By BILL PERKINS

This is National Newspaper Week, we read, and we will celebrate it just like we do the other 51 . . . putting out a newspaper.

This is a busy time of year when just about everybody and everything has a week. Last week was National Dog Week. Next week the pharmacists will have their week and also it will be Fire Prevention Week. There are probably lots of other folks celebrating one thing or another but we can't think of any more.

Community Concert Membership Drive To Begin Next Week

Mrs. Miro Pakan and Miss Dorothy Pakan of this city have been named to head the drive here for memberships in Shamrock's Community Concert Association scheduled during the week of October 8 through 13.

In announcing the appointments, Mrs. M. W. Yarborough, association membership chairman for the 1956-57 season, praised the efforts Mrs. Pakan and Dorothy have made on behalf of the association in past years and stated that their work, along with that of the many other loyal supporters of the association, had assured the people of this area an opportunity to hear some of the world's best music.

At a called meeting of the officers and members of the board of directors at the Country Club in Shamrock last Thursday night for the purpose of planning the 1956-57 membership campaign, Dr. D. E. Blackletter, association president, expressed his appreciation to all of those people who have agreed to work during the drive and said that he felt certain that membership in the association would reach an all-time high this season.

Discussing the advantages that reciprocity with the associations in nearby cities offers members, President Blackletter called attention to the fine program scheduled in Pampa for the 1956-57 season: Nadine Connor, Oct. 15; The Telshiks, Nov. 1; The Songmasters, Feb. 7; The Longines symphonette, March 12; Ballet and Ballads, March 29.

Tentatively scheduled by the Shamrock association for the 1956-57 season is the Tanglewood Opera Quartet featuring four brilliant young American artists who are destined to become the stars of tomorrow. They are Sarah Fleming, soprano; Janice Moudry, mezzo-soprano; Marvin Worden, tenor; and Marshall Heinbaugh, baritone.

Mrs. Pakan and Dorothy plan to attend the association's membership kick-off dinner in Shamrock Monday night, October 8, scheduled for 7:30 o'clock at the First Christian Church.

Tigers and White Deer To Meet Friday Night

Coach Hap Rogers' McLean Tigers will meet the White Deer Bucks at White Deer tomorrow night at 7:30.

Last week the Bucks came out on the long end of a 20-14 game when they defeated the Canadian Wildcats. Their record for the season is two losses, both to 2-A teams, one tie (Class B Groom) and the win against Canadian.

The Bucks team is considered light but fast, but they do have a 190-pound tackle and another at end.

Ernest Reusch, 6-foot, 5-inch,

190-pounder, was one of the best ends in the district last year; and Ronald Wrinkle, a 190-pound, 5-foot, 9-inch junior, will plug one of the tackle spots, with J. Parsons, 178 pounds and six feet tall, providing senior grid experience at the other.

Game time tomorrow night will be at 7:30, as will all remaining games of the season.

Coach Hap Rogers' Tigers will be without the services of Dale Greenhouse, who has quit because of health. Charles Crockett also has quit the Tiger team and will not be playing Friday night.

Tigers Fall to Stinnett 53-14

IN HARD-FOUGHT GAME

The Stinnett Rattlers, top class A team in the state, handed the McLean Tigers their third defeat at Stinnett Friday night, 53-14.

Led by Larry Dawson, Rattler quarterback, and a fast backfield and a speedy line, Stinnett had little trouble in winning its fourth straight game of the season.

Dawson took to the air only three times and was successful on all three attempts for 135 yards and two touchdowns. In all, the Rattlers chalked up 488 yards while the Tigers gained 202 on the ground and 28 through the air.

Coach Don Seymour's squad scored the second time it had the ball. After electing to receive, but fumbling on the third play, the Rattlers held the Tigers and Coach Hap Rogers' team quick-kicked to the 5-yard line. From here the Rattlers started goal-ward and in five plays the 95 yards had been covered, with Hicks making a 53-yard run from left end.

The Rattlers struck paydirt again the next time they got possession of the ball. Roberts capped a 50-yard march with a two-yard smash into the center of the line. Dawson's first two extra point tries were no good but the third hit pay dirt.

The first time the Rattlers gained the ball in the second quarter, another touchdown was achieved. Taking the ball on their own 35, as a result of a quick-kick by the Tigers, the Rattlers made the necessary yardage. Keadle set up the touchdown with a 23-yard quick opener up the middle. Dawson's kick was good and the score was 26-0.

After swapping fumbles with the Rattlers, the Tigers rose to the occasion and Paul Garvin broke the scoring ice for McLean with a three-yard dash over the middle. Jackie Bailey booted the extra point and brought the score to 26-7.

Dawson passed to Hicks for the next score and the good extra point made the score 33-7.

McLean fans began to get excited as the Tigers took over on the 33, following the kickoff, and on the first play from scrimmage Charles Crockett made an exciting 67-yard broken field run for the touchdown. Bailey again converted, making the score 33-14.

However, the Rattlers struck again in the first half and as the halftime whistle blew the score stood 40-14. Dawson scored again for the Rattlers early in the second half and the conversion brought the score 47-14.

The last score of the night quarter Leslie Barrett went over from the 3 to cap a 30-yard march. The try for extra point was no good and the final score read 53-14.

Rural Mail Delivery Service

OBSERVES 60TH BIRTHDAY

The Post Office Department's rural delivery service today serves more Americans than ever before in history.

This observation was made by Postmaster General Arthur E. Summerfield in calling the nation's attention to the 60th birthday of the service.

Experimental rural delivery service began October 1, 1896, with three routes at Charles Town, W. Va. and two routes at Hallsboro and Uvilla, near Charles Town.

These sites for the initial experiment routes were picked by Postmaster General William L. Wilson, a native of West Virginia. Old records show that in its first week the three Charles Town routes provided for surprised farmers delivery of 214 letters, 290 papers, 33 postal cards and two packages. Previously, they would not have received this mail until they went into town to pick it up, often a matter of weeks or even months.

That was a far cry from today's mail load handled by rural delivery carriers. For example, in a recent 12-month period, nearly 8 billion pieces of mail were handled for rural patrons.

Today, there are 31,888 routes serving 34,930,000 mail patrons over more than 1 1/2 million miles of routes that extend into virtually all the counties of the United States, as well as into territories and possessions of the United States. And, during the fiscal year ended last June 30 alone there were 594,900 patrons added to rural delivery routes, while a total of 11,798 extensions of rural routes were made to provide more and better service.

There are 1,642 rural routes in Texas covering approximately 90,000 miles and serving some 430,000 families, and service is being extended every day, according to Regional Director George A. Gray of Dallas.

Postmaster Johnnie R. Back said three routes serve 198 families through the McLean Post Office.

Rural delivery was first officially suggested by Postmaster General John Wanamaker in 1891.

The first bill authorizing rural delivery service was introduced in the House of Representatives on January 5, 1892, by James O'Donnell of Michigan, but it failed to pass.

A bill by Congressman Thomas E. Watson of Georgia became law March 3, 1893, appropriating \$10,000 for experimental rural de-

livery. This, together with \$20,000 appropriated for the same purpose on July 16, 1894, was not immediately used, the Postmaster General deeming the amount insufficient.

On June 9, 1896, another \$10,000, together with the prior \$30,000, was made available, and the first experimental rural delivery service was established the following October 1.

Many events in postal history have been marked by big ceremonies, such as when the Pony Express began between Saint Joseph, Mo., and Sacramento, Calif., on April 3, 1860. But the West Virginia experiment was launched with little fanfare, and under a cloud of criticism. Critics said it would be impractical and expensive.

"They were certainly proved wrong," Summerfield noted.

"The effect the Post Office Department's rural delivery has produced upon the American scene in 60 years can scarcely be exaggerated," he said. "It stimulated development of the parcel post, and it aided greatly in the establishment of the American system of roads and highways."

"Moreover, its effect on commerce, as a vital link between industry and the American farm family has been tremendous, and it has a great cultural and social effect on American life, providing new vistas of communication for the rural family."

"Rural delivery service is still expanding today because increasing numbers of Americans are moving out of the more congested areas into suburban surroundings," Summerfield went on.

"Thus, improvement of the rural delivery service also means better mail service for increasing numbers of suburban families," he said.

One of the five original "RFD" carriers Melvin T. Strider of Charles Town, W. Va., is still living, incidentally, and is a prominent citizen active in banking and business in his city, Summerfield noted.

Mr. and Mrs. Clyde Magee were in Amarillo Tuesday.

Appetite Appeal

A WELL-FED BABY IS A HAPPY BABY. Today, with such a wide variety of Junior glass-packed foods available, there is no reason for the fussiest eater to become bored with his diet. The young eater becomes conscious first of flavor and texture of food, and then with its color. Experts say color and flavor play an important part in the child's likes and dislikes of foods. With glass-packed foods, a child can see the food and it is wise to let him choose occasionally what he wants to eat. It's almost certain he will eat what he selects. Just open the jar and let him feed himself. His first attempts may be a messy operation but don't discourage this interest in self-feeding. If he uses his fingers—and he undoubtedly will—let him. He'll learn the art of spoon-feeding later on. If you squelch his efforts at feeding himself, you may find yourself with a 22-month old child who will keep wanting you to feed him.

Fight Story, 'The Harder They Fall,' Coming to Derby

With the wallop of "On the Waterfront," Columbia Pictures' "The Harder They Fall," currently is the year's heavyweight picture, and the new champion, according to Hollywood critics and audiences everywhere. Starring Humphrey Bogart and co-starring Rod Steiger and Jan Sterling, "The Harder They Fall" opens Wednesday at the Derby Theatre. Featured in the hard-hitting expose of the fight racket are Mike

Lane as Toro Moreno, former titleholder Max Baer and Jersey Joe Walcott, and Edward Andrews. Budd Schulberg, Academy award-winning writer of "On the Waterfront," pulled no punches in the best-selling novel on which "The Harder They Fall" is based.

"The Harder They Fall" reportedly gives Bogart his most power-packer role, as an out-of-work sports writer who reluctantly plays footsie with a crooked betting syndicate when it tries to parlay a glass-jawed man mount into a million dollar gate and a heavyweight championship fight. The callous cruelty of the racket, when he learns to know it from the inside and sees how it rides roughshod over human flesh and blood, turns Bogart to cold fury.

Rod Steiger, one of the most sought-after actors in Hollywood

since his spectacular appearance as Marion Brando's racketeer brother in "On the Waterfront," plays the ring's "Mr. Fix," who buys fighters by the pound and fights by the round to make boxing a dirty word. Beautiful blonde Jan Sterling plays Bogart's wife, the girl who finally is sickened by the dirty money of the ring racket.

More Air Force Applicants Are Needed Now

Vacancies existing in all four Air Force components will permit unlimited applications in the com-

ing months, according to T/Sgt. Bill Neal, Air Force recruiter for the McLean area.

Vacancies are open for aviation cadet training, new Air Force enlistees, enlistment in the WAF (Women in the Air Force) and enlistment of persons having previous service in any of the armed forces. Sgt. Neal said that there is no minimum education requirements in the regular Air Force enlistment program. The only requirement is that the applicant be between 17 and 34 years of age and pass a mental and physical examination. Those enlistees not having a high school education are encouraged to take advantage of the educational facilities and

programs offered to them on the Air Force bases, Neal added.

Applicants for cadet training must have completed high school and be between 19 and 26 years of age. Applicants having previous service in any of the armed forces stand a good chance of getting most or all of their grade back and in most cases can select their choice of assignment of technical school. Sgt. Neal will interview interested persons in their homes or at his office in Pampa. Home appointments may be made by writing or calling the Air Force Recruiting Office in Pampa, collect. 'Safari' Is Romance With Victor Mature And Janet Leigh

Mysterious, alluring and frequently deadly, the jungle world of Africa supplies the breathless locale for Columbia Pictures' "Safari," starring Victor Mature and Janet Leigh at the Derby Drive-in on Sunday, Monday and Tuesday.

Actually filmed in Kenya's fabulous North Frontier District, heartland of the dread Mau Mau who provide some of the film's many breathless action moments, "Safari" is said to combine the splendor and primitive pageantry of "King Solomon's Mines" with the mighty thrills and love-adventure of "Mogambo."

"Safari" was filmed in color by Technicolor and CinemaScope. Mature plays a white hunter in the film; Miss Leigh, a former chorus girl who is affianced to an elderly, wealthy Englishman with an obsession—he is determined to kill a black-maned lion, rarest and greatest of the man-eating jungle kings. The safari, under Mature's guidance, pushes deeper and deeper into the dangerous Mau Mau country facing incredible tensions created not only by the perils surrounding them but by their own personal entanglements and conflicts.

The hunter and the girl are inevitably attracted to each other. The elderly fiance, aware of their mutual growing interest, not only attempts to kill his rival but disobeys orders in a desperate, solitary effort to kill the lion. Incessant Mau Mau attacks reportedly provide "Safari" with a truly memorable climax.

Letter Writing Week To Be Celebrated In McLean Oct. 7-13

National Letter Writing Week will again be celebrated in McLean during the week, October 7 to 13, Postmaster Johnnie R. Back announced this week.

Commenting on the significance of National Letter Writing Week, Mr. Back pointed out that each year since 1938 this event has been observed as a reminder of the real meaning of a personal letter.

Emphasizing the traditional sanctity of the letter mail, Back reminded all residents that one of the basic American freedoms is the uncensored transmission of their first class mail. It is the most valuable possession of the citizens of a free country.

"We all know the human importance of letter writing, the way in which it holds scattered

families together, of giving comfort and love and news to all the people of the land. But its value is immeasurably greater than that. Its implications are almost infinite.

"We in America have the privilege of uncensored and unlimited means of communication. With

this in mind, I urge all citizens of McLean and surrounding communities to join me in this national celebration. Let's make National Letter Writing Week for 1956 the greatest ever." Back added.

Mr. and Mrs. Wheeler Carter visited in Pampa Sunday.

Best of all, Fords library-like quiet is built in. And the new "Inner Ford" is why. For never be-

fore in Ford's field has there been a body with so much extra bracing so firmly anchored to its foundation. And you can choose from three big Silver Anniversary V-8's with up to 245 horsepower. There's also a new Mileage Maker Six with 144 horsepower, the most modern Six in the industry.

You can pick your Ford tailored to your desires and your budget, too! Choose from nine Fairlane or Fairlane 500 models or from five Custom or Custom 300 models. Or take your pick from Ford's five longer, lower, new station wagons. Whichever model you select, you'll get a car that's been re-invented from the wheels up!

So there's the new kind of Ford. Big! Gracious! Spacious! A luxury car true—but one that any new-car buyer can easily afford. Come in! See what wonder-cars you can buy now at low Ford prices.

HE WORKS FOR BETTER COMMUNITY HEALTH

There's a man not far from your home with whom you should get better acquainted. He's your neighborhood pharmacist—located in the drug store on the corner, or just a block or two down the street.

In his store you will see many things that are important to you and your family. You'll see long shelves lined with drugs and chemicals, first-aid and sickroom supplies, and other necessary health requirements.

His most important contribution to your community, however, is his professional knowledge and skill, for without it, no life-saving prescription from your doctor could be properly and promptly filled.

Before he could render this important service to you, he devoted years to the study of the highly-specialized subjects of his profession. To earn his college degree, for example, he had to acquire a fundamental knowledge of many sciences such as chemistry, physics, and biology. He mastered, too, the details of compounding end dispensing drugs, chemicals, and other medicinal agents.

And after his formal education, his course of study does not end. Through participation in the organizations of his profession, and from the journals and publications which make up his technical library, he keeps abreast of the latest medical developments, the newest drugs, and the constant improvements in pharmaceutical products and practices. Every day, in communities large and small, he is helping to make and keep America the healthiest nation in the world.

Get better acquainted with your pharmacist. He's a good neighbor, a good citizen who works for better community health. Next week, October 7 to 13, he and all the other hundred thousand pharmacists over the country are observing National Pharmacy Week—an annual event dedicated to bettering health throughout the nation.

BOYS SCOUTS—JUVENILE DECENCY

Only 2% of our nation's youth are classified as juvenile delinquents.

The other 98% are decent, lawabiding, earnest youngsters who deserve our respect and our support.

Next Tuesday, citizens of McLean will have an opportunity to pay special recognition to this larger group of young people.

That is the day when we will be asked to give to the 1957 local Scout fund drive. It is a vital program. It deserves our heartiest support.

So give generously to Scouting.

Show your appreciation for juvenile decency.

Social Dance

The hospitable home of Mr. and Mrs. J. S. Stephens south of town was the scene on Monday night of this week of a most enjoyable social dance, given in honor of their four daughters, Mesdames McMurtry, Gatlin, Sims and LeFors all of whom were at home for a visit.

The Stephens home has been recently remodeled and is one of the most beautiful and elegantly appointed ranch homes in the

Panhandle. A socially pleasing feature is the wide veranda with concrete porch that extends entirely around two sides of the big house.

Buys Hotel

A. B. Gardenhire has purchased the O'Dell Hotel and taken charge of same having moved in Wednesday of this week. Mr. Ragsdale purchased the Gardenhire home in the deal and will make his residence there for the present.

Ozark Trail Boosters

Practically every man and most of the women and children in

McLean are boosting for the Ozark Trail.

Floyd Thompson of the Oklahoma Board of Trade told the Amarillo people Wednesday night that when they stopped at McLean they put their car in the "Ozark" garage, took their meals at the "Ozark" cafe, and he heard of one baby in this vicinity being named "Ozark."

Personals

Rosa Cooke and wife left the latter part of last week for their home at Fort Worth after spending the summer here the guests of the former's parents, Mr. and Mrs. T. A. Cooke.

Everett Watkins was down from his Hutchinson County ranch the first of the week for a visit with home folks.

The recent vacancy caused by Josh Turner, in accepting a position with the Coldwater National Bank of Coldwater, Kans., and the necessary absence of some of the help at the American State Bank, has caused them to employ the services of R. L. Thom, who has had banking and railroad experience. Mr. Thom comes from Medicine Lodge, Kans.

J. C. Todd and family were here from Oklahoma last week the guests of Mrs. Todd's parents, Mr. and Mrs. J. W. Sherrod. They came overland in their car.

October 6 has been set aside by Governor Ferguson as "Fire Prevention Day."

HOW DO YOU LIKE YOUR COOKING... electrically, you can have it either way, conventional, free-standing models or the delightful new custom built-ins. Your Ruddy Kilowatt Dealer can help you choose.

Ike Better Democrat Than Adlai, Says Supporter

A bunch of us were standing around talking the other day, and the talk got around to politics like it usually does. Some of the boys said they'd voted for Ike in '52 and were going to do it again; some of them said they'd always voted the Democratic ticket straight and always expected to—you know how it goes around a little Texas town.

One fellow said something that made the rest of us stop and think. He said he was a Democrat, sure—always had been, and his father and grandfather before him. And he always felt like he had to vote for the best Democrat in the race, which was going to do this year.

"And that means," he said, "that I'll have to cast my vote for Ike Eisenhower. He's a better Democrat, by my definition of a Democrat, than that other fellow ever will be."

And besides that, he said, Ike kept his promises to Texas and Texas ought to return the favor by keeping Ike.

You know, he might have had something there. "Gratitude" is one of the greatest words in the English language, and we all like to think of ourselves as being grateful when people do something for us. Like I heard a man say one time: "Texans are people who never forget anything that is done TO them—or FOR them."

That's the way we think of ourselves, and it's about right.

This Eisenhower man pointed out that Ike promised to give the Tidelands back to Texas, and he kept that promise; he promised to do his best to close out Mr. Truman's war in Korea, and he kept

that promise, and he promised to give us a government in Washington that we could be proud of, because it was clean and honest and efficient—and, in this man's opinion, he had kept that promise.

"I know you're reading and hearing a lot of stuff to the contrary," he told us, "coming from Brother Stevenson and Brother Kefauver and the rest of the politicians on the other side. That's politics for you. Everybody expects them to jump on Ike every way they can, and I guess they'll keep on doing it right up to Nov. 6. But the American people are smarter than some politicians give them credit for being, and before they vote they're going to sit down and ask themselves this question:

"Remembering 1952, when our boys were dying in Korea and the newspapers were full of talk about mink coats and Communists and corruption in Washington—now, be honest about it: If you could, would you go back to 1952 and start over with Adlai Stevenson instead of Dwight D. Eisenhower?"

This man said he wouldn't, and come to think of it, I wouldn't either. As a matter of fact, I think Ike has made us one of the best presidents we ever had. If we had to go to war, I'd certainly rather have him at the head of our government than any other living American. But even more importantly—I'm convinced he is the best man to keep up OUT of war.

That's why I still like Ike—better than ever!

Yours truly,
Tex

Over \$7,000,000 in State Taxes—and Texas gets its share!

Did you know that in 1956 the Rock Island will pay \$7,359,879.18 in taxes to the fourteen states comprising its territory?

That's a lot of money. But then the Rock Island States of America comprise a lot of territory.

In one sense the Rock Island is a part of these states, and we expect to do our share in meeting such civic expenses as school operations, road building, even salaries for city, county or state officials.

So we pay our taxes cheerfully and hope to continue doing so for many years to come.

There is this to add:

Whenever you see a ROCKET freight train roll by loaded with products and materials of all kinds

—or watch a sleek looking ROCKET glide swiftly over the landscape carrying a goodly number of passengers

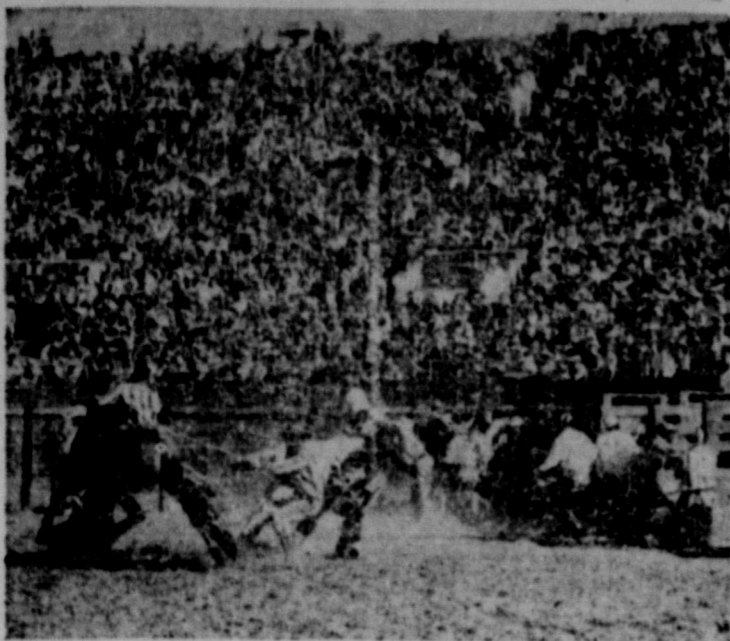

—be glad!

For, remember, some of the revenue these Rock Island trains earn eventually becomes tax money, which will be paid to Texas and other states to help them to continue to live... and to grow... and to prosper.

WATCH THE BIRDIE—Assuming an air of nonchalance, Julius, a chimpanzee from the Detroit zoo, gets mugged by Tarzan, a brother chimp. With the help of a Detroit News' photographer, Thel Burget, the chimps have become quite adept with the camera act.

SCOOP! BEAR TREES MAN—Tourists driving near Cliff-dell, Wash., take a quick second-look when they see this scene. It looks like the real thing, but actually it's the skin of a long-dead bear, nipping at a straw-filled trousers and shirt.

MIDGET MALES DOUBLE-UP FOR BIG MAIL—Since the "Big-Top" of Ringling Bros. and Barnum and Bailey circus recently folded, these two midgets are probably looking for work. Could be that Prince Paul and Lauro Marales are making sure their employment applications get in the mail box.

SEA OF MUD—An unusual sight near Agua Dulce, Tex., is this International TD-14A crawler tractor, spreading a "sea of mud," which results from salt water pits. After the tractor, equipped with the special mud-spreader, has done its leveling job, the mud dries and the earth is returned to its original condition.

Playing Supermarket Boost Children's Skill at Math

PLAYING FOOD STORE OPERATOR is a top favorite with the primary grade crowd. Here a proud youngster dispenses groceries from a new Campbell Kids De Luxe Supermarket that not only includes spacious shelves and a real check-out counter, but also supplies play money for change making. Sister plays the role of customer enthusiastically, filling her miniature shopping cart with soups, pork and beans, spaghetti and other budget essentials while her Campbell Kid twin dolls assist her. The challenge of change-making at the play supermarket helps make arithmetic assignments easier at school. This new model deluxe supermarket by Toy Master will be a joy for father, too, it's so easy to assemble. There are no pins, staples or gum tape required to put it together. (ANS)

By VERN SANFORD, Texas Press Association

Campaigning in Texas is in high gear.

First to open statewide campaign headquarters were the Texas Democrats for Eisenhower. In charge is Weldon Hart longtime aide to Gov. Allan Shivers.

A few days later Warren Woodward, Houston attorney, moved to the capital city to set up the Stevenson-Kefauver camp.

Says Hart, "Our campaign is backed by Texas Democrats who supported Eisenhower in 1952 and who can see no reason to change."

First of a series of ads in behalf of Ike appears in all Texas newspapers this week. Stevenson ads will follow as Woodward's program begins to unfold.

Meanwhile candidates for the vacated senatorial seat of Price Daniel are jockeying for position. But none has made what could be called a statewide plea for support.

Daniel is finally "in" as the Democratic nominee for governor. But procedure for naming a new U. S. Senator still is as muddled as ever.

He resigned his senate seat effective January 15, or "sooner if a successor is elected."

When this can be done, and how, hinges on (1) when the governor calls a special election; and (2) whether the state Democratic executive committee decides to try to hold party primaries before the special election.

Meanwhile, Gov. Shivers is on a bear hunt in Kodiak, Alaska, with two of his sons.

Segregation Laws Proposed
 Legislation designed to circumvent the school integration ruling has been proposed by the governor's advisory committee.

Bases of the plan: (1) local boards could not desegregate schools unless so directed by a vote in the district; (2) liberal consideration would be given requests of parents wishing to avoid sending a child to an integrated school and (3) persons trying to force integration would be liable to prosecution.

Gov. Shivers said he would use the report in making recommendations to the next legislature.

Roughage Program Suspended
 It took drought-hurt Texas farmers only about two weeks to swamp the million dollar federal aid program for roughage.

U. S. Department of Agriculture has ordered that no more applications be approved while it makes a "careful appraisal" of demands. Under the program, originally designed to run to January 1, farmers in drought disaster areas were to receive certificates good for \$7.50 per ton for purchase of roughage for cattle.

State Building Hits New High
 An estimated all-time high of

Look, Ma! No Hands!

An outlaw horse has won the contest from this striped-clad convict and the thrills are just beginning. Bigger, better, wilder than ever, the thrill-filled Annual Texas Prison Rodeo plays its 25th season with four big Sunday performances, October 7, 14, 21 and 28.

\$27,600,000 will be spent on new state buildings in the fiscal year just begun.

More than half of this, or \$14,000,000, will be used in Austin. A whopping \$6,000,000 will be poured into the new state office and courts buildings for which sites now are being cleared. Another million will be used to repair and air condition the capitol building; \$5,000,000 for state schools; and \$2,000,000 for state hospitals.

Of the remaining \$13,400,000 to be spent over the state, \$10,000,000 will go for armories and \$3,400,000 for state hospitals at Abilene, San Antonio, Wichita Falls, Gainesville and Waco.

School Experiments Studied
 Ways to get "more for the money out of Texas" school system are being sought.

A statewide advisory committee of educators and lay citizens has just launched a six-month study of ways to make most effective use of school properties and personnel.

Ideas being considered: (1) a 10-month school year, (2) a longer school day with staggered schedules, (3) more use of college students to assist teacher and (4) more multi-purpose rooms in schools.

College Enrollments Soar
 Texas college campuses are overflowing again, even more than in postwar days.

Many schools report record enrollments. Some expected totals, after latecomers straggle in: University of Texas, 18,000; University of Houston, 13,500; Texas Tech, 8,000; Texas A & M, 7,400; Texas Christian University, Baylor and Southern Methodist, about 5,400 each.

At least one school Texas Western at El Paso, was having to curtail its curriculum because of teacher shortage.

Securities Panel Named
 Eight men have been named to take another look at that perennial hot potato—securities regulation.

They will study the effectiveness of two laws passed by the last legislature. One revised the state securities act which is ad-

ministered by the Secretary of State. Another created the Insurance Securities Division handled by the Insurance Commission. Likely they also will discuss the long-debated issue of whether the two securities regulating divisions should be combined.
