By BILL PERKINS

The new 1958 Chevrolet went on display this morning at Cooke Chevrolet Company. Joe Smith will be showing the new Fords next Thursday, and on Saturday, Nov. 9, Clyde Andrews will have the new Pontiacs out for all to see.

Advance press releases and photos show many advancements on all the models that we have seen. They all look better than ever.

The old timer says that nothing lengthens the life of your car like marrying off the last of your children.

The housing situation here seems to be getting serious again. Even bedrooms are scarce and we still have inquiries daily from newcomers who can't find a place to stay.

Most men hope that their lean years are behind them; women hope that theirs are ahead.

Next Wednesday afternoon is the time set for open house at the brassiere factory and everyone is invited to attend.

The Halloween carnival at Alanreed will be held tonight.

# FOLK AND ACTS

BY BILLIE PERKINS

Evidently there are as many people sick with flu this week as there were last week and maybe more. Pat Vinyard has been awfully sick this week with a relapse of flu. . . Mr. and Mrs. J. A. Brawley spent the week-end in Amarillo visiting their daughter, Mrs. Wesley Sims, and family. Van Brawley of Perryton visited his parents last Thursday night. . . June and Mary Emma Woods visited their son, Wayne, at Texas A & M College in College Station over the week-end. Ruth Hindman returned home with them after visiting friends and relatives in McLean several days. The Woods spent Saturday night in the Hindman home in Conroe. . . Mrs. Onie Vineyard was a happy lady Tuesday when she received word that her son, Sgt. Robert B. Vineyard, would be home in November after being in Germany three years. Robert married in Germany and the family is anxious to meet his wife. . . Betty Dickinson of North Texas State College in Denton, visited her parents, Mr. and Mrs. J. P. Dickinson, over the week-end. Mario Colman, also a student at North Texas, visited friends and relatives in McLean over the week-end. . . Mrs. Bryan Eoff of Shamrock visited Mr. and Mrs. H. N. Morgan and the J. P. Dickinsons Monday. . . Grace Window and grandson, Clyde Allen, visited in Plainview over the week-end with Mr. and Mrs. Johnny Vineyard and children. Little Johnny returned home with them for a week's visit. . . Mr. and Mrs. Clyde Willis visited in Borger, Stinnett, and Dumas over the week-end. . . Mr. and Mrs. Bill Stubbs attended a barbecue honoring Senator Ralph Yarborough Saturday night in Amarillo. . . Carl and Lois Jones of Lubbock are visiting friends in McLean this week. . . Ruth Whaley was in Pampa Monday. . . Don't forget to tune in KGNC-TV, Channel 4, this afternoon (Thursday) at 5:00 o'clock to see our teenagers on Dick Williams' Hi-Fi Hop. . . We have had some of Mr. S. B. Kiser's radishes on display at the News office this week. They look like turnips. Radishes seem to go from one extreme to another. I planted radishes this year and they looked like twine string. Bill had told me nothing would grow on the north side of our house because goatheds weren't even growing there. But since the ground was already clean there I thought it would be a good spot. Results, no radishes. A swarm of wasps practically took over the town Wednesday. Everywhere you looked wasps were flying around.

## McLEAN TIGERS LOSE FRIDAY TO MEMPHIS CYCLONE 34-12

Paced by Halfback David Davis, the Memphis Cyclone downed the McLean Tigers, 34-12, Friday night to mark their first District 2-A victory of the season. The Cyclone scored once in the initial period, twice in the second and twice in the third while the Tigers gained their two scores in the second half. In the first quarter, Daryle Cooper chalked the Cyclone's first score as he rolled over from five yards out. Guard Dudley Gillespie booted for the extra point. Early in the second, Memphis again pushed over as David Davis connected with James Davis on a 26 yard aerial. The attempt at the extra failed. In the late minutes of the second, Halfback Ted Wheeler plunged over from two yards out and Gillespie added his second of the evening to put the score at halftime 20-0. In a busy third quarter, Davis again tallied as he plunged over from two yards out and Gillespie again booted for the extra. The Tiger offense began rolling later in the third as David Woods connected with Cash on a 42 yard pass to account for the first McLean score. The Cyclone bounded back as Davis again plunged over the line to add the last Memphis touchdown. Gillespie elected to run the last attempt and put the Cyclone in front 34-6. The final McLean score came in the last minutes of the game as Woods again took to the air and hit David Crockett for 65 yards and the second Tiger touchdown. The game marked the second defeat for the Tigers in the district, having forfeited to Clarendon the previous Friday night.

## Junior High Football Game to Be Played Here This Afternoon

Coach Bill Adams' junior high school Tigers will meet the Wheeler junior high squad here at Duncan Field this afternoon at 2:00 o'clock. Admission will be 25 and 50 cents. This will be the last home game of the season.

## REVELLE

... with the boys

## SERVICES HELD TUESDAY FOR MRS. JONES

Funeral services for Mrs. S. R. Jones, 72, were held in the First Presbyterian Church Tuesday afternoon at 3:00 with the Rev. Gerald Hill officiating.

A resident of McLean for over 50 years, Mrs. Jones died at her home here Monday morning at 7:20.

She was born May 17, 1885, in Illinois, and married S. R. Jones May 8, 1904, before moving to McLean in 1907.

Mrs. Jones was a member of the Nazarene church. Survivors include her husband, S. R. Jones; one daughter, Mrs. Travis Stokes of McLean; one son, Leslie Jones of Amarillo; one granddaughter, Caroline Stokes of McLean; one grandson, Jimmie Jones of Amarillo; and two brothers, Kiah Hodges of Clinton, Okla., and Sam M. Hodges of Fort Smith, Va.

Services were under the direction of Richerson-Lamb Funeral Home and burial was in Hillcrest Cemetery.

## Mr. and Mrs. Baltzell Are Killed Monday In Automobile Wreck

Mr. and Mrs. James M. Baltzell of Amarillo were killed at 7:35 a. m. Monday in an automobile accident 35 miles north of Bishop, Calif.

The accident occurred on a curve when Mr. Baltzell lost control of the car which rolled 350 feet and overturned, according to California Highway Patrol.

They left Amarillo Saturday morning on a vacation trip and were going to visit Mr. Baltzell's brother, T. O. Baltzell, in Wheatland, Calif.

Mr. Baltzell was a machinist with the Texas Company and had been employed by the company since 1914. He was born Dec. 23, 1896, in Fort Scott, Kans., and had lived in Amarillo since 1914. He is survived by the brother of Wheatland.

Mrs. Baltzell, the former Lucille Everett, was born July 16, 1899, at McLean. She had lived in Amarillo since 1914 and worked for Luthker's Flowers.

Mr. and Mrs. Baltzell are survived by two daughters, Mrs. L. V. Pryor of Amarillo and Mrs. Pat McDowell of Dumas, and five grandchildren.

Mrs. Baltzell is also survived by one brother, Peb Everett of McLean; and two sisters, Mrs. T. J. Earp of Miami and Mrs. J. J. Neill of San Angelo.

## PUBLIC INVITED TO INSPECT FACTORY OPERATIONS NOV. 6

Marie Foundations, McLean's brassiere manufacturing company owned by Calvin Fraser, will observe official open house next Wednesday afternoon, Nov. 6.

In addition to all persons in the McLean area being invited to attend, top executives of Sears, Roebuck & Company will be here to witness actual production which has been underway here for several months.

McLean Mayor E. J. Lander has proclaimed Wednesday, Nov. 6 as CAL FRASER-SEARS, ROEBUCK & CO. DAY in McLEAN and has urged that all businesses close for two hours—from one to three o'clock—in the afternoon in order that all employees may attend the open house.

For those persons unable to attend during the afternoon, open house will be held in the evening from five to seven o'clock.

Fraser said that these hours had been selected so as not to conflict with Wednesday night church services. Conducted tours beginning every five minutes will be held throughout the open house, during which guests will be able to see every phase of the manufacturing operation and have details explained to them.

Refreshments will be served as guests enter.

Every department in the operation will be functioning Wednesday night with the exception of the shipping department, Fraser said.

Employees will work from 12:30 to 8:00 p. m.

Marie Foundations now employs 65 persons and most of them received on-the-job training here.

Personnel of Marie Foundations are: Tom Greenwood, production superintendent; Gene Herron, mechanic; Billie Cash, in charge of office.

Estelline Grimsley, forelady; Avalee Crockett; Muriel Moore; Donlene Trout; Geneva Mann; Glyn Dora Rice; Geneva Kingston; Louise Clawson; Bertha Cooley; Myrtle Phillips; Rosie Lee Smith; Sue Evans; Billie Bible; Bernice Tedder; Grace Harrington; Joan Brown; Glenda Switzer; Wanda Jean Robinson; Jessie Williams; Eva Cobb; Zola Tate; Mildred Wyatt; Zenobia Tindall; Gayle Shorter; Dora Mae Bailey; Florence Cunningham; Maud Hughes; Syble Cook; Helen Sparlin; Betty Hill; Juanita McKee; Juanita Skelton; Fleta Hill; Babe Hall; Lavern Carter; Lenna Immel; Donna Snowden; Joe Iva Clayton; Nora Jackson; Sharon Immel; Frankie Everett; Laboma Herron; Cliffie Heasley; Vera Flowers; Dorthy Bench; Ruby Allen; Laura Smith; May Belle Brown; Glenda Rae Smith; Alma Jones; Alberta Frye.

And the following part time school girls: Molly Miller; Fern Grimsley; Elaine McIlroy; Flo Nell Crockett; Dorthy Pakan; Linda Grimsley; Anita Back; Lona Mae Herron; Helen Farren; Carolyn Hugg; W. W. (Bill) Boyd is janitor.

## TOP SEARS EXECUTIVES TO BE HERE

Top executives of Sears, Roebuck & Co. will be in McLean Wednesday to attend Marie Foundations Open House, Calvin Fraser has announced.

Sears buys the entire output of garments manufactured by the local plant.

R. L. (Dick) Tayloe, a native Texan and a vice president of Sears for five years, will head the group of dignitaries who will be here. Tayloe formerly managed the Sears store in Tyler and later the Lamar store in Dallas. He was then named manager of the entire Southwest Territory which is composed of Texas, Oklahoma, Arkansas, Louisiana, Colorado, Kansas and parts of some other states. The Southwest Territory, along with the Pacific Territory are the fastest growing areas in the vast Sears organization.

Edward Helstedt, supervisor of Dept. 618 (Women's Intimate Apparel) for the entire country, will also be present.

Other Sears executives scheduled to be here are A. B. Carr, merchandising manager for the Southwest Territory, and Irving Heller, "soft lines" buyer for the Southwest Territory. Mr. Heller formerly worked under Mr. Helstedt as girdle buyer for all Sears stores.

Ruby Holman, traveling corsetiere for Southwest Territory, and Mr. Williams, manager of the Amarillo store, will also be here. Larry Aubuchon, manager of the retail buying office, will attend.

Bill McCurdy, public relations director for SW territory, will be here, Fraser said.

Jack Plain of the publicity department will be here. The group is scheduled to arrive at the Pampa airport in a private plane at 10:30 a. m. They will be met by a delegation from McLean who will bring them here where they will be treated to a chuck wagon type dinner prepared by Flip Breedlove.

## Local Church Youth Will Trick or Treat Tonight for CROP

The Methodist Youth Fellowship and Presbyterian Youth will participate tonight in the second annual trick or treat for the Christian Rural Overseas Program.

Instead of the usual tricking or treating for candy, etc., local youth will be asking for contributions for CROP.

Other senior high young people are invited to join the youth of the two churches. They will meet at the Methodist church at 6:30 to receive containers and be grouped. They will canvass the town for an hour and then return to the church for a MYF sponsored party.

Mr. and Mrs. D. L. Miller attended homecoming at WTCC in Canyon Saturday. Their daughter, Mauree, is a student at the college.

## Double Sharp Music Club Meets Friday

The Double Sharp Music Club, grade school students of Mrs. Willie Boyett, met for their October session Friday, October 25, in the music studio.

Shirley Bybee was in charge of the business assisted by the secretary, Linda Smith.

New members welcomed were Eitorina Ann Roberts, Donna Fultz, Linda Gull and Linda Allen.

Sarah Coleman made the highest rating for the month. Second highest rating went to Marilyn Williams.

Those receiving first ratings for the month of October were Linda Allen, Debra Denise McClellan, Shirley Bybee, Beth Dalton, Sarah Coleman, Nancy Dickinson, Sharon Hicks, Martina Giesler, Janice Saunders, Paula Stewart, Marilyn Williams, Eddie Windom, Linda Smith and Linda Gull.

Second rating went to Martha Drum.

Repertoire was played by Sarah Coleman and Martina Giesler. Piano and accordion solos were played by all members who were present.

Punch and cookies were served by the hostesses, Mrs. Jesse Coleman and Mrs. Oscar Tibbets, to 32 members and guests.

The next meeting of the Double Sharps will be Friday, Nov. 29, at 3:45 p. m.

## Baptist WMS Meets Tuesday at Noon

A luncheon was held in the basement of the First Baptist Church at noon Tuesday by the Women's Missionary Society. Those attending were Mesdames

Homer Abbott, Lona Jones, Oscar Tibbets, Joe Suderman, Jesse Leonard, Leslie Giesler, Smokey Price, Morris Brown, Joe Taylor, George Colebank, Frank Simpson, Luther Petty, Miss Marjorie Fowler and Rev. Jesse Leonard. Mrs. Lewis McDonald was in charge of the nursery. Children present were Carroll Ray and Lester Jay Leonard, Ronnie Brown, Rachel, Laura and Evelyn Suderman.

The meeting next week will be at the church at 7:30 for a business meeting and a mission program.

## HIGH FLYER

Amarillo.—A high flying bantam hen became a mother, but had to call for help to round up her four chickens.

Chucking madly, she ran round and round the trunk of a high spruce tree, while her chicks peeped far above in a bird's nest. The mother hen was so excited she had forgotten the route she had taken so many times during the hatching period.

Without the help of their owner, Mrs. G. R. Ross, the family might never have been reunited. Mrs. Ross climbed a six-foot ladder to reach the chickens, and handed them over to the mother.

Mrs. Ross said the hen had been hatching the eggs in the repossessed sparrow's nest, although there were the most modern facilities all around for more conventional hatching.

Mr. and Mrs. G. F. Anders are on the sick list this week.

The number of nerve cells in the brain does not increase after birth.

## Wrestling Matches Set for Shamrock One Night Each Week

Arrangements have been completed to stage wrestling matches in Shamrock one night each week.

Sponsors of the popular sports are Jimmy and Forbus Blakemore and Doug Rives, operating as the Shamrock Wrestling Club.

The first program is scheduled for Friday night, November 1, but beginning again on November 15, matches will be held every Friday night.

All matches will be held at the National Guard Armory which has been leased by the promoters

for the weekly events. Bleachers are being built and fans are promised plenty of seating facilities.

The matches will start at 8 o'clock and admission prices will be \$1.50 for ringside, \$1.25 for reserved seats, 90c for general admission and 50c for children.

The Shamrock Wrestling Club is associated with the Southwest Enterprise which promotes wrestling in Amarillo, Pampa, Borger and Heeford. Interest in wrestling has been growing steadily in those areas in recent months. Shamrock will be included in the same circuit with those four cities and the same wrestlers will perform.

Financial panics in America have occurred in 1837, 1873, 1893, and 1929.

## Fire Department Answers Call When Roast Burns

The McLean Fire Department answered a call at 11:30 Tuesday morning at the James Noel home where the house was filled with smoke and believed to be on fire. However, the only thing burned was a roast.

Mr. and Mrs. Paul Kennedy share the house with Noel.

Tuesday morning Mrs. Kennedy had a roast in the oven and coffee simmering on the stove. She took the coffee pot off as the telephone rang and she went to answer it. After the phone call she rushed to get ready for school where she teaches the first grade. Before she left for school she took the

roast out and set it over the simmering burner which she had forgotten to turn out.

No one was in the house for the next three hours and by that time there was little left of the roast except for a house full of smoke and an odor.

## HIGHER LEARNING

Georgetown.—Yelled an upperclassman on the campus of Southwestern University: "Freshman, where's your green bean?" (All freshmen are required by upperclassmen to wear the skull-type cap.)

Replied Freshman Ray Allen Holubec: "I'm a graduate student."

"Oh yeah?" sneered the upperclassman.

Hurriedly replied Holubec: "I'm

a graduate of Granger High School."

His cap went on right soon.

DEAD ANIMALS were a familiar sight in Cameron Parish (county), La., after high waters from Hurricane Audrey swept over land only about two feet above sea level, and wiped out some 35,000 head of cattle. Farm organizations have made some overtures to the agriculture division of the Cameron Planning Commission toward helping re-establish a foundation herd in the stricken area. ### State Election Is November 5

November 5 is the date set for a constitutional amendment election when voters will decide for or against three changes to the state constitution.

The first amendment is for or against establishment of a retirement, disability, and death compensation fund for officers and employees of the state.

No. 2 is for or against an increase in payment from \$20 to \$25 per month to needy aged persons subject to certain conditions to exceed \$21 per month.

No. 3 authorizes the issuance and sale of \$200,000,000 in bonds by the state to create the Texas Water Development and to be used in the conservation and development of the water resources of the state.

### GOOD OL' SHEP

Abilene—Ol' Shep wasn't just flappin' his jaws when he raised a ruckus the other night on Joe Wilde's farm west of here.

Wilde and his son, Raymond heard Shep and knew he wasn't joking. They went out to see what was wrong. Wilde didn't look long. He ran back for a shotgun and killed the "varmint" that Shep found.

When the shootin' was over, there lay a rattlesnake measuring just five inches short of six feet. It was three inches through the thickest part of its body. Wilde, who has killed more than 100 rattlers in his lifetime, said he'd never seen such a snake.

And the people who gathered around figured that the rattler's mama musta been scared by a hot rod with twin smitties. He had dual fangs—four instead of the usual two.

### WRONG BRAND

Waco.—A Baylor coach almost did not get a chance to read the fiscal reports of the game with Villanova.

When Line Coach Harden Cooper stepped out on the front porch he came eye to eye with a skunk between him and his newspaper.

Quickly retreating, he called police, who in turn called Bill Berry. Berry had reported Cologne, his pet deodorized skunk, missing.

## DANIEL URGES VOTERS TO OK WATER AMENDMENT ON NOV. 5

Austin, Oct. 30—Gov. Price Daniel today urged all eligible Texans to go to the polls on Nov. 5 and vote for the water development amendment, which is Proposal No. 3 on the ballot.

"The urgent need of dams and reservoirs in the state is evident to everyone," Daniel stated. "Proposal No. 3 will make possible such projects. It is a self-financing plan and the water amendment does not call for and will not necessitate any tax."

Daniel pointed out that all of the state's public officials are backing the proposal. "Furthermore, the amendment has been endorsed by a multitude of state associations and other organizations, newspapers, manufacturers and chambers of commerce."

Actively supporting the water amendment are the East Texas Chamber of Commerce, West Texas Chamber of Commerce, South Texas Chamber of Commerce, Rio Grande Valley Chamber of Commerce, the AFL-CIO, and the Texas Manufacturers Association.

"Here is Texas' opportunity of a lifetime," the governor added. "Here at our finger tips is a potential \$600,000,000 for water projects to be paid out of revenue."

Texas' chief executive also cited the flood damages and the tremendous loss of lives and property that have resulted from uncontrolled waters.

"Why should Texans continue to suffer millions of dollars in property damage every year? Why should good water that can be used by cities, by industries and by agriculture be allowed to flow unrestricted off our rich

lands and on into the Gulf of Mexico?

"The recreational advantages that would follow the addition of more lakes and reservoirs naturally will be of interest to hunting and fishing enthusiasts as well as those who enjoy boating and other outdoor sports, but most important to the state are the financial aspects of the program. And they are vitally important," Daniel stated.

Then, as if to answer all questions, he summed up his remarks with the statement that "the water development amendment which is third on the Nov. 5 ballot, is a once-in-a-lifetime opportunity for Texas and all Texans to have what is greatly needed and without taxes. For this is a self-financing program that will not only pay itself out, but eventually may mean millions of dollars in revenue to the state."

While discussing the water amendment the governor also tossed in his recommendation of the other two proposals appearing on the Nov. 5 ballot.

"It is my sincere hope," he concluded, "that Texas voters also will approve the two other proposals, the old age pension increase and the state employees retirement plan."

Daniel will make a statewide TV and radio broadcast on the night of Nov. 4 in support of all three amendments. He will make a special broadcast to the aged citizens of Texas, in behalf of the old age pension measure on Friday afternoon, Nov. 1, and will urge all to go to the polls and cast their votes for all three amendments.

Planet means wanderer.

The butcher, the baker, the candlestick maker, all are eager to give you free medical advice. Grandma, God bless her, knows plenty of old fashioned remedies that she used to treat any sickness.

Unfortunately, although some are helpful, most home treatments temporarily mask troubles that only the skilled diagnosis of a physician can uncover. Painful symptoms may be relieved, only to re-occur later when a cure is more difficult.

You actually save money and sickness time when you depend on your physician and the specific medicines he prescribes.

**PUBLIC TIRED OF FLOODS**  
 Regardless of the kind of water legislation that comes out of the special session of the Texas Legislature, the constitutional amendment (Proposal No. 3) to be voted on Nov. 5, must be adopted by the voters to make a state water program work.

So stated Harry Provence, editor of the Waco News-Tribune and chairman of the governor's steering committee for the water development amendment.

"This amendment was overwhelmingly approved by the Texas Legislature last spring," Provence pointed out. "Its sole purpose is to provide a fund with which the State of Texas can help finance water development projects."

Provence explained that there are bound to be differences of opinion among legislators as to the kind of water legislation that is needed. "There always are differences of opinion on any legislation," he emphasized. "But differences can and will be settled."

Recent rains, the Waco editor cited, again point up the necessity for adequate dams and reservoirs. And he added that the people of Texas are getting tired of losing millions of acre feet of water and suffering thousands of dollars in property damage, because of lack of water storage facilities.

"What the Legislature decides to do with the water after it is in storage is a matter for them to determine," Provence added. "But the people of Texas first of all must vote for water development. Proposal No. 3 must be passed on Nov. 5 before Texas can start to do, under its own power, the conservation work that still needs doing."

**PREPARE FOR ASIAN FLU**

All too often epidemics have struck without warning in the United States, finding us unprepared. The same cannot be said of Asian flu. We know that this highly infectious disease is imminent and is expected to become critical this winter. The Red Cross tells us there are certain things we can do to be ready for it.

Asian flu is a much less lethal type of respiratory ailment than the Spanish influenza which swept the country in the closing months of World War I and claimed an estimated 635,000 lives. But the time to prepare for it is growing short.

Red Cross has already set in motion its contributions to an effective nation-wide community preparedness plan. The national organization has asked those Red Cross chapters that include the 14-hour care of sick and injured course in their chapter program to increase the number of classes available, to incorporate special information concerning the care of Asian flu victims in the home, and to recommend to community residents that at least one member of each household take the training course. All Red Cross chapters have been supplied with fact sheets containing pertinent information about the Asian flu. Women already trained as volunteer Red Cross nurse's aides are being alerted, and other women are urged to enroll in the 40-hour nurse's aide training course qualifying them to assist professional nurses in hospitals and clinics during outbreaks of the disease. There will be need also for many other trained hospitals and clinics, to assist in preparing and serving

Onset of Asian flu is rapid, with fever up to 103 or 104 degrees. But there is no reason for panic. The need is for preparedness. Don't wait until the fever strikes.

**McLean Loses Two Preachers**  
 Our city loses two excellent preachers this week, Rev. R. F. Hamilton, Baptist, and Rev. J. T. Howell, Methodist.

Bro. Hamilton, who has been pastor of the local Baptist church for the past five years, has accepted the pastorate of the church at White Deer, and preached his farewell sermon to the local congregation last Sunday.

Bro. Howell has been pastor of the Methodist church in McLean for the past four years, and according to the laws of the church cannot serve in one place any longer. The annual meeting of the Northwest Texas Conference, of which this church is a member, is meeting at Memphis this week, but as the appointments have not been made at the hour of going to press, we are unable to say who will be his successor.

These good men have served their churches well while they have been among us, and are both excellent exponents of the gospel. They have made many friends in this city and country who regret their departure.

**Regulations Change Is Made Regarding Vehicle Inspection**

Homer Garrison, Jr., director of the Texas Department of Public Safety, announced this week a change in motor vehicle inspection regulations so as to no longer require the removal of a wheel in order to inspect the brakes of vehicles.

In an effort to prevent accidents which might occur due to brake failures, the department's earlier regulation had required that the wheel be removed for the principal purpose of determining the percentage of thickness of the remaining brake lining. Inspection stations found difficulty in making these inspections due to the fact that there was no accurate way of determining the original thickness and the decision in each case was left to the inspecting mechanic who had no satisfactory guide to follow.

The change in regulations, which resulted from action of the Public Safety Commission, does not affect the remainder of the inspection of brakes, which will still be required to have the performance ability required by the statute.

Col. Garrison announced that this change in the regulations was made in the interest of fairness to the inspection stations and to the motoring public.

## LEAN, LOW LINES SPARK CHEVROLET BEAUTY

Chevrolet stylists have taken full advantage of nine inches in added length to mold low, fleet beauty into their 1958 models, as shown by this view of the Bel Air sport sedan. Strong eye-appeal is found in the modish grille, the dual headlamps and low, flat hood. Notable also is an unusual Sculpturamic styling which supplies an air of distinction. A new engine, new frame and two new suspension systems are only a few of the major chassis advances. Station Wagon, Bel Air, Biscayne and Delray Series are offered.

## LEAN, LOW LINES SPARK BEAUTY OF NEW CHEVROLETS FOR 1958

Dramatic new styling and outstanding engineering advances mark the 1958 Chevrolet which makes it bow this week. Labeled "the car of the year" by newsmen and technical writers who have attended private showings, the new model was unveiled Thursday, October 31, in Chevrolet dealerships across the country. Also on display for the first time are the rakish 1958 Corvette and the latest in the Chevrolet truck line. The 1958 Chevrolet is new from bumper-to-bumper and from frame

to roof line. The all-new features include: A completely re-styled car which is longer, lower and wider and emphasizes flowing sculptured lines from the dual headlamps to softly flared rear fenders. An X-shaped frame which allows a lower silhouette but retains ample head room and increases leg room and luggage space. Two suspension systems for a more luxurious ride along with remarkable handling, stability and durability. Sturdy coil springs, front and rear are standard. A new "Level Air" system which automatically adjusts to all load weights is optional. A 348-cubic inch engine which is new from fan to flywheel. Designed primarily around a new combustion chamber, the optional Turbo-Thrust V8 offers greater torque for improved mid-range performance. Chassis-body design integration to supply exceptional structural strength and greater rigidity. Forward-mounted steering linkage which provides more responsive action and reduces road vibration to the steering wheel. Some idea of the fresh newness of the Chevrolet line is suggested by the new body groupings and identification. In recognition of the growing popularity of station wagons, an exclusive five-unit series of this body type has been established. The Bel Air series is continued,

but adds among its six models a sumptuous sport coupe and convertible under the Impala nameplate, introduced on a "dream car" at the General Motors Motorama in 1956. In the middle range of the low-priced car bracket is a Biscayne series with two sedans. The bottom end of the price spread will be occupied by three models making up the Delray series. In 1957 comparable series were known as Two-Ten and One-Fifty, respectively. Roominess and quality of the new line, says the company, will be immediately apparent. Over-all lengths have been extended a full nine inches to a new measurement of 209 inches. The wheelbase is up to two and one-half inches to 117½. Roof lines have been lowered up to 2½ inches, yet design skill has retained ample passenger headroom. In looks, the cars have an air of liveliness. Because of the thoroughness of the transformation, stylists and engineers were able to correlate their ideas into a single unit of bumper-to-bumper progress.

fully protected. It is a powerful beamed spotlight . . . something fishermen have been needing for a long time. Shooting Preserves More hunters each year are taking advantage of shooting preserves to get their quail and pheasants. Texas now has several of these preserves. They are stocked with pen raised birds. The land owners permit shooting for fees. Some of them charge by the day. Others by the birds killed. In either event the total cost of a hunt with the bag limit filled might be less on one of these places than you would expect. Game wardens and in most instances the sporting goods stores, know where there is one of these preserves close to you. Check into it.

By L. A. WILKIE

Ducks and geese are here! The hunting season opens one-half hour before sunrise on Friday, Nov. 1. Duck season ends Jan. 14; goose season Dec. 30. All shooting must end one-half hour after sunset, daily.

This is the real beginning of fall, football notwithstanding. When those honkers pass over in formation, we know winter is just around the corner. It won't be long until the frost is on the pumpkin.

If you are a novice at duck hunting, there are a few fundamentals you should know.

First, you must get your hunting license, which costs \$3.15. Next, get your federal duck stamp, which costs \$2, and attach the stamp to the license. If caught without these you are out of luck.

Still another law is just as important. You must have your shotgun, not larger than 10 gauge, plugged to hold more than three shots. And don't shoot from a motor boat. That's against the law.

With these rules complied with you may kill five ducks and six geese a day. You can have 10 ducks, but only six geese, in your possession at one time. You can also kill 10 coot and eight Wilson's snipe in one day. Possession is one day's bag.

If you are doubtful about any of the shooting regulations, consult your local game warden. He'll give you all the help you need.

Despite rains and changing weather there still is a large dove population in the south zone of Texas. Warden reports from most of the South Texas counties indicate the doves are fat and fully feathered now. Dove hunt-

ing season in South Texas does not close until Nov. 17, except in the valley counties where there was a three-day white wing season. In those counties the season will close Nov. 14.

**Year 'Round Fishing**

Rains of the past week have muddied most of the Texas streams. Top-water fishing has been badly affected. With deep-running plugs some big bass have been taken from the lower depths.

There'll be rapid turnovers in the lakes now with the advent of cool weather. After settling there should be some excellent top-water fishing again. Meantime sandies and crappie are being taken in great numbers in most of the lakes.

Texans are lucky that they can fish throughout the year. In fact some of the best crappie and sand bass fishing is during the month of December and January. There was a big natural spawn of both this year.

Speaking of spawn the New Hampshire game department right now is engaged in artificially producing trout. Through manipulation of artificial lights the biologists have been able to take 478,000 eggs from 369 female trout, three months in advance of the natural spawning season. These baby fish then will be used for early stocking of one trout stream in the state.

**True Reporting**

How well do you know the camp operator where you fish? I know all kinds. There's the fellow who always tells you fishing is great, people have been catching limit strings of all kinds, come on out, boy, don't miss a golden opportunity.

A while back, Outdoor Editor George Kel'lam of the Fort Worth Star Telegram got suspicious of

all this noise. He checked with fishermen on the camp operators' report.

One couple, who reportedly snagged 50 crappie and three nice blacks, told Kel'lam they fished two and a half hours and caught zero. Another pair of anglers, given credit for 30 crappie, said they were just sightseeing and didn't even douse a minnow. Still another twosome who according to the camp operator, caught string limits, said they fished 11 hours and didn't get a bite.

There's no law against this tale-telling, but it should come under the head of false advertising, and any camp operator who is guilty of it should be avoided.

But, when you find an honest operator—and there are many of them—stick with him. **A Few Warnings** A word of warning. Be sure when you take your outboard motor off the boat now, that it is properly drained. Water left in the motor might freeze and crack the cylinder.

Also remember, it is getting dark earlier each evening and will continue to do so until mid-December. This means on your return to camp you should start early enough to get in before dark.

Which reminds you that Justrite has made a new lantern, especially for fishermen. It is boxed in a container, which permits its being carried in the tackle box

### Congressman Rogers Reports— TO THE PEOPLE

**FREE OR FEE**

In a recent newsletter I reported some of the statistics and information concerning the communication media which has had considerable impact on the American scene. I refer to the television industry which has become so much a part of our daily lives. One aspect of this giant industry which is receiving studied attention in all quarters is subscription television, or pay TV. Expressions are heard on all sides relative to the merits or demerits of initiating a nationwide system whereby the television viewer can put a coin in a

slot in his own living room to see a program of his choice. Those who favor the initiation of subscription television contend it will make possible better and more elaborate programs. This group also maintains that pay TV will be a small facet of the programming in the over-all industry, and will supplement the vast around-the-clock system of today. On the other hand, those opposed to pay TV advance the theory that the greatness of the American communications system has been achieved by virtue of its availability to anyone who possesses a television or radio receiver,

and that the entire cost of transmitting should be borne by advertisers, net works and local stations.

The Federal Communications Commission has recently announced a program of limited trial subscription television in certain cities, throughout the United States and is currently receiving applications with the assurance that no action will be taken on the applications prior to March, 1958. The controversy surrounding subscription television undoubtedly will be brought to the Congress early in the next session since the FCC was established and its laws perfected through the legislative process.

**FEED GRAINS EXPORTS**  
It is interesting to note the dis-

position of some of our grain sorghum crops under the Agricultural Trade Development and Assistance Act which was enacted in 1954 and extended in the last session of Congress. You will recall this is the program where certain commodities are exported and sold in foreign countries in exchange for the local currency in that country rather than United States dollars. Since the beginning of the program through Sept. 30, 1957, some 88,140,480 bushels of feed grains have been marketed in foreign countries. Of this amount 5,790,000 bushels were grain sorghums. These figures are estimates and there doubtless will be measurable disposition of grain sorghums in the balance of fiscal 1958. The aggregate value of feed grains marketed in foreign countries through Sept. 30 was 113.2 million dollars.

58 FORD  
COMING  
NOV. 7

Nothing newer

## AROUND THE WORLD

The 58 Ford has been proved around the world. This is the most dramatic and most grueling test ever given a new car before its public announcement.

The whole world was used as a test track for the 58 Ford. The car drove through England, France, Switzerland, Italy, Yugoslavia, Greece, Turkey, Iran, Afghanistan, Pakistan, India, Malaya, Thailand, Cambodia, Vietnam, and finally back to the place it started—Detroit, Michigan, U.S.A.

The Ford powered over the great mountain ranges of three continents: from the Alps to the Himalayas and the Rockies. It crossed the great rivers of history: the Thames, the Seine, the Tiber, the Arno, the Nile, the Euphrates, the Indus, the Ganges.

This car stood at Buckingham Palace, rolled up the Champs Elysees to the Arc de Triomphe, and paused at the Eiffel Tower. It was greeted by the great Paris couturiers at the famous fashion salons where its "sculptured in steel" styling was applauded by the most style-conscious audience in the world.

The 58 Ford rode smoothly down the rugged, beautiful seacoast of Tito's country, to a festival in Dubrovnik, and into Greece to Athens, where this newest classic met such ancient classics as the Parthenon and the Temple of Poseidon.

Into Turkey: and the 58 Ford passed the great white lacework palaces of the Sultans along the Bosphorus and the Golden Horn. Then the Ford went where few but nomads travel, up into the hot days and chill nights of the ancient mountains of Afghanistan. And thence along the route Alexander the Great followed with his chariots to cross the historic Indus river.

On and on the Ford moved, down into the heat of mysterious India, through New Delhi to the Taj Mahal, and to the great pink palace of the Maharajah of Jaipur.

This great new car met the challenge of the monsoons—rains that for centuries have stopped all road movement throughout Indo-China, but didn't stop the 58 Ford. It drove on to Penang in Malaya, and then north to Bangkok.

Further on came Saigon, the Paris of the Orient, at the farthest tip of Southeast Asia. Finally, it powered across the great Rockies and plains of North America and back, at long last, to Detroit, Michigan.

The 58 Ford... has been proved and approved around the world. A natural question arises. Why did Ford go to such great lengths with its 1958 model? Why spend so much money and time and go through all the problems of negotiations, customs, border transit, diplomacy in so many countries?

The answer: in the competitive automobile market of today, only the best in all-around value can survive. And this round-the-world test is the most decisive possible demonstration of the best.

The 1958 Ford is value: hard-dollar value. It is also style, power, performance, and a dozen great new features. But above all, it is value.

This is the car you've been waiting for. See it November 7—there's nothing newer in the world than the 58 Ford!

**Time for Showdown**  
 It's time for a showdown, say Senate investigating committee.

Our Texas Legislature has gotten a black eye, the committee feels, and it wants to find out why. Said the committee's chairman, Sen. Charles Herring of Herring promised three-pronged action, there's been a tendency on the part of the public to blame the Legislature for everything that happens.

He attributed this to: (1) Acts of a few lawmakers who discredited the entire branch, (2) loose and irresponsible talk and (3) a tendency of other state agencies to blame the Legislature in an attempt to cover up their own shortcomings and "even dereliction of duty."

Herring promised a three-pronged attack against these sources of discredit. Grand juries and the legislators themselves have already done "able work" in the first area, said Herring.

In its "loose talk" attack the committee called on the carpet Riggs Shepperd of Hondo, manager of the Medina Electric Co-operatives, Inc. Riggs said the Texas Co-op magazine misquoted him in saying he's been "told to see old so-and-so and he'll get your bill introduced for \$500." He said a national magazine article on alleged corruption in Texas triggered his remark.

In the third phase of its operation, presumably designed to show that state agencies have fallen down on their jobs, the committee began by subpoenaing three insurance executives.

First on the stand was Largent Parks, president of Preferred Life of Dallas. Parks was closely questioned about State Insurance Board charges that he owes the insurance firm some \$194,000. Senate committee questioning emphasized that Park's firm had been given a routine examination last March and another special examination in June, but that the report had never been made public.

Also subpoenaed were Pierce Brooks and Lester Hall of National Bankers Life in Dallas.

**Federal Force Denounced**  
 Despite difficulties among themselves, pro-segregation representatives pushed through a strongly-worded resolution against enforced integration.

By a vote of 112 to 24, House members criticized President Eisenhower's action at Little Rock. It did not, said the resolution, "reflect constitutional government deriving its powers from the consent of the governed."

Further, it asked the President not to send troops to Texas to enforce "modern sociological concepts" or to interfere with "the constitutional right of the State of Texas to provide, operate, and discipline the public schools of Texas."

Difficulty came when Rep. Joe Pool's efforts to push through a demand-to-the-governor resolution. Pool's proposal would call on Gov. Price Daniel to say at once when he will open the legis-

**SIGHT-SEEING QUIZ**

Can You Name This Spot?

**Clue** • This is a favorite spot for tourists in an historical city of the deep South noted for a pre-Lenten festival. The houses are distinguished for their galleries adorned by lacy iron grillwork and some of the buildings date back to the 18th century.  
**Answer** • The Old French Quarter in New Orleans.  
 Good eyes mean good memories. Care for your eyes at all times.

may have an effect on legislative efforts. In their vote on the proposed \$200,000,000 water bond issue, Texans will indicate just how strong they are on statewide water programs.

Governor Daniel told the Senate committee he would not want to see the whole water planning bill ditched because of the storage buying feature. But he didn't want to "suggest you drop it."

**"Murder Capital" Cited**  
 Crime study and state practice act—the two other items in the governor's special session call—are generating less legislative state.

A House hearing on the crime study bill brought strong pleas for better law enforcement from Houston civic leaders. Houston (109 murders last year) has been called the "murder capital of the world," they said. Worse than Chicago's gangland days. "It's time we face up to some of these things," said a Jaycee spokesman. Sen. A. M. Alkin has introduced in the Senate the bill to regulate legal practice before state agencies. A similar bill already is

in the House mill.

**Nary a Dime**  
 Don't expect to collect from the state for damages you suffer from a state employee. Again the State Supreme Court has held the state is not liable.

Even guarantees in the Texas constitution that your property shall not be damaged or applied to public use without compensation are not sufficient to overturn this principle.

This latest decision denied damages to C. C. Benson whose cotton crop was ruined by drift of weed killer sprayed by an employee of the Dallas County Flood Control District. Similar decision was handed down in 1949.

**Local Control Urged**  
 Local control and integration were front and center issues at the state convention of the Texas Association of School Boards in Austin.

Sen. A. M. Alkin, Jr., urged the solving of education problems without federal aid and federal control. Integration was discussed mainly off-stage.

**BORN YESTERDAY?**

Georgetown—A freshman coed at Southwestern University inquired of the postmistress at the sub-station concerning a mail box.

When told the price of renting a box, the coed said, "Well, I believe that I'll shop around to see if I can find a cheaper one."  
 If she can find Uncle Sam in a bargaining mood, he will have plenty of customers. Perhaps she could have one sent from her home town!

**Band Boosters Have Meet Monday Night**

McLean Band Boosters had their regular meeting Monday night with President Jim Hathaway in charge.

It was voted to charge 50¢ per year per person annual dues. Anyone, interested in the band, whether they have children in the band or not, are urged to become members.

Dues may be paid to Sec-treas. Faris Hess or to Band Director Bruce Cook.

The Boosters voted to meet on the last Monday night of each month.

In other business it was voted to send four outstanding band students to summer camp this year. One student from the 8th, 9th, 10th and 11th grades will be selected to make up this group.

An annual John Philip Sousa award will be presented to the outstanding senior band student. The junior high school band will compete in the contest which will be held in Groom this year. Awards will be made to outstanding students in the 5th and 6th grades also, it was decided.
