## Booster Club Plan Garage Sale

The Tiger Booster Club will have a garage sale in the near future to raise money to purchase a Leg Press Machine, which will cost around \$750. Anyone that has anything to donate is asked to please bring it down to Terry's Appliance old building on I-40 going west or call 779-2820 and someone will come by and pick it up. The date of this sale will be posted later. Also if you don't have anything to donate the club will accept cash donations.

## Resident's Brother Dies In California

Wain O. Burrows of San Diego, Calif. passed on September 20 at the age of 72. He was the brother of Mr. R. A. Burrows of McLean. His other survivors include R. E. Burrows of Long Beach, Calif. and James Dec of Albuquerque, N.M. Mrs. Jean Scott, Gray County treasurer, visited in McLean last week. She is running for re-election in the November election.

## Lions Plan Broom Sale

The McLean Lions Club will conduct an all out drive on Tuesday October 8 to sell quality blind-made products to residents and local businesses, according to an announcement made today by Jim Hathaway. The articles are all manufactured by blind workers in the Lighthouses for the Blind which are located throughout the state of Texas. The Lion Club's earnings from this sale will be used for Lion's projects. The entire membership of the Lions Club has been organized to supply friends and neighbors with this quality merchandise delivered right to their homes. Every household can use some type of household cleaning aid and every item sold helps some blind person to help himself. Sales of blind-made products held by the McLean Lions Club in previous year have been most successful and Lion Hathaway expressed his confidence in another successful sale this year.

## 1974-75 Statewide Hunting Outlook

Late summer rains have brightened the overall hunting picture for most of Texas. If range conditions continue to improve, Texas hunters can expect generally good hunting this fall. A mid-September poll of Texas Parks and Wildlife Department game wardens, biologists and information officers throughout the state came up with these outlooks: Hunters can expect to bag a higher percentage of older deer this year since last year's fawn crop in north-east Texas was below average. Turkey- The consensus among TP&WD officials is that Rio Grande turkey numbers will be down this year because of the dry spring and summer. Turkey seems to be less flexible than quail in nesting times and few poults have been observed. The best prediction anyone could muster is a qualified "fair" for turkey. Quail- Just the opposite of turkey, bobwhite and blue quail took advantage of late rains and increased food and re-nested where earlier efforts were unsuccessful. Up in the Panhandle, Don Davis at the department's Matador Wildlife Management Area says that quail on the area are down. This is usually better-than-average quail country and could be an indication of Panhandle quail hunting for the year. Antelope- Better luck next year. Drought hit Texas antelope herds hard this year with overall

FIREMEN PRACTICE FIGHTING FIRES

## Local Firemen Attend School At Canyon

Last week local firemen from McLean joined 391 firefighters from 47 area towns to participate in the First Canyon Area Fire Control School, which was held at Canyon. Classes were conducted under the auspices of the Firemen's Training School, Texas A&M University Engineering Extension Service, and were sponsored by the State Firemen's and Fire Marshal's Association. Facilities were provided by the Canyon Fire Department. Following a brief orientation, the firemen were transported to the drill field where they fought controlled fires in three separate projects, which included L.P.G. fires, truck spill fires, and house fires. At the completion of the

losses of adults ranging from 25 to 40 percent in the western half of the state. A total of only 626 permits will be issued by the Parks and Wildlife Department this year to harvest antelope. Last year, some 1,305 such permits were issued in the Trans-Pecos alone.

Pheasants, prairie chicken- The main population of pheasants is to be found around irrigated fields which received water through the summer. Peer says the best hunting should be in the Hereford area.

It's a bit early to predict how hunting will be during the brief Oct. 19 - 20 prairie chicken season. Biologist Dick DeArment reports sighting some young birds in the Panhandle.

## Pennies Needed

Montgomery Wards at Pampa wants your extra pennies! Over the past several years, a shortage of copper has sent the price of copper sky high, causing speculation and hoarding. Now that the price of copper has receded, there are an estimated 30 billion hidden pennies which must be returned to circulation. "Montgomery Ward, in cooperation with the Federal Reserve Board and the United States Mint, will exchange any amount of pennies in any container for paper money," said Ward President Sidney A. McKnight in announcing the program. "Many citizens feel they must wrap their pennies in the standard and cumbersome 50 cent roll," said G. R. Turbeville, Wards store manager. "Our customers don't have to do this. We have in our cashier cage a convenient change counter. It will easily count the pennies you bring us in a matter of seconds and we will trade you even money. We will accept pennies in anything from piggy bank to glass jars of paper bags."

The goal of the Mint is to return 10 billion of the hidden 30 billion pennies to circulation. "This will save the American taxpayer about \$100 million in reproduction costs," said Turbeville. The Mint has put into circulation 70 billion penny coins since 1959. "We will send the name of any customer exchanging \$5 or more in pennies to Mary Brooks, director of the Mint," said Turbeville. "She, in turn, will send that person a special citation for their patriotic effort," he added.

Mr. and Mrs. Elmer Cornellison of Muleshoe visited over the weekend with S. B. Kiser. Mrs. Cornellison is his half-sister and a aunt of J.D. and Ray Fish.

## McLean Is Stomped By Groom 34-0

By Betty Holmes  
The Groom Tigers visited our own black and gold last Friday night with a 34-0 victory. Curtis Simpson lead the hometeam offensively with 32 yards in 11 carries for a 3.0 average, while Groom's senior running back, Stan Britten, racked up 253 yards on 13 carries for a 14.0 average. Defensively, Kit Long headed the Tigers with 4 unassisted tackles and 8 assists. Although the A string T Tigers have an open week, the B team faces Shamrock's B team here on Thursday night at 5 p.m. The B team has a game tally of 1-1 after a loss to White Deer of 14-6 and a 28-12 victory over Clarendon.

## SWCD Directors Attend Field Day

Local Gray County Soil and Water Conservation District Directors Curtis Schaffer, Milton Carpenter, Ralph McLaughlin and Tony Smitherman along with SCS District Conservationist Perry Gruhlkey attended the Plant Materials Field Day on September 18 at Knox City, Texas. The agenda included tours and a speaking program. Opening remarks were made by State Conservationist Ed Thomas of Texas and Hampton Burns of Oklahoma. The tours were hindered due to heavy rains. The SCS Plant Materials Center was established in January of 1965 and serves the needs of Texas and Oklahoma. The purpose of the Plant Materials Center is to assemble and evaluate plants with a potential value for range and pasture plantings, recreation and beautification, wildlife feed and habitat and erosion control.

### Peanuts: Coast 'Em at Home

AUSTIN—Texas, second largest peanut producer in the country, raises enough of the high-protein food to supply everyone supplied in afternoon snacks.

A 3 1/2-ounce serving of peanuts contains more protein than the same amount of cooked hamburger, according to Agriculture Commissioner C. White.

The simple old-fashioned recipe is for Roasted Peanuts. Place one or two cups of raw, shelled peanuts on a plate or other flat surface. Bake in a moderate oven, stirring occasionally. The red skins may be rubbed off with fingers. This takes 15-20 minutes. Do not let the peanuts get too hot. Roasting peanuts in a shell will take a little longer.

## Changes When Baptized

The Bible indicates that at least four changes take place when one is baptized: change in condition, servitude, residence and relationship. Of course these changes only occur if the one being baptized trusts in Christ (Col. 2:12), repents of his sins (Acts 2:38), confesses faith in Christ (Acts 8:37), and is buried by baptism (Rom. 6:4; Col. 2:12) in the name of the Father, Son, and Holy Spirit (Matt. 28:19) for this remission of his sins (Acts 2:38).

In baptism one's condition is changed. Before baptism one is lost, but through baptism he is saved (Mark 16:7-16; 1 Peter 3:21); he was in sin but now free from sin (Acts 2:38; 22:16; Col. 2:11-13; Rom. 6:17-18); clothed with sin, but now clothed with Christ (Gal. 3:27) alive to sin, but now dead to sin (Rom. 6:1-5); and dead in sin, but now alive to Christ. (Col. 2:12-13)

In baptism one's servitude is changed. Before baptism one is a servant of sin, but after baptism one becomes a servant of righteousness (Rom. 6:17-18). Although baptism is now mentioned by name in these verses, obeying from the heart that form of doctrine includes baptism (1 Cor. 15:1-4). Romans 6:4-6 also teaches that in baptism one's servitude is changed; for this passages states that in baptism "our old man is crucified with him, that the body of sin might be destroyed, that henceforth we should not serve sin" (Rom. 6:6). When one obeys FROM THE HEART THAT FORM OF DOCTRINE, a change of servitude takes place.

In baptism one's residence is changed. Before baptism one is in the world, but after baptism one is in Christ (Rom. 6:3; Gal. 3:27); he was out of the body of Christ, but now he is in the body of Christ (1 Cor. 12:13); in darkness, but now in the kingdom of His dear Son (John 3:3-5; Gal. 1:13); and in sin, but now in the church (1 Peter 3:21; Acts 2:47).

In baptism one's relationship is changed. Where once one was a child of the evil one because of sin (John 8:44), now he becomes a child of God. He becomes such by being born of the water and the Spirit (John 3:5) which makes him a new creature (2 Cor. 5:17), a child of God (Gal. 3:26-27). Before baptism one's heavenly father is the devil, but through baptism one becomes a child of the Heavenly Father, Almighty God.

Inasmuch as God has designed that these changes take place in scriptural baptism, all who are seeking these changes should submit to baptism as taught in the Bible, and not as taught by man. If you have not been baptized the Bible teaches, carefully consider what the Bible teaches concerning these things, and after this careful study obey Christ by putting Him on in Scriptural baptism.

### Mary Theresa Dement and Daniel Pender To Marry January 4

Mr. and Mrs. B.G. Dement of Lubbock announce the engagement of their daughter, Mary Theresa, to Daniel Barry Pender, son of Mr. and Mrs. A.B. Pender of McLean.

The couple will be married at Lubbock at 2 p.m. January 4 in the Christ the King Church.

Miss Dement is a graduate of Monterey High School, Lubbock and is now an engineering student at Texas Tech University. Her fiancé is a graduate of Jal High School, Jal, N.M. He received his B.S. degree in social welfare in May from Texas Tech and is employed by Buckner Baptist Children's Home as a social worker.

### Pioneer Study Club Have Historical Programs This Fall

The theme of the year for the Pioneer Study Club is nostalgia 1776-1976 and all programs will be historical. The first meeting of the fall was a Red-White-Blue Brunch held in the Hospitality Room of the American National Bank, September 7th. Hostesses for the occasion were Jan Johnson and Mary Dwyer. The tables were centered with red-white-blue napkins. On the serving table was a beautiful arrangement of fresh fall flowers arranged by Leona Sitter. Orange juice, tiny sausages, sweet rolls, fresh jam, hot biscuits and coffee were served. The business consisted of a general discussion of the new year books and plans for special programs. Members attending were: Paralee Coleman, Evelyn Stubblefield, Vera Back, Margaret Coleman, Bonnie Fabian, Marilyn Hicks, Cheryl Smith, Irene Pagan, Avis Meixner, Mary Lou Glass, Kathy Hill, Molly McDowell, Lucille Jones and the hostesses Jan Johnson and Mary Dwyer.

On September 19 the Pioneer Study Club met for its second meeting of the fall. Kathy Hill was hostess at the Hospitality Room of the American National Bank. The program History of the Longhorn was given by Ruth Magee. She used J. Frank Dobie as her authority on information about the first cattle on the North American Continent. Later, they became the Longhorn, the foundation of all cattle in America.

The tables were artistically decorated with blue and white striped denim runners; and place mats with red bandana napkins. Tiny liariats, model horses and hurricane lamps centered the tables. Refreshments served from silver appointments, tomato aspic ring, individual molds of ham salad, chocolate mint tarts, tiny crackers, olives and coffee were served to: Vera Back, Avis Meixner, Mary Bell, Mary Emma Woods, Alice Short Smith, Irene Pagan, Judy Orrick, Molly McDowell, Jan Johnson, Clara Hupp, Marilyn Hicks, Bonnie Fabian, Mary Dwyer, Margaret Coleman, Ruth Magee and the Hostess Kathy Hill.

### How To Tell If Fish Are Fresh

"I don't buy fresh fish because I don't know what to look for and I'm afraid of getting a bad product."

Lay your fears to rest, homemakers. The Texas Parks and Wildlife Department's Seafood Marketing staff offers this advice on shopping for fish.

Fresh, good quality fish has several distinct characteristics, and one of them is lack of odor. If you can smell fish in the house before you can it then what you've bought is something less than fresh. Fresh seafood has only a mild, pleasant odor.

If it passes the sniff test, check to be sure that the flesh is firm and springs back when pressed slightly.

Look the fish in the eye--the eyes should be clear and bright and the fish should have that "just caught" look to it.

Filletts or steaks should appear shiny and moist with no tears in the meat. These cuts of fish are the most popular market forms since they are 100 percent edible. Boneless filletts take the worry out of serving seafood to children.

Serving allowances vary according to the form of seafood purchases.

As a general rule, allow one pound of whole fish for each person and one-third pound of filletts and steaks per individual.

Regardless of whether you prefer filletts or whole fish, insist on good quality seafood and know quality when you see it.

DONNA SUE MOORE

### Donna Sue Moore Randy Curry To Marry In Oklahoma

The engagement and approaching marriage of Miss Donna Sue Moore to Randy Glen Curry is being announced by her parents, Mr. and Mrs. Ralph L. Moore, Poteau, Oklahoma.

Curry is the son of Mr. and Mrs. Glen Curry, McLean.

Miss Moore is a graduate of Poteau High School and is now a sophomore at Southwestern State College, majoring in Medical Records Administration. She is a member of the Bulldog Marching Band and was listed on the Dean's Honor Roll.

The prospective bridegroom is a graduate of McLean High School. He also attends Southwestern State College, where he is a pharmacy major. He is listed on the Dean's Honor Roll, and the President's List.

The couple plan to be married January 3, 1975, in the First United Methodist Church, Poteau, Oklahoma.

Grandparents of the groom are Mr. and Mrs. E.L. Watson, McLean and Mr. and Mrs. Ralph Coon, Cheyenne, Okla.

### Fidellas Class Elect Officers

The Fidellas Class met Thursday Sept. 19 in the home of Vela Corcoran.

The meeting was opened by president, Ada Simmons. A devotional was given by Stella Gibson and Annie Reeves.

The following officers were elected for 74-75. President, Annie Reeves; vice president, Vivian Grigsby; 2nd vice president, Vela Corcoran; secretary, BeBe Kinard; treasurer, Ada Simmons; asst. secretary, Versie Collie; group captains, Safarona Pettit and Bertha Smith; devotional teacher, Stella Gibson.

Refreshments were served by the hostess at the close of the meeting.

AUSTIN—Fur flew at both Democratic and Republican conventions last week.

When the smoke cleared, the record showed Democrats in Austin:

- Re-elected State Democratic Executive Committee Chairman Calvin Guest of Bryan 3,125 to 2,183 votes over liberal challenger Leonel Castillo, Houston city controller. Guest is the choice of Gov. Dolph Briscoe.

- Selected a new SDEC, about equally divided between liberals and conservatives. Both sides claimed control.

- Wrote a platform encompassing most of what Briscoe wanted but added some things he didn't ask for and eliminated some he did.

- Named 76 delegates to the December mini-convention in Kansas City to write a national party charter. Again, both sides are well represented. Liberals wanted more minorities on the slate.

Texas Republicans, at Houston:

- Criticized President Ford for his earned-amnesty proposal and nomination of Nelson Rockefeller for vice-president.

- Turned down a resolution calling for support of the president on the pardon of former President Richard Nixon.

- Adopted a conservative platform confined to state issues, including support of the right-to-work law and opposition to agency shop legislation and a recommendation for a one per cent reduction in the state sales tax.

- Re-elected Jack Warren of Tyler chairman and named the 1975-76 GOP state executive committee.

OIL "WIDE OPEN" — Texas Railroad Commission, for the 31st straight month, set the oil production allowable for October at 100 per cent.

Railroad Commission Chairman Jim Langdon said he thinks "we can get through this winter without undue hardship." He warned, however, that there is a threat of coal strike, possible new Arab oil embargo and a cold winter.

U. S. stocks of crude oil are 55.6 million barrels above a year ago. Langdon credited conservation and voluntary use cutbacks by consumers with much of the increase.

Buyers increased nominations to purchase by 18,511 barrels a day—to 4,092,783 for October.

STILL RUNNING—An endorsement by the AFL-CIO executive board revived Rep. Carl Parker's lagging campaign for House speaker.

Meanwhile, Parker pledged to swing whatever remaining support he has to another pro-labor candidate if he sees he has no chance of winning.

Rep. Neil Caldwell of Alvin

and Rep. Dan Kubiak of Rockdale indicated they are making soundings to see if any of Parker's votes can be switched to them.

Rep. Bill Clayton of Springlake claimed to have more than 100 votes—of the 150 House members committed to him.

HEARING PUT OFF — Public hearing on auto insurance rates has been postponed from October 1 to October 17.

State Board of Insurance Chairman Joe Christie said the delay was necessary because the industry has not made available needed statistical data on which rate making is based.

COURTS SPEAK—Misconduct of a prosecutor brought reversal of a life imprisonment sentence given a Dallas man for strangling his 10-month-old son with a towel.

The Court of Criminal Appeals also affirmed the life sentence assessed a Glasscock County man in a murder case.

The same court declined to revoke the probated sentence of an Ector County burglar, though he admitted defying terms of the probation by leaving the county and failing to meet with his probation officer for a five-and-a-half-month period.

A Houston district judge ordered Gulf Oil Chemicals Company to pay a \$20,000 penalty for violation of a state air control regulation.

AG OPINIONS—Atty. Gen. John Hill held a county commissioners court cannot authorize back pay to an employee temporarily suspended following felony charges.

In other recent opinions, the attorney general concluded:

- A church-provided residence for a minister of music may qualify for tax exempt status provided other requirements of law are met.

- A fireman may receive retirement credit for service rendered prior to the effective date of the pension act except where the law specifically conditions benefits on a certain period of participation in the pension fund.

- The Texas Board of Licensure for Nursing Home Administrators may license directors of group homes as nursing home administrators, but it may not establish a separate type of license for

DEADLINE SET—Agriculture Commissioner John C. White reminded South Texas cotton farmers of a September 25 deadline for plow-up and stalk destruction.

Cotton harvest for the state has reached 18 per cent completion compared with only six per cent at this time last year, and prospects for South Texas crops are excellent. However, White said the state's cotton production is projected at 2.1 million bales, a decrease from the 4.6 million bales of 1973.

The 13-county area affected by the deadline is bordered by Webb, Duval, Jim Wells and San Patricio counties on the north and on the south by Starr, Hidalgo and Willacy counties.

ERRORS NOTED — About 150,000 taxpayers in South Texas have received questionnaires asking them to provide correct information on social security numbers.

Internal Revenue Service District Director Richard J. Stakem Jr. said thousands of discrepancies were discovered when names and social security numbers of wives filing income tax returns were matched with Social Security Administration data.

IRS and SSA said correction of discrepancies now will save lots of trouble later on when applications for social security benefits are filed.

**THE FAMILY LAWYER**

*Nosy Nurse*

Agatha, a registered nurse, believed in taking lots of initiative in her work. Among other things she meddled in the private affairs of patients, overruled medical instructions from doctors, and denounced doctors and patients to each other with fine abandon.

Finally, on the basis of repeated complaints, a state board revoked Agatha's license. She carried a protest into court, but the board's action was upheld.

Nursing, like the other healing arts, is usually subject to supervision by a state board set up to safeguard the public. Although regulations vary, they generally impose a high standard of conduct in keeping with a nurse's responsibilities.

But the courts also recognize that revocation of a nurse's license is a drastic punishment, not to be imposed lightly.

Thus:  
The night nurse in an obstetrics case, asked by the patient to call a doctor, decided it wasn't necessary. Was this adequate grounds, as alleged afterward, for revoking her license?

A court said no, pointing out that the patient 1) had gotten good care from the nurse, and 2) had not really needed the doctor after all. The complaint was too minor, said the court, to justify such a penalty on the nurse.

Of course nurses, like doctors, may be held liable for malpractice—such as carelessly giving a patient the wrong medicine.

But there is no malpractice if there is no negligence. In another case, a woman patient who had fallen out of her hospital bed sued the nurse for failing to put up bed rails. However, there had been no instructions from the doctor about bed rails, nor any advance indications that they were needed.

Finding no malpractice, the court said a nurse could not be held liable merely because something happened to go wrong.

**SCAT Tests To Be Given At A. C.**

The School and College Aptitude Test (SCAT) will be administered by Amarillo College Sept. 27.

Those taking the test will meet at 1 p.m. in Room 124 of Ordway Hall.

"The test covers verbal and mathematical areas," said Fred Dodson, director of the AC Testing and Counseling Center. This test is given to persons who have been out of school for some time. It covers areas they should have had in high school, he said.

Administered by Counselor M. D. Gentry, the test will take approximately an hour and 15 minutes to complete.

Those who have questions or desire additional information may call the Counseling Center or the registrar's office.

# CHEVROLET FOR 1975. CARS THAT MAKE SENSE FOR TODAY

Nova LN Sedan

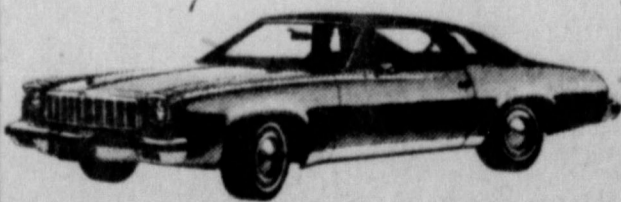

Monza 2+2

**MONZA 2+2** The small car of tomorrow will probably be a little more powerful, handy and comfortable than ever. The 1975 Monza 2+2, shown above, offers this today. It has advances like rectangular headlights set in a soft front end, fold-down rear seat, and a new 4.3-litre V8 engine available.

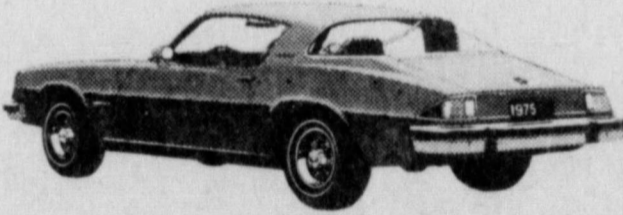

**NOVA** In the background above, our new Nova LN Sedan. A luxurious Nova with thick carpeting and wide-back reclining front seats. For 1975, all Novas have been emphatically refined along the lines of elegant European sedans. Nova's always been good. Now it's beautiful.

**IMPALA** America's favorite car continues to provide the room many families need plus plenty of quiet and comfort. Still the great American value.

**CHEVELLE** Mid-size, easy to drive, room for six, mid-priced, strong reputation for value. America's most popular intermediate.

**CAMARO** Our sensibly sporty compact. It looks like a million and drives like it looks.

**WAGONS** Big ones, small ones, in-between ones. Practical wagons that make sense for America. And you.

**MONTE CARLO** Its special ability: making you feel good. About the way it looks and drives. About your own taste and judgment.

## CHEVROLET'S NEW EFFICIENCY SYSTEM FOR 1975

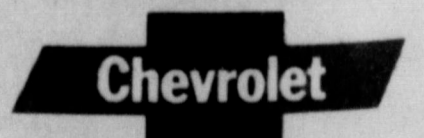

It's the key part of a program aimed at helping our new cars run leaner (more economically), run cleaner—and save you money every mile.

The Efficiency System is standard on all 1975 Chevrolets with V8 or 6-cylinder engines. It's a series of significant engineering improvements working together for the very first time.

Components include High Energy Ignition catalytic converter, Early Fuel Evaporation and steel-belted radial ply tires. In sum, the System is designed to heighten the pleasure and lower the cost of driving a 1975 Chevrolet—to bring you a better running car in many ways, along with improved fuel economy, more miles between recommended maintenance and an engine that stays cleaner internally because of no-lead fuel.

Your Chevrolet dealer will gladly give you the details and answer your questions. See him and the sensible 1975 Chevrolets starting September 27.

**Waterfowl Stamp Now Available.**  
 Federal duck stamps,  
 required for all hunters 16  
 years of age or older who  
 hunt migratory waterfowl,  
 are now available at all  
 U.S. postal offices.

**Waterfowl Stamp Now Available.**  
 In addition to the duck

### Pre-School Children Need Snacks

**Pre-School Children Need Snacks**  
 Help your preschool  
 snack his way to good hea-  
 lth, one foods and nutrition  
 specialist suggested this  
 week.  
 Small children with  
 small stomachs need more  
 food than they can eat in  
 only three meals each day,  
 Sally Springer with the  
 Texas Agricultural Extension  
 Service, The Texas A&M  
 University System, contend-  
 ed.

**Pre-School Children Need Snacks**  
 Even though the child's  
 growth rate is slower than  
 during infancy, he still  
 needs a diet high in nutri-  
 ents for growth and energy.  
 Snacks eaten at least  
 2 1/2 hours before meal-  
 time don't seem to influence  
 the child's appetite for the  
 meal.  
 Some nutritious snack  
 suggestions are fruit juice,  
 fruit wedges, vegetable  
 sticks, peanut butter cook-  
 ies and cheese cubes, the  
 specialist continued.

**Pre-School Children Need Snacks**  
 But filling snacks eaten  
 too near mealtime will  
 increase the chance of the  
 child's loss of appetite.  
 Another point in favor  
 of snacks is that the body  
 uses smaller, more frequent  
 meals in a way that slows  
 the formation of adipose--

### Importance of Senior Citizens Eating Habits

It's often hard for the  
 senior citizen to be sure he  
 is eating well, one foods  
 and nutrition specialist con-  
 tended last week.

She's Frances Reasonover,  
 with the Texas Agricultural  
 Extension Service, The Tex-  
 as A&M University Sytem.  
 If the older person lives  
 alone, it's easy to get in  
 the habit of cooking only  
 convenience foods. They're  
 easy to prepare and gener-  
 ally easy to chew--but  
 many of them are too high  
 in carbohydrates.

Another pitfall for the  
 senior citizen is putting  
 too much faith in the claims  
 for "miracle diets." The  
 specialist suggested if you  
 aren't feeling well, don't  
 be misled by advertisements  
 for these products. A bal-  
 anced diet is still the best  
 way to maintain good health.  
 Older persons' eyesight  
 and sense of smell are not  
 as keen as in earlier years.  
 Serving meals attractively  
 and seasoning food well are  
 important to keep the appe-  
 tite alive.

Try meat blended with  
 textured protein--it usually  
 cost less than ten per cent  
 of ground meat.

# Accent on Health

They're here--those crisp cool days with which mean only one thing to some one million people in Texas; it's hunting season.

Dove season brings a gleam to the eyes of hunters but it is late October and November which put that extra bounce in their step, sends them into the hills and valleys and into marshes and timbered country for deer, javelina, duck, geese, quail and turkey.

Previews of the season are obtained by bow hunters, who take advantage of a special archery season in October.

In addition to the hunting season, most real fishermen are keeping their gear in shape for the excellent fishing which continues through the fall and winter in Texas.

What you have in Texas now--in addition to the exhilarating thrill of being out in the open hunting, camping and fishing--is the chance for accidents. Good health and hunting safety go together, says the Texas State Department of Health.

While most hunters look on themselves as Daniel Boones, far too many should never leave their television sets and comfortable arm chairs. They are the people who are out of shape, out of practice in handling their rifles and shotguns, and out of touch with good safety habits.

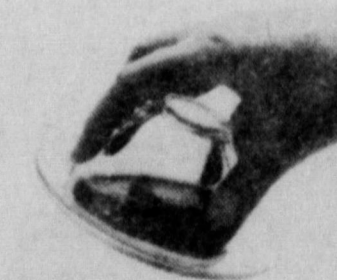

Safety in the field is a vital part of any hunting trip, and it takes some thought and planning to make sure that your trip doesn't end in tragedy. How many people do you know who carry loaded guns in their cars... climb into their deer blinds with guns loaded... walk around with the safety of their rifles or shotguns off and a shell in the chamber... point their weapons at others... bring their loaded guns into the camp house.

Caution is something which all persons should exercise throughout every day of the year, but extra

precautions against injury, and perhaps death--should be taken when you're outside of your natural element.

Since many duck hunters use boats to get to and from blinds, they should take extra care in carrying life jackets, since it is mighty hard to swim wearing heavy, bulky clothing. Cold waters can sap your strength in minutes.

Hopefully, all hunting camps have been cleaned up and rid of such things as spiders, mice and other critters. But have you checked your stoves against the possibility of carbon monoxide poisoning? Vents should fit tightly and be unobstructed.

It's too late now for exercising to get in shape for the strenuous hunting activities, but brisk walks will help tone up some of your muscles.

If you're in the middle and later stages of life, take it easy and don't overdo it. If you're the type who likes a little nip now and then, wait until after you're through hunting for the day.

Safety authorities strongly recommend the use of blaze orange clothing as a safeguard against becoming a statistic. Too many hunters are mistaken for game by over-anxious, careless hunters.

And, to help prevent eye injuries, make certain you are wearing glasses with plastic or hardened lenses--lenses which are much more difficult to break.

You can follow the following safety rules:

When handling and demonstrating a gun, treat it as if it were loaded. Keep the muzzle pointed in a safe direction. Remove the clip if there is one. Open the action and leave it open.

If you're practicing with an empty gin, be sure it is actually empty. Check every gun you pick up. Even with an empty gin, aim at a safe backstop.

When cleaning a firearm, the same safe handling rules apply. Keep others away when you're cleaning a gun.

In transporting guns, break them down whenever possible. Keep guns in a case or securely wrapped. Carry all ammunition separately. Always transport guns unloaded.

In practicing, know the potential of your gun. Make sure you have an adequate backstop. Keep the firing line and shooting area restricted.

Always store guns out of reach of children, unloaded and uncocked. Store ammunition separate from firearms and also out of sight. Keep the gun safety on until ready to shoot.

Agree beforehand on the area each hunter will cover.

Unload the gun before crossing a fence and pass the gun under first. Never climb into a stand, a tree or over obstacles with a loaded gun.

When duck hunting from a boat, two hunters should face in opposite directions. Never lay a loaded gun in the boat.

Fall is a wonderful time of the year in Texas, says the State Health Department. And you can make it a productive one and a happy one by thinking safety-first, last and foremost.
