## Mr. and Mrs. W. E. Bogan to Celebrate Golden Wedding Anniversary Sunday

Mr. and Mrs. W. E. Bogan will observe their 50th wedding anniversary Sunday, July 28.

A reception will be held in the parlor of the McLean Methodist Church Sunday evening at 8:00 o'clock. All friends of the couple are invited to attend the reception. Mr. and Mrs. Bogan asked that gifts not be given to them since they are primarily interested in seeing and visiting with their friends and neighbors and not in receiving gifts on this occasion.

William E. Bogan and Pearl Roberts were married in Mangum, Okla., in 1907. She was the daughter of a Methodist minister and Mr. Bogan was employed with the First National Bank in Granite, Okla., when the couple was married.

The Bogans moved to McLean in 1927 when he joined the Citizens State Bank here. Mr. Bogan also served as city secretary for several years.

Mr. and Mrs. Bogan have two sons, Creed Bogan of Borger and C. W. Bogan of Sanford, Fla. One son, Jack, was killed while serving his country in World War II.

## Rev. and Mrs. Kerr Entertain Friends With Open House

The congregation and friends of the Presbyterian church were entertained at an open house in the home of the Rev. and Mrs. J. Edwin Kerr on Thursday evening, July 18th.

Guests included Mr. and Mrs. Kid McCoy, Mrs. T. E. Crisp, Mrs. Ruth McGahey, Mrs. C. E. Cortis, Mr. and Mrs. T. C. Cortis, Gordon Wilson, Mr. and Mrs. E. J. Windom, Jr., and son, Eddy, Rev. Gerald L. Hill, Mrs. Fiedelle Stubbs, Mrs. Bill Stubbs, Mr. and Mrs. Jess Kemp, Mrs. F. E. Hambricht, Mrs. K. E. Windom, Mrs. T. A. Massay, Miss Michal Massay, and Mrs. James Massay.

Out of town guests were Mrs. F. W. Cortis, DeBary, Fla.; Misses Margaret and Jemma Lee Dean, Skellytown; Mr. and Mrs. Floyd Smith, and Miss Judy Smith, Pampa; Rev. and Mrs. Edgar Hubbard, White Deer; Rev. and Mrs. Ronald Hubbard and son, Ed, Pampa.

The congregation of the Presbyterian church presented a hand painted picture to the host and hostess.

### CARD OF THANKS

I wish to take this means of thanking everyone for the cards and visits while I was in the hospital and since coming home.

Jimmy McDonald

### CARD OF THANKS

The Ben Brown family wants to thank everyone for their cards, letters, telegrams, and flowers while in Colorado Springs, Colo.; for the expressions of sympathy, for the flowers and the food on our arrival home.

Epsom salt takes its name from a mineral spring at Epsom, England.

## WSCS Luncheon Held Tuesday

The WSCS luncheon was held Tuesday at the McLean Methodist Church.

Mrs. Daphne Morris gave the devotional and Ruth Ellen Riley was in charge of the entertainment. Gifts were presented to members having birthdays during the summer months.

Members attending were Mesdames Opal Allison, Georgia Beasley, Ida Mae Dickinson, Mary Eustace, Ruth Ferguson, Ella Longino, Daphne Morris, Ruth Ellen Riley, Evelyn Stubblefield, J. L. Andrews, W. E. Bogan, C. H. Day, C. M. Carpenter, J. A.

Sparks, Madge Page, W. M. Rhodes, J. E. Kirby, Ellen Wilson, J. L. Hess, Alice Wilson, and Clayton Peabody; and two guests, Rev. Jack Riley and Bonnie Ruth Riley.

## Wesleyan Service Guild Meets In Church Parlor

The Wesleyan Service Guild of the McLean Methodist Church met Tuesday night in the church parlor.

Rosemary Melton gave the devotional on "Stand Up and Tell, What Do You Know About Jesus?" Frances Kennedy was in charge of the program. Lois Page gave the meaning of the Guild emblem, and each officer gave her duties.

Loree Brown, president, presided over the business meeting. Refreshments were served by Frances Kennedy.

Those attending were Sinclair Armstrong, Fern Boyd, Marie Fraser, Pat Greenwood, Rosemary Melton, Ruth Ellen Riley, Billie Perkins, Lois Page, Ruth Magee, Isabel Cousins, Betty Bunch, Loree Brown and Frances Kennedy.

## Savings Bond Sales Total \$370,921 In Gray County

During the first six months of 1957, the citizens of Gray County invested \$370,921 in Series E and H Savings Bonds. Of this amount \$36,927 was purchased during the month of June. The report was

made by Geo. B. Cree, Jr., chairman of the Gray County Savings Bond committee.

Sales in Texas during the first half of 1957 were \$85,566,685 or 44.3% of the 1957 goal of \$193,100,000. June sales in Texas were \$12,988,481.

"I would like to remind the people of Gray County that there is no safer investment in the world today. Both the principal and interest of U. S. Savings Bonds are fully guaranteed by the full faith and credit of our government. Savings Bonds now earn higher interest and mature sooner. Remember our slogan for 1957—part of every American's savings belongs in U. S. Savings Bonds." Chairman Cree concluded.

Eschatology is the study of "last things"—i. e., death and the end of the world.

The width of United States ships is determined by the Panama Canal, and the height by the Brooklyn Bridge.

**Revised Farmer's Gas Tax Refund Guide Available**

Wiley E. Davis, administrative officer of the Pampa Internal Revenue office, announced this week that a revised Farmer's Gas Tax Refund guide booklet is

now available to assist farmers in submitting federal gas tax refund claims for the year ending June 30, 1957.

The publication, No. 308, together with claim form 2240 and instructions for submission of claims are available on request at the Pampa Internal Revenue office. Forms and instructions

also may be obtained at the county agricultural agents' offices.

Claims should be filed on form 2240 not later than September 30, 1957.

Last year a million and a quarter farmers filed claims for refund of the federal tax on gasoline used for farming purposes, and refunds averaged \$20.

It is estimated that the number of claims for refund filed this year will be close to 2,500,000, and the total refund is expected to increase correspondingly. These expected increases are due to an increase in the federal gas tax rate from two to three cents a gallon plus the fact that an entire year will be covered by these claims, whereas only taxes paid on gas used during the first six months of 1956 were subject to the claims filed last year.

The Farmer's Tax Refund guide explains in plain language the rules and procedures to be followed in filing a claim for refund of the federal gasoline tax. It also explains conditions under which the farmers may purchase diesel fuel and other special motor fuels, to be used for farm purposes, without payment of the federal tax thereon.

**SOIL CONSERVATION DISTRICT NEWS**

**OUR SOIL ★ OUR STRENGTH**

By Jim Smathers  
Work Unit Conservationist

Monday afternoon the Soil Conservation Service in the Pampa work unit was privileged to go over to Wheeler to take part in a tour on chemical brush control. The tour took the group out in the northeast part of the Wheeler SCD. The places observed were on the Tom Britt ranch, some experimental plots of the Woodward, Okla., Experiment Station, and on the Gordon Stiles ranch. Some very good brush control was seen.

E. H. "Pat" McIlwain, superintendent of the Woodward Experiment Station, and Cecil Armstrong, also of the experiment station were on hand to explain what had been done on the experimental plots.

These plots were not set up as demonstration plots but for experimental purposes only. McIlwain said they were now advanced far enough along for demonstrations. On the plots various amounts of chemicals were used, all spray being applied by airplane. The best results have been obtained from using one pound of 245T, with an oil emulsion base, per acre. The next best results were obtained using one pound of 24D, with an oil

**Millionaire Autograph**

MIDWAY through his third year in the role of Michael Anthony, TV star Marvin Miller finds larger-than-life-sized checks are all in a day's work—on "The Millionaire"—over the CBS-TV Network on Wednesdays at 9:00 p. m. EDT. As executive secretary to an eccentric billionaire, Michael Anthony insists giving away an even \$1,000,000 every week makes it easier for him to balance the check books at the end of the month.

emulsion base, per acre. The most important thing, according to McIlwain, is to spray the shinnery when it is at its most rapid stage of growth in the spring for three consecutive years. Sand sage is killed with two sprayings and skunk brush goes with one spraying. Kills up to 99% have been obtained. How soon the brush will return is yet to be learned.

Grass, on all pastures where chemical spraying has been used has certainly made a come back. Spraying costs were approximately \$2.50 to \$3.50 per acre. Ranchers Britt and Stiles stated that the increase in grass stands and yields on their places is enough to more than offset the cost of spraying.

Another important point brought out was that cattle were left on shinnery pasture after spraying and no animals were lost due to shinnery poisoning.

Not all the answers have been found on chemical control yet but it does look as if a promising start has been made.

**Audie Murphy Stars In 'Fort Petticoat' As Frontier Fighter**

Unforgettable star of "To Hell and Back," Audie Murphy, returns to the Derby Drive-In Theatre on Sunday, Monday and Tuesday in a frontier adventure ideally suited to his abilities as a soldier, fighting man and an actor. The film, "The Guns of Fort Petticoat," with print by technicolor, is a hitherto untold saga of the Southwest, when a

single man and a band of women withstood savage Indian attacks in a battle for survival.

According to Hollywood, "The Guns of Fort Petticoat" runs the gauntlet of danger, as Murphy leads his desperate, besieged handful of "soldiers in skirts." Actually, of course, they are pioneer women and their children left defenseless in the savage Texas territory when the menfolk march off to the Civil War.

As the army officer, Murphy is said to do a superb job in "The Guns of Fort Petticoat." Kathryn Grant is seen as a girl who first scorns Murphy but then comes to love him; Hope Emerson is a fighting pioneer woman; Jeff Donnell is also featured as an ill-fated girl; Jeanette Nolan is a religious fanatic who jeopardizes them all with her refusal to take up a gun. Sean McClory is the villain who deserts when the Indians attack, and Ernestine Wade plays the first casualty suffered by the besieged band.

submit proof of his date of his birth. He said that the best proof is a birth certificate issued shortly after the date of birth, but if one is not available, other proofs, such as a baptismal certificate or a family Bible or an old life insurance policy are generally acceptable. Most delayed birth certificates are not accept-

able, he stated. He added that farmers should not overlook bringing along copies of their 1955 and 1956 federal income tax returns and evidence to show the returns were actually filed with the district director of Internal Revenue. Such evidence may be a cancelled check, money order stub, or a cashier's check receipt.

**The only modern Short Stroke SIX!**

Another reason why

**Ford Trucks Cost Less**

Under the broad hood of that boldly modern '57 Ford there's something you won't find in any other pickup. It's a six-cylinder engine with modern Short Stroke design.

Because of Short Stroke design, Ford engines—both Six and V-8—have less internal friction. This means less wear, less repair. Coupled with new 8.3 to 1 compression ratio—it also means more miles from every gallon of gas.

Ford trucks cost less in every way! First cost is low; many, many models are priced below every other make. Ford resale value is traditionally high. And independent insurance experts have certified for the 12th straight year that Ford trucks last longer. Act now—save now and for years to come!

Many persons who are filing claims for social security benefits are overlooking the requirement that certain proofs must be submitted before their claims can be certified for payment, according to John R. Sanderson, manager of the Amarillo Social Security office.

Sanderson said that failure to present the necessary proofs at the time the claim is filed causes the claimant to have to make on or more additional trips to the social security office. As a result of these extra trips, people have to wait longer to be interviewed, the processing of claims is slowed up and claimants have to wait longer before they receive their first monthly check. Sanderson explained that in most cases the claimant must

LICENSING SPEECH AND THE PRINTING PRESS

The right to express one's opinions through advertising and other means, without undue or unusual restrictions or penalties certainly is a fundamental right in a free country.

This danger comes from recent announcements made by the Federal Power Commission and the Internal Revenue Service. It concerns 59 electric utilities which have used "opinion" advertising and pamphlets to oppose socialization of their industry.

M. S. Rukeyser, the International News Service commentator says: "These seemingly innocuous bureaucratic ukases strike at the roots of our American competitive system, which rests on cultivation of a free market in ideas and ideologies."

The precedent the FPC and IRS are establishing—if allowed to stand—is staggering. Under it, any group in power could restrict and in many cases prevent expressions of opinion by any opposing group.

OFF THE TRUCK—INTO THE HOUSE

Before the war, Perryton used to be visited several times each summer by a traveling medicine show, with a portable stage, a couple of musicians, a barker and a lot of medicine in bottles or jars.

They have moved into the living room—via television. TV has restored the old time barker and put him before a larger audience.

Their magic elixirs are good for the ills of man or beast, their salve will cure corns or clear up acne, their hair restorer will put fuzz on a billiard ball, they have headache powders which cure twice as fast.

The vogue is to make these claims while dressed in white, with perhaps a stethoscope draped around the neck. This gives the appearance of respectability and, without saying so, leads you to believe a bona fide doctor is making these claims.

The Federal Trade Commission objects to the men in white. They have been ordered to cease and desist playing like doctors. But we notice little let-up in the tirade of pills, ointments, etc., which are hawked nightly over our television set.

In the old days it used to be the sheriff who ran "Doc" and his bunch out of town. The FPC needs to do the same on a nation-wide basis.—Ochiltree County Herald.

40 Years Ago—IT HAPPENED HERE

Taken from the Files of The McLean News, 1917

Hamilton-Upham Sunday afternoon at 4 o'clock at the home of the bride's parents, Rev. and Mrs. R. F. Hamilton, occurred the marriage of Miss Grace Hamilton and Mr. J. L. Upham.

This wedding came as no surprise to the friends of these young people as it was the culmination of a courtship begun two years ago when they were attending Simmons College at Abilene.

J. L. has been raised in the McLean community and is the son of one of our best families. He is also a graduate of the McLean school and has been associated with his father in the hardware business for the past two years.

Many friends are extending congratulations to this couple, in which the News joins. After a few weeks they will be at home in the Sugg cottage.

On Wednesday night several carloads of Odd Fellows came down to visit with the local lodge and receive various degrees of the work. Ever alert to the "hearts" of their brothes, the sister Rebekahs assembled at the home of Mrs. Lee Turner and prepared a most delicious lunch.

The ladies received several applications for membership from the Groom contingent and the home men were warned that it would be to their interest to attend the Rebekah meetings hereafter.

Misses Maude Wilson and Sallie Lou Haynes were visitors in Pampa this week.

T. A. Landers and family left yesterday for an overland trip to Midland and other Central Texas points.

Saturday, August 4, has been designated as "Red Cross Day." Every merchant in McLean will take part in it.

The Baptist meeting closed Sunday night on account of farmers being so busy at this time. It is announced that it will be continued in September.

Mrs. Emma LeFors and Miss Mollita are guests of Mrs. D. B. Veatch and other friends this week.

The Bundy-Hodges Mercantile Co. is entirely refinishing Mrs. Minnis Massay's home.

The girls of the Peterson Creek community have organized a knitting club and will work in connection with the Red Cross Auxiliary.

Mr. and Mrs. A. R. Guill and Mrs. A. H. Newton and Miss Rachel are visiting Mrs. Sam Hodges this week.

Mr. and Mrs. A. R. Guill and Mrs. A. H. Newton and Miss Rachel are visiting Mrs. Sam Hodges this week.

Mr. and Mrs. A. R. Guill and Mrs. A. H. Newton and Miss Rachel are visiting Mrs. Sam Hodges this week.

Husband: "Where in heaven's name does all the grocery money go?"

Wife: "Stand sideways and look into the mirror."

A father was teaching his small daughter to tell time. "These are the hours, these are the minutes and these are the seconds."

The small girl looked puzzled. "Where are the jiffies?"

ODELL MANTOOTH

similar count last year, but more bucks are present, according to the director of law enforcement of the Texas Game and Fish Commission.

The count was made by Pilot Warden Frank Hamer, Jr., and Biologist Bob Van Cleave. They flew 57 hours in making the check, and counted 1564 antelope. On a similar county last year Hamer checked 1822.

This showed a decrease of 299, with 205 antelope killed on the Panhandle hunt in 1956.

"In 1956 there were 563 bucks counted in the area," Hamer said. "There were 205 taken on the hunt, leaving 358. This year there were 419 adult buck antelope counted, giving a gain of 61 bucks since October of 1956."

The count showed 838 does and 307 fawns, all in good condition. Hamer believed many of the Texas antelope might have been driven across the line into New Mexico by recent aerial spraying for grasshoppers just prior to the count.

Prospects for a limited hunt this fall are promising at this time.

Wardens Finish Panhandle Area Antelope Count

The total count of antelope in the Panhandle area of Texas this year showed a decrease over a

Mrs. Luther Petty returned home Saturday from a two weeks vacation trip with her son-in-law and daughter, Mr. and Mrs. Calvin Pickett, and children of Amarillo. They visited with friends and relatives at Colorado Springs and Denver, Colo.; Meridian, Idaho, and Dumas. They also visited Yellowstone Park in Wyoming, Arrow Rock and Lucky Peak dams in Idaho, Royal Gorge, Salt Lake, Utah, and many other places of interest. Mrs. Petty was accompanied home by her grandchildren, Vernon Kennedy and Carolyn and Patsy Pickett.

Mr. and Mrs. Arthur Dwyer and sons have returned home from a vacation to Washington.

## WASHINGTON NEWS LETTER

### From SEN. LYNDON B. JOHNSON

Dear Friend:

Senate debate on the civil rights bill has been helpful. It has clarified the issues involved. It has placed important facts before the Senate and the country. It has caused many Americans outside the South to realize that this is no simple yes-or-no proposition.

Senator Russell of Georgia said at one point: "We are dealing with an issue that is vital to the welfare of our states and to the peace and happiness and security of our people."

This has been heralded as a right-to-vote law. Now, everybody wants people to have the right to vote. But this proposed legislation goes far beyond that. Under the terms of the bill presented to the Senate, the Attorney General could haul our people into a federal court and prosecute them without a jury trial. Federal troops could be sent into the South to enforce the statute.

I doubt very much that the Senate will accept the bill in the form passed by the House of Representatives.

Texas water projects got a big sendoff from the Senate Appropriations Committee. I am a member of that committee. I have been working hard to obtain approval for projects of great importance to Texas. It was a big day for me last week when the committee recommended appropriations for 30 of these projects.

Ten surveys of Texas streams were included in the list. These surveys, if finally approved by Congress, will enable us to learn just where flood control and water conservation projects should be constructed. That is knowledge we need to have.

Federal expenditures for flood control and development of water resources total less than \$17 billion throughout all our history. We have spent almost four times that much for foreign aid in the last 12 years. Our investments

in water development projects have not been large enough. We are going to have to do more.

Small business failures are sharply up. Outgoing Secretary of the Treasury Humphrey dismisses the rising rate of failures as "part of the post-war adjustment." Maybe there are other reasons. The small business share of defense prime contracts is now running at the rate of only 17.6 per cent. It was 19.6 per cent even in 1956. A one-year extension for the Small Business Administration has been voted by the Senate Banking and Currency Committee.

Dr. and Mrs. Joe Suderman and family were called to Borger last Thursday because of the illness of her aunt, Mrs. W. L. Alexander.

### American Bread Among World's Best

ST. LOUIS, MO.—Enriched white bread from the United States placed in the highest group of the world's breads recently analyzed for their nutritive value. This was the report which Dr. Robert S. Harris, head of the department of Food Technology of Massachusetts Institute of Technology gave to women of the press recently in St. Louis at a dinner given at the Missouri Athletic Club by the Consumer Service Department of the American Institute of Baking, Chicago. The meeting was held in connection with the annual convention of the American Home Economics Association.

Breads, like people have their national characteristics. They also have their special nutritive values. It was "The Nutritional Value of Modern Breads throughout the World" that Dr. Harris talked. He told the sixty some food writers, editors, broadcasters, and telecasters of his audience that 37 samples of bread were collected in 12 countries. They represented the popular breads of these countries. They came from Australia, Austria, Cuba, Denmark, Finland, France, Germany, Italy, Norway, Philippines, Sweden, Switzerland and the United States.

Each sample was submitted to 17 analyses in order to determine the nutrient content, as follows: water, fat protein, carbohydrate, ash, calcium, phosphorus, iron, thiamine, riboflavin, niacin, pantothenate, folic acid, vitamin B<sub>6</sub>,

vitamin B<sub>12</sub>, lysine, methionine and tryptophan.

These 37 samples were then ranked according to relative richness of each with respect to each nutrient. The rankings for the nutrients in each sample were then averaged to determine its over-all nutritive value with respect to the others.

In these analyses, the enriched bread of the United States ranked second. It was the Finnish semi-white bread (made with a low extraction flour, whole wheat, and milk solids) that was first. A semi-white bread from Switzerland ranked third.

Dr. Harris stated, "the enriched white bread with 4-4% milk solids is excellent nutritionally, and compares favorably with the world's breads."

According to type of bread, enriched white bread ranked first, rye bread second, semi-white third, rye-wheat bread fourth and unenriched bread last.

As a feature of the dinner breads of thirteen countries of the world were baked for the occasion, and each bearing its national flag, made up the center piece of the speakers table.

Robert S. Harris
