42 Lives Estimated To Be Lost on Labor Day Weekend

State Public Safety Director Wilson E. Speir today estimated that Labor Day Weekend traffic in Texas will claim 42 lives. The holiday period extends from 6 p. m. Friday, August 29 through midnight Monday, Sept. 1. During a comparable period last year, Texas traffic killed 51 persons. Traffic will be particularly heavy near recreational areas such as beaches, lakes and campgrounds. Actually, in these situations motorists need to be extra watchful for children playing and other pedestrians. Also, persons towing recreational vehicles and boats should be mindful of extra stopping distances and other problems unique to trailers, Speir said. The DPS director called on motorists to cooperate in law enforcement efforts to hold speeds down during the holiday, noting that excessive speed is still our top accident problem.

He also urged motorists to work with officers to eliminate the serious threat posed by drunk drivers. In an effort to reduce the toll, Speir said extra DPS troopers will be on duty statewide. He said troopers and local officers will be especially watchful for speeding, reckless and drunk drivers. In addition to these efforts the Texas Department of Public Safety will also work with the news media in its "Operation Motorcide" accident awareness program. This program is designed to provide motorists with current information on accident dangers during the holiday period.

Local Sorority To Take Pledges For M. D. Tele-Phon

Members of the Beta Sigma Phi will be responsible for taking the pledges by phone in McLean for the Labor Day Tele-Phon held each year by Jerry Lewis for the Muscular Dystrophy Foundation. They will be making their headquarters in the home of Mrs. Jean Smith. Those wishing to make a pledge for this worthy cause may call 779-2820 on Monday.

Visiting in the home of Arthur Price recently was Mr. and Mrs. Wayne Fortin of El Monte, Calif., and Rev. Martin Price of Bonte, Calif. Also visiting with them during the summer was their two sons, Tommy and Ronny of Calif.

S. W. C. D. Board Meets In Pampa

The Board met at 10 a. m. August 20 at the Gray County Courthouse Annex for their regular monthly meeting. They approved a Great Plains Contract on J. M. Orr. The Board made plans to attend the Panhandle Association of Soil and Water Conservation Districts meeting to be held in Canadian, on August 27th. Curtis Schaffer and Milton Carpenter plan to attend the State Meeting of Soil and Water Conservation Districts in Fort Worth on Sept. 9th. The September election plans for Director of Zone 2 were discussed and will be held in McLean. Letters were sent to Congressmen and Government officials concerning the North Rolling Plains RC&D Project.

Status of easements on the McClellan Creek Watershed were discussed. The meeting adjourned with a tour of the directors to see conservation work in the county as follows:

- Irrigation - Ernie Wilkerson.
- Lovegrass and native grass seeding and seep ponds - Gene Hall Ranch.
- Reviewed McClellan Creek Flood damage - Tony Smitherman Ranch.

New Food Stamps For Old Ones After August 31

Food stamp recipients will be able to exchange old food stamps for new ones after the old stamps expire on August 31, the U. S. Department of Agriculture USDA announced today. Until Aug. 31, food stamp recipients may use their old stamps in authorized retail food stores. After that date, recipients will be able to exchange the old stamps at local food stamp offices designated by state agencies. The exchange will be dollar for dollar, new food stamps for old. The amendment to the Food Stamp Program regulations will be published in the Federal Register of Friday, Aug. 22 and will be effective immediately upon publication.

State Park Use Fees Going Up

The inflationary spiral has finally hit the Texas State park system. Come September 1 use fees will be increased to assist in generating more revenue to offset rising park operation and maintenance costs. Entrance fees will remain unchanged at \$1 per vehicle per day at most parks, with the option of a \$12 annual permit or a \$5 restricted annual permit. Park entrance is free for persons 65 years of age and older through the State Park Lands Passport. "With few exceptions the department's user fees for overnight facilities have not changed in more than 20 years," said Garrison. The fees help finance the operational and maintenance costs of the parks. Park operations officials at the P&WD surveyed comparable private, state and federal facilities and found that present fees charged for Texas state parks are among the nation's lowest. Notices of fee increases will be mailed to those who have reservations in parks for after Sept. 1. A total of 15 user fees is being increased on that date. Local park superintendents will have information on fee increases specific to their parks.

Mr. and Mrs. C. E. Allen and their family had a reunion recently at Possum Kingdom Lake. Everyone got to attend except a grandson, Steve Allen of Lubbock. Those that attended were Mr. and Mrs. Don Allen and Donna of Lubbock Mr. and Mrs. Jack Collie and Rhonda of Amarillo, Mr. and Mrs. Mickey Allen of Huntington Beach, Calif. Mr. and Mrs. Dean Jones and two sons, Heath and Tom of Hurst and Mr. and Mrs. Rick Collie of San Antonio. Everyone reported having a good time.

Rep. Cates Named To Committee

The Chairman of the House Committee on Environmental Affairs recently announced the appointment of State Representative Phil Cates, D-Shamrock, to the Chairmanship of a Special Interim Subcommittee which will study the problems of mining and land reclamation and certain energy-related pollution laws. Hearings, etc., are expected to begin in the near future.

Toni Patton and Wendy, daughter, of Amarillo visited her parents, Mr. and Mrs. Johnnie Mertel following a trip to Austin and Houston. While in Houston she visited her sister and husband, Mr. and Mrs. Gary Phillips.

"Kiss Your Baby" Week Began Aug. 24

Mothers who participate in "Kiss your Baby Week" beginning Sunday, August 24 may be giving their children the kiss of life. One of the signs of cystic fibrosis--the most serious lung-damaging disease--is a salty taste of the skin. That's why the Cystic Fibrosis Foundation is asking mothers to Kiss Your Baby with very special attention. If a mother does taste salt on her baby, she should see the doctor and make sure the baby has a test for CF. Early diagnosis and immediate treatment are vital to the child's life. Additional signs of cystic fibrosis--and other lung-damaging diseases are: recurrent wheezing; persistent coughing with excessive mucus; pneumonia more than once; excessive appetite but poor weight gain; clubbing (enlargement of fingertips), persistent bulky diarrhea and nasal polyps.

One out of 1,500 babies has cystic fibrosis and many people don't realize that it is the number one genetic killer of children. For children who are diagnosed early, the outlook is very hopeful. Children with a chronic cough and wheez sometimes are confused with allergy patients. They should have a sweat chloride test for cystic fibrosis. Local chapters of the Cystic Fibrosis Foundation may be contacted for further information.

WHOM DO YOU BELIEVE?

I have before me a tract distributed by a well known religious body claiming to teach one "How You Can Be Saved." It says: "It is as easy as A.B.C."

"A. Acknowledge you are a sinner--Rom. 3:10-11, 5:6.

"B. Believe that Jesus died for you and trust him to save you--Rom. 5:8, Acts 16:31, Jn. 3:18, Jn. 3:36.

"C. Confess HIM before men to show that you trust Him--Rom. 10:10, Rom 10:14.

"You must first believe in your heart before you call upon Him. Now, in trusting Jesus you have eternal life. Next, you should publicly confess Him before men, and then present yourself for believers Baptism by immersion as an act of obedience and identification with Christ."

This sounds good! BUT---WHAT DOES THE BIBLE SAY?

1. ETERNAL LIFE is in the world to come-- beyond the grave. "Then Peter began to say unto him, Lo, we have followed thee. And Jesus answered and said, Verily I say unto you, There is no man that hath left house, or brethren, or sisters, or father, or mother, or wife, or children, or lands, for my sake, and the gospel's but he shall receive an hundredfold now in this time, houses, and brethren, and sisters, and mothers, and children, and lands, with persecutions: AND IN THE WORLD TO COME ETERNAL LIFE" (Mark 10:28-30). Also, if "ETERNAL LIFE" was or is a present possession, how could the possession of it HOPE for it? "For we are saved by hope; but hope that is SEEN is not hope; for what a man seeth, why should he yet hope off? But if we hope for that we see not, when we do with patience WAIT for it" (Rom. 8:24-25). HOPE always pertains to something yet in the future.

2. Scriptural baptism is for WHAT purpose? "He that believeth and IS BAPTIZED SHALL BE SAVED" (Mk. 16:16); "...repeat, and BE BAPTIZED EVERY ONE OF YOU IN THE NAME OF JESUS CHRIST FOR THE REMISSION OF SINS..." (Acts 2:38); "...arise, and BE BAPTIZED, and WASH AWAY THY SINS..." (Acts 22:16); "The like figure whereunto even BAPTISM DOTHS ALSO NOW SAVE US..." (1 Peter 3:21).

There is no way salvation from sin, for any and/or every responsible person, can precede scriptural baptism. With God we implore that each and every one be like the Bereans "in that they received the word with all readiness of mind, and SEARCHED THE SCRIPTURES DAILY, WHETHER THOSE THINGS WERE SO" (Acts 17:11). Never believe things which will supposedly prepare you for eternity just because man says it or writes it--- no matter how trustworthy you feel he is---but believe these things when YOU PROVE THEM from your own Bible. Jesus said, "...if the blind lead the blind, both shall fall into the ditch" (Matt. 18:14).

AUSTIN — Campaigns for and against a new Texas constitution are getting off the ground.

Proponents of the far-reaching revision to be voted on November 4 have opened an Austin headquarters under the direction of former State Supreme Court Chief Justice Robert W. Calvert and State Rep. Ronald Earle of Austin.

Opponents, for the time being led by State Sen. Peyton McKnight of Tyler, are setting up shop in an office building across the street.

First copies of a proposed voter's guide to the revision document were placed in the mail last week. They present complete text of the eight propositions to be voted on, with a comparison summary of the "old" and "new" constitutional provisions.

Acknowledged opposition has centered largely on the proposal for annual sessions of the legislature — a 140-day session during odd-numbered years and a 90-day meeting on even-numbered years.

House Speaker Bill Clayton and Lt. Gov. Bill Hobby, concerned over effect of the opposition, asked an attorney general's opinion on whether the short, even-year session could be limited by law or legislative rule to budgetary and emergency matters.

Their proposal immediately stirred strong disapproving comment from both proponents and opponents of revision, indicating, perhaps, a hot campaign during the next three months.

Ouster Rules Drawn

A Senate committee approved rules for the impeachment trial by 31 senators of 229th District Judge O. P. Carrillo September 3.

Carrillo personally appeared at the committee hearing with his attorneys, Leon Jaworski, the former Watergate prosecutor, who will be special counsel to the Senate presiding officer, urged proceedings be conducted "on a high plane in strict accord with the rules."

The committee tentatively approved live broadcast news coverage of the trial and recommended a gag rule to restrict comments by senators on proceedings in which they sit as court and jury.

Carrillo subsequently has been indicted by a Jim Wells County grand jury. He already faced a Sep-

tember 8 trial date on an income tax case in federal court at Corpus Christi and an October 2 hearing by a Judicial Qualifications Commission master in removal proceedings.

Allowable Wide Open Again

The Railroad Commission set the oil allowable for the 42nd straight month at 100 per cent of potential.

Commissioner Jim Langdon said a 15 per cent shortfall is expected in interstate gas pipelines this winter.

Any action by the federal government to take Texas gas reserves to make up for shortages in other states would amount to "a rape of Texas," Langdon commented.

"If it is a cold winter, and indications are that it will be, things are going to be pretty tough, gentlemen," Langdon told oil and gas company representatives at the Commission's meeting to set the allowable.

AG Opinions

A state representative who intentionally charges expenditures to the state in excess of the authorized amount is subject to prosecution under the penal code, Atty. Gen. John Hill held.

In other recent opinions, Hill concluded:

- Teachers cannot be school board members in the same district which employs them.

- Beginning September 1, judges must contribute six per cent of their annual compensation paid by the state to their retirement fund, legislators eight per cent.

- A motion for discovery rather than the Open Records Act is the appropriate means for access to information in a welfare recipient's

Appointments

Gov. Dolph Briscoe named Dr. June Hyer of Seabrook, Howard Richards of Beaumont and John Fainter of Houston to the economy-hunting Joint Advisory Committee on Government Operations.

Briscoe appointed James H. Keeshan of Montgomery as district attorney for the ninth district (Montgomery, Polk, San Jacinto and Waller counties), and K. Baker of Carthage as 123rd district judge (Shelby and Panola counties).

The Governor picked Rudy Day of Dallas as chairman of the new Texas Committee on Indochinese Resettlement.

He reappointed Dr.

New rates for long distance calls within Texas.

With Discount Periods and a new One-Minute Rate, you may be able to save money.

Rates for Long Distance calls within Texas have just changed.

For you—the telephone customer—it means most rates are going up.

But you may be surprised to learn that rate changes won't necessarily bring higher telephone bills.

Because with our new discount for dialing your own calls, you can better control your Long Distance costs.

In some cases, you may be able to save money on your Long Distance bill by taking advantage of these rates.

For example, there's a new one-minute rate on all calls that you dial yourself—without the operator's help.

Under the old rate, the initial rate period was for three minutes. Now on One-Plus dialed calls the initial rate period is one minute.

That means you can save by reducing the length of your call.

DISCOUNT RATE PERIODS FOR ONE-PLUS CALLS WITHIN TEXAS								
	Mon	Tues	Wed	Thurs	Fri	Sat	Sun	
8 a.m. to 5 p.m.	Day Rate Period Full Rate							
5 p.m. to 11 p.m.	Evening Rate Period 30% Discount						Eve. 30% Discount	
11 p.m. to 8 a.m.	Night and Weekend Rate Periods 40% Discount							
NOTE: The Evening rate applies all day on the following holidays: New Year's Day, July 4, Labor Day, Thanksgiving and Christmas Day, except in instances where the holiday falls into Night/Weekend period. In this case, the lower rate applies.								
*On operator-assisted calls, the same rate applies at all hours on all days.								

Also, for the first time we are offering flat percentage discounts for Evening, Night and Weekend One-Plus calls.

Using the Day rate as the base, the Evening rates will be 30 per cent less. And, on

Nights and Weekends there will be a 40 per cent discount.

So, if you call later in the day or night, or on weekends, you're going to get the lowest rates possible.

But if you place calls through an operator, rates for these Zero-Plus calls will be higher, at any time—night or day. These include calls from a coin phone, collect, credit card and calls billed to a third number.

The initial rate period of three minutes will continue for these and other operator-assisted calls.

And, person-to-person calls will cost more than any other type call.

EXAMPLE OF NEW RATES FOR MAXIMUM DISTANCES		
	#One-Plus	Each Additional One-Plus Minute
DAY RATE	50c or less	41c or less
EVENINGS 30% Discount	35c or less	29c or less
NIGHTS AND WEEKENDS 40% Discount	30c or less	25c or less
#One-Plus charges for 1 minute.		
NOTE: One-Plus rates also apply on station-to-station calls placed with an operator where One-Plus facilities are not available.		
*Rates quoted do not include taxes.		

Simply put, if you dial the call yourself, you are going to get a lower rate. If you place your call through an operator, it will cost more.

Now our new rates offer you a choice.

By dialing your own calls and by taking advantage of our discount rate period, you can still get low rates and fast service.

877 Antelopes Permits To Be Issued

An overall increase in adult and fawn pronghorn antelope in western Texas has warranted an increase in the number of antelope hunt permits issued by the Texas Parks and Wildlife Department to area landowners.
 A total of 877 permits for hunting buck antelope will be issued by the P&WD, up from the 1974 total of 580.

Trans-Pecos ranchers will receive 476 permits, landowners in the Permian Basin will be issued 44 permits and 357 permits will go to those in the Panhandle.
 As was the case in 1974, no permits will be issued for hunting doe antelope. According to P&WD Big Game Program Director Charles Winkler, the Texas adult antelope herd has increased by some 21 per cent with most of that gain coming from the Panhandle herds.

"Of every 100 doe antelope in the Panhandle," said Winkler, "32 produced fawn this year."
 "Fawn counts are exceptionally high in the Trans-Pecos and Permian Basin and we are optimistic about the outlook for next year."
 Ample rains over most of West Texas this year have improved range conditions and fall hunts should yield animals in good physical condition.
 The antelope season in the Trans-Pecos and Permian Basin is Oct. 4-12 with an Oct. 4-7 season in the Panhandle.

Traffic Safety Coordinator Comes To Amarillo College

The Public Safety Education Department of Amarillo College has a new man on the crew, helping to find new ways of saving lives in the community.
 Allen J. Monroe of Amarillo joined the AC staff July 14 and will coordinate the Panhandle Traffic Safety and Training Impact Program.
 This program is designed to develop a systems management approach toward solving local traffic safety problems.
 The Panhandle Traffic Safety and Training Impact Program will be financed by the Governor's Office of Traffic Safety as a service to the immediate area.
 Monroe has worked in the traffic safety area the past eight years. Previous to that he served 20 years in the Air Force.
 Persons interested in learning more about the Traffic Safety and Training Impact Program may call Monroe at AC.

Animal Health Meeting Set... Cattle On Feed Up Slightly... Milk Production Declines... Next Crop Report Due Sept. 11.

A meeting to discuss proposed changes in brucellosis programs for Texas will be held Sept. 4 at 9:30 a.m. in Room 117, Sam Houston Building, Austin. Members of the Texas Animal Health Commission will listen to comments on proposed changes which would realign state regulations to conform with federal rules.
 Brucellosis continues, to be a major problem for the livestock industry in Texas.

CATTLE ON FEED in Texas as of Aug. 1 totaled 1,331,000 head, the Texas Crop and Livestock Reporting Service at Austin notes. This is a five per cent increase over a month ago, but is 26 per cent below a year ago and about 50 percent lower than 14 months ago.

Nationwide, there were 5,932,000 head of cattle on feed as of Aug. 1. This is down one per cent from a month ago and 15 per cent below the same period a year ago.

Recent increases in feed grains have changed the price outlook for feeders in the coming months. A shortage of fed beef could occur later this year, many feeders warn. This would be caused by a lack of profits among cattle feeders.

MILK PRODUCTION in Texas during July is down two per cent from the same period a month ago and is down one per cent below the previous month. Nationwide, milk production is down 1.4 per cent from a year ago.

WHILE THE AUGUST CROP REPORT has now become history, don't forget that the September crop report will be out shortly. Sept. 11 is the date for its release, and producers, consumers, and speculators will be watching for it eagerly.

Meanwhile, crop harvesting continues in a big way throughout the state. Cotton harvest is picking up speed and with hot, dry weather it should move along rapidly. First bales have been reported in a number of Blackland counties.

Sorghum harvest is now more than half finished throughout the state. Prospects on the High and Low Plains are considered good to excellent. Rainfall in some parts of the state has caused some slowdown of the harvest.

Corn harvest is underway in the southern half. Yields this year for the state read like a midwestern production report. The estimated per acre yield for Texas is 105 bushels per acre. This is the first Texas crop to exceed 100 bushels per acre in 54 years.

Rice harvest is at the half-way completion mark. Yields generally have been satisfactory.

Vegetable harvest is also making a lot of progress throughout the state. On the High Plains, only a few onions remain to be harvested.

In North Texas, harvesting of peas, tomatoes, okra, squash and watermelons continues. Grape and plum harvest is also active.

Spring and summer gardens are becoming victims of hot weather in the central part of the state, but fall vegetable land preparation is underway.

IT CONTINUES TO BE NECESSARY to submit suspected screwworm cases to the fly lab at Mission.

Screwworm activity continues to increase throughout the state, and officials at the fly lab also urge livestock producers to treat wounds on livestock with approved screwworm-control remedies.

And delay surgery on livestock as long as possible, too.

Texas Department of Health Resources

Accent on Health

J.E. PEAVY, M.D., Director

It's that time of year again when parents should attempt to "safety proof" their youngsters--many of whom are entering school for the first time.

Whether walking, riding in a bus or car, or bicycling to school, plans should be made to ensure the safety of every child, reminds the Texas Department of Health Resources.

Darting across streets without looking, crossing at mid-block from between parked cars, and doing bicycle tricks in traffic are just a few of the pitfalls to be avoided, advises the Health Resources Department.

Parents can caution their children about all careless practices, and they also can show them. If your child is starting to school--or going to a new school--it's a good idea to make the trip at least once with the child.

If he will be pedaling to and from school every day--often in inclement weather--you'll want to be doubly sure that your child is observing safety rules. If you are a motorist in the vicinity of schools, be especially wary, says the Health Resources Department.

What are the trouble spots for bicyclists and motorists? Collisions between motor vehicles and bicycles occurs about as follows:

*Well over half at intersections.

*Seven out of ten during daylight hours.

*Most bicycles riders killed or injured in traffic accidents, were violating a traffic law at the time of the incident.

*Half of the motor vehicle-bicycle accidents involved a violation on the part of the motor vehicle operator.

*One out of five bicycles involved in accidents had some mechanical defect.

Some of the most common traffic violations of cyclists are (not in order of frequency):

*Failure to yield-right-of-way. (In most cases, the cyclists did not "see" the car; in some cases he intentionally infringed on the motorist's right-of-way.)

*Riding in the center of the street.

*Speed to fast for conditions of traffic and road surface.

*Disregard of traffic control devices--signal lights and stop signs.

*Improper turning. To avoid such situations as just described, here are some safety rules for bicyclists:

*A skillful bicycle rider always has his bike under control. He never drives too fast and he never rides too far. He always has both hands free to steer.

*The cyclist must develop skill in balancing and pedaling to avoid swerving into traffic, hitting a fixing object, running off the sidewalk or highway. Parents have the responsibility to be certain their child has the skill to cope with traffic before permitting him to ride on the street.

*Every bicycle driver should be familiar with the

laws governing bicycling in his community, or the one in which he is riding. These rules are usually available through the school or local police.

*Cyclists must ride on the right side of the street with the flow of traffic; not on the left, facing traffic.

*Hand signals should be used by the cyclists, and are now commonly accepted as a safe riding practice.

*Cyclists should avoid crowding between cars at stop signs, or between an automobile and the curb.

*Carrying more passengers than a bicycle is designed and equipped for is dangerous and illegal. Two on a bike also increases stopping distances. The polo or banana seat, standard equipment on the hi-rise bike, appears designed to carry two. Such is not the case!

*Never hold onto a moving vehicle nor in any way attach the bike to the vehicle.

*Always ride single file.

*Trick riding is always dangerous. Drivers of hi-risers are especially cautioned against making the bike rear up and riding on back wheels only, or jumping the bike over obstacles.

Dogs and Cats Often Bearers of Harmful Bacteria

The chances are good that the family dog or cat is carrying around a microscopic organism that can cause a nasty infection if the animal nips you.

The offender is known to physicians as Pasteurella Multicoda. It is often found

in the mouths of healthy dogs and cats, and is a common cause of infection following bites and scratches.

Researchers have found the offending organism in the mouths of up to half of all dogs and up to almost three-fourths of all cats, the report says.

Some 550,000 domestic animal bites and scratches are reported each year, most of them dog bites. Many of them transmit Pasteurella

Poultry products edged into the bargain spotlight at supermarkets this week with fryer chickens wearing reasonable price tags, while chicken hens and turkeys represent good values, one marketing specialist said.

Also turkey rolls and roasts in foil pans are gaining favor as conveniences. Mrs. Gwendolyn Clyatt, consumer marketing information specialist, added.

Of beef buys, chuck cuts are good choices, and boneless rolled roasts, excellent for rotisserie cooking, are featured in some markets.

Mrs. Clyatt is with the Texas Agricultural Extension Service, The Texas

Multicoda. This infection responds well to penicillin and some other antibiotics, but it is so common that it is often not diagnosed promptly, a recent study declares.

The research report is based on a 10-year study at the Oregon State Public Health Laboratory, Portland.

The only prevention is to avoid getting bitten.

The researchers advise physicians to consider that the bite might be infected until proved otherwise, and to institute proper antibiotic treatment.

A&M University System. At fruit counters, cantaloupe and watermelon are in good supply at moderate prices, along with a wide variety of soft fruits--seedless grapes, nectarines, peaches, bananas, pears and several plum varieties. The specialist reported.

Also, new crop apples are a bit more plentiful.

In vegetable sections, fresh corn has moderate prices and good quality. Other good vegetable choices are okra, cabbage,

carrots, cucumbers, tomatoes, yellow and zucchini squash.

Consumer Watchwords: No single test will assure that a cantaloupe is ripe and delicious--only a combination of several tests.

--There should be no stem--only a smooth, symmetrical, shallow basin.

--Netting or veining should be thick, coarse and corky, standing out in relief over some parts of the surface.

--The melon should have a heavy, musky like aroma.

This weekend, call any other state* and talk five minutes for 86¢ or less... usually less!

*Except Alaska and Hawaii

Our weekend One-Plus rates are so low that you can talk awhile and still spend less than a dollar. For instance, a five-minute coast-to-coast Long Distance call dialed direct all Saturday and Sunday until 5 p.m. is only 86¢. An out-of-state call spanning fewer miles costs even less. If you can't wait till the weekend these same low rates are in effect every night from 11 p.m. to 8 a.m.

Where One-Plus dialing isn't available, One-Plus rates apply on station calls. If you dial direct and reach a wrong number, call the operator. You won't be charged.

Travel by Long Distance... and stay awhile.

For rates to Alaska and Hawaii, call the operator. One-Plus rates don't apply to person, coin, hotel-guest, credit card or collect calls, or calls charged to another number.
