New Plymouth to start Business Going Again" BY WALTER P. CHRYSLER.

It takes Values like this

'We are all anxious for the return of better times. But I for one do not believe that better times will be brought back ust by talking . . . or by merely waiting. Someone must start something . . . and with that idea we introduced the Plymouth Six.

"We made it a completely new car. We spent \$9,000,000 on tools, equipment and research. Our raw material commitments amount to \$42,000,000.

"We did all this because we were convinced that there are many people who can buy new cars now : : if offered an outstanding value. So look at the new Plymouth before you buy."

LYMOUTH engineers knew that you wanted a smooth surge of power ... so they built a 70-horsepower Six with Floating Power! They knew that Americans hate to be squeezed in ... and so they designed a full-sked family car!

They made it safer than other lowpriced cars . . . by giving you hydraulic four-wheel brakes, a safety-steel body, a safety-glass windshield!

They achieved new economy of gas, oil, tires and upkeep.

NEW LOW PRICES: Business Coupe \$495, Run Sess Coupe \$543, 4-Door Sedan \$575, Couver Coupe \$193; all prices F.O. B. factory. Convenients: Optional — Automatic Clutch \$8; Duplate Safuty C Windows — Coupe \$10, Sedan \$16, 30.
