County Agent Ralph Thomas of Pampa was among the Texas Extension Service workers who received certificates of 20 years service in College Station Monday night of last week. The workers were honored at the annual meeting of the Alpha Zeta chapter of Epsilon Sigma Phi, honorary extension service fraternity, in the Memorial Student Center on the campus of Texas A. and M. College.

Condition of Haskell-Below, McLean resident who is in the Veterans Hospital in McKinney, was reported early this week to be improving. Below has been in poor health for the past two or three years, and, prior to going to the hospital, he was forced to be under oxygen practically all of the time. He is suffering from lung trouble and a heart condition. He was taken to the McKinney hospital about two weeks ago, and placed under the care of a lung specialist. The report reaching McLean this week was that he had gained weight and is able to do without the pure oxygen for longer periods of time.

The city jail has been undergoing some improvements during the past week. New glass has been installed in the windows, and the interior has been repainted. It is now at least a clean-appearing place of confinement, but doesn't quite resemble a suite in the Waldorf-Astoria.

Miss Pat Durham and Jimmie Don Morris received their fifth annual service award dinner of the Southwestern Public Service company at the Amarillo Country Club Friday, October 30.

An address, "The Rewards of Faithful Service," was given by Travis Lively of the Pampa Hardware company. The supervisors for each person receiving awards were present.

Miss Jo Ann Turner presented the program at the regular Tuesday noon meeting of the McLean Lions Club, when she sang three popular songs. She was accompanied at the piano by Miss Jo Ann Stevens, Lions Club sweetheart.

Don Godfrey, high school senior, was inducted by Lion Tamer C. W. Parmenter as the Cub Lion for the month of November. Guests at the meeting included Sheriff Rufe Jordan and Homer Doggett, of Pampa.

A resume of the trip of the Herman Petty family to Nazareth, Israel, and of the work he is doing there as a missionary, will be given at the First Baptist Church Sunday afternoon at 2:30 o'clock. The material to be presented has been obtained from letters which Rev. and Mrs. Petty have written to friends and relatives here, and will include many of the details of the missionary work being carried on there, as well as details of the trip to Israel. The public is invited to be present. Rev. Petty, son of Mr. and Mrs. Luther Petty of McLean, was assigned to his work by the Baptist Foreign Mission Board.

Thorn Dysart, 72 years of age, uncle of Lester Dysart of McLean, died in an Amarillo hospital early Wednesday morning. He had been critically ill for the past ten days, following the forming of a blood clot. Funeral services were scheduled to be held this afternoon in Amarillo.

In the story concerning the 29th birthday of Puckett's Grocery and Market in McLean which appeared in last week's issue of The News, the name of the first manager of the local store was omitted. First manager was the late C. S. Strandberg, who operated the store following its establishment here by J. B. Puckett, originator of the Puckett stores. The present manager, R. T. Dickinson, has served in that capacity since 1931.

Condition of Raymond Smith, members of Commissioner O. I. Tibbets' road maintenance crew, is steadily improving in Highland General Hospital in Pampa. Smith was seriously injured two weeks ago in an accident at the bridge north of Denworth. He has now recovered from the shock of the accident, and doctors believe there were no internal injuries of consequence or the injuries (Continued on back page)

DO-OR-DIE TILT WITH PIRATES FRIDAY NIGHT

You may get tired of this "do-or-die" routine about the McLean Tigers and their chances to win the District 1-A title, but every game is just that for the Tigers. Including the one this Friday night at 7:30 o'clock on the Lefors Pirates' gridiron.

The Pirates are definitely out of the district race, but McLean must win to have a mathematical chance at a tie for the crown. Unless... the unforeseen happens... and Clarendon downs Canadian and Panhandle lies Memphis—one of these could happen but neither is expected. A Panhandle victory over Memphis and a Canadian victory over Clarendon would also knock McLean out of the race.

Lefors is definitely "out to defeat" the Tigers this season. Reports coming from this nearby Gray County neighbor indicate that the gridsters from that school have been getting ready for the McLean tussle for several weeks.

Despite the poor showing of the Pirates thus far—three victories, four defeats, and one tie—the boys still make up a capable team, and most local fans believe that the Pirates will be trying this Friday night as they haven't tried all season. The reason: the old rivalry between the schools; the lone district defeat of the championship Pirate team last year was at the hands of McLean; the desire to knock off a team with a good record.

The Pirates opened their season by losing to Dalhart 6-0; then won over Stinnett 18-0; lost to Shamrock 16-0; won over Chillicothe 7-0; tied league-leading Memphis 6-6; lost to Panhandle 35-7; and to Canadian 31-9; and then edged White Deer last week 7-0.

Comparative scores would indicate little, since McLean won over Stinnett by only one touchdown more than Lefors; yet McLean whipped Panhandle 39-6, the same team that defeated Lefors 35-7.

Injuries have hurt the Pirates all season. Two regulars are out for the season, and in past weeks, as many as four regulars have (Continued on back page)

Bonfire, Pep Rally Tonight to Boost Tiger Grid Team

A gigantic bonfire will highlight a special pep rally to be held at the McLean softball field tonight (Thursday) at 7:30 o'clock.

The rally is being staged to boost the Tiger grid team prior to their game with Lefors Friday night.

The pep squad and band will join other students in a snake dance downtown prior to the igniting of the bonfire at the softball field.

All fans are invited to join in the festivities.

Another pep rally will be held at 11 o'clock Friday morning in the high school auditorium, Principal Freeman Melton Jr. said. Fans are also invited to attend this rally.

H. C. McCURLEY HOME IS TOTAL LOSS IN FIRE

The home of the Hack McCurley family, about three miles east of McLean, was completely destroyed by fire of an undetermined origin early Sunday morning.

Local firemen answered the call at about 3 o'clock Sunday morning, but only smoldering remains were left by the time the firemen could get to the scene.

The McCurley family was not at home, since they were on a trip with relatives. First arrivals at the scene of the blaze, however, believed the family to be at home, since McCurley's pick-up was there. Firemen were relieved when they found, upon investigation, that the family was not present.

The four or five-room house was completely destroyed, as were all belongings of the McCurley family. Many friends of the family were working early this week to furnish the family with clothing and household items.

The land and the house, according to tax rolls, are the property of Noble Paulk of Amarillo.

FUNERAL RITES HELD HERE FOR JOHN CUBINE

Funeral services for John E. Cubine, resident of the McLean area for the past 42 years, were held at the First Presbyterian Church in McLean last Friday afternoon at 2 o'clock. The pioneer rancher died at his home at 1:10 o'clock Wednesday afternoon, November 4.

Rites were conducted by Rev. J. Edwin Kerr, Presbyterian pastor. Interment was in Hillcrest Cemetery under the direction of the Claborn Funeral Home.

Pallbearers were Rev. Karl Ernst of Dumas, George Riley of Stinnett, Floyd N. Smith of Pampa, Bob Sherrod, James Massay, and Cecil Back.

Cubine had been seriously ill for about two weeks prior to his death.

He was born September 22, 1875, at Mattoon, Ill., and moved to Montague County in Texas when a child. He came to McLean in 1911, and had made his home here since that time. He was a retired rancher, and lived on his place about ten miles north of McLean.

Survivors include a son, Ercy Cubine of McLean; two grandchildren, John C. Cubine of Graham and Floella Cubine of McLean; two sisters, Mrs. N. E. Morgan of Littlefield and Mrs. Hattie Holleman of Mountain Park, Okla.

TWO ARE HURT IN CAR WRECK

Two local women were still in Highland General Hospital in Pampa this week receiving treatment for injuries received when the car in which they were riding overturned near Lefors last Friday afternoon.

The two women, Mrs. Rosalie Henley and her sister, Mrs. Juanita Skelton, were not critically injured. Mrs. Henley suffered bruises on her back and hip, and was also suffering from shock. Mrs. Skelton suffered a leg injury. Mrs. Henley and her son, Dickie, age 5, were hospitalized shortly after the accident, and the boy was released after treatment for a cut on his head. Mrs. Skelton was first released, and then went back Saturday morning for further treatment.

The car overturned just this side of Lefors on the McLean highway as Mrs. Henley and children, Dickie and Linda, age 3, and Mrs. Skelton and her two boys, Gary Joe, 2, and Randy, 5, were returning from Pampa Friday shortly after noon. Mrs. Henley, who was driving, had just left Lefors, and had started around a car which was traveling at a slow rate. As she started to pass, she saw another car approaching, and her car skidded and overturned one time. The car landed on its wheels facing in the opposite direction.

Mrs. Henley, and Mrs. Skelton and her son, Gary Joe, were thrown from the car. Only the two women and Dickie suffered injuries sufficiently serious for treatment.

DEER, TURKEY SEASONS OPEN NOVEMBER 14

Texas deer and turkey have rallied somewhat from the severe drought period and prospects are for a fair season, according to the executive secretary of the Game and Fish Commission in Austin.

The annual big game hunt under the general state law opens November 16 and continues through December 31. There are special seasons for larger areas like west of the Pecos, Panhandle and Possum Kingdom, as well as several special dates on the county level. Bag limits and shooting hours likewise vary.

An expected 100,000 hunters will take to the field for the fall classic. The kill on deer usually runs about 40,000 in Texas. The turkey harvest is estimated at close to 6,000. Both deer and turkey suffered from the prolonged drought but rains beginning in the late summer have at least partially relieved the crisis, on the basis of reports to the executive secretary.

General law open season—November 16 through December 31, covers most of big game area, including Edwards Plateau and Hill Country.

Limit—Two buck deer with prong antlers. Shooting hours—One-half hour before sunrise to one-half hour after sunset.

West of Pecos—November 20 to 25, inclusive. One buck deer. Panhandle—November 14 to 23, inclusive. One buck deer. Possum Kingdom area—November 16 to 30, inclusive. One buck deer.

There are so many local season provisions on the county level that hunters should check their law digests for details. Deer tag must be attached to each deer carcass.

Turkey General law open season—November 16 to December 31. Limit—Three gobblers.

Panhandle—November 14 to 23, inclusive. Limit, two gobblers. Possum Kingdom area—November 16 to 30, inclusive. Limit, one gobbler.

West of Pecos—Closed season.

SCOUT MEET MONDAY NIGHT

All boys, ages 11 to 14, are urged to be at the American Legion Hall Monday night, November 16, at 7:30 o'clock to register for membership in the Boy Scout troop.

Present leaders for the troop include Joe Biggers, senior patrol leader; Bob Dawson, Virgil Richardson, and Jimmy Dawson, patrol leaders; Roy Hancock, scribe; and Lee Barr, scoutmaster.

PRICE LOWER AS RAIN CUTS GRADE, STAPLE

Farmers were once more able to continue with the cotton harvest this week following about two weeks of "too-damp" weather for boll pulling. Some grain was also being harvested, although most of it still contains a too-high moisture content.

A total of 473 bales of cotton had been handled by the McLean Gin by Tuesday afternoon, Manager S. R. Jones reported. But the trouble lies in the grade and staple of the cotton following the two weeks of damp weather.

Jones reported that the poorer grades and shorter staple, mostly the result of the rains, are costing the farmers an average of about \$20 per bale. Before the rains, the average cotton was going into the loan at 31c per pound, but now the average loan value is 29 cents per pound.

"It's hard to determine just how much of the crop is in," Jones explained. "Some farmers are practicing through with cotton harvest, while many others are just beginning. A rough estimate is that between 50 and 60 per cent of the cotton in our area has been gathered."

Jones has bought a total of six carloads of grain so far. The moisture content of the grain is far too high for the local buyer to handle, he stated. It must not have more than 13 per cent moisture content, and much of that being brought in is as high as 18 per cent. Jones stated that he still has reserved a considerable amount of government storage space for the grain which will test out low enough in moisture.

Showers and heavy mist of last Wednesday, Thursday, and Friday brought a total of .42 of an inch, according to the official rain gauge of Pete Fulbright. The late Wednesday and early Thursday showers totaled .38 of an inch. The all-day mist Friday added .04 of an inch to the total, bringing the year's amount to 15.01 inches.

Temperatures dropped sharply Sunday night, yielding the heaviest frost of the season. Earlier this month, a light frost was reported. The Sunday night frost, coupled with a slightly lighter one Monday night, will likely kill some of the younger vegetation in the area. It is also expected to speed up the maturity of grain in the area.

The first three days of this week brought out the sun each day, and temperatures rose to the 60's during the early afternoons, while nights remained chilly.

That's the affair on the scheduled for Tuesday night, November 17, at Dunean Field, beginning at 7:30 o'clock.

The two teams will be the McLean chapter of Future Homemakers and the Shamrock chapter of Future Homemakers. Proceeds will be divided between the two chapters. Admission will be 25 cents for children, 50 cents for adults.

F. H. A. members, most of whom will see action Tuesday night, include Mary Carpenter, Shirley Allison, Sue Glass, Gwen Burnett, Betty Dickinson, Ann Sligar, Monta Kennedy, Patricia Wiggins, Mary Brown, Leota Adams, Leona Gossett, Beverly Henry, Glenda Smith, Durlene Mitchell, Rosie Lee Smith, Artalee Patterson, Marie Watson, Genie Havens, Sue Chase, Harlene Moore, Christine Hunt, Janie Martindale, June Darsey, Mavis Medley, Gloria Hunt, Maureen Miller, Sammie Wood, Arlene Gudgel, Billie Mae McClellan, Martha Jo McCurley, Rolena Chase, Sharon Immel, Marlene Gudgel, Cieta Sue Hensley, Annette Smith, and Glenda Switzer.

Grid Queen Crowned— MISS CHRISTINE HUNT

Miss Christine Hunt, daughter of Rev. and Mrs. D. L. Hunt of Kellerville, was crowned queen of the 1953 Tiger football team in ceremonies held at half-time during the McLean-Clarendon grid game last Friday night.

The weather was cold and damp, but the spirit of a goodly portion of the student body was neither chilled nor dampened sufficiently to make the coronation ceremonies anything but a success.

Taking part in the affair were members of the football team, pep squad, and band. Joe Coleman, band director, arranged the activities, and announced the procedures on the public address system.

Preceding the appearance of the queen, who was escorted by Captain Joe Crockett, the queen's attendants marched onto the field. They were Beverly Henry, escorted by Don Crockett; Sue Chase, escorted by Jack Hupp; and Maureen Miller, escorted by James Jolly. Crown and flower bearers were Suzanne Rogers and Dickie Crockett, members of the first grade.

The other football players and the pep squad formed the aisles for the queen, her attendants, and the escorts, and the band formed the arch for the queen's throne. Climaxing the ceremony was the crowning of Miss Hunt by Captain Crockett, who also planted the traditional kiss to conclude the affair.

Tigers Overcome Mist, Broncs, Win 26 to 0

Duncan Field Friday night is a lot of points in any man's football game.

But that's what was scored—McLean 26 and Clarendon 0. The Tigers completely dominated the game throughout the contest, controlling the ball about two-thirds of the time, allowing the Broncs to complete no passes, and yielding a net of only 117 yards to the hard-charging Broncs.

Ricky Mantooth toted the leather for McLean the greater number of times, but never scored. Scoring honors were shared by Rodney Gunn, end, who shared his first marker of the season; Jack Hupp, James Smith, Crockett, and Don Haslam. Don booted two extra points in four tries.

Despite the foggy weather, which made the playing field slightly slippery and thoroughly wet, and also making the ball

hard to handle, the Tigers never let up. As a matter of fact, they seemed to gain steam as the game progressed, scoring once in the second quarter, once in the third, and twice in the fourth. The score was 7-0 at the end of the first half.

On the Tiger line, big Joe Crockett was the standout for the night, but nice play was also turned in by Wayne Moore, Jimmy Farren, Troy Smith, Gunn, James Jolly, Arthur Vineyard, and Don Trew. The entire line, as a matter of fact, performed admirably.

For the Broncs, the leading ball carrier was Bill Hill. Another back, Bobby Cosper, did a good job on defense, as did Hubert Kidd, rangy end.

The scoring was as follows: The first quarter went scoreless, as both teams were unable to threaten. Early in the second period, Mantooth recovered Cos-

per's fumble on the Clarendon 46. On the first play from scrimmage, Mantooth tossed a pass to Gunn, who was in the clear, and he went the distance to score—a play good for 46 yards. Haslam kicked the extra point. Score 7-0.

There was no more scoring in the first half, although McLean was on the Clarendon 21 when the time ran out.

About the middle of the third period, Kidd punted to Mantooth on the 20, who returned to the McLean 48. On the next play, Hupp circled, left end, evaded a couple of would-be tacklers, and ran on to score. Haslam again converted. Score 14-0.

Late in the third period, Don Crockett recovered a Max Johnson fumble on the Clarendon 39. Several running plays moved the ball to the 8 for a first down, from where Mantooth went around right end. McLean took a 15-

yard penalty for offensive holding, nullifying the score and moving the ball back to the 23. Three plays later, the ball went over on downs on the 5.

Several plays later, the Broncs were forced to punt, but Kidd's boot netted only two yards, and the Tigers took over on the 37. A pass from Mantooth to Gunn moved the ball to the 20. From there, Smith went through right tackle, was barely missed by four or five Broncs, and went on to score. Haslam missed the kick. Score 20-0.

Later in the final period, Haslam returned Kidd's punt to the McLean 46. Smith moved the ball to the 35, and Hupp went around left end to the 9. Haslam made 5, and then Don Crockett crashed right guard for the remaining four yards to score. A bad pass from center on the conversion caused the extra point to fail. Score 26-0.

Several plays later, the Broncs were forced to punt, but Kidd's boot netted only two yards, and the Tigers took over on the 37. A pass from Mantooth to Gunn moved the ball to the 20. From there, Smith went through right tackle, was barely missed by four or five Broncs, and went on to score. Haslam missed the kick. Score 20-0.

40 Years Ago — IT HAPPENED HERE

At his home in the west part of the city, Sunday afternoon at 3 o'clock, Rev. R. F. Hamilton, pastor of the local Baptist Church, performed the ceremony uniting in marriage Mr. James Taylor of Dalva, Okla., and Miss Myrtle Thompson of this city. The young couple left Tuesday evening for Dalva, where they will make their home in the future. The best wishes and hearty congratulations of a wide circle of friends accompany them on their wedded journey.

Goes to Erath
H. M. Allagood left Tuesday afternoon for Erath County in response to a message announcing the sudden death of his mother. The particulars of the sad occurrence are not available.

HEY THERE, MR. BAGPIPER—Three-year-old Bobby Jo Bailey of Dallas ran to the side of Scottish Bagpiper Bobby Laidlaw and tugged his kilt in a vain attempt to get his attention while he shrilled a tune on the lawn of the Texas Scottish Rite Hospital for Children. Laidlaw and 21 other members of the Plymouth Kiltie Band gave a concert at the hospital in Dallas before 40 tiny patients, including Bobby Jo who is undergoing free treatment for a crippled hand. P. S. There was a happy ending for the two Bobbys. As soon as Sgt. Piper Laidlaw finished the tune ("The Eyes of Texas," no less), he laid down his pipes and talked to the little girl.

Change in Ministry
Rev. J. C. Carpenter and family left the latter part of last week for their new home at Mobeetie, going overland in wagons. Their places in the social and religious life of McLean will not be easily filled and we regret to lose their influence and their presence from among us.

The new Methodist minister, Rev. J. T. Howell, arrived Friday and preached his initial sermon Sunday. He was heard by a large audience whose appreciation of his offering was manifest by profound attention throughout the discourse.

Buy Fine Cows
W. P. Rogers returned Monday morning from Canyon with a shipment of a hundred cows which he had recently purchased out of the famous C. O. Keiser herd at that place and shipped here. The cows are top-notchers in every respect and it is well known that the Keiser calves have been taking many premiums at the different stock shows at Kansas City and elsewhere.

The calves from this bunch of cows this year sold for 35.60 at Canyon.

Mr. Rogers has recently sold a hundred head of his sold stock cows to Berry Bradley, having delivered them Monday, and will put the hundred head of Keiser stuff with his other stock cattle, making his one of the best individual herds in this section.

Post Card Shower
Sunday, November 10, being the 56th anniversary of the birth of Mrs. Geo. Sitter, a post card shower was tendered her by her S. S. class, a most interesting class of girls.

In the afternoon this class of loving and appreciative friends found their way to her home wishing her many happy returns of the occasion.

Those present were Ethel Stockton, Mary Henry, Bettie Lee Christian, Alma Anderson, Ina Hearne, Allie Mae Rice, and Sallie Lou Haynes.

The ideal Christian life of this dear good woman is ever revered and her careful attention to this class closely welds their hearts for good and useful things.

We can point their young lives to no higher standards of honor and right than the leader to whom they so lovingly look, and with them join in wishing her a long life of happiness and joy with all the joy anchorage beyond the shore of time.

Health Talk — NEUROSURGERY

Neurosurgery, the specialty having to do with operations on the brain, spinal column or backbone, and nerves, is a fairly new field compared to other branches of medicine. Nevertheless, rapid advances in diagnosis, as well as medical and surgical treatment of nerve and brain disorders, have meant a high degree of safety for patients who must have operations on various parts of the nervous system.

At one time, for instance, knowledge that someone had a brain tumor brought visions of death, blindness, or a lifetime of invalidism. However, the majority of growths can be removed in ample time since the discovery of X-rays and development of three special techniques: (1) X-raying the blood vessels of the brain (cerebral angiography), (2) X-raying the cavities within the brain (pneumo-encephalography), and (3) recording the brain's electric currents (electro-encephalography).

The discovery that the two frontal lobes of the brain, the part just above the eyes, are the areas chiefly responsible for the personality has made possible a new kind of neurosurgery called "physiosurgery." In certain severe mental illnesses, such as a personality disorder known as "schizophrenia," the patient even after extensive psychiatric treatment may be so withdrawn from reality that he must be kept in an institution. Surgery on the frontal lobes in some of these cases has improved the patient's condition. Others who have benefited by this kind of operation are those who are a danger to themselves or others, also patients who suffer extreme pain unrelieved by ordinary treatment methods.

In some of the earlier operations large portions of the frontal lobes were removed. As neurosurgeons learned more about the brain, they were able to cut out the exact amount of brain tissue from the right location to give desired results. Several other operations were developed with decided advantages: the personality and intelligence of the patient was changed less and the death rate was reduced to practically zero.

After psychosurgery the patient's personality is basically the same, but is much more flexible. Anxiety and tension may be relieved, but at first the patient may be confused and lack insight and initiative. This is why rehabilitation aimed at getting him back to normal life and surroundings is begun early and continued until it is evident that no more improvement can be expected. Patients for psychosurgery should be carefully selected and the method of operation, as well as the kind of rehabilitation which follows it, individualized.

In 1952 a new operation for the relief of a painful twitching of the face known as tic douloureux (tick-doo-loo-roo) was devised. The operation was named for the Danish neurosurgeon who first performed it, Taarnhoj (pronounced Tarnoy). Former methods of surgery for this condition, although they relieved pain, resulted in some degree of numbness of the face and eye. The newest method seems to be effective in making the patient comfortable without causing any

undesirable loss of sensation. Still another disease, sciatica or lumbago, may require relief by neurosurgery, although medical treatment is usually effective. This condition is characterized chiefly by aching or soreness of the lower part of the back and pain in the hip, buttock, thigh, leg, or foot. It often is caused by pressure upon a nerve in the lower part of the back by a bulging or rupture of the "shock absorber" between units of the backbone which are called vertebrae; these shock absorbers are

known as "intervertebral disks." Medical measures for the treatment of sciatica include rest in bed (perhaps with a board under the mattress), heat, massage, pain-relieving drugs, and a fitted back support. If operation is necessary, the intervertebral disk is removed in part or altogether. Depending on the patient's condition, it may be replaced by a bone graft, or the two vertebrae that it formerly separated may be fused together.

Nadine and Cliff Lee spent the week-end in Skellytown with Mr. and Mrs. Warren Carter.

Mrs. Lester Campbell is in Wichita Falls this week to be

with her sister, Ruth Thompson of Memphis, who is undergoing medical treatment there. Chris Campbell is visiting this week in Turkey in the home of Mr. and Mrs. Tom Salem.

Mr. and Mrs. Jack Hiatt visited with Mr. and Mrs. Frank Light in Wellington Wednesday of last week.

Mr. and Mrs. J. E. Cooke and family of Hart spent the week-end with Mrs. D. C. Carpenter and Mr. and Mrs. C. E. Cooke.

Mr. and Mrs. R. B. Jones visited with Raymond Smith at Highland General Hospital in Pampa Sunday.

THE SPREAD BETWEEN BEEF PRICES

SOMETHING OF A CLAMOR has arisen concerning the spread between the price cattle sell for on the hoof and the price the housewife must pay for cuts of beef at the butcher shop. The Secretary of Agriculture has ordered an examination of the matter. Spokesmen for the meat packers have announced that they welcome the secretary's action. And they have good reason, too—for once the facts are known, and the misinformation now current is exposed, all concerned will be better off.

An excellent explanation of the cause of the spread recently appeared in the New Ulm, Minnesota, Daily Journal, under the by-line of Bob Christianson. He wrote: "Because some cattle can be bought for 10 cents a pound from the farmer and some beef sells at a buck a pound to the consumer, politicians immediately try to make a big deal out of it. Sure, some beef sells at a buck a pound, and some beef prices are as low as 10 cents, but the two certainly aren't related."

"Only five per cent, or 50 pounds of a 1,000 pound steer, is sirloin steak, which commands the higher prices. What the politicians are doing is comparing the price paid for every pound of a cull animal on the farm with the price the housewife pays for the choicest cut of choice animals. It just isn't good reasoning. "It all bottles down to this—part of a beef animal may sell above the 50 cents per pound mark, and part of it may be selling for as little as three cents a pound. Average it all out and you'll find about a 25 per cent spread between the price paid on the farm and the average price paid in the butcher shop."

Elsewhere in his discussion, Mr. Christianson pointed out that "the average meat packer makes less than a one-cent profit on every buck worth of meat he sells." There's hardly room for profiteering there!

LES TALK By LESTER

Know this good-lookin' gal here? Sure you do. It's Lady Bryant, our most genial librarian. I've known quite a number of people who were interested in their work, and in doing all they could to keep their business a going concern although they had no financial investment in it. But few people are more interested in their work and do more for it than does Mrs. Lady Bryant. She has, over a period of years, built up the McLean Public Library to a point where it compares favorably with libraries in much, much larger towns.

And she continues to do everything she can to make the library a better place for education and recreation. You've probably known some librarians who acted as if they were doing you a favor by aiding you in finding the books you wanted. But not so with Mrs. Bryant. She'll go out of her way to find a book, or just a mile of information, for which you are looking. One of the Amarillo radio stations has a phone-call quiz program these days; Mrs. Bryant has found the answer to more than one of the program's questions for local women. On occasion I have needed some type of information, and she has spent considerable time helping me; and I imagine she does the same thing for many, many other people. In other words, Lady Bryant is simply a mighty fine person. She certainly wasn't mis-named when her folks gave her the name of Lady.

The Jaycees had intended to ask for additional contributions to help pay for the new electric clock at the football field last Friday night. But the bad weather made the crowd so small that it was decided to wait until

the Memphis game to seek the money. I understand the Jaycees need about \$60 more, and if any of you would like to help out, you can make your donations to Larry Fuller at the public service company office. Any amount will be appreciated; the more the better, of course.

C. S. Rice brought this quib in: It has been said that there are two things that are hard on a person's heart; one of them is running up stairs, and the other is running down people.

The McLean Tigers still have an outside chance to represent the district in the play-offs. IF the Tigers defeat Lefors and Memphis; IF Memphis downs Panhandle Friday night and then, of course, loses to us; IF Canadian wins over Clarendon—then McLean, Memphis, and Canadian would wind up in a three-way tie. A coin would be tossed to determine which of the three teams would represent District 1-A.

There is one way left for Mc-

Lean to represent the district without a coin toss decision. IF Clarendon should defeat Canadian (which just seems almost impossible); and IF we win our other two games, then Memphis and McLean would wind up in a tie, and we would represent the district by virtue of having a victory over Memphis. Of course, we would have a clear title IF Clarendon downs Canadian and Panhandle downs Memphis and we down Lefors and Memphis.

So, you see, we still have a chance. But Lefors will be out to knock the Tigers off this Friday night at Lefors. I've already heard from several sources that the Pirates want to defeat McLean worse than any other team this season. So, our boys had better be prepared to battle a really souped-up team come Friday night.

The wife had made a real effort to balance her budget and checkbook. Finally she handed four sheets of figures with items and costs neatly typed to her husband.

He looked them over carefully: electric bill, cleaners, and so on. Everything was clear except for one item which read ESP, \$24.50.

Warily he asked, "What does ESP mean?"

"Error some place," came the better half's reply.

OUR DEMOCRACY — by Mat

"HITCH and VISIT"

THE OLD HITCHING POST TRADITIONALLY SYMBOLIZED AMERICAN WARMTH AND NEIGHBORLINESS. IT STOOD JUST OUTSIDE THE HOME, AN INVITATION FOR FRIENDS TO HITCH THEIR HORSE AND BUGGY AND PASS THE TIME OF DAY.

WITH THE AUTOMOBILE TODAY WE ARE ABLE TO RANGE FAR AFIELD FROM THE OLD HITCHING POST. AND THE NEIGHBORLINESS WHICH IT SYMBOLIZED HAS ACHIEVED STEADILY BROADER HORIZONS AND MEANING IN OUR DEMOCRACY.

RINGING IN THE EARS
 by Science Features

Dizziness, nausea, ringing noises in the ears, impaired hearing—these are symptoms characteristic of Meniere's disease. One of the most illustrious victims of this condition, which has become more and more prevalent in recent years, was Ludwig von Beethoven.

Today, if Beethoven were alive, he would undoubtedly be able to hear his own music, thanks to an operation devised by Dr. Samuel Rosen of New York's Mount Sinai Hospital. For the first time in the history of medicine, there is now hope of a normal life for sufferers from this crippling disease.

Meniere's disease is named for the French physician who first described it in 1861. Since that time, many theories have been advanced to explain its cause, ranging from emotional tension to vitamin deficiency. Today most scientists agree that it results from some disturbance to a nerve center of the inner ear.

Standard surgical treatment for this condition has been to destroy this center, called the labyrinth, a procedure that cured the major symptoms of the disease, but at the cost of causing total deafness in the affected ear. This is important since in from 10 to 15 per cent of all cases both ears are eventually affected.

Dr. Rosen's operation cuts only one nerve, called the chorda tympani, and does not destroy the vital labyrinth. Employed on fifty patients, this operation resulted in striking relief to 82 per cent of the cases, with no damage to the hearing or other untoward effects.

Gossip—

(Continued from page 1)
 would have shown up by now. Surgery was performed on one leg which was broken, but it is believed that surgery will not be necessary on the other.

Local telephone operators did an efficient and speedy job of notifying firemen of the fire at the Hack McCurley home early Sunday morning when the fire alarm failed to function. The operators called and awakened each of the firemen, although the fire apparently was too far along when discovered for anything to be saved. Incidentally, the trouble with the fire alarm was being corrected Monday.

Shamrock Resident In Wreck Near City

Porter P. Pruitt of Shamrock escaped serious injury when his car overturned at about 4 o'clock Monday morning three-tenths of a mile east of McLean on Highway 66.

Patrolman R. C. Parker said that apparently Pruitt fell asleep as he neared the curve just east of McLean, and lost control of the 1951 Mercury he was driving. The car overturned, landing on its top, crossways on the pavement.

Pruitt, who was en route to Amarillo where he works, was given treatment here, and then taken to the Shamrock hospital. He was not believed to be seriously injured. The car was a total loss.

FAYTEEN PEEPLES

MISS PEEPLES WINS BUREAU QUEEN TITLE

Miss Fayteen Peebles, Quail High School senior, Monday was named queen of the Texas Farm Bureau Federation at Mineral Wells. She competed against 11 other young farm and ranch girls in the contest held in connection with the 20th annual state convention of the Texas Farm Bureau.

Miss Peebles was chosen winner of District 1 in a contest held September 2 at Amarillo. Previously she had won the title of queen of the Collingsworth County Farm Bureau. She is the daughter of Mr. and Mrs. Denzil Peebles of Wellington.

The winner at Mineral Wells will receive an expense-paid trip for herself and a matron escort to the 35th annual convention of the American Farm Bureau Federation December 14-17 in Chicago.

Miss Peebles is a senior in Quail High School, where she has an average of A or better in every subject. She has played basketball four years, was co-captain last year and is captain this year. She has belonged to the high school chorus since it was organized four years ago.

Her talents include singing and dancing and she has traveled to many different places to perform with the school sextet. She was chosen Greenbelt district sweetheart in her freshman year in school. She has been a member of the Future Homemakers of America for four years and was elected president last year. She was also named outstanding member last year.

Fayteen lives with her parents on a farm near Quail in Collingsworth County. A blue-eyed blond, she is 17 years old, 5 feet, 6 inches tall, and weighs 120 pounds.

I know no real worth but that tranquil firmness which meets dangers by duty, and braves them without rashness.—Stanislas.

FHA OBSERVES SPECIAL WEEK

The McLean chapter of Future Homemakers of America observed National F. H. A. Week November 1-7 by going to the First Baptist Church Sunday morning, November 1.

Red and white ribbons were worn by members all week. On Thursday, they presented an assembly program as follows: devotional, Rev. J. Edwin Kerr; F. H. A. song; some of the members and two boys gave a skit entitled "Granny Came Home"; Rev. C. W. Parmenter spoke on homes and a happy life; F. H. A. hymn by the group.

A bake sale was held Saturday at the McLean Hardware.

The regular monthly meeting and the mother-daughter covered dish supper, which was to have been held November 9, will be held Monday, November 23, at 7:30 o'clock at the grade school cafeteria. All members and their mothers are urged to attend.

The F. H. A. is going to play football against the F. H. A. of Shamrock at Duncan Field November 17 at 7:30 o'clock. Admission will be 25 cents and 50 cents.

A Famous American Ship

The WALK-IN-THE-WATER was the first passenger steamer on the Great Lakes, according to the American Merchant Marine Institute. New in 1818, only 11 years behind Robert Fulton's CLERMONT, this tiny craft is one of America's most famous ships. It is eight yoke of oxen on shore to help her up the Niagara River rap from where she was built to Buffalo. Costing \$50,000 she could accommodate 150 passengers, or about as many as could fit in the lifeboat on the superliner UNITED STATES. She was lost in 1842 but her sturdy engines lived on to power two subsequent U. S. steamers. Today's American Merchant Marine is just as important to our day-by-day living as was the WALK-IN-THE-WATER. Without American-flag tankers and freighters to bring in needed imports and take out exports our living standard could not be maintained.

Loss of Sleep Injures Health

Sleep is a necessity of life and health, according to Dr. Geo. W. Cox, state health officer, and habitual loss of sleep will tend to retard the body's recovery from the fatigue of the day's activities.

"We may be able to go without sleep for a night or two, but too little sleep for a prolonged length of time will undermine the health of a rugged person and turn a cheerful individual into a cross, irritable one," Dr. Cox said. "When good health can be maintained to such a large degree by merely sleeping and thus allowing overtaxed bodies and minds to regain a proper balance, it is hard to understand why so many people are heedless of this necessary requirement of a balanced program of life."

Some individuals need more sleep than others, the doctor said, and the most valuable experiments in this line are the ones each person makes on himself. We must take into consideration in this experiment, however, that how long we sleep is as important as how long we sleep. A "good night's rest" means a sufficient number of hours spent in sleep to enable each individual to feel well, do efficient work, and to keep in a cheerful humor the next day.

"Some exercise out of doors each day will help us to sleep soundly at night. We must also have fresh air in our sleeping quarters. Give as much ventilation as possible to the fort of your bed and bedding. Do not mull over your problems and ideas after you have to bed. Make your plans in the evening for a good night's rest by slowing down from physical and mental work your daily life. When you each morning rested and well feeling of general well-being will be amply repaid for thought in planning a "good night's sleep."
