## State Capital News

By Vern Sanford

State Health Department's and unique Drug Abuse Program promises statewide health services that are now available.

Dealing with the dope menace program was outlined by a state department official at a recent hearing of the House Committee to Study Psychiatric Systems of Youth.

It will be carried out in three phases, offering laboratory services, clinics and an over-view of health factors in the drug area.

Initial action calls for setting facilities next year in Nueces, El Paso, Bowie, Webb, Lubbock counties (serving 1 million people). Beginning 1972, the program will be statewide. Cost may be three to five million dollars for the second year period, \$1.2 million for the initial pilot program.

Laboratory services will provide surveillance of drug-abuse patients and detect those needing treatment. Department purchases urine tests of patients being used.

Second stage calls for state clinics, especially for the age 19 group, and in-plant workshops mostly located in schools.

Continual study will use computers to correlate facts from the spot health personnel who deal with the problem daily. Department believes the program will fill these three basic needs not presently available, without which little chance for success in drug abuse control.

SEVENTH SPEAK Supreme Court, following the Fourth Court of Civil Appeals, rejected the plea of La Unida party for mandamus directing that its 15 local candidates be placed on the November 3 ballot in Dimmitt, La Salle, Zavala counties. Party also has won a place on the list in Hidalgo County and will go to federal court to contest its appeal in the other counties.

Latin district judge refused lift restriction against the Catholic Beverage Commission pending the stringent guest rule pending private bottle clubs' appeal to the Supreme Court.

Landowners who oppose building a new University of Texas at Odessa filed notice of appeal after District Judge Heron Jones of Austin threw out suit on September 17.

POLLUTION BOOK RELEASED Attorney General Martin released copies of an 188-page report on the principal pollution laws of Texas, for the guidance of local governments. Booklet contains regulations covering water, air, oil and land use pollution, together with "how to do it" suggestions for preparing a pollution suit and exchanging information with state agencies.

Martin said he hopes the publication will provide closer cooperation between local units of government, the attorney general's office, the Texas Water Quality Board and the Texas Control Board.

## Nida Rippy Greens Funeral Services Held Monday

Funeral services were held at 3 p.m. Monday for Mrs. Nida Florence Green, 89, of the Heald Community, who died Saturday in McLean Hospital.

Officiating was the Rev. Robert Brown, pastor. Burial was in Hillcrest Cemetery by Lamb Funeral Home.

Mrs. Green died of injuries suffered Friday in a two-car collision in McLean.

A retired school teacher, Mrs. Green was past president of the Women's Society of Christian Service and the Epworth League.

Still hospitalized in McLean Hospital with injuries suffered in the car accident is Mrs. Green's brother, Kester Sylvester Rippy, 77, of McLean. He suffered head injuries.

His wife, Emily Rippy, 74, was also hospitalized with head and chest injuries.

Both were passengers in Mrs. Green's auto.

The driver of the second car, Madeline Lowry of Roswell, N.M., also remains hospitalized in McLean with a broken arm.

Mrs. Green is survived by three other brothers, Horace Rippy of Shamrock, Harold Rippy of Fort Worth and A.C. Rippy of Electric; and one sister, Mrs. Estelle Roach of Shamrock.

## McLean Tigers To Meet Groom

The Tigers held their second home game Friday night against the White Deer Bucks. It was quite a tough game, the Bucks are rated 3rd in the state.

The Bucks were expecting to run over the Tigers like nothing was there, but when the Bucks left the field, they knew they had hit something. The Tigers made a great achievement and led the Bucks all the way up through the 3rd quarter.

The Tigers received the opening kick-off. The Tigers made some yardage with the fine running of Ronny Brown, Tommy Duniven, and Ricky Evans. We had some fine blocking by the offensive line. We had outstanding defensive action by the fighting Tigers, Ricky Evans, Tommy Duniven, David Haynes, and Ted Simmons. The Tigers kept the Bucks from scoring all during the 1st quarter.

The Tigers were the first to score early in the 2nd quarter. Tommy Duniven completed a 7 yard pass to Mike Griffin. David Haynes kicked the extra point. The score was Tigers 7 and Bucks 0.

The Bucks broke their ice in the last 2 minutes of the 2nd quarter. David Guinn skirted left and from the 7 yard line, for 6 points. Their run for 2 extra points failed.

The Tigers kicked off to begin the 3rd quarter. The Tigers forced the Bucks to punt, they held the ball for a few minutes and the Bucks covered a fumble. This gave them their second score. It was made by Terry Sergeant, he banged up through the center for 2 yards, to score a touchdown. David Guinn ran the 2 extra points.

The Tigers came back in the 4th quarter with a touchdown. Ronny Brown ran through right tackle for 4 yards. David Haynes kicked the point and this ran the score to Tigers 14 and Bucks 14.

The Bucks slipped by the Tigers in the last 3 minutes of the game, with a 3 yard run around left end, made by Jerry Urbanczyk. The Tigers made the Buck's run for 2 extra points a failure. This put the scoreboard at Bucks 20 and Tigers 14.

The Tigers tried to come back for a score but there wasn't enough time.

The McLean Tigers will face the Groom Tigers this Friday night at 8 o'clock at Duncan field.

Absentee Voting In General Election Now Underway

Wednesday, Oct. 14, to Friday, Oct. 30, inclusive, is the period for absentee voting by personal appearance in the Nov. 3 general election.

## MHS To Have Homecoming Friday

On Friday, October 9, the McLean High School Tigers meet the Groom Tigers at 8:00 p.m. on Duncan Field. But the day and night are noteworthy for another reason also--it is the Homecoming game for 1970.

There is always a great deal of anticipation for this particular day in the halls of MHS because it means that one lucky coed will be given the honor of having been chosen Homecoming Queen for 1970 during the half-time activities.

The three girls vying for this honor and chosen by secret ballot of the football team last Thursday, are Nancy Brown, Jennifer Haynes, and Becky Orrick.

Nancy, daughter of Mr. and Mrs. J. B. Brown of McLean, is a senior. She is presently serving as head cheerleader and will be escorted by Tommy Duniven, a tri-captain and quarterback for the Tigers.

Jenny, daughter of Mr. Sam Haynes of McLean, and Mrs. Bob Beall of Park City, Utah, is a junior. She is a majorette with the MHS Band and will be escorted by Ricky Evans, a tri-captain and running back for the Tigers.

Becky is the daughter of Mr. and Mrs. George Orrick of McLean and is a senior co-captain of the Pep Squad. She will be escorted by Ted Simmons, a tri-captain and lineman for the Tigers.

A Pep Rally will be held downtown at 8:30 on Friday afternoon. Come out early and show your support of the Tigers and this special day.

## Child Care Meeting To Be Held

Child care and development in the Texas Panhandle, its problems and possibilities, is the subject of the Texas Panhandle Child Care Symposium set for Saturday, October 17, in Amarillo.

Open to all interested groups and individuals in the Panhandle, the Symposium offers speakers from across the state to handle the presentation of various areas of child care and development, including the 4-C program of Community Coordinated Child Care of the state and federal governments.

Hosting the Texas Panhandle Child Care Symposium will be the Potter-Randall Family and Child Welfare Council. Larry Milner, President of the Council, extended an invitation to all persons in the Texas Panhandle area who are involved in Child Care and development or who are interested in this field. Both private agencies and governmental units are welcome and urged to attend. Milner emphasized that the Symposium constituted the Council's effort to acquaint interested persons and agencies in possibilities and programs available in the field of child care and development. An interesting portion of the Symposium program will be a discussion by the audience as to what, if any, concerted action should be taken by those in the Texas Panhandle interested in Child care and development.

Featured speakers for the Symposium include Dr. Lewis Fairchild, Killgore Children's Psychiatric Center and Hospital; Dr. Emmett Smith, Vice-President, West Texas State University; Pat Murphy, Community Specialist for Children's Program and David Chapa, Program Inspection Officer of the Office of Child Development, both of Dallas, and Burt Adams, Texas Child Welfare Department, Austin.

Citizens Committee To Meet Tuesday

The Citizens for School Improvement Organization will meet Tuesday night October 13 at 8:00 p.m. in the grade school cafeteria.

## Commission To Set 1970-71 Quail Season

Texas Parks and Wildlife Commission members will meet Tuesday (Sept. 29) to consider proposed changes in proclamation concerning rules and regulations for the 1970-71 quail season and public hunts on the Department's wildlife management areas.

The meeting will begin at 10 a.m. in the Old Supreme Courtroom on the third floor of the State Capitol Building in Austin.

Other items to be taken up by the commission are: Review request to add nine additional holes for the golf course at Stephen F. Austin State Park. Consider revised Water Pollution Control amendments. Consider proposed 1970-71 wildlife improvements for Wildlife Services.

Review and consider replacement of fishing piers at Corpus Christi State Park. Consider Park Services budget request for development of State Parks.

Review and consider proposed agreement for housekeeping of State Boat Ramps. Consider proposed \$7,500 amendment to Sam Rayburn Reservoir Boat Ramp.

Review and consider interagency and other contracts.

Draft Board Announce No. 146 "Highest Number"

Mrs. Frankie Stewart, Executive Secretary for Local Draft Board No. 52 announced today that random selection number 146 is the highest lottery selection number reached in 1970.

However, the board spokesman said, it may be necessary to go higher random selection number in order to satisfy the remaining 1970 draft calls.

Mrs. Stewart said that in compliance with the White House Executive Order announced recently, all registrants of Local Board No. 52 who hold the highest number or numbers below the highest reached number and who have not been issued orders for induction due to any circumstances, will be considered for carryover into the extended priority selection group if they are classified I-A as of December 31, 1970.

Such young men will have their liability for induction extended for the first three months of 1971.

The local board spokesman said that the Executive Order states that registrants who held numbers above the highest reached number of Board No. 52 and are classified I-A as of December 31, 1970 will be placed in a lower draft priority group on January 1, 1971.

Local Board No. 52 has jurisdiction over Gray, Wheeler, Roberts and Donley Counties.

## Little League Team Tie With 6-6 Score With Erick

The Little League Football Team sponsored by V.F.W. post 8565, traveled to Erick, Oklahoma for another game.

The team did very well with Donny Brown making a touchdown in the 2nd quarter with McLean holding the upper half with a score of 6-0 up until the last few minutes of the game when Erick made a touchdown to end the game with a tie of 6 to 6.

The Little League team, made up of 4th, 5th, and 6th grade boys, will play Wheeler next Tuesday night in McLean at Duncan Field, at 7:30 p.m. The public is invited to come out and support the team.

## 31st Senatorial District Candidates To Meet On TV

Saturday night, October 24th, the Democratic and Republican candidates for the State Senate from the 31st Senatorial District will appear on a special thirty-minute program at 10:30 p.m. on Color 4.

Malouf Abraham, Republican from Canadian, and Max Sherman, Democrat from Amarillo, will be interviewed by four area newspapermen and broadcasters. Keith Adams will be the moderator for the program. Sherman and Abraham are running for the Senate seat that is being vacated by Senator Grady Hazlewood.

Votes of the district are urged to send any questions that they would like answered by the candidates to KGNC Television.

## Wheat Referendum 1971- Crop

A mail referendum on 1971-crop wheat marketing quotas will be conducted Oct. 12-15, Secretary of Agriculture, Clifford W. Hardin, announced in October 2, in the absence of the new legislation for the 1971 wheat crop, current law requires that the referendum be held. However, a second-congressional resolution like one initiated July 24, 1970, could result in a further postponement of the referendum. This congressional action could take place at any time prior to the start of a referendum on October 12.

Individual allotment notices will be mailed to about 1.6 million persons holding an interest in established farm wheat allotments. Signed ballots need to be mailed or delivered to the county offices by October 15, 1970. Preliminary results after October 20.

Secretary Hardin announced April 14, 1970, preliminary results of the referendum will be compiled and announced by USDA on or shortly after October 20.

April 14, 1970, a national wheat marketing quota of 1,210 million bushels and a national allotment of 43.5 million acres.

A two thirds or more "yes" vote for marketing quotas would bring a domestic marketing certificate, valued at \$1.39 per bushel, the total price support on that portion of the crop then would be \$2.54 per bushel -- 90 percent of parity as of July 1, 1970. Domestic certificates would be issued subject to penalty. If the referendum fails to carry, the price-support loan rate would be mandatory at 50 percent of July 1971 parity. This would be \$1.41 per bushel based on current parity. Loans only would be available to producers remaining within their 1971 allotment acreages.

## Agri-Business Program Tues.

Gray County Agent FOSTER WHALEY

Next Tuesday evening, October 13 starting at 7:30 p.m. in the meeting room at the McLean Cafe an election will be held to select a director for the Gray County Soil and Water Conservation District.

James Clift in the present director of sub division #2 which is located in the south-eastern part of the county.

I have agreed to give the program on "agribusiness and the spectacular growth of agriculture in Gray and surrounding counties."

On September 28th, we gave this same program to the Chamber of Commerce membership luncheon. We had a number of business people. It looks like we have something that is replacing our fast depleting oil income.

They were referring to some of the figures we presented. The agri-income of Gray County jumped from around seven million dollars in 1965 to \$10.6 million in 1968 and hit an all time high of \$5 million in 1969.

During the last year ending in August 1970, the Pampa loan office of the Canadian P.C.A. jumped its loan volume from \$11 million dollars to \$23 million.

These and many other interesting figures featuring both overhead and colored slides will be presented.

We hope you will come out. Wives are invited and urged to attend. They also vote in the election. To be eligible to vote, you must own land in sub division #2 and reside in Gray County. Let's have a big turnout.

Refreshments will be served and paid for by Bryan McPherson.

Immunization Set For October 14

The McLean Lions Club is sponsoring a campaign to Rub out Rubella to immunize all children against this disease.

On October 14, 1970, in the school cafeteria, all children, ages 1 through 10 can receive the vaccine free. Hours from 4:00 to 6:30 p.m.

Children who have already received Rubella Vaccine or are sick with high fever on the day of the immunization program of if the child is being treated for cancer or leukemia, they should not receive the vaccine. Children who are allergic to chickens or ducks or their eggs and feather, dogs or dog dander, rabbits and neomycin also should not receive the vaccine.

Rubella (German or 3-day measles) is a common childhood illness. It is an entirely different disease than "red measles." The measles immunizations that have been given during the past few years give no protection against rubella.

The school-age children are the most likely to catch and spread the disease. Unprotected, expectant mothers can acquire the disease from them.

Parents or guardians should fill out this form before given the vaccine and bring it in the News Office of take it to Jay Thompson at the Southwestern Public Service or turn it in to the school.

Methodist Church To Have Fellowship

The Methodist Youth will hold a fellowship Friday, October 9, following the football game. It will be held in the Fellowship hall of the United Methodist Church. A small admission will be charged. Cake, coffee, and hot chocolate will be served. Everyone is invited to come and bring their families.

Teen Town Open Friday Night

Teen Town will be held immediately after the Friday night football game, at the McLean Country Club. Music will be furnished by the Motifs.

## Gray Co. SWCD Set Election For Zone 2 Members

October 13 has been set as the date for the election of the directors for Zone 2 of the Gray County Soil and Water Conservation District. The director will be elected to serve a five year term beginning immediately following the election.

The convention type election will be held at 7:30 p.m. October 13, in the meeting room at the McLean Cafe in McLean.

To qualify as a director of vote, a person must own land within the zone for which the director is being elected and live within Gray County. A landowner and his or her spouse are eligible to vote.

Zone 2 of the Gray County SWCD is located in the south-east part of Gray County and is bounded on the east and south by the Gray County line, on the north by a line where McClellan Creek crosses Highway 273 north of McLean and on the west by a line just west of Lake McClellan.

James Clift is the incumbent director whose term of office is expiring.

A program on "Agribusiness and the Spectacular Growth of Agriculture in Gray County and Surrounding Counties" will be presented by Foster Whaley, County Agent. This is an excellent program and is very informative.

## Concert To Be Presented Friday At Church Of Christ

The public is invited to a concert of praise presented by the A Cappella Chorus of Lubbock Christian High School this Friday the 9th at 6:30 p.m. at the Church of Christ.

The Lubbock Christian High School Chorus was organized in 1961-62 as a Junior High Chorus. Lubbock Christian School at that time only went through the ninth grade. However, during the next three years a grade was added each year, completing the high school.

The Chorus which began in 1961 with 15 members, won outstanding Chorus award in its class at End Tri-State Music Festival last spring. It has now progressed to its present membership of a combined 60 members. These students were selected in the spring through audition as more than 90 students tried out for this chorus.

Lubbock Christian High School is located on the campus of Lubbock Christian College in Lubbock.

The public is cordially invited to come and attend this concert.

## Lefors Art And Civic Center Are Guest Of Museum

The Lefors Art and Civic Club of Lefors were guests of the Al-anreed, McLean Museum Monday night, welcoming the neighboring women and acquainting them with the many historic relics of the past were Maude Cooke, Vera Back, and Alice Short Smith.

After the museum tour, Mrs. Smith hosted a coffee for the visitors in the American National Bank Hospitality Room. Those coming from Lefors, were Mesdames: Harry W. Youngblood, Bob Klein, Earl Tarbet, Carl Baker, Jr., Carl Hall, G.W. James, Bud Cumberland, Jeff Bradley, Jernel Julian and R.W. Beck.

# News From ALAN REED

By MRS. CECIL CARTER

Mrs. H. E. Terbush was honored on her 86th birthday Sunday in the Groom Community Clubhouse. Those attending were Mr. and Mrs. H. L. Tipton of Amarillo; Mr. and Mrs. Frank Terbush of Groom; Mr. and Mrs. Bill Smith of Pampa; Mrs. Leola Dunlap and daughters, Xenema and Xenia of Amarillo; Mr. and Mrs. J. S. Whiel of Stinnett; Mr. and Mrs. Hartley Davis of Alanreed; Mr. and Mrs. Leo Terbush of Amarillo; Mr. and Mrs. Gerald Terbush, Scott and Todd of Amarillo; Mr. and Mrs. Ellis Stapp and family of Amarillo; Mr. and Mrs. E. G. Stapp of Groom; Janice Corbin of Amarillo; Mr. H. E. Terbush visited Tuesday in the Hartley Davis home at Alanreed.

Visiting the L.T. Goldstons over the weekend were, Mrs. Goldston's sister, Mr. and Mrs. Reavis Sakeenfield of Whitesboro. They all spent Friday night and Saturday at Cimarron Pass, and Red River New Mexico. Sunday visitors at the Goldstons were their daughters family the Jay Wilson's of Miami.

Mrs. Pauline Howley, Miss Amos Thomas and Eva Visiting the P.M. Gibson's.

Kenneth Hambright is doing the remodeling at the Ranch Cafe.

The Concrete for the Foundation of the new motel has been poured.

Visiting Mr. and Mrs. A.H. Moreman's cousins from Mineral Wells, Mrs. Eva Anderson and Mrs. Fay Austaugh.

## Baptist Women Meet Wednesday

The Womens Missionary Society met Wednesday morning in the basement at the Baptist Church, with the new director, Mrs. Frank Howard, in charge.

Mrs. Homer Abbott was leader of the Mission Program on Nigeria.

The next meeting will be held the 21st for Bible Study.

TERESA KATHLEEN MERTEL

## December Wedding Planned For Mertel And Phillips

Mr. and Mrs. Johnnie F. Mertel of McLean announce the engagement of their daughter, Teresa Kathleen to Gary Warner Phillips, son of Mr. and Mrs. Warner Phillips of Lake McClellan. They plan a December nine tenth wedding in the United Methodist Church of McLean.

Miss Mertel and Mr. Phillips are attending West Texas State University where she is a student of elementary education and he is a student of business administration.

## Mary Bybee Is Tops Weekly Queen

The Derby Town Tops Club met on Monday at 7 p.m., for their weekly meeting in the Fire Hall Building.

The meeting was called to order by the leader, Marilyn Mounce. After the business was taken care of, new "Binge Calorie Charts" were given to each member to encourage them to loose more weight.

Muriel Moore is the Tops monthly queen with a 4 lb. weight loss. Lilly Mae Williams had the most weight loss for the past week and received the Fruit Basket and is weekly queen.

The club had a 10 lb. weight loss and a 4 lb. gain.

Members present were, Marilyn Mounce, Cheryl Smith, Deloris Bailey, Mary Bybee, Pearl Dickinson, Viola Glass, Gladys Smith, Ann Smith, Muriel Moore, Nola Crisp, Lucille Tucker and Lilly Mae Williams. The club still extends a very warm welcome to any new members.  
By Lucille Tucker, Reporter

Mr. and Mrs. Haskell Stotts of California, Mr. and Mrs. Glen Nicholson of Ashland, Kansas, Mrs. Muriel Stevenson of Muleshoe, Mrs. C. G. Nicholson and Mr. and Mrs. Luther Petty were dinner guests of Mrs. Lawrence Nicholson in McLean, Monday. All assisted in getting Mrs. Nicholson moved to the home of her daughter, Mrs. Stevenson at Muleshoe. Mrs. Lona Jones who has made her home for many years with her mother has gone to live near her daughter, Mrs. Marie Immel at Stinnett.

## SELECTIVE SERVICE NEWS

Selective Service officials today clarified their policy regarding draft vulnerability for those young men with low lottery numbers who enter the 1970 draft pool too late to induct before the end of the year.

Dr. Curtis W. Tarr, Selective Service Director, said that registrants whose lottery numbers were reached by their local boards during 1970, but were not issued orders for induction will be given top priority for draft calls during the first three months of 1971. They will be called ahead of members of the 1971 draft pool during those months.

Tarr said that relatively small numbers of registrants will be affected. Tarr also reaffirmed his prior announcement that no local board should induct men this year above sequence number 195. Some local boards have not reached this level in meeting their monthly calls, so that the precise number reached will vary across the country.

Those registrants who are available for induction, but whose numbers above 195--will drop into reduced priority in 1971 and should not be drafted unless there is a national emergency.

The general three-month limitation on liability is a safety valve policy to insure that no members of the 1970 draft pool are unduly subject to more than 12 months of prime vulnerability, Tarr said.

"We expect that the carryover group will be relatively small and will be inducted during the early months of 1971. However, if our estimates on the size of this group are wrong, or if draft calls are unusually low we want to insure that the young men are not penalized by an indefinite extension of their liability," Tarr said.

"If any young men are not inducted in the first three months, they will be placed in a reduced priority group, except for those who may be on procedural delays when the March call is issued and would have been called but for the delay," Tarr said that these men will be ordered for induction soon after they become eligible for induction.

Tarr's announcement was made in conjunction with the issuance of an Executive Order which amplified the present draft regulations with regard to the lottery system.

"The regulations have always been clear that some men will be carried over from 1970 into 1971. The new regulations define the carry-over group more precisely and also introduce a three-month limitation on the length of the extension."

Tarr said the carry-overs will be registrants who would have been called earlier in 1970 when their number was reached by their local board but who could not then be called because they were either in a deferred status or were exercising various procedural rights available under Selective Service law.

"Fairness requires that these men be effectively exposed to a draft obligation," Tarr said. "All of the carry-overs will have been in the 1970 draft-eligible pool for less than 12 months, and in the great majority of cases, the effective exposure will have been only a few months. In every case, the non-availability of the men earlier in the year meant that men with higher lottery numbers went in their place. We must try to achieve basic fairness between those men," Tarr said.

"At the same time, we should also recognize that the original intention of the lottery system was to expose no one to top priority draft exposure for more than 12 months. For this reason, we have introduced the general three-month limitation on the carry-over."

The Director said that orders have been issued to state directors instructing local boards to begin identifying registrants in the appropriate priority group "as soon after the last draft call of the year is issued by the local boards, probably sometime in late November. Boards will attempt to notify those men in the extended group as soon as possible, Tarr said.

The Executive Order also provides that a registrant can be inducted after he has reached age 26 if he has extended liability to age 35 and has been issued an order to report for induction prior to his 26th birthday.

The provision, however, prevents the board from issuing an order after a registrant's 26th birthday, even if he was involved in a delay which prevented the board from issuing an order before that date. This policy simply regularizes what has

# NEWS

County Agricultural Agent Texas A. & M. College Extension Service

By FOSTER WHALEY

Information supplied by some 25,000 Texas farmers and ranchers will become the basis for the official crop production estimates for each county and the State.

County Agent Foster Whaley said a representative number of farmers and ranchers in Gray Co. will be among the 25,000 in Texas receiving the questionnaire from State Statistician Cary Palmer of the Texas Crop and Livestock Reporting Service in Austin. The questionnaire will be mailed during the last half of October and early November.

Accurate estimates are of great importance to producers in planning their production and marketing, farm program participation and also for providing an unbiased picture of Texas agriculture, emphasized Whaley.

The program of estimates for each county is provided by the Texas Legislature. Since Texas covers such a wide area and with great diversification of production, State totals alone do not provide adequate information on our most basic industry Agriculture, the county agent explained. This is a joint project, he said, between the Texas Department of Agriculture and the Statistical Reporting Service of the United States Department of Agriculture.

Because of the importance of the program, the county agent urges every producer in the county who receives a questionnaire from the Crop and Livestock Reporting Service to fill it out completely for his farm or ranch and return it to the Austin Office of the Reporting Service.

## Lake O' The Pines Gets 84,000 Catfish

The Texas Parks and Wildlife Department recently released approximately 84,000 channel catfish, from four to six inches long into 18,000-acre Lake O' the Pines.

The release was made in an effort to offset lack of natural reproduction in the lake, according to Bob Kemp, the Department's fisheries supervisor in Tyler.

The fish, reared at the Department's Jasper Fish Hatchery, are a portion of 200,000 channel catfish scheduled for release into the northeast Texas lake according to Kemp.

"Many of the 100,000 channel catfish stocked in Lake O' the Pines last year were taken by rod and reel fishermen and trotliners this summer," said Kemp.

been Selective Service practice for many years, Tarr said.

Tarr said that the order also prevents a person in reduced priority from dropping into a lower draft priority while he is deferred and not vulnerable. The new order requires that the I-A registrant be reassigned in a draft priority status which he held when he received his deferment or exemption.

## LETTERS TO THE EDITOR

I want to thank you for publishing in your paper about our Texas Get-Together in Calif. We had it Sept. 20. Everyone had a real good time, lots of good eats, a few tall tales were told and we are hoping to have it next year at the same place, South Gate Park in Southgate, Calif.

We were really surprised and pleased to have two of McLeans residents now there. Mrs. Laura Goodman and Mrs. Susie May (Shelton) Williams.

These are the ones that live out here and were there.

Mr. and Mrs. Fred Bentley of South Gate, Mr. and Mrs. Edwin Ledbetter of Lynnwood, Mr. and Mrs. Arthur Reneau of Portersville, Mr. and Mrs. Eugene Woodrome of Downey, Mr. and Mrs. Jim Isom Sr. of Walnut, Mr. and Mrs. Troy Isom and children of Claremont, Jim Isom Jr. of Rosemead, Mrs. Alice (Carpenter) Graham of Bellflower, Mr. and Mrs. Forrest Rogers of Los Angeles, Don Woodrome of Pico Rivera, Pete Rice of South Gate, Mr. and Mrs. Robert Marty and children of Covina, Mrs. Mallie Shelton and boys of San Diego, Mr. and Mrs. James Corbin of Lynewood, Mr. and Mrs. Vern Mangum of North Long Beach, Mr. and Mrs. Paul Stauffer of Compton, Mr. and Mrs. Hershel Smith of La Marada, Mr. and Mrs. Jack Litchfield of Bell Gardens, Mrs. Jim Boyles of Amarillo, Tex., Mr. and Mrs. Gerald Corbin of Walnut and Clara Reneau of Bellflower.

I'd be happy if you would put this in the paper and maybe next year more of the former Texans will show up. Some that lived near by wasn't present.

Thank You  
Clara Reneau

Merita and Bobby Bumpers invite you to come see them at BUMPERS RESTAURANT on West Highway 66 in Shamrock, Texas, (formerly Mobil Inn).

Specializing in delicious Steaks, Chops and Mexican food, Breakfasts, Dinners and Short Orders.

Open 6 a. m. to 12 Midnight. You are always welcome at Bumpers Restaurant in Shamrock

GOLD SUNFISH REALLY GREEN  
All that glitters is not gold-- it's a green sunfish, at least at the Texas Parks and Wildlife Department's Jasper Fish Hatchery.  
Hatchery Superintendent George White decided to investigate when he noticed some flashing gold in the channel catfish ponds. What he found was later verified as green sunfish, placed in the ponds as feed for the catfish.  
But the fish were gold, a probable mutation which biologist in Texas and elsewhere had never encountered.  
The find promises to be a vertiable gold mine of study material for biologists.

By Evelyn Mason  
 Texas residents are well aware that U.S. - Japanese trade is extensive. Mr. Charles A. Danklefs, Chairman of the Texas State Agricultural Stabilization and Conservation (ASC) Committee, commented recently.

"Almost everyone recognizes that Americans are important customers for Japanese goods. I wonder how many of us realize that the Japanese are major customers for American goods, especially for American farm commodities.

In fact, Japan imports more U.S. agricultural products than any other country in the world--a record \$1.1 billion worth during the 1970 fiscal year," Mr. Danklefs said.

He pointed out that feed grain, soybeans, wheat, cotton, are important farm crops in Texas and that exports of these farm products to Japan have gone up dramatically in recent years.

More than six million tons of feed grains were shipped to Japan last fiscal year--just about one-third of U.S. feed grain exports. Soybeans exports to Japan had a 251 million dollar value, and wheat exports \$136 million. Japan is our best cotton customer, taking one-fourth of its cotton from the U.S. and Japan bought \$50 million worth of tobacco from the U.S. during the last fiscal year.

The ASC Committee Chairman reported that Secretary of

Agriculture, Clifford M. Hardin recently took note of the American Japanese trade story, calling it unprecedented. Secretary Hardin also said:

"The Japanese economy has paralleled that nation's growth in trade. In the years between 1960 and 1965, Japanese shipments in world more than doubled. By 1969, they had almost doubled again, reaching \$16 billion. Shipments to the United States increased in those nine years by more than four times--\$4.9 billion.

"The Japanese householder's disposable income has more than tripled since 1960. His demand for meat, milk, and eggs--a good 'horseback' measure of consumer prosperity--has increased by more than four times in 15 years.

"He is diversifying his eating habits as his income goes up. For example, per person consumption of wheat flour in this traditionally rice-eating society has increased by 30 percent in a decade and a half.

"Ten years ago, Japan's agricultural imports from the U.S. were \$440 million. In the fiscal year just past, they were more than twice as great--nearly \$1.1 billion.

"But the agricultural exports are only one aspect of a beneficial trading relationship that can be summarized very simply: In terms of total exports, the United States is Japan's best customer, and Japan is the

United States' best off-shore customer.

"As you might expect, two-thirds of the U.S. shipments to Japan last year were raw materials, mineral fuels, and foodstuffs, while 90 percent of Japan's shipments to the U.S. were manufactured goods.

"This is the basis of beneficial world trade--an exchange of goods based primarily on production efficiency.

"It is this principle that led Japan to look to efficient producers on the broad farmlands for the feed grains needed to satisfy its people's rising demand for livestock products.

"As a result, imported feed grains have triggered a rapid expansion of Japanese livestock production. This has brought Japanese consumers more meat and poultry at better prices; it has opened opportunities for Japanese farmers for new and profitable livestock enterprises; it has meant an important and expanding feed grain market for world agriculture.

"Almost the whole range of U.S. farm commodities finds Japan a leading customer.

"Japan wants, needs, and can afford these products, and the U.S. can supply them in any system of international trade in which price, quality, and availability. The producers and marketers of the major U.S.

**New Seafood Brochure In Spanish, English**

No matter what language you speak, Spanish or English, if you like to serve fish, the Texas Parks and Wildlife Department can furnish a recipe from their new seafood brochure, "Fish in Your Kitchen," or "Pescado en su Cocina."

The colorful leaflet has both English and Spanish printings which offer recipes such as a Padre Fish Fry, Broiled Fish Lafitte, Buttermilk Fried Filets, Oven Fried Filets, Flour Bluff Pot Pie, Bay Chowder, Baked Fish Copan, Baked Filets with Cheese, Texas-Tarter Salad and Tomato Sea Soup.

In addition to the recipes the brochure tells several reasons for serving fish, how to know a good fish in the market, types of cuts in fish, how to store fish, how to thaw fish and when to buy fresh fish for maximum value.

The brochure will be distributed in fish markets and some supermarkets and will be used in demonstrations by the Department's home economists.

Copies of the brochure may be obtained by writing SEAFOOD, Texas Parks and Wildlife Department, John H. Reagan Building, Austin, Texas 78701.

agricultural products have understood this, and they support some 68 private trade organizations formed to develop markets overseas in cooperation with the Department of Agriculture. This is, of course, a

mutual effort--with many strong Japanese organizations bringing to it their special knowledge, their special abilities."

In closing, Agriculture Secretary Hardin gave special recognition to the trade organizations for the three commodities which last year accounted for two-thirds of total U.S. agricultural exports to Japan--feed grain, soybeans and wheat.

*...bundle* *for winter*

**CONVERT YOUR HOME TO COMFORT ELECTRIC HEATING NOW...AND WE'LL INSTALL STORM WINDOWS... Free!**

Now is the time to bundle up your home for winter. Now is the time to install whole-house, comfort electric heating because, right now, with every qualifying electric home heating installation, we'll install free a complete set of storm windows for the heated portion of your home. All you need do is call Southwestern Public Service Company. Our electric heating specialist will gladly and professionally determine the exact heating requirements for your home.

Modern electric comfort heating is already being enjoyed by over 4 million American families... almost 5,000 in our area alone. The reasons are many, but what most people like about clean electric heating is the comfort it gives. An even warmth from floor to ceiling creates a comfort unlike any other heating method. You owe it to yourself and your family to get the facts about electric heating... and now is the time to do it.

Storm windows have proven their value in keeping out cold, wintry winds, holding down

inner heat loss and contributing to lower heating costs. The storm windows now offered free with qualifying home electric heating installations, are 2-track, aluminum windows with screen, and custom made to fit your own windows. Storm windows do an excellent job of combating dust storms, too.

**IS YOUR HOME ELIGIBLE?**

This offer is available to residential customers of Southwestern Public Service Company, living in existing single family homes and qualifying for the special residential electric heating rate. Should you already have storm windows or windows of such design or shape that they do not lend themselves to normal installation, do not despair--we have a special, most attractive plan for you, too.

**Are You Ready For This?**

The Fourth Annual Palo Duro Canyon Trail Ride will be held Friday, Saturday and Sunday, October 30, 31 and November 1.

A family event, this ride is one of the few events in this modern age that allows families to participate and play together. Situated in the beautiful, rugged Palo Duro Canyon

areas, first discovered by Coronado, no setting could be more complete or panoramic than this.

Early reservations and information are requested. For details, please contact the Amarillo Chamber of Commerce.

Lucille Tucker returned last Tuesday from the hospital in Galveston. Her condition has improved much. On her return home, she visited with her daughter, Mrs. Gloria Vogt and family in Houston.

**Talking it over**

Some of the key moments in our education are those times when we discussed with someone older the interesting things we learn.

But, to speak frankly about religious education today, one of the serious handicaps facing boys and girls who are *sent* (not brought) to church is that they have little opportunity to "talk it over" at home.

Moral and spiritual growth is nurtured by family discussion of the truths taught in classroom and pulpit. But this presumes that parents and children together are sharing the experiences of worshipping God and studying the Christian Faith. Candidly, too, it presumes that the parents will be the pace-setters... advanced enough in their own religious growth to answer simple, urgent questions.

It was always fun to tell "Sis" what we had learned at school. But, remember, it was Dad and Mother we counted on when we couldn't find the answers!

For your children's sake — and your own — attend church regularly.

<b>STATE PARK LAKES</b> GET IMPROVED FISHING Fishing has improved greatly in some Texas State parks since the U.S. Fish and Wildlife Service released approximately 15,600 pounds of catfish and bluegills in park lakes. Texas Parks and Wildlife Department biologists report increased catfish catches since 19,025 three-quarter to two-pound channel catfish were released in Tyler, Cleburne, Bonham and Fort Parker State Park. Tyler received 5,000 channel catfish totaling 3,200 pounds, Cleburne received 5,280 channels totaling 3,000 pounds, Bonham received 3,100 channels totaling 3,100 pounds and Fort Parker got 5,645 catfish totaling 5,645 pounds. In addition, Brownwood State Park received 5,200 Bluegills totaling 900 pounds. The fish came from the national fish hatchery in Fort Worth.	<b>PREBYTERIAN CHURCH</b> Matthew L. **New bonus interest rate on U.S. Savings Bonds**

Now all U. S. Savings Bonds pay 5% interest, PLUS a 1/4% bonus when held to maturity. This overall 5 1/4% interest payment means that now you get a little bit more money for your money.

Technically, here's how the bonus works:

- The bonus interest rate applies to all new Bonds purchased since June 1, 1970, raising their rate from 5% to 5 1/4% when held to maturity. Series E Bonds, whose maturity remains at 5 years 10 months, with a first-year rate of 4%, will have the 1/4% increase added as a bonus at maturity. Series H Bonds, with a 10-year maturity and first-year rate of 4%, will receive the bonus in the form of increased semiannual interest checks for their last 5 years, to yield an average 5 1/4% for the 10-year period.
- There is no reason to cash in Bonds you now hold. Yields on outstanding Bonds, prior to maturity, will be increased by 1/4% for semiannual interest periods beginning on or after June 1, 1970. For E Bonds, the increase will be payable at maturity; for H Bonds, through larger semi-annual interest checks for their last 5 years.
- For Bonds now in their extension period, yields will be increased by approximately 1/4% to next maturity, whenever redeemed.
- Finally, all Bonds maturing on or after June 1, 1970 while the bonus is in effect, will receive a 5 1/4% yield until next maturity.

Now, more than ever, it's to your advantage to buy U. S. Savings Bonds and hold them to maturity or beyond.

# LOOKIN' BACK

by Vera Featherston Bark

"Gone but not forgotten" is a trite expression, but nothing fits the passing of Nida Rippey Green so well as those four words. Dressed in the dress which she wore at her wedding to Alonzo Green in 1911, Miss Nida looked at peace Monday afternoon as last rites were said for her in the place of worship she loved the most - the Heald Methodist Church.

It was Miss Nida's work, influence, and prayers that kept the doors of this little country church open long after thousands of others like it closed up and moved to town. She loved the Heald community, its people, and the God they met there to worship.

Only three years after her marriage, Miss Nida lost her husband. They had no children, but many a niece and nephew, as well as young boys and girls of no blood relation - have shared with each other the mother love that was in her heart.

It was fitting that her body lie in state in the family home, full of memories of a happy family and a gathering place for the young people in early days. It was Nida's wish that she come home - even for only an hour - and that her services be held in the church she had fostered through the years. That wish was granted.

Yes, Miss Nida is dead. Her body lies in the Hillcrest Cemetery, her spirit has gone to its maker, but the influence for good and the love that she felt for all mankind will never die. Each of us will be a little better, do a few more acts of kindness, and offer up a few more prayers for having known Nida Rippey Green.

Miss Nida loved the museum. Next to her church, it was the nearest thing to her heart. From the beginning, she contributed many items of historic value and gave of her means to help us get started. The most valuable manuscript in all the collection is Miss Nida's Summer Normal Certificate earned by examination at Vemon, Texas in 1900.

It was her custom to visit the museum each Friday morning after having been to see her doctor. She wanted to see what we had new and often these new things brought precious memories which she shared with us. Usually Maudie Cooke was hostess on Friday and this visit from her first teacher was an added pleasure. Last Friday neither Miss Nida or the Rippys were at their best physically, so they did not come by the museum. And now Nida will never again be there in person, but she had left a heritage; part material - to be seen -; part spiritual - to be felt in our hearts.

Good-bye, Nida, and thank you for sharing your life with us. Your memory will live on as a precious heritage to many.

# Gliding Provides Break For Policeman

Policeman Jack Hill, son of Mr. and Mrs. Hill of Alameda, cruises around the streets of Canyon and the noisy silence of a sleeping city means all is well.

Hill often spends his time gliding around the Hereford-Canyon area and the silence is deeper, un-noisy and a bit frightening.

Hill is one of several city residents who have joined the new move to the sport of glider flying. And, it wasn't the silence which attracted him to the sport.

"I'd read a few articles about it," he said. "I like different things and it takes a lot to excite me."

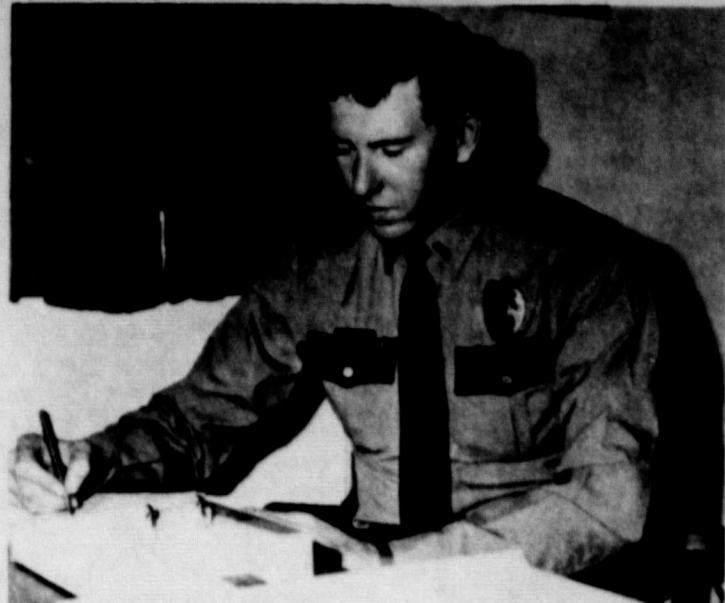

Excited he was after his first experience in a glider.

Hill took his first ride at Hereford Air Field in mid-August, and he was amazed by the maneuverability of the light-weight crafts.

He had never taken flying lessons and had, in fact, never flown a power-operated plane.

The most amazing part of gliding was the lack of noise.

"On one occasion we were flying over a feedlot and we got so low we could open the slide canopy and yell at the

Policeman Jack Hill carries out some of his office functions. Off-duty, Hill likes to try his hand at one of the newer American sports - glider piloting.

"cattle," he said. "It drove them crazy because they couldn't figure out where the noise was coming from."

Hill has accumulated about 4 1/2 hours of flying time in a glider. He must have 10 hours and meet various other requirements before he receives a regular glider pilot's license from the FAA.

Hill says gliders are much more uninhibited to fly than engine-powered planes.

"You can fly upside down until the blood all rushes to your brain," he said. "You don't have to worry about losing your oil."

Gliders are probably more maneuverable than regular planes, he said.

Maneuvering in a glider is accomplished along the

same principle as in a plane. But, to stay up, the pilot must watch for thermal currents to sustain his craft's altitude.

Thermal currents are strong in this area, Hill said. They are caused by asphalt pavement or feedlots or open fields.

There are two basic limitations to glider flying. One, the glider must be towed to its altitude by a regularly powered plane.

The second deals with the thermal currents. Cold, overcast days are not suitable for glider flying. During the winter, then, flying is limited to warm days.

Hill said glider flying is fast becoming a popular sport throughout the country. But, so far, it is still in its infancy.

## Screwworm Season Not Over

Livestock producers are reminded that the late summer and early fall season can still produce a lot of screwworm cases. In areas where high humidity and showers exist, producers are advised to use preventive practices to help reduce the possibilities of outbreaks of the damaging livestock pest.

About 25 per cent of Nevada's families have annual incomes of at least \$10,000.

## You Don't Need To Use Newspaper Advertising!

IF YOU THINK SO, THEN . . .

**PREACHERS** Should preach only one sermon or so a year. We are all against sin anyway, so why harp on it?

**TRAFFIC LIGHTS** Should be turned off at dangerous intersections to save electricity. Everybody knows it's a dangerous spot and that is sufficient.

**TEACHERS** No need to review lessons. Tell the children just once and they'll never forget.

**HIGHWAY POLICE** Stop driving up and down the highways. No need to caution drivers by patrolling highways. Drivers know the law and should obey.

**MAIL ORDER FIRMS** That send catalogues are wasting their money. Everyone knows what is sold at stores in town and of course they'll all shop at home.

IF YOU ARE ONE of the foolish kind, like the Notre Dame Cathedral that has stood for six centuries but still rings the bell every day to let people know it is there, and if you believe in consistent, profitable advertising, then you will . . .
