VOLUME 73

McLEAN, GRAY COUNTY, TEXAS - THURSDAY, JUNE 24, 1976

NUMBER 26

Lee Roy McCracken Funeral Services Held Wednesday

Funeral services were held Wednesday at 3 pm at the First United Methodist Church for Lee Roy McCracken, 85, with the Rev. Jack Riley of Trinity Methodist Church of Amarillo, and the Rev. John Merrill of First United Methodist Church, officiating. Burial with Masonic rites will be in Hillcrest Cemetery by Lamb Funeral Home.

Mr. McCracken was born south of Alanreed in Bailey County. He had lived all his life in the Alanreed and McLean area. He was a retired gentleman and farmer.

Mr. McCracken was a member of the First United Methodist Church and Masonic Lodge No. 99 in McLean. He was married to the former Mary Hunter in Sayre, Okla., in 1908.

Survivors include the widow, three sons, Donald of Amarillo, Lee Roy of Vega and Ernie of McLean; two daughters, Mrs. Trilby Bildback of Amarillo, Mrs. Irma Hayter of Lefors; two sisters, Mrs. Fidel Hobbs and Mrs. Dot Eachern, both of McLean; and seven grandchildren.

Don E. Woods Assigned To Turkey

Captain Don E. Woods has been re-assigned to the Joint United States Military Mission in Ankara, Turkey, as Chief Legal Advisor for agreements and negotiations. This program is designed to assist Turkey in developing the military strength needed to support its NATO and NATO commitments.

Captain Woods is a 1967 graduate of Texas A&M University, holds a Doctorate of Jurisprudence degree from University of Houston School of Law in 1970 and a Master of Laws degree from Southern Methodist University (1976). He has been a member of Texas Bar Association since 1970.

He received his Commission in USAF in 1967 and served in South East Asia where he received Bronze Star, the Vietnam Service Medal and Viet Nam Campaign Medal.

Captain Woods and his wife, Pia, have two boys. He is the son of Mr. and Mrs. A. J. Woods of McLean.

80 Youngsters Enroll Enroll In Summer Reading Program

Young readers at Lovett Memorial Library are participating this summer in the Summer Reading Club, co-sponsored by the library and the Texas State Library. There have been 80 enroll in the program in McLean.

They are among more than 100,000 youngsters from throughout the state who will be spending part of their summer vacations reading for fun this year. They will be keeping records of what they have read in red, white, and blue reading logs. "Movin' On . . . Then and Now" is the theme for 1976. Children dressed in appropriate costumes are shown in a canoe, horse-drawn trolley, balloon, early train, stagecoach, early automobile, steamboat, biplane, helicopter, and moon rover. These pictures appear on the posters as well as on the reading log/activity books that each participant will receive. Each reading log also includes a cut-out figure that may be used to move across a time line that shows vehicles in their proper place in history.

Public library summer reading programs focus upon reading for enjoyment. Public library collections include a wide range of both informational materials and fiction. In addition to the books they read as participants in the Reading Club, youngsters will also see films, puppet shows, and other programs that will be carried on in the libraries.

The project coordinator is Martha Parker.

Social Security Help Available

You can obtain social security help by going by the Social Security office at 1541 North Hobart Street, in Pampa or by telephoning 669-3381 between the hours of 9 am and 4:45 pm, Monday through Friday, except national holidays.

A field representative will be in Shamrock on Mondays from 9:45 to 12 pm at 113 W. 2nd st.

A representative is available to explain the provisions of the social security act and answer questions at meetings of farm groups, unions, and other interested organizations. There are no charges for any of these services.

City Receives Tax Return Check

Bullock mailed checks totaling \$48.9 million to 846 cities and towns as the June rebate of the one-cent city sales tax they collect.

City rebates for 1976 are running 12.5 percent ahead of 1975, he said. Rebates through June of 1975 totaled \$129.2 million, he noted, while they total \$145.4 million through June of this year.

McLean received a tax return check for \$2,763,53.

Comptroller Bob Bullock warned Tuesday that many Texas businesses are ignoring the use tax and may run into costly problems when visited by his auditors.

"It's called the sales and use tax," said Bullock. "But too many people don't understand what the second part of that means."

The Comptroller said the biggest part of the problem is with businesses that do not sell retail goods, have no sales and use tax permit, and never think about the tax when they buy equipment from outside the state.

"A bank, television or radio station, or any business requiring specialized equipment may buy that equipment from out-of-state without paying the Texas sales tax," he said. "In all those cases, however, they owe the Texas use tax on the total cost of the purchase."

Sam Haynes Wins Jr. Golf Tourney

On Monday, June 20, Sammy Don Haynes won first place in The West Texas Junior Golf Tour tournament at Clarendon Country Club.

Sam's score of 73 was the low score of the day and garnered first place honors in the 16-17 age division.

The victory qualifies the McLean High golfer to play in the Tournament of Champions to be held Aug. 3 and 4 at Big Spring, Texas.

Smith Reunion Set For July 4

The J. N. "Noah" Smith family reunion will be held July 4 at Central Park at Pampa. A covered dish dinner will be held at noon Sunday. All friends and relatives are invited.

TO REPORT YOUR VISITORS
CALL 799-2447.

RETIRED GRAY COUNTY AGENT HONORED Foster Whaley, left, who retired as Gray County Extension agent last January, was presented the Texas Superior Service Award for educational programs and leadership in agriculture at the recent state conference of the Texas Agricultural Extension Service at Texas A&M University. Presenting the award was Dr. Daniel C. Pfannstiel, Extension director.

SWCD Board Have Meeting

The Gray County Soil & Water Conservation District Board met at 2:00 p.m. June 16 at the Gray County Courthouse Annex for their regular monthly meeting.

The conservation plan on J. R. Huff was approved.

They discussed the progress on easements and subordinate agreements on McClellan Creek and Red Deer Creek Watersheds.

Plans for the Panhandle Soil & Water Conservation District Association meeting to be held in Pampa, August 25th were discussed.

Class of 1926 Have Reunion

The 1926 class of McLean High School met June 14, in the home of Mr. and Mrs. Elmer Ware for a 50th year reunion. Eight members of the class of twenty-two were present. Those attending were Mrs. Mildred Rogers Windom and Mrs. Vina Stratton Meier from Amarillo, Mr. and Mrs. Leslie Huff from Salado, Mr. and Mrs. E. O. Dennis and Mr. Tom G. Clark from Oklahoma City, Oklahoma, Mr. and Mrs. Emory Crockett, Mr. and Mrs. Milton Carpenter, Mrs. Vivian Grigsby and Mr. Arthur Dwyer from McLean.

Mr. and Mrs. Wallace Grimsley were visiting Mr. Grimsley's father in Pampa on Father's Day.

Cuba Collie Buried Wednesday

Mrs. Cuba Eunice Collie, 76, died Monday.

Funeral services were Wednesday at 10 a.m. with Rev. Guy Don Pharis and Rev. Ricky Wayne Collie officiating. Burial was in Hillcrest Cemetery by Lamb Funeral Home.

Mrs. Collie was born in Sidney, Ark., and came here from Mount Pleasant, Ark., in 1928. She married Ross Collie in Mount Pleasant in 1919 and was a member of the First Baptist Church.

Surviving are two daughters, Mrs. Juanita Pharis of McLean and Mrs. Frances Shelton of Stinnett; two sons, Ralph Thurl of Dumas and Jack of Amarillo; three sisters, Mrs. Josea Ford of Yuma, Ariz., Mrs. Mae Ford of Little Rock, Ark., and Mrs. Stella Conyers of Mount Pleasant; two brothers, Alvis and Homer Bray, both of Mount Pleasant; 11 grandchildren and five great-grandchildren.

Kelly Moore Wins Four First Places

Kelly Moore, the 15 year old daughter of Mr. and Mrs. W. C. Moore of McLean, competed in the N. Amarillo Lions Charity Horse Show June 18 and 19 in Amarillo.

Entering eight events with her 15 year old pony Cracker Jack, she took 1st place in four events—English Pleasure, Western Pleasure, English Equitation, and Pony Barrels. Kelly also won two 2nd place ribbons and one fourth.

USDH Proposes Test Procedures For Food Stamp Program

Testing of new administrative procedures, such as photo identification cards for food stamp users, could be allowed by the U. S. Department of Agriculture (USDA) under a proposed amendment to Food Stamp Program regulations.

USDA is planning to test the use of photo identification cards—in hopes of stopping unauthorized persons from getting food stamps.

This testing would allow the Secretary of Agriculture to evaluate test projects on a small scale, for possible national use. The proposed amendment gives states a chance to show administrative and cost benefits of procedures not currently authorized by program regulations. The proposal also outlines the way states may request the Secretary's approval to carry out test projects.

Comments are invited on the proposed amendment, scheduled for publication in the Federal Register of June 11. Comments should be mailed or delivered in writing to Nancy Snyder, Director, Food Stamp Division, Food and Nutrition Service, U. S. Department of Agriculture, Washington, D. C. 20250, to be received no later than June 26.

All comments received will be open to public inspection.

Richard Evans Is Tech Graduate

Richard Z. Evans, a 1971 graduate of McLean High School and son of Mrs. Joyce Evans of Canadian, received a bachelor of science degree in business administration at Texas Tech University this spring.

He and his wife, the former Jennifer Haynes of McLean, live on Route 8, Lubbock, where he is employed as assistant manager of Sun Acres. Mrs. Richard Evans is the daughter of Mr. and Mrs. Sam A. Haynes of McLean. She will enter Texas Tech University this fall.

Miss Alice Hommel of Dallas attended the Alanreed Homecoming Sunday, June 13, and visited her brothers and wives, Mr. and Mrs. W. O. Hommel of Alanreed and Mr. and Mrs. Frank Hommel of Clarendon, and her niece, Mr. and Mrs. W. R. Cullison of McLean.

Saddle Shop To Have Grand Opening

A grand opening will be held this coming Friday, June 25 of the Bob Marrs Saddle Shop and Western Art Gallery in Clarendon. The shop which is located at 204 S. Kerney, specialized in handmade saddles and western art.

Mr. Marrs invites everyone to come by and visit on their grand opening. Door prizes will be given.

Safe Boating Advised For Fourth of July

The July 4 three-day weekend is sure to increase the traffic on Texas roads--and on our waterways. With boat owners numbering almost half a million, Texas Safety Association, in recognition of Safe Boating Week, July 4-10, reminds boaters to keep an eye out for each other.

Each year between 400 and 500 Texans die in drowning accidents, mainly during holiday periods. To assure that your holiday is free from injury, keep in mind these boating safety tips: *Check to see that your boat and trailer are in tip-top shape before leaving home.

*Always have sufficient life preservers accessible to everyone on board.

*Carry filled fire extinguishers--and use caution when filling fuel tanks.

*Remember that the rules for safe driving apply on the water, too.

Hot rodding and drinking while boating are taboo!

Water safety rules also apply to fisherman,

Market Report

Cantaloupe and honeydew melons are good choices, pricewise, at most Texas grocery stores currently, Mrs. Gwendolyn Clyatt reports.

Mrs. Clyatt is a consumer marketing information specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

Also, this is the season for Granny Smith apples from New Zealand--and they're good for eating fresh or for cooking.

First-of-the-season fruits appearing on the market include Bing cherries, Perlette grapes, peaches, nectarines and plums.

These are rather costly now, but prices have already started trending downward.

Fresh vegetables now in adequate supply--especially good in salads--are tomatoes, radishes, spinach, Romaine, green onions, new-crop green cabbage, cucumbers and a variety of leaf lettuces.

Also, sliced zucchini squash is an appetizing addition to the salad bowl.

Budget buys in the fresh-vegetable department are carrots, yellow onions and red potatoes, while corn offers tasty eating at attractive prices.

If consumers want to can or freeze corn for later use, they should start looking for those good corn values now.

At meat counters, beef is a frequent feature--with cuts on "special" mainly from chuck and round, along with an occasional bargain on tender-steak cuts.

Of all the major foods, only pork is listed in light supply. That is, less than we normally need.

1976 Hunting Seasons Set

The new 1976 hunting seasons have been set by the Texas Parks and Wildlife Commission and hunters can plan their outdoor trips to the field this fall.

Deer season for the Panhandle has been set for Nov. 20 through Dec. 5 and the season on the South Plains runs from Nov. 13 through Jan. 2. The turkey season in both regulatory regions runs concurrently with the deer season.

Texas deer and turkey hunters pumped over \$132 million dollars into the state economy last year according to a Texas Parks and Wildlife Department economic study. Sales of various hunting licenses, including the combination hunting and fishing license, accounted for some \$6.4 million of the total.

More than one-half million hunters harvested 348,953 white-tailed deer in 1975 and 11,066 mule deer were bagged in west Texas during the same period.

The turkey harvest increased 192 percent during the 1975 season and this increase over 1974 was attributed to a poor spring hatch and a conservative approach by landowners in the harvest of turkey on their property.

Quail hunters will have from Nov. 13, 1976 through Feb. 13, 1977 to hunt both scaled and bobwhite quail. Detailed in-

Mrs. Etta Brown Buried Today

Funeral services for Mrs. Etta Constance Brown, 87, were held at 2:30 p.m. today in the First United Methodist Church. The pastor, Rev. James Merrell, officiated and burial was in Hillcrest Cemetery by Lamb Funeral Home.

Mrs. Brown married Ben W. Brown in 1907 in Denton. They moved to Canadian in 1915 and to McLean in 1925. She was a member of the First United Methodist Church.

Survivors include two sons, Clyde and Pete, both of McLean; a sister, Mrs. Stella Stalling of Aubrey; three grandchildren and five great-grandchildren.

swimmers and water-skiers who will be enjoying the water along with boaters. Water-skiers, in particular, should remember to confine their skiing to areas where there is no swimming or skin diving; to wear approved life jackets; and, to exercise caution. Excessive speed and sudden contact with obstacles in unfamiliar channels can end the holiday in grief.

Texas Safety Association joins with the Texas Parks and Wildlife Department and U. S. Coast Guard Auxiliary in asking Texans to observe Safe Boating Week, July 4-10--and to continue the spirit of safe boating the whole year 'round.

AGONIZING PAIN FROM INGROWN TOENAIL? Get Outgro for fast relief

Why suffer the agony of ingrown toenail pain when Outgro can give you fast, temporary relief? Outgro toughens irritated skin, eases inflammation, reduces swelling without affecting the shape, growth or position of the nail. Outgro gives you fast pain relief, and makes it easier to cut out the nail--cut out the pain caused by ingrown toenail. Stop ingrown nail pain fast with Outgro.

NEW! HOMELITE SUPER 2 CHAIN SAW

- Lightweight--7.3 lbs.*
- 14" Power Tip® Guide Bar
- Deluxe cushioned handle bar
- Two triggers--one for big jobs like firewood, one for little jobs like pruning

\$159.95

*Less bar and chain

formation about each county will be available in the new 1976-77 Texas hunting and fishing guide. There are no changes in the daily or possession limit for these popular upland birds.

The antelope season for the Panhandle will be Oct. 2-5, and for the South Plains, Oct. 2-10. An aerial survey of the antelope is being conducted this month and results will be studied and predictions made later this summer.

The popular prairie chicken season for 12 of the Panhandle and South Plains counties will be Oct. 16-17 with no changes in bag limit or methods of harvest. A 21 percent increase in the number of birds counted on the booming grounds in the Panhandle suggests a good production year for the fast flying birds.

The tough aoudad sheep hunters will have Nov. 6-12 to bag their elusive quarry with only 33 percent of the hunters being successful over the last few years. Camouflage and alertness seems to typify these caprock-dwelling sheep.

Area pheasant hunters will again have two full weeks to chase the wily ringneck in the Panhandle when the season begins Dec. 11 and continues through Dec. 26.

Continued rains and good hatching and fawning conditions are being observed by P&WD personnel at the present time and a projected forecast of good hunting is indicated.

The new 1976-77 Texas hunting and fishing guide is in the final stages of production and it should be available at license vendors by Aug. 10. Complete county-by-

SHAMROCK, TEXAS

ACCENTS ON HEALTH

Texas Department of Health Resources
Fratris L. Duff M.D., Director

Statistics may never be a cancer, but they enable physicians throughout Texas to make decisions affecting the outcome of cases, reports the Texas Department of Health Resources.

Information can be used by physicians in determining survival rates and end results on cancer patients. It can be used in cancer investigations and research, as well as in professional education. Different physicians can compare therapy results to find the best treatment procedures.

At present, Texas has 180 hospitals with more than 100 beds. Currently, 52 hospitals participate in the Cancer Information Service and 17 others have indicated an interest in joining the system. Goal is to have all hospitals with more than 100 beds participating. The expanded service should pick up more than 90 percent of new cancer cases and establish a method for closer followup with cancer patients who are receiving treatment or who have been treated.

"Any hospital with a cancer program which desires approval by the American College of Surgeons must have a 90 percent followup of cancer patients," says Amelia Menchetti, with the Chronic Disease Division of the Department. The Department of Health Resources system actually is an adjunct to the hospital and provides the base for their tumor registry program, she said.

Objectives of a Cancer Information Center are: (1) To support existing tumor registry programs in Texas with centralized computer capabilities; (2) To encourage continuing care of cancer patients through a systematic followup system; (3) To provide accurate cancer data in each hospital as well as in each Public Health Region or the entire state for comparability; (4) To provide cancer morbidity and survival information which can be used in continuing education programs; and (5) To provide an information base for more detailed epidemiological studies on the causes and treatment of cancer.

The basic goal of the program is the continuing care of the cancer patients--to stimulate followup treatment. "If doctors and patients know that we have basic information and are interested in a followup, it will help in getting the patient back into the doctor's office," said Ms. Menchetti.

By having all the information and drawing it from a large population, physicians can determine what modality of treatment is best for their individual patients, she said. "Doctors can look at the broad picture over a period of years--or by using case histories of many patients--to determine a treatment regimen," said Ms. Menchetti.

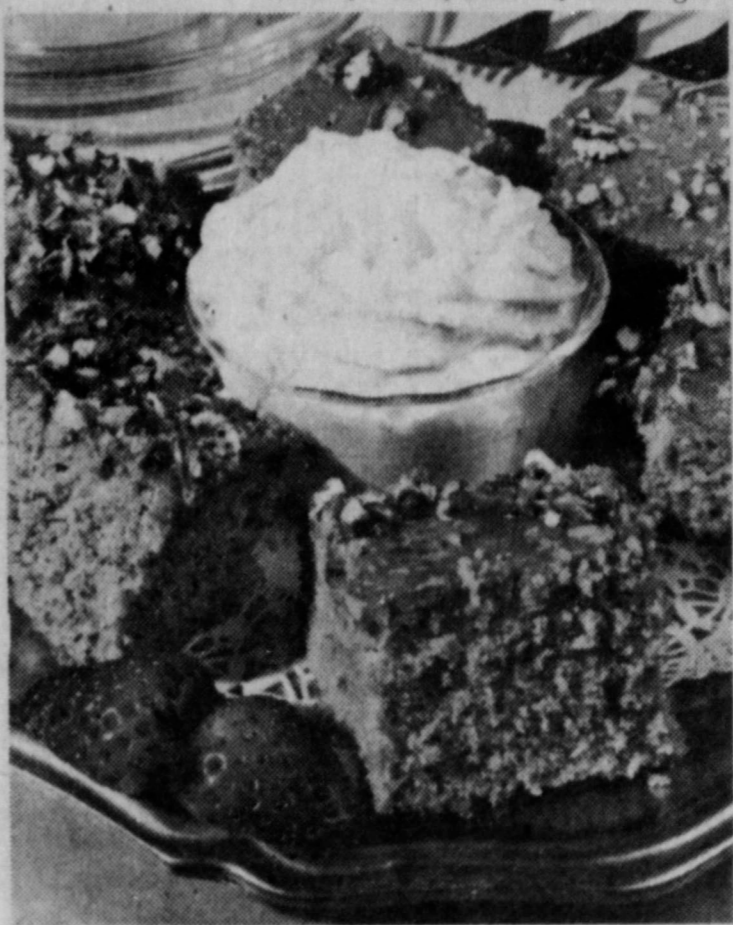

Variations in cancer--not only by nationality but by areas of the state--may become more apparent when the registry is extended. It is known, for example, that there is more skin cancer in certain areas than elsewhere. Statistics may show, for example, whether there is a higher incidence of liver or kidney and bladder cancers in metropolitan areas with more carcinogens in the atmosphere.

Clear trends in some cancers have been found. For instance, the overall incidence of lung cancer among men is increasing. But, among black men the incidence is substantially higher. The most common cancer in the male is cancer of the lungs, and about 95 percent of new patients die in the first year since few cases are diagnosed in the early state.

A striking racial difference has been seen in cervical cancer. In one study, invasive cancer of the cervix in black women was twice that found in white women.

"We also know," said Ms. Menchetti, "that cancer of the stomach is decreasing, but cancer of the pancreas is on the upswing and mortality is very high."

With detailed information from each patient in every hospital, comparisons can be made. Comprehensive studies are being made, and statistical data will enable researchers to do further epidemiological studies.

NEW VERSION OF CAKE AND ICE CREAM—Ice Cream Cake is a new version of popular cake and ice cream desserts because the ice cream is mixed with the cake batter, according to the Texas Department of Agriculture home economist. Ice cream topping, sour cream and chopped pecans top the baked cake to make a delicious summertime treat.

from the TAP kitchen

Texas Department of Agriculture—John C. White, Commissioner

ICE CREAM CAKE

- | | |
|---|---------------------------------|
| 1/2 cup butter | 1/2 tsp. salt |
| 1 pint (2 cups) vanilla ice cream, softened | 1 cup graham cracker crumbs |
| 2 eggs | 1/2 cup sour cream |
| 1-1/2 cups all-purpose flour | 1 cup caramel ice cream topping |
| 2/3 cup sugar | 1/2 cup chopped pecans |
| 1 tsp. baking powder | Whipped cream, if desired |

In 3-quart saucepan, melt butter; remove from heat. Add ice cream, eggs, flour, sugar, baking powder, salt and graham cracker crumbs. Mix until smooth. Pour into a greased 13 x 9-inch pan. Bake at 350 degrees for 30 minutes. While cake bakes, combine sour cream and caramel ice cream topping. Pour over warm cake. Top with chopped pecans. Cool cake and cut into squares. If desired, top with whipped cream. Yield: 20 squares.

For additional dairy recipes send a postcard request to Commissioner John C. White, Texas Department of Agriculture, P.O. Box 12847, Austin, Texas 78711.

*In Loving Memory of Kevin
Our bright, life-loving,
Red-haired Grandson —
Who was the Sunshine Of our lives.*

HE IS JUST AWAY

I cannot say, and I will not say
That he is dead—he is just away!
With a cheery smile, and a wave of the hand,
He has wandered into an unknown land.
And left us dreaming how very fair
It needs must be, since he lingers there.
And you—O you, who the wildest yearn
For the old time step and glad return.
Think of him faring on, as dead;
In the love of There as the love of Here;
Think of him still as the same, I say:
He is not dead—he is just away!

LIVING SACRIFICES

A most profound and revealing passage of scripture is found in Romans 12:1-2 which reads: "beseech you therefore, brethren, by the mercies of God, that ye present your bodies a living sacrifice, holy, acceptable unto God, which is your reasonable service. And be not conformed to this world; but be ye transformed by the renewing of your mind, that ye may prove what is that good, acceptable, and perfect will of God."

There was a time in God's dealing with man when the expected man to offer animal sacrifices. The Old Testament books of Leviticus and Deuteronomy are filled with laws and regulations concerning these sacrifices. Man is no longer commanded by God to offer animal sacrifices unto God; that time has passed. (Jer. 31:31-34; Heb. 10:1-13) There is however, a sacrifice that God expects us to offer. Paul told the Romans that they were to offer their bodies as a living sacrifice. Compare with Gal. 2:20 He also reminded them of us, that this was not an unreasonable demand of God, but was what he termed "reasonable service."

The animal sacrifices offered by people living before the coming of Christ were to be without blemish -- as nearly perfect as possible. The same truth applies with equal force to the living sacrifices of our bodies. Only when one keeps his body pure and undefiled can he know that he is offering an acceptable sacrifice unto God. Is your body being offered as a living sacrifice to God or Satan? If unto God, is it the cleanest, best, and most undefiled sacrifice you are capable of offering?

A further instruction from this text is that we are not conformed (or fashioned) according to this world. The pattern for the Christian's life is not the same pattern used by the average person in this world. The genuine Christian will not yield to the pressures which come to bear upon his life -- pressures which encourage him to lower his standards so that he would think, speak, and act like a person of the world. If you get the idea from reading Romans 12:1-2 that a Christian is to live differently in that he lives on a higher plane, you're entirely right!

DOWN MEMORY LANE

10 YEARS AGO

The golf tournament sponsored by the McLean Jaycees had four entries in all, with Pat Windom being the winner.

20 YEARS AGO

Dedication ceremonies for the new McLean Hospital-Clinic will begin Sunday afternoon, July 1 at 2:30 p.m.

Jerry and Eddie Kunkel, sons of Mr. and Mrs. Oba Kunkel, recently received certificate awards for service rendered during the snow-storm in February.

Mr. and Mrs. Kenneth Preston of Amarillo are the parents of a boy born June 20.

30 YEARS AGO

The remodeling of the Baptist Church is progressing rapidly, although no date has been set for actual occupancy, evidence points to an early one.

A 2.32 inch rain fell Tuesday evening accompanied by some hail.

40 YEARS AGO

A slight tremor was felt here last Friday night about 9:20 noticed by several citizens.

Married June 15, 1936, at Clovis, N. M., by Justice of Peace McConnell Miss Addie B. Mantooth and Mr. J. D. Tedder.

The Lone Star Theatre, McLean's newest addition to the business district, will be formally opened Wednesday night.

Following a warm spell, the past few days have been much cooler.

50 YEARS AGO

With six new locations for oil wells beginning operation the past radius of McLean, this community is rapidly taking on the appearance of a

real oil boom.

Mr. and Mrs. J. T. Glass served dinner at a family reunion Sunday. W. B. Upham bought a choice residence block in McLean from Mrs. J. L. Crabtree last week.

The stores occupied by T. J. Coffey and Brother and Puckett's Grocery on the west side of Main Street are boasting new awnings for the front of their buildings this week.

Vocational Agriculture will be taught in McLean school next fall.

Texas Pecan Crop Ranks 2nd in Nation

AUSTIN—Texas ranked second in the nation in pecan production during 1975, according to Agriculture Commissioner John C. White.

The crop, totaling 50 million pounds, was valued at \$19,920,000.

White noted that despite problems with pecan scab, webworms and excessive rainfall, production showed an increase over the 1974 harvest of only 38 million pounds.

Production was scattered throughout most of the eastern two-thirds of the state, with some production coming from the relatively new plantings in the Trans-Pecos and on the High Plains.

The leading counties in pecan production were: Hood, 4.38 million pounds; Comanche, 3.22 million; Gonzales, 3.15 million; Tarrant, 2.97 million; and Colorado, 2.47 million.

Visiting Drucie Dwyer last week were her grandchildren, David and Mary McCoy and Mike of Canyon. Visiting her Sunday was her son, Carl Dwyer of Pampa.

A Weekly Report Of Agri-Business News

Compiled From Sources Of The
TEXAS DEPARTMENT OF AGRICULTURE
John C. White, Commissioner

This Is Dairy Month... Peaches And Cream... Vegetables And Grains.

It's the time of year again to salute the dairy industry of Texas, a vital part of our agricultural economy. Dairy men have long since taken the lead in developing marketing and promotion programs for their products. They have also been innovators in producing a top-quality product.

Milk is untouched by human hands from the time it leaves the cow until you and I open up the carton in our homes. Milk is best described as "nature's most perfect food."

A number of activities are in progress throughout the state recognizing the importance of the dairy industry to the Texas economy. Dairy industry people suggest that we all drink an extra glass of milk every day this month, and then continue that throughout the year.

Although the number of dairymen in the state has been declining in recent years, the dairyman today is still doing business in most parts of the state. East Texas is the home of most of our dairies, with Hopkins County tops in both production and number of milk cows. Other top counties in milk production in Texas include Erath, Wise, Johnson, Grimes, Comanche, Cooke, Archer, El Paso, and Wood.

Counties in the top 10 in milk cows in addition to Hopkins include Erath, Wise, Grimes, Johnson, Comanche, Cooke, Archer, Wood, and Franklin. Texas is among the top 10 states in milk production and number of milk cows, ranking ninth in both categories.

While you enjoy an extra glass of milk every day this month, add to it peaches or other fresh fruit now available to you.

PEACH HARVEST THROUGHOUT THE STATE remains active and a crop about 40 per cent larger than last year is anticipated.

In the Rio Grande Valley, cucumbers, sweet corn, and okra are available in good supplies. At Laredo, melon harvest continues active and onion harvest is virtually completed.

In Central Texas, tomato harvest is underway. Tomato harvest is also underway in East Texas and supplies of sweet corn and snap beans are also available.

The quality of melons is reported excellent in the Coastal Bend area.

MEANWHILE, STATEWIDE WHEAT HARVESTING continues. Yields of dryland wheat vary considerably and, overall, the crop this year will be about 40 per cent under that of a year ago.

Sorghum conditions vary throughout the state. A good crop is in prospect in Central Texas; planting on the Plains is continuing.

Range conditions have improved throughout much of the state. However, screwworms continue to increase.

LIVESTOCK PRODUCERS ARE URGED to check their livestock regularly, treat wounds on livestock with approved screwworm control remedies; delay surgery on livestock as long as possible, and submit suspected samples to the fly lab at Mission.

South Africans Visit McLean

A group of about 25 South African cattlemen and their wives toured the Panhandle Hereford Industry last week as part of a 23-day excursion which will take them to the 1976 World Hereford Conference in Canada.

Mr. and Mrs. Faris Jake Hess were hosts to the group Friday afternoon for a tour of the McLean Cattle Co. feedlot and the Hess Hereford Ranching enterprise.

The Hess' attended the 1972 World Hereford Conference held in South Africa. In the group of

visiting South Africans they found one couple whom they had met there, Deryck and Kathleen Vincent of Val, South Africa.

The visit ended with refreshments at the ranch home of Steve Wenrich. Mrs. Hess selected watermelon to be included in the refreshments, intending to give the visitors a American treat. However, one of her guests informed her that watermelon is common enough in South Africa, though it is not now in season.

Following refreshments the visitors reboarded their bus and continued on to view the "texas" pageant in Palo Dura Canyon.

V. L. Hoff Buried At Alanreed

Funeral services were held for Volley Lewis "Ted" Hoff, 69, at Boxwell Brothers Ivy Chapel with the Rev. Jack Sismore, pastor of Olsen Park Baptist Church, officiating. Burial was in Alanreed Cemetery.

Mr. Hoff, who died Wednesday, was born in Gray County and had been a resident of Gruber for three years. He was a Baptist and a retired employee of Skelly Oil Co.

Survivors include the widow, Ada B.; one daughter, Mrs. Joy Mae Hartman of Amarillo; three sisters, Mrs. Nora Wilson of Wichita Falls, Mrs. Linnie Wilson of Fritch and Mrs. Billie McCarty of Aransas Pass; and two brothers, Lee of Fritch and George of Borger.

Chrysanthemums For Fall Color

Now is as good a time as any to start preparing for your fall flower garden. And, because chrysanthemums are colorful and long lasting, they make a good choice.

Everett Janne, a horticulturist for the Texas Agricultural Extension Service, says rooted cuttings of chrysanthemums that are planted in June will have a shorter growing season and will produce compact plants that do not need much staking.

"Plant chrysanthemums in a sunny area in fertile soil," recommends Janne. "It's a good idea to apply a complete fertilizer at the rate of two to three pounds per 100 square feet of soil. Work the fertilizer into the top six inches of soil and water thoroughly after applying."

Planting on an elevated site lessens the danger of frost, and a mulch of sawdust, bark, woodchips or peat moss around the plants help conserve moisture and cuts down on weeds.

Janne advises applying a sidedressing of ammonium sulfate fertilizer six weeks after planting at the rate of one-half pound of fertilizer per 50 feet of row. After applying the ferti-

lizer, water well. Another sidedressing may be applied in mid-August.

"For compact plants and a lot of flowers, pinch one inch off the end of each new shoot when the shoots are three inches long," says the Texas A&M University System's horticulturist. "This will make the side buds grow, causing plants to spread out and produce more blooms. Plants may need to be pinched three times, but no pinching should be done after July."

If you want large flowers with long stems, remove all side buds from the plants in late August. This will allow the food to go straight to the end of the stem, causing large flowers, Janne explains. Of course, taller plants will need to be staked.

Mr. and Mrs. Leroy Williams met their children at Lake Greenbelt Sunday for a picnic and fishing trip. They were also accompanied by their aunt Esther.

Mr. and Mrs. Carey Don Smith and family visited Mrs. Smith's grandfather at Pampa Sunday.

Mrs. Aline Winegeart visited her father in Pampa Friday and F. B. Carter at the Leisure Lodge.

Alanreed School Equalization Board To Meet

The equalization board for the Alanreed Schools will meet with the oil companies at 9 am Wednesday July 14. They will meet with local citizens on the same day at 1 pm.

Baby Shower Held For Evelyn Shaw

June 17 a Surprise Baby Shower was held for Evelyn Shaw by her Beta Sigma Phi Sorority sisters. Guests enjoyed a pink and blue bootie cake made by Nancy Billingsley and served with Cokes.

Those attending were Naomi Ashcraft, Nancy Billingsley, Sonje Heasley, Linda McDonald, Loyce Parker, Jeannie Smith, Linda Smith, Jacque Gillispie, Shirley Stokes, Betty Throckmorton, Billie Kingston, Frankie Smith, Betty Hawkins and the honoree. Those sending gifts who did not attend were Ann Turpen, Joyce Eck and Mary Lou Glass.

Hobi Club Meet In Lankford Home

The Swa-Pa-Hobi club met Tuesday, June 15 in the home of Ramah Lankford, for the monthly meeting.

President Lucy Goldston called the meeting to order, and all stood and repeated the Club Prayer, in unison.

The roll call was answered with a helpful hint. The devotion was given by the hostess.

No work was done, but visiting was enjoyed by all.

Refreshments of cakes, coffee, and iced tea was served by the hostess to Bea Lester, Sophia Hutchison, Clara Reneau, Freda Bailey, Lucy Goldston, Emily Rippey, Loree Barker and Maggie Johnston.

The next meeting will be in the home of Bea Lester.

"Poise is the power to raise the eyebrows instead of the roof."

you and the LAW

PRESENTED BY THE STATE BAR OF TEXAS

Q: I bought a pair of boots under a lay-away plan, but am unable to complete the payments. Can I demand a refund of my payments made so far?

A: No. There is no law requiring the merchant to refund your payments on lay-away purchases. You should ask the merchant whether he will make such a refund before you begin making payments. If the merchant agrees and makes refunds, this agreement should be made in writing and a copy retained by the consumer.

Q: When I opened my new business, I was required to post a surety bond of what I considered to be a large amount before I could be issued a sales tax permit. A friend of mine in a similar business was required to post a much smaller bond. Why are bonding requirements different?

A: The bond is required under the Texas Sales Tax law for all new retail businesses. Normally, the bond amount is equal to three times the level of sales tax that the merchant estimates he will collect during three months. If that estimate proves too high or too low, his bond will be adjusted up or down to reflect his actual tax collections level. This adjustment will be made by the State Comptroller of Public Accounts through the Comptroller's field offices around the state. If the new retail merchant remits his sales tax collections properly during a two-year period, the bond

requirement can be removed.

Q: Is it necessary for me to appoint more than one executor in my will, in case the executor dies before I do?

A: No, but under Texas law it is advisable. If the only person named as executor in your will dies before you die, or dies before your estate has been settled, the court can appoint an administrator for the estate when a qualified person applies. However, it will be much less expensive and much more simple to settle your estate if your will names a second person who will take over as independent executor in case the first person dies before your estate has been settled. A court-appointed administrator, unlike an independent executor, must post a surety bond.

Q: My husband is behind in his child support payments — can he still have the right to visit my children?

A: Yes. Child support and visitation rights do not depend on each other. If your husband fails to pay his child support, your remedy would be to ask the court to enforce the child support order. Likewise, if your husband believes you are not fulfilling your obligation to allow him to visit the children as required by the divorce decree, your husband's course of action would be to ask the court to enforce the visitation rights order.

Send your questions to "You and the Law," State Bar of Texas, P.O. Box 12487, Austin, 78711. Answers may appear in columns in hypothetical terms; personal answers not possible.

NEWS

*** County ***
Agricultural Agent
 Texas A. & M. College
 Extension Service

by Joe VanZandt
 Wheat yield reports I hear have been above expectations. It is always good when yields turn

I really had thought that our wheat had the chance to turn out above average this year due to our weather conditions in April and May.

Once it started to rain this spring, generally most farmers received enough moisture to keep their wheat growing fairly well. Also this rain helped keep our temperatures below normal during the spring grain-making season. The temperature factor probably played a big part in helping to have good test weights and good yields. We just didn't have any real hot, dry windy days back there when the wheat was blooming and making grain.

The recent cattle-on-feed report estimated that in the 7 major cattle feeding states there was 7,254,000 head on feed, an increase of 24 percent from last year's record low number for June 1, but still 8 percent less than the same date in 1974.

According to the Western Livestock Roundup, feeder cattle prices probably will remain above slaughter cattle prices most of the time for the next three-four years. Renewed strength in the upcoming months may depend greatly on slaughter cattle prices. In this respect, owners of feeder cattle will be affected by marketing patterns of slaughter cattle. If feedlots return to a more current supply condition, feeder cattle prices probably will reach the high \$40's.

By fall, some weakness in slaughter cattle prices could be reflected in feeder cattle prices. Unfavorable returns to feedlots may limit what buyers are willing or able to pay for replacement cattle. If favorable weather persists and a

large feed grain crop is harvested, demand for feeder cattle may be sufficient to minimize a price decline from the expected summer peak.

All of this serves to point out that there are many current unknowns related to the cattle situation. The weather and marketing patterns of both fats and feeders as well as pork will play a big part in determining the actual path of cattle prices.

After having just returned from the College Station area, I can report that the Central Texas area is going to make a good crop of sorghum. Most of it is in the heading to bloom stage and appears to have adequate soil moisture to make a crop if no further rain is received. The grass condition had been excellent but was declining as pastures were beginning to dry out somewhat. There was still ample forage available and it was still green. Most cattle appeared to be in good condition.

I had several inquiries about what all the moths were that invaded everyone's house a few weeks back. These were the adult, butterfly stage of cutworms. One reason we seemed to have a lot this year could probably be attributed to the mild winter we had. There wasn't the natural die-off that very cold weather can cause. There just isn't much that can be done to prevent or control them because as adults they do not feed on anything. They seem to be attracted great distances by lights.

News From ALAN REED

Virginia Dalton of McLean and Lena Carter visited F. B. Carter in Leisure Lodge in Pampa on Sunday.

The Robert Bruces spent the weekend in Jacksboro with the Jimmy Dewebbers.

The Bill Crisps spent Father's Day with the David Frizzels at Lockney.

The Bert McKees had their daughter, Margie and her family visiting over the weekend.

Miss Gay Thames, daughter of Rev. and Mrs. Thames and member of Wayland Baptist choir, gave a talk on the choir's tour of Europe.

Mr. and Mrs. Raymond Smith and Jo and Sandy Blaylock returned recently from Beaumont where they attended a family reunion. There were 88 present.

State Park Offers Variety

Spectacular scenery, camping, hiking and the musical drama "Texas" highlight a typical summer day at Palo Duro State park east of Canyon in the Texas Panhandle.

The eleventh season of the drama by noted playwright Paul Green will run from June 16 through August 21 each evening except Sunday.

The region's turbulent history and the struggles of the people who formed it are scored with music, dancing and sensational lighting and sound effects.

More than 92,000 viewers were attracted to the drama last year as the action unfolded in the state park.

The 16,046-acre state park also offers every visitor a chance to view rock formations and brilliant cliffs revealed by thousands of years of the earth's formation.

The park is located in the northern end of the Palo Duro canyon which stretches more than 120 miles along the caprock. The huge park was developed for public use and it is maintained by the parks division throughout the year.

The Prairie Dog Fork of the Red river has slowly cut the caprock down over 1,000 feet to the river where huge cottonwoods and willow trees dot the bank. Mesquite and juniper trees are scattered along the park walls every place rain and soil have found a resting spot.

Ample facilities for visitors include camping and picnicking sites, hiking trails, horseback riding and an informative train ride through one of the canyons.

Typical wildlife species of the Panhandle may be viewed and include both whitetail and mule deer, scaled quail, aoudad sheep, wild turkey, and numerous birds, small mammals and small mammals and reptiles.

Park visitors are reminded not to pick up any of the rocks, flowers or other items found in the park. State park regulations forbid the transportation of these items from the park. Souvenirs of Palo Duro State Park may be purchased at the theatre or concession area.

For reservations or information about the drama "Texas", write P. O. box 268, Canyon, Texas 79015 or call 806/655-2182.

Information about the state park is available at any P&WD office or write Palo Duro State park, P. O. box 114, Canyon, Texas 79015 or call 806/488-3672.
