When reminiscing with friends the other day, I discovered that there are many avid football fans in McLean. McLean has had a football team for over fifty years, and in that length of time many great players have worn the Tiger jersey.

During our discussion, someone said "Who were the best football players of all time in McLean?"

Many names were suggested, and it occurred to me that we should have a vote on the all-time great players in McLean.

The contest will work under these rules: 1. You must use an official ballot out of the McLean News. 2. Each person may vote only once, but each member of a family may vote. 3. The balloting will be conducted from this week until December 31. 4. You must vote for only one player for each position. 5. Any player who ever played for McLean is eligible, whether he played in 1920 or 1977. (Current Tigers are not eligible) 6. In January, the winners will be announced, and hopefully we will have pictures of the players. 7. Each member of the McLean All-Time Superstar Football team, and second team, will be presented a certificate with the names of all the players on it.

I hope the people who have watched McLean football for many years will think back to the great players of long ago and of recent years. You may mail your ballot to Box H, McLean, Texas 79057 or bring it by the News office.

Anyone who reads The McLean News is eligible to vote. Get your ballot!

I would like to urge each See DISTAFF, Page 2

## Senior Citizens Dinner Changed

The regular weekly public dinner at the senior citizens Young-at-Heart Club will be changed to Wednesday next week. Members of the club will attend Senior Citizens Day at the Tri-State Fair on Thursday, Sept. 21, which is the regular day of the dinner.

People who attend the dinners are urged to remember to come on Wed., Sept. 20.

## Duniven Signed By Houston

Tommy Duniven, McLean High School and Texas Tech graduate, was re-signed by the Houston Oilers last week. To Duniven, a second-year man on the Oiler team, was cut prior to the start of the regular season, but injuries to Dan Pastorini, Houston's starting quarterback, caused the Oilers to ask him back.

Duniven was in Los Angeles, trying out for the Los Angeles Rams, where he was reportedly offered a contract, when he received the call from Houston head coach Bum Phillips to return to the Oiler team.

Pastorini suffered a bruised lung during the opener against Atlanta. Rookie Gifford Nielson was the only other quarterback on the Oiler roster before Duniven was added.

## Tigers Stun Eagles

The McLean Tigers staged an impressive offensive show for the home stands in their season opener Friday night against Chillicothe, beating the Eagles 34-0.

Early in the first quarter, David Tolleson intercepted a pass from Chillicothe's scrappy 112 lb. quarterback, David Schattle, and ran 29 yards for the first touchdown. The kick by Steve Ellison failed.

The Tigers added two more TD's in the first quarter with a six-yard run by Ellison and a 62-yard-run by Tolleson. After Ellison's touchdown, the Tigers converted with a pass from Randy Suggs to Timmy Killham for two points. Ellison's kick on the next touchdown was good.

The Tigers went into the dressing room at half time with a 21-0 lead over their opponents. In the first stanza of play the Tigers piled up 154 yards to Chillicothe's 60.

In the second half, Coach Bill Coward gave his reserves an opportunity to play, and in the third quarter Tolleson ran for a 14 yard score, and the extra point kick by Ellison failed. Then Dudley Reynolds, a freshman reserve quarterback for the Tigers, scored on a seven-yard run; kick by Ellison was good.

In the fourth quarter, 151 pound senior Richard Locket of Chillicothe ran for a TD. The Eagles tried to run for two points, but were stopped short of the goal line. In the game, Tolleson

carried the ball nine times for 136 yards, and Ellison See TIGERS, Page 2

## Three Injured In Explosion

Three men were burned critically in an explosion at the Warren Petroleum Plant east of McLean Thursday morning. Two of the men were flown to Parkland Burn Center in Dallas Thursday afternoon.

William Douglas (Doug) Clawson, 54, of McLean, a 35-year veteran employee at the company suffered second and third degree burns to 70 percent of his body, according to a Parkland spokesman.

Ernie Gary Fry, 36, also of McLean, had second and third degree burns to 39 percent of his body, the spokesman said.

Jim Mayberry, 37, of Pampa, remained in High Plains Baptist Hospital in Amarillo with second and third degree burns to 32 percent of his body.

At press time, a company spokesman said that Fry and Mayberry were out of the intensive care units, and both ambulatory. Clawson underwent surgery Monday and is still listed in critical condition.

Both Clawson and Fry will require skin grafts, according to the spokesman.

The three were attempting to repair a leaking pump on a pipeline carrying raw gasoline when the explosion occurred, a company spokesman said.

The cause of the fire has not been determined.

After the original explosion, the fire receded to about a five-foot high flame. It was extinguished within three minutes.

Warren employs 14 men. It was established in 1933, and is a subsidiary of Gulf Oil Corp.

There has been no similar accident at the refinery, according to June Woods, plant supervisor.

He said Clawson has worked for Warren Petroleum 35 years, and Mayberry has been employed at the refinery approximately two years. Fry is an employee of a contracting company, Nelson-Sikes Construction Co., of Pampa.

The refinery processes nine million cubic feet of natural gas a day.

## Band Boosters Set Meeting

of you to read carefully the proposed constitutional amendment published in the classified section of this paper. These amendments will appear on the Nov. 7 ballot, and will greatly affect the lives of Texans in the future.

The first amendment is a tax-relief amendment and will probably gain much support throughout the state. It provides that intangible property tax will be based on the personal property value as of the date of the assessment, and that the value of the property will be based on the value of the property as of the date of the assessment.

Perhaps the most important provision of this amendment for people in this area is the change in land taxes. Land devoted to farming and ranching will be taxed on its productive value rather than the market price might be. This should provide some long-term tax relief for farmers and ranchers in the area.

The amendment also provides that taxes on the homes of elderly people will be "frozen."

Each voter should read the amendments and decide how he wants to vote before he goes to the polls. But regardless of how you vote, the important thing is to vote!

The parent-child relationship, one sociologist said

recently, is the only human relationship that should be built toward eventual separation. This is probably the most difficult tenet that parents have to accept. The youngster who is away from home for the first time, whether he is at college or working at a first job, goes through many hours of homesickness, but I wonder if that youngster realized how "home sick" his parents get.

One of the most wrenching experiences of parenting is driving away from a college dorm and leaving a youngster to face new life and a new experience on his own. The temptation is always there to turn around and go back and take the child back to the safe environment of home and family. But it cannot and must not be done. The youngster will never grow as mature if he is not left alone.

I think Thornton Wilder expressed it best in his play "Our Town." A mother has just been told that her 18-year-old son is going to get married, and she prays "Oh God, give me the courage to let my children make their own mistakes, and know that they, like I, will somehow live through them."

Volunteers Respond To Emergencies

The McLean Volunteer Fire and Ambulance service has been called out four times in the past week, Thursday afternoon the ambulance service rushed three victims of a fire at the Warren Petroleum plant, to Amarillo emergency receiving center.

The three men, Doug Clawson, Gary Fry, and Jim Mayberry of Pampa, had been repairing a gasoline line when the fire occurred. Early Sunday morning firemen were called to a fire one mile west and 1/2 mile north of McLean, on the John B. Rice property.

The call came at 1:30 a.m. The fire destroyed the roof of an unoccupied house. While extinguishing the Rice place fire, firemen noticed a fire about seven miles west and 1/2 mile north of McLean, on the Jim Shaw property.

A storage building housing several thousand pounds of cotton seed and some hay was completely destroyed. The McLean fire department was aided by the Shamrock fire department after the second fire was discovered.

Firemen had completely extinguished the two fires by 4:30 a.m. McLean Fire Chief Jim McDonald said the two fires Sunday morning were possibly the work of arsonists.

Tuesday afternoon, firemen responded to a call to the Western Sand and Gravel Co., northwest of McLean. The fire was in the power house of the gravel pit, and was complicated by nearby acetylene tanks. Firemen had extinguished the blaze by 6:30 p.m.

WALK GENTLY THIS GOOD EARTH by Margaret Craven, by Lisa Patman. Margaret Craven has already given us one excellent heart reading book, "I Heard the Owl Call My Name," and with "Walk Gently This Good Earth," she has again created a novel of warmth and simplicity.

This novel concerns a close-knit American family of astonishing spirit and rugged independence. The book takes the Westcott family from the Depression years to the present, from their childhood in the wilds of the Pacific Northwest to their ranching days

in Montana. Westcott captures the thrill and beauty of the Cascade mountains, as she traces the family's growth, and later, their struggle for family survival during World War II.

The overall tone of the book is relaxed and loving, beginning with Judge Westcott, and his love of the earth, carried by Marie, the devoted housekeeper, and kept alive by the four Westcott children and their adopted brother Neal.

"Walk Gently This Good Earth" is available at Lovett Memorial Library.

Auto Insurance Rates Changed

AUSTIN--Adjustments to rates charged for auto insurance will be made on policies written Nov. 1, 1978 and thereafter, according to new schedules adopted Sept. 6 by the State Board of Insurance.

Of the forty rating territories in Texas, twenty will receive increases, eighteen will be reduced, and two will not change. McLean, Co. county 26, will have an overall increase of 1.6 percent, with some classifications staying the same, and some increasing slightly.

carried 16 times for a total of 114 yards.

The Tigers intercepted three passes, with Tolleson picking up one, Rex Morris grabbing one, and Dudley Reynolds catching another.

The Tigers recovered three fumbles, and lost one, and senior Chuck Pierce blocked one punt.

McLean travels to Shamrock Friday night for their second game of the season. McLean's offensive and defensive halfback David Tolleson was in the running this week for Class B Amarillo Globe News Player of the Week.

Tolleson spearheaded the Tigers to a 34-6 victory over Chillicothe with touchdown runs of 62 and 14 yards.

He also got the games first score when he pilfered a Chillicothe aerial and raced 29 yards for the night he totaled 136 yards on 9 carries, and had 5 unassisted tackles with eight assists.

Booker's Brent Guy won the Class B honor.

su mers about the poor service of the city-franchised cable TV system, and explored new avenues of improving the service. Councilmen also approved the 1978-79 budget in the amount of \$331,984.74, a raise of \$57,453 from 1977-78. The largest increase is for street repair, with the recent seal-coating. The budget for almost \$35,000.

Another increase will be in the price the city pays for natural gas from El Paso Natural Gas Co. The city was officially notified by El Paso that the price charged to the city for gas will be raised by nine cents per thousand cubic feet of gas.

The current city gas rate was based on the price El Paso charged in October, 1977, which was 19 cents below the current rate hike.

The council reviewed a letter from the state highway department advising that the department would consider the city's request to lower the speed limit on the east bound lane of

I-40 through McLean to 30 miles per hour.

Members read ordinances 185 and 186 dealing with the 1978 ad valorem tax, and the exemption of utilities from city sales tax.

Park improvements were discussed, with the aldermen voting to purchase three new picnic tables from Revenue Sharing funds, and to remove several dead trees from the park.

The council voted to hire Britt Hathaway for additional bulldozer work on the old dump and the new landfill.

City Service Oil Co., executive Steve Dickenson of Tulsa presented an offer to the council to buy the old Fowler gas well, but no action was taken by the council.

The council also passed a resolution to ask Jack Hightower to request the state to assume all responsibilities for the costs of relocating the utilities under the new highway.

In addition to council members, city superintendent Bob Glenn and city secretary Stella Lee attended the meeting.

A proposed policy on test exemptions was adopted. The policy is based on student grade averages in a class and the student's attendance in that class.

In grades 6 through 12 a student may be exempt from

Killham Participates In NATO Exercises

Navy Construction Mechanic Seaman Dale E. Killham, son of James D. and Shirley Killham of 219 Kingsley, McLean, Tex., is participating in the major NATO exercises "Bold Guard '78" and "Northern Wedding '78" in northern Europe.

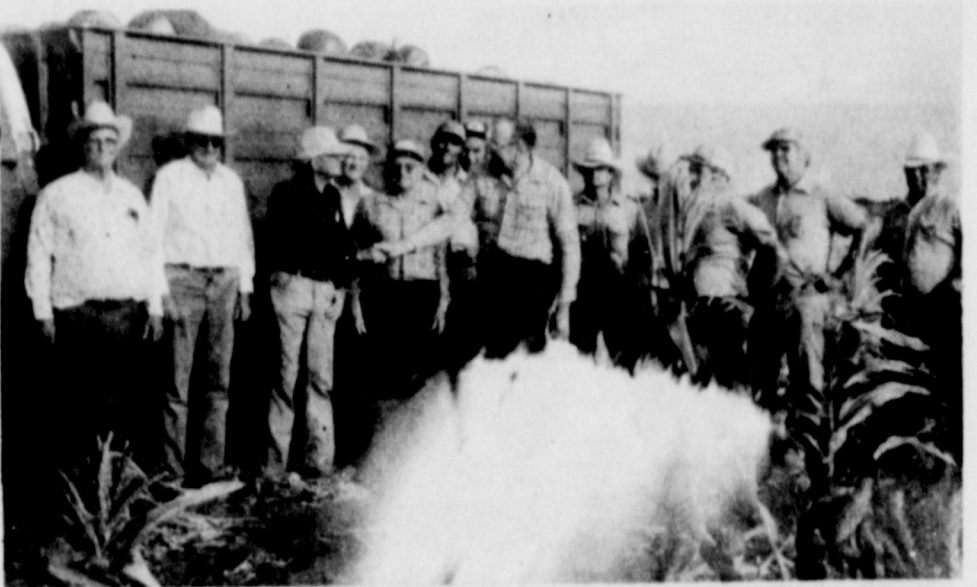

He is assigned to the tank landing ship USS Barnstable County, homeported at Little Creek Naval Amphibious Base, Norfolk, Va.

"Bold Guard '78" and "Northern Wedding '78" are designed to refine coordination, command and control capabilities in the external reinforcement of NATO's northern flank and in conducting combined land operations. Taking place over wide areas of the Eastern Atlantic, North Sea and English Channel,

maneuvers will include amphibious landings in the Shetland Islands and Southern Norway. A large scale landing on the west coast of Denmark's Jutland Peninsula will be followed by an overland movement of the combined allied forces for large scale maneuvers in Germany.

Participants number approximately 40,000 men, 170 ships and submarines and 800 aircraft from Belgium, Canada, Denmark, the Federal Republic of Germany, the Netherlands, Norway, the United Kingdom and the United States. This represents the largest combined NATO exercises ever held in Northern Europe.

A 1977 graduate of McLean High School, Killham joined the Navy in July 1978.

These men gathered Tuesday morning to load watermelons to take to the Waco Methodist Children's Home. The melons were donated by Mr. and Mrs. Shorty Sechrist. School Board Discusses Math Teacher, Test Exemptions

Lack of a high school math teacher was discussed Monday evening during the regular monthly McLean School Board meeting. The board voted to pay Ron Cummings \$100 a month for math duties, and Cecil Reynolds \$500 a year for additional math duties, until a math teacher can be found.

In other matters, the board voted to request a second library aide position from Regional 16 Service Center, (PESO). If granted, the school would receive a full-time employee for \$1000 a year. The service center would pay the remainder of the salary.

Board members voted to establish a petty cash fund, and to sell a 1971 Dodge bus. The board also voted to protest the state market value index assigned to the McLean independent school district.

Board members present were Tony Smitherman, Lloyd Hunt, Joe Billingsley, Jim Allison, June Suggs, and Darryl Herndon. Others attending "the meeting were Carl Dwyer, Cummings, Dorman Thomas, and Shirley Johnson.

All students will take both six weeks tests in the quarter, and no student will be exempt if he has more than three absences.

Students who are exempt and desire to do so may take quarter exams in an effort to raise his grade. However, any student who elects to do so, will not receive a grade lower than the grade he or she would have earned without taking the test.

Also discussed by the board was insurance coverage. They voted to check on increasing coverage for the high school building.

The board approved an FBLA officers trip to Oklahoma City, October 5-6.

Board members present were Mrs. Raymond Smith and Beatrice Street attended a Street family reunion in Littlefield Sunday. Attending the reunion were five Streets and 20 descendants.

## Hommel's Apple Orchard - Like A Garden of Eden

By Linda Haynes  
McLean News Editor

A small garden of Eden exists just a few miles from McLean. Hommel's Apple Orchard, a delightful green

retreat in stark contrast to the rolling plains of the area, is located three miles south of Alanreed in the banks of a creek.

Mr. and Mrs. W.O. Hommel established the orchard in

1939 while Hommel was a car dealer in Clarendon. In 1942, they moved to a rambling three-bedroom home at the orchard.

In the last eight years, Hommel has planted over 200

semi-dwarf apple trees from the Stark Brothers Nursery in Missouri to add to the older apple trees. He now produces about 700 bushels of apples each year.

The heavily-laden trees

bear red and yellow delicious apples, winesap, Jonathan, Grimes Golden, and Summer Champion apples.

Mr. and Mrs. Hommel have two children, Vondell Grigsby of Amarillo and Patsy Miller

of Amarillo and four grandsons.

### Wheeler County 4-H Youth Show Slated

The first annual Wheeler County 4-H open Youth Show is scheduled for Sept. 16 at the Wheeler Riding Club Arena. The show, sponsored by the Wheeler County 4-H Texans Horse Club will be open to all youth 18 years of age and younger.

The show will begin at 10 a.m. with the halter class. Halter classes will include registered mares, grade mares, registered gelding and grade geldings.

The halter classes will be as followed by the performance classes which will include showmanship, trail-horse, reining, pot-bending and barrel race. There will be age divisions for 13 and under and 14 and over for each performance class.

Books will close at 9:30 for halter and at the conclusion of the halter class for all the performance classes. There will be a 30 minute break between halter and performance. Each contestant may ride only one horse in a class and must designate when entering which horse he will collect points on for the high point awards. Also a horse may be ridden only once in a class.

Prizes will consist of tack given to the top three places in each class. The grand and reserve champion mare and gelding will receive trophies. The high point performance horse will receive a saddle blanket with tooled leather corners and the overall high point horse will receive a stable sheet. A horse must be entered in halter to be eligible for the all-around award.

Billions of bacteria may be formed from a single parent in 24 hours.

County Extension Agent

The Home Demonstration Clubs are having programs on "Home Energy Conservation" to learn how to lower utility bills. Most everyone who pays home utility bills is looking for ways to keep them under control. You can keep your home utility bills below average in two basic ways. First, you need to make your home as energy efficient as possible in terms of construction, equipment and features. Then you should operate your home in a manner that will save you energy and money.

The air conditioner is the greatest energy-consuming device in most southern homes. On the average about half of the energy you use goes to heat and cool your home and up to 17 percent to heat your water.

You will save some energy by adding insulation to your attic or walls if you

don't already have the optimum levels but it may not be a cost-effective action. The Texas Energy Extension Service recommends R-11 to R-13 in the walls, R-26 to R-30 in the attic, and R-11 beneath floors with unsealed crawl spaces. It could cost you more than it will save you in a reasonable time. If you have no insulation in your attic, you should install some - at least an R-19 level.

Other ways you can conserve energy are to install multiple pane or insulating glass, caulk and weather-strip, install attic ventilation, install a super insulated water heater, the fluorescent lighting and replace refrigerators, refrigerator-freezers, dishwashers, clothes washers and home appliances that use less energy to do the job.

We have an assortment of publications on home energy conservation available free to the public. If you would like a copy of the publications stop by the County Extension Office in the Courthouse Annex or call 669-7420.

#### STOCKER CATTLE SEMINAR

There will be a Stocker Cattle Seminar Tuesday, September 26, in Pampa at the Courthouse Annex Meeting Room at 7:30 P.M. The program will feature three area Extension Specialists: Dr. Gene Cope, Veterinarian, Dr. John McNeill, Beef Cattle and Dr. Carl Patrick, Entomologist. The subjects will center around health and management programs for stocker cattle producers.

#### WINDBREAK SEEDLINGS

The Texas Forest Service has announced that they are accepting applications for windbreak seedlings. Interest applicants should send orders in early because certain tree species will be sold out if you wait until the deadline of February 12, 1979.

Orders must be for 100 trees or more, in multiples of 50 of any one species. The cost is \$10.00 per hundred trees. These trees are seedlings and must not be used for landscape or ornamental purposes.

The species available this year include: Arizona Cypress, Austrian Pine, Black Walnut, Catalpa, Cottonwood Cuttings, Green Ash, Honeylocust, Osage Orange, Ponderosa Pine and Shumard Oak.

#### HUNTING LEASES

I get calls wanting information about ranches, landowners who would be willing to lease out their land for hunting. This is not a common practice in this area as it is down state. However, there are individuals and business firms in the area who would like to lease some country for hunting rights.

If anyone is interested in a little extra income from hunting leases, please give me a call and I will keep your name on file.

#### McLean Roping Begins Sunday

McLean Roping Club will sponsor a series of ropings at the Felton Webb arena, beginning Sunday at 1 p.m. Three more ropings will follow on Oct. 1, Oct. 8, and Oct. 15.

At the conclusion of the events, a \$600 saddle will be presented to the high-point roper.

#### Johnson Wins Motocross Events

Tom Johnson, son of Mr. and Mrs. Blackie Johnson of Hedley, won first place in the 125 cc class of the Texas-Oklahoma Motocross. Johnson won with three first place wins and one second place win in the six-race series.

Johnson, who began motocross racing in 1971, received the overall year-end trophy for 1978. The trophy measured five feet and two inches in height.

## X's and O's

By BILL COWARD  
Head Coach  
McLean High School

A very successful and experienced coach once told me: "A head coach is successful only if he has good assistant coaches working with him." I am finding this to be true more and more everyday. I thought we had the best class of coaching staff in the state last year, but I believe we have a better staff this year. I feel fortunate to have a group of men who are willing to work long hard hours to try and put together a winning program in McLean. There are not many coaches who are willing to spend time necessary for this to happen, especially about 9 p.m. on Saturday night after watching hours and hours of film and their eyes are hurting from the strain.

Coach Jack Donsett was with me last year and he has turned into one of the best young coaches in the Panhandle. Jack coaches the offensive tight ends and wing backs and the line-backers on defense. He is also in charge of our kicking game. Jack is the head junior high football coach and will coach junior high girls basketball. He is the head track coach in high school as well.

Coach Vester Joiner is new to our staff this year coming to us from Higgins. Coach Joiner handles the offensive and defensive line, helps with the kicking game and is in charge of our managers. He is our head girls' basketball and track coach and he has several years experience in girls' basketball as well as football. Vester is a valuable addition to our staff.

The newest member of the staff and the coaching profession is Coach Joe Riley. He is a McLean product and brings a lot of youth and enthusiasm to the Tigers. Joe coaches the offensive split ends and the defensive ends. He is assistant junior high football, head junior high boys basketball, will assist with the track program and he will coach high school boys and girls golf.

As I said earlier, I am extremely pleased to be able to work with these men as I believe them to be good quality coaches.

The Chillicothe game was a very satisfying one in several ways. Our young, inexperienced players played well, our defense contained a power offense, the offense moved the ball and we scored, and we came out of the game with no injuries.

Shamrock will be a tough opponent. First of all there is the McLean-Shamrock rivalry which has been present for many years though it has been de-emphasized the last few years. Secondly, Shamrock will be hungry for a win after their loss to Wheeler, and thirdly they have several quality players led by 240 lb. tackle Russell Waters. They run a Wing T offense which features a lot of off-tackle plays, sweeps, and traps which will give a defense plenty of problems. Defensively, they run a multiple front based on a 52 Monster defense. We are looking for a tough, hard hitting game this week. I urge you to travel the 20 miles to the Irish city to see a good football game.

The 1978 McLean Cubs open their season this Thursday against Lefors here. Twenty-four young men are members of the Cub team and Coaches Donsett and Riley have informed me that the team will be ready to win the game this Thursday. We have a lot of good players on our junior high team this year and they should supply a lot of exciting football this year. The games will start at 6 p.m.

There are two men I would like to especially thank for their assistance to the football team this year. Joe Cooke is our camera man again this year and he does a tremendous job of filming our games. Joe has many

years experience with filming and we are glad to have him with us again this year. Bob Glass is keeping our stats this year and already he has proven very capable. I sincerely appreciate the efforts of these two men.

Elbert Hubbard wrote in his "Epigrams", "God will not look you over for medals, degrees, or diplomas, but for scars." Have good work and we will see you in Shamrock.

## Emergency Farm Loans Available

Emergency loans for farmers, ranchers, or aquaculture operators are available through county offices of the Farmers Home Administration (FmHA), Robert A. Keown, FmHA county supervisor, said today.

Keown asked that those who need farm credit as a result of adverse weather conditions make their needs known at the Farmers Home Administration office at the Courthouse Annex in Pampa from 10:00 A.M. to 12:00 noon on the second and fourth Thursday of each month, or at the FmHA office in Clarendon from 1:00 to 5:00 P.M. each Tuesday afternoon.

Applications for assistance in the disaster stricken counties will be accepted by Farmers Home until May 29, 1979, for physical losses and August 31, 1979, for production losses.

To be eligible for an emergency loan an applicant must have suffered losses from the disaster and be unable to get credit from other sources.

Emergency loans can be used to help the farmers restore damaged farm operations and additional loans based upon the emergency designation can be used to reorganize the farm for greater efficiency and better production.

## LOOSE MARBLES

BY LISA PATMAN

I have a problem that arises occasionally. I call it wilting. This is not from the heat, nor is it from being tired. This is an entirely different wilting. (I'll see if I can explain it to you.)

One of my "wilts" occurred a few months ago in Fort Worth. Old Ed had been invited to play in a golf tournament to be held at a spiffy private country club. Along with the tournament, several dinners and parties were held to which wives were invited, therefore, O.E. (Old Ed) was forced to ask me to accompany him.

Much thought was put into the choosing of my wardrobe for the event. O.S.E. (Old Stinky Ed) even loaning me \$1.98 (with interest) to buy myself some new togs.

When the day of the tournament arrived, I strolled around the course with the other wives. As they watched their husbands on the links, I, of course, was watching the other ladies—the one that belonged there. The "wilt" began.

Somehow, that smart little dress I had purchased, the one the saleslady assured me was THE THING to wear at a fashionable resort couldn't compete with those rich ladies with their lean, tanned bodies and their short, short hot pants. I felt like I should have been carrying a rake, removing leaves from under the trees. I began to real-

ize that I was out of my element. Further "wilting" was to take place that night.

We arrived at the banquet on time - our first mistake. Nobody should arrive on time, it seems. One should arrive fashionably late to these high-class shindigs.

Now O.E. has always had more savoir-faire than I have, and I must say he sailed through the entire evening with the necessary aplomb.

I'm sure no one knew that we had been frantically racing around town trying to find a tuxedo to rent for him, nor did they know that the vest of the rented finery was secured in the back with a large safety pin. He even made several of the men envious of the cowboy boots he wore with the tux. I, on the other hand, was in full wilt.

The dress I had chosen seemed to me, at the time I bought it, to be perfect for the black tie affair. It was lovely blue with tasteful white flowers arranged cleverly all over it. At least that's what I thought at the time I purchased it. Somehow, between the trip from the dress shop to the dinner, that dress turned on me.

Imagine my embarrassment—the minute I stepped into the room, those flowers began to grow and the previously lovely blue of the background became more garish by the min-

ute. On top of that, my high heels kept tangling together, so that by the end of the evening I looked like a staggering drunk in a huge flowered mu-mu. Or maybe a staggering Shirley Temple in a huge flowered mu-mu, for my hair had begun to curl in a most undisciplined manner.

You can imagine the effects all this had on me. By the time the evening was through, I was in total wilt. I wouldn't have been surprised if a piece of spinach had been sticking between my front teeth, or a leaf of lettuce hanging out of my ear. Naturally, my slip showed.

By the time we got back to the motel I could speak only in monosyllables, and O.E.,

claims I kept having nightmares, crying out, "No, you can't make me go to a tuuu!" The wilt was complete.

I suppose I should have looked on the good side of it. I remembered not to tuck my napkin under my chin, I didn't pick my nose, and I didn't er, well—surely there's something else I didn't do.

You'll recognize me if you ever see me in this wilted condition; I will gain 15 pounds in five minutes before your very eyes, and I will develop a slight case of hiccups. Just pat me on the head, I'll get over it eventually.

## PUBLIC NOTICE

SUMMARY OF PROPOSED  
**CONSTITUTIONAL AMENDMENTS**  
**GENERAL ELECTION NOV. 7, 1978**

### "The Tax Relief Amendment"

(H.J.R. 1)

H.J.R. 1 proposes an  
 amendment to the Texas

Constitution allowing the  
 legislature to exempt in-  
 tangible personal prop-  
 erty, requiring the legis-  
 lature to exempt certain  
 household goods and per-

sonal effects, and allow-  
 ing the legislature to  
 exempt all or part of the  
 personal property home-  
 stead from state and local  
 property taxation.

The amendment re-  
 quires the legislature to  
 provide for the taxation  
 of farm and ranch land  
 on the basis of its produc-  
 tive capacity instead of  
 its market value and al-  
 lows the legislature to  
 provide for the taxation  
 of timber land on its pro-  
 ductive capacity.

The amendment per-  
 mits local governments to  
 extend the present exemp-  
 tion of not less than  
 \$3,000 of the residence  
 homestead of persons 65  
 and older to include cer-  
 tain disabled persons.

The amendment grants  
 an exemption from public  
 school property taxes of  
 \$5,000 of the market value  
 of the residence home-  
 stead. It authorizes the  
 legislature to grant an  
 additional exemption from  
 public school property  
 taxes of an amount not  
 to exceed \$10,000 of the  
 market value of the resi-  
 dence homesteads of per-  
 sons 65 years of age or  
 older and certain disabled  
 persons. If a person 65  
 years of age or older  
 qualifies for this exemp-  
 tion, the total amount of  
 public school taxes im-  
 posed on that person's  
 homestead may not be in-  
 creased.

The amendment pre-  
 vents local governments  
 from increasing property  
 taxes unless the govern-  
 ing body provides public  
 notice and conducts a  
 public hearing. The  
 amendment requires the  
 legislature to provide by  
 law for each property  
 owner to receive notice of  
 the revaluation of his  
 property and the amount  
 taxes will be increased.

The amendment limits  
 appropriations from state  
 tax revenue to an amount  
 not to exceed Texas' es-  
 timated economic growth  
 rate, with the legislature  
 authorized to make excep-  
 tions for emergencies.

The amendment pro-  
 hibits the statewide ap-  
 praisal of real property  
 for property tax pur-  
 poses. Enforcement of  
 uniform standards and  
 procedures for appraisal  
 of property for property  
 tax purposes is required  
 to originate in the taxing  
 authority where the prop-  
 erty tax is imposed.

The wording of the  
 proposed amendment as  
 it will appear on the bal-  
 lot is as follows:

"The constitutional  
 amendment providing for  
 tax relief for residential  
 homesteads, elderly per-  
 sons, disabled persons,  
 and agricultural land; for  
 personal property exemp-  
 tions; for truth in taxa-  
 tion procedures, including

citizen involvement; for  
 a redefinition of the tax  
 base; for limitations on  
 state spending; and for  
 property tax adminis-  
 tration."

### NUMBER ONE (S.J.R. 50)

S.J.R. 50 proposes an  
 amendment to the Texas  
 Constitution to delete an  
 archaic reference to the  
 "Deaf and Dumb Asy-  
 lum." The amendment  
 would allow the State of  
 Texas to purchase prod-  
 ucts and services done by  
 handicapped individuals  
 in nonprofit rehabilita-  
 tion facilities with bid re-  
 quirements applicable to  
 other state contracts. The  
 amendment also would  
 eliminate the formality of  
 the approval of certain  
 state contracts by the  
 Governor, the Secretary  
 of State and the Compt-  
 roller of Public Ac-  
 counts.

The wording of the pro-  
 posed amendment as it  
 will appear on the ballot  
 is as follows:

"The constitutional  
 amendment deleting the  
 archaic reference to the  
 'Deaf and Dumb Asylum,'  
 allowing certain products  
 and services of handi-  
 capped individuals to be  
 used by agencies and de-  
 partments of state gov-  
 ernment, requiring the  
 procurement of other  
 products and services re-  
 quired in the operation of  
 state government to be  
 made under bids awarded  
 to the lowest responsible  
 bidder, making all such  
 procurement processes  
 subject to laws enacted  
 by the legislature, and  
 eliminating the require-  
 ment that the Governor,  
 the Secretary of State,  
 and the Comptroller of  
 Public Accounts of Texas  
 be personally involved  
 with such transactions."

### NUMBER TWO (S.J.R. 55)

S.J.R. 55 proposes an  
 amendment to the Texas  
 Constitution to permit  
 local governments to issue  
 bonds for the reconstruc-  
 tion or acquisition of fa-  
 cilities (land, equipment  
 and improvements) de-  
 signed to develop employ-  
 ment opportunities. These  
 bonds would be payable  
 solely from the revenue  
 from the sale or lease of  
 these facilities. The build-  
 ing or acquisition of such  
 facilities must be deter-  
 mined by the local gov-  
 ernment to be necessary  
 to develop employment  
 opportunities.

The wording of the pro-  
 posed amendment as it  
 will appear on the ballot  
 is as follows:

"The constitutional  
 amendment to provide  
 that the legislature may  
 permit political subdivi-  
 sions to issue revenue

bonds to develop employ-  
 ment opportunities for its  
 citizens."

### NUMBER THREE (S.J.R. 44)

S.J.R. 44 proposes an  
 amendment to the Texas  
 Constitution which would  
 allow the legislature to  
 issue tax increment  
 bonds to finance the re-  
 development of blighted  
 areas. The bonds are to  
 be paid solely from re-  
 venue from municipal tax  
 increments. Payment can-  
 not be made from the  
 revenue of municipal  
 taxes, utilities, or other  
 services.

The wording of the pro-  
 posed amendment as it  
 will appear on the ballot  
 is as follows:

"The constitutional  
 amendment to give the  
 legislature the power to  
 authorize cities and towns  
 to issue bonds to finance  
 the redevelopment of  
 blighted areas and pro-  
 hibiting any city or town  
 from granting its money  
 or lending its credit for  
 such purposes."

### NUMBER FOUR (S.J.R. 53)

S.J.R. 53 proposes an  
 amendment to the Texas  
 Constitution to allow the  
 legislature to exempt from  
 taxation solar or wind-  
 powered energy devices.

The wording of the pro-  
 posed amendment as it  
 will appear on the ballot  
 is as follows:

"The constitutional  
 amendment authorizing  
 the legislature to exempt  
 from taxation solar and  
 wind-powered energy de-  
 vices."

### NUMBER FIVE (H.J.R. 37)

H.J.R. 37 proposes an  
 amendment to the Texas  
 Constitution to grant ex-  
 clusive jurisdiction to  
 justices of the peace in  
 civil cases where the  
 amount in controversy  
 does not exceed \$200, ex-  
 cept where the legisla-  
 ture gives exclusive juris-  
 diction to another court.

The amendment grants  
 justices of the peace con-  
 current jurisdiction with  
 county courts where the  
 amount in controversy is  
 between \$200 and \$500,  
 except where the legisla-  
 ture gives the county  
 court exclusive juris-  
 diction.

The amendment also  
 grants justices of the  
 peace concurrent juris-  
 diction with both county  
 and district courts where  
 the amount in controversy  
 is between \$500 and \$1,000,  
 except where the legisla-  
 ture gives the county or  
 district court exclusive  
 jurisdiction.

The wording of the pro-  
 posed amendment as it  
 will appear on the ballot  
 is as follows:

will appear on the ballot  
 is as follows:

"The constitutional  
 amendment to extend the  
 jurisdiction of justices of  
 the peace in civil cases."

### NUMBER SIX (S.J.R. 45)

S.J.R. 45 proposes an  
 amendment to the Texas  
 Constitution to allow the  
 legislature to expand the  
 number of judges on any  
 court of civil appeals.  
 Presently courts of civil  
 appeals are limited to a  
 chief justice and two as-  
 sociate justices. The  
 amendment also would al-  
 low the courts to sit in  
 sections, with the con-  
 currence of a majority of  
 the judges sitting in the  
 section necessary to decide  
 a case.

The wording of the pro-  
 posed amendment as it  
 will appear on the ballot  
 is as follows:

"The constitutional  
 amendment permitting  
 the legislature to in-  
 crease the number of jus-  
 tices on a court of civil  
 appeals, permitting a court  
 of civil appeals to sit in  
 sections, and requiring a  
 majority of justices to  
 decide a case."

### NUMBER SEVEN (S.J.R. 48)

S.J.R. 48 proposes an  
 amendment to the Texas  
 Constitution eliminating  
 the State Building Com-  
 mission and the State  
 Building Fund. The au-  
 thority of the State Build-  
 ing Commission has been  
 transferred by law to the  
 State Board of Control.

The wording of the pro-  
 posed amendment as it  
 will appear on the ballot  
 is as follows:

"The constitutional  
 amendment to repeal the  
 constitutional authority  
 for the State Building  
 Commission and the State  
 Building Fund."

### NUMBER EIGHT (H.J.R. 42)

H.J.R. 42 proposes an  
 amendment to the Texas  
 Constitution allowing cer-  
 tain political subdivisions  
 or districts in the state  
 that can presently issue  
 bonds or otherwise lend  
 their credit to engage in  
 fire-fighting activities and  
 to issue bonds or other-  
 wise lend their credit to  
 support such activities.

The wording of the pro-  
 posed amendment as it  
 will appear on the ballot  
 is as follows:

"The constitutional  
 amendments authorizing  
 certain districts to engage  
 in fire-fighting activities  
 and to issue bonds or  
 otherwise indebtedness or  
 to issue bonds or other-  
 wise lend their credit for  
 fire-fighting purposes."
