The station is located at the Main Street intersection on Highway 66.

## Memorial Day Service Set Tomorrow Morning

A Memorial Day service has been set in McLean tomorrow morning at 10 a. m., scheduled to be held at Hillcrest Cemetery. The Hillcrest Cemetery Association, in cooperation with the Richerson-Lamb Funeral Home and the American Legion, have made possible the service to be held. Beginning the service, a quartet from the First Baptist Church, composed of Gladys Stewart, Mary Lee Boyd, Jane Simpson, and Jeanne Brown, will sing "Lead Kindly Light" and "Beneath the

Cross of Jesus." Following will be a reading of the 23rd Psalm and a prayer of thanksgiving. Then a reading will be given from the 15th chapter of 1st Corinthians. The address will be given by the Rev. Gerald Hill, pastor of the First Presbyterian Church. The American Legion will conclude the service with a military salute and the playing of Taps as the flag is lowered to half mast. The cemetery association invites all persons to attend the service, honoring the war dead.

### SERVICES HELD MONDAY FOR R. L. HOWARD

Raymond Leslie Howard, 55, of 1106 W. Jackson in Borger, died at his ranch three miles east of McLean at 11:30 a. m. Saturday. Mr. Howard was a retired accountant and was in the process of improving his ranch house preparatory to moving there. He was born Nov. 9, 1902, at Hansen, Idaho, attended school in McLean, and moved to Borger in 1935 from Lefors. Mr. Howard was married to Audrie Mae Clodfelter at Pampa in 1935. He was on the board of deacons of the First Presbyterian Church of Borger, a member of McLean Masonic Lodge 889 and the Order of the Eastern Star in Borger. Funeral services were held at 10 a. m. Monday in the First Presbyterian Church of Borger, with the pastor, Rev. James Glenn, officiating. Burial was in Hillcrest Cemetery in McLean with Richerson-Lamb Funeral Home in charge of arrangements. Masonic graveside rites were conducted. Survivors include his wife, of the home; a daughter, Hazel Ruth Howard of Borger; three sons, Audrey L. Howard of Amarillo, Fred R. Howard of Borger and Dale D. Howard of Sanford; four sisters, Mrs. J. C. McClellan and Mrs. Leon Crockett of McLean and Mrs. Merle Ford and Mrs. Florence Bohannon of Amarillo; three brothers, Philip L. Howard of Plainview, Robert D. Howard of Lefors and Alton W. Howard of Amarillo; and one grandchild.

Final plans are now being made as only one week remains before the 1958 McLean 66 Roundup and Rodeo, which is expected to be one of the biggest shows yet staged in McLean.

Bob Sherrod, rodeo chairman, announced that the award saddles had been picked up and are ready for the winners. A saddle will be given to the Best All-Around Cowboy and to the roper with the best average in two ropings.

The rodeo will be held June 5, 6 and 7 at the rodeo grounds for amateur entries. There will be two grounds.

Preceding the opening of the shows a 20-mile cow pony relay race from Shamrock to McLean will be held. Cowboys entering the race will ride their horses five miles and the race will be continued by another rider and horse, making a total of four five-mile stretches to be covered. Two teams are now entered in the race and more are expected. The event gets underway at 11 a. m. June 5.

The rodeo purse will total \$1,800 and all event winners will receive trophy buckles.

Listed below, in order, are the events to be run off, the purse and the entry fee:

Saddle bronc riding, \$300, \$15; bareback bronc riding, \$300, \$15; bull riding, \$300, \$15; double mugging, \$300, \$15; bulldogging, \$300, \$15.

Featured as the rodeo clown will be Pinky Williams. The rodeo stock contractor will be Tom Harlan of Kellerville. The rodeo announcer will be H. B. Taylor, Jr., of Pampa.

Performances will be given at 8 p. m. Thursday, Friday and Saturday and there will be an afternoon performance Saturday at 2 p. m. Admission prices will be \$1.25 for adults and 50 cents for children.

A big parade is scheduled for 2:30 p. m. Thursday. Dances will be held Thursday, Friday and Saturday nights with music to be provided by Clevy Hancock and his Top o' Texas Playboys. Admission price to the dance will be \$1.00 per person.

Cowboys from all over the country will be entered in the show, and there will be plenty of entertainment for persons of all ages.

Rodeo headquarters is in the Ford Garage, Phone 203. Sherrod can be reached at phone 1617F2.

## Jim Farren Receives Athletic Award at West Texas State

Jim Farren, a junior, from McLean, was one of 60 athletes to receive awards at West Texas State College at Canyon for their play during the 1957-58 season, according to the athletic director, Frank Kimbrough.

Farren was a forward on the varsity basketball team. He is the son of Mr. and Mrs. Archie L. Farren of McLean.

## 1958 TIGER SQUAD

Back Row—Darrel Gibson, Jerry Biggers, Billy Crockett, Paul McCurley, David Crockett, Ray Hupp, Joe Smith. Middle Row—O. K. Lee, Orphus Tate, Douglas Crockett, Kenny Willingham, James Smith, Melvin Butrum, Butch Dorsey, Jerry Kunkel. Front Row—Frank Worsham, Benny Woods, Bobby Weaver, Kent Wiggins, Jimmy Watson, Clyde Windom, Burl Hughes.

## Schedule Released For '58 Grid Season

McLean's Tigers will open the 1958 grid season Sept. 5 as they go on the road against the Irish of Shamrock, according to the new schedule released this week. The opener will mark the first of a ten-game campaign for the Tigers in an enlarged District 2-A. Added to the conference opponents the Tigers will face in regular action will be Panhandle and White Deer. On September 12 the Tigers will meet Wheeler for the first home encounter and will travel to Groom September 19. The opening date for the year is set for Sept. 26, before launching into seven district games, beginning with Canadian then Oct. 3.

Commenting on the outlook for the new season, Head Coach Jack Riley stated, "This year in District 2-A, in taking on two more opponents, we will be competing in a much stronger district. Lefors will definitely be the power in the conference as they did not lose a single player from

their starting eleven and lost only two squad men through graduation. White Deer won the District 1-A title last season and beat Lefors for the bi-district title, and will definitely be strong this year as they have lost only a few members of their ball club and will have the personnel to replace them. Canadian should run a close third, having nearly its entire ball club back. From here on it should be a toss-up between the other four teams. Barring injuries to key personnel and assuming that our boys have a good attitude, we COULD have a good ball club."

The main strength for the new season should come through 12 lettermen returning from last year. These are Jim Rice, Billy Crockett, David Crockett, Jerry Biggers, Kent Wiggins, Benny Woods, Ray Hupp, Paul McCurley, Melvin Butrum, Orphus Tate, O. K. Lee and Don Cash.

Of the above lettermen seven are returning starters from last

Date	Opponent	Location
Sept. 5	Shamrock	There
Sept. 12	Wheeler	Here
Sept. 19	Groom	There
Sept. 26	Open	
Oct. 3	Canadian	There
Oct. 10	Wellington	Here
Oct. 17	Panhandle	Here
Oct. 24	Memphis	There
Oct. 30	White Deer	Here
Nov. 7	Lefors	There
Nov. 14	Clarendon	Here

year's squad, including Rice, Billy Woods, Hupp and McCurley. Added to this group will be returning squadmen, Jerry Kunkel, Jerry Smith and Douglas Crockett.

Showing promise as up-and-coming ball players for the next season are Joe Smith, Bob Weaver and Burl Hughes.

As to the general weight of the 1958 Tigers, the club will probably average about 150 to 155 pounds per man. The weakest links will be in depth, as the squad will probably number no more than 25; however, the experience and speed should be fair.

Viewing the freshmen who will be coming up for the team, promising boys are Jimmy Watson, Clyde Windom, Kenny Willingham and Butch Dorsey. Coach Riley stated that in addition to the boys already participating it was possible that more would be out next year who did not participate in 1957, with the possibility also of players from Alarreed and Kellerville.

No Acne Tomorrow?

What causes acne? "Nearly all evidence points toward androgen," says Dr. H. Hasford Hopkins, a Baltimore physician. Androgen, a hormone produced by the body in quantity during adolescence, steps up the oil secretions just below the skin, causing blackheads - and acne. Some day, Dr. Hopkins is certain, we will have a pill, probably a hormone, that will prevent this.

Meanwhile, acne is a serious problem to every youngster with a blemished skin - and to his parents. In *Quarterly Review of Pediatrics*, Dr. Hopkins warns against dismissing the problem with the phrase, "You'll outgrow it." Proper treatment can often control acne and prevent scarring. Your doctor can do a great deal in many cases. Dr. Hopkins recommends sunlight and sunlamp, frequent careful cleaning of the face and scalp, use of prescribed lotion, and extra vitamin A to keep mild acne under control.

In more severe cases, Dr. Hopkins suggests sulfa drugs or Terramycin capsules in low doses. When acne defies all other efforts, he says, low-dose x-ray treatment may help.

Other authorities recommend multiple-vitamin supplements, attention to possible allergies, reduction of fatty foods in the diet and minimum use of greasy cosmetics. Doctors agree that self-treatment - squeezing blackheads, for instance - can only make acne worse.

Dr. Hopkins believes that in the near future, we will have a simple local treatment, based on new knowledge of the body's hormone system. Let's hope his prediction comes true - soon!

**BAPTIST WOMEN TO MEET WEDNESDAY**

The monthly mission study from Royal Service and business meeting of the Baptist WMS will be held Wednesday night of next week in the church parlor.

**OUR THANKS**

We wish to extend our appreciation to all the people in McLean and the surrounding area who made the opening of our business last Friday and Saturday a success.

We are happy you visited with us during our Open House on these days and we are looking forward to seeing you again in the future.

If at any time we can be of service in furnishing your lumber, paints and hardware needs, please let us know. It will be a pleasure.

**STRENGTH FOR THESE DAYS**

For Thou art my rock and my fortress; therefore, for Thy name's sake, lead me and guide me.—(Psalm 31, 3.)

Those who devoutly pray for and then obey God's guidance—who truly place their trust in Him and surrender their will to His, will be led by Him. They will know such strength and confidence, such peace of mind and soul, that the human mind cannot imagine. They are the wondrously blest.

**STOCKING CAPSULE**

Did you ever know anyone who insisted on putting his right stocking on first? Some people think this is a good way to avoid headaches. Foolish? Of course! Most of us get headaches. But now we reach for one of the fast-acting pain relievers medical science has made available. A simple remedy. But remember—not all headaches can be treated so casually. If the pain persists or is unusually severe, be sure to see your physician. And next time you need a prescription filled, come to us for quality compounding.

**"I bought my first ELECTRIC RANGE in 1928—out of a mail order catalogue!"**

says Mrs. E. B. McMahan  
 BOISE CITY, OKLAHOMA

★ Mrs. McMahan insisted on clean cooking 30 years ago when electric ranges were something of a novelty. Her first electric range was only 27 inches wide. "But," says Mrs. McMahan, "It was clean — and that's what I wanted most."

Today Mrs. McMahan has a modern double-oven electric range with automatic control on both ovens. She has push-buttons, too, and bakes pies, 5 at a time, to put in her electric home freezer. This grand lady, who has kept pace with the advances in electric cooking, says of her electric range, "Nothing goes wrong and the porcelain finish is so easy to keep clean." In addition to her range, Mrs. McMahan has every modern convenience in her kitchen and laundry — all completely electric.

Thanks to your Reddy Kilowatt dealer you don't have to buy an electric range from a catalogue. See him, have an electric range demonstration and get a certificate good for two big lamps, five yellow bug traps, which fit grid-iron toasters, eliminate most of the light that wastes you, yet provide a soft, comfortable light for outdoor lighting.

## Editorial

### THE PRINCIPLES ARE ESTABLISHED

A senate subcommittee has proposed a varied program for the relief of the financially hard-hit railroads. Its recommendations, as a railroad spokesman has said "go much further toward meeting the rail lines' needs . . . than did an administration proposal put forward a short time earlier.

The subcommittee, like the administration, proposes guarantees of loans to the railroads. But there is much more to its plan than that. It advocates repeal of the World War II excise taxes on freight charges and passenger fares—a move which is long overdue, and would be of direct and immediate benefit to all the carriers and to all shippers and travelers. It also would give the Interstate Commerce Commission needed authority to permit railroads to abandon, curtail or consolidate unprofitable services and facilities for which there is little or no demand nowadays. And it would amend the Interstate Commerce Act to provide for greater flexibility in rate-making. As matters stand now, rigid and obsolete rate-making practices prevent the railroads from making the most of their inherent advantages in competing for traffic.

There are, naturally, many differences of opinion over details of this or any other possible legislative program affecting transportation. But certain broad principles have been about as firmly established as anything can be. The railroads are being regulated to death, in an almost literal sense of the phrase. On top of that, they are plagued with unfair tax burdens. We can no longer afford to so penalize an industry which is absolutely essential to the life and security of this nation.

### AN EXAMPLE FROM DALLAS

Freedom under representative government will last just so long as the majority of the American people retain their sense of individual responsibility.

The current recession makes it perfectly clear that the only break on the tendency of government to seek ever-greater control over the individual citizen's income and personal affairs will be refusal of the "benefitees" to swallow the political bait. Schemes for federal programs offering easy money shift control over local affairs to distant bureaucratic hands and increase taxes.

It is encouraging to note that some communities are beginning to look the tax-increasing gift horse squarely in the mouth.

As an anti-recession move, legislation is being sponsored which would make available \$2 billion at about 3% interest for loans to states, counties, cities and schools to finance local public work projects. When Dallas was asked by one of the Senators sponsoring the bill to submit a list of proposed city projects needing financing and their estimated cost, city officials refused. They pointed out that when Dallas needed money for new projects it could obtain it more cheaply by selling its own bonds than by accepting it from Washington. Incidentally, the Dallas school system is one which does not accept federal support nor federal surplus food for its school lunchrooms.

More power to Dallas and cities like it. Such independence is essential to this country's future strength and freedom.

### PROMOTING NEW SOCIALIST STATE

The Orlando, Fla., Sentinel says: "Internal Revenue Service has ruled that privately-owned utility companies cannot deduct the cost of some of their advertising as a legitimate business expense.

"The advertising in question is the type commonly termed 'institutional.' In this particular case it took the form of a well-planned series of ads designed to impress American taxpayers with the advantages of permitting a nation's power needs to be fulfilled by private industry instead of government utilities such as TVA.

"Private power companies are owned by thousands of people who have invested their savings in them. These investments are threatened by the spread of public power facilities.

"If private power companies can be penalized in this

### READY, WILLING AND ABLE!

manner, then any private industry, including the press, can be throttled in much the same way.

"Such a ruling is a threat to freedom of speech, the press, the right to communicate. It infringes upon the constitutional rights of groups and the individual.

"We are gradually losing even the right to defend ourselves from arbitrary government actions. When and if the voice of free enterprise is stilled . . . the new socialistic state will be here."

### IT'S THE LAW In Texas

#### Automobile Accident Rules

Vacation time is near. Soon millions of people will be driving about the country, and automobile accidents will occur with increasing frequency. What should a person do when involved in an accident?

At such times it is hard to keep your wits about you and know just what to do. It is, therefore, a good idea to plan in advance just what you would do in event of a smash-up. Here are a few simple rules that every driver should commit to memory:

1. Stop! Failure to stop can result in serious criminal consequences.
2. Render Aid. If anyone is injured: (1) Render first aid. (2) Stop bleeding. (3) Call a doctor or an ambulance or both. (4) Do not move an injured person in any way that could possibly add to his injury.

#### Reduce Delinquency

**WHAT KIND OF START?**  
(A distinguished Texas judge offers pointers on combating our rapidly increasing juvenile delinquency problem.)

By JUDGE SARAH T. HUGHES

In a majority of juvenile cases the parents don't get along and many marriages have ended in divorce.

If parents are immature, unstable, "unhappy" in their relationship, childish in their attitudes, the children begin life handicapped.

**"Grows-Up" Parents Needed**  
Many so-called adults are still emotionally juvenile at 30, 40, 50—all their lives. They still expect more from life than they put into it. They react in child-fashion to the spouse's shortcomings, to economic difficulties for—when there is economic abundance—to the fact that materialism is not the "answer" to life either, to anything that falls short of the mistaken ideal. ("Mistaken" because, as one wise man put it, an ideal that makes a person behave immaturally is not an ideal but a fantasy.)

Are the mother and father kind to each other, considerate, loyal, affectionate, or are they selfish, nagging, disloyal, cool? Do they work together, plan together, have any mutual interests, or does each go a separate way? Are they understanding and tolerant of each other's ideas, or are they constantly on the verge of argument?

**Goodness is Contagious**  
Children need a home atmosphere where there are stable, mature, cheerful adults with good attitudes toward life.

With such a foundation they already have a head start in combating the trials and temptations of living.

3. **Protect the Scene from Further Damage.** You may be liable for damages to approaching drivers, unless they are properly warned. If the highway is obstructed at night, have someone turn his headlight beams on the wrecked vehicles.

4. **Call an Officer.** Policemen, highway patrolmen, sheriffs and their deputies are trained accident investigators whose testimony may be invaluable in establishing your civil claim for damages.

5. **Gather Information . . . Write it Down.** Don't trust your memory. Don't guess—be specific. Measure skid marks. Step off distances. Be sure to obtain names and addresses of witnesses. You are required by law to exhibit your driver's license to the other driver—and he must do the same.

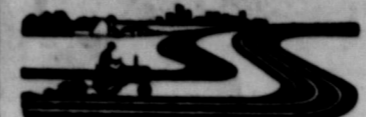

6. **Be Careful What You Say.** Even if you feel you probably are to blame, it is best to make no admission. You may learn later that the other driver was equally at fault, or more so. Emotional comments can be misconstrued by others, or may be misquoted. Whatever you say, make it factual.

7. **See Your Doctor** if there is the slightest chance you may be injured. Serious injuries do not always result in immediate pain or bloodshed.

8. **Consult Your Lawyer Immediately.** The sooner your lawyer is brought into the matter, the better he can advise you and protect your rights. He can obtain statements from the witnesses while their memories are fresh, and do many other things to insure that the true facts are preserved. Get your lawyer's advice before giving any interviews or statements to investigators or adjusters for the other side.

9. **Inform Your Insurance Company Promptly.** Failure to do so may void your policy.

### GRAY COUNTY SOIL CONSERVATION NEWS

Recent heavy rains made many Gray County farm fishponds muddy. Several in the Gray County Soil Conservation District, however, remained clear. The silt-colored ponds attest to costly erosion, while the clear waters reflect better soil and water conservation. A good fishpond can be protected against muddiness.

The most common sources of erosion are pastures which were grazed too closely, unpaved roads, and bare roadsides, field borders and cropland. A better sod, with more grass cover not grazed too close, will stop the erosion in a pasture. Strip-cropping and more crop residue turned into field soils will reduce (and sometimes stop completely) the washing of topsoil from these valuable lands. Field borders can be planted with vegetation for wildlife. A pond can be protected from roadside erosion if grass cover is planted in roadway drainage ways.

Muddy ponds produce a poor poundage of fish. The life-length of the pond itself is shortened rapidly by silt. A pond is a barometer of erosion versus good water. Most cooperators in the Gray County district are trying to keep it reading "clear."

### I GIVE YOU TEXAS By BOYCE HOUSE

Tom Johnson bought a book on a train—and thereby changed the whole course of his life.

A "news butch" came through with an armload of books and offered the traveler a copy of one to examine. Johnson began to read; became interested and when the vendor came back through he paid for the volume. The book was written by Henry George, the Single Tax philosopher.

Johnson was a millionaire business man whose chief interest up until the moment he opened the book was to make money. But, as he read he caught an entirely new vision of the meaning of life. And from that time until his death, he devoted his chief efforts to serving others. As the mayor of Cleveland, he achieved national renown.

A man said, "I was in Houston recently and had a room which was only \$4. The time before that, I stayed at the same hotel and paid \$6 for a room. I liked the \$4 room better. You want to know why? I liked the \$4 room better because it cost \$4."

A good many years ago, a noted circus clown died. He requested that, at the service "Moonlight and Roses" be played.

All the years that audiences had laughed at his grotesque clothes, his painted face and his antics, he had secretly yearned for music, beauty and romance.

On a train, I heard a lady

10. **Report the Accident to the Department of Public Safety.** This is required by law if there is any injury, death, or total damages exceed \$25.00. An official accident report form may be procured from the police, sheriff's department, highway patrol, or state department of public safety.

### New Lighting for Longhorn Cavern

A completely new and improved lighting system has just been installed in Texas Longhorn Cavern near Burnet which provides dramatic illumination designed to best show off the scenic wonders of this marvel of Nature. Many modern theatrical lighting effects have been utilized. More than four miles of wiring were installed and nearly a thousand electric bulbs were used in the project which required over five months.

ask the conductor, "What time do you have?"

He looked at his watch and told her. She inquired, "Is that about right?" He said, "Madam, it had better be exactly right; this train is running on it."

If a man is a "sound sleeper" does that mean that he snores?

### Veterans Information

Q—I'm a Korea veteran, and it will be three years this fall since I was discharged from service. If I decide to go to school under the GI Bill, must I be in training within three years from discharge, or is it enough just to get my application in to VA?

A—You must actually be in training within three years from the date of your discharge. It is not enough merely to apply.

Q—I'm moving to another town and I don't want any mix-up in receipt of my VA compensation check. What do I do about my change of address, tell the Post Office, or the VA, or both?

A—Give your old and new address to your local Post Office, using a change-of-address form. This will ensure forwarding of your check. But to keep VA's records straight, and eliminate the need of forwarding, notify the VA also when you move.

Q—My wife and I are both veterans. The house we live in was bought with the aid of my GI loan, and we need a bigger one now, because our family has grown. Can my wife use her GI loan benefit for another house?

A—Yes, your wife may still use her loan benefit even though you have used yours.

Q—Who can get a grant from the VA for a "wheelchair" home? Is it just disabled veterans of World War II and Korea, or are other veterans eligible?

A—Veterans of all wars, as well as those with peacetime service, may qualify for "wheelchair" housing, so long as they meet the requirements set forth in the law.

Excuse me for bowing, but you will understand when you hear the news. I am the owner of a paradox! My very first one too. Always wanted to find a paradox, but now that I've found one, I'm puzzled.

After a series of family conferences, my husband Bill, and I decided it was time to get a new washing machine. But instead of the machine, we got the paradox.

We both fell in love with an RCA Whirlpool washer-dryer combination, because even in the store it looked to be a familiar part of my kitchen. Of course that wasn't the only reason . . . it had all sorts of wonderful features. Like the 10 pound capacity, and all automatic operation. "Put in the clothes, add detergent, click the dial, and call up your girl friend Marge," Bill commented, "since you have nothing else to do until the job is done."

The only thing we had to decide was whether we wanted an electric or a gas unit. We decided on gas, since we heat and cook with it and it seems to get things done in short order, and efficiently.

"Maybe now you'll be ready on time when we're going out", Bill smiled, adding, "it'll be great not having you complain that you haven't enough time for anything." I didn't have the heart to hit him with a wet mop. Not when he'd just bought a new appliance.

Things haven't turned out like we expected though. My wash gets done in record time, and sparkles magnificently. But I still don't have enough time. That's the paradox. Bill claims he knows why though. He says every wash-day, when he tries to call me up, the phone is busy! Well, Marge has an RCA Whirlpool too, and she is my best friend.

## 40 Years Ago—

### IT HAPPENED HERE

#### Selectmen Leave Monday

Nine class 1 men entrained at Alanreed Monday night for training camps. The people of that city arranged an elaborate entertainment for them, consisting mainly of music by the Pampa band, patriotic speeches and a supper for the selectmen and the band boys.

Following are names of men who went on this call: John D. Hamilton, Thos. J. White, Roy Huff, Jim Woodworth, Fred Gibson and William A. Martin of Pampa; Stephen D. Kennedy of Alanreed; John L. Sullivan and Carl L. Pettit of McLean. Five others who registered in Gray County but who were in other parts of the United States, were also called into service and entrained at the points where they resided at the time.

All the above named men were sent to Camp Bowie except Jim Woodworth, who was sent to Leon Springs to enter service as a wireless operator.

#### Floyd-Gibson

One wedding that surprised everybody, even the most intimate friends of the bride, was that of Miss Eunice Floyd of this city to Mr. T. B. Gibson of Amarillo, which occurred at the Presbyterian manse Monday evening at 10 o'clock. Rev. H. M. Smith officiating. Unlike most surprise weddings, this one was not the result of a brief courtship for the contracting parties first met in 1916 when they were students at Wayland College in Plainview. Mr. Gibson has made several visits in the past, but

seems to have made special efforts not to be conspicuous, for many people never knew he came.

The bride is the daughter of Mr. and Mrs. L. O. Floyd and is well known to our people and popular among a large circle of friends.

The groom is a class 1 man and expects to be called into military service in a few weeks and adopted the popular policy of marrying before he goes.

#### Personals

Miss Robbie Ashby left this week for Boswell, Okla., where she is visiting her grandparents.

Mesdames Frank Haynes, John Haynes and Tom McKenzie of Heald were shopping in the city yesterday.

Miss Ruby Cook was in Pampa Monday.

T. J. Coffey, Mrs. Sallie Coffey, Mrs. Yarborough and Miss Kate Wilson returned home Monday from Hereford, where they went the middle of last week to visit Mrs. Clifford Simmons daughter of Mrs. Coffey, came back with them.

Mrs. John Mayfield and sons, Teddy and Otto, also Miss Blanche Mayfield and Mrs. Charles Biegel made an overland trip to Amarillo Monday, returning the same day.

Miss Lettie Douglas of Erick, Okla., is visiting with the C. E. Rogan and J. S. Morse families this week.

Mr. Clabe Davis and Miss Aline Rector were married at Pampa Sunday, after which they left for Hill County. We wish these people much happiness.

Mr. and Mrs. W. E. James, Mrs. C. E. Francis and Mrs. Petty were Clarendon visitors Monday.

Mrs. J. S. Morse and children, S. B. and Minnie, and Mrs. J. M. Noel and little daughter, Frances, went to Elk City, Okla., Monday, returning Tuesday.

#### Children's Missionary Program

At the Nazarene church Sunday night, will be a program given by the Sunday school along missionary lines, consisting of recitations and songs. An offering for missions will be taken. The public is invited to attend.

## WHEELER TO STAGE CROP PROGRAMS

Key personnel from the A. and M. extension and research service and area experiment stations, along with other high ranking state agriculture leaders, met in the Wheeler County courthouse Wednesday with State Representative Grainger McIlhany and area farmers to discuss the feasibility of establishing "On-the-Farm Crop Demonstrations in Wheeler County.

### FOUR PROGRAMS

The group decided to kick-off the on-the-farm demonstrations with four programs. More will be added next year. The test plots will consist of grass test plots, cotton variety tests, grain sorghums, cotton fertility and brush control.

Dwane Scott, farm demonstration assistant of Wellington, will work in conjunction with Bryan Swain, county agent, and a county committee to set up the program in Wheeler County.

This program is designed to test the yield and growth of new varieties of crops within particu-

lar areas and also to demonstrate improved farming methods. Sponsored by McIlhany. These demonstrations are authorized by legislation that was sponsored by Rep. McIlhany. This program is currently being carried on in Collingsworth and Hall counties and has been highly successful.

The design of the experiment will be under the supervision of experimental station specialists.

Grain sorghum trials are to be planned by Dr. N. W. Kramel and Jack King, Lubbock; grass evaluation trials under the direction of Judd Morrow, Big Spring; irrigation studies under the direction of M. E. Jensen, ARS, Amarillo; brush control demonstrations from suggestions by G. O. Hoffman and R. A. Darrow, Range & Forestry Department, College Station, and C. E. Fisher, Spur; fertilizer studies under the direction of Alex Poppe, Amarillo.

Continued studies on alfalfa insect control by Norris Daniels, Amarillo; weed control demonstrations under the direction of Allen Wiese, Amarillo.

Those who attended the meeting were: G. W. Thomas, Texas Agriculture Experiment Station, Lubbock; Lindsey McCasland, farmer and rancher, Wheeler; J. G. Simmons, district agent, Vernon; J. S. Coleman, farmer,

Wellington. C. J. VanZandt, farmer, Wheeler; Knox Parr, district agent, Amarillo; Clarence Morris, county judge, Wheeler; W. B. Hooser, county agent, Hall County; Brown Smith, chairman program committee, Hall County; Robert Lynch, county agent, Collingsworth.

### CONTRACTORS' NOTICE OF TEXAS HIGHWAY CONSTRUCTION

Sealed proposals for constructing 0.000 miles of Channel Change and reclamation work located on McClellan Creek north of McLean on Highway No. SH273 covered by C 560-2-13, in Gray County, will be received at the Highway Department, Austin, until 9:00 a. m. June 10, 1958, and then publicly opened and read.

This is a "Public Works" project, as defined in House Bill No. 54 of the 43rd Legislature of the State of Texas and House Bill No. 115 of the 44th Legislature of the State of Texas, and as such is subject to the provisions of said House Bills. No provisions herein are intended to be in conflict with the provisions of said Acts.

In accordance with the provisions of said House Bills, the State Highway Commission has ascertained and set forth in the proposal the wage rates, for each craft or type of workman or mechanic needed to execute the work on above named project, now prevailing in the locality in which the work is to be performed, and the Contractor shall pay not less than these wage rates as shown in the proposal for each craft or type of laborer, workman or mechanic employed on this project.

Legal holiday work shall be paid for at the regular governing rates.

Plans and specifications available at the office of G. K. Reading, Resident Engineer, Pampa, Texas, and Texas Highway Department, Austin. Usual rights reserved.

## Brand New Brood

A. S. Jackson, Canadian, reported observing a turkey hen with a brood of young last week. Jackson said that he didn't get near enough to the young turkeys to count them but they appeared to be about three or four days of age. The brood was observed on the Gene Howe Wildlife Management Area northeast of Canadian.

A dry spring is always better for a good turkey hatch; however, even though it was wet this spring, there were no washing rains to disturb or wash out the nests. Probably we will have a very good hatch this year and the birds should grow at a fast pace, considering the large amounts of weeds and insects.

Turkeys hatched in May and killed in November will be six months of age. That seems a little young but these early hatched birds will weigh over 12 pounds this fall. Some turkeys will be hatched in June and perhaps some in July. These will be smaller but should be of sufficient age to determine the gobblers from the hens.

## Conchas Overflows

Millions of gallons of precious water will make its way from New Mexico through the Texas Panhandle into the Gulf as a result of Lake Conchas being more than full. It has been nearly 10 years since the lake began to dry up. For the last few years the river above the Borger bridge has become dry for miles in places.

There should be a steady stream flowing all summer.

**Canadian Dam for Free?**  
If there were some way to trim 10% from all foreign aid with the funds earmarked for the Canadian River dam, we could, in my opinion, have us a huge lake in less than two years. Guessing at the future as from the past—my guess is that the dam will be constructed in, say, about 1999 or later. (I'd be willing to settle for a 40-foot dam for flood control instead of the proposed one, if we could get the 40-foot one started this year.)

If there were a series of dams constructed from the New Mexico line to the Oklahoma state line, we could have lakes for hundreds of miles here in this so-called desert.

## Lamb's Quarter P'entful

Thousands of acres of wild "lamb's quarter" decorate many of the bar-ditches all through the Panhandle. Lamb's quarter is simply a weed, but it is delicious food when prepared correctly, especially for those who relish spinach, turnip greens or other green vegetables. In a few days the weed will probably be too well matured to be suitable for the table. Of all the green vegetables, including poke salad, this one is far more tasty.

Proper way to prepare the weed is about the same as for spinach. Wash thoroughly, boil a few minutes, then wash or, rather, pour off the water, and add more, then cook until done, add bacon grease salt and either fry or cook until practically all the

water is cooked away.

## Bird Dog Trainers

The American Field, the number one dog magazine, in my opinion, has listed a score or more topnotch trainers of bird dogs. Many of these trainers will go to Canada and work dogs on native wild prairie chicken on the Canadian prairies this summer. The usual fee, if I'm not mistaken, is \$200 for the Canadian summer training. Such noted trainers as Jack Harper, Benton, Miss., the trainer of last year's national champion; Delmer Smith, Edmond, Okla., plus many others are still looking for a few dogs to take to Canada. About four months will be the length of the training period, which will add up to \$50 per month.

Canadian trip, including those owned by D. T. Fuller, Borger; Sibley Jines, Perryton; and Jim Bell, Amarillo.

**PANHANDLE OUTDOOR LIFE**

Continued from Page 7

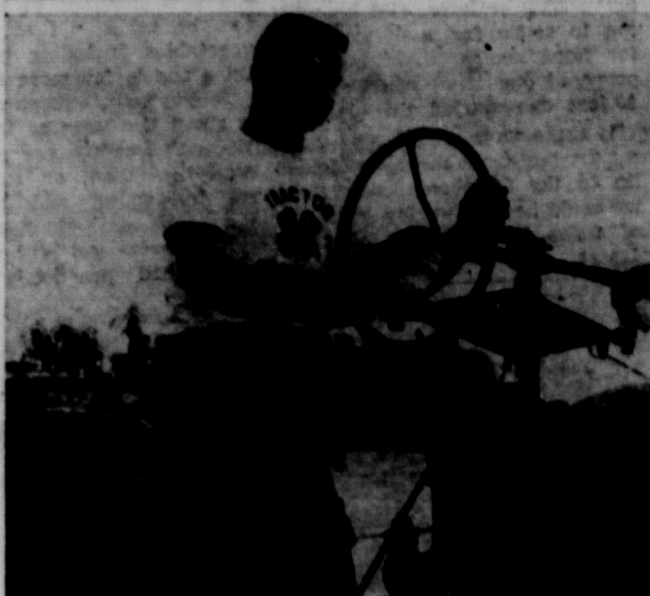

ceased, and Myron Blackburn, two Panhandle boys, went to Canada and observed some of the trainers at work. Upon returning they related that they heard a trainer or so remark, "I broke such and such a dog today." It seemed odd to me that a trainer could break a dog in one day's time.

Later, talking to a full-fledged dog man, the subject came around and the man said, "Probably what the trainer meant was that at last he had found the correct time and occasion in order to correct the dog and had done so."

At first almost any young bird dog will flush and chase quail or other birds. He will also need to learn what he is hunting in the first place. When the dog has found, flushed and chased enough birds, the professional has a sixth sense that tells him when to correct the dog. Correcting too early in the training process will cause a dog to avoid birds because the dog will understand that he is being punished for some mistake that he didn't know he performed. Punishing a dog is okay if the dog knows why he is being punished, but to punish a dog at the improper time is foolish on the trainer's part and will possibly cause the dog to shy away from game birds.

In the first place an amateur trainer should know what to expect out of a green dog and, second, how to train same. "How to Train Hunting Dogs," by Wm.

**4-H'ers Learn to Curry the Iron Steed**

Instead of currying horses and mules, American farm youth today learn to curry tractors to do the big farm job. They find that both have much in common. The iron steed as well as the old grey mare needs food (fuel) for energy, clean air for full power, and daily care for peak efficiency. The 4-H boy pictured above is typical of the 550,000 club members who have benefited from special training received in the annual 4-H Tractor program conducted by the Cooperative Extension Service, and arranged by the National Committee on Boys and Girls Club Work, Chicago. Along with "learning by doing" in machinery operation and

F. Brown, editor of the American Field, is one of the most complete books on the market. Any amateur trainer should study this book thoroughly before attempting in writing this book, not only gives his ideas on how to accomplish all of the objectives but the ideas of many of the other trainers who are nationally recognized. If interested, contact the American Field, 222 West Adams St., Chicago, Ill.

**Lefors to Have New Telephone Building**

Clyde Dickerson, manager for the Southwestern Bell Telephone Company, announced plans for a new telephone building in Lefors. The contract for the building has been awarded to the Wes-Tex Construction Company at Borger. Ten construction firms located in Pampa, Borger and Clarendon were invited to bid on the project. Dickerson said the overall cost of the project including building and equipment would be about \$60,000. The structure will be a one story frame building with

**SPARKS FOR MINDS**  
ALMOST five centuries ago, Gutenberg's invention of movable type started a revolution. It has been going on ever since.  
For five times five centuries—and soon before—a few men were the privileged rulers—by accident of birth or of circumstance. The people were subjects, supporting those thus kept in authority.  
However, movable type, by cutting the cost of printing, began the process of making knowledge more widely available. People's understanding then grew. Sparks of hope were awakened in the minds of men. When it became apparent to entrenched authority that permitting wide dissemination of information and ideas might in time destroy their insecurity, censorship was exercised.  
In a search for greater freedom, men of many races and creeds crossed the ocean to establish homes on this continent. They and their children founded here a nation dedicated to a new principle: government by the people, and for the people. And knowing that liberty could be overthrown only by subduing freedom of speech and the press, they provided further that this basic freedom should never be abridged.  
That system of government created an opportunity for all men to advance, limited only by their efforts. In but a few generations it won for this people a higher standard of living and of human welfare than had ever before been dreamed possible.  
America's freedom of the press has proved to the world that the patriotic instinct of an informed plain people can be relied on to govern wisely and well.
