McLEAN, GRAY COUNTY, TEXAS - THURSDAY, SEPTEMBER 19, 1974

NUMBER 38

Thomas A. Frost President's Son Killed In Accident

Funeral services for Thomas A. Frost, 17, of Twilight, who was killed Thursday in a one-car crash near Joplin, Mo., were held at 2 p. m. Wednesday in Kelton Baptist Church.

Officiating was Rev. James W. Pettit, pastor. Burial was in the Shamrock Cemetery. The youth died at 11:05 a. m. Thursday in a Joplin hospital. He was with another youth when they hitchhiked in a van in which other youths were traveling.

He was born in Dover, New Jersey and was a Baptist. His survivors include his mother, Mrs. Joan Frost of McLean; his father, Gerald New Jersey; four sisters, Anna and Robin of McLean, Linda Frost of New Jersey and Mrs. Ruby Redondo Santa Monica, Calif.; two brothers, Butch of Lawndale, Calif., and Jim of Twitty; grandmother, Mrs. Anna M. M. of New Jersey and a great-grandmother, Mrs. Olive Smith of Dover.

McLean Students Listed On SOSU Honor Roll

Two students from McLean were listed on the honor rolls at Southwestern Oklahoma State University at Weatherford, Okla., it was announced this week.

Listed on the President's list was Randy G. Curry, son of Mr. and Mrs. Glenn Curry. To be on the President's list a student must make straight A's during that semester.

Listed on the Dean's honor roll was Jimmie C. Baker, son of Mr. and Mrs. Carl Baker. A student on the Dean's List must have a grade point average of at least 3.0 on a 4.0 scale and no letter grade below C.

Booster Club To Show Film

The Tiger Booster Club will meet Tuesday night, September 24 at 7:30 p. m. at the school cafeteria. A film will be shown. All football fans are invited to come and watch.

Band Boosters To Meet Monday

The Band Boosters will meet Monday, September 23 at 7:30 p. m. at the school hall. This will be an important meeting and all members or interested parents are asked to attend.

NUCLEAR PLANT — Artist's rendering of how Southwestern Public Service Company's proposed 300,000 kilowatt GCFR nuclear demonstration plant might look adjacent to a conventional coal or gas-fired generating station. The cylindrical structure on the right houses a prestressed concrete reactor vessel, 84 feet in diameter and 71 feet high, and contains the principal components of the nuclear steam supply system.

SPS Announces Breeder Reactor

Southwestern Public Service Company today announced the first step in a program which sets the stage for the company to take a lead role in the construction of the nation's first power plant to use a gas cooled breeder reactor.

Roy Tolk, chairman and president of the electric company, said the gas-cooled fast breeder reactor (GCFR) plant, would have a generating capability of 300,000 kilowatts and would be located on a site provided by Southwestern, probably at the Harrington Station, northeast of Amarillo.

"We have signed a letter of intent with General Atomic Company of San Diego, in which we would contribute \$100 million to the project. Substantial additional financial support will be required from the electric utility industry and the U.S. Atomic Energy Commission," Tolk said.

"Our long-range projections call for additional generating capability in the mid 1980's; so, this development program fits right into our growth pattern and could very well be our introduction to nuclear power."

"We will, of course, have a conventional generating unit in service to meet our customer's needs, if that is necessary, but are enthusiastic about the prospects for the breeder unit being available," Tolk said.

General Atomic has been working on a gas-cooled breeder reactor for 13 years.

Support for the program has come from the Atomic Energy Commission and a GCFR Utility Committee comprised of 57 investor-owned utilities, 55 rural electric cooperatives and three European electric utilities.

Included in the cooperatives participating in the program are the Rita

Blanca Electric Cooperative, Dalhart; the Bailey County Electric Cooperative, Muleshoe; and the Tri-County Electric Cooperative, Hooker, Okla.

Breeder reactors have the unique capability of producing more nuclear fuel material than they consume. Because of this potential to stretch nuclear fuel resources, breeders are regarded as an essential component of the long-range success of the nuclear power industry.

In operation, the GCFR will produce nearly 1 1/2 times as much fuel material as it consumes.

Health Course Offered At A. C.

A short-term health course in coronary care will be offered by Amarillo College beginning Sept. 25.

Classes will be held from 7 to 10 p. m. Wednesday and Friday at Northwest Texas Hospital.

George Nussbaum, registered nurse, will instruct students to interpret the needs of the patient, utilize cardiac monitoring equipment and recognize cardiac arrhythmia patterns.

Mrs. A. L. Crawford, supervisor of short-term health courses, said students will learn to prevent or recognize cardiac complications and perform cardiopulmonary resuscitation. In addition, those enrolled will learn the proper structure and electrical hazards of the coronary care unit.

Application for Continuing Education Recognition Points has been made with the Texas Nursing Association in Austin.

Interested persons may enroll in the registrar's office in the Washington Street Administration Building. Fee is \$25. Book cost is \$11.

Local Youth On C. C. Golf Team

The varsity golf team of Clarendon College begins competition this week-end with a full schedule.

The Bulldogs will play in WJCAC competition at Borger on Friday the 13th as Frank Phillips plays host to the first conference travels to Clarendon for a conference meet here on Saturday the 14th. Tee off time for both days is 9:00 a. m.

Clarendon College begins golf this year with young, inexperienced players. Under Lyndon White, country club pro, the men on the team are enthusiastic about this year's play and are determined to build a respectable team for Clarendon.

Participating on the Bulldog team is Don Long, freshman from Muleshoe, Mark Dishman, freshman from Snyder, David Pender, freshman from McLean and Martin Merrick, freshman from Spearman.

The Bulldogs will be competing in six conference tournaments in the fall and four conferences meets in the Spring semester. Also included in the years com-

14 Accidents Occur During August

The Texas Highway Patrol investigated 14 accidents on rural highways in Gray County during the month of August, 1974, according to Sergeant D. E. Womack, Highway Patrol supervisor of this area.

These crashes resulted in no persons killed and 13 persons injured.

The rural traffic accident summary for this county during the first eight months of 1974 shows a total of 109 accidents resulting in six persons killed and 60 persons injured.

The rural traffic accident summary for the 60 counties of the Lubbock Department of Public Safety Region for August, 1974, shows a total of 542 accidents resulting in 30 persons killed and 314 persons injured as compared to August, 1973 with 586 accidents resulting in 24 persons killed and 328 persons injured. This was 44 less accidents, six more killed, and 14 less injured in 1974 at the same period of time.

petition will be several invitational tournaments.

JUDGES from region X participating included (front row) Judge Margie Prestidge of Precinct 1, Lefors; Judge G. L. "Nat" Lunsford of Precinct 2, Place 1; (back row) Judge Earnest Beck of Precinct 5, McLean; Judge E. L. Anderson of Pampa, Precinct 2, Place 2; Cecil B. Amerson of Precinct 3 & 4, Shamrock; and Judge Charley Whitely of Precinct 1 & 2, Wheeler.

Earnest Beck, J. P. Attends Seminar

The Texas Justice of the Peace Training Center opened its 1974-75 training program this month with a 20-hour seminar in Amarillo for judges in Region X.

Six Justices of Peace were among the seventy-three judges from Region X participated in the seminar conducted Sept. 3-6.

According to Judge Ronald D. Chapin, executive director of the Texas Justice of the Peace Training Center, headquartered at Southwestern Texas State University, a new method of evaluating the center's seminars was unveiled in Amarillo. Participating judges were

given a test at the beginning of the seminar and another examination at its conclusion.

Seminar content focused on the practical trial aspects of the duties of the justice of the peace, including criminal, civil and small claims court.

Instruction was provided by representatives from the state attorney general's office, the Texas Department of Public Safety, and the Dallas and Harris County district attorneys' offices and various judges from across the state. The state-wide training program for justices of the peace is funded by the Criminal Justice Division of the Texas Governor's Office through the Texas Justice of the Peace and Constables Association.

McLean Tigers To Play Groom Tigers Friday Night

By Betty Holmes

The McLean Tigers journeyed to Lefors last Friday night on their second game of the 1974 season experiencing a 36-0 loss. The Black and Gold competitors were faced with the Class B Pirates who are rated 17th in state.

Bobby Crockett, 175 lb. senior, rallied from a knee injury in last week's game to lead the Tigers in yardage. He travelled 45 yards in nine carries making a 5.0 average.

Leading the team in tackles was Kit Long, 170 lb. senior, having 4 unassisted and 14 assists.

The Tiger offense suffered an unexpected blow early in the game when Marty Duniven, 160 lb. junior quarterback suffered an injured knee in the 1st quarter. Both Duniven and Crockett will be absent from play in this week's game.

The Tigers take on the Groom Tigers, second in Class B state ratings at 8:00 p. m. this Friday night at Duncan Field in McLean. Everyone is invited to come and support the Tigers as they battle on home ground.

1974 SCHEDULE

Sept. 6 White Deer-Here
Sept. 13 Lefors-There
Sept. 20 Groom-Here
Oct. 4 Silverton-There
Oct. 11 Clarendon-Here
Oct. 18 Memphis-Here
Oct. 25 Wheeler-There
Nov. 1 Claude-Here
Nov. 8 Wellington-There
Nov. 15 Shamrock-There

Two Counties Open To Antelope Hunting

An overall 35 percent decrease in Panhandle antelope herds has prompted Texas Parks and Wildlife Department wildlife officials to limit this year's hunt in the area to two counties: Dallam and Oldham.

Based on surveys of herds, biologists have recommended that 33 permits be issued to Dallam County landowners and 71 permits to Oldham County ranchers.

The season in those two counties will run from Sept. 28 - Oct. 1, with a limit of one buck antelope by permit only.

4-H Club To Have Poster Contest

The McLean 4-H Club is going to have a poster contest in the near future, which will be used during 4-H week coming up in October.

Anyone interested in entering the contest is asked to please contact Mrs. Ken McGinty as soon as possible and she will give you instructions for preparing your poster.

Market Report

Cheese still tops the milk production pyramid, Mrs. Gwendolyn Clyatt reported this week.

Cheese, non-fat milk and butter supplies remain above last year's levels, although milk production continues its seasonal decline, according to the consumer marketing information specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

Peanuts are in ample supply, too—even though the 1974 crop will be slightly smaller than last year's record crop.

Fresh fruits in good supply at the most economical prices this week include oranges, bananas, nectarines, grapes, prunes and plums.

Economical vegetables are watermelon, cabbage, carrots, and squash. Also dry yellow onions, celery, cushaw, beets, collards, mustard and turnip greens.

At beef counters, Mrs. Clyatt said much of the meat supply is from grass-fed animals.

This is good news for calorie-counting consumers because it means lean beef has less marbling, and there's less outside fat covering.

Pork values center on hams, picnics, shoulder roasts and steaks, end-cut loin roasts and chops.

Fryer chickens are an excellent protein choice in most markets, and grade A, large-size eggs still offer the most quality and economy.

CONSUMER WATCH-WORDS: "Real" beef cost is its cost per serving—not cost per pound.

Example: ground beef and chuck roasts are both \$1.12 per pound. Ground beef makes four servings per pound; chuck roasts makes two.

So, ground beef costs 28 cents per serving, while Chuck roast costs 56 cents per serving although both cost the same per pound.

Baptist Women Have Love Program

By Mrs. Luther Petty
The Baptist Women's Organization met last week from Monday thru Friday, September 9-13, with the theme being "Miracles of Love" based on the 13th chapter of 1st Corth.

The song sang was "Love." This was known as Mary Hill Davis Mission of Prayer offering for which a goal of \$400 was set by the church throughout the week and 60% was reached.

Monday's program was held in the home of Mrs. A.C. Wood with Mrs. Judy Rollison and June Stewart were leaders assisted by all present with readings, personal testimonies and prayers.

Tuesday seven women from the church went to Wellington, where women from churches of Northfork Association presented a joint program.

Wednesday night a nice group met at the church with the program being led by Mrs. A.C. Wood, assisted by the Ac'cens, Girls in Action, Rev. Herman Bell and Mary Bell, Lloyd Hunt and A.C. Wood.

Thursday Mrs. Homer Abbott was hostess in her home for the program with Mrs. Oba Kunkel as leader assisted by Mrs. Luther Petty, Mrs. Raymond Smith, Mrs. Bell.

Friday Mrs. Jerry Rollison's home was opened for the program led by Mrs. Homer Abbott assisted by Mrs. Herman Bell, Mrs. Jim Stevens and Mrs. Leo Gibson and the hostess.

The calendar of prayer for birthday missionaries was given. Present throughout the week were Mesdames Isabel Petty, Margaret Chapman, Judy Rollison, Oma Abbott, Mary Bell, Pauline Miller, Annie Reeves, Elizabeth Kunkel, June Stewart, Chick Wood, Stella Gibson, Thelma Stevens, Saphronia Pettit, Juanita Smith, Jane Simpson, Loree Barker, Beatrice Lester.

GAIL TERRY

Gail Terry Listed In Who's Who

Gail Terry, a senior at McLean High was recently notified that she is to be featured in the Eighth Annual Edition of Who's Who Among American High School Students, 1973-74, the largest student award publication in the nation.

Students from over 20,000 public, private and parochial high schools throughout the country are recognized for their leadership in academics, athletics, activities or community service in the books. Less than 3% of the junior and senior class students nationwide are awarded this recognition.

Gail is the daughter of Mr. and Mrs. George Terry of McLean. She is active in Cheerleading, Basketball, FBLA, Band, Student Government, and Annual Staff. In addition to having her biography published in the book, Gail will also compete for one of ten scholarship awards of \$500 to \$1,000 funded by the publishers and will be invited to participate in the firm's annual "Survey of High Achievers."

Gail plans to attend West Texas State University upon graduation in May where she will major in elementary education.

HEALD NEWS

Mrs. John Bush of Amarillo spent Tuesday night in the home of her parents Mr. and Mrs. Ott Davis.

Visiting in the Carl Phillips home during the week were Mr. and Mrs. Durward Herndon of Dumas, Mr. Charles Phillips of Keyes, Oklahoma and Mrs. Bill Setzler of Shamrock.

Thursday afternoon and evening visitors in the A.W. Lankford home were Mr. and Mrs. W.B. Ladd of Sunnyvale, Calif., Mrs. K.S. Rippey, Lush Rogers of Amarillo, and Mr. Bartow Landers of Tygh Valley, Ore.

Mr. and Mrs. Ott Davis visited in Wellington Saturday with her uncle Mr. Lyn Sparlin.

Alton Carpenter and Brad visited his parents the A.E. Carpenters Saturday.

Mr. Bartow Landers of Tygh Valley, Oregon visited Wednesday and Thursday in the home of his niece Mrs. Arlie Grigsby.

Mrs. J.D. Morris of Amarillo was also visiting her mother Mrs. Grigsby.

Mr. and Mrs. W.B. Ladd left for their home in Sunnyvale Calif., Friday after a ten day visit with his sister Mrs. K.S. Rippey.

Mr. and Mrs. Jimmie Don Morris of Amarillo spent the weekend in the home of her mother Mrs. Arlie Grigsby.

Senior Class Elect Harvest Candidates

The Senior Class recently held a class meeting in which they elected candidates for Harvest King and Queen. They are Charles Stewart and Kathy Hales. Senior class officers are as follows: President- Sherri Jones; vice president- Eddie Estes; Secretary- Sheri Haynes, Reporter- Judie Rhoten, Treasurer- Roger Bowen, Sgt. at Arms- Ronnie Heasley.

Senior Class Student Council representatives are: President- Jay Dee Fish, Secretary- Gail Terry, Representative- Donnie Bentley.

Study Club Met In Keller Home

The Twentieth Century Study Club met September 12th in the home of Lucille Keller with Lucy Goldston as co-hostess. A luncheon was served at noon.

In the afternoon a business session was opened by President Barbara Hambricht. The new officers were installed by Lucille Keller for the new year.

The new officers are Barbara Hambricht, president; Betty Simmons, vice president; Lucy Goldston, secretary and treasurer; Larue Hambricht, Parliamentarian.

Following business Lucille Keller led in several games. Guests attending were Sue Crisp, Betty and Romana Finley and Tony Hambricht. Members present were Judy Easton, Marjorie Fish, Lulu Crisp, Mabel Worsham, Nola Crisp, Larue Hambricht, Ada Simmons, Barbara Hambricht, Grace Windom, Lucy Goldston and Lucille Keller.

Criminal Cases To Go To Docket

Arraignments in criminal cases in County Court have been set by Judge Don Cain, approximately ten cases each to be scheduled for October 14th, October 21st, October 28th, November 4th and November 11th.

Call of the docket as to both criminal and civil cases has been scheduled for 10:00 a.m. November 4th, to set cases for trial by jury beginning November 18th.

All motions in cases set for jury trial will be heard by the Court beginning at 10:00 a.m. November 15th

science, and returned only \$3 . . . pocketing \$2 for himself.

Now since the guests paid \$27 for the room, with the \$3 the bell-hop returned from their \$30, and since the bell-hop kept \$2 (making a total now of \$29.) what happened to the extra dollar?

Three men registered at a hotel and took a room for \$30. Since the room was worth only \$25, the clerk's conscience began to trouble him, so he called the bell-hop and gave him \$5 to return to the three guests. The bell-hop, however, had only half a con-

"Behold the Lord cometh" To Execute Judgement Upon All

How thrilling it is to realize that a man like Enoch could speak clearly and forcefully concerning the Lord's second coming thousands of years before the "Word became flesh and dwelt among us" (John 1:14).

After spanning nearly the entire text of the Bible, we find Enoch's prophecy in the little book of Jude. "And of these also Enoch, the seventh from Adam, prophesied, saying, Behold, the Lord cometh with ten thousands of his saints, to execute judgment upon all, and to convince all that are ungodly among them of all their ungodly deeds which they have ungodly committed, and of all their hard speeches which they ungodly sinners have spoken against him" (Jude 14-15). What stern and sober thought these words should provoke in every person! This sweeping prophecy should shake the rebellious sinner and the worldly Christian into immediate repentance.

Jude brings the prophecy to bear upon the destiny of ungodly men and women in the church who would turn the grace of God into lasciviousness, and deny our Master and Lord, Jesus Christ. These men are still with us, and their destiny unchanged! Anyone that shares their life and doctrine, must also share their judgment. In this text are mentioned such sins as murmuring, complaining, railing, walking after our own lusts, showing respect of persons for the sake of advantage, mocking, causing divisions, being sensual or animal, and not having the Spirit of God. (Jude 16-19) Think of the books, magazines, movies, and TV programs that have fostered such sins in Christians. These sins are no less serious because they are found in twentieth century Christians! The Lord will execute judgment upon all, and will condemn all the ungodly of all their ungodliness!

CHURCH OF CHRIST

McLEAN, TEXAS

STATE CAPITAL
Highlights
AND Sidelights
 by Bill Boykin
 TEXAS PRESS ASSOCIATION

AUSTIN — Gloomy predictions of increasing natural gas shortages during winter months were made to southern governors at their conference here last week.

Federal Power Commissioner Don S. Smith reported major pipeline operators expect natural gas supplies to fall 9.6 per cent below demand.

Smith forecast gas pipeline curtailments this winter will be 81 per cent greater than last year.

To sustain present levels of gas consumption would require discovery of "a new Alaska every year," the federal agency official told the governors.

FPC, according to Smith, has taken these steps to relieve impact of the shortage:

- Entered an order to allow 2,400 of the 3,900 smaller gas producing companies to sell interstate gas at 63 cents per thousand cubic feet, instead of the 42 cent wellhead rate permitted major producers.

- Reinstated emergency provisions to allow utilities to buy gas through pipelines for 60-day periods at market rates rather than lower, regulated interstate rates.

Texas' Gov. Dolph Briscoe said the action would have little effect in Texas, where demands will keep prices far above the 63 cent rate.

INFORMATION SOUGHT—A Cleveland firm hired to survey tax values in 35 school districts sought tax appraisal and computer contracts with all 1,100 districts in the state.

Legislative Property Tax Committee Chairman Sen. H. J. Blanchard of Lubbock said the solicitation seemed "inappropriate" to him.

LPTC staff members expressed some concern that the firm would be reporting to the state on data paid for by the district. The firm is being paid \$382,000 for the state for its data on market value of district properties.

Some LPTC members also complained about slowness in getting a recodification of property tax laws as a guide to legislative improvements.

CRIME FIGHT MAPPED—Atty. Gen. John Hill has called for establishment of a statewide grand jury and a central information bank as weapons in the fight on organized crime.

At a law enforcement conference, Hill said state and local law officers must cooperate to combat the increased threat of major crime.

Governor Briscoe, meanwhile, said he plans to propose to the legislature again in 1975 a law to permit wire-tapping where ordered by a court to gather evidence of organized crime.

DEPARTMENT SHAKEN—Texas Department of Labor and Standards got its third assistant commissioner in a

week's time.

Commissioner Jackie W. St. Clair named Kirby Suggs of the Houston regional office after (1) firing Tommy W. Smith and (2) temporarily elevating Bob Hubbard, son of AFL-CIO State President Harry Hubbard, to the post. Hubbard resumed his position as administrative assistant.

A total of 10 of the department's 40 employees were discharged at the same time by St. Clair, who pronounced their job performances "unsatisfactory."

AG OPINIONS—The secretary of state may use statistical samplings or other reasonable means of determining adequacy of political party petitions for places on the ballot, Attorney General Hill held.

In other recent opinions, the attorney general concluded:

- Laboratory reports on retail dairy products and ground beef are subject to disclosure.

- An unlicensed person can perform professional nursing acts under direct control or supervision of a physician.

- Child abuse case records revealing the identity of the complainant are excepted from disclosure requirements.

- A Senate sub-committee (consumer affairs) rule permitting executive sessions to get testimony or evidence or confer with counsel conflicts with the open meetings law.

- County commissioners may sell land belonging to the permanent school fund and distribute money to county school districts, but the districts may not pay back to the county funds to create a vocational school.

- Counties may contract for minor children's custodial care.

- City councils must call, within 60 days of a valid petition, an election under the firemen's and policemen's civil service act. Actual holding of the election must take place within a reasonable time.

TEXAS AHEAD — Texas leads the nation in the percentage increase of new business incorporations.

Secretary of State Mark White Jr. reported the number of business incorporations increased dramatically from 1,569 in May, 1973, to

Pattern Your Gun For Better Shooting

Most bird hunters would have to admit that they know little if anything about what comes out of their shotgun when the trigger is pulled.

But it only takes a few minutes to learn exactly what kind of pattern a shotgun tosses and it could mean the difference in the number of clean kills scored this hunting season.

With dove season beginning Sept. 1 in the North Zone, hunters are advised by the Texas Parks and Wildlife Department that patterning can be accomplished anywhere that shooting is permissible. All that's needed is a roll of wrapping paper or several sheets of newspaper. Draw a 30-inch circle and pin the paper target to a frame or suitable stand; never shoot at a tree or anything which could be damaged by a load of birdshot.

Since most doves are taken at a range of about 40 yards, pace off 40 steps for the first shot at the circle. Be sure to use the exact loads you will be shooting during open season. The number of pellet holes within the 30-inch circle shows the effective pattern you can expect on a well-placed shot at a flying target.

Around 50 percent of the shot will be within the circle. Surprised? Most gunners are. The percentage varies with the choke and can range from almost 75 percent on full choke to only 40 percent with cylinder bore (no choke).

To determine percentage, divide the circled holes by the shot pellets contained in the load you shoot. For example, a 12-gauge shell with 1 1/8 ounces of No. 7 1/2 shot contains some 395 pellets (consult a chart in a good gunning book). If the circle has 229 holes, the percentage is 58.

A couple more shots on fresh paper at 20 and 30 yards are equally eyeopening. Even improved cylinder barrels "tighten" considerably at shorter ranges where the shot string, like a stream of water from a garden hose, is beginning to disperse.

While you're at it, it's worth the time to pattern shotguns with various choke settings, tubes or barrels and the different shotshell loads to be used later for ducks, geese and quail.

Knowing your shotgun, perhaps it will be less of a mystery of why some birds last season flew right on through a sure shot.

2,513 in May, 1974. This is a 62 per cent increase for Texas, compared with a five per cent increase for the nation as a whole.

Coupled with the increase, however, is a rise in bankruptcies and business failures. There were 680 bankruptcy petitions filed during 1973 in the U.S. District Courts for the Western District of Texas—and 768 so far this year. May recorded an alltime peak of business failures—925—nationwide.

APPOINTMENTS—Speaker Price Daniel Jr. named Rep. Herman Lauhoff of Houston to House committees on revenue and taxation, natural resources and elections.

Daniel also named Rep. Chris Semos of Dallas to the House committee on appropriations, Rep. Phil Cates of Pampa to the committee on calendars and Rep. Jon Newton of Beeville to the committee on rules.

Susan Longley of Austin will manage Attorney General John Hill's campaign office.

Hill was reappointed chairman of the National Association of Attorneys General Consumer Protection Committee.

CROPS IMPROVE LITTLE—September crop predictions improved slightly over August, Agriculture Commissioner John White reported.

Texas cotton production is estimated at 3,180,000 bales, off almost 1.5 million from 1973. The August predictions were 3,050,000 bales. Sorghum production (off 122 million bushels) and soybeans (off two million bushels) remain little changed.

Corn production also remained largely unchanged at 69,750,000 bushels (a nine million bushel decrease). The rice crop looks good, with producers expected to harvest 24,772,000 hundred-weight bags, a five per cent increase. Sugarbeets and sugarcane will also improve.

SHORT SNORTS
The Texas National Guard has been requested to take additional steps to increase security of federal arms and ammunition.

Rep. Dan Kubiak of Rockdale reaffirmed his request for investigation into cost of each step in cattle raising.

All voters in the November 5 general election must be registered by October 5. Registrations are valid for three years.

Secretary of State White refused to place the Socialist Workers Party candidates on the November ballot, holding its petition inadequate.

Rep. Bill Clayton of Springlake has added more support for House Speaker in 1975, claiming well over 100 of the 150 votes.

Attorney General Hill has appealed a federal court order that two major state re-

form schools be closed. The State Board of Education meets with legislative committees and governor's office aides to discuss steps needed to strengthen school programs for 700,000 Mexican-American students.

The State Supreme Court, via appeal, will have a chance to rule on whether the Texas Railroad Commission has authority to order natural gas taken away from utilities in North Texas and diverted to Central and South Texas. A district judge here has ruled the commission has that authority, and the Austin Court of Civil Appeals agreed.

C. C. To Offer Ham Radio Course

Enrollment is open until
 October 5 for anyone inter-
 ested in entering a class
 in Ham Radio, to be taught
 this semester at Clarendon
 College.

The class will be taught
 by Owen McGarity each
 Saturday beginning on Oct-
 ober 5, from 2-5 p.m.
 Classes will meet in the
 Vocational-Technical Build-
 ing at the college.

The purpose of the course
 is to train individuals inter-
 ested in obtaining General
 Class Licenses from the

Federal Communications
 Commission. The class is
 also open to those interest-
 ed in learning general elect-
 ronic theory and also those
 wanting to learn something
 about "ham radio operation"
 as a hobby.

The cost of the course is
 \$5.00 per person. To en-
 roll for the class or for
 additional information,
 contact Beryl Clinton,
 Academic Dean at the col-
 lege.

Mrs. Virginia Stewart
 and her daughter, Linda
 from Sayre, Okla., spent
 the weekend visiting
 Priscilla Dowis and Cindy.

A Weekly Report Of Agri Business News
Farm-facts
 Compiled From Sources
 Of The Texas Department of Agriculture
 John C. White, Commissioner

Crop Prices Down ... 1973 Was Good Year ... Rain Slows Harvest ... Many Honored Families

TEXAS FARMERS and ranchers don't have to be
 told that 1973 was a good year, but this year is another
 matter. The 1973 prices just haven't held up. Texas Crop
 and Livestock Reporting Service says that all farm products
 price index on August 15 was 13 per cent below last year
 although three per cent above the same time the previous
 month. Prices on livestock and livestock products were 35
 per cent below last year and seven per cent above the
 previous month. That means that a beef animal that
 brought 34.90 cents a pound in August would have brought
 54.20 at the same time in 1973. Hogs that brought \$36.20
 a hundred (up \$3.80 over July 15 prices) would have
 brought \$55.80 on August 15, 1973. On the other hand,
 the price index on all field crops was 21 per cent higher
 than a year ago. Sorghum at \$5.03 a hundred was \$1.50
 higher than a year ago. Upland cotton that brought 44.2
 cents a pound was 9.2 cents above last year. But wheat was
 19 cents a bushel - at \$4.05 - below last year; and \$9.80 rice
 was \$1.20 below last year. Corn that brought \$2.75 a
 bushel on August 15, 1973 brought \$3.16 on August 15
 this year. Corn was only \$2.74 a bushel a month earlier.

COMMISSIONER JOHN C. WHITE earlier released
 figures showing that Texas cash receipts for all crops and
 livestock in 1973 totaled \$6,467,923,000 (that's billions),
 which has to be a record. Production was better than in
 1972, except in rice, pecans and fruits, and possibly a few
 other minor crops. Livestock cash receipts in 1973 in this
 State amounted to half of the total, \$3,673,825,000, which
 was an increase of a billion over 1972. Texas, as usual, was
 first of all the states in the production of cotton, grain
 sorghum, wool, mohair, watermelon, cabbage, spinach.

MORE RAIN over the State delayed harvesting, and
 Hurricane Carmen threw a scare into Texans and accounted
 for a part of the rain. Cotton harvest was judged 16 per
 cent completed, much farther along than the four per cent
 harvested at the same time in 1973. Fall plowing of cotton
 land is well along in the Valley and Gulf Coast. Rain across
 the Northern High Plains delayed wheat planting, but Texas
 Crop and Livestock Reporting Service estimated that four
 per cent of the planting was complete. Oat planting was not
 that far along. More than half the grain sorghum has been
 combined in the State and peanut harvest is about a
 quarter complete and also delayed by rain. Most of the first
 1973 rice crop has gone to market. The first oranges and
 grapefruit from the 1974-75 crop in the Valley have gone
 to market. Yield is expected to be below the 1973-74 crop.

BEFORE AUGUST 31, the deadline for entering
 farms and ranches in Texas Department of Agriculture's
 Family Land Heritage Program, over 1,200 inquiries had
 been received. As checking of the mass of mail and
 applications continues, more than 500 Texas farms and
 ranches have qualified. Those families who have owned and
 used their farms and ranches 100 years or longer are
 qualified for the honor. As has been announced previously,
 special recognition will be given those families during State
 Fair ceremonies in October.

TEXAS COMMERCIAL slaughter plants reported
 211 million pounds of red meat produced during July,
 which is an eight per cent increase over June's production
 and 13 per cent more than in July, 1973. The
 1,341,000,000 pounds produced in Texas for the first seven
 months of the year was five per cent more than for the
 same seven months in 1973.

A weekly public service feature from the Texas State Department of Health

Accent on Health

Someday, Man may be able to predict, and even to control, the fury of the storm. But for now, violent storms remain an unpredictable threat to our homes and families. And the most dangerous time of the year lies just ahead.

We've been lucky this year. Texas has been spared, so far, from the frightful toll of natural disaster. Neither tornadoes nor hurricanes have struck, although we have had some unusually heavy rainfall, flooding, and hail in some parts of the state. As the hurricane season approaches, your State Health Department reminds you to stay vigilant -- the worst might be just ahead.

Any natural disaster is capable of causing unforeseeable numbers of victims, requiring immediate medical attention, food and shelter. A natural disaster also can result in disease, unsanitary conditions, the disabling of public utilities, contamination of water supplies, and the disruption of medical services. Floods can produce a rapid build-up in the population of water-borne pests, such as mosquitoes, which aggravate the health hazards.

When a disaster strikes, the Health Department joins with other state and local agencies and organizations to right back with efforts to restore affected areas to normalcy. State disaster headquarters is in a sub-basement at the Department of Public Safety in Austin, where a core of public officials coordinate disaster activities.

In the State Health Department, the Disaster Health Services Program of the Emergency Medical Services Division provides additional resources at the point of need. This is a part of the Texas plan for disaster health and medical care.

Seventeen disaster relief districts, each with a physician directing disaster medical care, are tied into a district Civil Defense Council which coordinates activities with disaster functions. In case of disaster or severe threat--such as an impending hurricane along the coast, the Civil Defense Council is mobilized. Within each district are zones from which supplies and personnel requests emanate. The State Health Department

sends representatives of the Disaster Health Services Program to each disaster area to help coordinate activities of other health department personnel. In the case of hurricanes, program personnel are pre-positioned in cities along the Texas coast to await and plan for the expected arrival of the storm.

Always quick to arrive on the scene are engineers of the Sanitary Engineering Division whose primary function is checking water supplies. Investigators from the Food and Drugs Division check damaged food and drug products, and Communicable Disease Services Section personnel may be assigned, and local health departments put physicians, nurses, sanitarians and others on duty immediately.

Within minutes after a tornado dipped down into the heart of Lubbock the night of May 11, 1970, nurses and others picked their way through the rubble to check and salvage vaccines and get them to pre-planned emergency headquarters. A disaster health representative of the state Health Department was on the scene of the tragedy within two hours even though city telephones and electricity were knocked out and transportation disrupted.

The Corpus Christi-Nueces County Health Department had its personnel on duty when Celia slammed into that city on August 3 of that same year. The State Health Department was also there. The personal automobiles of two representatives of the Disaster Health Services Program, who were in Corpus Christi awaiting the storm, were severely damaged. In addition, district engineers and personnel were state headquarters were on the scene.

Equipment from a Packaged Disaster Hospital was set up in a church at Aransas Pass to provide medical equipment after Celia. Just recently the Health Department took over the medical inventory of 101 packaged Disaster Hospitals, similar to the one from which equipment was used during Celia.

A major disaster isn't the responsibility of one agency but demands the coordinated efforts of many to snap back after tragedy. During spring tornadoes which hit Burnet and Hubbard last year, for instance the Texas National Guard responded quickly with trucks, personnel and helicopters. Representatives of the State Health Department were on the scene within an hour of notification, coordinating disaster health relief.

The State Health Department audits local and regional units have responded quickly and effectively in past disasters. With the resources and personnel at its command, it stands ready always to meet the future emergency needs of the citizens of Texas.

New Brace® has amazing denture hold!

Hot Coffee Test proves it!

Brace® holds this inverted cup and saucer together because Brace has a patented formula of 3 plastics that get stronger when exposed to liquids. So mouth moisture actually helps hold dentures longer. And Brace tastes cool.

News From ALAN REED

By Mrs. P. M. Gibson
The Alanreed Home Demonstration Club met Sept 11 in cafeteria. The program was brought by Elaine Houston H.D. Agent. Members present were Lucy Goldston, Lucille Keller, Lulu Crisp, Onie Gibson, Mabel Worsham, Betty Marshall, Polly Harrison, Pat Stubbs, Ruth Johnston, Anita Bruce, Anne Marshall, SueCrisp. Hostess

Tree Litter

From time to time, when the west wind blew, twigs and leaves from Fred Miller's poplar tree would flutter down into a neighbor's back yard. Resentful, the neighbor finally took the matter into the courtroom.

"It is up to Miller to keep his litter out of my yard," he told the judge. "If there is no other way, then let him cut the tree down."

But the court refused to mix in. Noting that the tree was located entirely on Miller's land, the court said he could not be blamed for the natural process of shedding.

Generally speaking, the law will not interfere with natural growth on private property.

Thus, another man was held entitled to maintain four large maple trees on his land even though they kept a neighbor's house in the shade. The court said his freedom to use his own property outweighed the indirect annoyance to the neighbor.

On the other hand, the neighbor may have a valid complaint when the injury he suffers is more substantial. Thus, when branches actually spread across the property line, most courts give the neighbor the right to chop them off at the boundary.

Furthermore, a neighbor usually has grounds for suit if a tree threatens his safety. Another case involved a badly decayed elm, standing near a back yard fence. The next door neighbor, fearful of an impending accident, warned the tree's owner of the danger--to no avail.

One morning, during a storm, a heavy bough split off and fell across the fence, smiting the neighbor on the shoulder. Under these circumstances, the owner of the tree was held responsible for the neighbor's mishap.

The court said he had no more right to keep a dangerous tree on his property than to keep a dangerous building.

Arthritis Sufferers:

WAKE UP WITHOUT ALL THAT STIFFNESS!

New formula for arthritis minor pain is so strong you can take it less often and still wake up in the morning without all the pain's stiffness. Yet so gentle you can take this tablet on an empty stomach. It's called **Arthritis Pain Formula**. Get hours of relief. CATTLE PRICES

The severe drought that cut a prospective all time high yielding corn crop to producing 12 to 15 percent less than 1973 has devastated cattle prices. For every dollar per bu, increase in corn and milo price cattle have fallen back from \$5 to \$10 per cut.

The treat of 60¢ gain cost from 6.00 milo has reduced demand for cattle to go into the feed lot. This has lifted the stocker and cow calf operators at the mercy of packers and buyers. The weekly slaughter reports are the highest I've seen in years.

But a much higher proportion of the kill is from man fed cattle. We are seeing the widest spread between the price of cattle that go into manufacturing beef and that of finished steaks and roast. The grass fats are competing heavily with finished steers even though there are probably few feed lot cattle now in the feedlot than we have seen in over a decade.

If there is any ray of hope in the situation its the fact that for every steer or heifer killed in the 700 down we weight group there will be less beef on down the line. In the southeast, baby beef from calves off their mommies are being slaughtered by the thousands. A good question is where will the nation get this kind of beef 45 days after the last killing frost and the calves go backward.

The proposed new grading system could prove most beneficial to all concerned. Chances are it will be after January before it would take affect. In short cattle should finish 30 days earlier than the present system now dictate. This would reduce excessive and wasteful fat and will drastically reduce gain cost.

In a recent 7 state cattle on feed report, numbers in the feedlot are only 77 percent of year earlier levels. Placements into feedlots was down 22 percent in August of this year as compared to last year. Feedlot marketings were down 8 percent in August. Total marketings of both fed and grass cattle are probably from year earlier levels. WINDBREAK SEEDLINGS We have application blanks in our office where by you can obtain seedlings to be planted on your farm or ranch. Red Cedar, Ponderosa pine and a number of other species are available. Drop me a line at Box 214 and I'll mail you an application blank. Cost is 5¢ per 100 trees. FERTILIZER Feedlot manure is being used more and more in the Pampa area in view of the high priced anhydrous ammonia. Most people apply 10 tons per acre. Average content in 10 tons of manure is 268 lbs. of nitrogen, 24 of phosphorus and 380 lbs. of potash. I have a good leaflet on this topic if you would like to have one.
