## Funeral Rites Are Held Here For Mrs. Jones

Funeral rites for Mrs. Nancy Jane Jones, 86 years of age, were held Tuesday afternoon at 2:30 o'clock at the First Baptist Church in McLean.

Officiating was Rev. R. M. Cole, pastor of the Albrecht Baptist church. Burial was in Hillcrest Cemetery under the direction of the Claborn Funeral Home.

Mrs. Jones died at her home in McLean Sunday morning following a lengthy illness. Born January 3, in Polk County, Tenn. Nancy Jane Rogers came to Texas when she was five years of age, accompanying her parents in an ox wagon. The family settled in Montague County, near Decatur, and later moved to the southwestern part of the county to Willi Walla Vallee, named after a wild Indian tribe.

After moving to Texas, Mrs. Jones' father became a member of a group of Indian fighters. On November 22, 1883, she was united in marriage to F. L. Jones at Montague. They lived there until 1914, when they moved to McLean.

Survivors include three sons, Felix and Byrd of McLean, and Ernest of Sunray; three daughters, Mrs. Lillie E. Johns of Plainview, Miss Susie Jones of McLean, and Mrs. Florence Banta of Borger; two brothers, Bob Rogers of Quanah and Mill Rogers of Duncan, Okla.; two sisters, Mrs. Ella Dickinson of Quanah and Mrs. Vera Maddox of Mario, Okla.; six grandchildren, 12 great-grandchildren, and four great-great-grandchildren.

## Local Legion to Have 'Report Breakfast' Monday Morning

A second breakfast, termed a "report breakfast," will be held by veterans at the American Legion Hall in McLean next Monday morning.

Breakfast will be served free to all veterans who attend from 6:30 to 8 o'clock that morning, Commander Luke Henley said. All vets, whether members of the Legion or not, are urged to be present.

The first breakfast Monday morning, the "kick-off" affair for the 1953 membership drive, attracted 25 veterans. About twice that many are expected to show up next Monday morning.

A total of about 35 memberships in the Legion for the coming year have been sold to date, Henley said. Quota for the year, as set by 18th district officials, is 77, although it is hoped that at least 100 members can be signed up. Legion meetings are held the first and third Monday nights of each month, Henley stated, and all veterans are invited to attend.

## Women Plan Meet to Form Legion Auxiliary

Mrs. Loula M. Byrd of Groom, president of the 18th District American Legion Auxiliary, will be in McLean next Wednesday afternoon at 1:30 o'clock to meet with women interested in organizing an auxiliary unit in McLean.

## Tigers vs. Tigers -- That's Football Menu on Friday

Two teams of Tigers—those of McLean and those from Groom—will meet Friday night at 7:30 o'clock on Duncan Field in a non-conference game.

Both teams are being termed as late starters, since both got off to losing starts at the beginning of the season and now are showing improvement with each game.

Groom, a Class B team, will go into the game as the underdog eleven, principally on the strength of the fact that it is in Class B. Last week, the Groom Tigers downed a fairly strong Gruver team while McLean was trimming Lefors in a District 1-A contest.

For the first time this season, the local eleven will, in general, outweigh the opposing team. No starting line-up for Groom was received, but a roster of the entire squad shows that the visitors will be lighter than McLean's team.

Coach Don Leach's team will again be without the services of Dale Glass, whose shoulder bone was cracked in a practice session, but the remainder of the squad is expected to be in good shape. B. W. Duncan, who hurt a knee in the Memphis game, had recovered sufficiently last week to play most of the Lefors game, and should be in shape again this week. Barring practice injuries, the rest of the team will be ready for Groom.

The temporary stands for local fans proved sufficient for last week. The stands, with numerous cracks for wind to whistle through, were breezy for the spectators, but no foul remarks concerning them were heard. The bleachers are those used for the Lions summer softball league.

## Politics Warm Up as Candidates Prepare to Enter Home Stretch

MEMBERS OF THE McLean Fire Department are shown here with their tank truck aiding in the extinguishing of the flaming truck following the accident on Highway 66 last Thursday afternoon which cost the lives of a Connecticut couple. The driver of the truck, which caught fire after the wreck, escaped without serious injury. The car involved in the collision was brought to McLean, and is now at the Windom Garage. The car is said by many to be the worst demolished of any involved in accidents in this area. —Photo by J. M. Payne

## Headquarters Set Up Here By Ike Backers

As the presidential and vice presidential candidates went "into the home stretch" in the most widely-publicized election in history, prospective absentee voters throughout Texas, Gray County included, were making a rush for ballots to get into the act.

By Tuesday, County Clerk Charlie Thut had mailed out a total of 198 absentee ballots, and on the same date, he had had 38 returned. Throughout Texas, the same general trend was being followed; apparently very few want to miss out on the opportunity to vote.

Deadline for absentee balloting is midnight, October 31.

The campaign between Governor Adlai Stevenson, representing the Democratic party, and General Dwight D. Eisenhower, for the Republicans, was dipping down into practically all local levels this week also.

In McLean, an Eisenhower office has been set up in the Harris King building by a Citizens for Eisenhower committee. Heading the work are W. W. Shaddid and H. W. Finley. The office will have on hand literature to hand out. Ike buttons, and Ike car stickers.

The Citizens for Eisenhower also plan various other activities, including a downtown rally prior to the election, and taxi service on the day of the election.

Supporters of Stevenson in the area have made no move as yet toward establishing headquarters similar to those of the Eisenhower supporters.

The vote in Texas is expected to be a record-breaker for general elections. Bob Johnson, manager of the Texas Election Bureau, the organization supported by newspapers and radio stations throughout the state to serve as a gatherer of unofficial election returns, has hiked his estimate of the Texas vote to 1,800,000. The 1948 turnout was 1,259,000. Johnson estimates that there are two and one-half million eligible voters in Texas this year.

Both presidential candidates have been campaigning in the East and Mid-west this week, and both are drawing enormous crowds. President Truman, working for the Democratic nominee, is starting on another whistle-stop tour, his third in the past two or three weeks.

Bats do not lay eggs, but give birth to their young, alive.

Human nature is not so much depraved as to hinder us from though we ourselves want it. We love truth too well to resist the charms of sincerity.—Steele.

## Two People Killed in Collision On Highway West of McLean

Two people were killed instantly and another person escaped with only minor injuries last Thursday afternoon in one of the worst accidents on U. S. Highway 66 near McLean in several years.

Dead are Mr. and Mrs. Salvatore Stefanelli of Waterbury, Conn. Stefanelli, aged 52, and his wife, whose age was not learned, were killed instantly. Her body was badly mangled in the accident. The third person involved, Guy Barte, who was driving a big Lee Way Motor Freight truck, escaped with only minor injuries.

Mr. and Mrs. Stefanelli were driving a late model Buick. The car was declared one of the most greatly damaged cars ever seen in a wreck in this area. Following the accident, the truck caught fire from bottled gas used as fuel for the truck, and burned. Some grass was also ignited. Firemen from McLean went to the scene of the fire and aided others in extinguishing the blaze.

Traffic was held up for almost two hours while the wreckage was being cleared and the fire put out. The accident occurred about 18 miles west of McLean. Barte, in the truck, was going west, and the Buick was proceeding east. Apparently the driver of the car lost partial control, for witnesses stated Barte had pulled off onto the shoulder of the highway to try to avoid the collision. Barte was thrown from the cab of the truck into a field, and suffered a cut on his left leg and possible other injuries. He was taken to Groom for treatment.

The new, completely restyled Dodge with a powerful 140-horsepower Red Ram V-eight engine goes on display in the showroom of Hibler Truck and Implement company. Sweeping changes in both styling and chassis features plus the unprecedented efficiency of the new engine were announced by Guy Hibler, owner of the firm. New beauty and a smooth flowing effect were achieved, Hibler revealed, by favoring the lower, softer lines and increased glass area with a touch of continental design. These attractive styling changes are being offered in the entire 1953 Dodge line. (Continued on back page)

## High Plains Poll

### IKE STILL LEADS

Balloting in the High Plains Poll was lighter last week, but Gen. Eisenhower continued to hold nearly a four to one edge over Gov. Adlai Stevenson in the straw vote sampling of folks in the Tri-State area.

Ike had 1,660 votes in the cumulative totals compared to 432 for Adlai. But Stevenson was making a stronger race than was reported. (Continued on back page)

## Driver Education Course Starts at School

For the first time in the history of the local school system, students are being given the opportunity of learning how to drive properly, and also learning the importance of practicing safety driving.

The new program, called Driver Education, is being conducted by local schools through the cooperation of the Department of Public Safety.

E. Cooke, owner of Cooke Chevrolet company, last Friday presented to Superintendent Paul Kennedy and Instructor Wayne Medley a new Chevrolet to be used in the classes for the coming year. The automobile is equipped with dual brake and accelerator controls, allowing the instructor to stop the car immediately in case of necessity.

C. E. (CHUCK) COOKE, McLean Chevrolet dealer, presents keys of a new Chevrolet to Wayne Hill, instructor in the new Driver Education course of McLean High School, in a brief ceremony last Friday afternoon. On the right is W. L. Melton Jr., representing the Department of Public Safety. Shown in the left are Principal Freeman Roberts, Superintendent Paul Kennedy, and several members of the drivers classes now being taught in the local school.

The students will be taught various rules of safety, public laws including liability, functions of the automobile, general features of how an auto works, and phases of auto insurance.

Scoring: McLean 20	(Wayne Smith 12, Eddie Reeves 6, Rodney Gunn 2), Lefors 0.

To make the game come out right, the Tiger backs struck in the air and on the ground, varying the plays at the right intervals, to score once in the opening period and twice in the second to put the District 1-A contest in the bag.

The backs of McLean were good, but the McLean fans were even more pleased with the work of the line. To praise the work of any one lineman would be wrong, for they all shared in the glory, from James Jolly to big Joe Crockett to George Railsback to Gale Plummer to Don Smith to Jack Hupp to Wayne Moore to Don Trew to Jimmy Farren to all the rest who saw action. The linebacking was far above par, too, with Eddie Reeves and B. W. Duncan (who was playing with a sore knee) doing a superb job.

The Tigers ruled the roost throughout the contest. The first score came in the opening quarter. Doom punted to Smith who returned to the 47. Three plays later, after one first down, Reeves tossed to Mantooth who went to the 22. A penalty moved the ball back to the 27, and then Reeves passed to Crockett to the 14. Smith hit right guard, cut back to the left and went over. Rodney Gunn converted to make the score 7-0.

In the second quarter, Kenneth Wilson covered a Lefors fumble on the McLean 43. Reeves tossed to Railsback to the Lefors 42, and threw a screen pass to Smith who went on to the 23. One play later, Reeves hit right guard, twisted loose from would-be tacklers and went over. Gunn's kick was good, but McLean was off sides and the play was called back. Gunn then attempted to pass for the point but it fell incomplete, making the score 13-0. Following the kick-off, Lefors' fumble was recovered by Smith on the Lefors 19. ## TELEVISION QUESTIONS AND ANSWERS

1. What is VHF television?  
 Ans: VHF (very high frequency) television is a group of 12 channels (channels 2 to 13 inclusive) now in common use, in larger cities all over this country.

2. What is UHF television?  
 Ans: UHF television (ultra high frequency) is a group of 70 proposed new channels (14 to 83 inclusive), the purpose of which is to give coverage to a large number of the smaller cities all over the U. S., which are out of range of the VHF stations in the larger cities. Amarillo's new stations will be UHF stations.

3. Will my VHF antenna do for UHF reception?  
 Ans: If you are close to a UHF station, say five miles or so, VHF antenna may give you satisfactory reception. However, at greater distances and for best results a special small UHF antenna is required.

4. Can I get satisfactory indoor UHF antenna?  
 Ans: Probably, if you are located within two or three miles of the UHF transmitter. However, just as with VHF, for best results a well located outdoor antenna is recommended.

5. What size TV screen shall I buy?  
 Ans: Generally speaking, a 17" rectangular screen is suitable for a small room, a 21" rectangular screen is suitable for a medium sized room, and a 27" rectangular screen is suitable for a large room.

6. How far away from the TV transmitter can I be and still get good reception?  
 Ans: That depends primarily on two factors: first, the nature of the intervening land, and secondly, the height of the outside antenna. For example, you might be only five miles from a television transmitter and, if, between your location and the transmitter there was a mountain one mile high, in all probability you would never be able to receive that particular station. On the other hand, where the terrain is reasonably flat and your outside antenna well above any nearby building or other obstruction, such as a water tank, etc., you may expect consistently satisfactory reception, up to a distance of from 40 to 50 miles from the transmitter. Beyond that distance, intermittent reception and a certain amount of snow (because of weak signals) may be expected.

7. What is a booster? When do I need one?  
 Ans: A booster is a small amplifier, consisting of one or more tubes, connected between the antenna and the antenna terminals of the receiver. It is only necessary in fringe areas where the signal is so weak that it could not produce satisfactory picture and sound without extra amplifications and sound.

### More Irrigation Donley County

Irrigation in Donley County has become popular with farmers in the past month and now a list of farmers have either started irrigation wells or are figuring with contractors to dig wells for them.

County Agent H. M. Breedlove says that work is now in progress on the Lloyd Risley farm and the Hall Hardin farms digging wells. Farmers on the list for digging wells or figuring with contractors are F. L. Goldston, Lee Muse, W. Hutchins, S. Mahafferty, P. L. Chamberlain, D. E. Leathers, C. E. Johnson and Son, Drs. London and Witt, Richard Cannon, A. J. and H. J. Rogers, and Andy Brown.

There are now six existing irrigation wells in the county and if plans go through as planned there will possibly be a total of over 20 wells in the county by the first of the year.

Breedlove says that technical assistance is being furnished by the Soil Conservation Service and information and educational work by the county agent.

Irrigation in Donley County is fast coming to the front and any farmer who would like information can contact the county agent and he will try to help you get started and give you figures on the initial cost.

### An Editorial

## How Will Communists Vote?

Both Stalin and the Russian official newspaper Pravda have denounced and derided General Eisenhower. It is plain that the Soviets fear the election of Eisenhower and his ability to organize the European nations in joint defense against Russia.

Communists here in America are denouncing the Republican party and both General Eisenhower and Senator Nixon.

It is clear that all Communists will be instructed direct from Moscow to vote for Adlai Stevenson. President Truman denounced the attempt of congressional committees to ferret Communists out of the state department and other federal bureaus. He called the attack on communism a red herring. President Truman threatened to discharge any FBI agent who testified against Alger Hiss. Since that time Alger Hiss and 14 Communists have been convicted. Secretary Acheson, even after Hiss was convicted, said he would stand by Alger Hiss.

Adlai Stevenson, as assistant to Secretary of the Navy Knox, worked with Alger Hiss and Acheson in the state department. He wrote a letter defending Alger Hiss. President Roosevelt, in a memorandum initiated by him and read by Secretary Knox, stated in effect that in the opinion of the president, membership or suspected membership in the Communist party was not sufficient to deprive a radio operator of his job, although that operator was in the government employ.

Mr. Stevenson at that time was asked by Admiral Staton for his support in a recommendation that a number of suspicious characters be removed as radio operators. Stevenson replied: "There was no reason that he could see for firing the men."

Owen Lattimore, a chief advisor to Acheson and so-called expert on Asian affairs, recently testified at length before a congressional committee. The members of the committee, both Democrats and Republicans, charged that he perjured himself on five different points. They certified this fact to the department of justice. No action has been taken by the justice department and none is likely, for his conviction would be another blow at Acheson and the state department.

This attitude on the part of the Democratic administration is typical of its indifference to the infiltration of Communists everywhere in government. A Communist union now handles all of the messages of the Western Union in some of our major cities and it is reported that the private messages of the state department and other government agencies are all scanned by Communist members of this union who would never hesitate to reveal the contents of those messages to the Russian spies in this country.

The General Electric Co., which makes some top secret war devices for the army and navy in its huge plant at Schenectady, is manned wholly by the Communist-dominated United Electrical Workers union. Every officer and agent of that union is known to be a Communist. The UEW was kicked out of the CIO because of its Communist affiliations. Every development of every device produced in that largest electrical equipment factory in America is known to the Communist officers and inspectors of that union. The administration has never attempted to alter this situation in any manner.

Every citizen who votes for Adlai Stevenson will be voting the same ticket as voted by the Communists in this country, and as advocated by the big labor bosses, John L. Lewis, William Green, Philip Murray, and Walter Reuther. Fortunately, these labor leaders do not carry the vote of their members in their pockets and a substantial number of labor union members will vote as their conscience dictates, for they have the American right to make their own decisions.

The election of Adlai Stevenson means a continuation of undisturbed Communist spying in every activity of our government.—From Daily Oklahoman, October 19, 1952.

### THE SWING

PRESIDENT TRUMAN, cuddling his little hatchet, is off on another "give 'em hell" bing.

And that, friends, tells in one sentence the story of Adlai Stevenson that began and Adlai Stevenson that is.

When Mr. Stevenson, in the role of the reluctant candidate, welcomed the Democratic convention to Chicago last July, he solemnly admonished the delegates that this was no time for "endless elocution" or for "frantic boasts and foolish words."

But Mr. Stevenson, on the stump today, has become noted for his lofty elocution—spiced with broadside boasting. Only the Democratic party can promote peace and preserve prosperity; all blessings flow from Democratic leadership—to hear him tell it.

In the beginning, he spoke out against "bombast, abuse and double talk." But his campaign increasingly has been pitched on on all three.

He said he wasn't going to "run against Herbert Hoover." But his recent speeches are filled with dire prophecies of another "Hoover depression" if the Republicans should win.

He began his campaign by promising to restore the bi-partisan foreign policy. But now he is saying all Republicans are isolationists, and, by innuendo, that they would weaken us and maybe even get us into war.

In Chicago, he recognized the "need for a change" as a valid issue, but said there could be a change without changing parties. Now he has adopted the Truman program, lock, stock, and Acheson. All talk of change is ridiculed.

He skillfully inspired reports that he was shy of the Truman label, boldly announced he had no "commitments" to the president and sifted out the Truman proteges at the top of the party organization.

But now he has the president on the road, saying the things Mr. Stevenson doesn't wish to say himself, in language only a Truman would use.

He said, in August, he would "clean up the mess in Washington." But Mr. Truman sharply rebuked him by saying there was no "mess," and Mr. Stevenson hasn't mentioned it since.

The whole tune of the Stevenson campaign has been reduced to a single purpose—to belittle and degrade General Eisenhower, to picture him as a groveling little man treading on hero worship, stultifying his principles at the command of the selfish, "out-throat reactionaries" who are bent on the destruction of all that is good. It's a far swing from the "give 'em light" technique promised at the Chicago convention to the "give 'em hell" system of Harry Truman—but Adlai has swung it.—Editorial from the Fort Worth Press.

### LES TALK

By LESTER

The Tiger grid team looked mighty good Friday night against Lefors, didn't it? The line play was very, very excellent, and of course the backs did all right, too. But the way the Tiger line tightened on defense was the amazing part.

However, I hope that all of us won't get the idea we have the district championship already wrapped up. Lefors does have a good team, but so do Panhandle and White Deer. Especially Panhandle. Canadian isn't supposed to have too good a team this year, yet Canadian tied White Deer Friday night. Clarendon isn't supposed to have much, either, right at the moment, but the Broncos have been suffering from injuries to key players—they may be ready by the time they meet us November 21.

We have a hard row to hoe, if

the Tigers win the championship. This week's game with Groom is a non-conference affair, but then they all come in one after the other—Panhandle, White Deer, Canadian, and Clarendon.

Don't be pessimistic about our chances, but don't be overly optimistic either.

Had the opportunity to attend the State Fair and the Texas-O. U. game in Dallas week-end before last. I don't suppose you care about hearing about my trip, but I'm gonna relate a few things I think might be interesting anyway.

One night we attended a free fireworks display held in the Cotton Bowl. The unusual thing to me was that the fireworks—thousands of dollars worth of them—were fired inside the bowl. The seats were used as the base for constructing the huge frames for the pyro-technic display. Apparently no one feared that the stadium would catch fire, for I didn't see even one little fire truck standing by. I guess I was just stadium-fire conscious. Among the fireworks was the lighting of 20-foot pictures of Adlai Stevenson and Gen. Eisenhower.

When Adlai's picture was lit up—it was first of the two—there were many yells and a number of boos. But when Ike's picture was lit up, the yells about doubled, and no boos. I was a bit surprised that the majority of the 15 or 20 thousand people present seemed to favor Ike. All over Dallas are signs, literally hundreds of them, proclaiming "We Like Ike." You don't see nearly so many Stevenson signs. A lot of money is being spent on this campaign.

Also down at the fair this year, a giant cowboy dressed in Levis was on display at about the center of the grounds. He must be 50 feet tall, and actually had on a pair of Levis—said to be the biggest Levis ever made. Which I don't doubt.

Something else which intrigued me was the manner in which the crowds are handled in that Cotton Bowl. The stadium seats 75,540 people. We entered the bowl prior to the Texas-O. U. game at about 1:30 o'clock. The game was to start at 2. When we went in, there were only a few hundred people seated, two or three spotted about here and there. Fifteen minutes later, the stadium was packed full; no empty seats could be seen anywhere. It fills up that fast.

If you've never been in that Cotton Bowl, it's a sight to see. In addition to the regular bowl part, the stadium boasts of two huge balcony affairs, upper decks I think they call them. It's just simply amazing. I have been to a number of football games in the bowl, and I am goggle-eyed every time I go back.

The State Fair, you know, is the world's biggest fair. If a man had the money spent on the fair grounds for beer alone on the day of the Texas-O. U. game, I believe he could retire and live like a rich man for the rest of his life. And I know he could if he had the money spent that one day on beer, hot dogs, and fried chicken.

### COTTON QUIZ

HOW MANY USES ARE THERE FOR COTTON AND ITS PRODUCTS?

LATEST STATISTICS SHOW THERE ARE MORE THAN 10,000 USES FOR COTTON!

The midway of the fair is a pretty interesting place. We walked down it one time while at the fair, and I can honestly say I didn't spend a dime while walking thru. But there are surely lots of ways you can spend money on the midway. Every conceivable kind of carnival ride is available, every kind of side show all the way from the smallest to the largest in the world to the spiciest dancers.

Amos Page and I wore our derbies all the time we were at the fair and other places we went to in Dallas. We got quite a number of stares. However, at the fair, our hats were right in order, for there were many, many different kinds of headgear on display.

I might mention, for the benefit of some who have never had the opportunity to attend the State Fair, that everything is not on the entertainment side. There

are literally hundreds of educational exhibits—many of them exhibits concerning better standards of living, if you have the money to take advantage of them. And there are good shows given, too. Some of the shows are free, such as the fireworks display presented 125 feet in the air free of charge by the Magnolia company. Some of the shows cost money—this year Martin and Lewis were there, and the Foxes were there.

But a person can spend hours upon hours taking in the free things. The State Fair of Texas is a most wonderful thing for us Texans. If you have never been, try, try to get down there next year or the next. Your time will not be wasted.

This hog was two years old and of Duroc Jersey breed. Mr. D'Spain made a specialty of this breed and expresses the opinion that they are the best all-round hog to be had. If they all grow to the weight and size of the one mentioned there would certainly be a snug fortune awaiting the

breeder and raiser of Duroc Jerseys. Provided, of course, he was situated in the Panhandle where everything is accomplished on a big scale.

# GOOD HEALTH

1. WHAT IS CORONARY OCCLUSION?

3. IS PORK DANGEROUS?

2. IS HOARSENESS A HEALTH HAZARD?

**Answer to Question No. 1:**  
It is the blocking of a vessel that supplies blood to the heart muscle. Its seriousness depends upon how large the vessel is, and how much muscle thereby loses its blood supply. A very small percentage die of the first attack. Other victims can, thanks to modern medical developments, continue for many years to live useful lives.

**Answer to Question No. 2:**  
Usually hoarseness is the result of a cold, or a chemical irritant, or too much use of the voice. If there is no simple explanation of your hoarseness, and it persists, see a doctor. A serious illness, such as tuberculosis or cancer of the throat, might be the cause.

**Answer to Question No. 3:**  
Pork is a delicious, nourishing food, but may be infected with trichinae, tiny parasites that cause the sometimes fatal disease, trichinosis. This disease is more prevalent than you may think. The housewife may protect her family by cooking all pork thoroughly until meat at the center loses its pink color and turns grey. Some communities are acting to eliminate the parasite, and danger of other diseases, by such public measures as requiring all garbage fed to hogs be cooked, and all pork products adequately processed and microscopically inspected.

## Boys Ranch—NEW BUILDING

Twenty-four lucky boys have been excitedly hanging curtains, washing windows, waxing floors and putting the final home-like touches in their rooms in the recently-completed housing unit at America's first Boys Ranch, 40 miles northwest of Amarillo.

Most of the boys had a hand in the construction of the building and for months they waited anxiously for the date when 24 boys would be chosen to take up residence. Since all the boys could not live in this first of the proposed series of units, a merit system was devised to select those who would call the new unit their home.

The young ranchers are keeping their rooms spotless, perhaps more than necessary, but they are very proud of their new home and intend to see that nothing is done to mar its beauty and comfort.

The housing unit has an exterior of red Colorado stone and green vertical siding. The boys' rooms have a natural, varnished finish with exposed roof beams. A masonite tile bath adjoins each of the six 4-boy rooms and every boy has his own private closet.

Quarters for a counselor and his wife are provided at one end of the unit, and a recreation room, complete with library, is situated at the other end. The counselor has charge of the unit and is responsible for the program of the boys.

All furnishings are Brandt heavy oak pieces that are finished naturally. Double bunks, four chairs, and a desk complete the furnishings of the boys' room. And each room has an Arvin radio, the gift of Hollywood's Queen for a Day when she visited Boys Ranch. The boys' personal effects are arranged to suit individual tastes.

Plans for the new unit were drawn up by the 5th year architectural class of Texas A. and M. College, the same group that will plan and design most of the buildings in the long-range Boys Ranch expansion program.

The boys are extremely proud of their new home and invite all their friends to visit the ranch and see it. This, and other new units, will gradually make it possible for Boys Ranch to take more homeless and destitute boys

from all over the nation and give them a home and the training and education they need so badly.

## Donley County—SOIL NEWS

A few farmers in the Donley County Soil Conservation District are planning on doing some conservation work in spite of the dry weather.

Last week we staked a farm and ranch pond for Allen Bryan on his ranch south of Lella Lake. The site is in the southwest part of his ranch and is for the purpose of furnishing livestock water in this area for better distribution of grazing.

Plenty of livestock water well distributed is one of the first requirements of any good ranch plan.

We ran terrace lines on Mrs. L. B. Merrell's place and also on the adjoining place owned by Mr. Merrell. Troy Guy is farming both of these places. H. T. Warner is the contractor for the construction of these terraces.

Tom Tate north of Hedley requested assistance in enlarging a farm waterway through his place. This work was surveyed and laid out to prevent an area of low flat land from being flooded and eroded when and if it ever rains again. Tate plans on seeding this protected area to alfalfa.

A number of farmers have requested assistance on irrigation plans. We helped Hall Hardin locate a site for an irrigation well on his home place and also a location for a second well on his place near Martin.

H. S. Mahaffey, Ashtola, and a number of other farmers are planning on having test wells drilled in the near future to determine the possibilities for irrigation.

Dr. and Mrs. Buell Wells left Sunday for Fort Worth to attend the meeting of the Baptist General Convention of Texas.

Mr. and Mrs. Don Clemmons made a business trip to Lubbock Thursday and Friday.

Mrs. Jim Back visited relatives in Wichita Falls Thursday and Friday, and attended the Featherston family reunion Saturday and Sunday at Comanche.

last week in the home of her sister, Mrs. C. G. Nicholson.

### GROWING PAINS In Gray County

By FOSTER WHALEY

The county P. M. A. office is busy taking applications for the government buy-back program. A total of 413 tons of cotton has been applied for under the program. Evelyn Mason, secretary of the Gray County P. M. A., received a telegram on October 20 from state headquarters advising her that it might be as long as six weeks before we could expect shipment of our cotton.

The Gray County agriculture stabilization committee set up the following rules for figuring the eligibility of each applicant: Livestock producers will be allowed a 30-day supply on the spot go-around. This will be figured on the following basis: 20 cents per head per day for beef steers per head per day for beef cows per head per day for dairy cattle. A \$5 deposit per ton is required at the time of application, and the rest at time of delivery at either Pampa or McLean.

A total of 635 bales of cotton has been ginned locally and several hundred bales have been shipped at Shamrock and elsewhere.

It is estimated that 60 per cent of the cotton has been pulled in this area.

Talked to L. P. Shelburne today (Tuesday) and he plans to use a mechanical stripper on the rest of his cotton, which will take around a quarter of a bale. He seems to be the plan of a number of McLean farmers. There is one Mexican crew that has just finished pulling for Mrs. Collie. At present they are pulling for Elmer Kirby. Their price is \$2.50 per hundred bales at the gin and taking in weights.

REVEILLE

... with the boys

Recently reported to Air Transport Squadron Two, based at the U. S. Naval Air Station, Alameda, Calif., was Billy Eudey, airman, USN, son of Mr. and Mrs. Charlie Eudey of McLean.

Eudey entered the naval service September 1, 1950, and received his recruit training at the Naval Training Center, San Diego. Before his entry into the navy he attended West Texas State College at Canyon.

The squadron flies the 80-ton four-engine Martin "Mars" seaplanes from Alameda to Honolulu, T. H. The Mars, which has a wing spread equal to the height of a 20-story building, has carried a 301 passenger load, more than any other aircraft in the world. The Mars also established a non-stop record for seaplanes on 4,748 mile flight from Honolulu to Chicago, Ill.

S/Sgt. Kenneth Gibson left Tuesday for a visit with his brother, Robert Gibson and family, in Los Angeles, Calif. He will then report for duty in Sacramento.

S 1/c Eddie Mac Stewart of San Diego, Calif., is here visiting his parents, Mr. and Mrs. F. E. Stewart.

Warrant Officer M. D. Curry of Biggs Field, El Paso, visited his mother, Mrs. M. D. Curry, Friday.

Rev. and Mrs. Karl Ernst and children were dinner guests of Mr. and Mrs. Jess Kemp Thursday. Rev. Ernst left McLean Saturday morning for Korea.

Ike Leads—

(Continued from page 1)

in the first roundup summary of the poll last week. He now is leading in two communities, Shamrock and Claude.

He led at Shamrock in the first report. He held on to that lead, with the Shamrock Texan reporting a total of 70 for Stevenson and 50 for Ike. The vote reported by the Claude News was 17 for Ike, 21 for Adlai.

Balloting during the week was light in McLean, with only a few additional people making their choice in this area for the High Plains Poll. Eisenhower's margin grew here, however, with 24 designating him as their choice, and only four choosing Stevenson.

The High Plains Poll is being conducted by weekly and daily newspapers throughout the Tri-State area. The papers are carrying straw vote ballots with which to sample voter preference. The Amarillo Daily News is coordinator for the poll.

Final report for the High Plains Poll will be made next week—just a few days before the November 4 election.

Totals reported by the various papers included (with Ike totals first):

Lockney Beacon, 83-17; Olton Enterprise, 13-7; Curry County Times (Clovis), 25-10; Texoma Times, 7-0; Borger Herald, 46-20; Childress Index, 29-6; Tucumcari Daily News, 76-29; Spearman Reporter, 9-4; Groom News, 16-4; Hereford Brand, 98-21; Memphis Democrat, 89-31; Muleshoe Journal, 15-10; Boise City News, 88-8; Canadian Record, 68-11; Dalhart Texan, 120-43; Happy Herald, 10-3; Amarillo News (Potter and Randall counties only), 179-28; Guymon Herald, 157-22; Friona Star, 62-14; Shamrock Texan, 59-70; Floyd County Hesperian, 37-15; Ochiltree County Herald (Perryton), 189-34; Claude News, 17-21.

Tigers Wallop—

penalty moved the ball back to the 31. Reeves then threw a long one to Plummer, who was stopped on the 4. Smith hit left guard to score, and Gunn converted, making the score 20-0.

The entire second half went scoreless. The Tigers lost the ball on downs in the third quarter after getting to the 11. In the final period, the local eleven got to the 17, but lost on downs. The only penetration for Lefors came late in the game, as the Pirates moved to the 14 to lose the ball on downs.

Hallow'en Carnival Of Local Schools To Be October 30

There's much "buzzin'" going on about the various school classes these days.

For the annual Hallow'en carnival, highlighted by the announcement of the winner of the coveted Harvest Queen title, will be held Thursday night, October 30.

The carnival will be held this year in the Municipal Building, and entertainment will be present in many forms—for just about every member of the family.

The evening's program will be climaxed with the coronation of the Harvest Queen.

which consists of 10 different models, he said.

The 140-horsepower Red Ram V-eight engine is featured in the Coronet series, while the popular and dependable six cylinder engine is retained in the Meadowbrook and Meadowbrook Special series. The Wayfarer is not included in the 1953 Dodge lineup. More than a dozen other changes were listed by Hibler.

"Body beautification and the Red Ram engine are definitely highlights of the all-new 1953 Dodge," Hibler declared. Four different types of drive are being offered. They are the new Gyro-Torque drive, which is teamed with the Red Ram V-eight engine to provide lightning response without shifting; Gyro-Matic drive, which offers smooth and easy no-shift driving; automatic overdrive, which provides a fourth "cruising" gear for greater gasoline economy; and standard drive, for those preferring to do their own shifting.

Auxiliary—

(Continued from page 1)

The meeting here will be held in the American Legion Hall. Those eligible to belong to the auxiliary include the mother, wife, sister, or daughter of a Legionnaire, Mrs. Byrd said, and all women in any of these classifications are urged to attend.

Mrs. Byrd was in McLean Monday night, and outlined several phases of auxiliary work before members of the Floyd-Corbin-Florey Post of the American Legion. Wives of several Legionnaires were present to meet with Mrs. Byrd at that time.

"The Legionnaires of McLean are very anxious to get an auxiliary unit organized," Commander Luke Henley said. "There are many activities, both on a local and larger scale, which can be carried out by the auxiliary. It is our hope that a great many wives of Legionnaires will be on hand next Wednesday to meet with Mrs. Byrd."

Two Injured East of McLean

Two persons were injured, but neither critically, when the station wagon in which they were riding collided with a dump truck Friday morning about two miles east of McLean.

Hurt were Samuel Goodman, 29, of Santa Clara, Calif., and his wife. Their two children, one of whom was 4 years of age and the other 11 months, were not injured. Goodman was most seriously hurt, suffering a broken arm and cuts and bruises. Mrs. Goodman received minor cuts and bruises.

The driver of the dump truck, Harold L. Barker, 27, of Big Spring, was not injured. He was driving a truck engaged in work on the paving of Highway 66 east of McLean.

Barker had just driven his truck east over a hill, investigating highway patrolmen reported. Patrolmen said he had given a signal and was turning left off the highway to a cement mixer when the station wagon approached. The collision occurred on the north side of the present highway.

Mr. and Mrs. Goodman were brought to McLean for emergency treatment, and then he was taken to the Groom hospital. He was released from the hospital Sunday.

Children's Shop Sold to Butrum

Sale of The Children's Shop by Mrs. Mabel Bizzell to Mrs. Delma Butrum was announced last week-end. Mrs. Butrum took over management of the business Monday morning.

Mr. and Mrs. Bizzell and their children left early this week for Olton to make their home. She will operate a children's shop and ladies' ready-to-wear store in Olton, and Bizzell will work for the John Deere dealer in that city.

In taking over the store, Mrs. Butrum said: "We will continue to handle the same lines of fine merchandise which Mrs. Bizzell has handled in the past, and we invite your continued patronage. We will endeavor to give you the kind of pleasant service which you like."

Livestock Film To Be Shown

A representative of the Lederle Laboratories will be in McLean next Monday night, under the sponsorship of the McLean FFA chapter and Brown's Drug, to present a film on the control of livestock disease. The show will be in the high school auditorium at 7:30 o'clock.

The public is invited to attend the showing of the film, Hickman Brown, druggist, and Vernon Gibson, FFA sponsor, said. All FFA members will be present, and a number of other people who are interested in the control of livestock disease are expected to attend.

The film is entitled "Livestock Disease and Its Control." Following the film, a question and answer period will be held, and the program is expected to last about one hour. Admission will be free. Light refreshments will be served.

DEMURE LADY

A dress with a dainty and sweet air is Henry Rosenfeld's versatile dress in the new menswear collection by J. P. Stevens. Bodice fullness and skirt fullness stem from a corseted waistline which rises high in the bodice in a line that is reminiscent of the Empire, the National Cotton Council points out.
