Whether the federal government can tax state employes awaited a specific ruling in a futile case, opinion today, however, the court left little doubt it would uphold such taxation.

Justice Stone delivered the decision in the New York case and Justice Black read the opinion in

the Utah case.

While holding that Utah had the power under the federal constitution, the court returned the case appealed from that state to the Utah supreme court. This court will determine whether the state income tax law exempts the federal employe sought to be tax-

Justices Butler and McReynolds dissented in the New York case. Justice Stone asserted that the court's famous 1871 decision in the case of Collector vs. Day and similar opinions were "overruled so far as they recognise an implied constitutional unity from income taxation of the salaries of officers or employes of the national or state government or their instrumen-

The Good Earth ls Waiting

To get out and dig in the garden is one of the most satisfying of pleasures. And it's nearly time again . . . thank goodness! Soon you can put in that border of lilliput zinnias and dwarf marigolds you've been planning all winter long.

The seed books are bursting with new flowers. How about your tools? Need a new rake this year? A hoe? And while you're checking up . . . do the porch chairs need repairing? Should you get any new screens?

Now is the time to buy. The advertisements in this newspaper are filled with suggestions for spring purchases. Study them carefully. They'll help you weed out waste, both in your time and your money.
