PRE-CRUSADE MEETING SET

Saturday night, July 29, at 8 p.m. people from the McLean area will assemble at the football stadium to pray for revival.

Truman C. Skaggs, evangelist for the crusade, will be introduced. Don and Mona Under, music leaders, will be presented. All choir members are requested to be in their place. Ushers, ushers, and other committee members will be present to pray for the crusade. The program will consist of congregational singing, special messages in English, testimonies and praying.

Every person living in the McLean area is urged to attend this prayer rally.

TRUMAN C. SKAGGS
CRUSADE EVANGELIST

Gray Co. Has 11 Rural Accidents

The Texas Highway Patrol investigated 11 accidents on rural highways in Gray County during the month of June, according to Sergeant J.L. Dalrymple, Highway Patrol supervisor of this area.

These crashes resulted in no persons killed and five persons injured.

The rural traffic accident summary for this county during the first six months of 1972 shows a total of 103 accidents resulting in four persons killed, and 46 persons injured.

The rural traffic accident summary for the 60 counties of the Department of Public Safety Region 5 for June, 1972 shows a total of 527 accidents resulting in 20 persons killed and 347 persons injured as compared to June 1971 with 524 accidents resulting in 10 persons killed and 308 persons injured.

The 20 traffic deaths for the month of June, 1972 occurred in the following counties: Dallam and Lubbock, three each; Archer, Armstrong, Bailey, Calladress, Floyd, Hale, Jack, Montague, Parker, Terry, Wichita, Wilbarger, Wise, and Young, one each.

Masonic Lodge Has Installation

New officers were installed for the McLean Lodge No. 889 recently by installing officer W.W. Boyd and Marshall Roy McCracken.

Officers installed were: J.F. Hupp, Worshipful Master; Lloyd Hunt, Senior Warden; C.P. Hamilton, Secretary; J.B. Smith, Chaplain; W.C. Simpson, Tiler; Robert W. Brown, Senior Deacon; W.C. Kennedy, Junior Deacon; James O. Hendricks, Senior Stewart; Custer Lowery, Junior Stewart.

Ricky D. Guill Gets Promotion

TACOMA, Wash. -- Ricky D. Guill, son of Mrs. Herbert W. Guill, McLean, Tex., has been promoted to staff sergeant in the U.S. Air Force.

Sergeant Guill, a radar repairman at McChord AFB, Wash., serves with a unit of the Air Force Communications Service which provides global communications and air traffic control for the USAF.

The sergeant is a 1967 graduate of McLean High School. His wife, Linda, is the daughter of Mr. and Mrs. L.S. Hill of Alanwood.

Church Of Christ Bible School To Begin Monday

The theme, "The King and His Kingdom" will be followed in Vacation Bible School at the church of Christ in McLean this year. An evening school from the hours of 7:30 p.m. to 9 p.m. is planned from Monday July 24 through Friday July 28th.

There will be classes for all ages 18 months through adult. The following teachers and classes have been arranged.

Nursery--18 months through 2 years--Mary D'Spain
Pre-school--Ages 3 & 4--Linda Dickens and Rita Jo Crockett.

Kindergarten--ages 5&6--Laverne Back and Leslie Back.

Primary--Grades 2&3--Trudy Fultz & Beth Fultz.
Junior--Grades 4&5--Mrs. D.L. (Jonsey) Jones & Larue Hambricht.

Intermediate--Grades 6-7--Gerry Fultz & Laverne Saunders.

High School--Grades 9 through 12--George Saunders & W.A. Bentley.
Refreshment committee--Cindi Carpenter and Anita Day.

Adults will have different speakers each evening. Monday--Gaylord Cook, minister of the church of Christ of Wellington. Tuesday--David Dennis, minister of the church of Christ in Lefors. Wednesday--David Fultz, local minister. Thursday--Jack Pape, minister of Mary Ellen & Harvester church in Pampa. Friday--Tommy Waters, minister of Eastridge church of Christ in Amarillo. There will be fun, fellowship, Bible study and refreshments for all the family and everyone is welcome.

Co. Commissioners Approve Bills

The Commissioners' Court of Gray County, met at 10:00 a.m. on Friday, July 14, at its regular meeting place in the County Courtroom, Court house, in the City of Pampa, for the purpose of considering:

Pay hospital bills as approved by the Hospital Board and County Auditor

Set the county tax rate for 1972.

Announce Commissioners' Court will convene as Board of Equalization beginning at 9:00 a.m. Tuesday, July 25.

"Respect the common things. They are common because they survived."--Mrs. Geo. Marcus, Lutz (Fla.) Land O' Lakes Party Line.

STATE PROPOSES NEW SCHOOL TAX EVALUATION

Most of Texas property owners are aware of the San Antonio court case in which the Federal government has ordered the State of Texas to revamp its method of financing Texas public schools. However, the average citizen is likely to be unaware of the effects this decision is apt to have his personal finances.

In order to comply with the Federal court ruling, the State Legislature created a Legislative Property Tax Committee to study the problem and arrive at a possible solution. This committee has solicited data and recommendations from several advisory organizations, among them the Texas Association of Assessing Officers. As a result, the following policy was developed by the Texas Association of Assessing Officers as a possible method of school property tax reform:

Assess all taxable property in the state at 100% of its fair cash market value.

Assessment District may be one county or may cover more than one county. However, any grouping, whether larger or smaller, shall be at the option of the governmental units within the affected areas.

Assessment Districts shall be headed by a professional Tax Administrator who holds a certified Texas Assessor's designation to be appointed by the governing Board of Directors of the Assessment District.

The governing body of each taxing jurisdiction shall appoint one member from their own group to serve as a member of an Electoral Body. Said Electoral Body shall elect a board of Directors from within that group not to exceed nine members. Members shall serve for a staggered three year term or the length of their term of office which ever is less.

Adopted salary schedules should reflect the achievement of other professional designations.

The Assessment District shall be provided a Tax Manual that will serve as a guide to achieve uniformity of assessment practices on a statewide basis, and will also contain basic tax law interpretations, provide uniform standards for depreciation of personal property and standard depth factors for appraisal of land. Cost schedules for building shall be prepared so that the local cost index can be inserted. (A standard method of determining the local cost index shall be provided.)

Uniform accounting systems, reports, building cards

and renditions of both real and personal property shall be devised.

Valuation audits shall be conducted periodically by a designated state agency. Said Audits should insure that Assessment Districts comply with provisions of State Legislation applicable to 100% assessment of all taxable properties.

The Board of Equalization shall be appointed by the Assessment District's Board of Directors not to exceed five members and no member shall be elected by an official.

Appeals from decisions of this Board of Equalization shall be made only to the District Court.

To broaden the tax base, exemptions shall be eliminated other than property owned by a governmental agency and used for governmental purposes.

If any other type of property is exempted by the Legislature, the State should make payment in lieu of taxes to the Assessment Districts in which the property is located.

Legislation should be passed, with provisions for adequate enforcement, that would require full price disclosure in the deed together with address of the grantee.

It shall be mandatory that all property owners render all taxable property each year.

Building permits shall be required on all construction wherever located.

As you can see, if these recommendations or similar recommendations are accepted by the State Legislature, the average property owner's tax burden would suffer a considerable increase and virtually all local control over school taxes would be removed. If this proposal is implemented into state law, the tax increase in the local district could be as

much as 60%. Public Legislative hearings on this proposal will be held in Amarillo, Texas, on July 25, 1972, at 9:00 a.m. in the Amarillo School Administration Building Auditorium. All interested citizens are urged to attend and express their opinions to members of the State Legislature regarding the school tax reform proposals.

Mr. and Mrs. R.L. Appling of Amarillo, their daughter and grandson visited in McLean last Thursday.

Mr. and Mrs. Loyd Bybee, Teresa and Mike have returned home after visiting with their parents in Greenville and St Paul.

Sister Of Resident Dies At Austin

Mrs. Vera F. Back left this morning (Thursday) for the funeral home to attend the funeral of her sister, Mrs. Mary L. Thompson, who died Monday afternoon in Austin. Mrs. Thompson is survived by three sons and a daughter; the brother, Solon R. Featherston of Wichita Falls, and the sister, Mrs. Back of McLean.

Mary P. Matthews Is Buried Monday

Funeral services for Mrs. Mary Pearl Matthews, 85, resident of McLean since 1924, were held at 2 p.m. Monday in the First Baptist Church in McLean.

Rev. Herman W. Bell, pastor, officiated, assisted by David V. Fultz Church of Christ minister. Burial was in the Shamrock Cemetery by Lamb Funeral Home.

Mrs. Matthews, who died at 9:50 a.m. Saturday, had been in the Shamrock Hospital about two weeks. She had been a resident of Golden Spread Nursing Home in Shamrock since January 1971. She moved to McLean from Cole County in 1924, and was a Baptist.

Nursing School Awarded Funds

Northwest Texas Hospital School of Nursing in Amarillo has received \$28,439.00 in loan fund money and \$34,000.00 in scholarship funds for nursing students. An additional \$72,364.00 has been awarded through capitation funds for school improvement. Mrs. Marilyn Dyer, director of the school, stated this money would be used to expand the Advanced Standing program for Licensed Vocational Nurses and to further develop an auto-tutorial laboratory.

The deadline date for enrolling in the second year of the Nursing Program is July 21. Students who have completed one year of college work are eligible to enroll for the second-year nursing courses.

Freshmen students who will enroll in the college of their choice for the first year of the Nursing Program should contact the school for information on the Loan Fund and Scholarship Program.

The first class of Licensed Vocational Nurses who were granted advanced standing completed the Nursing Program in May 1972. Mrs. Dyer stated this was an outstanding group of students who ranked scholastically among the highest in the class of 90 graduates.

E. M. Bailey was in Oklahoma City Sunday and Monday taking care of business.

Texas Highway Dept. Has New Movie

A brand new, colorful movie on the beauties of Texas has just been released by the Texas Highway Department, and is available for club, school and television showings.

Premiered recently at the 5th annual meeting of the Beautify Texas Council, the half-hour film explores the 40-year history of roadside beauty in Texas. It points out that Texas was the nation's first highway department to demonstrate environmental concern along with engineering specifications. Texas was first, two, in the new national concept of roadside parks.

Film audiences are treated to views of miles of wild flowers, blossoming trees, shrubs, and cacti. The movie cites the department's role as the nation's largest landscape gardener, with some 900,000 acres of highway right-of-way under perpetual care.

In 16mm sound and color, the new film is a lavish look at beauty along the diverse roadides of Texas. The film is appropriately titled "Beautify Texas." Prints may be borrowed from the Texas Highway Department, Travel & Information Division, P.O. Box 5064, Austin 78763.

Tobasco is the hottest of all spices.

First Aid for Warm Weather

The camper struggled up the steep West Texas hill with a heavy load of gear.

Suddenly he saw curious black spots in the bright sunshine, felt himself grow dizzy and the ground rushed up to meet him.

When his family reached him he had fainted and turned an ashen gray. His skin was unusually clammy for the arid country.

What happened? More important, what does the distraught family do to revive dad?

Parks and Wildlife officials warn that heat exhaustion and heat strokes are two of the most common of summer-time afflictions. They can be serious if not recognized and treated in time.

Our camper ruined his outing with heat exhaustion.

The symptoms are weakness, dizziness, and fainting. The victim is clammy to touch, pale and weak.

Get him to a cool place and administer a solution of one teaspoon salt in a quart of water.

The fatal relative of heat exhaustion is heat stroke.

Body temperature of a heat stroke victim is often 110 degrees and this can kill.

Lower the temperature with cool baths, cool towels or cold water rubdowns. Administer the salt solution only if he is conscious.

Get the heat stroke victim to a physician at once.

Heat exhaustion and heat stroke can be prevented by the use of salt tablets and lots of water. Better yet, take it easy in the Texas sun.

Watch Out For Food Poisoning

Summer blazes with outings, picnics, barbecues--and food poisoning.

"Foods can look appetizing, smell good and even taste delicious yet still cause illness," Mrs. Gwendolyn Clyatt, consumer marketing specialist for the Texas Agricultural Extension Service,

"Poor or improper handling of food in home is the major cause of food poisoning outbreaks," Mrs. Clyatt noted.

"Most types of food poisoning aren't fatal and normally result from two bacterial organisms: staphylococcus and salmonella."

According to the Texas A&M University employee, thorough hand washing before handling any food is one of the best and simplest precautions against contamination. Individuals who are once infected with the salmonella bacteria may become carriers of the infection for many months, even though they look and feel healthy.

"You can easily pick up the bacteria while handling raw vegetables, meats and poultry and then introduce it into sandwiches, salads, custards and other prepared foods," the specialist said.

She pointed out that salmonella feed on protein foods and to a lesser degree on starch. The temperature for optimum growth is around 95 degrees, but the bacteria can grow at room temperature and can even survive temperatures as high as 140 degrees for short periods of time.

"Freezing doesn't kill salmonella but simply transforms it into a dormant state. So don't thaw frozen meats and poultry at room temperature.

Instead, thaw them in the refrigerator, under cool running water (in freezer wrapping), or by cooking them frozen."

Mrs. Clyatt said that cooking temperatures of 165 degrees destroy salmonella organisms, so any food cooked

 John C. White, Commissioner

Export pens progressing...Fresh vegetables in abundance...Crop prospects good...

CONSTRUCTION of new livestock export facilities at Houston, Del Rio and Eagle Pass is underway, and an appropriation for possibly two more was in the 1972-73 budget adopted in the recent special session of the Texas Legislature.

The appropriation for \$450,000 is believed adequate for two more of the sheltered facilities which may be built at El Paso and Brownsville. The new facilities will replace the present facilities which have been condemned as inadequate by the U. S. Department of Agriculture and which have brought a threat from the Mexican government to halt export of Texas livestock through border cities.

If exports through Mexican border towns were halted, livestock exports would have to be re-routed through Miami, Florida facilities which would cost livestock men considerably more in transportation costs. Texas livestock exports have been averaging over \$12 million annually.

The new facilities, which Texas Agriculture Commissioner John C. White has said will far exceed standards set by the USDA and Mexican authorities, will be operated by the Texas Department of Agriculture. The USDA will furnish inspection services.

The new facilities will have concrete floors throughout, covered pens, specially-designed loading and inspection chutes, a new hydraulic-type multivat for dipping animals, offices and laboratory space. USDA requires sufficient pens at export departing points to hold all of the animals in a shipment so that the entire lot may be given a clinical veterinary inspection while at rest. Each pen will be separated by curbing that will permit flushing and disinfecting of individual pens.

TEXAS GARDEN-fresh vegetables are in abundance now, and most consumers agree that these Texas agricultural products are first in quantity and quality. There are 105 counties in 13 areas of the state growing vegetables in commercial quantities on a total of 214,140 acres. The State ranks third in the nation, behind California and Florida, in production of fresh market vegetables; and is first among the states in production of watermelons, spinach and cabbage.

The state is a major producer of 17 vegetable crops, including the three named above and tomatoes, strawberries, cucumbers, honeydew melons, lettuce, beans, potatoes, cauliflower, broccoli, sweet corn, cantaloupe, carrots, onions, and green pepper

to this temperature is free of the bacteria, unless recontaminated by the food handler.

To prevent outbreaks of salmonella, she advised washing hands thoroughly before handling any food.

"Keep drainboards and utensils clean. Even small spots of food left on drainboards may harbor salmonella that will start to multiply at room temperature."

GOLDEN TOUCH OF HOSPITALITY
 BY JANE ASHLEY

Make Mustard Pickles Now

This is the time of year to fill the house with the spicy fragrance of cooking mustard pickles. Vegetables for pickling are available in abundance now and these condiments are sure to be in great demand the year around. The well seasoned mustard sauce is delicately thickened with corn starch so that it coats each crisp morsel.

Garden Mustard Pickles

- | | |
|--|--|
| 6 cups cooked vegetables—cauliflowers, carrots, small onions and green beans | 1 1/2 teaspoons salt |
| 1/2 cup sugar | 1 1/2 teaspoons turmeric |
| 2 tablespoons corn starch | 2 cups water |
| | 1 cup vinegar |
| | 2 tablespoons mustard with horseradish |

Cook vegetables until tender crisp. Mix together in a saucepan sugar, corn starch, salt and turmeric. Mix together water, vinegar and mustard with horseradish. Slowly add to dry ingredients, stirring until smooth. Cook over low heat, stirring constantly, until mixture comes to a boil and boils 2 minutes or until thickened and clear. Add vegetables to sauce. Bring just to boil. Turn immediately into hot sterilized jars. Seal according to manufacturer's instructions. Let stand a week before using to develop flavor and color. Makes 4 pints.

STATE CAPITAL Highlights AND Sidelights

by Bill Boykin
TEXAS PRESS ASSOCIATION

Parks and Wildlife Commissioners presented Texas twin surprises with the announcement of the purchase of beachfront property in Jefferson County for development as the state's second largest park and a decision to buy the controversial, long-debated Mustang Island property in Nueces County for another beach park.

The Jefferson County Purchase of 14,360 acres includes a five and a half mile waterway to the beach front with a vast saltwater marsh inland. The \$2,154,000 purchase lies due south of Port Arthur and stretches from the intra costal waterway to the Gulf of Mexico.

Palo Duro State Park, in the Panhandle near Canyon and Amarillo, still holds its ranking as biggest of the state parks with 15,103 acres.

The Mustang Island purchase, delayed by court wrangles for nearly two and a half years, if no new stumbling blocks suddenly appear, will cost about \$600,000 less than the original \$4.2 million asking price of the island property owner Mrs. Sam E. Wilson Jr. of Corpus Christi.

The amount of property involved is less than the original 3,965 acres the state was looking at. Seems a survey of the property revealed the state already owned some of the property. Per acre price, however, remains the same--\$1,100.

Announcement of the Mustang purchase came after Parks commissioners asked Atty. Gen. Crawford Martin if he was sure he was right when he ruled earlier the state has a legal binding contract with Mrs. Wilson to purchase the property.

Martin agreed to review his own opinion, did, and told Parks Commissioners he was right the first time.

STATE HUNTS "CHOO CHOO" TRAIN

Gov. Preston Smith has asked the U.S. Navy to make available to the State of Texas surplus authentic steam locomotives for use in developing the 33.7 state-owned railroad between Rusk and Palestine in East Texas as a tourist attraction. The legislature last year said the Parks could operate the full gauge railroad as a public recreational facility.

The parks department is currently rehabilitating 26 miles of the railroad and hopes to operate public excursion trains using historically authentic steam locomotives.

Smith wrote to Navy officials saying he had been informed several military steam engines have been declared surplus and asked for assistance in acquiring one or two of the "iron horses".

DRUG FUNDS GRANTED STATE
Texas is one of three states selected by the federal law Enforcement Assistance Administration to take part in a pilot program designed to stop the flow of legal drugs into illegal channels.

Texas Criminal Justice Council will be funded \$333,011 to be submitted to the

Texas Department of Public Safety to operate a diversion investigation unit. Primary goal is to curtail diversion of controlled substances at the retail level. It is estimated by federal officials that half the legitimately produced amphetamines and barbiturates are diverted to the illicit market.

Headquarters will be in Austin, with target cities to be chosen over the state to assure widespread coverage, officials say. Michigan and Mississippi are the other two pilot program states. **FARM/RANCH SAFETY WEEK**

Fires, drownings and machinery and tractor accidents continue to be the main sources of accidental deaths on Texas farms and ranches, the Texas Safety Association says.

The Association hopes to focus public attention on the continuing upward trend of deaths in nearly every category during Texas Farm and Ranch Safety Week July 25-31.

TSA spokesmen say 35 deaths were recorded last year from fires, explosions or burns on farms and ranches in the state. Other leading causes of accidental death last year on farms and ranches included 29 drownings, 28 accidental shootings, 26 machinery accidents, 22 tractor accidents, 22 falls and 17 accidents involving animals. **VEGETABLE INSPECTION STUDIED--**Importation and exportation of vegetables to other states is being scrutinized by a special House Interim Committee on Vegetable Marketing.

The Committee in a recent hearing heard witnesses complain that vegetable growers in Mexico enjoy tremendous competitive advantage with Texas growers not only because of low labor costs, but because they are not subject to the rigid government regulations restricting use by American growers of many chemical pesticides and herbicides.

Another problem reviewed by the Committee was the claim by witnesses that the reputation of Texas-produced vegetables is suffering in out-of-state markets because some Texas growers persist in shipping large volumes of low-grade products. The result witnesses said, is loss by Texas growers of the out-of-state markets because of the produce of certain other states is consistently of higher quality and desirability.

Most practical solution, suggested witnesses, would be establishment of market orders to establish and enforce standard quality grades for Texas-grown vegetables and inspection of imported vegetables from Mexico. **MONEY GRANTED FOR ALCOHOL ABUSE-STUDY**

Texas is the first state in the nation to be awarded federal funds for prevention, treatment, education and rehabilitation programs to deal with alcohol abuse and alcoholism.

The \$1.6 million grant will go to the Texas Commission on Alcoholism which

in accordance with new federal law developed and submitted the first state plan for such a program.

The TCA estimates there are 425,000 alcoholic persons in Texas equivalent to about 3.8 per cent of the state's population.

NO ELECTION MONEY
Officials in the office of Secretary of State Bob Bullock say the Legislature in its special session made no provision for funds needed to wind up the cost to the state of financing elections in Texas counties.

Bullock aides say the Legislature's budget writers were asked for an additional \$400,000 to wind up the bill paying for the primary and runoff elections. No money was provided.

Bullock will make another effort to get the additional funds when the Legislature comes back to Austin for its 63rd session in January, 1973. In the meantime, enough money is believed by Secretary of State staffers to be available to at least enable county election officials to pay Texans who worked in precinct voting boxes. Printing companies apparently will have to wait for final payment after the first of the year, aides say.

SHORT SNORTS

Requirements and standards for the installation of heating, plumbing and electrical systems in mobile homes, as adopted by the state Performance Certification Board, went into effect on December 15, 1971, Attorney General Martin says.

Parks and Wildlife Commission has adopted a regulation banning use of firearms and crossbows while hunting deer or turkey during the special archery season.

Screwworm Dubious Threat To Wildlife

Screwworm incidence is on the rise in Texas. What does this mean to wildlife?

Texas Parks and Wildlife officials are not overly concerned at this point. "Deer populations are dependent upon several other factors," said Horace Gore, department wildlife specialist. "Quality of range is much more critical to Texas' wildlife."

Screwworms will not have an appreciable effect on this year's hunt.

"Fawns are the ones that are hit the hardest," said Gore, "any noticeable loss to worms this year will show up next year."

Since Texas hunters only harvest about eight percent of the total deer herd, the few adult animals lost to screwworms will not be noticed.

Gore pointed out that during the peak year of screwworm infestation in 1962, the Texas deer herd was soaring toward an all-time high.

"In the past we have saved fawns from worms only to have them starve on poor range," said Gore. "This year is off to a good start with ample rains and by late summer we will be able to determine just how good a year it is going to be."

"If there is plenty of good for deer this year and fawn losses are still high, then perhaps it will be an indication that screwworms are hurting the deer population."

Field studies of deer mortality will show any major losses from screwworms and malnutrition this summer.

THE FAMILY LAWYER

When You Go Dancing

Whenever business was good at a suburban night club, the management would "stretch" their space by putting extra tables and chairs on the edge of the dance floor. One night, a dancing couple stumbled over a stray chair.

The woman suffered painful injuries, and later sued the club for damages. She pointed out that the chair had been shoved several feet into the dancing area.

"If it was," countered the management, "some other customer must have done the shoving. We are not legally liable for what our customers do."

But the court granted the woman's claim. The court said that by placing chairs directly onto the dance floor, the management had set the stage for trouble.

When you go dancing in a public place, you are entitled to conditions of reasonable safety. The dance floor, the lighting, and the furnishings should all be maintained in such a way as to minimize the chance of accidents.

Nevertheless, merely by choosing this form of recreation, you are accepting those dangers that are "natural" to it. For example:

Another woman, injured while dancing, claimed she lost her footing because the floor was slick. But the court found no reason to blame the management for this. As one judge put it:

"Dance floors are intended to be slippery."

Furthermore, your own behavior might amount to negligence. That was the court's ruling in a case in which the claimant had ventured onto a ballroom floor in a state of advanced intoxication.

And in another case, the court declared it was negligence for a woman to try a particularly tricky step while wearing heels three-and-a-half inches high.

"The situation," said the judge, "parallels that of the risk taken by a participant in a sport."

News From ALAN REED

By Mrs. P.M. Gibson
Mr. and Mrs. Weldon McCurley and children have returned to their home in Long after spending several days with her father, Horace Bullock.

The Hartley Davises returned their two grandchildren to their home in Amarillo Sunday. Mrs. Davis will spend a few days with her son, Johnnie and his wife while she is recuperating from surgery.

Mrs. R.B. McMillen of Lakeview visited in the John Foshee home Sunday. Mr. F.B. Carter had as his visitors Sunday Mr. and Mrs. F.L. Dalton and Mr. and Mrs. Woodrow Barker of Amarillo.

Mr. and Mrs. Bert McKee are having two rooms built on to their home, which will be very nice.

Mrs. Gail Cox made a business trip to Oklahoma City over the weekend.

Mrs. Mozelle Hall is able to be home again after spending a few days in the hospital.

Fashion Watchers

Clock watchers will be tempted to indulge in their favorite pastime this fall. "Fashion and pendant watches will be a major category of accessories glimmering from the costume jewelry counter," Roxanne Schnorr, clothing specialist for the Texas Agricultural Extension Service, said.

The Texas S&M University employee said that pendant watches make excellent companions to the layered look and simple sweater tops.

Even digital watches have become a fashion item, due as much to technological newness as fashion innovation.

"New emphasis on fashion watches has been created with exciting and different materials for the cases," Miss Schnorr said. "Plastics, clear and in color, are responsible for part of the new appeal. Ivory and tortoiseshell add to the variety available."

Silver composes a range of treatments from the hammered to polished silvered finish. Wood also provides a striking interest in fashion watches.

Watches sold in costume jewelry departments retail from a minimal amount of money to regular watch prices. Much impulse buying occurs in the "under \$25

category, according to the specialist.

Some retailers report disillusioned customers who have purchased one-jewel watches. What significance does this jewel movement have and what can you look for to aid your selection of fashion watches?

"It is the jewels that make the most important contribution to the accuracy and reliability of a watch," Miss Schnorr said. "Jewels--mainly rubies--act as bearing to reduce metal-to-metal contacts which produce friction and wear within the works."

She said that a 17-jewel watch is considered to have jewels located at major points of metal contact to produce an accurate, durable and quality watch. More jewel movements could be considered a luxury.

"In selecting a watch, consider your purpose for purchase of the time piece," the specialist advised. "It is more for fashion to be used for a relatively short time or will it be your only watch to last as long as possible? Do you have another watch? Could one with less than 17 jewels serve your purpose?"

When considering a specific watch, the specialist suggested making a general inspection. "View the case for dents, discoloration, scratches and

a possible loose crystal or back. Does the general appearance appeal to you? Are the numbers on the dial legible?"

"When winding the watch, you shouldn't feel any slip or page. The stem should enter the setting position with a slight click and without excessive force. The stem should remain in this position during the setting operation."

Miss Schnorr said that most consumers want fashion plus quality.

"Some good quality one- and seven-jewel movement watches are available in a lower price range. Shopping with a recognized purpose and an inspecting eye should enable you to purchase a reliable fashion watch."

Junior Boys Attend Baptist Camp

A group of fourth, fifth and sixth grade boys left Monday with their sponsor, Mr. Newt Barker bound for Pan Fork Baptist Encampment near Wellington.

These boys returned Thursday (today).

Home appliance shipments in 1971 were 7% ahead of last year and set new records for the 11th straight time.

IT NEVER FAILS

CAR CARE CORNER

SAFETY ADVICE

Every time you drive in the rain, your vehicle is subject to a phenomenon called "hydroplaning," especially if most of the tread is worn off your tires.

What happens is that the tires, at certain speeds, usually between 50 and 60 mph, will ride on a film of water rather than on the road surface. When this occurs, it can be dangerous because the driver has no control for steering or braking.

The depth of the water has a lot to do with hydroplaning. But a car is more likely to hydroplane on a wet road than on a dry road.

How to avoid "water skiing" with your automobile? The Car Care Council suggests that motorists observe the following:

- Make sure tires are in good condition with plenty of tread.
- Reduce speed on wet highways.
- Watch for heavy crosswinds while driving on wet highways.
- Leave extra distance between yourself and the vehicle ahead when the highway is wet.
- Release brakes if car skids because of a brake lock.

AND NOW, WHO PAID FOR
 THE IRON PIPES THAT AC-
 COMPANIED THE TUNNELS
 THAT FORMED A NETWORK
 UNDER OUR CITY? Who paid
 for putting in the pipes? And
 who is now paying to remove
 them? And who is authority
 for this un-American Action.
 Many of the tunnels termi-
 nate under the floor of a gar-
 age, or in a cellar or other
 opening which is later to be
 made into a cellar.

At any rate, all underground
 tunnels were accompanied by
 a series of underground pipes.
 One pipe for water, in case
 the ground is too hard to pen-
 etrate another pipe is for soil,
 when it is time to fill the
 tunnel. And then there is one
 pipe that carries mud or silt.
 (At least this was used under
 my house.)

In estimating the cost of
 the tunnels, in a previous
 article, I did not include the
 cost of the pipes. The iron
 pipes, themselves must have
 approached sixty thousand
 feet. You estimate the num-
 ber of feet--and the cost.

There are a few extra items
 I should like to add about the
 tunnels. There was another
 expense, the labor of tamp-
 ing the dirt into the tunnel.
 This was done by what sound-
 ed like a pile-driver. You
 don't know what torture is un-
 til you have one of those
 things beating at you. I find
 it impossible to describe the
 awful torture of the beat. Of
 all the heinous tortures em-
 ployed against me, this was
 the worse--the intense phys-
 ical and mental agony that
 would make a person run
 down the street screaming to
 the top of his voice. Just
 when I thought I could not
 take another moment of the
 torture, a relative of one of
 the leaders died, and the
 agony ceased. For three days,
 I had peace and a chance to
 recoup my senses.

Another item you should
 know about the tunnels--The
 managers were careful for
 the security of those who
 used them. I know of two
 tunnels, so long that there
 was open air vents, to keep
 the air fresh--and, presum-
 ably the inmate might emerge
 from the tunnel if he so wish-
 ed.

Tunnels, on occasions
 crossed the streets under the
 paving.
 It was not a pleasant ex-
 perience.

Special Gift

You could pass the tree a hundred times without seeing the bright little bird peeping out.
 Nature neglected to give man such camouflage. In the scheme of things he is actually quite obvious. But God created man in His image—a much greater asset. He was given a strong body and a mind with which to think. And He has given us a very special gift; the miracle of Faith.
 Yes, Faith is a gift. It comes only through our seeking, and the quest is not an easy one. Strangely enough, you might not find Faith in church. But there you will discover where to begin to look for it.

REPORT YOUR FEED GRAIN AND COTTON ACRES

August 1 is the final date to report planted acres of feed grain and cotton and to designate the set-aside acres. A report is necessary even if no acres were planted. Papers cannot be sent in for payment on any crop until this report has been made. You are encouraged to come in and make this report right away so it can be sent in for

payment.

Papers are sent to New Orleans for processing as soon as you report the acres. It is taking longer to get the payment this year than in the past. It seems that you need to allow about 3 weeks from the time you report to receive your payment. **FAILED COTTON AND FEED GRAIN ACRES**

If you lose your cotton or feed grain acres due to hail or other causes, you need to come in and report within 15 days and have the crop inspected before you destroy it.

This is necessary on cotton so you can receive credit for cotton for payment purposes, history credit and yield adjustment. It may be necessary on feed grain for history credit.

SET-ASIDE REQUIREMENTS

You are reminded again that set-aside acres must be on land of equal productivity to the land on which the crop is planted. Set-aside must not be grazed until after October 15 and a crop cannot be harvested from the set-aside acres at any time. Land which has been designated for set-aside will become ineligible if it is used for nonagricultural purposes before Sept. 30.

Failure to meet all set-aside requirements can result in complete loss of payment or in a penalty and reduction in payment.

Eligibility for participation in all programs administered by ASCS is established under law without regard to race, color, creed, national origin, or sex.

DOWN MEMORY LANE

10 YEARS AGO

Temperatures continue to remain high in McLean with the mercury hitting 101 degrees last Saturday.

Johnny Haynes and Eddy Windom took first places in the men's division and Mrs. Sammy Haynes and Mrs. Dickie Everett in the women's division of the Flag tournament held Sunday afternoon at McLean Golf Course.

Dixie Jo Burroughs and David King Crockett were married Saturday, July 14, at 6 o'clock in the evening at the First Methodist Church in McLean.

Born to Mr. and Mrs. Don McConnell of Albany, Ore., a 9 pound son on Saturday, July 14. He has been named Ronald Allen.

Mr. and Mrs. David Grigsby of Midland are the parents of a son, born July 12. He has been named David Arlie.

20 YEARS AGO

Dicky Silgar, son of Mr. and Mrs. Fred Silgar, has been awarded one of 50 scholarships given annually by the Phillips Petroleum company to outstanding children of its employees.

Ronald Smith, 11 year old son of Mr. and Mrs. J.N. Smith, was honored with a birthday party at his home July 12.

Mrs. Tom Tedder was honored by her children with a birthday dinner at her home Sunday, July 13. Mrs. Tedder was 81 years old.

30 YEARS AGO

Mr. and Mrs. C.H. Puckett held open house to their friends last Thursday, celebrating their golden wedding. Born, Wednesday, July 15, to Mr. and Mrs. C.C. Mead at a Pampa hospital, an 8 pound, 6 oz. girl, named Marilyn.

The rubber drive went over the top at McLean with a total of 72,625 pounds collected Gray County's total was 363,586 pounds.

Honoring the fifth birthdays of Bobby Decker and Irene George, a party was given in the city park Wednesday evening.

40 YEARS AGO

Married, Monday, July 11, 1932, at Tucumcari, N.M., Miss Martha Ivey and Mr. Tom Harlan, the pastor of the First Methodist Church officiated.

Fifty-three automobiles with 217 McLean citizens accompanied the municipal band to Denworth Friday to welcome the two special trains over the new railroad.

Married, at Sayre, Okla., Saturday, July 9, 1932, Miss Virginia Pollard and Mr. Wilmer Mercer, Judge Anderson officiating.

50 YEARS AGO

McLean took a forward step Tuesday when the waterworks, light and power, and street improvements bonds were voted.

Dr. George Alwalt of Oakhurst has located at Alanreed to practice medicine.

Alva Alexander has sold one-half interest in his trailer shop to Johnnie Beck and has added a lot of extra equipment.

60 YEARS AGO

The case of W.W. Mans versus C.H. Rowe, in which the former sought damages in the sum of \$150 for the killing of a horse, occupied the attention of Justice Frasier's court last Friday.

Twenty-two neighbors and friends, including quite a bunch from town, went to Price Rogers ranch Wednes-

day to assist the gentlemen in marking and cehorning his calves, which numbered about hundred and thirty.

The ladies of the Presbyterian Aid Society served Kellog's frosted Corn Flakes in the different grocery stores Saturday afternoon, the flakes having been furnished free, as was also the cream and sugar, by the Kellogg company.

Make that old buggy look like new by giving it a new coat of paint. We have the paint, let us sell you S.O. Cook.

Take a peep at the Enamware in the show window of the McLean Hardware Co. 25¢ and 50¢. Think of it. No. 8 Tea Kettle for 50¢.

Mrs. J.H. Horton was hostess to about twenty-five young people at her home in the south part of town last Monday afternoon from five until eight o'clock in honor of her daughter, Miss Lucille and Miss Hattie Thompson, who were here visiting from Canyon.

Local Couple Is Honored On 35th Anniversary

Four generations gathered Sunday July 16, in the home of Mrs. and Mrs. Dewey Pennington in McLean, for a dinner party. The occasion was the observance of Mr. and Mrs. Pennington's thirtieth-fifth wedding anniversary.

Those present making the four generation were the honored couple, a son-in-law and daughter Mr. and Mrs. W.P. Edwards, their son, Randy, and his boys, Randy, Jr. and Michael all of Amarillo.

The Pennington's son-in-law and daughters arrived unexpectedly with lunch and a three tiered wedding cake decorated with white wedding bells on top, a miniature bride and groom on the bottom tier and jade green "35" on the second tier.

Mrs. Pennington gave the invocation at the lunch hour.

Dewey Pennington and Ruth Ellen Pinkerton were married July 17, 1937 in Munday. They made their home in Haskell County, where Dewey was farming, until 1944 when they moved to Wheeler County. In 1958 they moved to a farm near McLean and into their present home, 101 Gray Street in McLean in 1970.

Other members of the family present were sons-in-law and daughters, Mr. and Mrs. Buddy Franks of Amarillo and Mr. and Mrs. W.C. Glover of Shamrock.

The couple's son, Tom Pennington and family of McAllen were unable to attend.
