache may be a boil in the ear canal, infection of the middle ear, or injury of the skull. A hot water bottle to the ear may relieve the pain of a simple earache, as may a few drops of warmed oil placed in the affected ear canal. Aspirin also may be given.

For toothache, a toothpick covered with a piece of cotton dipped into oil of cloves may be applied if a cavity can be seen. If not, a hot water bottle over the cheek or jaw may give relief. A dentist should be consulted.

Removing a bean, BB shot, chicken or fish bone from the air or food passages may prove troublesome. A slap on the back may dislodge something that "doesn't belong," but it sometimes takes special instruments to remove these foreign objects. Some things children swallow are harmless and pass on through the food tube unaided. It would be safest, however, to call the doctor and follow his advice. No time should be lost in calling him if breathing is cut off. Water should not be used to try to wash a bean or pea from the nose or ear because it may swell, making removal difficult, nor should much digging be done in these structures for fear of injuring the delicate tissue lining them.

Forty-Two with Mrs. Wolfe
This week's social calendar, which was unusually full, began with Mrs. T. M. Wolfe as hostess to a number of ladies in honor of the Misses Vella and Mannie Wilson and Mrs. Frank Wilson, who are her guests.

Five full tables of forty-two busied the afternoon, while several onlookers enjoyed the games, iced grape juice and dainty cakes were served. Mrs. Wolfe always receives high praise from her guests.

Besides the honorees, Mrs. Siler Faulkner was an out-of-town guest.

Burrows-Otto
At the home of Mr. and Mrs. J. R. Guthrie in Canyon City on Tuesday night of this week occurred the marriage of Mr. Beriah O. Burrows of this city to Miss Mabel Otto of Canyon. The wedding was a quiet affair and only a few intimate friends were in attendance. Rev. John A. Wallace of the Methodist church read the ceremony.

The happy couple arrived here on the 10:15 train Wednesday evening and were greeted by a party of friends at the home of the groom's parents, Mr. and Mrs. J. W. Burrows, who had gathered at the invitation of the bride to attend a wedding reception and enjoy a splendid supper. On account of the very disagreeable weather, many were deprived of the pleasure of attending, but those who did attend were heartily sincere in their many expressions of good wishes for the future happiness and prosperity of the young people.

The groom is the eldest son of Mr. and Mrs. J. W. Burrows and has grown up in McLean where he is respected for his many manly traits. He is now in the employ of the Rock Island as operator in Sayre, Okla., where he and his young bride will make their home.

The News is glad to join with other friends in offering sincere congratulations. Picnic

At the invitation of Mrs. D. B. Veatch, a party of ladies enjoyed an all-day picnic at the pretty Veatch country place three miles south of town on Wednesday of last week. A large crowd

STOPPING POLIO by Science Features

The chances are you have had polio. Very likely the attack was an extremely mild one—so mild you didn't notice it. But because it occurred you probably will never suffer the paralyzing form of the disease. You have become naturally immune.

And because the human body can build up immunity to the polio virus, scientists today believe they are on the verge of conquering this crippling disease. Latest news in the fight against infantile paralysis is the development of a vaccine effective against all three types of polio virus.

The vaccine was developed by Dr. Jonas E. Salk of the University of Pittsburgh. It has been tested on 161 patients—the largest number ever to be inoculated against polio. Artificial immunity conferred by the vaccine lasted at least four to five months. There were no unpleasant side-effects.

However, Dr. Salk cautions that his vaccine is not ready for immediate nation-wide use. Many field tests must be conducted to confirm the experimental findings before scientists will be able to use it against outbreaks of polio such as occurred last summer. In addition, several production problems must be ironed out.

The fact remains that this vaccine is the best so far discovered. Last summer's experiments with gamma globulin proved that paralyzing polio can be temporarily prevented in epidemic areas. GG was science's first victory against polio—and the Salk vaccine may prove to be the final one.

When that day comes the "paralysis" will have been taken out of polio.

of guests was present and a most enjoyable day was spent.

Forty-Two Club
The Forty-Two Club was very delightfully entertained at the home of Mrs. J. L. Crabtree on Tuesday afternoon of this week. There were present enough ladies for two tables of progressive forty-two and the afternoon was spent in this pastime. Mrs. W. M. Massay making the highest score. The club had as their guest, Mrs.

C. S. Rice.
At five o'clock a pleasing repast was served. The next meeting of the club will be with Mrs. J. H. Horton on Tuesday afternoon of next week.

Emory Crockett visited with Mr. and Mrs. Truman Spain in Pauls Valley, Okla., over the week-end. Mrs. Crockett and sons returned home with him after a two-weeks visit with the Spains.

Mrs. Mattie Graham returned home Friday after visiting with her brother, Woodie Hindman, in Springfield, Oreg., for the past three weeks.

S/Sgt. and Mrs. Fred Johnston have returned to their home at Del Rio after spending two weeks with his parents, Mr. and Mrs. Elton Johnston, and other relatives.

Sue Chase visited with relatives in Amarillo last week.

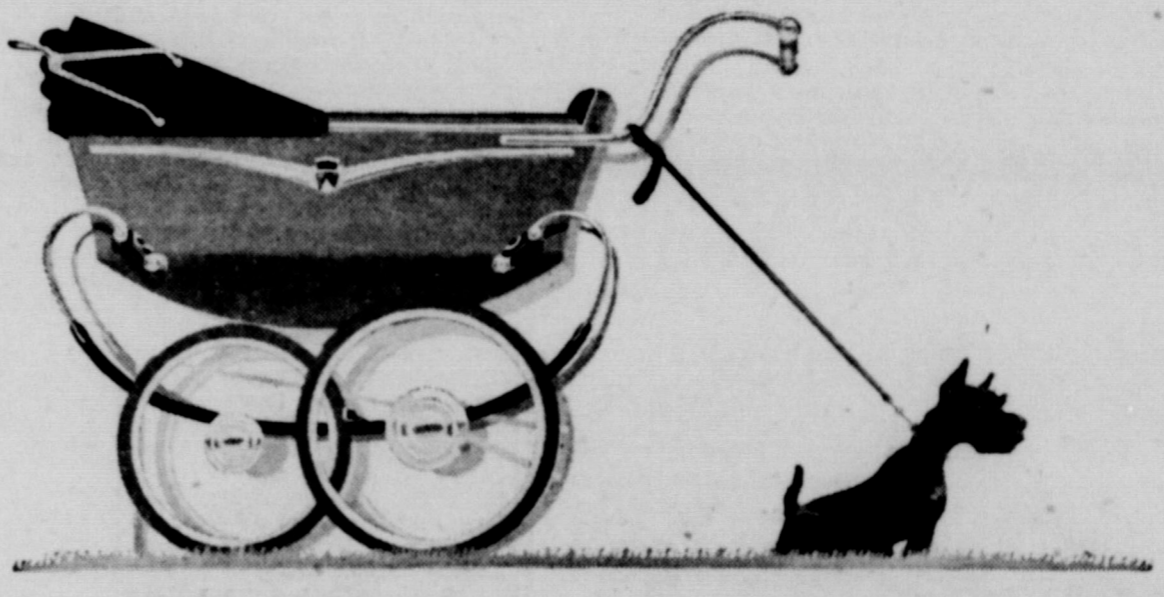

Mrs. Joe Graham and son Gary, and Mrs. James Hinton and daughter Donna visited in Clarendon Friday of last week.

Mr. and Mrs. O. Z. Kunkel of Pampa visited with Mr. and Mrs. Oba Kunkel and Mrs. Bunia Kunkel Sunday.

The only convertible that outsells Ford!

WHAT IS IT that makes Ford's Sunliner America's best seller? Is it its high-compression V-8 power? (No other convertible in Ford's field has this kind of engine.) Is it the fine craftsmanship of its Crestmark Body? (No body in its field can match Ford's choice of exterior and interior color combinations.) Is it its new spring and shock absorber action which makes even roughest roads feel smooth? (The Sunliner's springs are tailored to its

weight.) Is it the choice of Fordomatic, Overdrive or Conventional you get? (You won't find such a choice in any other car in Ford's field.) No, it's not just any one of these things that make Ford America's largest-selling convertible. MR. AND MRS. DALE L. LOGAN

Jane Alice Cryer And Dale L. Logan United in Marriage

In a candlelight ceremony on Monday evening, June 22, Jane Alice Cryer, daughter of Mr. and Mrs. C. A. Cryer of Borger, became the bride of Dale L. Logan, son of Mr. and Mrs. I. W. Logan. Rev. Noel Bryant, pastor, read the double-ring service in the sanctuary of the First Methodist Church at Borger.

Pre-nuptial music was played by Mrs. Charles H. Dean of Plainview, who also accompanied Mrs. Richard Skoog, cousin of the bride, as she sang "I Love Thee" by Greig, "Always" by Berlin, and "Through the Years" by Youmans. As vows were solemnized, Mrs. Skoog sang "The Lord's Prayer" by Mallotte. The traditional wedding march was used for the processional and the recessional.

Jim Wilson of Borger was best man. Serving as ushers were Ray Dell Thrower, Bill Skoog, Glen Rowen, and Fred and Aubrey Howard, all of Borger.

Given in marriage by her father, the bride wore a gown of white "step-forward satin" and French lace, styled with a long bodice of the satin, the lace forming a stand-up collar, long sleeves pointed at the wrists, yoke and panel both front and back of blouse extending to length of skirt in front and to the end of the satin cathedral train. Her finger-tip veil of nylon tulle was attached to a Juliette hat of matching tulle and lace edged with tiny seed-pearls. Her jewelry was a strand of pearls, a gift of the bridegroom, and she carried a cascade bouquet of white starlight roses entwined with ivy.

Mrs. Cryer, mother of the bride, wore a beige lace dress with matching accessories. Mrs. Logan, mother of the groom, wore

Jimmy R. Shelton Honored at Party On First Birthday

A birthday party for Jimmy Ronay Shelton was given on his first birthday, July 2, by his mother, Mrs. Jimmy Shelton, at the home of his grandmother, Mrs. J. W. Ellington, in Pampa.

Those present and sending gifts were Mrs. J. W. Ellington, Mrs. T. C. Ellington, Shad Brooks, and Mrs. Shelton and Jeanene. Ice cream and cake were served.

Mr. and Mrs. T. C. Ellington and Mrs. J. W. Ellington came home with the Sheltons and enjoyed a birthday supper in McLean.

Two Are Honored At Dinner in Home Of Mrs. Armstrong

A birthday dinner was given in the home of Mrs. Sinclair Armstrong Sunday honoring Mrs. Allie Mae Herron and John B. Rice.

Those attending, besides the guests of honor and hostess, were Mrs. George Lilly and sons of Los Angeles, Calif., Mr. and Mrs. Gene Herron, Mrs. John B. Rice, Mr. and Mrs. Billy D. Rice and daughter Cynthia of Groom, Mr. and Mrs. Ed Gething of Laketon, and Mr. and Mrs. Gill Gething and son of Shidler, Okla.

Mrs. Jerry Pennington and Mrs. Brooks Hugg visited in Amarillo with Mr. and Mrs. Kenneth Wilson last week.

DEVILED EGG SALAD

A good way to get members of your family to eat that "egg a day" is to prepare deviled eggs. They have that tang that attractiveness the youngsters like in their foods.

Egg Salad

- 6 hard-cooked eggs
 - 2 tablespoons melted margarine
 - 2 tablespoons mayonnaise
 - 1/4 teaspoon prepared mustard
 - 1/4 teaspoon salt
 - Dash of pepper
 - 1 teaspoon minced onion, OR
 - 1/4 teaspoon onion salt
 - 12 radishes
 - Lettuce or other salad greens
 - Salad dressing
 - Stuffed olives for garnish
- Chill hard-cooked eggs. Shell, cut in halves lengthwise. Carefully remove yolks. Set whites aside. Mash yolks with fork until very fine and crumbly, or press through a sieve. Add margarine, mayonnaise and seasonings. Mix until smooth and fluffy. Fill yolk mixture generously into hollows in egg whites, making roughly rounded tops. If you prefer, use a pastry tube for filling the whites. Arrange crisp, washed lettuce leaves on plates. On each plate arrange three stuffed egg halves, with points toward center. Between egg halves place radishes. In center, put a tablespoon of mayonnaise or salad dressing and garnish with sliced stuffed olives. Ripe olives may be used as garnish, along with the radish roses.

FFA Meeting To Be in July At Fort Worth

Cowtown has the welcome mat rolled out for Texas Future Farmers.

When 3,000 farm boys swarm into Fort Worth next month for the 25th annual convention of Texas Future Farmers, they'll find a full program arranged for their entertainment and diversion.

Full convention sessions already have been set up by the state FFA officers headed by President Joe Dan Boyd of Winnsboro, so official delegates to the session July 22-24 will find their schedules full.

But fun won't be forgotten at this FFA Silver Jubilee session as all the boys attending the convention will be guests at a Fun Night session at Hotel Texas on July 22.

A Fort Worth committee headed by Dr. R. C. Lees has arranged for a full evening of entertainment and plenty of refreshments for the boys who will attend.

The annual Lone Star Farmer banquet will be held July 23. The exhibit building at Will Rogers Memorial Center on Fort Worth's west side will be the site of this banquet. The building will handle several thousand people and plenty of room will be available for all wishing to attend.

The more than 600 Lone Star farmers will be honored at this occasion. Lone Star farmers are the FFA members who have attained the highest degree of proficiency in their work.

Seven winners of scholarships presented by various Texas firms and organizations will be announced during the meeting.

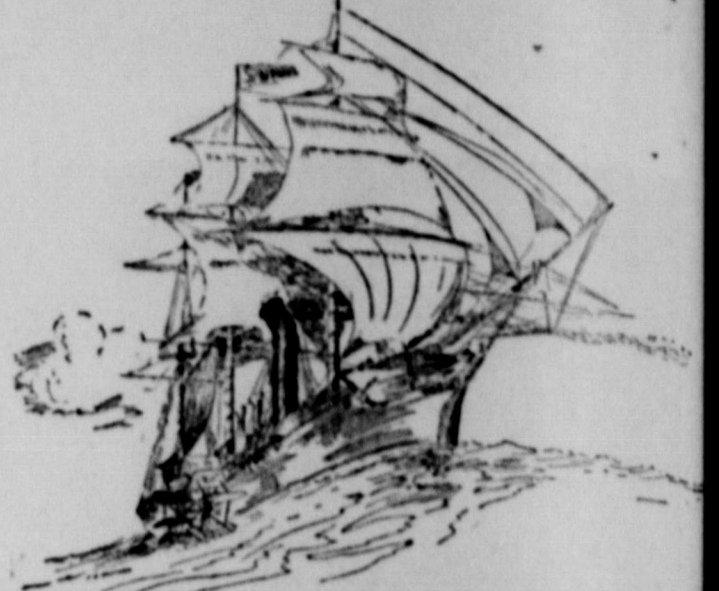

The Fort Worth Farm and Ranch Club, which is serving as official convention sponsor, will present a special \$300 scholarship to one of the outstanding Future Farmers.

Jimmy Dillon of Jones, La., national FFA president, will attend the convention and will be a speaker at the annual banquet.

New state officers, from which the state president will be chosen, are Raymond Hinders of Canyon, Derrell Rogers of Lamesa, Jon Hagler of LaGrange, Damon Campbell of Hamilton, Ardis Barnes of Commerce, Kenneth Reynolds of Pittsburg, Hugh Spring of Luling, Kenneth Richardson of LaPoynne, Bobby Beathard of Kirbyville, and John Posz of Alamo.

There are 36,000 Texas Future Farmers from more than 800 Texas schools. Most schools are expected to be represented at the convention.

A Famous American Ship

The SAVANNAH was the first steamship to cross the Atlantic. She "was a failure by almost every standard," according to the American Merchant Marine Institute. "And yet today, she is regarded one of the world's most illustrious ships because of her historic making voyage begun May 22, 1819 from Savannah, Ga. Started as a sailing ship, the SAVANNAH was completed as a steamship before she sailed for Europe in the hope that she could be sold for a fancy price to the Tsar of Russia, she found no buyer. Restored to a sailing craft, she blew ashore off Long Island when only three years old. Her arrival at Liverpool was marked by two episodes worthy of note. In one she was chased by a British revenue cutter whose master thought she was on fire, not dreaming she was a steamship. The other she neatly confounded efforts of a British sloop of war to force her to lower the Stars and Stripes. The enterprise shows her construction, and the intrepid character of her officers and crew are the proud inheritance of American Merchant Marine.

On all these points of comparison... **Chevrolet's farther ahead than ever!**

- ... IN NEW AND ADVANCED STYLING—The new long, low, sleek lines of the 1953 Chevrolet set new standards of beauty in the low-price field. Here you will see careful detailing and a richness of appointments always before found only in much costlier cars.
- ... IN HIGH-POWERED PERFORMANCE—The most powerful engine in the low-price field! The entirely new 115-h.p. "Blue-Flame" engine in combination with new Powerglide* brings you new high-compression power and a wonderful gain in economy, too. In gearshift models you will find the advanced high-compression 108-h.p. "Thrift-King" engine.
- ... IN SMOOTH, SIMPLE AUTOMATIC DRIVING—Expect faster getaway with Powerglide's new automatic starting and passing range . . . and new economy, too. Chevrolet's new Power Steering* takes over 80 per cent of the work of steering, makes parking unbelievably easy.
- ... IN ECONOMY AND VALUE—Now, you'll get many more miles out of every gallon of gasoline. You'll save on over-all operation and upkeep, too. Yet Chevrolet remains the lowest-priced line in the low-price field.
- ... IN AMERICA'S FAVOR—Again this year—as in every single postwar year—more people are buying Chevrolets than any other car. In fact, latest official registration figures show that Chevrolet is over 25% ahead of the second-place car. Nearly 2 million more people now drive Chevrolets than any other make.

*Optional at extra cost. Combination of Powerglide automatic transmission and 115-h.p. "Blue-Flame" engine available on "Two-Ten" and Bel Air models only. Power Steering available on all models.

Menu Magic

YAM TURNOUT

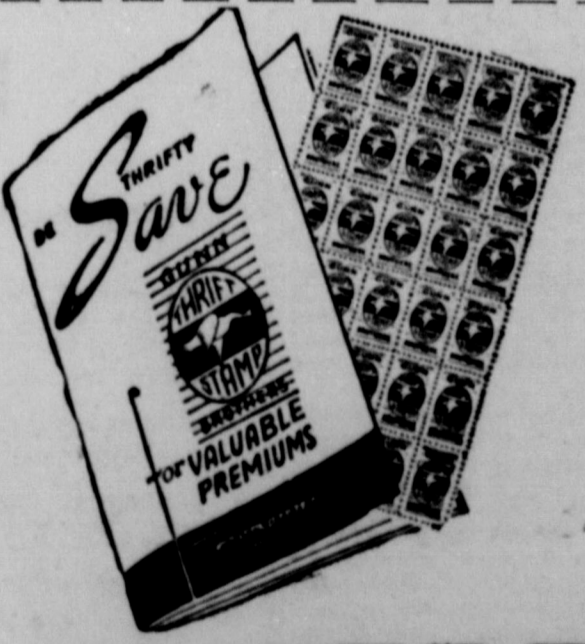

From Scarlet O'Hara days to the present, yams have been glorified on Dixieland menus. Take a tip from the Southern Belles and try one of their tasty recipes for a sweet potato dish called Yam Turnout.

Yams

- 2 1/2 pounds of cooked peeled yams
 - 1/2 cup sugar
 - 1/2 cup brown or maple sugar
 - 1 1/2 teaspoons nutmeg
 - 1/2 teaspoon salt
 - 6 tablespoons melted margarine
 - 1 egg, beaten
 - 1 1/2 teaspoons grated orange rind
 - 1/2 cup chopped pecans or raisins
- Whip together yams, sugar, brown sugar, nutmeg, salt, margarine, egg, and grated orange rind until smooth. Add chopped pecans. Coat an 8-inch ring mold with melted margarine. Place the mold in the refrigerator for a few minutes to harden the coating. Dredge the mold with flour. Press the yam mixture carefully into the mold. Bake in a 375 degree oven for thirty minutes. Turn out when cool. Cut in wedges and serve with hot Dixie sauce.

Dixie Sauce

- 1 cup maple syrup
 - 1 teaspoon grated lemon rind
 - 2 tablespoons lemon juice
- Place syrup, grated lemon rind, and lemon juice in a small sauce pan. Heat thoroughly. Makes one cup sauce.
- For other excellent kitchen-tested recipes, write the National Cotton Council, P. O. Box 15, Memphis 3 Tennessee, for your free copy of "Menu Magic with Margarine," a attractive 24-page booklet in two colors.

So this is HOUSEKEEPING

One of the reasons why many a bride gets mad enough to grind her teeth into powder is the smug assurance of her soul mate that the "little gal" has a comparatively easy time of it while he's out sweating and toiling the live-long day. He should only stay at home some washday and watch how the other half lives, as Jeff had to do not long ago because of a cold.

A few days later he casually announced that there were a few dollars "wasting away" in the bank that might better be employed in the purchase of some laundry equipment. Hal! "Remember, we haven't got much space," he screamed, but I had already squeezed into my bonnet and was stretching my nylons in the direction of the nearest dealer store to gaze fondly on the wonders of dryers and washers.

Long before the sun had set that day I had a new love in my life—or I should say two loves, for it consists of two units, the "Whirlpool Compact Couple," matching dryer and washer. And as far as space goes, why it takes up less room than a couple of small kitchen chairs! 48 1/2" wide and 24 1/2" deep according to my ruler, and to almost echo my husband, space is something that this family has to hoard like a miser.

Another cute innovation is casters. Both washer and electric dryer can be wheeled away and stored when not in use.

What a change from the "hope it will be sunny tomorrow" routine. Now every day is a perfect drying day with no "fuss or muss" as the man says. The dryer units are available in either gas or electric models.

I could hardly believe it when I found that the capacity of my compact couple was the same as many small "standard-size" washers and dryers.

Controls on the top of the back insure convenience for you and protection for the careless reconnaissance known as childhood.

The only thing I have to worry about now is the possibility of becoming an afternoon television addict. Come to think of it though, what's wrong with that!

SCIENCE and your Health SLEEP AND SLEEPLESSNESS by Science Features

The problem of going to sleep at night is one that bothers millions of Americans. These people suffer from insomnia, a condition doctors describe as one of the most common they encounter.

Sleep and wakefulness, says Dr. Nathaniel Kleitman, a University of Chicago physiologist, are governed by two nerve groups in the brain, which he calls the "wakefulness center." Sleep cannot come if this center is disturbed by the activities of the cerebral cortex, the seat of man's intellectual processes of reason, judgment, and the like.

Thus the counter of sheep worries over his inability to sleep, finds this worry itself stimulates the wakefulness center and makes sleep impossible to woo. Of course a person not inclined to chronic insomnia can also be kept awake by unusual fears or cares.

Scientists know that the human temperature rises and falls once every 24 hours. The lowest period is the ideal one for sleep. Since this period can be regulated by the sleeper's habits, it offers a means for the chronic insomniac to cure his condition without recourse to sleeping pills.

To utilize it, says Dr. Kleitman, the insomniac should set a regular hour, whether in the day or night, and retire to bed at that same time every day. Gradually, his body will become accustomed to the habit, his temperature will begin to drop at the appointed hour, and sleep will come with less difficulty.

Mr. and Mrs. Elmer Gudgel and Mr. and Mrs. Richard Griffin and daughter Gayle of Farmington, N. M., visited over the week-end with their parents, Mr. and Mrs. John Gudgel and Mr. and Mrs. R. B. Jones. Mrs. Griffin and Gayle remained for an extended visit.

Rites Are Held In Kansas for Reggie L. Plush

Funeral services for Reggie Lee Plush, caretaker at Sandspur Lake near McLean, were held Thursday of last week in Pratt, Kans. Burial was in the Laredo, Kans. cemetery.

Plush was found dead in his bed at his cabin at the lake Tuesday morning of last week. Officials placed the time of his death as early that morning. The body was discovered by fishing parties at the lake. The group had missed seeing him, and upon investigation, his body was found in his cabin.

Plush was born July 13, 1893, in Kansas, and was 59 years, 11 months, and 7 days of age at the time of his death.

He had lived in Dalhart about 12 years before coming to McLean, and was employed with the railroad there. He had made his home at the lake for about one year.

Survivors include four sons, Gerald of Arkansas, Kans., Lloyd C. and Paul R. of Denver, Colo., and Dexter O. of Wichita, Kans.; two sisters, Mrs. Otto Hinds and Mrs. Liddy Brady of Pratt; and 11 grandchildren. His wife preceded him in death in August of 1936.

Rogers—

(Continued from page 1)

to be made, and that it is merely a matter of policy, not law, for the so-called "pauper's policy" to be signed. In this regard, Rogers read the law at the Pampa meeting, and emphasized the clause which states that the loans can be made where other financing is not "readily available" to those in need. He said he sees no need for special credit legislation.

The congressman also explained that if foodstuff is to be kept at a stabilized price by some type of controls, then he believed that cattle should enjoy the same type of support. The trouble with the cattle business now, he explained, is that the cattle market—caused in part by the drought—has dropped, and that cattlemen are simply unable to feed out low-priced cattle with high-priced feed.

Several men from the local area attended the meeting. Among them were Jimmy Shelton, Guy Saunders, E. L. Sitter, J. E. Kirby, W. J. Foster, Lester Campbell, O. L. Tibbets, J. W. Mescham, W. W. Boyd, and Homer Abbott.

Heart Trouble Leads in Deaths

Worried about your heart? If so, it doesn't help to hear that deaths from diseases of the heart and the blood vessels are the leading cause of death in Texas. Yet, if you have heart trouble today, you are better off than you would have been at any previous time in the history of the world, says Dr. Geo. W. Cox, state health officer.

Cases, which in former years were considered hopeless, are now being treated successfully. Most heart patients who follow their physician's directions can lead relatively normal lives, carrying on most of the activities they did before they became ill with heart disease.

Over-fatigue, over-exertion, worry, and prolonged emotional disturbances also make additional work for the heart. The heart slows up somewhat when you lie down and a little more when you fall asleep, but the person who is constantly on the go, and gets too little sleep, does not give his heart much of a chance to rest.

Whenever you become worried or excited, your heart is the first part of the body to react. It immediately starts to beat faster. If you really become frightened or over exercise, it may start pounding.

Many people, when they realize they have heart trouble, fortunately learn a new way of living. They acquire a more wholesome and happier way of life. Their work is planned so that they do not get over-tired, and are not pushed to get the job done; when they get tired they stop and rest. Few heart patients have to give up all of their usual activities.

They learn a different and better way of doing them that does not put such a strain on the heart, for they have found that it is the way they do things, rather than what they do that is so very important.

Early treatment for heart disease will help to relieve your worries and will set you on the right road to good health, with a chance for a normal span of life, if you obey your doctor's orders.

HIGH POCKETS

CHICAGO—No bees in this lady's bonnet—just specs and smokes! This gay hatch hat, from Marshall Field & Company, shows the latest trend to giddy straw toppers that just incidentally shade the eyes. facilities are being erected so that it can eventually take care of 120 children at one time.

The camp is strictly for recreation and instruction for the children, and is not intended to be a treatment camp. It affords boys and girls who are handicapped in some manner the opportunity to be with each other for two weeks, and, in that way, learn much from others who are similarly handicapped.

Each child sent to the camp must be recommended by a Lions Club in the state. The club has no expense involved while the child is in the camp, but must pay the expenses of the child to and from Kerrville.

Emmitt Powell and family of Hereford visited with Mrs. Maud Powell over the week-end.

Mr. and Mrs. Reo Heasley spent the week-end with Mr. and Mrs. J. M. Anderson in Shamrock.

Mrs. Wb Fowler and daughter Marjorie spent the week-end in Springer, N. M., with Mr. and Mrs. Gordon Billingslea and sons.

Mr. and Mrs. Frank Kennedy and family of Quail visited with his mother, Mrs. W. E. Kennedy, Monday.

Mr. and Mrs. Johnnie Mertel were in Lubbock on business last Friday.

Mr. and Mrs. Elmer McAllister and Mrs. Pete Benson and two children of Barstow, Calif., are visiting in the home of Mr. and Mrs. Bill Allister.

Rites Held for Ex-Resident Of Local Area

Funeral services for Mrs. Bertha Cook Boyd Simms were held in the Methodist church at Happy Sunday, July 5, with Rev. Cecil E. Ottinger, pastor, officiating.

Mrs. Simms, formerly of McLean, died July 2 at the home of her daughter, Mrs. Ora Crane of Wellington.

Pallbearers were John Hammonds, Bill Simms, Frank Waiters, Ollie Spear, Bill White, and Alden Mann.

Mrs. Simms was born December 22, 1876. She was united in marriage in 1894 to J. E. Boyd, and to this union 13 children were born. In 1944, she was married to J. P. Simms.

She came to the Panhandle in 1925, and to McLean in 1945 and 1947.

Survivors include the following children: Mrs. Mattie Brown of Portland, Ore., Mrs. Sarah Smith of Wichita Falls, Henry Boyd of Truth or Consequences, N. M., Gaines Boyd of Monahans, Mrs. Crane of Wellington, Lacy and Phil Boyd of Tioga, N. D., Mrs. Luty Vaughan of Hawthorne, Calif., Thomas Boyd of Artesia, N. M., and Mrs. Pauline Wesley of Happy; 22 grandchildren, and 16 great-grandchildren. Preceding her in death were J. E. Boyd and three children, Ollie Boyd, Fay Boyd, and Isaiah Boyd.
