### Treat For Graduates!

Top off the Graduation exercises with a party... and let these clever ice cream "graduates" serve as dessert! So easy on the hostess, too! For the main course, the boys and girls would love having both frankfurters and hamburgers on toasted, mustard-spread rolls, served with sliced dill pickles and a salad. Serve pitchers of milk, a fruit punch — and then surprise and delight them with this easy-to-make dessert. For a special touch, roll the napkins diaphana-style and tie with the school colors.

**Ice Cream Graduation Dessert**

- 1 quart vanilla ice cream
- 2 cans (about 2-2/3 cups) Angel Flake Coconut
- 12 chocolate-coated graham crackers
- Maraschino cherries
- Chocolate chips
- Jam

Scoop ice cream into balls and place in a "ruff" of flaked coconut on serving plate. Press a chocolate-coated graham cracker on top of each ball for the "mortarboards." With a bit of jam fasten short tassels of ribbon on top of "mortarboards." Cut a slice of maraschino cherry for the mouth; use chocolate chips for eyes. Serve 1/2 once. Makes 12 servings.

### WHY NOT BE A CHRISTIAN?

In New Testament times the disciples were called Christians first at Antioch. (Acts 11:26) They were not any particular kind of Christians, they were simply Christians. The reason for this is that the teaching of the gospel will produce Christians, nothing more and nothing less. It takes something besides the gospel of Christ to produce anything else.

Sometimes people wear names in the religious world other than the name Christian. They are known by the name of some man, act, or way of doing things, in addition to the name Christian. However we should note that these names were not included in the gospel that Paul preached and the gospel that those at Antioch had obeyed. A solemn warning is given in Gal. 1:8 concerning anyone who would preach any other gospel than that which had been preached by the apostles. To wear religious names and teach doctrines not taught in the New Testament one has the anathema of heaven upon him.

The teachings of men today produce many other names for those who are professed followers of Christ than the name Christian. However it should be noted that being a Christian was sufficient for the apostles and all those in the church of our Lord during the first century of Christianity. Is it not sufficient for us today? Why should any servant of Christ want to be known by any other than the name Christian? It is in this name that we can, and do glorify God. (1 Pet. 4:16) If you are anything else chances are very likely that you have obeyed some other doctrine than that taught in the New Testament.

Are you a Christian, nothing more and nothing less? If not why not become one now? When you obey the gospel of Christ as it is taught in the New Testament you will be a Christian. Only Christians will be in heaven, and if we insist on wearing human names that divide us here how can we expect to be together over there.

### WE ARE FAST BECOMING A WELFARE STATE

The American people will place a new man in the White House this year. In November, they will elect this man and he will take office in January, 1961. This could be an important point in our march to becoming a welfare state. Under eight years of "conservative administration" we have advanced down the road at a rapid rate. Under a liberal leadership we will have arrived.

The President of the United States cannot be blamed completely for our welfare spending; many times he has used the veto. Congress also has to change the line of thinking of this day and time, in order for us to become once again independent of government aid. We, the people, must realize what we are demanding, also. A combined effort of the public can stop this trend.

Each year we are faced with a larger budget. Defense is the alibi used to cover the increase, but facts prove this is not the case. Quoting U. S. News and World Report, we should like to show you some figures:

In eight years monies allotted for welfare have risen from \$6,900,000,000 to \$20,300,000,000. Farm aid started at \$2,900,000,000 and is now \$5,400,000,000. Roads, housing, etc., were pegged at \$2,300,000,000 and are now \$5,500,000,000. Veterans benefits were \$4,900,000,000 and now are at \$6,100,000,000. While defense was \$50,500,000,000 it is now \$45,900,000,000, a decrease of \$4,600,000,000.

One can see from these figures that national security has been reduced and the welfare state costs are continually rising. We need not fear communism, since we are heading for socialism much more rapidly than most realize, and the end result is similar.

It is time for the American voter to raise his voice. Instead of assuring a candidate that he will get your vote if he will swing a government project your way, you had better tell him he will get your vote if he promises to stop saying "aye" to every handout bill being presented. We had also better form a lobby. There are some operating (on your money) to pressure Congress to vote for their own wants and to influence legislation for the few. These groups raise as much as \$1,000,000 a year each to spend for the welfare of their pet projects.

Government is business. Subsidies are gaining instead of declining. The state is a poor second to the federal government as to rights. If this trend continues, confiscation of property is not too far behind.

## WALTER ROGERS REPORTS

### COMMENCEMENT

In only a few weeks over 3,000 young Americans will graduate from high schools in the 18th Congressional District. Some of them will begin careers immediately while others continue their education at colleges and universities all over the nation. But whatever their future plans and ambitions, the day when these young men and women are handed their diplomas is a proud one not only for the students themselves, but for the parents and teachers who have done so much to ensure that an education means understanding as well as knowledge.

Here in Washington, I am always reminded of our high school graduations as thousands of students from across the United States arrive for class visits. As they walk through the capitol building and see the Congress in session, it will be only a few months until they begin to accept the responsibility for furthering the heritage which was in considerable part forged in that very building.

I trust that none of them ever ignores the fact that this heritage, which has made America so strong and free, is not something which was completed before their time. It is true that the basic groundwork was laid almost 200 years ago and that many significant advances have been made since. Nevertheless, the opportunities and even the necessities for building the American ideal are just as demanding in 1960 as they were in 1776.

After receiving their high school

diplomas, our young people will confront a world which demands the utmost in precise thinking and resolute action. While our forefathers began a nation with the powder horn, plow and axe, people of today and tomorrow will continue the process with tools a thousand times more complex. This complexity should not frighten these young people, for within it lies the potential for great good. They should be aware that the potential for great harm is also there, and that their efforts can be directed against that harm.

In addition to this, I hope that the prospective graduates will remember that democracy is the most difficult of all possible forms of government. There is a trend in our nation to leisure and com-

fort, and it makes us all happy that more and more are reaping the benefits of our phenomenal advances. But the processes of our government can never become as simple and as carefree as many of our young people think. The leadership in the United States cannot summarily carry out this or that measure without taking into account the interests of millions.

This usually requires time, and even the revolution which has occurred in our communications system has not overcome the lengthy consideration which must be applied to most of our decisions. Many of us become impatient with the delays which surround much governmental action.

A smooth-running and more responsive government depends to a

great extent upon a well-informed people, and I think the students who are about to graduate from high schools all over the Panhandle will play a major role in this regard. With 12 years of a fine education behind them, these youngsters are well prepared to grapple with the far-reaching and often confusing problems of an adult democratic society and sound government.

The graduation exercises will mean a fine reward to those who have worked and studied for what to them seems so long a time. To me, however, commencement always symbolizes the constant striving of people for a better understanding of our world—a striving which is the hallmark of a democratic government.

Self-denial has become a trait that few of us practice, and what is more tragic almost none of us teach our children. To think our family should have everything that other folks get has become a common denominator in most of our financial planning. That our children should be given the frills and thrills equal to those given by any parents among our acquaintances has become not only a goal but a must.

noble dedication and worth not only working hard to achieve, but also going in debt to the hilt for. We tell ourselves our children are the best in all the town, and they certainly should be, to us. We reason that they will be young only once and that we owe them the best and the most of everything from entertainment to luxuries. It is easy to see how we completely sell ourselves on the idea to the point that the ultimate result is forgotten.

There are some very important outgrowths that we need to consider. We cherish our pioneer families, not only because they blazed a trail but for their ruggedness and self-denial during their active years. This not only made security for them but also for the children. We are thankful later on for every lesson in thriftiness that we remembered. It helped us when the chips were down, and down they

On the surface it sounds like a will come sometime.

## TELEPHONE TALK

By Joe McDonald, Manager

### NEW BILLING METHOD

In another step to increase our operating efficiency and keep down the costs of furnishing you telephone service here in McLean, we have adopted a faster, more economical method of billing.

Beginning with your next telephone bill a punched card will be included in your bill. This punched card replaces the stub portion of your old bill, so please be sure to return the punched card with your payment.

Please remember these two points:

- (1) If you pay your bill by mail, enclose only the punched card with your payment.
- (2) If you pay your bill in person, bring both the punched card and your bill with you.

You will continue to receive the other part of the bill as you have in the past. Only the stub is being replaced by the punched card.

Also, it is very important that the punched card is not folded, torn, or marked in any way.

We will appreciate your cooperation in making this change here in McLean. We look forward to a continuing search for better ways to serve you and your communication needs.

### SPRIT OF SERVICE IN ACTION

Every now and again I hear a warm, human story about people that makes me feel pretty good. I think this one will make you feel good, too.

Here's what happened: A man and his wife had come to court to adopt a little girl—a German orphan. But one of the officials told the man (dressed in a suit and sport shirt) that it was the local custom for a man to wear a tie when appearing before the judge in court.

Protesting, the tieless man said if he were not allowed in court now, the adoption would be postponed, perhaps for months.

At this point, Jerry Sharp, a veteran installation foreman for Southwestern Bell who happened to overhear the conversation, removed his own tie and, handing it to the man, said, "Here, take mine."

Well, a few minutes later, the adoption proceedings were underway and the little girl had a new family. So often it's the "little" extra things you do that help the most.

### BRIGHT IDEA FOR SPRING

Driving around McLean the other day, I suddenly realized that Spring is with us again.

Everywhere I went—from Main to Pine Streets—I saw the drab signs of winter being replaced by fresh new colors. Color seems to be the talk of Spring.

Perhaps you've seen our magazine ads suggesting that you "pick-a-phone from a garden of colors." It's a timely reminder that a color extension phone is an easy, inexpensive way to add a dash of color, and time-saving convenience, to any room. Nine beautiful colors to choose from! You can order yours by calling the telephone business office.

Call by number. It's twice as fast.

Gregory Peck — Deborah Kerr

Some day our children will be awakened from the dream world we have built around them. We need to weigh carefully whether the used up memory of some popular frill will be more valuable than remembered lessons in self-denial along with a reasonable amount of stable and planned security.

Good intentions are a wonderful thing—especially if they are backed up by at least a fair supply of good deeds. We remember living by a lady once who was always making excuses for her neglect, mistakes and wrong doings by saying: "Well, at least my intentions were good." We can get by for a while with this excuse but pretty soon folks begin wondering.

Another friend of mine has developed a bitterness toward folks who used good intentions as an

olibi in the place of admitting their mistake. He would say in his plain spoken way: "Hell is full of folks with good intentions."

A peck of service is better than a bushel of promises.

An ounce of understanding is worth more than a pound of flattery.

Now and then we find a person who gives credit for his success to his burning the midnight oil. To hundreds of others success came because of daylight toil.

**Changes in Election Law**  
**OCHILTREE COUNTY NEWS:** The Democratic primary election will have some changes this year, thanks to two new laws which change the complexion of political conventions in Texas.

One is called the "Party Affiliation" law and the other fixes new dates for the primaries and conventions.

The first of these laws will take some getting used to. A person becomes a member of the Democratic party when he casts his ballot in the primary. Only party members, those who have voted in the primary that day, may participate in the precinct, county and state conventions or hold a party office.

In other words, regardless of the number of times you have voted the Democratic ticket, you cannot participate in your precinct convention unless you voted in the May 7 primary.

Your poll tax receipt will be stamped "Democrat" and every election judge will have a supply of these stamps for that purpose. If you lost your poll tax or are exempt, there are affidavits to that

effect and you must have these stamped "Democrat."

After once voting in the Democratic primary, the voter cannot participate in another party's convention.

When it comes to the general election in November, however, a voter can split his ballot as much as he pleases. There will be nominees from every party listed on that ballot and these may be split. Most Democrats vote the straight ticket. Many do not. There is no law stating that you must, although there is a pledge on the primary election ballot, stating that you will support the nominee of the Democratic party.

This new election law, and the change in election dates, has proved somewhat confusing. People need to inform themselves before casting a ballot.

**Moral Standards Decline**  
**THE LOCKNEY BEACON:** At the risk of being called a pessimist, among other things, we are wondering if the socialistic trend which has gripped this country for the past 30 years is not contrib-

uting greatly to a moral and spiritual breakdown of the people of our nation.

Since socialism rewards laziness, puts a premium on the inability of one to provide for his own needs, and actually encourages lack of initiative, it seems to us that all this business of the government taking care of us from the cradle to the grave takes from those who

benefit from it a sense of responsibility not only to themselves, their families, their state and their nation, but even to God Himself.

A lack of a sense of responsibility naturally is followed by a breakdown in moral standards and conduct.

**Everybody's Problem**  
**WESTERN OBSERVER, ANTON:** Crime costs this nation some \$22 billion a year—and "in the last 10 years something has happened to the American public that is worse than communism. A new kind of crime is sweeping the nation. People claim it's all right to be a

little thief, to do a little wrong." That indictment comes from a real authority—Juvenile Judge Gilliam of Denver. Naturally enough, he is particularly concerned about juvenile delinquency which, it is forecast, will double in the next 10 years. He says: "The belief seems to be 'Never get sore about anything. Don't fight the racketeer; you'd just get hurt.'"

"I ask boys why they stole, and they answered 'I didn't want to be a square.'"

"Can you imagine a great American who would say 'I didn't want to be chicken?'"

"Thomas Jefferson and George

Washington were angry Americans."

What we are confronted with is a great and gnawing moral problem. To quote Judge Gilliam once more, "We'll have delinquency as long as we have people who don't care, sloppy homes, people who excuse wrong-doing, poorly-trained teachers, filthy magazines and violent television programs." And this problem is everybody's problem.

### MAKING THE MOST OF ONE'S SELF

No one is happy unless he is reasonably well satisfied with himself, so that the quest for tranquility must of necessity be begun with self examination. We shall not often be content with what we discover in this scrutiny.

Henry Channing, a clergyman who was chaplain to our Senate in the last century, wrote the following on making the most of one's self:

"To live content with small means; to seek elegance rather than luxury, and refinement rather than fashion; to be worthy, not respectable; and wealthy, not rich; to study hard, think quietly, talk gently, and to act frankly with an open heart. And it will be noted that this must be achieved through your accord with God. No government can do it for you."

## Down Memory Lane IT HAPPENED HERE 40 Years Ago

Taken from the Files of The McLean News, 1920

Orchestra Organized  
 For several months, Jack Hodges has been trying to get an orchestra or band organized here, and last week his efforts were finally successful, and Prof. Harry H. Williams of Shamrock will soon begin the instruction of a class of about 30, which will be formed into an orchestra as soon as they progress enough in their studies.

The need of more and better music in McLean has long been recognized, and the new orchestra should meet with the hearty approval and cooperation of all who love music.

The News has been unable to secure the names of all the members of the new orchestra, and the following list of names is incomplete:

- Piano—Miss Floy Glass.
- Viols—Charles Jordan, Ralph Jackson, S. B. Morse, Vernon Rice, Leon Bodine, Paul Ashby, Floyd Lively, Misses Gladys Holloway, Bobbie Hodges, Moody Newman, Mildred Mayfield.
- Cornets—Sam Cubine, Melvin Davis, Carl Ashby.
- Flute—Jack Hodges.
- Trombones—Jesse Kinard, Otto Mayfield.
- Saxophones—Mrs. Harry H. Williams, Burette Kinard.
- Cello—Wayland Floyd.

Mrs. T. A. Massay has returned to her home here after several weeks visit in Gainesville and Tallahassee, Fla.

See us for pepper and hybrid tomato plants. Shamrock Floral, 120 S. Main, Shamrock.

Bass viol—John Stratton. Percussions—Ted Mayfield.

### Starts Work on New Home

C. S. Rice broke dirt Monday for the new five-room bungalow he will erect on Second Street, just west of the Clay Thompson home.

Mr. Rice's home will be finished in stucco, and will have modern built-in conveniences. It will be of attractive design, and will be an ornament to that section of town.

### Sidewalk Jobs Completed

The block of concrete sidewalk that runs in front of Clay E. Thompson's residence and the site

of the new home C. S. Rice is building on Second Street was finished Monday. The same day a crew of men completed the half-block in front of the M. D. Bentley property. This makes the sidewalk construction on Second Street more than half finished. Work is progressing on other sections of the walk, and we hope to report the completion of all of it soon.

### Go on Fishing Spree

John W. Kibler, W. O. Todd, Hubert Roach, Jess Ledbetter, Carl Overton and Wright Wise went out to John Carpenter's place on North Fork Monday night. The News does not know what kind of luck they had, except what Joe Hindman told us W. O. Todd said, which is that they caught about 50 fish. We did not understand whether that figure included minnows or not.

### Personals

Miss Frankie Mae Upham, who has been visiting in Dimmitt for the past two weeks, returned Wednesday night.

Elmer Reeves, who is in the real estate business in Alamogordo, was in the city Tuesday.

Sam Hodges is having his home in the northwest part of town painted.

Miss Nona Cousins, who has been teaching near Dumas, came home Thursday night of last week, her school having closed.

Mr. and Mrs. Roy McCracken of Alamogordo were in the city Wednesday.
