TEXAS PRESS ASSOCIATION

State Board of Insurance is disturbed over the "growing tendency" of some insurance companies to cancel out or refuse to renew auto coverage on certain classes of drivers.

At its mid-week (June 15) rate hearing, the board debated whether it should ask for new legislation or put into effect new administrative regulations to deal with the situation.

Board Chairman Wm. Hunter McLean said more and more drivers are being forced into higher-cost "assigned risk plan" coverage because of "unwillingness of companies to voluntarily issue insurance to young drivers, older drivers and drivers with poor driving records."

Another insurance rate boost is anticipated due to increasing accidents, injuries and traffic deaths, and higher repair and hospital costs. Rates were boosted 13.4 per cent in 1965.

McLean placed these among items for consideration at the mid-week meeting:

Revival of a "penalty system" based on number of accidents and serious traffic violations in figuring rates. A version of the system was abandoned four years ago after a brief trial and strong public opposition.

Alteration of the assigned risk plan to force all companies to take a proportionate share of "sub-standard" risk coverage.

Action to curb mass cancellation due to class, age, territory or agency and individual cancellations of policies of those who have no record of accidents or moving traffic violations.

Request for more uniform traffic regulations and enforcement procedures from county to county.

Modifications in methods of classifying drivers.

The board wants to find a way to "avoid further 'drying up' of the insurance market," emphasized McLean.

Companies writing auto insurance in Texas lost \$13,000,000 last year on the coverage. McLean calculated earned premiums at \$417,200,000, net premiums at \$388,000,000, losses at \$233,200,000, loss settlement, adjustment and litigation expenses at \$42,600,000 and company "expenses" at \$125,000,000.

He termed "an all-out, effective traffic accident prevention program" the state's "single greatest need."

McLean said he would urge the insurance industry to take the lead in "bringing safety to our streets and highways."

**NEW TAXES**—A state tax rate boost next year is inevitable, according to House Speaker Ben Barnes.

He predicted the 60th Legislature will "definitely face tax legislation."

Barnes declared that increasing cost of education alone will require additional monies raised by taxes. "Forty-eight per cent of every tax dollar paid to the state goes to education, he noted.

In a brief preview of his own ideas for legislative action, Barnes said he will ask an increase in juvenile parole officers to help curb teenage crime. He noted a study committee is exploring possible need of legislation dealing with obscene and pornographic publications.

**STATE PAY BOOST FAVORED**—Three state officials with most influence over the Legislature are united in pledging high priority backing for a "substantial" state employees' pay boost in 1967.

Lt. Gov. Preston Smith and House Speaker Barnes made strong public commitments to that effect last week. Gov. John Connally earlier had stated that a salary boost for the 44,000 state workers will be "one of (his) strongest recommendations to the next Legislature."

Texas Public Employees Association has agreed generally on a revision plan which would cost about \$70,000,000 overall for the next biennium — \$21,000,000 from general revenue. This would mean something like eight per cent more for lower bracket employees up to 25 per cent for higher echelons.

School teachers are pushing hard for a "national average" pay level, but Connally and Barnes indicate they think the state employees are in greater need.

**AG RULES**—Corporations providing cable service are public utilities and have a right to place their cables along state highway right-of-way, Atty. Gen. Waggoner Carr said in an unofficial opinion.

In other opinions, Carr concluded that: Investment of state employee retirement funds in corporate securities is subject to discretion of Employees Retirement System Board of Trustees and not that of University Board of Regents. Boards have right to exercise independent judgment in investing their respective trust funds.

State can pay the expenses of replacing an employee's eye-glasses destroyed in an on-the-job accident.

Control of building and grounds purchased with Texas Employees Retirement System Trust funds is within jurisdiction of the Board of Trustees of Texas Retirement System.

Grayson County can accept a deed to the bridge over Red River nine miles east of Denison and spend the tax money to operate and maintain the span.

**RESTORATION TOUR SET**—Members of a legislative survey committee will tour historic forts and missions June 23-25 with a view to restoring them.

Itinerary will include Fort Parker at Mexia, Fort Richardson at Jacksboro, Fort Griffin at Albany, Fort Chadbourne at Bronte, Fort Concho at San Angelo, Fort McKavett at Menard, Presidio San Saba, Mission San Juan Capistrano (already restored), and La Bahia Mission, Goliad (now being restored).

A report on its views on state-supported restoration will be made to the 1967 Legislature.

**SHORT SNORTS**

Sabine River Basin preliminary study, first detailed basin plan released under the new statewide water planning program, proposes three additional reservoirs at estimated cost of \$49,600,000. Hearings on it will be conducted at Longview on June 20 and Orange on June 22.

Lt. Gov. Smith has appointed Sen. George Parkhouse of Dallas to the interim committee to study the nursing profession to fill the vacancy caused by resignation of Sen. Martin Dies Jr. of Lufkin.

Texas Education Agency has recommended that Eagle Pass Independent School District be given additional time to correct accreditation deficiencies.

U. S. Public Health Service has approved initial grant applications for medical facilities at Fort Worth, Fort Arthur and Amarillo. Unemployment in Texas hit lowest point in decade—121,000—at mid-April.

## Soil And Water Conservation Projects Uudeway In Area

By LYNN McDANIEL

The work on McClellan Creek Watershed is approximately 60 per cent complete, according to Phil Grazier, head of the watershed planning party.

The survey party located at McLean expects to complete collecting engineering information by July 1 of this year.

Don Clark, geologist from Fort Worth, has been working with the core drilling party in checking the soil to see what type of construction material is available at the sites. They also checked the depth to the redbed so they could determine how deep they would have to core to reach redbed which will enable the structure to hold water. Samples of soil have been sent to the Materials Testing Section in Fort Worth for shear, compaction and density tests.

This information will be used in designing the flood control structures.

Red Easton has just completed sowing about 50 acres of Indian grass and constructing two farm ponds. Red is the manager of the Taylor Ranch.

Truitt Johnson has been sowing Emerio weeping lovegrass on his ranch just north of McLean. He plans to start construction of a cross fence soon.

**CORE DRILLING** unit of the Watershed Work Plan Staff from San Marcos working on proposed damsite on Peterson Creek north of McLean. The proposed damsite is on the ranch of Mrs. Loyce Noel.

By VAN MILLS

Truitt Johnson and Cecil Seaney have seeded grass in the McLean area.

Two diversion lines were staked for Mrs. Vera Dial Dickey on her ranch between Lefors and McLean.

G. M. Walls is planting about 26 acres of weeping lovegrass on his irrigated farm northeast of Pampa.

Harvey Hudgins sprayed about 700 acres of sagebrush and shinnery oak on his ranch north of McLean.

A waterway was staked for Tony Smitherman and Paul Kennedy on their irrigated farm south of McLean. This waterway will handle about 600 acres of outside drainage that comes through the farm. Tony plans to drill the waterway to switchgrass.

**McClellan Creek Watershed Operations Under Way**

Don Clarke, geologist, and the core drilling unit of the watershed work plan staff from San Marcos have started core drilling operations on proposed dam sites in the McClellan Creek Watershed.

The purpose of these corings is to take soil samples where the fill part of the dam is to be located. These samples will tell what kind of soil the dam will be constructed on, the amount of core trenching needed, and whether or not the dam will hold water. It is very important that these dams hold water where they are to be used for purposes such as municipal water, irrigation and recreation. The findings from these corings may require some dam sites to be re-located.

**Harvey Hudgins, McLean rancher, stands in an excellent stand of grass. He says this pasture was nothing but brush before it was sprayed for shinnery and sagebrush in 1964 and 1965. He says this is the most grass that he has ever seen on this pasture. This picture was taken May 18, 1966.**

## Summer Reading Program at Library

"We're as Busy as Bees" is the theme of the summer reading program at Lovett Memorial Library this summer.

All children who have attended school and register for the summer reading program will be given Busy as Bees reading cards to list all books read between June 1 and August 30. Those who read as many as 12 books will receive a reading certificate at the close of the program.

For the pre-school children a story hour will be conducted at 9:30 each Wednesday morning, beginning on June 22. Those attending the story hour session will participate in games and songs as well as listening to stories.

Now is the time to start reading and stay busy with the Busy Bees, Mrs. Lavern Carter, librarian, said.

## Singing Sunday at Pentecostal Church

McLean Pentecostal Holiness Church will be the place for the monthly third Sunday community singing on Sunday, June 19. The singing will start at 2 p.m.

It is hoped that a large crowd of area residents will be present at this meeting.

## McLEAN BAND STUDENTS IN STATE CONTEST

Five McLean bandmen attended the UIL state solo and ensemble contest in Austin on June 5, 6 and 7. Sponsors were Mrs. Miro Pakan and Herb Germer.

The bandmen and sponsors left Sunday, June 5, and returned Wednesday, June 8. Soloists were scheduled to perform June 6 and ensembles performed June 7.

A clarinet trio composed of Jay Ben McMillen, son of Mr. and Mrs. R. B. McMillen of Alanreed; Margie Pakan, daughter of Mr. and Mrs. Miro Pakan, and Gail Fry, daughter of Mr. and Mrs. C. E. Fry, earned a second division rating by their performance of Air, Minuet and Sarabande, by Mattheson. A second division by UIL standards is termed "Excellent." Herb Germer, director, said, "This is the first time an ensemble from McLean has placed this high, and we are all proud of the fine work done by these bandmen."

For the first time in the history of the McLean band, a "Superior" rating of first was awarded to a student from McLean. Jay Ben McMillen, by his performance of Concertino by Von Weber, earned this rating. Jay plays the B flat clarinet.

Ronnie McElroy, by his performance of Sonata in F Major by Corelli, earned an "Excellent" rating of second. Ronnie is the son of Mr. and Mrs. Wayne McElroy. He performed his solo on the French horn.

Jim Stevens, by his performance of Concert Etude by Goldicke, earned a rating of "Good" or third division. Jim is the son of Mr. and Mrs. Jim Stevens. He performed his solo on the B flat cornet.

Jay McMillen and Ronnie McElroy were both accompanied on the piano by Keith Watson, son of Mr. and Mrs. Ernest Watson and student of Mrs. Willie Boyett.

"All of these students worked hard in preparing for this contest and I speak for the school and the community when I say congratulations to these students for the fine way in which they have represented McLean throughout the year and especially for this fine representation at the state contest," the director concluded.

### 20 Years Ago

Two members of the McLean fire department have retired from active duty under the state retirement plan.

Both men are charter members of the department, with 24 years of active service. Mr. J. A. Sparks has been chief the entire time. Mr. T. N. Holloway has been secretary-treasurer for the past 16 years. Mr. Sparks has been city marshal for 29 years, a position he now holds. Mr. Holloway has been city secretary and has held many civic positions here.

Mr. Sparks came to McLean in 1905. He worked as a cementer and decorator, later accepting a position in a hardware store, and now devoting his entire time to the marshal's and nightwatchman's duties.

Mr. Holloway came to McLean in 1907, teaching in the schools until 1918, when he entered the mercantile business. He became an insurance salesman with his own business in 1923, which business he continues to operate.

## The Things We Say

By RUBY SHANNON

The junior high school which my nephew attends in Las Vegas, Nev., has carpeted floors. Ohio State University has found through research that carpeting improves classroom environment; so one of these days reference to being "called on the carpet" will no doubt lose its figurative meaning. To most people, however, carpeted floors are still a luxury.

The office of Sequoyah Carpet Mills, Anadarko, Okla., is so plush that even the walls are carpeted; but when Jay Gould and other railroad magnates were making their fortunes, carpeting was so expensive that only the very rich could afford a carpeted office.

## TAX SAM SEZ:

Selling a home has become a common thing. Many taxpayers own several homes during their life. You must report the sale of your home on your income tax return and pay taxes on any profit that you may have on the sale. When you buy a home you should keep a record of the cost. When you make improvements—including adding shrubs and trees or a new room—this adds to your cost

(or basis). It pays to keep a permanent record to help you solve your tax problems when you sell.

## Chester Golightly Weds Miss Olsen

Miss Jacqueline Isabel Olsen and Dr. Chester G. Golightly recited double ring wedding vows at 11:30 a.m. Saturday in St. Paul's Episcopal Church in Lubbock, with Rev. Ralph E. Macy, Episcopal chaplain at Texas Tech, officiating.

The bride is the daughter of Dr. and Mrs. Hans C. Olsen of Charleston, Ill. The bridegroom is the son of Mrs. Frank Golightly and the late Mr. Golightly of McLean.

Escorted by her father, the bride wore a costume suit of champagne Italian silk of embroidered Alencon lace. The sandalwood lace blouse featured a slightly raised waistline and bateau neckline. The skirt was A-line. The jacket featured below-the-elbow sleeves and a wedding ring circlet collar. The bride wore matching accessories and carried a bouquet of mystery gardenias and gypsophyllia.

Miss Juliana Olsen of Dearborn, Mich., was maid of honor for her aunt. Bridesmaids were Miss Nancy Olsen and Miss Karen Olsen of Dearborn. The attendants' dresses were of sea green silk organza. They were designed with bateau necklines and matinee sleeves. Applied pink flowers enhanced the bodices, and bows marked the empire waistlines. Matching pink rose headpieces held circular illusion veils. Their nosegays were of pink roses and gypsophyllia.

Marvin Neely Jr. of Milwaukee, Wis., was best man. Guests were seated by Dr. Dan Enchil and Dr. Barry Williams. Dr. Kent Hill was organist.

The bride is a graduate of Eastern Illinois University and Indiana University. She is assistant dean of women at Texas Tech.

The bridegroom is a graduate of McLean High School and was valedictorian of his class. He is also a graduate of Texas Tech and Southwestern Medical School.

After a wedding trip to Mexico City, the couple will reside at 3105 46th St., Lubbock.

Out-of-town guests attending the wedding were Mr. and Mrs. Jim Olsen of Nebraska, Willie Golightly of Mt. Home, Idaho, Mrs. Marjorie Lee and daughter, Sherrell, of Pampa, Mrs. Carol Havenhill of Irving, Mrs. Frank Golightly, Buel Watt and Miss Dora Watt of McLean, Mr. and Mrs. James Cook and daughter of Beaumont.

Mrs. W. E. Kennedy's two granddaughters, Cynthia and Carol Kennedy, and their friend, Christine Blaylock, all of Amarillo, spent last week with her.

Linda Tindall and Larry Williams, students at Texas Tech in Lubbock, visited their parents, Mr. and Mrs. O. Q. Tindall and Mr. and Mrs. Howard Williams, here last weekend.

MRS. RICHARD T. DARWELL  
Residents' Niece Weds on June 1

Miss Barbara Kay Patterson of Canyon and former McLean girl, was wed on June 1 to Airman Richard T. Darwell of Staten Island, N. Y. Airman Darwell is an instructor at Amarillo Air Force Base at the present and expects to be transferred in the near future to Chanute Air Force Base at Rantoul, Ill., where Barbara will accompany her husband.

Mrs. Darwell was a 1965-66 senior at Canyon High School. She is the daughter of Mr. and Mrs. Carlton Patterson of 510 4th Ave. in Canyon and is the niece of Mr. and Mrs. Melvin Baker of McLean. Mrs. Baker is a sister of Mrs. Carlton Patterson. Barbara has two sisters, Mrs. Nancy Skipper of Canyon and Margaret Louise, who will be a freshman in Canyon High School next year.

## QUESTIONS & A

Q—I am a railroad employee who is 67 years old and I plan to retire in 1967. I am also a veteran of World War I. My railroad retirement benefits will be about \$300 a month and the benefits for my wife will be about \$75 for a total monthly income of \$375. This will be my only source of income. Am I correct in assuming that this \$375 will not be considered as income when applying for a WW I veteran's pension?

A—All income received during the year is counted by the VA when determining a veteran's eligibility for a nonservice-connected pension. This includes wages, salaries, dividends, interest, profits, annuities, pensions, Social Security payments, etc.

Q—If I convert my term GI insurance policy to the Modified Life Plan, will my premium remain the same throughout the duration of the contract?

A—Yes, the premium on the Modified Life, NSLI, will remain the same throughout the duration of the contract.

Q—I lost my son in the service about five months ago. As a dependent parent receiving VA compensation, would I be eligible for the GI home loan or does the VA require that the veteran be alive and eligible?

A—GI loans are available only to veterans or to unremarried widows of men who served in either World War II or the Korean conflict and who died in service or after separation as a result of a service-connected disability. Parents are not eligible.

Hi Neighbor! What you got there?

How are you Joe? That's my new air conditioner... cools the entire house.

How does it work?

It works great! We've never had it so comfortable... sure can notice the difference when you go in the house. We sleep better at night, too.

Doesn't take up much space does it?

That's one of the things I like about it... not any bigger than a living room chair, see you can sit on it, just about the right height.

Where's the water connection?

That's another thing I like... doesn't use any water, just low cost, dependable electricity and free air. See, just one connection like your refrigerator.

I'll have to admit you're right there. We've had our electric refrigerator for over 18 years and she's still putting right along.

Well, you've got the same dependability in an electric air conditioning unit. There's just no question about it working right.

Be cool with an electric air conditioner. For more information, call your Southwestern Public Service Company manager.

#### THE PURITY OF MILK

Who ever heard of bootleg milk? This was a common term in public health circles some 35 or 40 years ago, when I was a young public health official in my native state of Wisconsin, which labels itself on auto license plates as America's Dairyland. As such it was a battle-ground for the early struggles through which the purity and safety of milk, and the good taste which now identifies it as a favorite food, were achieved.

**Real Battles**  
These were real battles, too. When the State officials arrived at farms to perform the required tuberculin tests on cattle, they were often met by hostility. Professional agitators stirred up opposition to tuberculin testing in rural areas, and to pasteurization in the cities.

Opposition to measures for improving the quality of milk, and its safety, were centered also on the consumer. The same agitators who endeavored to mislead the farmer, tried to persuade the users of dairy products that pasteurization impaired the nutritional quality of milk.

But dairy leaders, supported by public officials, insisted upon

clean farms and healthy cattle. Many dairies provided their own inspections to insure such conditions. Pasteurization was often instituted by dairy processors without legislative requirement.

There was never any validity to the argument that pasteurization impaired the nutritional value of milk. The only constituent affected is vitamin C, which is not abundant even in raw milk. On the other hand, the only epidemics traced to milk for many years were due to unpasteurized milk, or inadequately pasteurized milk.

**Milk Depots**  
During the hectic early days, when a city began requiring pasteurization of milk sold within its borders, milk depots selling the unpasteurized product sprang up beyond the city limits, and were patronized by considerable numbers of skeptical citizens — for a while. And that's the origin of the term "bootleg milk", since much of it happened during the prohibition era following World War I.

Today, we are blessed with sweet pasteurized milk from clean, healthy, tuberculin tested cattle, bottled and cooled for our good and safe nutrition.

A safe driving tip would be to always drive in such a manner that your driving license will expire before you do.

There is said to be a new dog food on the market that carries the slogan: "Tastes just like the milkman's ankle".

Love is said to be the only fire for which there is no insurance policy.

The way of a transgressor is not only hard but it is always overcrowded.

The trouble with gossip is that the more interesting it is the less apt it is to be true.

If we can't believe anything we hear and only half of what we see, isn't it a lot of time wasted just listening and looking.

Nothing is so embarrassing as to have someone repeat word for word something you never should have said.

"Just for today I will try to live through this day only, and not tackle my whole life problem at once. I can do things for one day that would frighten me if I knew that it had to be kept up for a lifetime. Just for today, I will exercise my soul in three ways: do a good turn for someone, not to be found out, and I will do at least two things I do not want to do just for exercise, and if my feelings are hurt, I will not let anyone know it, just for today."

What are you doing for pastime this summer? Get busy with the Busy Bees reading club at the library.

SARAH COLEMAN

### Sarah Coleman Is Presented in Recital

Amid a stage of roses and lilies, thanks to Mrs. Sitter, Miss Cook and Mrs. George Colebank, Sarah Coleman was presented in senior piano recital Sunday, June 12, at 2 p.m. in Mrs. Willie Boyett's studio, for a most appreciative audience of relations, friends and music lovers in general.

Out of town guests were Mr. and Mrs. Frank Coleman, Mrs. J. D. Coleman and Mrs. B. M. Sims of Wellington; Mrs. Don Smith of Amarillo and Mrs. George Zimmerman of Kalamazoo, Mich.

Miss Coleman played a program of early classics, late classics, romantic and modern selections, including compositions from Bach, Mozart, Schubert, Gurliet, Nevin, Torjussen and Grainger in solo and ensemble.

She was assisted in the recital by Keith and Judy Watson, Nelson Dwyer, Debra Denise McClellan, Cheri and Valta Tarbet. Each one played a solo and ensemble.

Awards and ratings were as follows:

Year pins were presented to each student who appeared on the program, ranging from four to 10 years of piano study. Sarah was "Student of the Year" with 800 plus points; Nelson, Judy, Keith and Valta in the 600 plus bracket and Debra Denise and Cheri in the 500 plus bracket.

International Guild certificate and pins were presented to each, plaques and medals as follows: Keith, Judy, Nelson, Debra Denise and Cheri for five complete sonatas; Valta for 15 Bach numbers; Sarah for five complete sonatas; Paderewski medal to Sarah, 10-year national winner, high school diploma and \$100 scholarship. Keith read a letter from Dr. Allison, Guild president, explaining the values of each award.

Keith was given recognition for excellent work as accompanist for many students.

The benediction was given by Rev. H. F. Dunn.

Mrs. Boyett said: "Congratulations to Mr and Mrs. J. O. Coleman from all music lovers for having the 'know how' for keeping a daughter interested in 10 continuous years of piano study and for this occasion a rejoicing with her over the many rewards at the end of the way."

There is a correction in the elementary program report. Valta Tarbet was "Student of the Year." Vickie Jones had the grades but did not meet the requirements on attendance.

### Important to Prepare For Emergency

Recent severe spring storms, floods and tornadoes remind Texans that being prepared for any emergency is important, says Miss Sheryllyn Bailey, extension rural civil defense specialist at Texas A and M University.

Preparedness can save many lives, especially if some family members are away from home at the time of the emergency. Discuss emergency planning as a family, suggests Miss Bailey. Identify all possible emergencies encountered by the family, and prepare for them.

Next, discuss each individual emergency and its effects in terms of where you live and where family members go to school or to work. Consider all possible situations, such as a tornado while at work, a severe windstorm while at school, or a flood while traveling.

After discussing all possible emergencies and situations, compare them in terms of necessary preparedness. Make a written list of the preparedness steps necessary to meet all emergency situations and assign steps to family members.

Post the emergency preparedness steps agreed upon in a prominent place to remind family members of their responsibilities. Also determine how and who will maintain your family's preparedness, such as rotating food supplies and keeping emergency cooking equipment in good condition.

Follow these few emergency preparedness steps and you'll not only protect your family during an emergency, but also reduce anxiety due to a lack of preparedness, concludes the specialist.

### 3 New Highway Projects in Area To Begin July 11

The Texas Highway Department has announced three new construction projects in Gray and Roberts Counties. Location of the projects is: State Highway 152 from Laketon to the Wheeler County line, FM 748 from Laketon to Miami and FM 2477 from 4.5 miles southeast of State Highway 70 to Lake McClellan.

Gilvin-Terrill, Inc., of Amarillo will be the contractor for the Texas Highway Department and they plan to begin work on July 11.

The work will consist of rebuilding existing highways and traffic will be routed through the projects. The Texas Highway Department requests motorists to obey all traffic signals while passing through the area as it will be heavily traveled by large construction equipment. Speed zones will be altered as the construction progresses to avoid unnecessary inconvenience to motorists.

### Community Meet at Alanreed Friday

Alanreed will hold their monthly community meeting on Friday, June 17, at 8 p.m. It will be held at the school cafeteria in Alanreed.

Recent visitors in the home of Mr. and Mrs. Jim Stevens were their daughter and her husband, Mr. and Mrs. Joe Ed Sherrod from Lubbock.

Mr. and Mrs. J. W. Meacham have returned from Goldsmith, where Mrs. Meacham spent the past two weeks with Mr. and Mrs. Doyal Billingsley and Melissa. While there they visited in the home of Mr. and Mrs. J. B. Roach, and in Midland with Mr. and Mrs. Marshall Frazier and David.

Mr. and Mrs. Luther Petty and Mrs. Essie Glenn attended the 30th homecoming at Alanreed last Sunday.

Misses Pat Vineyard and Diane Gibson visited with the D. D. Pattons of Allen this past week. They also visited the R. P. Pattons of Calera, Okla., and the M. E. Hills of Dallas.

Mr. and Mrs. Charles Williams of Satanta, Kan., spent last week-end with their parents, the Fred Sligars and the Howard Williamses.

The Matterhorn, the highest peak in Switzerland, is an obelisk of rock 14,706 feet high, rising 9,000 feet above Jermatt, a famous ski resort.

### Quarter Horse Show To Be Held in Pampa June 25

An official American Quarter Horse Show will be held in Pampa Saturday, June 25, beginning at 9 a.m. in the main arena of the Top o' Texas Rodeo Grounds at Recreation Park.

The one-day show will feature 13 halter classes, eight performance classes, five open youth classes and three 4-H Club classes.

Judging the show will be Cotton Marriott of Dallas, one of the nation's most outstanding quarter horse judges.

Approximately 200 horses are expected in Pampa for the one-day show which will be free to the public.

Elmer Fisher and Ed Vincent, co-chairmen of the quarter horse show, have extended invitations to all breeders of quarter horses in the southwestern area to be present, along with the youth and 4-H Club members.

### Wood Family to Hold Reunion Here

There will be a Wood family reunion Sunday, June 19, in McLean. Lunch will be served in the grade school cafeteria. All friends are cordially invited to attend.

Anyone wanting further information may contact Mrs. Bill Moore, Mr. and Mrs. R. T. Wood, Mr. and Mrs. J. I. Martindale or Mr. and Mrs. Ott Davis.

Capt. and Mrs. Rodney Gunn and children of George Air Force Base, Victorville, Calif., have been visiting his mother, Mrs. Odessa Gunn, and his sister and family, Mr. and Mrs. J. H. McCarty and sons, this week.

### CARD OF THANKS

I would like to thank all my friends for their many kindnesses, cards and visits during my illness while I was in the hospital. God bless everyone of you.

### VBS Commencement Held Wednesday At First Baptist Church

Commencement night for the Vacation Bible School at the First Baptist Church was held on Wednesday night at 7:30 p.m. A fine program was put on by the children. They went through their regular exercises that they had at the beginning of every day of the school. Then each department had a part on the program and they sang songs and recited scriptures about what they studied during the Bible School. The meeting was then dismissed with prayer.

One of the highlights of the school for the children was a picnic held Wednesday morning, at the city park.

The school had some very fine workers this year. Rev. Dan Beltz served as the principal, Mrs. Glenn Curry, pianist; Linda Melton, song leader; and Mrs. Dan Beltz was the secretary for the school. The superintendents of the different dept. were: 3 year olds, Mrs. Garland Ramsey; Beginner Dept., Mrs. Jim Goss, Primary Dept., Mrs. Jean Brown; Jr. Dept., Mrs. Henry Lawrence. The superintendents would like to thank each one of their helpers for their fine co-operation.

The Bible School had an enrollment of 152 with an average attendance of 121.

Vesper Services were held each night from 7:00 to 9:00 p. m. for the teen-agers, with Nelson Christie as their superintendent.

### Road Contract Let To Amarillo Firm

A contract for 19.517 miles on State Highway 152, F. M. Roads 748 & 2477 in Gray and Roberts County has been awarded to an Amarillo firm, it was announced in Austin this week by the State Highway Commission.

Gilvin-Terrill, Inc., submitted the low bid of \$381,514.81 on the project. Grading, structures, base and surfacing is expected to take 150 working days, according to Charles W. Smith, district highway engineer at Amarillo.

G. K. Reading, resident engineer at Pampa, will be in active charge of the project while it is under construction.

Mr. and Mrs. James Westfall of Clovis, N. M., were in McLean last week to inspect the damage that their ranch southwest of McLean received during our recent wind storm.

## GRASSHOPPERS

Last week we assisted with the sign-up of some 13,500 acres of rangeland in a grasshopper spray program in the northeastern portion of the county. Glen Hodges was elected chairman of the committee and Charlie Webb was elected treasurer. It is hoped spraying will be in progress by June 20. There are several other isolated pockets of heavy infestation of grasshoppers from the Mc-

Lean vicinity north and west. It is doubtful at the time of this writing that enough acres can be blocked together for approval of the Plant Pest Control division of the USDA. A meeting is being held tonight (Tuesday, June 14) to check the interest. Usually the Plant Pest Control division requires a minimum of 10,000 contiguous acres. They will not approve an irregular shaped area.

A check was made Tuesday of the area from Lefors, south to Alanreed and to McLean. A moderate infestation was noted on the Billy Davis Ranch. Very few hoppers were noted from the Billy Davis Ranch to Alanreed. Leslie Darsey, Raymond Darsey and Harvey Taylor had very few hoppers. Just north of the Triangle feed lot on the Guy Beasley place a very heavy population was observed. John B. Rice runs this place.

## CATTLE FEEDING

We noted the recent "cattle on feed report" with interest. For the first time in several months, the number placed on feed for May was about the same as May the previous year. Each month preceding May had shown a tremendous increase over the corresponding month a year earlier.

The Things We Say

By RUBY SHANNON  
At a retirement dinner for a popular superintendent of schools, the emcee was trying to be funny.  
"Old superintendents never die," he said, "they just lose their principles. And old principals never die, they just lose their faculties."  
There was much laughter, but the part about the faculties could have been taken seriously, and it might not have been very funny.  
The word "faculty" entered the English language near the end of the 15th century, and it meant the capacity to do something. We still speak of a competent, elderly person as "having all his faculties."

When the first colleges and universities were established, the instructors were selected from individuals who were adept and expert in such subjects as theology, law, medicine and the arts. The group became known collectively then as "the faculty."  
Today, any body of men and women who teach any subjects to students of any age are called "the faculty" whether they're fully competent or not.

THE FAMILY LAWYER

INCOME TAX TATTLETALES

Last year, Uncle Sam collected an extra \$13 million in income taxes because somebody tattled for pay.

Most tips about income tax fraud come in anonymously, from people seeking no reward beyond the satisfaction of doing their duty—or getting even with someone they don't like.

But in 1965, a typical year, 4,000 informers filed formal claims for a reward. And the government paid out \$600,000 for their information.

The practice of paying money for tax tips has existed ever since the early days of the republic. In each year's budget Congress sets aside a specific sum for this purpose.

There are those who condemn the whole idea. They argue that tattling is unsportsmanlike, not in keeping with our traditions. Certainly, generations of American readers have despised Tom Sawyer's half brother Sid for tattling on Tom to Aunt Polly.

On the other hand, tax cheaters are not as endearing as Tom Sawyer. And, as one court put it: "It is the duty of every citizen to communicate to his government any information which he has of the commission of an offense against its laws."

The Internal Revenue Service takes no position on fine philosophical grounds. Its job is simply to collect all the money that the government has coming—and informers are a big help. Using them not only puts the IRS on the track of cheaters but also helps to keep many a tempted citizen honest.

How much can an informer collect? Up to 10 per cent of what the government recovers, which can be considerable. However, the exact amount is left largely to the discretion of the IRS.

In one case an informer sued the government, complaining that he wasn't paid as much as his information was worth. But he got nowhere. The court said the IRS is obligated to make an honest evaluation of services rendered, but is not obligated to pay what others may consider a fair sum.

In another way, too, the IRS has the last word. For the informer, having won his reward, must then pay income tax on it.

In fact, there has even been cases in which informers themselves were fined for failing to pay the tax on their reward. No doubt Tom Sawyer would have a phrase for that: Poetic justice.

Answer: VINCENNES, INDIANA. Good eyes mean good memories. Care for your eyes at all times.

Veterans' Benefits Mostly Tax Free

The Veterans Administration says that practically all veterans' benefits are tax-free and need not be reported on income tax returns.

However, interest earned on GI life insurance dividends left on deposit with the VA, is not classed as a benefit but as earned income, and must be reported on tax returns. Proceeds of the GI policy and the dividends themselves are tax-free and need not be reported, according to the VA.

Other VA benefits which are not taxable include education and training allowances, subsistence payments to disabled veterans in vocational rehabilitation training, compensation and pension payments, grants to seriously disabled veterans for "wheelchair" homes and motor vehicles, and all benefits to families of deceased veterans.

Old-fashioned star-spangled savings scheme

There's nothing new about U. S. Savings Bonds. Millions of Americans have built their savings plans around them for years.

And that's the beauty of it. Bonds are a proven way to save—and they carry a guaranteed rate of interest. You'll get back \$4 for every \$3 you invest when your Bonds are held to maturity.

Just the tax angle alone is pretty enticing. You pay no state or local income tax on E Bond interest—and you can defer federal tax until you cash your Bonds. What's more, your Bonds convert easily into cash when you need it.

There's nothing old-fashioned about the way your Bonds go to work for your country. Every penny invested helps to keep America

strong and promote the cause of freedom. Make U. S. Savings Bonds a regular part of your family's savings scheme. It's the old-fashioned, star-spangled way to insure your future.

- Quick facts about Series E Savings Bonds
- ✓ You get back \$4 for every \$3 at maturity

Life With The Rimples

By Les Carroll

**Water Safety Rules  
Are Outlined**

As the outdoor swimming season has begun, the safety experts predict with certainty that more than 6,000 Americans will drown in the coming months.

They will drown in swimming pools, in lakes and streams, at ocean beaches. Some will drown while in for a refreshing swim and others will fall out of boats or off docks and piers.

Many, if not most, of these drownings need not happen.

Today's Health, the family magazine of the American Medical Association, offers some basic safety rules that will help to avoid a tragic water accident for your family:

Learn to swim and to relax in the water.

Never swim alone.

Do not swim when overly tired or when the water is extremely cold.

Do not overestimate your ability and endurance.

Swim at protected pools or beaches under the supervision of a trained lifeguard.

If a boat overturns, stay with it and don't try to swim a long distance to shore.

Never dive into waters of unknown depth.

Try new activities, such as water skiing or scuba diving, only after learning the skills from qualified instructors.

Many families will do most of their swimming this season in private pools, in their own back yards or in those of a friend or neighbor. There also are some special safety precautions for private pools:

Make certain the pool is kept clean and the water chemically purified.

Walk, don't run, about the pool. Horseplay should be forbidden.

Fence the pool and keep the gate locked to keep out small children.

Keep handy rescue equipment, such as long poles and ring buoys.

Keep bottles and glasses away from the concrete or metal pool deck.

The McLean News

Senator Robert F. Kennedy, of New York, was in the news recently when he visited South Africa, at the request of a student group, and branded the nation's policy of apartheid as one of the great evils of the world. Apartheid is the rigid separation of the races. Many observers believed the address to be the most important by a visitor to South Africa.
