Board Decides Against \$1.02 Tax Rate; Approves New Discipline And Credit Policies

School board trustees lessened the burden on area taxpayers Monday night after deciding to set a tax rate of 98 cents per \$100 evaluation. Earlier in the year, officials had feared they would have to raise the tax rate to at least \$1.02 per \$100 evaluation to make budget expenditures.

"Our original budget calculations were based on a tax rate of \$1.02, which would have been a 7.1% increase above our

effective tax rate of \$.953263," explained business manager Shirley Johnson. "However, in consideration of the depressed economic conditions and the possibility of a small increase in state and federal funding, it has been our decision to revise the tax rate to \$.98."

"This is only a 2.85% increase above the effective rate for 1984, and a \$.02 increase over the \$.96 tax rate used in 1983," she continued. "We feel

that we can operate effectively with this lower tax rate by deferring some capital outlay expenditures until next spring when we will have a better knowledge of exactly what our 1984-85 state funding will be."

The board set a meeting for 6 p.m. September 17 to approve the new tax rate.

In further action, the board approved the minutes from the August 13 and August 30 meetings. They approved the

checks, and the cafeteria report.

Trustees opened bids on five IBM PC computers and one printer.

They awarded the bids to IBM whose price was \$10,154.

Trustees also awarded a bid to D.E. Krause Bus Sales for a 1979 GMC bus. Krause had bid \$852 for the bus.

In other business, trustees adopted policies on student discipline, award of credit and

attendance. Part of the policies were adjusted to comply with new state education requirements.

Under the policy, students may not receive credit for classes in which they receive a grade lower than 70 on a scale of 100 or has more than five absences during a semester.

Students with grades lower than 70 may be required to attend a tutoring session and may not participate in extra-

curricular activities. If a student has a grade lower than 70 at the end of a six-week reporting period, a notice will be sent to the parents stating the need for a parent-teacher conference.

The implementation plan was discussed and approved by the trustees.

The plan gives details into the district's plan for grades K-12 instruction in essential

Football season is a favorite at the Carter household... We enjoy all levels of the competition, from pee wee through high school, college, and eventhe professionals.

When football begins, we know it won't be long until fall gets here and that's also one of our favorite seasons.

I have never been sure if young- youngsters in the third, fourth, fifth, and sixth grades were old enough to play football, but after watching two McLean groups play Saturday evening, many of my doubts slipped away.

I can't remember being more entertained by a group of young men. Even though I love football, I wasn't sure I'd be able to sit through two games back-to-back, but time seemed to fly.

They lost, but they were quite proud of the accomplishments they'd made.

They fought long and hard, and didn't give up.

When they left the field, you knew they felt good about themselves, and that feeling rubbed off, on not only the coaches and myself, but on their parents and friends as well.

I know many of these youngsters will go to high school games to pick up a few "secrets of the trade". I'm sure they'll watch some of the college and pro games on television and analyze some of the plays and moves the pros and semi-pros make.

As I walked off the field Saturday evening, I wasn't sure that the older athletes might not benefit and learn something more valuable if they spent a Saturday afternoon watching pee wee football.

A special note of thanks to James Smith for his help Tuesday afternoon. James stops by every once in a while and does odd jobs for us and he helps tremendously!

Thanks again, James!!!!!!!

Happy Birthday, Konye!

If I'd realized it was so close to your birthday, I might have been a little more careful about the picture we ran of you-know-who in last week's paper.

Whittler's Bench

A bunch of us boys got to reminiscing about things gone by and decided we might be able to remember some things these younger generations

might not. For instance, we remember when policemen were the "good guys", and when hoodlums were treated like hoodlums; when courts were for justice for law-abiding citizens instead of a way out of punishment for law-breakers; when parents backed teachers and school administrators even against their own youngsters; when the primary activity to consider on the

weekend was the attendance of Sunday school and church and when young people considered it a duty and privilege to vote. We also remember when "hi-

gh" was the maximum temperature for the day; when "coke" was what you finally got up enough nerve to ask a girl to go for; when "speed" was what a football coach hoped his team had if they weren't big; when "grass" was what ranchers hoped they had some of when they started into winter; when "joint" was a good place to get in trouble; when "fix" was what you hoped the service station attendant would do to your flat; when "fuzz" was what you found on a teenage boys chin; when "pig" was what you carried the slop out to; and when home was a place where you found food, fellowship, fun, and mother and daddy instead of it being a place to change clothes on our way to somewhere else.

Of course, all this may seem pointless except that it gives us

the opportunity to say that since we have lived long enough to see these changes, we hope we will be able to live enough longer to see all these things revert to their original purpose and meaning...

It was rather small scale, we'll admit, but McLean had its first "forest fire" in history early this week. A stately cedar tree in the yard of Mr. and Mrs. O. G. Stokely burned early Monday morning, after trying to catch fire all through the preceding night.

Boys hold the numerical edge over girls at McLean High School, but only by one. Enrollment figures released this week by principals Bob Green of the high school and Carl Dwyer of grade school show a grand total of 465 students are attending classes in McLean. A well balanced team of McLean Tigers completely outclassed, outplayed, and out scored the Shamrock Irish last Friday night. The final score in the one-sided battle played on the Shamrock field was McLean 45-Shamrock 6. The Tigers were never forced to punt in the contest, as they ground out 408 yards to 57 for the Irish.

At the Electric Theater this week the Mason Stock Company has been playing to large and well-pleased audiences in a repertoire of splendid plays. If you knew

what SPS is doing to keep your cost of electricity as low as possible

...You'd be impressed.

For example, the way we build power plants

SPS builds its coal-fired power plants for a lot less than most other utility companies. How? With careful management, good workers, and by using our own engineers to design and oversee construction. And you get the benefit.

PUBLIC NOTICE

BRIEF EXPLANATORY STATEMENTS OF PROPOSED

CONSTITUTIONAL AMENDMENTS

GENERAL ELECTION

NOVEMBER 6, 1984

PROPOSITION NO. 1 ON THE BALLOT

House Joint Resolution 29 proposes a constitutional amendment that provides to state-chartered banks the same rights and privileges that are or may be granted to national banks of the United States domiciled in this state. For example, if national banks become authorized to maintain branch offices, this amendment would extend the same privilege to state banks.

PROPOSITION NO. 2 ON THE BALLOT

House Joint Resolution 19 proposes a constitutional amendment that restructures the Permanent University Fund to provide: (1) for the expansion of the institutions eligible to participate in the bonding capacity of the fund to include the components of The University of Texas and Texas A&M University systems that have been added to those two systems of higher education since the Permanent University Fund was last restructured by constitutional amendment; (2) for the expansion of the purposes for which bond proceeds can be expended from new construction to include major repair and rehabilitation projects and the acquisition of major capital equipment (e.g., computers and laboratory equipment) and library books and materials; (3) for an increase in the bonding capacity from 20% (¾ for The University of Texas System and ¼ for the Texas A&M University System) to 30% (20% for The University of Texas System and 10% for Texas A&M University System) of the value of the assets (exclusive of real estate) in the Permanent University Fund in order to provide sufficient bond proceeds to care for the addition of 10 new institutions to those authorized to participate in the Permanent University Fund bonding program and to care for the expanded purposes for which the bond proceeds can be spent; and (4) for the dedication of the dividends, interest, and other income from the Permanent University Fund remaining after payment of principal and interest due on bonds and notes issued, to the provision of support and maintenance (over and above normal legislative appropriations) for Texas A&M University in Brazos County, Prairie View A&M University, and The University of Texas at Austin.

education which are not included in The University of Texas or Texas A&M University Systems and, therefore, not eligible to participate in the Permanent University Fund bonding program. The amount of this appropriation could be adjusted every five years by a ½ vote of the Legislature, but could not be adjusted in such a way as to affect outstanding bonding indebtedness. Each institution of higher education (i.e., those institutions of higher education outside The University of Texas and Texas A&M University Systems) would be authorized to expend directly its share (such share to be determined pursuant to an equitable formula) of the \$100 million appropriation for the purposes of acquiring land, constructing and equipping buildings or other permanent improvements, major repair and rehabilitation of other permanent buildings or improvements, and acquisition of major capital equipment (e.g., computers and laboratory equipment) and library books and materials. Additionally, each institution would be authorized to issue bonds backed by a pledge of up to 50% of its share of the \$100 million annual appropriation for the purpose of land acquisition, new construction, and major repair and rehabilitation projects.

Except in the case of fire or natural disaster and in other extraordinary cases, verified by a two-thirds vote of each house of the legislature, all institutions of higher education would be precluded from receiving appropriations of general revenue funds for the purposes of land acquisition, new construction, and major repair and rehabilitation projects.

PROPOSITION NO. 3 ON THE BALLOT

House Joint Resolution 65 proposes a constitutional amendment which authorizes the legislature to provide for the payment of assistance to the surviving dependent parents, brothers, and sisters of officers, employees and agents of the state or its political subdivisions, including members of organized volunteer fire departments and members of organized police reserve or auxiliary units authorized to make arrests, who die in the course of performing hazardous official duties. Payments to surviving spouses and dependent children of agencies and institutions of higher

such officers, employees, and agents are already authorized by the Constitution.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing the legislature to provide for payment of assistance to the surviving dependent parents, brothers, and sisters of certain public servants killed while on duty."

PROPOSITION NO. 4 ON THE BALLOT

Senate Joint Resolution 20 proposes a constitutional amendment which abolishes the office of county treasurer in Bexar and Collin counties if a majority of the voters in each of those counties vote in favor of abolishing the office of county treasurer in a local election to be held on the issue. All the powers, duties, and functions of the office of county treasurer in each of these counties would be transferred to the county clerk.

The proposed constitutional amendment will appear on the ballot as follows: "The constitutional amendment to abolish the office of county treasurer in Bexar and Collin counties."

PROPOSITION NO. 5 ON THE BALLOT

Senate Joint Resolution 22 proposes a constitutional amendment which provides a new method of filling a vacancy in the office of Lieutenant Governor. The amendment requires the President pro tempore of the Senate to call together the committee of the whole Senate within 30 days after a vacancy occurs in the office of Lieutenant Governor. The committee would be required to elect one of its members to perform the duties of the Lieutenant Governor until the next general election. This individual would continue his duties as Senator at the same time that he performs the Lieutenant Governor's duties. If the Senator who is elected ceases to be a Senator before the next general election, another Senator must be elected according to the above procedure to perform the Lieutenant Governor's duties. The President pro tempore would be required to perform the Lieutenant Governor's duties pending the election of one of its members by the committee of the whole Senate.

The proposed amendment will appear on the ballot as follows: "The constitutional amendment authorizing the state senate to fill a vacancy in the office of lieutenant governor."

PROPOSITION NO. 6 ON THE BALLOT

House Joint Resolution 73 proposes a constitutional amendment that permits the use of public funds and credit for payment of premiums on non-assessable life, health, or accident insurance policies and annuity contracts issued by a mutual insurance company authorized to do business in this state. The constitutional prohibition against a grant of public money to an individual, association, or corporation or against becoming a stockholder in a corporation, association, or company has limited life and health group policies of political subdivisions to non-mutual insurance companies. The amendment would permit mutual insurance companies to bid for those policies.

The proposed constitutional amendment will appear on the ballot as follows: The constitutional amendment to permit use of public funds and credit for payment of premiums on certain insurance contracts of mutual insurance companies authorized to do business in Texas."

PROPOSITION NO. 7 ON THE BALLOT

House Joint Resolution 4 proposes a constitutional amendment to change the membership of the State Commission on Judicial Conduct to include one Judge of a Municipal Court and one Judge of a County Court at Law, who shall be selected at large and appointed by the Supreme Court with the advice and consent of the Senate.

The amendment also provides additional grounds for removal from office of judges or justices of Texas courts, and provides additional disciplinary actions that could be taken in lieu of removal or censure. The amendment would extend the Commission's disciplinary authority to masters, magistrates, and retired or former judges who hear cases by designation. The amendment creates a tribunal to review recommendations of the State Commission on Judicial Conduct for removal or retirement of a judge or justice. The review tribunal would be composed of seven (7) Justices or Judges of the Courts of Appeals selected by lot by the Chief Justice of the Supreme Court. The amendment also provides for appeal of the review tribunal's decision to the Supreme Court of Texas and grants an accused judge the right to discovery of evidence.

The proposition will appear on the ballot as follows: The constitutional amendment relating to the membership of the State Commission on Judicial Conduct and the authority and procedure to discipline active judges, certain retired and former judges, and certain masters and magistrates of the courts."

PROPOSITION NO. 8 ON THE BALLOT

House Joint Resolution 22 proposes a constitutional amendment which increases the per diem of members of the Legislature. The amount of per diem allowed during a calendar year would be equal to the maximum amount set in federal income tax statutes as of January 1 of that same year as a deduction for ordinary and necessary business expenses incurred by a state legislator. Current per diem is \$30; the maximum deduction is now \$75.

The proposed constitutional amendment will appear on the ballot as follows: "The constitutional amendment to provide a per diem for members of the legislature equal to the maximum daily amount allowed by federal law as a deduction for ordinary and necessary business expenses incurred by a state legislator."

Estos son los informes explicativos sobre las enmiendas propuestas a la constitución que aparecerán en la boleta el día 6 de noviembre de 1984. Si usted no ha recibido una copia de los informes en español, podrá obtener una gratis por llamar al 1/800/258/9808 o por escribir al Secretario de Estado, P.O. Box 12887, Austin, Texas 78711.
