Just Between Us

At a sudden, Christmas is around the corner. McLean is getting ready for the final observance of 1963. When we left town last Wednesday afternoon for Arkansas, everyone was thinking only of Thanksgiving. The Christmas season was not when we returned, with street decorations in place and local stores taking on festive appearances.

In the past, the Yuletide shopping season was delayed each year until after Thanksgiving. But many cities and towns we passed through en route to "The Land of Opportunity" were already in the mood. Perhaps it was because Thanksgiving seemed so much later this year than before.

Anyway, you have just 16 more shopping days!

The construction of new hospitals seems to be the rage at the moment. Bonds have been voted—and sold—for ours in McLean, and plans are in the mill at Wheeler and Shamrock.

At Canadian, they're wasting no time on a new wing for the Marshall County Hospital.

A \$50,000 bond issue was approved in September, and bids have already been invited.

Just when Alameda's new school building will be built still is a question mark.

Bids were too high on the structure—exceeding by several thousand dollars the \$100,000 bond issue voted for the school.

It was hoped that revisions could be made to reduce the cost, but so far this has been unsuccessful.

Plans were presented to the board of education Tuesday night, and "no one was satisfied with them," Supt. George Smith told us Wednesday.

Comp and the school board are hopeful that the matter can be settled soon, opening the way for construction of the modern new building.

W. C. Shull is credited with naming "Mexicali Rose," the five-month-old Mexican baby who was fought for life Tuesday in the hospital.

The infant was taken to the hospital last week by Dr. Richard H. Dyer, brother of the late Charles H. Dyer.

Mexicali Rose—real name, Rosa Trevino—was the daughter of a Mexican farm couple who was suffering from a severe mental disorder, as well as malnutrition, when admitted to the hospital.

Shull, an employee of the hospital, explained that "when I began working with her the first name (name) that popped into my mind was 'Mexicali Rose.'"

The name stuck, and residents of the town opened their hearts to the baby in an effort to help her.

BEAUTY SETS SPEED RECORD: Mix beauty and speed and you have the world's fastest woman stock car driver. That's the title Paula Murphy claims following her record-shattering race across the Bonneville Salt Flats in Utah. The 28-year-old California sports car rallyist and race driver sped through the flying mile at an average two-way speed of 161.29 miles per hour, topping by 10.915 miles per hour the former women's record established at Daytona Beach, Fla.

MHS SENIOR IS COMMENDED

Scores High On National Test

A McLean High School senior has been honored for her performance on the National Merit Scholarship Qualifying Test given last spring. She is Joyce Beasley, daughter of Mr. and Mrs. Guy Beasley. Robert L. Green, MHS principal, said that each student who is endorsed by his or her school receives a formal Letter of Commendation signed by the principal and by the president of the National Merit Scholarship Corp.

According to John M. Stalnaker, president of the corporation, some 32,000 students throughout the country are being awarded Letters of Commendation in recognition of their outstanding performance on the qualifying test.

"Although they did not reach the status of semi-finalists in the current merit program, they are so capable that we wish to call attention to them," Stalnaker said.

Judging was held on Tuesday, with the bull sale set for Wednesday afternoon.

The top Hereford bull was Doctor Silver Prince 17, consigned by Clyde Magee, and the grand champion Angus was Saunders Emulous Elkenmere, consigned by George Saunders.

Judging was held on Tuesday, with the bull sale set for Wednesday afternoon.

'Santa Day' Will Be Dec. 14 in McLean

"Santa Day," sponsored annually by the McLean Lions Club, will be held on Saturday, Dec. 14, it was announced this week.

Every youngster in McLean and throughout this area is invited to the event, which will feature the first visit to the city of Santa Claus.

Johnny Haynes, president of the Lions Club, said that treats will be distributed by Santa and his Lions helpers to the children during the afternoon.

Starting the festivities is to be the showing of a special film at

the Avalon Theatre. Santa Claus will be waiting for the children as they leave the theatre.

At the regular Lions Club luncheon Monday noon, Haynes appointed J. W. Mescham as chairman of the Santa Day committee, which will plan the activities.

Other committee members are George Saunders, Ted Reines and Dr. W. D. Maxwell.

During the Christmas season, the club also will distribute baskets of food to needy families in McLean.

Ministries of the city churches will select the families to receive the food.

Funds for the Santa Day and baskets for the underprivileged are derived from the sale of Christmas trees by the club.

The trees were delivered to McLean over the weekend, and are now being sold at the old Post Office Building on Main Street.

Mr. and Mrs. N. A. Greer are selling the trees, and sales will continue until the day before Christmas.

COTTON QUOTA VOTE TUESDAY

Balloting Here And in Pampa

The cotton referendum to determine if marketing quotas will be in effect in 1964 is scheduled in Gray County and over the nation on Dec. 10.

Miss Evelyn Mason, manager of the county Agricultural Stabilization and Conservation Service office, said that all persons engaged in the production of cotton are eligible to vote in the referendum.

Polls will be open from 8 a.m. to 6 p.m. at the McLean city hall and in Pampa.

Notice of the 1964 cotton allotment will be mailed so all persons will have them before time to vote.

Two-thirds of the producers voting must approve before the quotas will be in effect for the 1964 crop.

Some of the 1963 agricultural conservation program allocation still remains to be used for eligible practices that will be completed during this calendar year, Miss Mason reported.

Any interested producers should request approval before the practice is started.

CCC loans on the 1963 commodities can be obtained through Jan. 31 next year, it was announced. Loans on wheat and grain sorghum will mature on March 31, 1964.

In the feed grain program, the ASCS personnel are now working on establishing the 1964 bases and payment rates for barley, corn and grain sorghum.

The base acreage will be based on the years of 1959 and 1960, but the yield is to be based on a four-year period of 1959 through 1962.

'64 Pontiac

Here's why you'll like it.

Here's why you'll tell other people you like it.

Wide-Track, for instance. Wide-Track is what does away with tilting your way around turns. Pontiac's smoother, quieter ride is another thing you might point out. A big 389-cubic-inch Trophy V-8 is standard in each and every Pontiac. You get to choose from 34 engine/transmission teams to harness all that power. (Happy choosing!)

Now then—on to more of the things that

make the '64 Pontiac so thoroughly likeable. Frankly, we couldn't think of anything radical to do with this car. Oh, we made the styling even more stylish, as you can plainly see. We lavished even more care on the interiors. We even improved the light bulbs. But as for more vital things, why change? Improve, refine, sharpen—yes. Change—no. And you can tell that to your friends.

As of Wednesday, Dec. 4, approximately 700 bales of cotton

had been ginned in McLean; 108 bales were on the gin yard waiting to be ginned.

According to B. F. Holland, gin manager, approximately 50 to 60 bales are being ginned daily. They have only one crew working from 7 a.m. to 11 p.m.

With good weather, it will take another two weeks to clean out all the cotton.

Some people are getting through. Dewey Pennington is through and helping his neighbors.

Yields are running slightly less than one bale per acre. The grade is running SLM light spot. Staple length is mostly 15/16.

This nets just under 30 cents per pound or about \$150 per bale. Cotton is still a good money crop, one of the highest when an acre produces a bale and brings \$150.

STATE CAPITAL

Highlights AND Sidelights

by Vern Sanford

TEXAS PRESS ASSOCIATION

AUSTIN — (Special) — Now you can call him "Gov. Crump!"

Sen. Louis Crump of San Saba has joined the list of "Governor for a Day" honorees. Friends of the popular senator poured into Austin until it practically was "San Saba Day" at the Capitol.

It is customary for Texas' top-ranking state senator to take over the reins of government when both the governor and his lieutenant governor are out of the state. That happened Thursday.

Among the hundreds of people coming to call on "Gov." and Mrs. Crump in the Capitol, and during an evening reception in the Driskill Hotel, were some 200 who drove from San Saba in a caravan of cars.

More than 15 state senators were on hand, together with a goodly number of other elected state officials, to congratulate the 47-year-old attorney. Crump, now in his fifth year of office, represents an 18,000-square-mile district containing 18 counties. That's an area bigger than many of our states.

OIL PRODUCTION UP — Texas Railroad Commission has increased allowable oil production for December to 28 per cent of potential. This will permit Texas oilmen to produce more oil during 1963 than any year since 1959.

Commission's new order set December daily allowable production at 2,856,214 barrels. November's was 2,808,183 under a 27.5 per cent order.

Total 1963 production is estimated at 918,000,000 barrels. That's the highest annual figure since the 944,400,000 barrels in 1959. Partial credit for the increase was given to success of the percentage factor adopted in place of the shut-in day method of commission calculation on production last January.

STATE DEFICIT — State's general revenue fund was \$18,500,000 in the red at the end of October. Receipts totaled \$5,000,000 less than expenses.

State governmental expenses totaled \$128,800,000 last month. Income from various taxes and collections came to only \$123,900,000. Cigaret, beer and wine taxes provided \$9,700,000. A total of \$10,000,000 came from the sales tax. Other big income producers included: crude oil production tax, \$10,200,000; motor fuel taxes, \$16,800,000; federal highway grants, \$15,000,000; and federal public welfare grants, \$14,300,000.

KEEP POLL TAX — A lopsided majority of Texas counties voted in favor of retaining the poll tax as a qualification for voting. In all, only 25—mainly in south and central Texas—wanted to repeal it. Rural areas voted strongly against repeal. Metropolitan areas voted to repeal the tax—but very few took the time to vote. Other explanations as to how come vary widely.

Not enough hard work by the proponents, suggested Mrs. Maurice Brown of Waco, head of the League of Women Voters. . . . A light vote, apathy and disinterest, said Sen. Ralph Yarborough. . . . The race issue was the downfall of the amendment, figured Clarence Laws, NAACP regional director. . . . Republicans are "solidifying their vote in Texas," said Horace Houston, GOP candidate for lieutenant governor. . . . Failure of poll tax amendment cannot be credited to partisan efforts, concluded Rep. George Hinson.

Of the four amendments submitted, only one passed. It raised to \$60,000,000 the state fund ceiling on aid to the needy and liberalized administration of the programs.

TEXAS TRAFFIC — Col. Homer Garrison Jr., director of the State Department of Public Safety, told Gov. Connally, "It is almost certain that the death toll in traffic in Texas for 1963 will be the greatest on record."

"From July 5 to Nov. 8, there was an average increase of motor-vehicles of eight per cent over the same period in 1962. On this basis,

a projection to the end of this year indicates a death toll of 2,615, which would exceed the 1962 record of 2,611."

In reply, Connally issued his ideas on priority traffic safety needs:

1. Improve competence and responsibility of drivers by revision of present obsolete driver licensing law.
2. Improve police supervision of traffic on rural highways by increasing the salary and benefits of DPS patrolmen and increasing the number of patrolmen by 200 each two years to an eventual strength of 1,800.
3. Include approved high school driver education courses in the foundation school program.
4. Improve administration of justice and public respect for traffic laws through the creation of modern traffic courts of record, as recommended by the American Bar Association.

NEW SUPER BATTERY FOR U.S. SUBS...

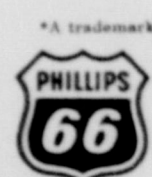

We read of a revolutionary storage battery, containing 28,896 lbs. of silver. It is designed for use in the Navy's new killer submarine. The silver equals 14 1/2 tons of dimes and quarters. Such a battery is hardly fit for your car... but you do want the dependability of silver in your battery. The extensive use of silver in Phillips 66 Trop-Artic Batteries helps assure dependability. Use of silver prevents bad effects resulting from over-charging, which is the commonest cause of battery failure.

Let us take care of your car's present battery. We'll supply it with water, check the terminals, give it loving care. When you need a replacement, we'll supply a new Phillips 66 Trop-Artic Battery.

Drive in at any station displaying the Phillips 66 Shield.

NEWS OF CONSERVATION

D. W. Swain plans to leave approximately 10 acres of irrigation land on his farm south of Kingsmill.

Turner Kirby also plans to do some land leveling on his farm east of Groom.

Jack Benton plans to install some irrigation pipeline on his farm east of Pampa. Jack also plans to drill another irrigation well.

Stan Kretzmier is in the process of installing irrigation pipeline on his farm northwest of Pampa. Land leveling and irrigation pipeline are important for uniform distribution of irrigation water.

Jack Bailey completed a cross-fence on his farm northeast of McLean.

Roland Williams plans to construct a cross-fence on his farm

northeast of McLean for better grazing distribution.

R. J. Bradley has started constructing some more terraces on his farm south of Pampa to control water erosion. R. W. Adams is in the process of constructing diversion terraces on his farm west of Kellerville.

Make plans now to start a conservation program on your farm or ranch. Cost-share assistance is available through the ASC or Great Plains Programs.

For assistance in conservation work, contact your SCD supervisor, Milton Carpenter, Curtiss Schaffer, Stan Friend, James Clett or W. C. Epperson, or your local Soil Conservation Service.

Lloyd Barrett plans to do some terracing on a farm he operates south of Pampa.

Floyd Bull is in the process of completing stock ponds on his place west of Lefors.

Clyde Brown has completed a pond on his farm south of McLean.

Location for an irrigation well was staked for George Philpott on a farm he operates north of Laketon.

George Dillman, who farms south of Pampa, is doing an outstanding conservation job. He completed his terracing several years ago. George is doing a good job of stubble-mulch farming. He plans to change from the narrow sweeps to the wide flat sweeps.

Can You Afford Soil Erosion?

Topsoil is priceless. It takes nature 300 to 1,000 years to build one inch of it; yet one heavy rain can remove as much as one inch or more from an unprotected field.

Crop yields decline as soil erosion progresses. Farm income, buying power and living standards drop. Villages, towns and cities lose business.

A community, town or nation is no stronger than its soil.

E. T. Duncans To Observe Anniversary

Mr. and Mrs. E. T. Duncan will be guests of honor at an open house on the occasion of their 50th wedding anniversary Sunday, Dec. 8, at their home south of McLean.

Their eight children will be hosts for the affair.

Steve Stephens of Amarillo, gov-
ernor of Lions District 2-T-1, dis-
cussed the important work being
carried on in the Panhandle by
Lions Clubs here Monday.
Stephens was guest speaker at the
local club's regular luncheon. He
was introduced by Lee Welch of
McLean, deputy district governor.
During the meeting Monday,
Nelson Christie told the club of
plans to hold a junior livestock
show in McLean next spring.
Christie, local vocational agri-
culture teacher, said that the Mc-
Lean show is desirable because
too many merchants and others
here do not have an opportunity
to see livestock of the area in the
Top of Texas show in Pampa.

AT FFA Barn

Christie said the show will be
held at the Future Farmers of
America barn south of town, with
the date to be set later.
The Lions' agriculture com-
mittee is in charge of arrangements.
Larry Williams, McLean High
School senior, was introduced as
the Cub Lion for December, and
club President Johnny Haynes an-
nounced that Jerry Gilbert is the
new scoutmaster for the Boy Scout
troop sponsored by the club.

**POST OFFICE INVITES LETTERS
TO SANTA AT NORTH POLE**

The Post Office Department is
getting together with Santa Claus
this year to make sure that children
who write to the North Pole get
an answer from the best-known
citizen up there. Postmaster Bill
Reeves said Wednesday.
"Part of the Post Office ef-
forts to encourage wider use of
ZIP coded addresses assures chil-
dren that they will receive a mes-
sage from Santa Claus if they
write to him by Dec. 15 at North
Pole 96701, and use their own
ZIP codes in their return ad-
dresses," Reeves explained.

The enlistment of Mr. ZIP as
Santa's newest helper became a
familiar fact to children every-
where on Thanksgiving Day, when
TV network viewers saw the fa-
miliar cartoon character in the
traditional Macy's Christmas parade
in New York City.
Santa's reply to the children's
note, to be delivered free of any
additional charge through the
courtesy of the postal service,
will be a gaily-decorated card
with an appropriate reply to please
the children, Reeves said.
All that is required is the child's

note to Santa with regular five
cent first class postage on the
envelope, together with the ZIP-
coded address and return address.
"We are very pleased to make
this service available to the chil-
dren for their big day," the post-
master commented. "Actually, we
in the Post Office have been Santa's
biggest helpers for many years, and
I think it is very appropriate that
we extend our lines of communi-
cation a little at Christmas for
the youngsters."

**Dec. 13 Date For
Taking Pictures**

Friday, Dec. 13, is the big day
for taking pictures of your young-
sters!
The McLean News is having pic-
tures made of all children who are
brought by their parents or guar-
dian to the American Legion Hall
between 10 a.m. and 5 p.m.
There will be no cost or obli-
gation for taking the pictures.
The News wants pictures of all
children to publish in its forthcom-
ing feature, "Citizens of Tomor-
row," a series of photographic
studies of local and area youngsters.

The cooperation of all mothers
and fathers is urged, for it is
hoped every child in McLean, Alan-
reed, Kellerville and the surround-
ing area can be photographed.
Parents don't even have to be
subscribers to the News—nor even
a reader—to bring their child for
photographing.

They do not have to purchase
pictures either, but additional cop-
ies may be obtained if desired by
arranging direct with the studio re-
presentative.
Appointments may be made by
calling Mrs. Lavern Carter, GR 9-
2813.

**Graveside Services

eral Home of McLean.
The infant died Tuesday at Groom
Memorial Hospital, where she was
rushed last week from Turkey.

WALTER ROGERS REPORTS

AMERICA MUST HAVE THE SUNSHINE OF TRUTH

This heinous crime, this assassination of a President and attempt to destroy a free country and its institutions, must not be laid to rest in history until every last splinter of truth is revealed.

We must know, know beyond the last shadow of a doubt, the identity of each person in any way connected with this national tragedy; his—or their—motives; and know, too, the reason why security precautions failed so shockingly.

Americans cannot rest until these facts are developed fully and completely. Every step must be taken to conduct an investigation of unparalleled scope.

President Johnson gave his personal order to the Justice Department and Federal Bureau of Investigation to move with all dispatch to find the answers.

Texas Attorney General Waggoner Carr ordered a court of inquiry. Here on Capitol Hill, a full-scale investigation by the Congress now seems assured.

If these probes do not produce the truth, and all of it, the search must go on—and on.

There are so many, so very many unanswered questions. They are being asked by private citizens as well as by trained investigators and legal authorities. Surely we Texans have a vital stake in seeing that the truth is made apparent to all, whatever that truth may be.

Our state pride has been damaged. There is a dark stain on the reputation of one of our principal cities. But the larger cloud is over America, and only the sunshine of truth can remove it.

The assassination of President John F. Kennedy was a crime of such unbridled vengeance that the nation is still numb in unbelieving shock. That this could happen here! That an American President out among the people could be shot down, here in the United States, in the mid-20th century! Why? Why?

John Fitzgerald Kennedy carried the burdens of his office with courage, intelligence, grace and good humor. He was loved by the people, despite raucous calumny directed at him from the left and right fringes of politics, from persons whose political positions are deep in the end zones instead of out on the field.

Beyond consideration of his position as the nation's Chief Executive, the tragic death of this young husband and father, whose family was such an inspiring example of decency, was a source of deep grief for his countrymen.

Let us not forget that the target of the assassination was all for which this country stands, that the bullets were aimed also at the institutions of freedom, of democratic government, of justice under law.

We are living in a day when

Carroll Bullock Is On U. S. Destroyer

USS TURNER JOY—(Special)—Carroll N. Bullock, Navy fireman and son of Mr. and Mrs. H. A. Bullock of McLean, is serving aboard the destroyer USS Turner Joy.

Joy recently completed exercise "Flying Moor," a fleet striking and anti-aircraft warfare exercise off the West Coast.

During the five-day exercise all the forces, including jet and propeller-driven aircraft capable of carrying all types of weapons, were evaluated under realistic conditions.

Turner Joy is homeported in Long Beach, Calif.

Visitors in the Robert L. Green home on Thanksgiving Day were his parents, Mr. and Mrs. M. C. Green, Beaver, Okla.; Mrs. Maude Peterson, Darrrouzett; Mrs. Clara Wellman and Mrs. Glen Austin, both of Carrollton, Mo.

Mr. and Mrs. Jess Kemp attended funeral services in Amarillo Sunday for his brother, Arthur Kemp.

Mrs. Henry Cavaner of Slaton is visiting her sister, Mrs. R. O. Cunningham.

destructive assaults from extremists of every kind are made on our government. The unspeakable horror of the President's murder is bringing home to many Americans how poorly our country is served by the fury of hate and invective that has been heaped not only upon the President and his office but also upon our system of courts, the legislative process and provisions of the Constitution itself.

Did this disorientation from American fundamentals, I ask, help establish a climate in which the vile distillate of sheer contempt could strike down our President?

Let Americans now study their heritage. The development of this country has been shaped by moderation—not by extremism. The Constitution itself was the product of ideas as to an establishment of government under which free men could live out their lives in liberty and justice.

On the one bleak occasion in American history when the coming-together processes of moderation failed us, and differences remained unreconciled, a bitter and bloody civil war resulted.

In the century since then, our institutions of government were strengthened along with all other phases of our national life, and it seemed to most citizens—until that black hour of Nov. 22, 1963—that We the People of the United States had formed a more perfect union, had established justice, had insured domestic tranquility, had provided for the common defense, had promoted the general welfare, had secured the blessings of liberty to ourselves and our posterity.

The assassination of the President should demonstrate to all that the ideals expressed in the preamble to the Constitution remain unfulfilled.

Unless and until it is proved beyond all reasonable doubt, I cannot accept the theory that one single man, one solitary twisted extremist, one lone monster with a mail-order rifle could contrive by himself to bring death to President Kennedy and rattle the foundations of the government. We must learn with certainty all that lay behind his dreadful act.

As President Johnson said in his sorrowful Thanksgiving Day message to America, "Let us today renew our dedication to the ideals that are American."
