

PLAIN TALK

By BILL PERKINS

We can better understand how the people of Lampasas must have felt earlier this year after the damaging waters and hail that hit McLean last Wednesday.

Although a great financial loss was suffered by area farmers and businessmen, no homes were destroyed or lives lost here.

"We just got a little of what Lampasas got a lot of," is the way Mrs. Amos Page put it Thursday afternoon while helping clean up the damage at the drive-in.

Bryan McPherson's farm was hit as hard as anybody's. But Bryan isn't one to stay sad long. Someone was complaining about one of Bryan's watermelons not being any good. Seems the fellow stole the melon after the hail. Anyway, Bryan says he won't have to go to the expense of gathering his crop this year. There isn't anything left.

We hate to see Bryan stand this loss because he is our best subscriber. He pays \$4 a year for The McLean News while everybody else in the county just pays two. When his subscription comes due each year, he always comes to watch to see if he pays double or nothing. Our wife accepted the challenge. She always wins.

Coach Riley's McLean Tigers will see their first action of the season tomorrow night at 8:00 o'clock at Duncan Field. Let's go out and watch them beat the Irish.

Thomas Advises Legumes Be Planted In Hailed-Out Areas

County Agent Ralph Thomas has advised farmers to plant winter legumes, such as hairy vetch and Austrian peas on the hailed-out cotton land.

These legumes with rye will not only provide cover to prevent erosion during the winter but will also furnish pasture for livestock in the spring.

The growth can be turned under green in late spring to improve the soil.

The mixture should consist of 10 pounds of hairy vetch or 20 pounds of winter peas with 20 pounds of rye per acre. It is important that the legumes be inoculated before planting.

An application of 45% super phosphate at the rate of 50 pounds per acre on dry land and 100 pounds per acre under irrigation will give the legumes satisfactory growth.

Seeding should be done as soon as possible in order to get the crop up on the present available moisture and to get a good growth before frost.

FOLK FACTS

BY BILLIE PERKINS

McLean residents needed boats Wednesday afternoon to get around in town. Some of our streets looked like lakes, tree limbs were broken off and TV antennae blown down. Lightning struck in several places around town but little damage was reported. Farmers lost many dollars when the hail wiped their fields clean. . . . Donna Magee visited Leona Gossett in Amarillo last week-end. . . . Lt. and Mrs. Benny Cooper of Midwest City, Okla., spent from Friday until Monday in the home of his grandparents, Mr. and Mrs. George Colebank. . . . Mrs. Corinne Trimble and Mrs. Vigna Franks were in Oklahoma City Sunday and Monday. . . . Mr. and Mrs. Joe Romer left last week for their home in New York after visiting her parents, Mr. and Mrs. Kid McCoy, several days. She reported a wonderful time. Highlights of the trip were touring Austin and San Antonio. Saturday night the group ate dinner in San Antonio on a little boat going up and down the river. At the leadership school they learned how to get along with other people and many other helpful things. A "Share the Fun" contest was held with all the counties taking part and Gray County won. Those attending from McLean were Nancy Tate, Sue Evans and Bob Weaver. . . . Mr. and Mrs. Dick Dickinson and daughter, Nancy, spent the Labor Day weekend in Trinidad, Colo. . . . They ended with BEAT SHAMROCK. . . . The Top of Texas Hereford Breeders Association had a barbecue in Miami last Thursday night. Those attending from McLean were Mr. and Mrs. Clyde Magee and Joe, Mr. and Mrs. Guy Hester, Jimmy and Gary, and Mr. and Mrs. Shelton Nash.

Coach Jack Riley's McLean Tigers will meet the Shamrock Irish Friday night at 8:00 o'clock at Duncan Field to get the 1957 football season underway.

Paul McCurley is a new co-captain along with David Woods. Jim Vineyard, who was elected co-captain, will not be able to play. Coach Riley reports, due to a leg injury. McCurley is a 145-pound junior and holds down the right guard position on the line.

Coach Riley has released the following probable starting lineup: Jim Rice, QB; Bill Crockett, FB; Jerry Biggers, RH; David Woods, LH; David Crockett, FB.

Melvin Butrum or Eddie Brown will start at center. If Butrum starts at tackle Brown will start at right tackle. If Brown starts at center, then Ray Hupp will fill the tackle position.

Paul McCurley is slated for the right guard slot and Gary Gray is the probable starter in the left guard spot.

Kent Wiggins will hold down left end while Benny Woods is scheduled for the right end position. Preston Morgan may open in the right tackle position.

Coach Riley said that lack of experience might be a handicap but that the boys are working hard and that folks would get their money's worth if they come out Friday night.

SCHOOL FACULTY IS HONORED BY LIONS TUESDAY NIGHT

The McLean Lions Club was host to the school faculty at the ladies night affair held Tuesday in the Fellowship Hall of the Methodist church.

A delicious meal prepared and served by the WSCS of the church was enjoyed by some 87 Lions, their wives and guests.

Lion Boss Amos Page turned the meeting over to Lion Hickman Brown who introduced the Maxine Milliron trio from Pampa, who brought the evening's entertainment. The trio is composed of three young ladies who are juniors at Pampa High School. They were accompanied by Mrs. Milliron at the piano. The girls have been singing as a group for several years and are popular entertainers in the Panhandle.

Lion Page then called on Supt. Freeman Melton, Jr., who introduced the 1957 faculty members and their wives who were present.

Each Lion then introduced his wife, all except Gerald Hill, who is still unattached.

Lions Sammy Haynes and Cliff Day seemed to be the best spur-of-the-moment poets in the crowd and drew much applause for their poetic introductions of their Lionesses.

After the meeting was concluded a short visiting period was held while new faculty members and Lions became better acquainted.

Editorial

AGE WILL BE SERVED

While we have been boasting about the longer life expectancy and the number of oldsters coveting on pensions and social security, we weren't being very prudent. Older workers are retiring at such a rate, they are beginning to dip into their principal, the social security fund that is supposed to contribute to their support the rest of their natural lives.

At the beginning of this fiscal year, it looked as if the old folks will be taking \$7.4 billions from social security. But the rest of us still working and contributing our mite each week will only put in \$6.9 billion this fiscal year. They'll be dipping in for a half billion more than we're kicking in.

The actuaries miscalculated. Or maybe people are retiring too soon, as soon as they reach the legal retirement age. Fact is, except for the fellows in hard or hazardous work that ages them too soon, most of us are better off working beyond the calendar terminus.

WATER IS TREASURE

So profligate have we been with our abundant water supply that water has become our most precious natural resource. More precious than gold or oil or gas or timber or even uranium.

For like air, water is essential to life. You can go without food longer than you can go without water. You can feed on yourself but only a camel carries his own reservoir of water.

The experts who are paid to know such things tell us that industry will soon be as careful to locate plants where the water supply is ample as once it sought sites along railroad rights-of-way or near markets. It is going back to the days when towns located along rivers for navigation, only now it's not navigation, but for water to drink and wash and cure.

THEY DIDN'T SAY HIDE IT

The first session of Congress in 1789 had a lot of organizing to do. The new government had to set up housekeeping. So a law was passed giving the head of each department the right to make rules to take care of the records of his department.

The law used the language, "custody, use and preservation." It did not say "retention and seclusion." Nor did it authorize anyone to hide the record from the people, the final sovereign.

This 168-year-old law is the main reliance of the bureaucrats for withholding information from Congress as well as the public. The first Congress made the law. The 85th can unmake it. There are specific laws to protect national security from disclosure. All other matters will better serve the public interest for being exposed to the pitiless light of publicity.

YEAR OF THE ROUGH RIDER

Theodore Roosevelt, the 26th President of the United States, was born Oct. 27, 1858. Congress has created a Centennial Commission to conduct a year-long observance, beginning this Oct. 27 and ending on the centennial of his birth.

To most people living today, Roosevelt means Franklin Delano, the 32nd President, a distant cousin. But T. R. is one of the four giants of America whose head is chiseled in stone with Washington, Lincoln and Jefferson in the colossal profiles of Mount Rushmore, S. D. that are among the modern wonders of the world.

T. R. stood for virile, responsible citizenship. His centennial is well timed to restore an understanding of fundamental values of America.

Dear Friend:

This is the last of my newsletters for this year. They will be resumed with the next session of Congress in January. Meanwhile, I am returning to Texas for rest, relaxation and some visits with old friends.

But since this is the last of my newsletters for the time being, I think it is time to take a look at the first session. It did not accomplish everything. No session can do that. But it delivered what it promised.

Economy? The people called for economy and they got exactly that. The budget was cut by \$5,600,000—8.7%. A Democratic Congress saved that much money out of the proposals of a Republican President.

Conservation? Important water projects were advanced. New ones were launched. Surveys were started on the Texas rivers. Most of all, the Bureau of Reclamation and the army engineers agreed to work together and produce an overall water plan for Texas.

Military? Military construction is important to Texas. Our state is a key part of the defense system. Congress appropriated \$72,3775,000 for further construction

and expansion or facilities in Texas.

Mutual Security? The Congress shifted from the "giveaway" concept of foreign aid to a sound respectable program of loans. It has been our experience that gifts create ill will and bad feeling. But nations to whom we have lent money have a good record for repayment and feel better about the whole transaction.

The closing days of the session were featured by the debate over the civil rights bill. It was necessary to accept an amendment approved by the House. But this amendment did not touch the Senate jury trial provision to any practical extent.

It represented primarily a method of coming to an agreement. But the conditions of the compromise are such that no prudent judge will hold a criminal contempt trial without a jury.

I want to thank all the people of Texas. You have been very understanding. It is a great pleasure to work for such wonderful people.

For the time being, so long. I hope to see you while I am in Texas this fall. Meanwhile, goodbye, good luck and God bless you.

Old Settlers Day

Old Settlers Day at the Panhandle State Fair will be Wednesday, Oct. 10. Anyone who has resided in the Panhandle as long as 25 years is entitled to membership. The dues are 50c per year. Badges are furnished the members. A splendid program will be had on that day and a big dinner served. If you are not already a member send in your name and 50c so you can wear a badge that day.

Public School is Opened

On Monday morning the McLean public school opened its doors for the 1917-18 term of school under the most flattering conditions. With straps and satchels of books on their arms, children could be seen coming from every direction until the building and grounds fairly swarmed with en-

thusiastic life. On account of the school being cut short last year, the children in the district had been on vacation for five months, which made them anxious to begin another year's work. Many patrons were present to witness the opening exercises conducted by Superintendent Wilson.

The teachers for the year are: F. P. Wilson, supt.; Miss Kate Billingsley, first asst.; E. Gatewood, second asst.; Misses Cattie Dickey, Dora Dean, Katie Robinson, Belle Allwine, and Mrs. Grace Upham.

The school building has been equipped with a new heating plant with the view of making it more comfortable in severe weather. Other improvements in and around the building were made.

Ernest Jordan has charge of the Peterson Creek school which also was opened Monday morning.

Gracey School to Begin

"July or February..."

I have garden-fresh fruits and vegetables in my ELECTRIC home freezer, all the time!" says MRS. ROY QUALLS OF GUYMON, OKLA.

Last year Mrs. Qualls froze over 300 pints of garden-fresh vegetables which, she says, "... really means a great savings in my family food budget all year." In addition to buying meats in season, and in quantity, for additional freezer savings, Mrs. Qualls passes on this tip, "I do a considerable amount of baking, especially biscuits, usually 10 to 12 dozen at a time. I chill them, break them apart, wrap in wax paper and freeze them in my freezer. Then, when unexpected guests arrive, I have hot biscuits in a matter of minutes."

Tax-Man Sam Sez:

Not many of us want to give away money to anybody. The federal gift tax regulations allow a husband and wife in a community property state to give \$3,000 each tax free during any one year. If you happen to have more money than you can use and you have a son who has a wife and five children, Mama and Papa together can give the son and family as much as \$42,000 per year without owing any gift tax. Maybe the would-be givers should see a good tax practitioner on this!

TRI-STATE FAIR TO FEATURE VARIETY OF ATTRACTIONS

Amarillo, Sept. 4—Prize products of the Golden Spread will be displayed at the Tri-State Fair September 16-21, amid the greatest array of flash and glitter, thrills and amusements ever assembled in the tri-state region.

The Tri-State Fair—official "show window" of an area as large as the state of Ohio—has grown annually since its inception in 1923 to its present prominence as the nation's largest regional fair and second in Texas only to the Dallas State Fair, the world's biggest.

Twenty-six high school bands from over the Golden Spread will join with Amarillo's musical aggregations to perform at the opening day parade in downtown Amarillo on Monday, Sept. 16, heralding the opening of six days and nights of sparkling displays and indisputable evidence of the region's energy, enterprise and reward. The parade begins at 11 a. m.

Holiday on Ice of 1957, recently returned from a triumphant tour of the European continent, will present performances each night in Fair Park Coliseum, plus a matinee on Saturday afternoon, closing day of the 1957 exposition. The scores of stars entertain on a giant ice rink, 60x120 feet, with superlative lighting, costumes and music.

Free acts, to be given twice daily on the fairgrounds, include Al Antonucci's motion picture chimpanzees, veterans of Tarzan movies, Ringling Brothers circus and such TV shows as "People Are Funny" and "Super Circus," in addition to Elizabeth & Collins, a combination of daring acrobatics, Australian whip stunts and trick shooting. This act was featured on Ed Sullivan's "Toast of the Town" TV show on August 13th.

One of the most outstanding spectacles at this year's fair will be the appearance of the world-famed Thunderbirds show, featuring six U. S. Air Force F-100's in the most daring acrobatic flying maneuvers ever witnessed. The Thunderbird show will be staged high over the fairgrounds on the last two days of the fair. The Thunderbirds are coming to the Tri-State Fair from their home station at Nellis Air Force Base, Las Vegas, Nev.

Two gigantic midways will feature Bill Hames Greater Shows—biggest railroad show in the Southland, with latest achievements in thrill rides, combined with the age-old standbys of ferris wheels and merry-go-rounds, sensational assemblies of side shows, colored confetti, doll racks, parched peanuts—the sounds and smells which annually attract 90,000,000 Americans to county, regional and state fairs.

For many persons—4-H and FFA Club members, county farm and home demonstration agents, rabbit and poultry breeders and women interested in culinary and textile contests—the fair actually will be in progress on Saturday and Sunday, Sept. 14 and 15, for judging in these and related events will be held on those days.

Beginning early Monday morning, Sept. 16, judges will begin placing blue ribbons on dairy cattle, with judging of Herefords and swine beginning Tuesday morning. Judging of dairy, beef cattle, and swine will continue through Thursday. Judging in the quarter horse show begins early Friday morning, with final judging of swine set for Saturday.

A mammoth 4-H and FFA Club talent show has been organized for 10 o'clock Saturday morning, Sept. 21, in the Sports Arena on the fair grounds. Sponsored by 4-H and FFA Club leaders in

every county in the region, this event marks a new chapter in the fair's service to the region's rural young men and women.

This year's fair, according to officers and directors from over the Tri-State Empire, will live up to its "bigger and better" description. All space for commercial, agricultural and livestock exhibits had been assigned by Sept. 1. The flags, banners and welcome signs are being placed in Amarillo, where citizens are joining with those throughout the Golden Spread in anticipation of the region's biggest annual event.

The Lord hath heard my supplication; the Lord will receive my prayer.—(Psalms 6, 9.)

God hears the faintest, unspoken prayer that wells up from our hearts, the silent supplication that forms on our lips—and even as we pray in faith and trust, He is answering; for He is always listening, ever loving and merciful.

PONTIAC MOTOR DIVISION is observing its 50th anniversary of automobile production since the company was first organized on August 28, 1907, at Pontiac, Mich., as the Oakland Motor Car Company. During the half century seven million cars have been built and nearly six and one-half million of that number were Pontiacs, which were introduced in 1926. In 1931 the firm's name was changed to Pontiac Motor Division when the Oakland car was discontinued.

From the State Capitol HIGHLIGHTS AND SIDELIGHTS

By Vern Sanford
 Texas Press Association

Back to School
 Students are trooping back to school for another year of reading, writing and arithmetic.

But the knottiest school problems are not in the math books. For parents the problem is the high-cost-of-practically everything. Tuition at state colleges has doubled. Even the parents of first graders are wincing as they add up the "outfitting" bills. Cost of blue jeans, plus crayons, plus lunch money, takes an ever-growing bite out of most family budgets. Many mothers will go back to work this fall to help balance the income-outgo equation.

On a bigger scale Texas school agencies and administrators have the problem of the "old woman who lived in the shoe." They have so many children they don't know what to do. Their problem of trying to balance school facilities against school needs is complicated by the fact that one side of the equation—needs—keeps on growing. Some 1,885,640 children are expected to enroll this month. That is 70,000 more than last fall. To keep the education mills grinding, Texans must spend an estimated \$526,000,000 this year. It's twice as much as was spent eight years ago. Local districts are pouring some \$40,000,000 into new buildings this year.

Water Showdown
 It's now or never for Texans to solve their water problems in an orderly manner.

This, in effect, is the attitude of Gov. Price Daniel as he sets the wheels in motion for a "big push" this fall. First attack will be by a 100-person statewide water planning committee appointed by the governor. It is to meet in Austin beginning Sept. 9 to develop planning and leadership for a master plan for water conservation and flood control over the state. Committee members include civic leaders and persons interested in and acquainted with water problems from all parts of the state. They'll also be asked to help plan future water legislation and develop support for the proposed constitutional amendment that would provide a \$100,000,000 bond issue for water projects.

Second phase of the governor's plan is the special legislative session to pass needed additional laws. Target date for the session still is October, the governor has indicated. Two pieces of water legislation are proposed by Governor Daniel. (1) Creation of a state water planning division to draw up a master plan, and (2) a law enabling the state to purchase water storage space in federal reservoirs (a measure which failed last session). The planning division probably would cost from \$500,000 to \$1,000,000 says Daniel. This can be obtained, he says, from special funds appropriated, but not used, for other purposes.

 Texas ranked seventh in the nation last year on per capita income, reports the Bureau of the Census. Texas per capita income, \$1,686. National average, \$1,940.

Dr. N. Jay Rogers of Beaumont and Dr. Ira E. Woods of Grapevine have been re-appointed by the governor for six-year terms on the State Board of Optometry.

Another motor vehicle inspection period has arrived. You have until next April 15 to get your new sticker. But early inspections are urged by the Department of Public Safety.

Texas draft calls continue to shrink. October quota is 338. It compares with 387 for September and 547 for August. Inductees will be taken from age 22 and over, except for delinquents and volunteers.

Texas has 308 new nurses. They passed the recent statewide examination for vocational nursing licenses. Two schools have been newly accredited to teach vocational nursing—Marcom Hospital of Vocational Nursing at Ladonia and Permian General Hospital School of Vocational Nursing at Andrews.

Jobs as examiners with the State Board of Insurance now are open. They are additional posts created by the last legislature. Requirements include a college degree with both courses and experience in insurance, accounting.

Mr. and Mrs. Bill Foster and children of Arlington, Va., left Saturday after visiting several weeks with her parents, Mr. and Mrs. Evan Sitter.

Mrs. Colleen Stewart and children of Houston left Tuesday for their home after spending two weeks in McLean with Mr. and Mrs. Leon Crockett and Mr. and Mrs. F. E. Stewart.

Most Are Sound
 Most Texas insurance companies are strong. So said Judge Penn Jackson in his first public speech since becoming chairman of the Board of Insurance Commissioners.

But, he added, "a smaller number are losing ground and may or not be able to survive."

'Something of Value' Stars Rock Hudson And Dana Wynter

The explosive drama of the Mau Mau uprisings in Kenya, East Africa, and its effect on a family whose roots have been driven deep into the land of Africa for generations, forms the basis of MGM's big picture, "Something of Value."

Taken from the best seller novel by Robert C. Ruark, the picture stars Rock Hudson, last seen in "Giant," with Dana Wynter. Sidney Poitier, of "Blackboard Jungle" fame, is cast in a pivotal role as a Kenya native who has been brought up as Hudson's friend, and other important roles are played by the British actress, Wendy Hiller, Juano Hernandez, who scored as the judge in "Trial," and William Marshall.

"Something of Value" will be at the Derby Drive-In Theatre Sunday, Monday and Tuesday.
