Agricultural Agent

 By **FOSTER WHALEY**

Cash income to farmers and ranchers in Gray County should be more than \$27,000,000,000 by the end of 1976, according to Foster Whaley, county agricultural agent.

This will be an increase of more than \$13,000,000,000 from 1968-69 figures, with Beef Cattle and Swine contributing a large part of the gain. The projections are based on studies of the Texas Agricultural Extension Service and are part of the "3.76 in '76" program, a state-wide project to increase Texas agricultural cash receipts by more than \$1 billion.

Total cash receipts from all agricultural cash receipts by agricultural enterprises in Gray County are presently about \$20,000,000,000, says Whaley.

The county will be aided in its production efforts by the Panhandle Economic program.

These projections are based on estimates from the County Program Building Committee after separate predictions were made by Extension economists. The figures were published for each county, Extension district and economic area in Texas.

"Gray County producers will have access to production information and techniques that can help spell success for the Texas goal of \$3.76 billion in 1976," says Whaley.

During the year 1971 the New York Stock Exchange traded an average of about 15.3 million shares a day, compared with 11.56 million shares in 1970. Total dollar volume of shares traded was expected to pass the \$145 billion record set in 1968.

Texas Press Association

An interesting political poll was taken at the Gulf Coast Press Association's board of directors' meeting in Houston January 8. Fourteen newspaper publishers were asked: "Who do you think will win the 1972 Governor's race in Texas?"

Seven said Lt. Gov. Ben Barnes, four named Dolph Briscoe and two listed Gov. Preston Smith.

The same editors were asked about their vote.

Eleven voted for Dolph Briscoe, two for Lt. Gov. Ben Barnes and one for Governor Smith. **SENATE CAMPAIGN** -- The 1972 political campaigns moved into full swing with announcement by former U.S. Sen. Ralph W. Yarborough that he would make a comeback try for a Senate seat.

plan in a series of whirlwind news conferences at Austin, Houston, Dallas, Fort Worth and San Antonio. He seeks the Democratic nomination to oppose Republican Sen. John Tower.

Barefoot Sanders of Dallas, already running for the Senate as a Democrat, welcome one time political ally Yarborough to the race as "one of our fine senior citizens." He said both Yarborough and Tower "are out of touch with the majority of Texans."

Yarborough said he has never had so successful a campaign opening day. He stressed his nearly-14 years' experience as a progressive senator, and said in answer to questions about his age. "I'll be around campaigning as long hours as anybody else, if not longer."

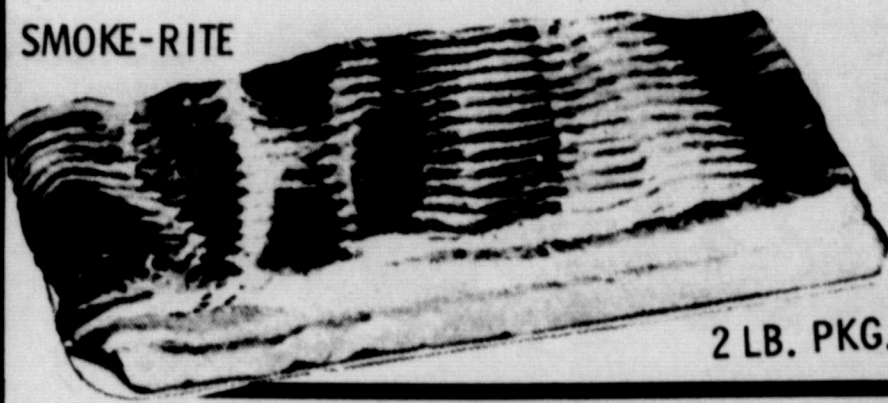

The former senator's entry took some of the spotlight away from the warming governor's race where Gov. Preston Smith, Lt. Gov. Ben Barnes and Uvalde rancher Dolph Briscoe are starting to mix it up.

Five Democratic candidates are moving around the state in the lieutenant governor's race.

Treasurer Jesse James, Comptroller of Public Accounts Robert S. Calvert and Commissioner of Agriculture John C. White during the last week announced for re-election. Calvert and James are expected to draw some opposition.

pects for a gubernatorial race, but has not ruled out challenging Atty. Gen. Crawford Martin.

AG OPINIONS
Atty. Gen. Crawford C. Martin declared the controversial new code of ethics for state and local officials unconstitutional and was commended by Governor Smith and Secretary of State Bob Bullock.

In other recent opinions, Martin concluded:

A witness in a criminal case under subpoena is entitled to mileage and witness fees.
INSURANCE CUTS ORDERED -- The State Insurance Board has directed lower collision insurance premiums for motorists whose cars are equipped with new damage-resistant bumpers. No domestic manufacturers have yet certified cars that meet the standards, however.

Twenty per cent discounts were ordered for 1972 cars with bumpers that can stand a five-miles-per-hour collisions, front and rear, without damage. Fifteen per cent cuts will be in force for new cars with bumpers which can stand a five mph front end crash and a two-and-a-half mph rear end bump. Ten per cent reductions apply for 1972 autos sustaining a five-mph front and two and a half mph rear collision with damage to lights, fuel, exhaust, cooling or latching systems or to the bumpers themselves.

SHORT SNORTS
Governor Smith is considering a recommendation for a state-wide food stamp program which would call for about \$17 million in state aid to counties and would produce \$286 million in federal assistance for the needy.

Industrial development of Texas last year may rank second only to record 1969, according to Texas Industrial Commission.

In 1972 the domestic electrical manufacturing industry expects to have product shipments totaling \$50.2 billion, nearly double the \$26.5 billion worth of equipment shipped just ten years ago.

"For nearly 30 years, the Federal government has tried to reduce farm output to certain levels—and has failed. For more than 40 years, the Russians have tried to raise farm output to certain levels—and have failed. It just goes to show you that governments should get out of the farming business.—Harold S. Mrs. Barker was visiting in the college there and drove to Alanreed to visit. She was disappointed that the weather was so cold and she could not visit around more.

The Alanreed school board had their first meeting for 1972 Monday, January 14, with four members present. They were: Robert Bruce, P. M. Gibson, J. C. Gilbreath and Red Easton. Others present were Mr. and Mrs. H. H. Worsham, and Mr. and Mrs. Marvin Hall. The monthly business was taken care of.

Mrs. Faye Oakley returned home Monday night after a two weeks visit in the home of her son, George, at Stratford. She attended the 4-H Fat Stock Show and a grandson won a grand champion on his lamb. She stopped in Dumas and visited her nephew, Carl Pettit Jr., who suffered a heart attack recently.

Fifth Grade Students Study Newspapers

By Rachel Glenn, Reporter

The fifth grade class has a new student. Her name is Jamie Trew. She is the granddaughter of Mr. and Mrs. Wheeler Carter and Mr. and Mrs. Therman Trew of McLean. Her parents are Mr. and Mrs. Don Trew. They moved here from Kunanurra, Western Australia.

The Gideons visited the class and ask them if they would like a Bible. Each student took one. This week they have been studying the newspaper. Mark Baile made posters of how a newspaper is made. He also brought some pictures of some machines. It was very exciting!

The McLean News has invited the class to tour the office.

Kick the number-fumbler habit!

If misplaced telephone numbers give you problems, here are suggestions that can help you.

1. Underline those special numbers in your directory.
2. Keep the phone book near the phone.
3. Have a pencil and paper handy when you talk so you can jot down numbers you may need again.
4. Maintain your own personal directory of frequently called numbers.

No big deal, but those suggestions can save you time and make calling easier.
