Truman Stands Pat On Tax Slash Veto

WASHINGTON, July 10. (AP)—President Truman said today that he will veto the new Republican \$4,000,000,000 income tax reduction bill.

Mr. Truman made this statement to a news conference shortly before the Senate began consideration of the legislation already passed overwhelmingly by the House.

Soviets Oppose Austria Entry Into The U. N.

LAKE SUCCESS, July 10. (AP)—Russia raised firm objections in the security council today against consideration of Austria's application for United Nations membership.

However, the application was sent without vote to the council's membership committee, which also holds bids from Italy and Hungary.

Drafting of the Austrian treaty has been snarled in the long negotiations over a peace pact with Germany, with the major share of the delays generally attributed to Russian refusal to agree with other major Allied powers.

HCJC Gets Recognition

Recognition of the Howard County Junior College has come from another source, E. C. Dodd, president, announced Thursday.

The American Association of Junior Colleges has given the local college, which recently completed its first regular year, full and unconditional membership.

Charges Of A 'Scandal' Brushed Off By Truman

WASHINGTON, July 10. (AP)—President Truman said today that in view of the source he isn't worried about a statement of former Rep. Roger Slaughter that a "scandal threatens" the office of the president.

Slaughter, former Missouri Congressman who was defeated for renomination last year by a Truman-endorsed candidate, made the assertion in an address prepared for delivery before a public affairs forum in Tulsa, today.

Extra Session Only If Needed, President Says

Sees No Hurry Yet For Action On Marshall Plan

WASHINGTON, July 9. (AP)—President Truman said today a special session of Congress will be called this fall if one is necessary to carry out the Marshall plan for European recovery.

Mr. Truman told a news conference it will be impossible to say definitely whether it will be necessary to call the lawmakers back to Washington before next January until the results of the Paris conference are assayed.

The Paris conference opens Saturday at the call of Britain and France, with attendance by at least 15 of the 22 nations invited already assured.

Primary purpose of Monday's White House session, the president said, is to discuss the problem of displaced persons.

Gov. Jester Starts Retirement Plan For State Employees

AUSTIN, July 10. (AP)—Gov. Beauford H. Jester today took the first step toward setting up a retirement system for aged and incapacitated state employees.

He named the three members of the board of trustees for the system authorized first by a constitutional amendment adopted at the last general election.

Statewide Oil Hearing Is Set

AUSTIN, July 10. (AP)—Railroad Commission Chairman Ernest Thompson said today that the next statewide oil hearing on which new oil production allowances will be based will be held in Austin Aug. 20.

The new rule becomes effective Sept. 1, with the expiration of the current three-month order now in effect.

NEW TEXAS JUDGE THANKS CONNALLY—U. S. District Court Judge Joe B. Dooley (right) thanks Gen. President Studies Coal Wage Effects

WASHINGTON, July 10. (AP)—President Truman received from his economic advisory council today a report appraising the possible effects of John L. Lewis' new coal contract on the cost-of-living.

Nourse declined to indicate the council's findings which were embraced in a mid-year report.

Mr. Truman himself at his news conference declined comment on the agreement, saying it was a matter between the mine owners and workers.

The administration meanwhile, however, showed no signs of reopening the mine wage controversy by proceeding against the operators under the Taft-Hartley Labor Act as Rep. Hartley (R-N.J.) declared it could do.

Hartley said the operators who signed could be charged under the act and, if convicted, would face a \$10,000 fine and one year in prison.

Moscow Turns Pressure On Czech Govt.

Acceptance Of Little Nation May Be Cancelled

PRAGUE, July 10. (AP)—Sources close to the government said today Czechoslovakia, by Moscow request, would withdraw her acceptance of the invitation to the European economic conference at Paris.

The cabinet went into hasty special session after hearing by telephone from Moscow, the informants said.

Only Finland and Albania still were to be heard from, and there seemed little likelihood that either would accept.

Fourteen other nations already have accepted the invitation to the Paris conversations opening Saturday. Today is the deadline for replies.

The Prague cabinet session came only 72 hours after the Czechoslovaks decided, apparently of their own volition, to accept the Paris invitation with some reservations.

The reasons which might have prompted Premier Gottwald to call from Moscow with a request for a withdrawal could not be ascertained here immediately.

Albania was expected to follow the lead of Russia, whose foreign minister, V. M. Molotov, opposed the plan for economic cooperation in three-power talks last week.

Output of United States automotive plants this week will total 65,539 passenger cars and 22,030 trucks, the trade paper Automotive News estimated today.

This will compare with 43,715 cars and 17,201 trucks last week, shortened in the factories by the Independence Day holiday.

Lightning caused slight damage to an electric meter at the Coca Cola bottling plant, 1008 East Third street, at about 9:30 p. m. Wednesday, the fire department reported.

Firemen said a bolt of lightning apparently struck either the meter itself or a wire leading to the meter box.

WASHINGTON, July 10. (AP)—Members of the family have been summoned to the bedside of Rep. Joseph J. Mansfield of Texas, who has been ill in the Bethesda, Md., naval hospital for three months. He is 86.

Mansfield took a turn for the worse several days ago and today his son, Bruce Mansfield, said his father is "sinking."

WASHINGTON, July 10. (AP)—Senator Baldwin (R-Conn.) said today he hopes to bring house-approved legislation to permit cashing of terminal leave bonds before the senate next week.

He said he will ask the full armed services committee to approve the bill at the earliest opportunity, possibly at a meeting scheduled for tonight.

**RUTH HOUSTON BOUND**

**Youth Is Held In Local Burglary**  
A 16-year-old boy was being held by local police this morning in connection with a burglary at the Hillburn Appliance Store, 304 Gregg. Officers said they apprehended the youth inside the store building after neighbors reported that a window in the rear of the store had been broken. The boy was to be transferred to custody of the county juvenile officer today.

**Muny Pool Closed For A Cleaning**  
The Municipal swimming pool was closed this morning for cleaning and refilling, city officials reported. The cleaning process is expected to require more than a day's time, and the pool probably will not be reopened before 1 p. m. Friday.

## Surplus Sales Scheduled At Pyote, Lamesa

Two sales of surplus property are slated for this area starting July 14. It has been announced. The AAF has announced a small lots surplus sale at the Pyote air field July 14-18, bids closing at 2 p. m. the last day. Offered are such items as rubber life rafts, life preservers, athletic equipment, food warmers, furniture, fire extinguishers, hardware, hand tools, office supplies, and other items. Final clearance of all war surplus at the Lamesa army air field is to be staged through an informal bid sale of several lots of personal property July 14-16. Goods originally costing \$17,000 will be placed in lots of related materials and sold on a non-priority bid basis. Bids may be submitted the first two days, according to the War Assets Administration, and will be opened at 9 a. m. the final day. Buyers are required to be present to claim awards. Included in the sale are hand tools, gas heaters, welding unit, battery chargers, hoists and jacks, along with other miscellaneous items.

## New Car To Be Made At Grand Prairie

DETROIT, July 10. (AP)—John T. Tjaarda, Detroit industrial design engineer, today revealed plans for a new, light-weight, low-priced automobile. Tjaarda said the car, a six-cylinder model incorporating "controlled combustion," would be built in a defense plant to be acquired in Grand Prairie, Tex. The new firm, to be known as North American Motors, Inc., will begin construction of the car in the first quarter of 1948, he said. Tjaarda described the car as Detroit-engineered, with a 100-inch wheelbase, powered by a continental engine and designed to sell for \$1,095.

## Local High School Graduates Planning College Careers

With approximately two months to go, members of the 1947 graduating class of Big Spring are beginning to think in terms of college. Thus far 22 have asked for transcripts of credits from the school. This is little less than 20 per cent of the class and approaches a normal national average. However, it is considerably under the record percentage of 50 per cent last year a figure that might be exceeded this year on the basis of requests for transcripts at this early date. School officials prefer that students ask for transcripts as early as possible to facilitate the furnishing of the information.

## Coleman Ranch Pool Due For Completions

Two tests were nearing completion Thursday in the Coleman Ranch pool of northwest Mitchell county. Cecil Guthrie No. 1 Lucy Mildred Coleman cleaned out following a shot that kicked out the bridge and sprayed the area. Operations were moving at a slow pace because agitation caused the test to head frequently. Location is 1,650 feet from the south and 330 feet from the east lines of the north half of the southwest quarter of section 76-97, H&TC. Wilbanks Bros. No. 1 Lucy M. Coleman, 330 feet from the south and east lines of the north half of the southwest quarter section 75-97, H&TC, waited on tubing and storage agitator test. It had been shot with 1,125 quarts from 2,584-2,810. In north central Glascock, Dave Duncan No. 1 Roberts-Barkhurst, seeking White Horse lime near the small Carter pool, drilled past 1,900 feet Thursday. It is 990 feet from the south and east lines of section 73-35, T&P. Cecil Guthrie No. 1 W. H. Read, in the East Howard pool, prepared to shoot with 711 quarts Thursday from 2,870 to 2,918 feet in lime after having shown 30 barrels daily natural.

## Denison Dam Power Rates Are Approved

WASHINGTON, July 10. (AP)—The Southwestern Power Administration today was ready with approval of the rates for a 20-year period, but the FPC fixed a termination date of Feb. 13, 1953, a six-year period. The reason, said the FPC, "during that period we can determine the desirability for their continuation or modification." The government agency, which has authority to dispose of electric power from projects in Arkansas, Louisiana, Kansas, Missouri, Texas and Oklahoma, has been selling power for Denison dam to Texas Power and Light for three years.

## Gross Output Of Crude Oil Has Decreased

NEW YORK, July 10. (AP)—The American Petroleum Institute in its report for the week ended July 5, issued today, disclosed a decrease of 43,900 barrels in the daily average gross crude oil output, the sharpest drop since last January. The total output for the week was 5,065,200 barrels and compared with 4,905,450 barrels a year ago. The industry as a whole ran to stills 5,109,000 barrels of crude oil daily, according to the reports from the refineries owning 89.4 per cent of potential capacity which were operated at 91.1 per cent of capacity. The daily average for the previous week was 5,093,000 barrels and for a year ago 4,874,000 barrels.

Total U. S. heavy fuel oil production was estimated at 8,485,000 barrels, against 8,298,000 the previous week and 8,155,000, a year ago. Light fuel oil production was figured at 5,659,000 barrels, compared with 5,806,000 the preceding week and 5,552,000 barrels a year ago. Total estimated gasoline production amounted to 15,759,000 barrels, against 16,070,000 last week and 14,537,000 a year ago.

**East Texas Crude Oil Price Raised**  
LONGVIEW, July 10. (AP)—A 10 cents per barrel price increase in crude oil price in the East Texas field, effective today, was announced yesterday by Sylvester Dayson, president of the Premier Oil Refining Company. The boost brings the price to \$2.05 per barrel. Dayson said the raise was made to "meet competition of certain purchasers who are paying premiums above the current posted price for crude oil in East Texas."

## Lester D. Bender Made A Sergeant

Lester D. Bender, son of Mrs. L. E. Bender, 821 W. 4th street, has been promoted from corporal to sergeant with the AAF. Announcement was made from Oberpfaffenhofen, Germany, where he is stationed as foreman in the warehouse with the 10th air repair squadron. He entered service in April, 1944 and had 19 months service in the ETO.

Pfc. Travis W. Crow, route 1, Big Spring, is due to be separated from the army at Camp Stoneman, Calif. He recently left from the Paranaque replacement and disposition center, according to word from the Philippines-Ryukyus command at Manila.

## Markets

NEW YORK, July 10. (AP)—Fractional recoveries were pinned on individual stocks today although many market leaders continued to rest at slightly lower levels. A little further selling was predicted on the idea the weekly advance called for more of a technical correction. The inflation argument, stemming from the recent coal wage boost, again attracted some short covering and investment bidding. Hopes for tax relief persisted as a bullish argument but the White House would veto the new bill chilled enthusiasm.

From where I sit... by Joe Marsh

**Fish Bites Woman!**  
Willie Wells was coming home from Seward's Creek the other evening with a string of trout, when a stern looking lady (visitor at the Boxwood Inn) stops him, and tells him a man his size could be better occupied than catching fish. Willie tells her off real good-naturedly by saying: "Perhaps you're right, but if these fish had kept their mouths shut, they wouldn't be here." (At that, says Willie, laughing out loud, she looked just as if a fish had bit her!) Blabbing mouths never cause anything but trouble. Nobody who knew the facts would ever criticize Willie's right to go fishing on his one day off—any more than they'd deny his right to come home to a mellow glass of beer. From where I sit, the slower we are to criticize—and the quicker we are to recognize another's tastes, the better we'll get along together—whether those tastes apply to beer or fishing.

**QUALITY CONCRETE BLOCK AND TILE FOR ECONOMICAL CONSTRUCTION**

STANDARD QUALITY CONCRETE BUILDING BLOCK WILL CARRY THE WEIGHT OF MORE THAN TWENTY (20) THREE-TON ELEPHANTS

In recent years the employment of concrete masonry in construction has forged to the front because of such inherent advantages as appearance, economy, ruggedness, fire safety, adaptability to all types of masonry wall construction and its general availability. As with other types of construction, best results are secured with concrete masonry by using units of uniformly high quality, laid with careful workmanship.

It is of special importance in all types of masonry construction to seal the wall against possible entrance of moisture through close attention to filling and tooling the mortar joints; proper application of approved flashing;

the sealing of all exposed wall surfaces by the proper application of portland cement stucco or a portland cement base paint.

Concrete masonry units should conform to the physical requirements (compressive strength, absorption and moisture content) of the local building code. In the absence of a local building code the standard specifications of the American Society for Testing Materials covering the particular use of construction in which units are employed should apply.

Manufacturers of high quality concrete masonry units will be glad to show you commercial laboratory test reports on their products.

**Wool Prices Stay At High Level**  
NEW YORK, July 10. (AP)—Unprecedented American demand for foreign wool is holding fine wool prices at current high levels, the American Wool Council reports. The council, in a review of world

wool supplies, said prices for fine combing wools show an average advance of 51 percent over December, 1946, and no softening is in prospect because there are no appreciable surpluses of the types in demand.

# Nation Awaits First Official Forecast On 1947 Corn Crop

WASHINGTON, July 10. (AP)—The nation learns today whether it faces the prospect of a short corn crop, prolonged high prices for meats and possibly reduced supplies of livestock products in general.  
The agriculture department prepared to issue at 3 p. m. its first official forecast on the size of the corn crop.  
This forecast was awaited eagerly by farmers, livestock feeders,

grain traders, food processors and government food officials because of severe handicaps put on the crop by a cool, wet spring and damaging early summer floods.  
Some private forecasters predict a near failure for corn. Others have been less pessimistic. A short crop would keep corn prices at a high level and would force a reduction in the production and feeding of meat animals.  
Reduced supplies of meals

would, in the face of strong consumer demand, tend to keep prices at present levels, if not boost them still higher.  
Inasmuch as this year's corn crop must supply the major part of the livestock feed supply for the first 10 months of 1948, any reduction in meat production would be felt next year.  
No hope was held in government quarters for a repetition of last year's record corn crop of 3,287,000,000 bushels. Only scant prospects were seen for reaching the government's 3,000,000,000 bushel production goal.  
But most food officials predicted the official estimate would exceed the ten-year average of 2,609,000,000.

They said a crop of at least 2,800,000,000 bushels of good quality corn would be needed to prevent a cut in livestock feeding and meat supplies. A crop of this size, however, would not permit exports at rates of the past 12 months. Neither would it allow an increase in reserves—an increase which would be desirable as "insurance" against future crop failures.

## City's Expense Is \$9,000 Over June Receipts

Big Spring's general fund maintained a balance of \$52,025.52 at the end of June, despite expenditures of \$9,034.93 in excess of receipts for the month, according to the city secretary's regular report.  
June revenues totalled \$53,372.61, while expenditures for the month amounted to \$42,407.54.  
Fees for water, sewer and garbage service accounted for \$21,007.31 of month's receipts. Other principal sources of revenue during June included the gas franchise, \$1,520.19, fines and court costs, \$1,019, current tax receipts, \$574.39. The water and sewer receipts represented an increase of \$2,153.03 over May figures.

The interest and sinking fund held a balance of \$5,891.95 at the end of the month, after \$7,500 had been used to retire bonds and \$3,112.50 had been paid in interest.  
Cash balance for the airport fund was \$13,937.37, with June receipts totalling \$7,487.23. The airport fund gained \$3,000 during the month through sale of a hangar, which had been dismantled and stored for several years. The material was sold to the Johnston Macchia Shop, which is erecting a building on First street. Airport disbursements totalled \$2,790.43 for the month.  
The cemetery fund recorded receipts totalling \$652.25, while disbursements amounted to \$630.82, leaving a balance of \$8,467.65 in the fund.

The parks and swimming pool fund retained a balance of \$770.72 after disbursements of \$2,570.41. June receipts totalled \$2,977.15, of which \$2,225.60 came from the swimming pool. Revenue at the Muni golf course totalled \$427.80. Parking meter receipts totalled \$2,468, while disbursements from the meter fund amount to \$1,949.26, leaving a balance of \$3,557.75.

## TEXAN IN NET SEMIFINALS

DENVER, July 10. (AP)—Ranking players from throughout the nation continued today to fight through the weekend finals of the Colorado Open tennis tournament.  
In men's singles matches today Gene Reidy of Denver was scheduled to meet top-seeded Seymour Greenberg of Chicago and Jack Osborne of Denver, seeded No. 8, was matched with Bob Goldfarb of Texas university.  
In the Junior Men's division, now in the semi-final stages, Ellery Carter of Colorado Springs was the only remaining Coloradan. He meets Jim Saunders of Amarillo, Tex., while Dick Mouldous of New Orleans, former National Boy's champion, plays Bob Kirkpatrick of Provo, Utah.  
Other men's singles pairings include: Sam Match, San Francisco, vs. Ed Braswell, Texas university; Herb Flam, Beverly Hills, Calif., vs. Bob Curtis, Rice Institute.

## President Plans No Cross Country Trips At Present

WASHINGTON, July 10. (AP)—President Truman said today he does not plan to make a cross-country trip this fall as has been urged by officials of the Democratic national committee.  
Questioned about the proposed trip at a news conference, Mr. Truman said he has no plans for any trip anywhere.  
Mr. Truman was asked if he planned a visit to Brazil in response to an invitation. He replied in the negative.  
Democratic party leaders have suggested that he consider a cross-country tour which would start with a giant Labor day rally in Chicago.

## Truman Endorses MVA Legislation

WASHINGTON, July 10. (AP)—President Truman today endorsed legislation to create a Missouri Valley Authority.  
He told a news conference, however, that he favored the bill along with a comprehensive flood control program for the whole Midwest and the central part of the country.  
He always has been, Mr. Truman said, an active supporter of a Missouri Valley Authority for the Missouri river.  
Legislation to establish the authority, along the lines of the Tennessee Valley Authority, has been before Congress for several years.

## Oklahoman Killed In Auto Crash

OKLAHOMA CITY, July 10. (AP)—J. M. (Bud) Gentry, Oklahoma's first highway safety commissioner, was killed early today in an automobile accident south of Edmond. Gentry was 52 years old. He left office last March 1. His home was in Enid.  
A station wagon Gentry was driving toward Oklahoma City, a few miles away, struck a culvert and went off the highway into a deep ditch.  
Gentry was commissioner from 1937 until 1939, was out of the job during the administration of Gov. Leon C. Phillips and returned for four years under Gov. Robert S. Kerr, starting in 1943.

### No Politics In Dooley Choice, Says Connally

WASHINGTON, July 10. (U)—Senator Connally (D-Tex) said last night that appointment of Joe B. Dooley of Amarillo, as judge of the northern district of Texas was "not political."

Connally said he was gratified that Dooley was confirmed. Connally recommended the Amarillo lawyer and he was confirmed Tuesday by a 48-36 vote.

Dooley's appointment was fought by Texas Senator O'Daniel.

Connally said in a 600-word statement that "only two Democrats other than Senator O'Daniel who were present and voting voted against him."

"In order that the question may be fully understood by the people of Texas," Connally said, "I desire to say that the appointment by the president of Mr. Dooley was in no way a political appointment."

He said it was "a routine appointment to fill a vacancy in a judiciary."

### McAllen Girl Is Saved From Rabies

McALLEN, July 10. (U)—A seven year old girl, bitten by a rabid dog, today had a neighbor to thank for her thoughtfulness.

When Maria Fonseca was bitten July 3 by a four-month-old pup, the dog's owners killed it and placed it in some brush at a distance from the house.

But Mrs. Juan Martinez, the neighbor, wanted to take no chances. She notified police, who sent the dog's head to Austin.

The test showed the dog was infected with rabies.

The child's parents were advised and preventive treatment was started immediately.

### In Buying Wedding Trousseau Princess Elizabeth Will Have Same Problems As Other British Girls

By Barbara Wace

LONDON July 10. (U)—There won't be any buying spree for Princess Elizabeth when she gets ready her trousseau—unless Britain's clothes rationing scheme is lifted before then.

And, like so many other newlyweds, it's likely the young royal couple may have to "live with mother."

Coupons, the housing shortage, lack of domestic ware, furnishings and bed linen, will probably hit Britain's number one engaged couple as it does the humblest of her future subjects. And, like many of her generations, she'll probably depend a good deal for her luxuries on the generosity of friends abroad.

Throughout the war years and until the royal family went to South Africa, the princess lived on the same coupon allocation as any other British girl. Again and again Princess Elizabeth attended functions in the same ensemble—with new coupon-free hats to ring the changes.

When gifts of shoes or stockings were given from British firms, the royal family was scrupulous to surrender coupons in exchange.

It is unlikely in these days when production problems are as bad as they've ever been, and when the glare of publicity is on the betrothed couple, that any extra coupon allocation will be granted.

Like everybody else, Elizabeth must make her ration coupons last until the end of September. Like everybody else, she'll be wondering how many will be allowed for the next period—just how long they'll have to last and she'll have to be more careful than girls in whom reporters aren't interested not to infringe any regulations.

Clothes for the royal tour to South Africa were classed as "for export only," and the Royal Princesses had their first opportunity to buy as they liked. But unless the honeymoon is to be abroad, it is unlikely that the same license will be taken by the princess.

Most British girls, many of whom hire wedding dresses from a film studio, are wondering today what the princess will do about her wedding dress. Restrictions have brought in a 1947 fashion for brides to wear their mother's wedding gown—or their great great-grand-

# Congratulations Pouring In On A Radiant 'Princess Lilybet'

LONDON, July 10. (AP)—A radiant Princess Elizabeth, her eyes sparkling like the three-diamond engagement ring that glistened on her third finger, received best wishes from all parts of the world today on her betrothal to Lt. Philip Mountbatten.

"We are very, very happy," she told a friend as she leaped through pile after pile of congratulatory messages in Buckingham Palace, where her handsome blond fiance also was in residence.

Outside the vast gray palace, whose gloomy exterior gave no evidence of the happiness within, a crowd that swelled to more than 2,000 stood in steady rain for a glimpse of "Princess 'Lilybet'".

When she left with her family for a Westminster Abbey ceremony, Hurrah and shouts of "good luck" rang out as the royal family left in a limousine for the abbey. The slender, blue-eyed Elizabeth, sitting beside demure Princess Margaret, smiled happily and waved acknowledgment. A faint blush tinged her cheeks.

Renewed cheers arose from another raincoated crowd in front of the 900-year-old abbey, where King George unveiled a new memorial chapel to the flyers who saved the country from invasion in the Battle of Britain.

Lt. Mountbatten, on 14-day leave from his naval establishment in Wiltshire, did not accompany the royal family. A small crowd stayed in front of the palace hoping to see him and the Princess appear later in the balcony.

The announcement of the royal engagement and speculation over plans for the wedding—the date for which is to be set within a few days—temporarily stole the spotlight from international politics and domestic economic problems.

An official announcement today said that Lt. Mountbatten would accompany the royal family to Scotland.

Before departing for Westminster Abbey today the Princess and her husband-to-be had their official engagement photographs taken in the Bow room of the palace. The general belief was that the 21-year-old heiress apparent to the

throne would wed her childhood sweetheart this autumn—probably in October—at Westminster Abbey. The impression appeared to be growing that the ceremony—in deference to the grave economic ills confronting the nation—would be a comparatively austere affair.

## Feud Over Oil Sent To Russia

WASHINGTON, July 10. (AP)—Chairman Weichel (R-Ohio) of the house merchant marine committee acknowledged today that he is stumped in his efforts to block oil shipments to Russia.

He blasted as "arrogant" the action of the commerce department in granting export licenses that will permit the departure of three Soviet-bound tankers now being loaded on the west coast.

Undersecretary of Commerce William C. Foster conceded to the committee yesterday that his office had granted the licenses only a few hours after Weichel phoned him to insist that they be refused.

Foster said (A) the shipments were normal, (B) the department intends to continue to export petroleum products and (C) a halt might upset the world market and result in a drop in this country's own petroleum imports.

He added that such a stoppage would cause "chaos and confusion" in "friendly" countries. Foster said, however, that export quotas will be fixed soon on the basis of this country's requirements and supplies.

Weichel, irate, told newsmen "there's apparently nothing we can do about it." "It's obvious," he added, "that the commerce department can't be trusted to take care of this country's own defense and domestic requirements for oil."

Weichel has introduced a resolution which would require the war and navy commerce departments to certify that future petroleum exports—on a shipment-by-shipment basis—would not impair the national defense nor interfere with full domestic requirements.

But the committee, itself, has not completed hearings on the measure and it then would require house and senate action.

This seemed unlikely, if not impossible, in the drive to wind up the congressional session this month.

MRS. E. C. THOMAS DIES  
SAN ANTONIO, July 10. (AP)—Mrs. Ella Cameron Thomas, 86, mother-in-law of Karl Hoblitzelle, president of the Interstate Circuit, Inc., died at her residence here late yesterday. Funeral services will be held tomorrow.

## Offensive Of Capitalists Hit By Jap

TOKYO, July 10. (AP)—President Katsunomi Kikunomi of Japan's Congress of Industrial Unions told an extraordinary national convention today the CIU's prime current problem was "how to fight against the present capitalist offensive."

Declaring this "offensive" was impeding the progress of Japan's laboring class, he charged that capitalists were "trying to overthrow" organized labor while unions are out on strike.

(Allied headquarters labor statistics show 81 per cent of an estimated 5,500,000 unionists work under wage-hour contracts, but officials said comparatively few Japanese—probably less than 5,000—are now out on strike.)

Kikunomi did not elaborate except to say "last year's CIU meet-

ing was held in the midst of a capitalist offensive. This meeting also is being held in the midst of a capitalist offensive. . . Following cancellation of the Feb. 1 general strike."

The CIU took the lead in preparing for the general strike, which was approved publicly by Japanese communists. General MacArthur halted the threatened walkout.

The CIU president scored the present cabinet headed by socialist Tetsu Katayama. Through a three-party coalition, he said, the policies of the conservative Yoshida cabinet are being carried over by the Katayama cabinet.

## Nickajack Cave Search Was Hoax

NASHVILLE, Tenn., July 10. (AP)—State Safety Commissioner Lynn Bomar announced today John T. (Tuck) Hurn, for whom a week's search had been made in Nickajack Cave at Shellmound, Tenn., had been located in New York City and that Hurn's reported disappearance in the cavern was "a hoax from beginning to end."

## Lefty Tourney Gets Underway

SEGUIN, July 10. (AP)—Match play got underway at Max Starcke Park golf course today in the State Left Handed golf tournament following yesterday's qualifying rounds. Curtis Walker and Ed Kingsbury of Houston each posted 72's to tie for medalist honors.

Herbert Reid Jr., of Lockhart, 1946 champion, qualified with a 77. Allan Mitchell of San Antonio, only two-time winner in the meet, took a 76 yesterday, while Joe Ribelin of Dallas, 1939 champion, shot a 73.

Losers in the championship second and third flights in first round matches will drop one flight lower in second round competition.

Tomato seeds were brought to South America by the Spanish.

## Cortes' Bones Buried

MEXICO CITY, July 10. (AP)—In a crumbling old church adjoining situated in the heart of the city, the centuries-old Hospital De Jesus, lie the bones of Hernan Cortes, Spanish conqueror of the ancient Aztecs.

They were reburied yesterday in a niche in the wall of the unused church, where they were discovered last year after a carefully guarded search.

The burial marked the seventh for Cortes' remains. Cortes died near Seville, Spain, Dec. 2, 1547.

A simple bronze plaque now marks the place where the bones were secreted in 1836 to escape possible mob violence.

# Article Predicts U.S. Rivalry With Russia For Many Years

WASHINGTON, July 10. (AP)—A conviction that the United States must deal with Russia for many years "as a rival, not a partner" is expressed in a highly authoritative but anonymously published article which is attracting much diplomatic attention.

It outlines the view that if the Soviet Union can be held in check for the next decade or longer, the result may be either a more cooperative attitude or a breakdown of Russian power.

The article is published in the July issue of Foreign Affairs, a quarterly magazine, under the signature "Mr. X." There is speculation among diplomatic officials that it sets forth the thinking of George Kennan, chief of Secretary of State Marshall's new policy planning staff.

The state department refused comment today as to whether Kennan actually wrote the article. Whether he did or not, the interest displayed in it by responsible officials leaves no doubt that it is authoritative.

The theme of the article is that (A) Soviet leaders hope for and expect an eventual breakdown of the capitalist world, (B) that meanwhile they justify their dictatorship by preaching inside Russia "the ignominy" of capitalist encirclement and (C) abroad they follow a practice of expanding into all areas where other powers are

weak.

One key to Soviet action, according to "Mr. X," is that the Soviets have no timetable and constantly can retreat or expand according to the counter forces set up against them.

The writer argues, however, that they cannot always, as a matter of

tactics, wait and accomplish nothing.

He speculates that if the United States, along with other western nations, can follow a policy of "firm containment" of the Soviet Union for ten or 15 years the result may be either a "mellowing" or a breakdown of Soviet power.

# Hollywood Sets Pace In Fashion Changes

HOLLYWOOD, July 9. (AP)—Waist in; shoulders down; hips out; skirts down. No, girls, that's not a new setting-up exercise; that's how your fashions are going.

This intelligence comes from Edith Head, Paramount's wash fashion expert, the gal who plans everything from Betty Hutton's buttons to Gail Russell's bustles. She confirms the rumblings from Paris and New York that women's clothes will suffer a tremendous change this year. (Of course, it's bill-footing papa who'll do the real suffering.)

"In a little while," said Miss Head, "modern pictures that are a year old will look like period films; that's how great the changes are."

without padding them."

The movies are leading the way in the slim waist division. Film actresses have always had to maintain minimum midsections, because the camera tends to make normal waists appear like Hattie McDaniel's. And the glamor girls will have to inhale deeper.

"For the first time since the civil war," Edith enthused, "a woman's charm will be determined by whether a man can encircle her waist with his two hands. Here-try mine." Heavily, I applied my hands to her waist. My stubby fingers failed to meet by several inches.

"With my new dress, you will be able to join your hands," she said. "Waists will be compressed three or four inches."

Hollywood, Paris and New York are collaborating on the new fashion, said the designer.

The Parisian contribution: "Padding slips from shoulders to hips." Although she is playing along with this movement, Edith doesn't approve. Declared she: "Women's hips are big enough

# Children Die In Mountain Cabin Fire

STONEWALL, Colo., July 10. (AP)—Three small children died in flames which quickly destroyed a three-room mountain cabin here last night after the explosion of a kerosene stove.

The victims were John McCoy, 6, and his baby brother, Davis, sons of Mr. and Mrs. Mack McCoy of (215 Pierce St.) Amarillo, and Dixie Sue Conger, 4, daughter of Mr. and Mrs. Dero Conger of Stonewall.

Mrs. McCoy, mother of the two boys, was brought to a Trinidad hospital suffering from burns and severe shock. Several men of this southern Colorado mountain community who made vain efforts to rescue the children also were burned.

Bodies of the three victims were retrieved from the ashes of the cabin by sheriff's officers several hours later.

Mrs. McCoy and her children arrived here several days ago to visit the Conger family while her husband was in the east on business.

The Congers had gone to camp Picketwire, a tourist resort a short distance from the cabin, and Mrs. McCoy was alone with the children at the time of the blast. The children were trapped by flames which immediately enveloped the cabin.

McCoy was contacted by telephone at Clarion, Pa., and was en route here today by plane. His wife collapsed as she attempted to tell him of the tragedy and friends gave him the story.

# Lions Praise R. M. Hull's Safety Mark

R. M. Hull, driver for American Railway Express company, was recognized Wednesday at the Lions club for a safety record which has stretched out over a decade.

In the 10 years that Hull has been operating a delivery truck for the company, most of the time in the crowded downtown area, he has never figured in a traffic mishap. Presentation of the award was made by John Ratliff, chairman of the club's safety committee.

Gordon (Moe) Madison, one of six boys from Howard county who participated early in June in "Boys State," explained the American Legion-sponsored project to the club. During seven days, more than 300 youths from over the state go through the motions of state government, electing their own officials, acting as a legislature, and inspecting the departments of the state in action.

While in Austin, said Madison, boys from here saw the legislature in action, heard an address from Gov. Jester, and carried on the functions of county and municipal affairs in addition to an athletic program. The Lions club paid the expense of one of the six, the

largest delegation from one county in the state, to the state meeting. Rev. R. Gage Lloyd, program chairman, presided.

Bill Dawes, president, announced a meeting of officers, directors, past presidents and committee chairmen for 7 p. m. Friday at the St. Mary's Episcopal parish house. Plans for the immediate quarter will be outlined at the dinner affair.

Welcomed back to the club was Joe Blum, who is returning to Big Spring from Houston.

### Crude Oil Allowables Are Raised

AUSTIN, July 10. (AP)—The railroad commission today issued an order raising crude oil production allowables 79,033 barrels per day during the remainder of July and August.

Most of the increase, 72,256 barrels per day, was allocated to West Texas fields.

"Every demand or request for oil made at yesterday's oil hearing held here has been met fully by the Texas railroad commission order which became effective at 7 a. m., today," Commission Chairman Ernest O. Thompson said.

At yesterday's hearing both major and minor refiners of Texas crude had asked increased allowables in West Texas to meet what Thompson described as a "phenomenal demand" for oil products. They testified that they now have transportation facilities, both through increased pipeline capacity and tank car trains, to move crude out of the West Texas area, previously bottlenecked by transportation shortages.

### Golden Tide Rolls In From Big Wheat Harvest In Kansas

GREAT BEND, Kas., July 10. (AP)—The golden tide is rolling in from Kansas' big wheat harvest.

Grain belt reports indicated today farmers are capitalizing on a combination of good weather after a long rainy spell, improvement in just plain get-the-job-done determination to bring in the greatest crop in the state's history.

In many counties, yields were exceeding early expectations—bolstering predictions of some observers that the crop will top the government's latest estimate of 278,000,000 bushels.

But it all wasn't easy going. Just as in the war years, the wheat farmer was handicapped by shortages—lack of box cars, for one thing. With not enough cars

available to move the grain, county elevators in some sections were glutted and wheat was being piled on the ground.

To help ease the tight box car situation, a plan to speed up handling of box cars in the Kansas City market during the heavy wheat movement has been worked out.

While demand for combines remained high, machines moving into Kansas from the Oklahoma and Texas harvests and from Colorado have brightened what only a few days ago was a dark outlook for farmers faced with ripening fields and no machinery on hand to get their crops in.

W. O. Stark, assistant state farm labor supervisor, estimated that 500 combines now are entering the state daily.

### Activities Are Underway At Cub Scout Camp In City Park

A total of 116 Cub Scouts, representing seven packs in the Big Spring district, registered Wednesday for the annual Day Camp at City park.

Activity at the camp will continue through Friday, when parents of Cubs attending will be guests at a supper in the park. Mothers of the Cubs have been asked to bring desserts for the supper and eating utensils, officials said.

Some of the Cubs and their fathers plan to remain overnight in the park Friday night.

Attending the camp are 55 Cubs from Pack 13; three from Pack 44; two from Pack 27; 19 from Pack 29; 11 from Pack 46 of Forsan; 12 from Pack 12 of Coahoma; 14 from Pack 28 of Stanton.

General activity at the camp today was to include baseball, swimming, games and other contests.

Adults assisting in the camp are Ted Phillips, Harvey Wooten, George Melear, Arnold Seydler, Tommy Farquhar, Charlie Watson,

Elton Taylor, Gene Hutchins and David Elrod. Wood for the camp was furnished by J. Y. Robb.

### Oranges Make Good Summer Desserts

2 cups sifted soft-wheat flour  
4 teaspoons baking powder  
1 teaspoon salt  
3 tablespoons fat  
2-3 cup milk  
¼ cup melted butter  
Grated orange rind  
Sugar

Sift the dry ingredients and put in the fat with a biscuit cutter. Make a well in the mixture and add the milk slowly; stir from the center with a fork until a fairly stiff dough is formed. Knead for a few seconds until smooth. Roll out about one-fourth inch thick on a lightly floured board, cut with a small biscuit cutter, and fold over like a pocketbook roll. Dip quickly into the melted butter, drain, and put in a baking pan. To each tablespoon of grated orange rind add 1 tablespoon of sugar, and mix well. With the tip of a knife, place a small quantity of the orange and sugar mixture between the folds of the biscuits and spread a little over the top. Bake in a moderately hot oven (375 degrees F.) until lightly browned. Serve at once.

**ORANGE DROP COOKIES**  
2 tablespoons grated orange rind  
4 tablespoons butter  
1 cup sugar  
2 eggs  
4 tablespoons orange juice  
2 cups sifted flour  
4 teaspoons baking powder  
½ teaspoon salt

Cream together the grated orange rind, butter and sugar. Add the well-beaten eggs and orange juice, and the flour, baking powder, and salt, which have been sifted together. Drop the batter by spoonfuls onto a greased baking sheet and bake in a moderately hot oven (375 to 400 degrees F.5 for about 10 minutes.

### Play In Texas League Resumed

By The Associated Press  
Texas league clubs resume the battle for the pennant tonight after taking time out to lick the leading Houston Buffs 4-2 in the annual All-Star game.

The Buffs boast a three and one-half game margin over second-place Fort Worth as they entertain the cats at Houston. Oklahoma City will be at Shreveport and Tulsa at Beaumont in other games. Dallas and San Antonio have an off-night. They played a double-header earlier in the season and got ahead of themselves.

After tonight the clubs change stands for three-game series with Dallas at Houston, Fort Worth at San Antonio, Oklahoma City at Beaumont and Tulsa at Shreveport.

The league race rolls down the second half with Houston, Fort Worth, Shreveport and Dallas in the first division.

### Three Deck Super Sandwich

#### AMERICAN CLUB SANDWICHES

White bread  
Mayonnaise  
American cheese  
Shredded cabbage  
Catsup  
Salt, pepper

For each sandwich toast three slices of bread (crusts trimmed). Spread one slice with mayonnaise, cover it with a slice of cheese and another slice of toast spread with mayonnaise. Cover this slice with shredded cabbage which has been seasoned with mayonnaise, catsup, salt and pepper. Top with the third slice of toast, cut diagonally and serve at once.

### Ice Cold Salads Are Refreshing

Salad Supreme  
What is so refreshing as an ice cold salad on a summer day? Nature cooperates by furnishing fruits and greens to combine for a beautiful plate of appetizing food.

Salad Supreme is delicate and the foods used must be combined at the last possible moment. Everything can be prepared early and kept in the refrigerator until needed. This salad is a mixture of fruits served on a bed of shredded lettuce or tiny lettuce leaves from the garden, garnished with water-cress. It is topped with a ball of lime sherbet decorated with an un-hulled strawberry or a few red raspberries.

Dainty sandwiches with a parsley butter filling between slices of white bread and brown bread spread with cream cheese are good with Salad Supreme. The dessert may be an easily made Crusted Almond Cream. Serve hot tea or coffee even if the day is warm.

Crusted Almond Cream  
1 tablespoon gelatin  
2 cups milk  
2 eggs, separated  
1/4 teaspoon salt  
1-3 cup sugar  
1/4 teaspoon vanilla  
1/4 teaspoon almond extract  
1 1/2 cups oven popped rice cereal  
1/2 cup chopped nuts  
1 tablespoon melted butter

### Hot Soup, Cold Supper Makes Good Pattern For Midsummer Evening Meal

By Jean Merritt  
When the temperature soars and the sun fairly sizzles, refresh your folks with a special, hottest-day-of-the-summer supper. Appetites grow languid this kind of weather, and folks get finicky about their food. So you have to court their favor by serving things that tempt them.

To a heat-fagged family a cold meal is tops in appetite appeal. Yet folks in the know say it's not wise to serve the whole meal chilled. There should be at least one hot dish to perk up their sluggish palates and revive them.

What better for this purpose than hot soup as a supper starter. Soup is the ideal energizer; and when the canned, condensed kind is used its making is effortless and easy on meal planners, too.

From there on bring in a bowl of salad—one of the big, meal-in-a-dish kind filled with everything the first course needs to complement it. Serve this with salt sticks, crusty rolls, or rye bread melba

lightly. Chill approximately 1 hour. Place in salad bowl and garnish with greens and olives. Serves 8. Note - To prepare fresh shrimp, boil 15 minutes in salted water. Let stand in cooking water until cool. Remove shells, then black line. Wash under gently flowing cold water.

PEACH SHORT CAKE  
Fresh peaches  
Whipped Cream  
Baking Powder Biscuits

2 cups sifted all-purpose flour  
4 teaspoons baking powder  
1 teaspoon salt  
3 tablespoons fat  
1/4 cup milk

Sift together flour, baking powder and salt. Work in fat. Add milk gradually, mixing to a firm dough. Toss on lightly floured board and pat to 1/4 inch in thickness. Cut with biscuit cutter and place on buttered pan. Bake in a hot oven (400 F.) about 12 minutes.

Jean Nicoit, French ambassador to Portugal, sent tobacco seeds to Queen Catharin de' Medici, and the word "nicotine" was coined in his honor.

LOUISIANA SALAD  
2 cups cooked shrimp  
1 cup mayonnaise  
2 tablespoons prepared yellow mustard  
1 tablespoon cider vinegar  
1 tablespoon grated onion  
3 cups cooked, diced potatoes  
1 1/2 cups diced celery  
2 hard-cooked eggs, chopped  
1/2 teaspoon pepper

Combine all ingredients and mix

**Deviled Eggs, Meat Salad Give Jest To Summer Suppers**

Summer Suppers  
The sun begins to sink and a little breeze springs up but it still may be too warm to make the thought of a hot meal very exciting to the cook. There are some people who always want at least one hot dish no matter how the temperature soars. Soup or coffee may satisfy this desire even if served with other foods which are all cold.

A filling main dish for a summer supper is a meat salad. Marinate cold cooked meat with well seasoned French dressing. Just before supper add diced celery, chopped parsley and mayonnaise. Serve in lettuce cups garnished with sliced hard cooked or deviled eggs. Sandwiches filled with grated carrots, sliced cucumbers or tomatoes will provide the vegetable. Finish the meal with a cold desert.

Deviled Eggs  
6 hard-cooked eggs  
5 tablespoons mayonnaise  
2 teaspoons finely minced onion  
1/4 teaspoon salt  
1/4 teaspoon dry mustard  
1/2 teaspoon Worcestershire sauce  
2 tablespoons finely minced pickles and olives

Cut hard-cooked eggs in halves lengthwise. Remove yolks and force through sieve. Add remaining ingredients and mix well. Add more mayonnaise if needed. Refill whites with yolk mixture. Chill and serve garnished with lettuce or watercress. Sprinkle with corn flake crumbs to prevent drying and discoloration.

Meat Salad  
2 cups cooked meat  
Salt  
Pepper  
1 cup diced celery  
1/2 cup French dressing  
Lettuce  
1/2 cup mayonnaise

The meat should be free from fat and gristle; and should be cut in cubes 1/2 to 3/4 inch in size. For special occasions white meat of chicken alone is used. Sprinkle meat with salt and pepper, add celery and French dressing and let chill half an hour or more. Serve on platter in lettuce cups and garnish with mayonnaise.

# Roar Of Engines Is Sweet Music To Lombardo's Ears

## Band Leader To Defend Laurels

NEW YORK, July 10. (AP)—Getting to see Guy Lombardo is like going on a guided tour of Radio City.

You get in line, walk down a flight of stairs, cross the stage of a dressing room busy with ringing telephones and a half dozen press agents all trying to talk at once. The noise was about the loudest I've ever heard in a rationally Gold Cup Regatta on Jamaica Bay, N. Y., Aug. 10.

Lombardo is best known to speedboat enthusiasts as the holder of the Gold Cup. To most people he is the leader of the Royal Canadians, a top dance band featuring "sweet music."

prepare for his "stage call" he flicked the projector button and everything went black. He finally found the proper gadget.

"I don't use superchargers," said Lombardo. "They'll give you a bundle of speed but you invariably run into trouble with them in the 30-mile heats such as will be run in the Gold Cup again this August."

ready for the race. It's equipped with a 2,000-horsepower engine. In 1938 Miss Canada won the President's Cup on the Potomac.

Arena, who held the Gold Cup lap record until last year, may pilot Notre Dame, and Joe Van Bierek of Freeport will drive his 400-horsepower Al Joe IV.

# Bosox, Tigers Hope For Yank Foldup On Road

## By The Associated Press

The old, familiar cry of "Stop the Yankees" rang through the American league again today.

The Yanks are eight games in front of both Detroit and the Red Sox and those two are the only two clubs that are conceded much of a chance to derail the Bronx Express.

## Bramham Death A Major Blow To All Baseball

NEW YORK, July 10. (AP)—The sport of baseball lost one of its greatest friends when Judge W. G. Bramham died Tuesday, and so did a lot of people who write about the game.

## SPEECH, SPEECH

Bramham probably will be remembered the longest for the famous "Battle of Proxies" in 1943, when baseball's chain operators tried to unseat him.

## CAUGHT AT HOME

When Warren Spahn, the Braves' southpaw flinger, was a high school kid with big league aspirations, his four sisters, Marjorie, June, Gertrude and Eleanor, frequently were drafted as catchers while he drilled to learn control.

## Circuit Clouds Give All-Stars 4-2 Victory Over Buffaloes

HOUSTON, July 10. (AP)—The Texas league's new formula for staging its annual All-Star classic apparently produces results.

Some 11,833 fans jammed Buffalo stadium here last night to see a sportswriter selected All-Star nine defeat Houston's league leader, 4-2 in a fast-moving game that will rival any of the six previous All-Star tilts for thrills.

# Elements Halt Wednesday Go

Chased to cover by a blinding dust storm Wednesday night, the Big Spring Broncs and Ballinger's Cats will close out their series with a single game at Steer park this evening.

Pat Stacey, manager of the resident nine, said the postponed bout would probably be made up on the Cats' next visit here, which will be Aug. 3 and 4.

# The CHIROPRACTOR—and You

No. 18 of a series of articles published in the public interest to explain and illustrate the practice of Chiropractic

CASE HISTORY No. 206. This patient had developed fainting spells which grew in numbers and severity as time went on. During one of these spells she struck her head on the floor and on trying to rise discovered that all use had gone from her legs.

CASE HISTORY No. 421. A baby girl who had been subject to eczema since she was six months old. Scores of remedies were tried without success. Her mother, who had begun taking Chiropractic adjustments herself, suggested that Chiropractic might help the child.

WHAT IS CHIROPRACTIC? The Chiropractor teaches that the brain and nervous system are the root of health. From the brain, nerve energy is distributed through the nervous system to control all parts of the body.

CASE HISTORY No. 468. Severe headaches had troubled this woman for eight years, the attacks occurring sometimes two and three times a week. She had obtained only temporary relief from the many treatments undertaken, and when she finally decided to try Chiropractic it was, she explained, "her last hope."

**BUZ SAWYER**

AND WHY WOULDN'T OUR MARRIAGE WORK? DO YOU MEAN I WOULDN'T MAKE A GOOD HUSBAND?

NOT THAT, BUZ, MAYBE I'M STILL JUST A ROMANTIC KID.

MAYBE I WOULD EXPECT A HUSBAND TO BE A DASHING KNIGHT ALWAYS AT MY SIDE.

NO MAN CAN BE A DASHING KNIGHT IF HE'S TIED TO A WOMAN'S APRON STRINGS, CHRISTY.

**PATSY**

YOU'VE DONE A SWELL JOB OF SLICKING THINGS UP IN HERE, HOMER! WELL, GUESS IT'S ABOUT TIME TO KNOCK OFF.

FUNNY... I THOUGHT I HEARD A KID'S SOBBING VOICE! ... NAH, COULDN'T BE!

SNIFF! I DIDN'T REALIZE IT WOULD HAPPEN TO ME, EVEN IF IT IS A NORMAL THING FOR KIDS. I JUST CAN'T FACE PEOPLE NOW... I'LL KNOW WHAT THEY'RE SAYING ABOUT ME!

HA HA! ALL WASHED UP! AWKWARD, ISN'T SHE? SHE'S THROUGH!

**OAKIE DOAKS**

WHILE BARON HAMMERHEAD IS ON HIS WAY TO MURDOCK'S LABORATORY TO ACCUSE HIM OF SKULDUGGERY, THE OLD MAGICIAN IS MAKING AN IMPORTANT DISCOVERY.

WHOOOPS! I KNEW IT! KING CORNY IS ALIVE!

AH! HE'S HEADIN' THIS WAY ON THE RUMBLE SEAT OF AN OLD PLOW-HORSE!

THERE'S A YOUNG FELLER IN THE SADDLE I AIN'T EVER SEEN BEFORE! HMM—WONDER WHO HE IS?

**SCORCHY SMITH**

BUT WHY DO I TELL YOU FELLERS ALL THIS? YOU BEEN AROUND?

WE BEEN AROUND BUT NOT AROUND LIBERTE!

WE JUST FLEW IN WITH A LOAD OF FREIGHT!

ZATSO NOW? WE DON'T SEE MANY STRANGERS! UNLESS THEY COME TO WORK AT THE ATOM FACTORY...

**MEAD'S fine CAKES**

**SNUFFY SMITH**

YE MEAN TO STAND THAR FLAT-FOOTED AN' SAY YE HAIN'T SKAIRT O' ME, MIZ SMIF?

**Englishman Likes American Humor**

WICHITA FALLS, July 10. (P)—Charles Wingfield, English country gentleman and sailplane enthusiast participating in the 14th annual national soaring meet here, enjoys American humor. He guffawed at this one: Wingfield is lean and lanky, be-

spectacled, and wears a sandy mustache that stands out like a whiskbroom canted downward. He and an American were working the same thermal, or updraft of air, that died out beneath them and set them down on the ground. The American approached Wingfield with a frown. "I guess you know you ruined that thermal for me," the Ameri-

**Harold Berman Is Accepted For Harvard**

COLORADO CITY, July 10. —Harold Berman, eldest son of Mr. and Mrs. H. I. Berman of Colorado City, has been accepted for enrollment at Harvard Law School in September. Berman, valedictorian of the class of 1942, Colorado City high school, received his bachelor of arts degree with a government major last month. He served two years in the army with overseas duty in Tokyo and other parts of Japan as an interpreter, after having been given special training in the study of Japanese.

**130 Sign For Cub Day Camp**

Approximately 130 youngsters had registered for the Cub day camp opening Wednesday morning at the City park. Regular program of activities was launched by Henry D. Norris, scout field executive who is serving as camp director. Registrations were in charge of George Melear. On a day basis, the program continues through Friday when an all-night camping festival for boys and their fathers climaxes the annual event at the City park.

**Business Men Meet Here**

Charles W. Roberts, manager of the Andrews chamber of commerce, and Kilmer Corbin, Lamesa, county judge of Dawson county, met here Wednesday noon to go to Austin on business matters.

Zero, as a mathematical calculation, was employed by the Maya tribes of northern Guatemala and Yucatan before Columbus discovered America, before it was understood by any other people.

**Farm Income Is 25 Per Cent Higher Now Than Last Year**

WASHINGTON, July 10. (P)—The agriculture department reported Wednesday that farm income, including government payments, was about 25 per cent higher during the first half of this year than in the first six months of 1946. Total cash receipts were estimated at nearly \$12,000,000,000 compared with \$9,600,000,000 in the same period of last year. The greater part of the increase reflected higher prices. Most farm products were under price ceilings a year ago. Receipts from livestock and livestock products were about \$7,900,000,000, up nearly 40 per cent over the same period of 1946. The largest gain—60 per cent—came from meat animals, because of much higher prices and some increase in marketings. Looking to the last half of the year, the department said prices received by farmers are expected to decline seasonally as marketings from 1947 crops influence markets. Feed grains, however,

**Medal Awarded In Texarkana**

SAN ANTONIO, July 10. (P)—Brig. Gen. Edwin A. Zundel, fourth army artillery officer, will journey to Texarkana, Tex., July 16, to present the distinguished service cross, the war department's second highest medal for valor, to Mr. and Mrs. H. F. Henderson, parents of Tech. Sgt. Gerald M. Henderson. The sergeant was awarded the medal posthumously for action in the invasion of Normandy in which he lost his life. The Hendersons reside at 502 Sherman St., Texarkana.

**Public Accepts Credit Cards Of T&P Railway**

DALLAS, July 10. —Tally-sheets on the first few months of credit card operations on the Texas and Pacific Railway showed today a rising trend of public acceptance to this travel convenience. It is the first railroad in the country to make public any detailed breakdown of exactly how the credit card plan is working. T&P cards have been in force since February. The Texas and Pacific was first to bring credit cards to railroads in the southwest and is the only one of 45 railroads cooperating in the so-called "universal" credit card which has a No. 4 designation. That is, the card can be used unrestrictedly for any service connected with train travel, including club cars. The T&P discovered that up to June 1 it had issued 4,350 cards, 3,700 to individuals, 650 to persons in 180 business establishments. Its list of credit card holders touches almost every field of endeavor, from meat packing, insurance, radio broadcasting and laundering to oil drilling, jewelry and funeral homes. One T&P credit card owner is proprietor of a motor transport line, arch-competitor of all railroads in the freight business. Among shortages developed during World War II are light-houses, owing to wartime destruction and lack of maintenance. It is estimated that the United States has a minimum need for 22,000 tons of natural rubber per year.
