Just Between 6 gBd

If you're becoming more exasp ed than we are over the hos ital plans for McLean . . just on a little longer!

The delay now is for a good ason - a search for additional ands to assure construction of a 20-bed hospital.

It's sad, but that's the way it The \$150,000 bond issue voters here and all over Gray County approved last July won't provide enough money for the size hospital we all thought would be built.

A meeting of the Gray-Pampa Foundation was scheduled for 4 p.m. today in Pampa to discuss the possibility of obtaining a grant from the foundation to help pay

for the hospital. It is a meeting that had been sought for sometime. Whether the foundation will see fit to furnish all or any portion of the estimated \$20,000 needed for the 20bed hospital won't be known until after the discussion is over. It goes without saying, we hope the foundation directors are generous. This is the same source funds used to construct Lovett Memorial Library came from. -jbu-

If the entire \$20,000 isn't provided by the foundation, perhaps the county commissioners court can be prevailed upon to take the remainder from the Highland General Hospital fund.

So far, there has been a reluctance to do this. The hospital fund, at last report, contained close to \$200,000.

When plans for constructing a hospital in McLean were first being sisted by Rev. David Thomas, discussed some two years ago, the city commission attempted to secure the money from this fund etery under the direction of Lamb for the entire project.

However, the attorney general as ruled in a similar case that q

SUPERSONIC JET: The Concorde supersonic jet will be the successor to the Caravelle, France's first passenger jet achievement, and one of the world's most popular aircraft. The Concorde is now being designed by French aeronautic firms. It is to fly at 1,450 miles per hour and carry 204 passengers. Inaugural flight is scheduled in 1969. The supersonic jet will be 169 feet and 11 inches long, with a wing span of 77 feet and one inch. Plans call for it to pass the sound barrier at 39,400 feet altitude, reach cruising speed at 53,000 feet and continue to rise gradually to 63,000 feet.

Funeral Services For

Jinks Hill Are Held

only a few bales remaining in

such a fund could not be used for constructing a hospital.

Members of the hospital board, in a meeting with the McLean city commission, said that they would be happy to take money from the fund to equip the hospital -if a bond issue could be voted to construct the building.

But once the bonds were ap proved, the hospital board decided it did not desire to release any of the money for equipment.

This is where the rub has come Enough money is available nowwith the \$150,000 in bonds and \$15,000 from the county building fund-to construct the 20-bed hospital, with some left over for

equipment. But the \$20,000 is needed to complete the equipping.

-jbu-We do not mean to be critical the entire hospital board. John C. Haynes, McLean's mayor, is a member of the board, and he has tried unsuccessfully for months to convince other members that the hospital fund would not be seriously depleted with the release of the \$20,000.

Actually, the county commissioners court has the final say on whether any of the money will be used. The commissioners prefer to eration of the Alanreed telephone follow the recommendation of the system last summer, and immedhospital board, since the board was jately began making preparations appointed to handle hospital affairs. for the change to dial operation.

Commissioner Truitt Johnson of McLean has indicated to us that he is willing to introduce a motion in the court to take up to \$4,000 underground. from the fund for use in the Mc-Lean hospital.

To be entirely fair . . . there are certain pieces of equipment at Highland General Hospital which need to be replaced now, or must be replaced or repaired some day This, the majority of the hospital board members explain, is the reason they want to keep a cently sold an Aberdeen-Angus bull

Welch's Contract

Extended for Year

Supt. Lee Welch was given an other year's extension on his conract Monday night by the McLean board of education.

Welch's contract had been scheduled to expire in 1966, but the board's action extends this to 1967. The action was taken at the board's regular monthly meeting. During the session the board also set April 4 for the annual trustee election, and approved the hiring of Mr. and Mrs. Homer Abbott and Mrs. E. L. Price to work at the polls.

4 DEGREES IS CITY'S LOW

If you thought it was unusually cold the past week, you were right! Lowest reading recorded in the seven-day period was four degrees on Monday morning, and the mercury plunged into the teens or below nearly every night.

The highest point reached by the thermometer was 55 degrees. This came last Friday.

McLean remains moistureless through the first 16 days of the year. By this date in 1963 a grand total of .35 inch in the form of rain and snow had fallen on the city.

18 ACP Practices Are Approved For **County Landowners**

Eighteen ACP program practices have been approved for 1964 for Gray County, according to Miss Evelyn Mason, manager of the county Agricultural Stabilization and Conservation Service.

Miss Mason reminded farmers and ranchers that applications must be filed before work is started on the practices, if cost-shares are to be requested.

The approved practices include Seeding grasses, control of sagebrush and shinnery, constructing water wells, constructing livestock water dams, constructing permanent fences, establishing waterways, constructing terraces, constructing diversion terraces, constructing SHORT SNORTS-State's general erosion control dams.

revenue fund showed a \$23,800,000 And constructing drop spillways, deficit at the end of December. etc., reorganizing irrigation sys-Total cash in all state funds was tems, land leveling, subsoiling, . . .
