Baptist Circles Meet Tuesday

Members of the Baptist WMS met in circles Tuesday afternoon.

The Helen Carpenter circle met with Mrs. E. L. Day, with Mrs. George Colebank bringing the Bible study.

The hostess served iced tea and cake to Mesdames Frank Payne, Bill Pettit, Homer Abbott, A. J. Goodwin and Colebank.

The Helen McCullough circle met with Mrs. Howard Williams. The opening prayer was led by Mrs. R. L. McDonald. After a short business session, Mrs. Frank Howard brought the lesson on "Missions and the U. S. A."

Refreshments of iced tea and cheese cake were served to the following members: Mesdames McDonald, Howard, W. N. Pharis, Lona Jones, Boyd Reeves and Paul Miller; and the Miller children, Dana Paul, Mary and Mitzi.

The Lena Lair circle met in the country home of Mrs. Luther Petty for Bible study. Four women and four children were present.

In the absence of the chairman, Mrs. Petty presided. Mrs. Chester Bohlar read 1 Cor. 13, Mrs. Morris Brown read Psalms 91, and Mrs. Frank Simpson led in prayer.

The hostess served a refreshment plate of sandwiches, pickles, cookies, candy and fresh orange juice.

Chief monetary unit of Denmark is the krone, worth about 26 1/2 cents.

Carter Family Has Reunion

The F. B. Carter family met in Alameda over the week-end for a family reunion and picnic.

Those attending were Mr. and Mrs. Cecil Carter and Mr. and Mrs. F. B. Carter of Alameda; Mr. and Mrs. Lester Carter of Kerrville; Mr. and Mrs. Warren Carter and family of Skellytown; and Mr. and Mrs. Finis Dalton and children of McLean.

The reunion ended with a picnic at Lake McClellan. Mr. and Mrs. L. H. Earthman also attended the picnic.

SHOULD'VE STAYED ABED

Dallas.—The old saying, "things could be worse," proved true for Harold Wynn, Dallas auto parts clerk.

As he tells it, his misfortunes began when he got off work and fell into a mud puddle walking to his car, then ran into a steel

window, ripping his shirt. While driving home, a bus hit his car, and as he waited for police, a second bus clipped the car, and a third bus bumped it minutes later. Total damages were \$700—partly covered by insurance.

What finished him off, however, was being two hours late getting to a dinner at his mother-in-law's.

Generals Lee and Grant fought on the same side in the Mexican war.

TELEPHONE TALK

by George Nowberry, Manager

WONDERFUL WORLD

It's a wonderful world we're living in. Modern day science is making it easier every day to do even the simplest things in life. I read the other day about an oven that will cook a whole meal in minutes—electrically. And there are television sets which can be carried easily from room to room, and radios that fit into your pocket.

The telephone company is keeping pace with modern times, too. Take the telephone itself. We've got wall telephones, hang-up telephones and portable telephones—the kind that you can "plug in" wherever you like.

And we've got telephones with a volume control which can be regulated for low, medium or high—the kind which is especially helpful for people with impaired hearing. There are telephones in eight decorator colors, too—besides black.

But that's only the beginning. Our "Speakertone" permits the user to talk with both hands free since it's equipped with a microphone and loudspeaker.

A new and popular time-saver is the Answering and Recording set. This machine answers calls while you're away, and records your caller's message.

These are just a few of the items that are available today, and you can expect even more new ideas in the future. We are keeping your telephone service in tune with modern living.

HOT WEATHER TIP

Plenty of people now days are trying to beat the summer heat by staying outdoors. With backyard living so popular, I'd like to suggest that you allow your friends a little more time to answer the next time you call.

We suggest letting the telephone ring ten times—that's about a minute—before you hang up. That way, the person you're calling might find it easier to get to his telephone to answer.

If you spend lots of time outdoors you'll appreciate this little added courtesy when friends call you, too. Nobody likes to make a mad dash when the telephone rings, only to find there's no one on the line.

SPEED YOUR CALLS

Many of our customers have found out that their calls go through a lot faster when they call by number. In fact, we think you'll discover they go through twice as fast that way.

If you don't know the number, the operator will be glad to obtain it for you—then jot it down for use later on. Blue Books are just the thing to keep your numbers in, too, and they are available without charge at the telephone business office.

Call by number. It's twice as fast.

Senator Yarborough's Washington Report

Dear Fellow Texans: I hope you will pardon this rather tardy first report to you. However, I know that you sent me up here to work for you and represent you in the Senate where hundreds of things are happening every day directly affecting your pocketbook and how you and your family live. So I have spent my time in the Senate rather than on literary efforts.

One of the best examples of how things are happening up here to the administration is cramming "Bensonization" down the throats of the farmers. It is well known up here that Ezra Taft Benson would be delighted to do away with parity altogether. As I pointed out in the Senate, Texas farmers have undergone seven years of drought and the worst floods since the Euphrates settled in our area, but it is questionable whether they can withstand another year of Benson.

Another matter I have been greatly concerned about up here is the refusal of the administration to put into effect the lower FHA down payment provision voted by the Congress. Many home builders in Texas are going to the wall because of these excessive cash requirements. But even worse, many of our good Texas families are cramped up in inadequate housing. We in Congress voted the lower down payment, but this administration is stalling, while home builders, appliance suppliers, carpenters, painters, and the people who want to buy a home suffer.

I have also been working hard to get a postal pay increase and pay raises for all other present and retired federal employees. I was very gratified last week to receive a letter from the group of postal employees at the Dallas terminal annex. They said: "The postal employees and their families want you to know we are grateful for the interest you have shown and the work you have accomplished in their behalf, and we do once again solicit your aid by asking your support in the practice."

MIRACLE OF SIGHT

Austin.—A man came into J. A. Bishop's dry cleaning shop, asked for his suit, then asked Bishop to confirm the color.

"I don't see well," the customer explained. "Will you take your money from this bill." Bishop did and handed him the change.

Turning, the man fumbled for the doorknob, stepped outside and walked to a car. Feeling for the door handle, he gropingly hung up the suit.

Then he got behind the wheel and drove away.

FRIEND TO NEEDY

Midland.—A 55-year-old man who has been in and out of the city jail 35 times in the past three years didn't forget the boys he left behind.

Discharged after completing another sentence for drunkenness, he was picked up two days later when officers found him drunk and attempting to steal a case of canned beef stew from a local grocer.

"I figured I'd be going back to jail," he grinned at officers, "so I thought I'd take the other boys something good to eat."

INTENTIONAL COINCIDENCE

Monahan.—This one just leaked out about Rev. L. Peters, local Methodist preacher.

Hearing a strange noise one night, Rev. Peters investigated and found a burglar ransacking the kitchen. He took his shotgun and called in to the intruder: "Behold, friend, I would not harm you or any other of God's creatures—but you are standing where I am about to shoot."

CHARGE STUCK ANYWAY

Houston.—Traffic Judge Wallace P. Kelly asked George Willis whether he had a driver's license, after Willis was charged with driving without one.

"Yes, sir," Willis said, "right here."

Taking the worn paper, Judge Kelly read, "This is to certify that the person herein named has passed all tests for nervousness and has been licensed to operate, annoy, criticize and otherwise disturb the operator of the car. Back seat drivers must carry this license on person or otherwise must keep quiet while vehicle is in motion."

Willis, who can't read, said he got his license in a barber shop. Judge Kelly fined him \$65.

POOL WAS ALL WET

Carthage.—Having your car in the garage can cause a lot of car trouble, Lewis Pool found out.

Pool, president of the Carthage Savings and Loan Association, got permission from a friend to borrow his car while Pool's was being repaired.

The friend gave Pool the keys and described his automobile. Two hours later Pool was stopped by an officer for driving a stolen car.

The auto Pool had been driving belonged to Mrs. Richard Sharpe. That car and Pool's friend's car were the same make, model and color, and the same key fit the switch of both cars. The cars had been parked in the same area and Pool took the wrong one.

SPEAKING & CARDS

NO. 1 PARTICIPANT SPORT

Despite television, word games and do-it-yourself projects, card playing is the nation's number one participant sport by a wide margin, a recent survey shows, and Canasta is the nation's number one card game. The survey also shows there's more card playing in homes with television sets than in those without TV.

The results were revealed by the Association of American Playing Card Manufacturers after tabulation of a national survey of the card-playing habits of the American public. Among the results were: Three out of four persons in the United States play cards. Of the 170,000,000 plus people in the United States, 120,000,000 play cards. Eighty-seven per cent of the nation's homes have at least one and usually two decks of cards. Most card players (80.5%) play

most often at home or at a friend's home. People with television sets in their homes play cards more than non-television owners, by several percentage points.

The second most popular card game, after Canasta, is Contract Bridge, and the margin is closing between these two "favorites." A similar survey in 1952 showed Canasta the favorite of 37% of all card players and Bridge 23.9%; in 1957 Canasta had dropped to 34.3% while Bridge soared to nearly 30%. After these two games, the most popular are Pinochle, Poker, Solitaire, Rummy, 500, Auction Bridge, Hearts and Gin Rummy.

The game that has made the greatest strides since 1952 when the survey showed it to be in ninth place is versatile Solitaire which has now moved into fifth place. Experts in the Association believe the growing popularity of Solitaire reflects the increase in the number of elderly and retired people.

The survey also disclosed that men and women have different card game tastes. Women liked Canasta, Bridge, Solitaire and Rummy in that order. Most popular games among the men, in order, were Poker, Pinochle, Canasta, and Contract Bridge.

Special Session
House members are rather short on enthusiasm for a special session of the Legislature, says Speaker Waggoner Carr.
In a poll of the House, Carr received 101 answers from 149 members. Seventy said they didn't feel a special session necessary; 17 said they thought it was necessary; and 12 said they were willing to leave it up to the governor.

GRAY COUNTY SOIL CONSERVATION NEWS

By Jim Smathers

Land leveling has gotten under way on some irrigated farms the past week. H. C. Graham, two miles east of Pampa, is in the process of field leveling 42.5 acres. Roy Tinsley, three miles east of Pampa, is bench leveling 25 acres, and Wade Duncan, five miles east of Pampa, is field leveling 10 acres.

The purpose of land leveling is to hold erosion damage to the minimum, make maximum use of rainfall, obtain efficient use of irrigation water, and facilitate water and soil management.

The Gray County SCD has received a new 40-foot land plane in addition to the 30-foot land plane already in use.

In reply, Governor Daniel repeated a previous statement that \$603,312 is on hand for legislative expenses, or more than twice what a short session would cost.

Outlook probably is this: A special session will be held. There'll be no open rebellion, though possibly a little legislative foot-dragging.

New Land Troubles
Who, if anyone, should pay the back taxes on land bought under the veterans land program, then forfeited by the purchaser? State and local officials, are in disagreement.

Local taxing units, such as the Bexar-Atascosa-Medina Water district, say somebody has to pay the piper. It demands payment of the back taxes unpaid by the first purchaser and of the taxes that accumulated during the period when the land was forfeited to the state.

Viewpoint of the state, however, is that taxes ceased when the land returned to the board and that the resale was free of tax debt.

School "Wastes" Cited
Need for a little overhauling here and there in the Gilmer-Aikin School aid program is suggested in a new Texas Research League report.

Under the "minimum foundation" program the state contributes the money necessary to bring the smaller, poorer districts up to standard.

Research League pointed out that (1) under the scholastic

apportionment formula so much per pupil) some districts actually receive more money than their minimum foundation needs.

Harrison Named
William A. Harrison, 47, apparently is to be the key man in a program designed to provide Texas with model insurance regulation.

One of his first tasks will be to expand the department's staff of insurance company examiners. Recent legislation provided for 26 new men, bringing the staff to 63.

Business Plateau
Texas business activity for the first half of 1936 is up 4% over 1935. This despite an 11% drop from May to June, says the UT Bureau of Business Research.

Texas who think the federal government is going to take care of all their highway problems are due for disillusionment. So says State Highway Commission Chairman Marshall Formby.

With present funds of \$80,000-000 to \$90,000,000 a year, it'll take 22 years, he said. "And by that time we'll need more four-lane roads."

Various departments of the state are playing it safe today. They don't want to run afoul of what has been termed "the new moral atmosphere in Texas."

In an opinion given State Auditor C. H. Caveness it was ruled that it would be legal for a state college cafeteria to buy its milk from a dairy owned by a legislator.

Inasmuch as the Texas Constitution prohibits a lawmaker from receiving an office created during his legislative term, the Board of Pardons and Paroles asked if it would be legal for Rep. J. T. Ellis, Jr., of Weslaco to be director of the new adult parole supervision system set up by the Legislature.

000,000 in the general revenue fund, according to figures from State Comptroller Robert S. Calvert. Fund had \$44,765,760 on Aug. 1. Continued increases at the same rate as during July would add \$3,500,000 more this month.

Twentieth Century Fox made maximum use of the 26 ships, 7,500 Navy and 8,500 Marine Corps personnel for long range photographic shots of ships, amphibious scenes, and mass personnel moves for background in the forthcoming film version of "South Pacific."

NUMBER THREE ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 3, 1937.

RESOLVE JOINT RESOLUTION NO. 3 proposing an amendment to the Constitution of Texas adding a section to be known as Section 49c, as follows: create the Texas Water Development Fund to provide financial assistance to certain political subdivisions or bodies politic and corporate of the State of Texas...

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS: Section 1. That Article III of the Constitution of Texas be amended by adding a new section thereto to be known as Section 49c, as follows: "Section 49c. There is hereby created as an agency of the State of Texas the Texas Water Development Board to exercise such powers as necessary under this provision together with such other powers and restrictions as may be prescribed by law.

"The Legislature may provide for the investment of monies available in the Texas Water Development Fund, and the interest and sinking funds established for the payment of bonds issued by the Texas Water Development Board, income from such investment shall be used for the purposes prescribed by the Legislature. The Legislature may also make appropriations from the General Revenue Fund for paying administrative expenses of the Board."

"From the monies received by the Texas Water Development Board for repayment of principal for financial assistance or as interest thereon, there shall be deposited in the sinking fund for the bonds authorized by this Section sufficient monies to pay the interest and principal to become due during the ensuing year and sufficient to establish and maintain a reserve in said sinking fund of the average annual principal and interest requirements on all outstanding bonds issued under this Section. If any year prior to December 31, 1937 monies are received in excess of the foregoing requirements then such excess shall be deposited to the Texas Water Development Fund, and may be used for administrative expenses of the Board and for the same purposes and upon the same terms and conditions prescribed by the Legislature..."
