No. 39.

The McLean News

Cattle Market Program Due, Rogers States

Some type of program to stabilize the cattle market will be worked out in the not-too-distant future, Congressman Walter Rogers told members of the McLean Lions Club...

Commenting on the drop in the cattle market, Rogers said that there are only two kinds of surpluses. There can be a surplus of food, or there can be a surplus of human beings.

Rogers condemned those who criticize the farm programs and term the farm subsidies as free hand-outs to farmers.

The congressman, speaking to an audience of about 50 men at the regular Lions Club meeting, stated that a program to stabilize the cattle market would be forthcoming soon.

Rogers also spoke briefly on taxes, explaining that the 1950 ten per cent income tax increase, as well as the excess profits tax, is scheduled to expire on January 1, 1954.

George Terry has about completed his new business building, located behind his home, which is on the corner of West North 4th Street and Commerce.

Odell Mantooth was in what you would call a "dither" Wednesday. He had just received a wire from H. L. Hathaway, with the Standard Oil company of Texas at El Paso...

A somewhat listless bunch of McLean Tigers racked up one touchdown in the first quarter, and one more in each of the third and fourth periods, to defeat the Price College Cardinals by a score of 19 to 0 on the Cardinal gridiron in Amarillo last Friday night.

MISS LAVERNE WILLIAMS wins scholarship

Miss Williams Named Winner Of Scholarship

Miss LaVerne Williams, daughter of Mrs. Perry Roby of Lubbock and 1953 graduate of McLean High School, has been selected as winner of the scholarship award given by the Pampa Delta Kappa Gamma Society.

The awarding of the scholarship is an annual project of the society in Pampa, and the honor is always presented to a future teacher.

Miss Williams was valedictorian of the 1953 McLean class. She served as president of the Future Homemakers of America, and as editor of the Tiger Post as well as of the school annual, the Tumbleweed.

Runners-up for the award was Miss LaTune Chilton, daughter of Mr. and Mrs. Josh Chilton of McLean. Others applying for the award were Misses Glenna Rae Downs of Panhandle, Floella Cubine of McLean, Virginia Naylor of Panhandle, and Cora Lee Hoarn of Groom.

A nail driven into a tree trunk would be at the same height from the ground five years later.

17 Bales Cotton Ginned Here; Grading Good

A total of 17 bales had been brought to the McLean Gin by Wednesday morning, as cotton harvest began to get underway this week, S. R. Jones, manager, stated.

The first cotton has been good, the local manager explained. Of the government grades which have been received back here, the cotton graded strict middling 7/8 and strict middling 29/32.

One bale of cotton was lost Tuesday when a fire started in the cleaners of the local gin. Jones said that apparently a rock or a wire caused a spark which ignited the cotton.

The market price of cotton is slightly below the loan value at the present time. A few farmers are going ahead and selling their cotton, but most of them are waiting on a market change.

Lack of moisture this month has hurt the cotton crop in the local area. First it was worm damage which cut the production, and then the month without moisture reduced production also.

Popocatepetl is a volcanic mountain in Mexico.

Downtown Pep Rally to Boost Second of Home Football Games

Reeves Wheat Sample Wins First at Fair

It's a bit hard to believe that this portion of Gray County is capable of raising a blue ribbon class of wheat, but Boyd Reeves proved it this year.

Reeves took first place in the Tenmarq class. A milling and baking test will be given his wheat in the competition for the grand champion of all of the nine variety classes shown.

In addition to the three firsts awarded to Gray County farmers in the wheat show, one second, one third, one fourth, and two fifths were won.

Several other area farmers won first places with their entries in the general exhibits.

J. L. Andrews won first with his gallon of Martin milo, and J. W. Hornsby also showed the tops with a gallon of yellow milo.

Mrs. L. L. Palmer won first with a bundle of alfalfa. Robert Bruce took second with his honey dew melons and fourth with his cushaw.

Lercy Williams won a third with his watermelon. Milton Carpenter, a long-time winner with his apples, won only fourth in the red apple division this year, but placed first with his okra.

E. L. Peirce took a fourth place with his rhubarb, and T. T. Griffin won fourth with his yellow apples.

REV. JAMES O. TODD at Kellerville meeting

Revival Meet At Kellerville Starts Sept. 30

A revival meeting will begin Wednesday, September 30, and continue through Sunday, October 11, at the Kellerville Baptist Church, Rev. D. L. Hunt, pastor, has announced.

Conducting the series of services will be Rev. James O. Todd, pastor of the First Baptist Church of Shamrock. Mrs. Brent Chapman of Kellerville will conduct the song services.

Morning services each week during the meeting will begin at 9:45 o'clock. Rev. Hunt said. Prayer meeting will be held each evening at 7 o'clock, and preaching services will begin at 7:30.

Rev. Todd is well known in this area for the forceful type of messages he brings. He received his bachelor of arts degree from Baylor University, where he was an outstanding athlete, lettering two years in track.

He later attended the Southwestern Baptist Theological Seminary in Fort Worth, where he received his B. D. degree. During World War II, he served as a chaplain in the U. S. Army, spending considerable time in the European theater.

Every human being has a work to carry on within, duties to perform abroad, influences to exert, which are peculiarly his, and which no conscience but his own can teach.—William E. Channing.

McLean, Claude To Play Friday At Duncan Field

The McLean Tigers, victorious in their first two games this fall, will entertain the Claude Mustangs on Duncan Field Friday night beginning at 8 o'clock, for the second home game of the season.

Students of McLean High School will march downtown behind the band Friday afternoon at 2:30 o'clock for another big pep rally preceding the McLean-Claude game. Football fans are urged to be downtown at that time to give support to the bandsmen and the pep squad.

The Tigers, in view of their two victories and the fact that they are in Class A while Claude is in Class B, will be favored to win.

The going may be tough, however. The Mustangs won the District 1-B title last fall, and then went on to win the bi-district. They fell before a strong Idalou team in the regional game.

Coaching the Mustangs is Wayne Mantooth, who is serving his second year in the coaching field. In his first year of coaching, fresh out of Southwestern State College of Oklahoma, he surprised all comers with his "iron men." His squad at the beginning of the season in 1952 numbered only 13 men, but the team managed to take six straight victories and the District 1-B title.

The Claude team of 1953 is relatively heavy, but will also feature several inexperienced players. Returning to the backfield are Don Rutherford, a 207-pound senior, Ray Thompson, 165-pound senior, and Ronald Byrd, a 135-pound sophomore. Raymond Conrad, a member of the squad last year, is now playing at Price College, and showed up well against McLean last week.

In the line, returnees include guards Lester Crowe, 200 pounds, senior, and Roland Brunson, 150, senior; center Paul Rutherford, 155-pound sophomore; and ends Jack Eddieman, 150, senior, and Edward Stevens, 155, sophomore.

In their opener this fall, the Mustangs toppled the Lakeview Eagles 20-6. Last week-end, the Claude Broncos walloped the Claude eleven by an 18-0 score.

Coach Mantooth, incidentally, is an uncle of Ricky Mantooth, backfield player for the McLean Tigers.

Coach Hap Rogers of McLean will likely start the same eleven he used in the two games to date. This consists of Mantooth, Don Crockett, Rodney Gunn, and James Smith, in the backfield; Jimmy Farren and Troy Smith, at ends; Joe Crockett and Don Trew, as tackles; James Jolly and Jack Hupp, guards; and Wayne Moore, center.

The Tigers have suffered no serious injuries in their first two games. Barring practice injuries, the squad should be in good condition to go against the Mustangs.

Fire in Cellar Damages Clothing

Fire of an undetermined origin caused damages estimated at \$300 or \$400 in the cellar at the home of C. B. Simpson, just west of town on the Lefors highway.

The cellar is located only a few feet from the rear end of the house. How the blaze started is still unknown, since no one was in the cellar at the time.

Firemen who answered the call required more than 30 minutes to extinguish the blaze. Burned in the cellar was the family's winter clothing which had been stored there for the summer.

The University of Minnesota and the University of Michigan meet on the football gridiron each year to battle for "The Little Brown Jug."

The Hawaiian Islands were formerly the Sandwich Islands.

Tiger Eleven Outplays Price College to Tune of 19-0

In Brief: McLean Price

Table with 2 columns: Statistic, Value. Lists game statistics for McLean vs Price College.

Scoring: McLean 19 (Don Crockett 12, Rodney Gunn 1, James Jolly 6), Price College 0.

Don Crockett, ramming half-back, bulldozed through for the first two markers on short plunges, and James Jolly, guard, covered a blocked Price College punt in the final period for the other marker.

The Tigers were never pushed too hard to win the game, although the Cardinals did threaten a couple of times. But only two or three of the Tigers played the same kind of heads-up ball which they had displayed a week earlier against Stinnett.

In the McLean backfield, Don Crockett was the workhorse during this game. He carried the ball a total of 16 times, netting 49 yards. Although the yardage was not large on his runs, it was always that needed amount.

The scoring was as follows: In the opening quarter, after the ball had exchanged hands once, Mantooth punted to Polk on the 22, who tried a lateral on the run-back only to lose the ball to the Tigers when Jimmy Farren covered on the Price 32.

For Price, the outstanding back was Pete Polk. He alternated with Gary McKenna to do most of the ball carrying, and Polk also did the passing and the quarterbacking.

On the Tiger line, Troy Smith showed the greatest improvement. A newcomer to the line this year, Smith got in on numerous tackles. Wayne Moore, center, played a bang-up game against Price, and Jolly was another standout.

Gunn's kick was no good and the score was 13-0.

Near the end of the last quarter, Joe Crockett blocked a McKenna punt, the ball rolling out to the Price 32. From there Don Crockett made his six consecutive runs to move the ball to the 4.

The Cardinals took the kick-off and began to move downfield quickly against a team of Tiger reserves. They moved the ball from the Price 20-yard stripe to the McLean 2 in 8 plays—with Polk's 41-yard dash the outstanding play—but the game ended before any further scoring was done.

Tuna Balls with Golden Noodles

Savory Tuna Balls served atop golden broad noodles make this main dish a delight to view and something special to eat.

Nippy fall days call for something temptingly hot and tasty for hungry appetites. Tuna Balls served with tender, golden broad noodles are a quick answer to such a request. Small bits of onion, celery and parsley add both color and flavor to the tuna balls. While the noodles are cooking, the Tuna Balls are lightly browned in a skillet and then served hot over the noodle-corn mixture. Lemon juice enhances the delicate flavor of the tuna balls.

Accompany this center of attraction with a fruit salad of banana, orange and grapefruit slices, hot French bread, milk and wedges of the season's favorite—apple pie.

Durum foods fit well into any part of the menu from soup to dessert and combine easily with many foods. They serve as the main feature or willingly take the background. Durum wheat foods add heartiness to all meals. Plant protein and food energy are provided when you serve durum wheat products. Such foods help you feed your family well without upsetting the food budget, too.

Serve Tuna Balls with Golden Noodles attractively on a large platter and garnish with chopped parsley.

TUNA BALLS WITH GOLDEN NOODLES

Tuna Balls
 1 cup flaked tuna (7-ounce can) 2 tablespoons melted butter or margarine
 1/2 cup enriched bread crumbs 2 teaspoons lemon juice
 2 tablespoons chopped onion 1/2 teaspoon salt
 2 tablespoons chopped celery Dash pepper
 2 tablespoons minced parsley 1 egg, beaten
 Fat or drippings

Combine all ingredients except fat or drippings. Mix thoroughly. Shape into balls. Brown lightly in fat or drippings in heavy skillet. Tuna Balls may be kept warm in oven or by covering skillet while preparing Golden Noodles.

Golden Noodles

4 ounces broad noodles 1 1/2 cups milk
 3/4 cup butter or margarine 1/2 cup cooked whole kernel corn
 3/4 cup enriched flour 1/2 teaspoon salt

Cook noodles in boiling salted water until tender (about 6 minutes). Drain and rinse. While noodles are cooking, melt butter or margarine in saucepan. Stir in flour and salt. Add milk and cook until thickened, stirring constantly. Fold in noodles and corn, mixing until blended. Heat thoroughly. Serve with Tuna Balls.
 Makes 4 servings.

Donley County—SOIL NEWS

Every farm in the Donley County Soil Conservation District should have a small patch of alfalfa as a part of its conservation program and to strengthen the economy of a well-rounded farming enterprise.

Alfalfa is one of the most effective crops known for erosion control. Its extensive and deep root system, together with the dense surface cover, makes the soil porous and able to receive and hold large amounts of water.

The crop will grow under dry land conditions on almost all soil types in the Donley County Soil Conservation District.

Land preparation for alfalfa is not different from that of planting small grain, as the land should be plowed to kill weeds and made as smooth as possible.

For fall planting on clean land, a nurse crop such as sudan, any type of sorghum, or oats should be used to protect the young alfalfa plants from being killed by blowing. These nurse crops will winter kill and leave a non-competitive protective cover on the land through the winter and spring.

Ordinarily it is not advisable to use nurse crops such as wheat or rye, as these crops will not winter kill and will offer too much competition to the alfalfa the following spring. An exception to this rule would be when the subsoil moisture at planting time is unusually good or if the land can be irrigated.

Spring plantings of alfalfa are sometimes successful, but generally best results are obtained in the fall, as the weed competition is less with the fall plantings.

On deep sandy soils it is advisable to plant as soon as possible after the middle of August and not later than the latter part of September unless there is sufficient cover or litter on the ground to prevent blowing. Planting time may be delayed until October if blowing is not a hazard.

Alfalfa may be seeded with a cyclone seeder, drill, or broadcast by hand. Better distribution of the seed can be obtained with a drill.

The seeding rate is 15 to 25 pounds per acre. Texas common is the variety most widely used in the Donley County SCD.

The seed should be inoculated and planted approximately one-half inch deep on a firm seed bed.

Additional information on seeding alfalfa may be obtained at the office of the Soil Conservation Service. The district has drills for rent for seeding alfalfa.

Mr. and Mrs. Floyd Simpson and son Jimmy of Amarillo spent the week-end with Mr. and Mrs. G. T. Hugg and Mr. and Mrs. Jim Simpson.

School Means Germs Spread

Communicable diseases common to children reach their low point, as to number of cases, late in the summer. Then, when school opens, and children are closely grouped together in classrooms, germs begin to spread, and the increase runs to thousands of cases of illness, causing much time lost from school, discomfort for the children, and untold hours spent in nursing them back to health, declared Dr. Geo. W. Cox, state health officer.

Some children die and others suffer permanent damage to their health. The really tragic part of this situation is that it is, in a large measure, preventable. If all parents would change their indifferent, negligent attitude toward diseases such as measles, whooping cough, scarlet fever, and chickenpox, and would cooperate with school and health authorities, these common disease epidemics could be reduced.

Dr. Cox says these are the important ways to protect the health of our school children: immunize every child against diphtheria and small pox, have daily inspection of school children, with isolation or separation of the suspected case of disease, sending home any child showing signs of illness, such as paleness, sore throat, skin eruption, fever or any other symptoms that apparently need the attention of a physician; keep children home who show signs of illness. Call

the physician and let him interpret the symptoms. Re-admission to school should be based on permission of the family physician or health officer. Inspection should be made at the beginning of school and at mid-year for minor skin infections and head lice, with exclusion of all infected children from school. The development of good personal habits in every child is very essential to the control of all contagious diseases.

For the sake of our children—their physical health and progress in school, let's stop the inroads of needless illness.

Wife: They have no car, no television, no piano. What do you suppose they do have?
Husband: A bank account.

"Don't you realize," said the wealthy woman, proudly, and with a sweep of her arm, to her husband, "if it weren't for my money, you wouldn't have any of these nice things?"

"My dear," said the husband, "if it weren't for your money, I wouldn't be here either."

We have a feeling that cold weather isn't too far away, for football season always brings on cold weather. So have your car winterized with the proper lubrication now. For better service, try

Editorial

NEW HOPE

HAVE YOU EVER DRIVEN down the street or highway and been scared within an inch of your life by the careless and reckless drivers? What did you think? What did you say? You probably came out with an emphatic "Why don't they do something about these drivers?"

You will be interested to know that one of the most promising programs being carried on in an effort to improve our traffic accident problem is a program in which some of our Texas schools, including McLean, are engaged.

According to the Texas Safety Association, at the present time, approximately five hundred and seventy-five secondary schools in Texas are offering at least one class in Driver Education.

That statement may mean little to you, but why not learn something about its importance? Do you know what it means to the student who takes the course? It means that he or she has the opportunity to develop into a skilled, safe driver. It means that after having received this training, the student can expect to have only one-third to one-fifth the number of traffic accidents which will befall the other students who were unable to receive this training and were forced to learn to drive with their parent as instructor, or with no formal teaching at all. Those statistics are provided as a result of research carried on in other states.

That is the value of the Driver Education classes being offered by our schools.

This program is one of the things that "they" are doing about this problem. The question is, what are "you" doing? Does your school offer this vital training? If so, have you ever expressed any sincere interest in it or a desire to help?

A Driver Education program is never as successful as when the parents actively engage in its support. There are many teen-agers who would like to have this training, but the school facilities can accommodate only one class. You can help them. The class may need additional equipment for demonstration and practice; again, you can help them. The student needs encouragement from home—that is your job. He also needs to have an example of good driving from his parents—it is up to you to provide it. Have you ever complimented the teacher on his work? A pat on the back from you can brighten up his routine day.

If this training is not being offered in your school, then your support and help can do a great deal to remove some of the obstacles which stand in the way.

The Texas Safety Association urges you to support this program in your community. Driver Education for our young folks holds the promise of a drastically reduced traffic accident toll in the years to come. This training can protect the lives of your children, but if training is to be a success, it must have your wholehearted support. Give freely of your time and efforts. No cost is too great to save a life.

If you do this, the next time you feel like shouting "Why don't they do something about traffic accidents," you'll know that something is being done, and that you are a part of it. **YOU MAY SAVE THE LIFE OF YOUR CHILD!!**

Dead on Your Feet?

IF YOU SUFFER FROM

Fatigue Digestive upsets
Nervousness Insomnia
Poor appetite Constipation

These symptoms if due to a vitamin deficiency occur only when daily intake of vitamins B₁, B₂, and nicotin is less than minimum daily requirements over a prolonged period. In themselves, they do not prove a dietary deficiency as they may have other causes or be due to functional conditions.

See your doctor. The basic cause of your trouble may be iron-and-vitamin starvation over a prolonged period. BEXEL, the Special High-Potency Formula supplies supplementary quantities of iron for rich red blood to start new strength and energy pouring through your entire body.

Each wonder-working BEXEL capsule gives you more than 5 times the daily minimum requirements of blood-building iron; more than the daily minimum requirements of all the essential B-vitamins plus Vitamin B₁₂ plus trace minerals.

Join the thousands of grateful men and women of all ages who thank BEXEL Special Formula for giving them a glorious outlook on life. Get BEXEL today—now available at all drug stores.

LES TALK

By LESTER

Since Fire Prevention Week will be observed throughout the U. S. October 4-10, it might be well to devote a bit of space to things in our little city which can be termed as fire hazards. We have no intention of making anyone angry, or of stirring up anything, but merely intend to pass along a few observations of fire hazards which you, too, have no doubt noticed.

First, and probably worst, your attention is called to the electrical wiring in the older buildings downtown and many of the homes. Much of this wiring is not visible to the eye, and perhaps that's one reason much of this wiring is defective.

Four or five years back, we had this building completely rewired. The condition of the old wiring was bad, very bad. A lot of the insulation had dried out so badly it had fallen off, the wire itself was mighty easy to break, and it all was too small to carry the load it was supposed to. Recently, I had our home divided into more circuits, to avoid overloading the lines.

In other words, if your business house or your home is still boasting the same wiring job it had 20 years ago, the added electrical load you are now carrying—what with more machinery and more home appliances—is away too heavy, in all likelihood.

So check your electrical wiring. Another fire hazard, downtown in this instance, is the wooden trash receptacles used to dump trash into prior to its being picked up by the city. The so-called box behind our building, for example, serves as the trash receptacle for Callahan's, The News, and Bill Day. Oftentimes it becomes full and running over during the day with paper and cardboard boxes. It is up against the back of the building, as are most of the receptacles downtown against buildings. Should it ac-

cidental, or purposely, be ignited some night, no doubt much damage would result. We offer no solution, but merely present the problem.

This next little fire hazard may not be so dangerous, but it strikes us that it could be. Frequently at night, Post Office visitors, due to the very poor lighting in the P. O. building, are forced to get out matches in order to be able to work their box combinations. It has occurred to me that there is a fire danger involved. The paper in one of those boxes might be accidentally ignited some time, and such a fire could get out of control very easily. The solution here seems highly apparent—more and better lights in the Post Office.

Another fire hazard which is common in the summer months may be found in our nice City Park. Frequently, picnickers build fires in the fireplaces in the park, and then go off before the fire dies out. To my knowledge it hasn't happened yet, but it does seem that the fire could be blown out of the unguarded furnaces and set something in the vicinity.

Guess one of the worst fire hazards is to burn trash in your trash barrel and leave it entirely unguarded. Not too many months ago, such a fire nearly burned up our neighbor's fence. Peculiar thing about it was that we—or our neighbors—did not start the fire in the barrel due to the fact that the day was windy. But the fire was there, it blew out of the trash barrel, and a portion of the fence burned. Burning trash barrels are a hazard, and need close watching.

Of course, smokers present constant fire hazards. Not only outdoors but indoors as well. No use going into details about not smoking in bed, not throwing lighted matches out of autos, not going off leaving a burning cigarette in a shallow ash tray, etc., etc.

Little as you may realize it, a bottle of clear, or nearly clear, liquid, if left in the sun, is a fire hazard. Suppose you go to the

grocery store, buy a bottle of vinegar, leave it in the car seat for an hour or so. If the sun happens to strike it right, the rays will be pinpointed onto the covers of the car seats. And fire will be the result. I ought to know—it happened to me once.

Another fire hazard is one in garages and service stations where gasoline, or other inflammable fluids, are used for cleaning purposes. First of all, the fumes from gasoline are highly inflammable, and have caused more than one bad fire right here in our town. Then there is more danger of combustion from the cleaning rags. Too often, a person using such fluids has no suitable place for disposing of the rags when through with them, just tosses them into a corner. The next morning he finds his place of business, or home, is a total loss, or nearly so at least.

Few business houses, and fewer homes, have any type of fire extinguishers. We've got a couple here at The News, but certainly none at home. Sometimes water does more to increase a flame than to decrease it. We're not trying to sell a bunch of fire extinguishers, but the presence of them certainly doesn't create a fire hazard.

Hope I haven't bored you with this. You know it all as well as I. But it doesn't hurt any of us to be reminded. Writing it down has certainly brought the ever-presence of fire hazards to my mind. Whether I will do anything about them is another thing.

We may be personally defeated, but our principles never.—William Lloyd Garrison.

Vice poisons pleasure, passion falsifies it, temperance sharpens it, innocence purifies it, beneficence doubles it, friendship multiplies it.—Chinese Proverb.

NOTICE TO BIDDERS

The Commissioners' Court of Gray County, Texas, will receive

PRISON RODEO
EACH SUNDAY
IN
OCTOBER
Reserved Seats
\$2.40

"Now, Butch—if we can get you before the judge this month—you will get to see the Rodeo at Huntville!"

bids addressed to the County Judge of Gray County, Texas, until 10 a. m. October 12, 1953, for the following equipment to be purchased by Gray County, Texas:

One Model 1952 used front end loader with 54" bucket of 1/2 cubic yard capacity or load capacity of 2,250 lbs.; Rear wheel drive, front wheel steer; Fully reversing transmission with four speeds forward and four speeds reverse; Forward speeds from 1.8 M. P. H. to 14 M. P. H. and reverse speeds from 3.0 M. P. H. to 23 M. H. P.; Overall width of rear tires to be 5' 10" and length overall to 13' 9"; Weight to be approximately 8,000 lbs.; Loader to be Hough Model H. E. P. loader or equal.

Bids shall be accompanied by bond as provided by Art. 20, RCS 1925 and shall be opened at read in the County Courtroom at the time set out above.

The Court reserves the right to waive technicalities and to reject any and all bids. Cash to be paid within thirty (30) days after delivery and acceptance.

CHARLIE THUT, Clerk, Gray County, Tex. (SEAL)

A message to every prospective new car buyer:

You can have

the most popular automatic transmission to be found in any low-priced car
Chevrolet's Famous 1953 Powerglide!*

Much fleetier, smoother, more economical! Thoroughly proved and improved through years of development and over a billion owner-driven miles! Production now running at new high levels due to record nationwide demand!

Much More Economical
Chevrolet's 1953 Powerglide Automatic Transmission*—teamed with the 115-h.p. "Blue-Flame" high-compression Valve-in-Head engine—brings you entirely new operating economy in city driving and on long trips.

Far Livelier Getaway
Put the selector lever in "DRIVE" position—step on the accelerator—and you move smoothly away from a standing start to legal traffic speed in seconds.

Important New Gas Savings
You'll never know how economical an automatic transmission can be until you try the 1953 Powerglide. Various improvements, including a more efficient use of engine power, make it extremely thrifty.

In fact, bring you the most important gain in gasoline economy in Chevrolet history.

Great New Passing Ability
The car picks up pace in traffic or on the highway at the touch of a toe, for the '53 Powerglide has an added automatic passing range.

Smoother No-Shift Driving at Lowest Cost
Driving is almost incredibly easy, changes of speed almost unbelievably smooth... for this transmission gives simplest, smoothest, no-shift driving at lowest cost.

Safe Eyes-on-the-Road Driving
Safety is served in many ways. And one of the most important, perhaps, is that Powerglide permits you to concentrate on

driving. You can keep your hands always on the steering wheel and your eyes always on the road.

Full Engine Braking-Power on Hills
Powerglide's flexibility lets you cruise easily up any hill. And you enjoy constant engine braking power for maximum safety when descending.

Rock Out of Trouble
Powerglide's smooth power flow lets you rock out of sand, snow or mud whenever the need arises. "LOW" and "REVERSE" are side by side on the Powerglide quadrant, making the operation doubly easy.

Push-Proof Parking
Put the selector lever in "PARK" position when you leave the car, and a positive gear-type lock holds it in position until you return.

Time-Proved, Owner-Proved Dependability
Come in. Drive a Chevrolet with this finer, more popular automatic transmission. Test it and you'll want it. It's time-proved, and road-proved by hundreds of thousands of owners, in over a billion miles of driving.

MORE PEOPLE BUY CHEVROLETS THAN ANY OTHER CAR!

*Optional at extra cost. Combination of Powerglide automatic transmission and 115-h.p. "Blue-Flame" engine available on "Two-Ten" and Bel Air models. Power Steering available on all models.

Cooke Chevrolet Co. McLean, Texas

Who, ME? by Robert Osborn

Although accidents are caused by drivers of all ages, young drivers are responsible for more than their statistical share. Only YOU can prevent traffic accidents!

Dysentery Cases Numerous in State

Commenting on the unusually high incidence of dysentery in Texas, Dr. Geo. W. Cox, state health officer, described dysentery as being an infectious disease characterized by diarrhea, pain in the abdomen, and toxemia. It is caused by a specific bacteria or germ. These germs cause inflammation of the lining of the intestinal tract which produces pain throughout the abdomen and the discharge of many loose stools that frequently contain blood and mucus. Toxemia results from absorption of the poisonous substances produced by the germs.

"The germs gain entrance to the body through the mouth," Dr. Cox said, "and then make their way to the intestines in the same manner in which food does. When they reach the intestines

they find conditions favorable to their growth, and there they establish themselves at the expense of the person infected and produce their harmful effects."

Dr. Cox warned that dysentery affects young children more often and more seriously than adults, frequently resulting fatally; however, he said it may occur at any age. It is usually more prevalent during the summer season, and the great number reported last spring were unusual.

"The germ is always expelled with the excreta of persons sick with dysentery and may continue to be expelled for some time after the patient recovers from the disease. These persons who still discharge the germ after they recover are called carriers, and they occur more frequently in this disease than in the majority of other infectious diseases."

Cooper also shipped a car from Jericho.

Walter Foster and C. C. Cooper went with the train to Kansas City.

B. Y. P. U. Social
Members of the B. Y. P. U. of the Baptist church spent a very pleasant evening at the Francis home east of town last Tuesday.

A short program was rendered, including music, readings and talks, after which the time was spent in various contests and games. Ice cream and cake were served.

Those present were Mr. and Mrs. T. W. Petty, Mr. and Mrs. C. E. Francis, Misses Orma Kibler, Grace Hamilton, Pearl Crawford, Mildred Holland, Ethel Cash, Winnie and Ruby Newton, Isabel and Grace Francis, and Edith Stockton; Messrs. Dolphus Burrows, Josh Turner, J. L. Upham, Edwar Newton, Luther Petty, Giles Phillips, Doyle Foster, Roger Francis, Frank Stockton, Royal Hearn, Andy Mayfield, Reep, Bartow, and Fred Landers.

Quitting
About 20 ladies, members of the Baptist church, gathered at the home of Mrs. Sam Kunkel on Monday afternoon and spent their time tacking comforts for Mrs. T. N. Holloway, who was leaving for White Deer. The occasion was a profitable one, and late in the afternoon Mr. Kunkel surprised the ladies with a treat of ice cream.

A Singing
A crowd of neighbors and friends gathered at the Francis home east of town last Friday night to celebrate Mrs. T. W. Petty's 60th birthday anniversary.

The evening was spent in singing and conversation. During the time, refreshments of peanuts, lemonade, grape juice, and various kinds of cake were served.

LEGAL NOTICE

TO WHOM IT MAY CONCERN:
NOTICE IS HEREBY GIVEN of the intention of the Commissioners' Court of Gray County, Texas, to sell at public hearing certain oil, gas and mineral leases, said leases covering the following described tracts of land, situated in Gaines County, Texas, and more particularly described as follows:

TRACT NO. 1
The North one-half (N¹/₂) of Block No. 7, League 290, Gray County School Lands, said entire Block No. 7 being described by metes and bounds as follows:

"BEGINNING at a point in the Northernly Boundary Line in League 290, 1680.1 vrs. from the Northwest corner of said League; Thence in a Southerly direction parallel with the Westerly Boundary Line of said League, 1680.1 vrs.;

Thence in a Westerly direction parallel with the Northernly Boundary Line of said League, 283 vrs.;

Thence in a Southerly direction parallel with the Westerly Boundary Line of said League, 1429 vrs.;

Thence in an Easterly direction parallel with the Northernly Boundary Line of said League, 1040 vrs.;

Thence in a Northernly direction parallel with the Westerly Boundary Line of said League, 763 vrs.;

Thence in an Easterly direction parallel with the Northernly Boundary Line of said League, 223 vrs.;

Thence in a Northernly direction parallel with the Westerly Boundary Line of said League, 2337 vrs.;

Thence in a Westerly direction along the Northernly Boundary Line of said League, 985 vrs. to the place of beginning, and con-

taining 580 acres, more or less." Block No. 1, League No. 290, Gray County School Lands, described by metes and bounds as follows:

"BEGINNING at the NE corner of said League 290,

Thence in a Westerly direction with the North Boundary Line of said League No. 290, 6494.66 feet;

Thence in a Southerly direction parallel with the East Boundary Line of said League No. 290, 4292.51 feet;

Thence in an Easterly direction parallel with the North Boundary Line of said League No. 290, 6494.66 feet;

Thence in a Northernly direction with East Boundary Line of said League No. 290, 4292.51 feet, to the place of beginning, and containing 640 acres, more or less."

The North one-half (N¹/₂) of Block No. 2, League 287, Gray County School Lands, said entire Block No. 2 being described by metes and bounds as follows:

"BEGINNING at a point in the Northernly Boundary Line in League 287, 1250 vrs. in a Westerly direction from the NE corner of said League,

Thence in a Westerly direction with the Northernly Boundary Line of said League, 1513.7 vrs.;

Thence in a Southerly direction parallel with the Easterly Boundary Line of said League, 2500 vrs.;

Thence in an Easterly direction parallel with the Northernly Boundary Line of said League, 1513.7 vrs.;

Thence in a Northernly direction parallel with the Easterly Boundary Line of said League, 2500 vrs. to the place of beginning, and containing 670.25 acres, more or less."

The North one-half (N¹/₂) of Block No. 4, League 287, Gray County School Lands, said entire Block No. 4 being described by metes and bounds as follows:

"BEGINNING at the NW corner of said League No. 287;

Thence in a Southerly direction with the West Boundary Line of said League, 2500 vrs.;

Thence in an Easterly direction parallel with the Northernly Boundary Line of said League, 2500 vrs.;

Thence in a Westerly direction with the Northernly Boundary Line of said League, 1875 vrs., to the place of beginning, and containing 830.25 acres, more or less."

TRACT NO. 11
The Southwest Quarter (SW¹/₄) of League 289, Gray County School Lands, further described as Blocks 4, 5, 6 and 7, in said League 289, and further describ-

ed by metes and bounds as follows:

"BEGINNING at a point in the Northwest corner of the Southwest quarter of League 289,

Thence in a Westerly direction of the Northeast corner of said League, 2500 vrs. to the Westerly Boundary Line of said League;

Thence in a Southerly direction 2500 vrs. to the Southwest corner of said League;

Thence in an Easterly direction 2500 vrs.;

Thence North 2500 vrs. to the point of beginning, and containing 1108 acres, more or less."

The Commissioners' Court of Gray County, Texas, will receive and consider bids on the 2nd day of November, 1953 at 10:00 o'clock a. m., in the County Court Room in the Courthouse in Pampa,

Texas, at the County Clerk's Office, to receive and consider bids submitted in pursuance of said order, and other mineral and other mineral interests in the above described land.

The oil, gas and shell have a primary more than ten (10) shall retain in favor of the Lessee a royalty of at least one-eighth (1/8) of the production of oil and gas.

The Commissioners' Court reserves the right to waive technicalities and reject any or all bids.

CHARLIE THUT, County Clerk of Gray County, Texas 38-32

40 Years Ago— IT HAPPENED HERE

Taken from the Files of The McLean News, 1913

Serve Cream
The young ladies of the Philathea class of the Baptist Sunday School, of which Mrs. Susie Guill is instructor, served ice cream and cake in front of the Bundy-Hodges furniture ware room on Main Street Saturday afternoon and night, the proceeds of which will be used in the promotion of the different church enterprises the young ladies have undertaken.

The gross proceeds of the venture was something over \$18.

Moves to Miami
His many friends will regret to learn that our townsman, J. F. Harbert, has sold his home place to a Mr. Winset of Glazier and has moved to Miami, where he expects to make his home at the present. The gentleman has

considerable realty holdings in the vicinity of Miami. The best wishes of hosts of friends will attend him and his family in their new home.

Mr. Winset has moved here with his family.

Thompson Reunion
Mr. and Mrs. R. S. Thompson enjoyed a family reunion at their house south of town the first of the week, all the children being gathered under the parental roof to say farewell to the young ladies who are leaving right away for college.

Cattle Shipping
Quite a string of cattle were shipped from this point on last Saturday afternoon to the Kansas City Market. Those who were interested in the train were C. C. Cooper, Price Rogers, Sam Morse, and C. M. Carpenter. Mr.

"I ZOOM THROUGH BUSHELS OF IRONING AND STILL FEEL FRESH"

Norma Watson And Glen Curry Betrothal Revealed

Mr. and Mrs. Everett Watson of McLean announce the engagement and approaching marriage of their daughter Norma to Glen Curry, son of Mrs. R. D. Coon of Cheyenne, Okla.

The wedding date has been set for the first week in October.

Pioneer Study Club Starts Programs On Local History

Members of the Pioneer Study Club held their first meeting of the current year Thursday, September 17, at the home of Mrs. W. W. Shadid.

Mrs. June Woods was in charge of the program on the history of McClellan Creek, and crowned Mrs. J. C. McClellan as "Queen for the Day." It is the plan of the club to crown a queen at each of their meetings.

Others present at the meeting were Mesdames Sinclair Armstrong, Jim Back, W. E. Bogan, J. D. Coleman, H. W. Finley, Vernon Gibson, C. P. Griffith, Forrest Hupp, Paul Kennedy, Clyde Magee, Freeman Melton, Miro Pagan, Hap Rogers, June Story, B. L. Webb, Clint Williams, Earl Stubblefield, J. Edwin Korr, Harold McCole, C. W. Parmenter, and Buell T. Wells.

Mr. and Mrs. John Bayless and son of Borger are visiting this week with Mr. and Mrs. Homer Abbott.

DUTCH APPLE CAKE

This recipe makes a versatile cake, one that will fill many menu needs or serve as an extra in the daily diet. Dutch Apple Cake will make a hit with those who like something sweet for breakfast.

Dutch Apple Cake

$\frac{1}{2}$ cup fortified margarine
 $\frac{1}{2}$ cup brown sugar
1 teaspoon cinnamon
1 tablespoon milk
2 baking apples, peeled and sliced thin
2 cups sifted enriched flour
3 teaspoons baking powder
2 tablespoons white sugar
 $\frac{1}{2}$ teaspoon salt
 $\frac{1}{2}$ cup fortified margarine
1 egg
 $\frac{1}{2}$ cup milk

Melt $\frac{1}{2}$ cup margarine and add brown sugar, cinnamon and 1 tablespoon milk. Pour into a 9-inch layer pan or 9-inch square pan. Arrange sliced apples in brown sugar mixture. Sift together flour, baking powder, sugar and salt. Cut in $\frac{1}{2}$ cup margarine as for biscuits. Combine egg with $\frac{1}{2}$ cup milk and add to flour mixture. Stir only until flour disappears. Spread dough carefully over apples. Bake in a 350 degree oven for 45 to 50 minutes.

For other excellent kitchen-tested recipes, write the National Cotton Council, P. O. Box 18, Memphis 1, Tennessee, for your free copy of "Menu Magic with Margarine," an attractive 24-page booklet in two colors.

Bridal Shower Given in Honor Of Mrs. E. Dwyer

A bridal shower honoring Mrs. Edward Dwyer of Lubbock was given in the home of Mr. and Mrs. Cleo Heasley Thursday, September 17.

Hostesses for the occasion were Mesdames C. R. Guyton, Ernest Watson, Joe Willis, Pete Fulbright, Elton Johnston, and Cleo Heasley.

Those attending and sending gifts were Mesdames Lemuel Ford of Pampa, Pat Pennington, Fred Patterson, Jack West, J. F. Bowling, Earnest Beck, Cecil Back, H. L. Chase, Hap Rogers, Sherman Crockett, Farris Hess, Milton Carpenter, Rash Phillips, J. D. Coleman, Guy Saunders, George Preston, Boyd Meador, Bob Massey, Rose Snugg, E. B. Brooks, LaVerne Saunders, O. J. Milham, Horace Brooks, Emory Crockett, Everett Watson.

Mesdames Jack Bailey, Jim Baclt, Roy Barker, Bill Cash, J. W. Burrows, Vernon Gibson, Gladys Hefner, Gladys Smulcer, Jack Brooks, Fred Sligar, Arthur Moore, Harold McCole, Arthur Dwyer, W. W. Shadid, John W. Dwyer, Carl Hefner, John E. Dwyer, C. P. Callahan, J. L. Hess, Clyde Magee, Jesse Coleman, T. G. Richardson, June Woods, Charles Weaver, Charles Eudey, Charley Morgan, C. J. Holman, A. L. Conatser, J. C. Willis, G. F. Baker, H. E. Barrett, Boyd Reeves.

Mesdames Johnnie Back, Sam McClellan, Jack McClellan, George Van Huss, Frank Howard, Paul Miller, Odessa Gunn, F. L. Williamson, Georgia Durham, R. F. Sanders, A. R. Clawson, Alma Weaver, Maud Powell, Charles H. Hall Jr., Junior Burrows, Bill Moore, T. H. Plum, and Wallace Grimsley.

Misses Norma Watson, Pat Durham, Betty King, Billie Sue and LaRue Pettit; Bill Pettit, Harris King, John Dee Coleman, and the hostesses.

Sunday visitors in the home of Mr. and Mrs. Lester Campbell were Mrs. Lucy Crow, Mrs. Nola Jones, Mrs. M. M. Nix, and Mrs. Jim McDowell, of Shamrock; and Mr. and Mrs. Tom Salem and son Tim and Mrs. Laura Campbell of Turkey.

STATEMENT OF THE OWNERSHIP, MANAGEMENT, CIRCULATION, ETC., required by the Acts of Congress of August 24, 1912, and March 3, 1933

of The McLean News, published weekly at McLean, Texas, for October 1, 1953.

STATE OF TEXAS, COUNTY OF GRAY, ss.

Before me, a notary public in and for the state and county aforesaid, personally appeared Lester H. Campbell, who, having been duly sworn according to law, deposes and says that he is the publisher of The McLean News, and that the following is, according to the best of his knowledge and belief, a true statement of the ownership, management (and if a daily paper, the circulation), etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, as amended by the Act of March 3, 1933, embodied in section 537, Postal Laws and Regulations, printed on the reverse side of this form, to wit:

1. That the name and address of the publisher, editor, managing editor, and business manager is: Lester H. Campbell, McLean, Texas.

2. That the owner is: (if owned by a corporation, its name and address must be stated and also immediately thereunder the names and addresses of stockholders owning or holding one per cent or more of total amount of stock. If not owned by a corporation, the names and addresses of the individual owners must be given. If owned by a firm, company, or other unincorporated concern, its name and address, as well as those of each individual member, must be given.) Lester H. Campbell, McLean, Texas; Arval Montgomery, Shamrock, Texas; H. Herschel Montgomery, Dallas, Texas.

3. That the known bondholders, mortgagees, and other security holders owning or holding 1 per cent or more of total amount of bonds, mortgages, or other securities are: none.

4. That the two paragraphs next above, giving the names of the owners, stockholders, and security holders, if any, contain not only the list of stockholders and security holders as they appear upon the books of the company, but also, in cases where the stockholder or security holder appears upon the books of the company as trustee or in any other fiduciary relation, the name of the person or corporation for whom such trustee is acting, is given; also that the said two paragraphs contain statements embracing affiant's full knowledge and belief as to the circumstances and conditions under which stockholders and security holders who do not appear upon the books of the company as trustees, hold stock and securities in a capacity other than that of a bona fide owner; and this affiant has no reason to believe that any other person, association, or corporation has any interest direct or indirect in the said stock, bonds, or other securities than as so stated by him.

5. That the average number of copies of each issue of this publication sold or distributed, through the mails or otherwise, to paid subscribers during the twelve months preceding the date shown above is 815.

A NOVELTY TWEED FABRIC, cool enough for early fall, is used by Chalef of Dallas for this two-piece dress with side-buttoning middy overblouse. Colors are gray and turquoise with black; mauve and lilac with black, both black fringed at the high-tying neckline and three-quarter cuffed sleeves. The fabric is rayon and acetate.

Standard baseball bats are made from ash wood.

Keeps its value better than any other car!

Used car dealers report that Fords return more of their original cost than any other car—and there are 41 reasons why:

Take power. Ford's two high-compression engines are real leaders in their class. Ford's the only car in the low-price field to offer you the smooth power of a V-8 engine. And no other car in any field has so modern a Six.

Take build. Ford's one-piece Crestmark body gives you style-setting beauty with rugged "build" underneath. Where many other cars are bolted, Fords are welded hull-tight to keep out rust-causing weather and dirt.

Take ride. Ford's wonderful, new ride reduces front end road shock up to 80%. And Ford's new, more responsive spring and shock absorber action gives you the comfortable easy ride you want without gas-eating extra weight.

Take savings. Ford's economy-minded Automatic Power Pilot saves you money on every gallon of gas. It automatically adjusts carburetion, ignition and combustion to make every drop of gas ("regular" at that) work its heart out.

Take visibility. Ford gives you the "all-around" view you need in today's fast-moving traffic. A curved one-piece windshield, car-wide rear window and large "picture windows" all around make sure you have Full-Circle visibility.

Take drives. Only Ford in its field gives you a choice of a completely automatic drive, Fordomatic, the finest, most versatile automatic you can buy... fuel-saving Overdrive... or easy-shifting Conventional Drive.

The swing is to

SOCIETY

Ferne Lawrence Becomes Bride Of B. F. Golightly

Mrs. Ferne Lawrence, daughter of Rev. and Mrs. Leo L. Lawrence of Bethany, Okla., became the bride of B. F. Golightly, son of Mr. and Mrs. Frank Golightly of McLean, Saturday, September 19.

The ceremony was read by Rev. James Stewart, brother-in-law of the bride, in the Nazarene Memorial Church of the Nazarene in Bethany.

The bride, given in marriage by her father, wore a pink suit with black accessories and carried a bouquet of white carnations. Mrs. James Stewart, sister of the bride, was matron-of-honor. She wore a gray suit with white corsage. Kenneth Scales served as best man.

Out-of-town guests were Mrs. Frank Golightly and daughters, Hazel and Carol.

The couple will make their home in Bethany.

Birthday Party Given in Honor Of Johnnie Mann

A birthday party honoring Johnnie Mann was given in the home of his parents, Mr. and Mrs. J. L. Mann, Thursday, September 17.

Delicious refreshments of cake and ice cream were served.

Those attending were Dickie and Linda Henley, Barbara and Patricia Simpson, David Hefner, Herbie Butrum, Jackie Groves, Hickman Brown, Mike Simpson, Marilyn Williams, and Douglas Johnson.

Mr. and Mrs. E. C. Lisman and son Maxie attended the fair in Amarillo Monday.

Mr. and Mrs. J. I. Martindale and family visited with Mr. and Mrs. J. L. King in Wellington Sunday.

Ishmael Swafford of Amarillo spent the week-end with Mr. and Mrs. Bill McAllister.

CARD OF THANKS
We wish to thank all our friends who gave us wedding gifts. We may have overlooked sending cards to some, and don't want to miss anyone. So thanks again to everyone.
Cliff and Bernita Callahan.

Methodist WSCS Regular Meeting Held at Church

The W. S. C. S. met in the McLean Methodist Church parlor Tuesday.

Mrs. Madge Page conducted a short business session.

The opening song, "Send the Light," was sung by the group, and prayer was led by Mrs. W. M. Rhodes. Mrs. W. E. Hogan brought a devotional on sanctuary. Mrs. Rhodes had charge of the program on literature and publications, and was assisted by Mesdames S. J. Dyer, Amos Thacker, R. N. Ashby, and J. L. Hess.

The program was followed by a social, with Mrs. Page and Mrs. Cliff Day as hostesses. There were 12 members and one guest present.

Wesleyan Guild Meeting Is Held In Church Parlor

The Wesleyan Service Guild met Tuesday night in the McLean Methodist Church parlor.

Mrs. June Story and Mrs. Guy Hester gave a most interesting program on radio station L.F.J. "Living for Jesus." Bill Day sang "A Savior Went Forth."

Mrs. Paul Kennedy and Mrs. Amos Page, hostesses, served ice cream, cake, and coffee to Mesdames Lawrence Hauck, Clifford Allison, Thomas Bailey, S. A. Cousins, Wilson Boyd, Ercy Cubine, Hershel McCarty, Guy Beasley, Jewel Meacham, Clyde Magee, Bob Sherrod, Shelton Nash, Sinclair Armstrong, June Story, Guy Hester, Odell Mantooth, Wheeler Carter, Earnest Beck, R. C. Parker, Johnny Haynes, C. W. Parmenter, C. P. Hamilton, Hickman Brown, and Bill Day.

Mr. and Mrs. Miro Pakan and children attended the fair in Amarillo Monday.

Mr. and Mrs. J. L. Mann and children and Mr. and Mrs. Joe Simpson and son Mike attended the fair in Amarillo Monday.

Mr. and Mrs. Jesse Stafford of Ponchatoula, La., spent the week-end in the home of Mr. and Mrs. Clyde Magee and family.

CARD OF THANKS
With deepest gratitude I wish to express my thanks for the special prayer services held in my home and in the church before my illness; and for the flowers, gifts, and cards I received while in the hospital.
Mrs. Jerrel Patterson.

Good Lunches Help Children

Now that schools are open, parents should carefully plan their child's lunch, says Dr. Geo. W. Cox, state health officer.

The noon meal needs to be full of body-building, energy-giving nourishment that will help the child go through the day full of zest for learning and play without getting tired. A midday meal which has variety and is satisfying improves afternoon class work and general behavior. Whether a child buys his lunch at school, eats it at home, or takes his lunch with him, it should contain at least one-third

of the day's food requirement.

Lunch time at school can be a pleasant, social experience for the child. If he is going to school for the first time, or if he is going to a new school, the teacher can help him get acquainted and find a friend to sit next to, so that he does not feel out of place and uncomfortable at the lunch table.

Good health habits can be taught during lunch time at school. The children should be trained to wash their hands before eating, also encouraged to take plenty of time eating and not gulp their food down so they can rush out and play. The mother should do the same when the child eats at home.

A metal box or pail makes the best lunch container. It should be washed and scalded daily and aired overnight. The thermos bottle will stay sanitary and sweet

smelling if it is rinsed with soda water after a thorough washing. Interesting and varied lunches make eating a pleasure and help the children be alert, eager and contented in school, because good foods build strong bodies and happy children.

David Grigsby left Monday for Denton, where he is enrolled at North Texas State College.

Mr. and Mrs. Bill Simpson and daughter visited in Hereford Sunday with Mrs. R. F. Day, who is ill.

John Totueck of Highland, Ind., visited with Mr. and Mrs. Miro Pakan and family Friday.

Research to Be Discussed at Oklahoma Meet

Recent progress in forage research on a nation-wide basis will be a major feature of the Range Improvement Field Day at Woodward, Okla., Saturday, October 3. The discussion will be made by Dr. Jack R. Harlan, noted grass breeder and senior geneticist with the USDA and Oklahoma A. and M. Experiment Station.

Dr. Harlan is well qualified to speak on this subject. His formal education at George Washington University and the University of California was followed by plant breeding work in Central America before he came to Oklahoma and his present work of breeding improved range grasses.

In 1948, Dr. Harlan spent nine months with the Bureau of Plant Exploration and Introduction seeking superior plant species in Turkey and other countries of Eurasia. His collection amounted to over 10,000 species, the largest collection ever to be made by a single plant explorer.

His recent work in the Western Grass Breeders Conference and as over-all head of the federal and state grass breeding program in Oklahoma assures those in attendance at the 17th annual field day of an extremely interesting and educational discussion of recent developments in forage research.

Equally well qualified, but in the field of livestock research, is Dr. Leslie E. Johnson, regional coordinator of beef cattle research in the great plains. Dr. Johnson comes from the Bureau of Animal Industry, USDA, at Lincoln, Neb., to discuss recent findings on "dwarfism" in beef cattle together with other new highlights of livestock research, including "X" disease.

The all-day meeting and tour of regrassing, grass breeding, brush control and beef cattle grazing studies will start at 8 o'clock-Saturday morning, October 3, at the main station of the U. S. Southern Great Plains Field Station, one mile southwest of Woodward. More than 3,000 visitors are expected to attend. Each one will inspect over 40 research points of educational value and may join informal discussions of his own choosing. And as usual, a free barbecue lunch will be served by the master of outdoor cooking, Clay Potts of the Oklahoma A. and M. College. The general public is urged to attend.

REVEILLE

... with the boys
 Pvt. Paul D. Preston returned to Camp Chaffee, Ark., after spending a ten-day leave with his parents, Mr. and Mrs. George Preston, and other relatives. Pvt. Preston will be sent to Camp Polk, La., from Camp Chaffee.

Thrice is he armed that hath his quarrel just. And he but naked, though locked up in steel. Whose conscience with injustice is corrupted.—Shakespeare.

Justice is the handmaid of mercy, and showeth mercy by punishing sin.—Mary Baker Eddy.

HOW DEEP IS "SKIN DEEP"?

by Science Features

Our everyday conversation is studded with references that link the skin with the emotions. People turn "purple with rage." We "sweat-out" an unpleasant situation. Trouble is only "skin-deep." We may occasionally "itch for revenge" or "get cold feet."

Scientists know that such expressions have a basis in fact. Emotions may greatly affect the health of the skin. Recently a Denver skin specialist, Dr. Gerald M. Frumess, stated that "the skin may reveal emotional states as eloquently as do the muscles of facial expression."

Emotional factors, the doctor said, affect two skin diseases known to have an organic cause. These are warts and the well-known "fever blister" or "cold sore." They may also lead to such common skin disturbances as rosacea, which causes discoloration and thickening of the skin, and eczema, or outbreaks of pimples and blackheads.

The specialist cited cases in which ten people suffering from recurring "fever blisters" were successfully treated with brief psychiatric care. He added that the value of suggestion in curing warts, used by such fictional heroes as Tom Sawyer and Huck Finn, is today a recognized scientific fact.

Rosacea occurs often in people with a tendency to blush easily and who are subject to various intestinal disorders. The Denver physician suggests that treatment requires that the personality pattern which causes excessive blushing be corrected as well as the skin disorder itself.

So it seems that many skin diseases are more than "skin-deep."

There are about 5,000 different languages in the world.
