

## SENATE PASSES BILL TO OUTLAW BOOK-MAKING

### Woman Missing, Kidnap Theory Probed

### Federal Man Is Sent Into Strike Zone

### New Outbreak Of Violence Leaves 17 Injured At Youngstown

### 127,000 ARE IDLE IN VARIOUS DISPUTES

### Special Police Sworn In To Help Avert Trouble In Michigan

### At Least 17 Persons were Injured at the rainswept gates of a strike-bound Republic Steel corporation plant at Youngstown, O. in the first major outbreak of violence in the bloody strike that has cost eight lives and thrown 73,000 steel workers into idleness in the last two weeks.

### In Washington, where the labor situation has been occupying attention of congress, Chairman Connerly (D-Mass) of the house labor committee supported demands of labor and employers that the Black-Conerly wage and hour bill cover small as well as large industries.

### The Northwest Federation of Woodworkers called 40 organizers to carry out its drive to unionize 1,000,000 employees in woodcraft industries. The union planned to conduct a referendum on affiliation with the Committee for Industrial Organization.

### In St. Louis, the American Newspaper Guild proposed WPA jobs for every able-bodied unemployed worker at prevailing wages. The guild has approved vertical unionization in the newspaper field.

### One hundred twenty unorganized employees of the M. & A. Worst company at Providence, R. I., went on a sit-down strike after the management said the workers heard other employees, C. I. O. members, wanted to exchange shifts with them and were preparing a sit-down.

### The Kewanee (Ill.) Boiler corporation, employing 1,000 men reached a closed shop agreement with American Federation of Labor organizations. No date was set for reopening of the plant, closed since May.

### Union truck drivers at Youngstown voted to join a general strike there if deputy sheriffs used or attempted to use "war materials" in the steel strike. Officers of the union reported other Youngstown unions were considering similar action.

### 127,000 Idle Repercussions of a previous bloody clash and threatened new See STRIKES, Page 5, Col. 2

### DALLAS TO BE CLOSED 'TIGHT' DURING FAIR

### DALLAS, June 10 (AP)—City Manager Hal Moseley announced today he planned to "close Dallas tighter than a drum" for the Greater Texas and Pan American exposition opening Saturday.

### He said dice games, slot machines and marble boards will be banned. Peep and strip shows at the exposition must conform to state laws governing decency, he added. Police are to make every effort to stop the sale of liquor by the drink.

### "The citizens apparently want a closed town," said the city manager.

### MURPHY PLEDGES FAIR PLAY

Governor Frank Murphy elbowed his way good-naturedly through a throng of United Automobile Workers' sympathizers who thronged the Michigan state capitol in Lansing during the first day of a "labor holiday" and promised there would be fair play and no abridgement of workers' rights in dealing with motor vehicle manufacturers. Murphy is the central figure, with the microphone.

### Texas Still Has Jobless Problem

### 400,000 Dependents In State Create A Situation As Yet Unsolved

AUSTIN, June 10 (AP)—The depression may be over for a lot of people but there are more than 400,000 still dependent upon some form of governmental relief in Texas.

Adam Johnson, director of relief under the board of control, today made the estimate and said it represented approximately one-third of the peak load on the rolls when conditions were at their worst.

He said the group, culled out from the rest who have gone back to gainful employment, might never be absorbed by industry and admitted he did not know the solution to the problem.

"These people are the most unfortunates of the tremendous number thrown out of work in the depression," he said.

"Many are in middle years and growing old. Business wants young men and women," Johnson said he disfavored the dole as a remedy on moral grounds. The only hope he discerned was "prevention."

"We will have to take the children and bring them up right," he said. "The diseased will have to be kept from having more children. I can't help but believe such steps will have to be taken."

LOS ANGELES, June 10 (AP)—The William Desmond Taylor case, harshest perennial of filmland murder mysteries, produced a new figure today.

Carl Stockdale, 63-year-old character actor, disclosed he visited Mrs. Charlotte Shelby, mother of Taylor's fiancée, the night 15 years ago when the screen director was slain.

Stockdale said he had known Mrs. Shelby and her actress daughter, Mary Miles Minter, for years. "At about the time fixed by authorities that the fatal bullet was fired in Taylor's apartment, I was with Mrs. Shelby, in the new house she had purchased," Stockdale said.

Stockdale's statement, investigators indicated, was the most important development since Mrs. Taylor, Miss Minter and a second daughter, Margaret Shelby Fillmore, went before the grand jury six weeks ago. The inquiry had been revived for the tenth time as a result of Mrs. Fillmore's assertion in a civil suit affidavit that she had "protected" her mother against the Taylor case.

### New Figure In Taylor Case

### District Attorneys Says, However, No Solution Is Near

### MEANTIME, his office detectives made known they were seeking a former watchman at Stockton, Calif., and San Antonio, Tex., hoping he could supply information concerning ownership of a pistol now under investigation.

### COMPLETE ACTION ON APPROPRIATION BILL

### WASHINGTON, June 10 (AP)—Congress completed action today on the \$125,000,000 appropriation bill for the state, justice, commerce and labor departments.

### Final approval was given by the senate to the conference report approved yesterday by the house. It now goes to the White House for President Roosevelt's signature.

### MEANTIME, his office detectives made known they were seeking a former watchman at Stockton, Calif., and San Antonio, Tex., hoping he could supply information concerning ownership of a pistol now under investigation.

### MEANTIME, his office detectives made known they were seeking a former watchman at Stockton, Calif., and San Antonio, Tex., hoping he could supply information concerning ownership of a pistol now under investigation.

### Possibility Of Murder Is Also Studied

### Note Left After N. York Social Registerite Disappears

STONY BROOK, N. Y., June 10 (AP)—Federal agents and Suffolk county detectives installed a battery of telephones today in the north shore Long Island home of Mrs. Alice McDonnell Parsons, wealthy missing woman, as her husband William H. Parsons was reported ready to pay \$25,000 ransom demanded for her safe return.

STONY BROOK, N. Y., June 10 (AP)—Two theories—kidnaping or murder—confronted government investigators seeking to unravel the mystery today of the disappearance of Mrs. Alice Parsons, 38, New York social registerite, from her fashionable North Shore home on Long Island.

\$25,000 Demanded Bolstering the abduction theory was a note, pencilled on cheap white ruled paper, enclosed in a cheap white envelope, addressed to William H. Parsons, husband of the missing woman. Parsons is a Yale graduate and retired business man.

The note was unsigned. It demanded \$25,000 and contained the sinister suggestion that police activity might mean death for Mrs. Parsons.

In support of the murder theory was a blood-stained axe, found on the grounds of the Parsons' chicken farm. The investigators carefully wrapped the axe and expected to make an analysis of the stains, though it was suggested the axe might have been used to kill chickens.

The ransom note was found last night shortly after Parsons, returning from a trip to New York City and finding his wife missing, notified the state police barracks at Bay Shore, on the south side of the island.

It was addressed to "Bill Parsons." The authorities would not disclose its contents, but it was learned from a reliable source the note read:

"I have your wife. Bring \$25,000 to the Jamaica bus terminal with in the next 24 hours and my men will meet you and call you by name. Do not bring any cops. If you do Alice will never speak to you again."

Mrs. Parsons, the former Alice W. McDonnell, was said to be worth about \$200,000, of which she recently inherited \$50,000. Her husband, too, was said to be well-to-do.

Couple Called The story of Mrs. Parsons' disappearance was reported on page 5, Col. 3.

### Ray Wilcox Hurt In Highway Crash

Ray Wilcox, pioneer Big Spring resident, was severely injured in an automobile crash near Broome this afternoon, according to information received by The Herald from the San Angelo Standard-Times.

Six other people, all of whose names were not immediately learned, were injured in the crash.

They were brought to San Angelo for treatment. First reports said that Wilcox suffered fracture of both legs.

Wilcox with Bud Leatherwood, was en route home from Houston when the mishap occurred. It was not learned immediately whether Leatherwood was injured. Mrs. Wilcox and Jack Wilcox left Big Spring this afternoon for San Angelo, on being notified of the crash.

### Earhart Flies Across Africa

DAKAR, French Senegal, June 10 (AP)—Amelia Earhart flew eastward across Africa's wild expanse today despite warnings that tornadoes ranged the path of her "just for fun" round-the-world flight.

After a smooth take-off from Ouakam airport, the airwoman headed for Gao, 1,140 miles east and north of here on the Niger river, having altered somewhat her previously set course on account of unfavorable weather.

She had planned to fly her silver, twin-engined monoplane to Naimey, French Niger colony, 230 miles southeast of Gao and due east of Dakar.

### Resumes Journey Despite Warnings Of Storm Conditions

Arising before dawn, Miss Earhart hurried to the airfield where she received reports of barometric depressions and tornadoes in the Sudanese region in the heart of Africa over which she had charted her course.

So she decided to swing slightly to the north to Gao but maintained the general direction of her itinerary through the center of the continent toward Lake Chad.

### GIVEN HIS SIGHT, LAD OF 3 IS NOW LEARNING THE WORLD

Sight, something he never possessed since his birth three years ago, is returning to Daniel Ortega Jr.

One week ago he was submitted to a delicate operation for the eradication of congenital cataracts. Last Saturday when bandages were removed, he literally was terrified at the sensation of what the physician said was "milky" light.

Since then, he has gradually become accustomed to ordinary light and apparently is learning to distinguish objects. His parents, residents of the Mexican section of town, said that he is turning out of the way of obstacles, is walking directly to objects and picking them up, and has turned and walked unhesitatingly toward his mother on several occasions.

### HEAVY DAMAGE FROM STORMS OVER OKLAHOMA

### One Person Killed, 16 Injured, As Several Towns Hit By Tornadoes

OKLAHOMA CITY, June 10 (AP)—Relief agencies and kindly neighbors rushed aid today to homeless Central Oklahoma families after four tornadoes hammered at widely-separated points, killing one person, injuring at least 16 others, demolishing farm and city dwellings and ruining crops.

The Red Cross established a camp near Union City to care for families impoverished by the twin disasters of tornado and flood. The first tornado raged into farming sections east of Union City just as the Canadian river was beginning to sprawl over its banks for the fifth time in two weeks.

In Payne county, where 50 persons were homeless, neighbors and county welfare workers offered food and shelter.

A severe hailstorm at Shawnee added to the damage of a tornado in Pottawatomie county.

Damage mounted into the thousands of dollars as the havoc of the tornado winds was surveyed in Union City, Mustang, Cushing, Maud, Moore and Saakwa, Okla. The tornadoes were kept down by hail and drenching rains that pounded crops into the sodden soil.

Mrs. Fannie Thornton, 68-year-old widow, died of injuries received when the storm flattened her farm home near Mustang, Okla., as she refused to seek refuge in a storm cellar.

Her daughter and son-in-law, Mr. and Mrs. John Hicks, emerged from the cellar to find her unconscious in a nearby pasture.

Casualties were kept down as farmers and citizens of the small communities dived into storm cellars as they saw the black funnel-shaped clouds sweep in.

Buildings Flattened First tornado to appear after a day of rains and hail storms in scattered parts of Oklahoma was the one at Union City. It dipped into the town, smashed a few small buildings, then lifted.

Six miles east it dipped again and flattened farm homes and out-buildings.

Moving in on a farm community near Mustang, a tornado cut a path of destruction four miles long and from 50 to 400 yards wide. The tornado moved within two miles of the Oklahoma City municipal airport before it lifted.

Shattered and uprooted trees littered the area. Hail stones, some nearly three inches in diameter, lay in the ruins.

A tornado struck Maud at dusk, leveled six residences, smashed in the front of a two-story brick building, and blew out window glass in store fronts along Main street.

Lines Severed Advice from Saskwa, an oil town, were meager. Communication lines were severed, and the only link was a railway telegrapher's line. The telegrapher said the depot was demolished and two women were injured.

Fifty persons were left homeless See DAMAGE, Page 5, Col. 1

### Anti-Gambling Measure Gets 26 To 0 Vote

### Measure One Of Several In State's Campaign On Gaming

### SIMILAR STATUTE TO GO BEFORE HOUSE

AUSTIN, June 10 (AP)—The state senate unanimously passed today a bill intended to drive book-making out of Texas, one of a number of measures slated for action in the current legislative campaign against gambling.

Other bills due swift action by a committee which favorably reported the bill, 9 to 4.

Other bills aimed to outlaw betting on dog racing, put marble and slot machines out of business and to require local officers to enforce the law probably will be reported soon.

Members of a sub-group of the house criminal jurisprudence committee said they would have an anti-bookmaking bill ready for presentation to the main committee tomorrow. They stated it probably would be similar to that passed by the senate.

Another bill which will be put in position for house consideration Monday was intended to encourage private citizens to bring injunction suits against bookie shops.

All Forms Of Sport The senate bill was designed to prohibit bookmaking not only on horse racing but also on any other form of sport. The legislature last week repealed the law legalizing the certificate system of wagering on such racing.

The bill provided a penalty of from one to five years in jail of the penitentiary and a fine of from \$100 to \$1,000 for taking or placing a bet or acting as agent or employe in aiding such action.

Intentional use of real or personal property in connection with bookmaking was made a felony and rooms, buildings and equipment utilized for that purpose were declared a public nuisance and subject to injunctive proceedings.

To convict of bookmaking it would not be necessary to prove a See SENATE, Page 5, Col. 1

### Hall Resigns Company Post

### B. I. Cole Likely To Be Southern Ice Co. Manager Here

Jess Hall, manager of Southern Ice, Inc., here, said Thursday that he had submitted his resignation to the company, effective as soon as he could be relieved.

Although he had no definite information, he said that Benjamin I. Cole, formerly here with the company in 1929-30 and now located at Terrell, might be transferred here.

Hall has been associated with Southern Ice for the past 14 years and has been in Big Spring for the last seven years.

He worked under E. A. Kelley as assistant manager until Kelley's death a year ago. He was then named to succeed his late employer.

### 2188 Vehicles Are Checked

In nine hours of operation to noon Thursday, 2,188 cars had passed through the state highway patrol safety lane here, Sgt. Hammett Vance, in charge of the car check, announced.

During Thursday morning 611 automobiles passed through the lane. A breakdown of the defects noted were not available at noon.

Cars have been passing through the lane at an average rate of 243 an hour, or slightly better than 40 a minute since it was opened Wednesday morning.

### Some Whose Cars Found Defective Have Repairs Made

During Thursday morning 611 automobiles passed through the lane. A breakdown of the defects noted were not available at noon.

Cars have been passing through the lane at an average rate of 243 an hour, or slightly better than 40 a minute since it was opened Wednesday morning.

### THREE GROUPS ON STRIKE IN HOUSTON

HOUSTON, June 10 (AP)—Three strikes were in progress in Houston today.

The nearly two-month old strike of union auto mechanics remained unchanged.

Pickets for the truck drivers union returned to posts in front of the Stowers Furniture company. A strike was called there two weeks ago but was settled by the start of negotiations. Claiming negotiations had failed, the union called another strike.

The latest strike was that of the culinary union at the Rice hotel. Waitresses and some other employees of the hotel walked out after demanding a 10 per cent pay hike and a closed house.

### Flying Too Low

DALLAS, June 10 (AP)—Officer E. R. Gaddy clocked a driver at 70 miles an hour, forcing the motorist to a curb after a long chase.

"Why officer," chirped the driver, "what's wrong? Was I driving a little too fast or something?"

"No," drawled Gaddy, "just flying too low."

General J. B. Sadler of Nashville, Tenn., commander of Forrest's cavalry corps, offered a \$200 reward for anyone who could find a private.

Governor Hugh White told

### RE-APPEARS

This is a late photo, transmitted from London to New York by radio, of beautiful Dina Batty, 21-year-old society girl and aspirant for motion picture stardom, who reappeared in London after being mysteriously missing for several days. Scotland Yard was investigating the case.

### Over 100,000 Acres Planted In Howard Co.

### 72,000 Acres Of Cotton Estimated Up To A Fair Stand

With planting all but complete, it was estimated Thursday that about 102,000 acres of Howard county crop land.

Of the amount, between 80,000 and 85,000 acres had been planted to cotton with an estimated 72,000 acres up to a fair stand.

Some observers believed that 75 per cent of the potential feed acreage had been planted, leaving about 40,000 acres to that crop. Around 8,000 acres now planted to wheat and other small grains together with about 10,000 acres yet unplanted will give an additional 18,000 acres for late feed. Moreover, there are about 27,000 acres of land to be planted to soil conserving crops which may include peach peas and sudan grass.

A survey revealed only local damage from the hard downpour falling here last week-end. Only a few of those farmers near town were forced to plant again.

County Agent O. P. Griffin, meeting with 4-H club boys this week, said he was surprised to learn that of all the boys reporting on their cotton demonstrations, only one had failed to get a good stand.

He indicated that perhaps there had been occasion for less replanting than at first thought necessary following recurring rains two weeks ago.

### SELK A FINAL RACE MEET AT HOUSTON

HOUSTON, June 10 (AP)—Officials of Epsom Downs filed today a formal application with the state racing commission for permission to hold a "saw-saw" racing meet at the Houston track.

The application asked for a license to hold the meet from August 28 to September 25, the last available dates under the 90-day "stay of execution" granted by the legislature in killing legalized racing in Texas.

George S. Mabee, assistant secretary of Epsom, filed the application in Austin, after receiving instructions from Boston, where a meeting of stockholders was held Tuesday.

has the "heroic story of Southerners in the war between the states received as much attention as it has in the last five years."

### SOUTHERN VETS, SOME OVER 100, ASSEMBLE FOR REUNION

A handful of aged Confederate veterans captured Jackson today.

The once mighty ranks of the "rebels" who fought in the war between the states were represented at the annual reunion here by about 200 soldiers, practically all of them more than 90 years old and some more than 100.

Almost all were generals in the United Confederate veterans organization but in reality the majority had been "high privates in the rear rank" in the C. S. A.

### Weather

WEST TEXAS—Generally fair in north, probably showers in the south portion tonight and Friday; slightly warmer in Panhandle Friday.

EAST TEXAS—Unsettled in north, partly cloudy in south portion tonight and Friday.

READY TO SHIP OIL WHEN CONNALLY ACT GOES INTO DISCARD

LONGVIEW, June 10 (AP)—Sources considered reliable here reported an "unusual number" of tank cars have been shipped on railroad sidings throughout East Texas oil fields to rush crude and petroleum products into interstate commerce if the Connally "hot oil" act is not extended before its expiration at midnight, June 15.

Field sources reported many operators were planning to take immediate advantage of the Connally act lapse if congress fails to extend its life. An enormous amount of crude could be moved from the field in a few hours, these sources said, if all pipe lines and available tank cars were drafted into service. T. J. Buchanan, freight agent here, said the Texas & Pacific Railway, however, had not received an unusual number of orders for tank cars and knew nothing of plans for shipping great amounts of oil.

TWO MORE BILLS SIGNED BY ALLRED

AUSTIN, June 10 (AP)—Measures creating a teachers' retirement system and a coastal division of the game department moved on to the

printers for new law books today, Governor James V. Allred had signed both. Teachers caring to participate in the plan would contribute 5 percent of their annual salaries up to \$5,000 to be matched by the state from taxes yet to be levied. The state's share the first year was estimated at \$1,500,000. Retirement qualifications were 20 years' service at 60 years of age with optional retirement up to 70 and permission of the school board necessary to continue work thereafter. By the other law, the game, fish and oyster commission was empowered to appoint a coastal division director, separating salt water matters from fresh water and inland activities of the department. A "sweet" sweet clover is being developed by department of agriculture forage experts.

F-TA GROUP MEETS AUSTIN, June 10 (AP)—The executive committee of the Texas Congress of Parents and Teachers met here today to award a construction contract for a home office and plan the state convention to be held in Beaumont November 15 to 19. April is the hatching time for pullets that are to be used for laying purposes during the good marketing period next fall.

'Air Neurosis' Blamed In Part For Plane Mishaps At High Altitude

ATLANTIC CITY, N. J., June 10 (AP)—"What the hell" attitude which airplane pilots find impossible to overcome when flying at high altitudes is responsible for a large number of airplane accidents, Dr. Alvan L. Barach of New York said today before the American Medical association. This "air neurosis," he declared, results from a deficiency of oxygen either in flying for a short time at high altitudes or for long periods at moderate altitudes. It affects the heart to some extent but its principal harm is to the brain. The pilot is unable to read his instruments, to keep his sense of balance, or to coordinate his muscles and cannot help feeling that "nothing is very important."

Marine Plans Go Forward

Kennedy Says Program Means U. S. 'Going Places' At Sea

WASHINGTON, June 10 (AP)—Chairman Joseph P. Kennedy of the maritime commission jubilantly said today that the administration's proposal to build 95 new merchant ships means the United States is "going places" on the high seas. "We have no selfish ambition to become queen of the seven seas," he added, "but we do want our fair share of commerce—and we mean to get it."

President Roosevelt asked congress to provide \$10,000,000 for immediate construction of new vessels, and to authorize the maritime commission to contract for \$100,000,000 additional construction next year. The large appropriation was requested because we have to act in a hurry, Kennedy explained. "In three years 90 per cent of our fleet will be obsolete. Considering our planned program, which requires a minimum expenditure of \$400,000,000 in the next five years, the amount asked for is not abnormal."

This, he believes, was the cause of the airplane crash in which the late Senator Bronson Cutting of New Mexico was killed, which resulted in the recent drive for "safety in the air." The pilot of that airplane had been in the air for nine hours previous to the crash, the New York physician said, during which he was exposed to oxygen deficiency and his mental faculties could not have been functioning normally. The solution for this problem, particularly in the program for flying at altitudes greater than 12,000 feet now under way, must be the provision by airline companies of a reserve oxygen supply for all pilots "for the sake of the flying public and the health of the aviators themselves," Dr. Barach added.

PERSONALLY SPEAKING

Mr. and Mrs. Victor Mellinger left Wednesday for Dallas, where they will remain for several days.

George Bean and Cy Hockaday of the Texas Electric & Light company in Fort Worth were visitors in Big Spring Thursday. They were to continue to Midland before returning to Fort Worth.

Mr. and Mrs. C. O. Andrews have for their guests this week Mrs. J. A. Casey and son, Charles, of Monahan, and Eddie and Joan Daniel of Toylar, grandchildren.

Mrs. Howard Pannell has returned from a visit with her parents in Austin.

Mrs. W. M. Gage and daughters, Misses Alta Mae and Dolores returned Wednesday from a few days visit with relatives in Austin.

Mr. and Mrs. E. E. Fahrenkamp and son, Edmund Jr., have returned from a several days visit in El Paso.

McCall Gary of Dallas is expected today for a few days visit with his mother, Mrs. F. E. Cary.

SONORA MAN DIES—Funeral services were held today for Sidney T. Gilmore, father of Mayor W. C. Gilmore of Sonora. He came here in 1915 from Fort Worth.

POLES DESTROYED—Electric and telephone poles were suspended here temporarily today after the Dix cafe and nearby utility poles were destroyed by fire. Loss was estimated at \$3,500.

MEETING TONIGHT—The American Business club auxiliary will be guests at 7:30 to night in the home of Mrs. W. E. Wozencraft, First and Runnels.

In 1935 the farmer received 13 cents of the consumer's dollar spent for bread, according to a federal trade commission report.

# US Aiding In Pan-American Highway Work

### Will Spend Nearly Million On Job In Central America

WASHINGTON, June 10 (AP)—Engineers of the public roads bureau reported today the United States is expediting its share of work on the Inter-American highway, and would expend nearly \$1,000,000 on bridges and roads in Central America before the year's end.

Thomas H. MacDonald, chief engineer, told congress his engineers have practically completed three bridges, laid the foundations for eight more, and started surveys on three road projects in Panama, Nicaragua, Honduras and Guatemala.

Congress appropriated \$1,000,000 to assist in construction of the highway, which when completed will link Alaska with the southernmost tip of South America.

MacDonald reported \$867,000 already has been obligated for expenditure this year.

Announcement of progress made in United States cooperation in the "Good Neighbor" movement to construct a highway linking the two continents coincided with the senate foreign relations committee's approval of a pact signed at the Buenos Aires conference pledging cooperation with the 21 American republics in constructing unimproved stretches.

MacDonald said the highway under construction covers approximately 3,000 miles from Laredo, Tex., to the Panama Canal, of which slightly more than half passes through Mexico.

Mexico has an excellent modern road from Laredo to Mexico City, MacDonald said, and is now working on the long stretch from the capital to the Guatemalan border. The United States has done no work on the road in Mexico, he said and made no contributions.

Contributions and engineering assistance by the United States are concentrated in the 1,500-mile stretch between the Mexican border and the canal, now traversable about half way in the dry season and one-third of the distance in the rainy season.

**FLIERS FORCED DOWN BY NEVADA STORM**

SALT LAKE CITY, June 10 (AP)—Disaster in a storm over Nevada directed two eastern aviators today to a conference here with flying authorities pre-occupied in the probe of Utah's December air tragedy that killed seven.

The two, Major Clarence Hodge of the Massachusetts national guard and Lieutenant Joseph L. McNeil of Boston, were en route by train from Ely, Nev., 200 miles west, to relate how they leaped for their lives from an airplane driven out of control by a violent desert blizzard.

Army authorities, the department of commerce and the Utah aeronautics commission were expected to interest themselves in the account.

En route from the Pacific coast to Boston Tuesday in a \$35,000 Douglas monoplane, the two men "bashed out" shortly after noon when they became lost east of Reno in a furious snowstorm.

**Asks Cooperation In Safety Campaign**

Sgt. Hammett Vance, state highway patrol safety expert, urged Klwanians at their regular weekly noon luncheon Thursday to cooperate with state patrolmen here in conducting a safety campaign.

Sgt. Vance stated that deaths on highways was increasing at an alarming rate, and cited figures showing that 1,200 had died on Texas highways since the first of the year, compared to 1,885 for 1936.

"Automobile injuries are fatal to 10 people in the United States every hour," Vance said, "and we are appealing to the citizens of Big Spring to help us in cutting down this death list."

State highway patrolmen and

### \$250,000 INTO DONNELLY DRIVE

Declaring the International Ladies Garment Workers' union is ready to spend \$250,000 to unionize the Donnelly Garment Co., Meyer Perlstein, St. Louis, union regional director, is shown with two organizers in an office opened in Kansas City. With Perlstein are Miss Wave Tobin (left), local union manager, and Miss Jane Palmer, executive secretary. Mrs. Nell Donnelly, owner of the factory, is the wife of former U. S. Senator James A. Reed.

### HOSPITAL NOTES

**Big Spring Hospital**

Program was in charge of J. C. Allen.

### AMERICAN AIRLINES OFFICIALS VISITORS

R. L. Mitchell, assistant operations manager, Fort Worth-Los Angeles division, American Airlines, and E. L. Sloniger, chief pilot for the company, were in Big Spring a short while Thursday morning, en route to Los Angeles. The company officials were making an inspection of landing fields and airports along the line, with the view of making recommendations to the department of commerce for improvements. Mitchell said they would return to Big Spring in about ten days.

**PROFITS UP**  
NEW YORK, June 10 (AP)—Freeport Sulphur Company reported today for the March quarter net income of \$543,287, before undistributed profits tax, equal to 66 cents a share. This compares with \$476,123 or 57 cents a share in the corresponding 1936 period.

The company has properties in Texas and Louisiana.

**LODGE MEETING**

### Senate

(Continued From Page 1)

race on which a bet was taken was actually run, while conviction could be had on the uncorroborated testimony of any accomplice.

**Communication**  
It was declared unlawful for communication systems knowingly to serve places for purposes prohibited, and such systems were exempted from liability for damages, if, believing its use to be not unlawful purposes, they cut off service.

If the communication companies did not discontinue service after notification by a grand jury, district attorney, county attorney, sheriff, chief of police or state ranger that its facilities were being used for illegal purposes they would be subject to fine of from \$100 to \$1,000.

A second bill which the author said was aimed at bucket shops was introduced in the house. It would prohibit persons from contracting to sell for future delivery stocks, cotton, grain or other commodities unless he owned such commodities at the time the contract was made.

### Strikes

(Continued From Page 1)

disorders contributed to unrest in industrial conflicts which have rendered more than 127,000 idle.

Fifty policemen and sheriff's deputies used tear gas and night sticks in hand-to-hand fighting at Youngstown. Several hundred strikers participated in the melee precipitated by pickets' attempts to block a food-laden truck destined for the Republic corporation's mill.

Tension increased at Monroe, Mich., where Republic's subsidiary, Newton Steel company, planned to reopen its strike-closed plant. Company officials said the plant would resume operations regardless of the outcome of Gov. Frank Murphy's conference with employees.

Two hundred special police were sworn in to aid a force of 20 policemen and 50 deputies. Leaders of the steel workers organizing committee said picket forces would be strengthened by 8,000 to 10,000 unionists from steel mills in the Detroit area.

**Complaint**  
A formal complaint charging the Inland Steel corporation with violation of the Wagner act was submitted to the national labor relations board by S.W.O.C. officials at Chicago. The unionists contended refusal of Inland to negotiate demands for a written contract guaranteeing collective bargaining constituted violation of the law.

Union leaders announced they were preparing civil suits against police officers, the city of Chicago and Republic corporation, alleging \$500,000 damages for the deaths of eight men and injury to scores of others in the Memorial Day steel strike riot at Republic's South Chicago plant.

Electric light and power were restored to 192 cities in Michigan's Saginaw valley after settlement of a strike of Consumers Power company employees which plunged 80,000 workers into idleness.

### SENATE VOTES FOR OIL LAW EXTENSION

WASHINGTON, June 10 (AP)—The senate today accepted the conference report on the Connally "hot oil" bill providing a two-year extension of the existing law, which expires June 18.

The house approved the report yesterday. Only the president's signature now is necessary. Senator Tom Connally of Texas, author of the bill, told the senate the house conferees threatened a "sit-down strike" on him, and there was nothing to do but accept their amendment. The senate had passed the bill making the existing law permanent.

### CRACKS IN CONDEMNED SCHOOL GYMNASIUM

Some of the reasons why the school board deemed it wise to condemn a section of the senior high school are shown in the above photograph. At the left are shown cracks appearing at a stairway adjacent to

wing of the senior high school structure. They are the most pronounced of a series of cracks caused by settling of the building on a fill to the east.

### Says City Not Yet Ready For Bus Service

Company Official Says Five-Day Operation Test Sufficient

Big Spring is not ready to support the operation of a city bus, James H. Hughes, associated with the company which held a franchise for the service, said in a letter to City Manager E. V. Spence Thursday.

He asserted that "it is a fact that we can determine in three days whether or not a town will support a city bus operation. We ran buses in Big Spring five days. At the end of this period, we were fully convinced that Big Spring simply will not support city buses."

He said that it had cost the company \$375 to make the experiment in a town the size of Big Spring. The few days the company operated in this city, gross receipts were about one-fourth of what they should have been in order to break even, according to Hughes.

Had the service grossed double what it did at the outset, the company would have continued buses here in the hope of a gradual increase.

### CITE RACKETEERING IN CROP MARKETING

WASHINGTON, June 10 (AP)—The federal trade commission advised congress today that racketeering and many other unwholesome conditions exist in the marketing of fruits and vegetables.

It asked legislation to stop some of the practices and said evidence of racketeering by teamsters unions and others has been turned over to the department of justice.

"The report shows," the commission said, "that monopolistic and racketeering practices in the carting of fruits and vegetables exist in several of the larger terminal markets, particularly in New York, Philadelphia and Chicago, x x x."

Criticizing chain store buying of produce, the report said that out of the dollar spent by a consumer for fruits and vegetables at a chain store, the grower receives 34.72 cents, carriers 22.82 cents, packers, unloaders and others beside the store 10.50 cents. This leaves 32.10 cents for the chain store and its owners.

The naturalization law provides that an alien cannot acquire American citizenship before five years' residence in this country.

Tomato "with" is caused by a fungus which lives in the soil, and may infect the plant at any stage of growth.

### Damage

(Continued From Page 1)

when a tornado swept through a farming community north of Cushing, demolishing seven homes.

Rain and hail fell at Oklahoma City and Tulsa, while heavy downpours were general over northeastern Oklahoma.

Streams ran bankful at Nowata, but there was no immediate threat of a flood.

### TEXAS TWISTER

GRAHAM, June 10 (AP)—The third Texas twister in a week tore down farm barns and small structures but spared this town after approaching within a mile of it late yesterday.

Murray community and Newcastle bore the brunt of the winds. Barns were blown over at the farms of Arthur Jones and T. G. Woolfolk. Heavy rain and some hail accompanied the storm. No one was reported injured.

### OCEAN MAIL RATE

WASHINGTON, June 10 (AP)—The postoffice department recommended to congress today a 20-cent per half ounce rate on first-class mail to be carried by a new transatlantic airmail service.

Congress appropriated \$750,000 for the service after learning it probably would be started this fall by Pan-American and British Imperial Airways.

### Woman

(Continued From Page 1)

pearance came from Mrs. Anna Kupryonova, described by the police as a high-born Russian woman, who had worked for the Parsons family for about four years.

Mrs. Kupryonova, assistant district attorney Joseph S. Arata of Suffolk county reported, said a middle-aged couple called for Mrs. Parsons yesterday morning at the Parsons' home "Long Meadow Farm," and that the matron drove off with them.

Mrs. Kupryonova told Arata Mrs. Parsons told her: "I'm going over to the Sammis place."

This was described by Arata as an estate near Huntington, about 12 miles away, in which Mrs. Parsons had an interest.

Mrs. Kupryonova said she did not recognize the couple.

Bert Walker, investigator from the district attorney's office, found the ransom note stuck under the front seat of Parsons's car.

**Dogs Searching**  
A little later six department of justice agents arrived on the scene, and to them Mrs. Kupryonova repeated her story.

The Parsons have no children. They moved to Stony Brook about ten years ago.

Their farm is about two miles from the Stony Brook railroad station in a territory noted for its natural beauty. The rolling country bordering Long Island Sound is studded with the homes of the wealthy.

Two state troopers arrived at the Parsons home in mid-morning with two blood hounds.

After getting a lead from Mrs. Parsons' clothing the dogs began searching the surrounding woods.

Rhea Whitley, agent in charge of the New York federal bureau of investigation, said the case looked like a kidnaping.

### PRESIDENT-ELECT

ATLANTIC CITY, N. J., June 10 (AP)—Dr. Irvin Abell, Louisville, Ky., surgeon, was chosen president-elect of the American Medical association today. He will take office at the next annual meeting.

### Music Classes Will Be Held

Band Director To Conduct Summer Work For Students

Thirty grade school children who showed musical talent in recent aptitude tests conducted in the ward schools here are to take part in summer classes under the supervision of D. W. Conley, high school band director.

The beginners are to meet as a group on Monday, Wednesday and Friday of each week at 8 a. m. The practice sessions will be held in the high school band room.

Included in instrument groups will be those studying the bass horn, cornets, clarinets, saxophones, drums and trombones.

Conley announced that an attempt would be made Monday at 8 p. m. to organize a municipal band in connection with the high school band. He urged "everyone who has a musical instrument and plays to be at the high school" for the meeting.

It may be that classes will be held three times a week for old members of the high school band, he disclosed.

The director extended thanks "to those people who were kind and thoughtful enough to open their homes to members of the Caldwell high school band here last Monday." Crowds coming to hear the concert produced the worst traffic jam at the city park since July 4 last year.

Among the beginners who were discovered by "Jesse" James, Abilene, who administered the musical tests last year, and who are participating in the classes this summer, are:

Eugene Gobble, Ed Mullett, Billy Neal Wheat, Ralph Wilson, W. L. Bell, Boyce Patton, Mary Mims, Patay Mims, Jack Hardin, Jim Bob Chaney, Robert Delbridge, Bobby Joe Tidwell, Gary Evington, Durwood Bettis, Loreta Tidwell, Duane Poarch, Mary Jane McClendon, Billy Ashby, Betty Farror, Joyce Powell, Alva Powell, Claudia Mae Harris, Don Thomas, Lula Gene Billington, Ben Newby, Yvonne Phifer, J. N. Parrish, Leo Rusk, Cambron Warren, Burley Davidson, Powell Martin and Lavern Porch.

### TO CONTINUE BANK NIGHT PROCEDURE

DALLAS, June 10 (AP)—Interstate Theaters will continue to offer banknight awards, pending further developments. It was announced today by John Moroney, attorney for the circuit. A decision by the court of criminal appeals holding that the awards are lotteries was considered "persuasive but not absolutely binding" by the theaters' legal department.

Operation of the plan in Bonham, where the case that went to the appellate court originated, differs somewhat from the plan here, attorneys said.

San Marino, situated in the Apennines near Rimini, in the heart of Italy, claims to have been founded in the fourth century.

**Tasty Sponge Cake Is Delicious Change From Ordinary Shortcake**

By **MARTHA LOGAN**  
The old saying, "Variety is the spice of life," is just as true of fruit shortcakes as of other things. A pleasing, as well as delicious change from the ordinary biscuit shortcake is a golden yellow, tasty sponge cake.

The very sight of a serving of tender, moist sponge cake with generous layers of luscious red strawberries or raspberries and topped with whipped cream is enough to appeal to even the most jaded appetite.

Over and above the choice of a good recipe for sponge cake, there are a few suggestions which the homemaker can use to insure success. Chief among these is the selection of good quality fresh eggs to insure maximum volume in the cake. It is also important to avoid overmixing after the flour is added to the sugar and egg mixture or a cake which is too compact and tough is the result. A rotary beater is satisfactory and more rapid for mixing the cake to the stage where the stiff, but not dry, egg whites are folded in with a wire whisk.

You may have your favorite sponge cake recipe, but if not you will enjoy the simplicity of mixing this one and you will enjoy its extraordinarily good flavor.

**5 Egg Sponge Cake**  
5 eggs.  
1-4 cup cold water.  
1 cup sugar.  
1 cup cake flour.  
1 teaspoon cream of tartar.  
1-2 teaspoon salt.

To obtain a larger volume in the cake, separate the eggs and allow them to come to room temperature before mixing. Add the cold water to the egg yolks and beat with a rotary beater until light and lemon colored. Continue beating, adding sugar gradually. Add flour, beating only to avoid streaks of flour in the finished cake. Beat the egg whites frothy and add cream of tartar and salt and continue beating until the egg whites are stiff but not dry. Lightly fold the egg whites into the yolk mixture and bake at once in a tube pan which has been rinsed in cold water. Bake for 1 hour in a slow (325 degrees F) oven. Invert pan on a rack until the pan is cold.

This cake is equally good if served with any of the fresh or canned fruits. A bit of novelty can be added by sprinkling chopped toasted almonds as well as some of the fresh uncrushed berries over the top of the whipped cream before serving.

**Good Results In C-C Member Drive**

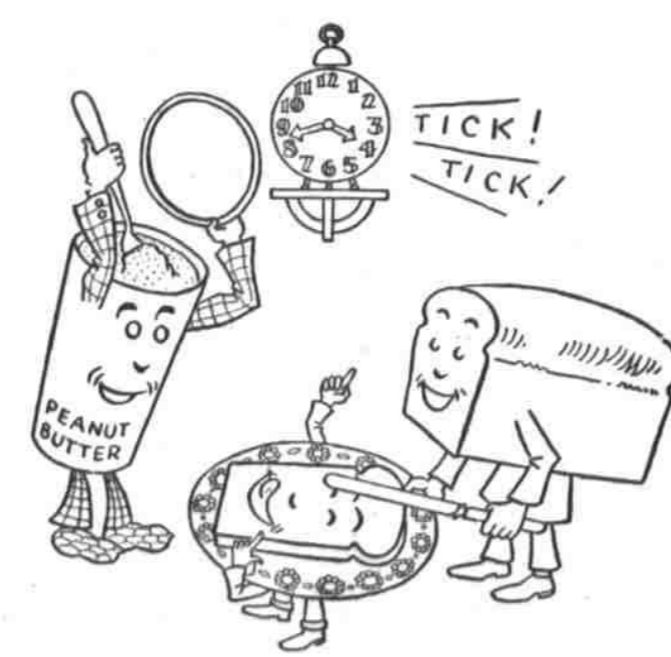

On the basis of meagre reports, the chamber of commerce membership campaign was reaping satisfactory results.

While only four of something like 15 teams had reported back to the chamber at noon Thursday, a total of 28 new members had been secured. Proportional success by other teams, it was pointed out, would result in more than 100 new members for the organization.

Among the workers making reports were Ted Groehl, Joe Galbraith, Vaston Merrick, C. L. Rowe, Pascal Buckner, Eugene Thomas, and A. S. Darby. Groehl had the largest number of new members.

**STAIN REMOVER**  
To remove cigaret stains from brass ash trays, rub the trays with a paste of salt and vinegar. Then wash them well in hot water and soap suds.

**INQUIRY INTO RELIEF POLICIES ORDERED**

WASHINGTON, June 10 (AP)—The senate authorized today creation of a special committee to investigate unemployment and relief policies.

Without a record vote, the senate approved a recommendation of its audit committee to appropriate \$10,000 for the purpose. The inquiry will be made by a special committee of five.

The committee would be directed to obtain all facts possible related to the problems to aid congress in enacting corrective legislation.

**USE SHALLOW PAN**  
Pans used in baking biscuits should not be too deep. Otherwise the biscuits will not brown evenly on all sides. Select a pan that is about one inch deep.

A law passed in 1751 forbids Pennsylvania auctioneers from handing out free drinks to speed up the bidding.

**PENSION OFFICIALS IN A PARLEY HERE**

Investigators of the Big Spring old age assistance commission district were called here Thursday for a parley with George White, district supervisor, and Mrs. Charles Thrasher, regional investigator.

Here for the meeting were Carter Thompson, Tahoka; Ken Barnett, Lamesa; Bud Jones, Stanton; and L. E. Settles, Snyder. Pete Flannagan, Midland, was ill and unable to be here.

**MENU FOR BRUNCH**  
fast-luncheon: Melon halves filled with cherries or berries, ham and egg omelet with mushroom sauce, buttered biscuits, jam, a light sweet—such as sugar cookies, berry tarts or sweet tarts—and coffee.

**TO TUCSON**  
Mrs. Irene Showalter, former county health nurse of Howard county, left Thursday for Tucson, Ariz., after visiting with friends. She has been in business in Nevada for the past two and a half years, and is now en route to California via Tucson and Yuma.

**GASOLINE OUTPUT SHOWS AN INCREASE**

WASHINGTON, June 10 (AP)—The bureau of mines said today the daily average production of natural gasoline was 5,475,000 gallons in April, compared with 5,295,000 gallons in March.

The largest increases in April were registered in East Texas, Louisiana and Oklahoma City; the largest decreases in the Appalachian district and the Kettleman Hills field.

Stocks at refineries, plants and terminals rose to 222,264,000 gallons, 20,796,000 gallons higher than stocks on March 31.

**JESSIE ANDERSON GAINS FINAL ROUND**

TURNBERRY, Scotland, June 10 (AP)—Jessie Anderson of Perth, holder of the French women's title, gained the final round of the British Women's golf championship today, defeating Mrs. Andrew McNair, 4 and 2.

An all-Scottish final was assured when Doris Park of Edinburgh, the Scottish title holder, eliminated Elsie Corlett of Lytham, runner-up in the 1935 English Women's tournament, by a margin of 3 and 2 to join Miss Anderson in the final round.

**Man's Job**

He's No Slouch As Air Host

(By the 'AF' Feature Service) ATLANTA—Will the gals maintain their monopoly as air hostesses—or will the men cut in?

When it comes to passenger attendants the air's a woman's world as far as most major air lines are concerned. But at least one company (Eastern Air Lines) prefers stewards to hostesses.

One of the stewards Charles Lawn demonstrates that a man's no slouch at filling what has been accepted as a woman's job:

**ORDER TAKER**  
Steward Lawn takes the plane's orders and records from the dispatcher just before the takeoff.

**CIGARETTE LIGHTER**  
In the air Steward Lawn is always ready with a light.

**WALKING ENCYCLOPEDIA**  
Like his female counterpart, Steward Lawn points out interesting landmarks.

**FIRST AIDER**  
Lawn also treats fingers cut on magazine covers.

**BABY TENDER**  
Lawn's even good at handling a baby at mealtime. Who said it takes a woman to fill this cloud riding job?

### Hope For Action On Tenant Loan Bill

WASHINGTON, June 10 (AP) — Senate farm leaders expressed hope today that their colleagues would pass this week a tenant loan bill, modified to meet President Roosevelt's wishes.

An agriculture sub-committee approved it late yesterday, and the full committee was called together today. Unless debate prevents, the senate itself could vote tomorrow. The bill provides for \$10,000,000 in loans next year to help tenant farmers purchase homes. In the following year the appropriation would increase to \$25,000,000, and in the third year to \$50,000,000.

The measure may be the first farm legislation this session. Hearings also are in progress on the "agricultural adjustment act of 1937" proposed by farm organizations.

Although some congressmen want to defer action until next year Secretary Wallace urged yesterday its speedy passage, whether rain or drought is the farm belt's fate for the season.

### WARTIME MINISTER OF CANADA DEAD

OTTAWA, Ont., June 10—(Canadian Press)—Sir Robert L. Borden, world war prime minister of Canada, died here today at the age of 82.

Canada's "elder statesman" took a sudden turn for the worse late yesterday when signs of "acute cardiac failure" developed.

The last bulletin on the former premier, issued shortly after dawn, said he was "pretty low." Death came at 8:30 a. m., eastern standard time.

### VETERAN DIES

LOCKHART, June 10 (AP)—Mark A. Wilbers, 91, old trail driver and Confederate veteran, died here today. He had lived here 70 years.

### START FORD UNION DRIVE IN BANK

An office employe of the United Automobile workers is shown preparing to distribute union newspapers from a vacant bank building leased by the U.A.W. in its drive to organize 90,000 workers in the Ford Motor Company's Rouge factory.

### Rain Falls In The Dust Bowl, But Erosion Problem Is Not Yet Solved

BOISE CITY, Okla., June 10 (AP) — Rain is splashing in the "dust bowl" but the question mark still hangs over this problem area.

The people all say rain will bring this country back but no one is certain. The dust still blows. These are the high southern plains and the atmosphere is greasy for moisture. Sweeping winds quickly absorb top soil moisture and soon dust is swirling upward and onward. But for these people dust is easy to take if it rolls in between rain storms, or even showers.

Within three weeks, rains—variously estimated today at from three to 10 inches—have fallen. The people have new hope. They have their chins up now.

The "dust bowl" government agencies say, constitutes a 90,779,503 acre expanse, 102 counties in parts of Oklahoma, Texas, Kansas, Colorado and New Mexico, although the worst area is in the five states. The large area accounts for the variance in rainfall.

These people, more than 400,000 of them, since 1932 have been hearing about wet and dry cycles.

Ordinarily rains come to this country in May, but this year they have continued into the first third of June, a very good sign, they believe and hope. Possibly it heralds the coming of the long awaited wet cycle.

Rain will bring this country back. Farmers and merchants everywhere reiterate this statement. They cannot forget 1931 when the area produced so many millions of bushels of wheat that elevators could not handle it. Farmers did not cash in, however, because the tremendous production broke the market and wheat sold throughout the area for as little as 18 cents a bushel.

But these people have faith in the country. Those who did not have fortitude to endure hardship to breathe dust, to have it in their eyes, hair and ear, to witness destruction, have gone.

With all the rain, two major disasters, both described as "black as night," swept across the area within the last three weeks. Old-timers said both originated "way up north, probably in Wyoming," indicating, perhaps, the birth of a

### BROWNWOOD HOST TO PRESS MEETING

BROWNWOOD, Tex., June 10 (AP) — Will H. Hayes of Austin, former president of the Texas Press association, today welcomed delegates and visitors to the 58th annual convention of the association. H. H. Jackson of Coleman, president, was in charge of today's sessions. New officers are to be elected at the closing session Saturday.

Speakers today included Robert Lee Bobbitt, chairman of the state highway commission; Joe B. Cowan of San Saba and Frank Watson of Dallas.

In some sections one can drive for miles between barren hills, dotted with dunes and hummocks as far as the eye can see.

The surface soil has been swept away down to the "hard pan" the natives say.

Government agencies, in an intensive effort to restore the area, are by actual demonstration, showing farmers and ranchers what can be accomplished if they follow proper practices in land use—thousands of cultivated acres must necessarily be returned to grass—terracing, contour cultivation, strip cropping, listing and pasture furrowing.

### NEW PRESIDENT IS NAMED BY COURTNEY YOUNG PEOPLES UNIT

STANTON, June 10—Change in officers of the Young Peoples' Union at Courtney followed the resignation of Miss Genevieve Middleton as president. Miss Middleton, a member of the Courtney school faculty, will be away during the summer.

Kathleen McCreeless, vice-president of the organization and a June graduate of Courtney high school, was elevated to the presidency.

She appointed a committee consisting of Polly Watson, Mrs. F. O. Rhodes and Glenn Bickley to report on nominations for a vice-president.

### NEGRO FACING TRIAL IN SHERIFF'S DEATH

LINDEN, June 10 (AP)—Selection of a jury is expected to begin here this afternoon for the trial of Charlie Brooks, negro, charged with the shotgun slaying of Sheriff Alec Brown of Marion county, District Judge R. H. Harvey convened court this morning, with 70 special veniremen in attendance, but granted a recess until the afternoon to permit Gregg county witnesses to get here.

Brooks, shot in the leg when he

### APPOINTMENT LIST IS SENT TO SENATE

WASHINGTON, June 10 (AP) — President Roosevelt sent to the senate today the nominations of a group of United States district attorneys, many of them reappointments.

W. Joe Ballard, to be United States marshal for the western district of Oklahoma.

Guy McNamara, to be United States marshal for the western district of Texas.

William H. Gilliland, Port Arthur, to be collector of customs for District No. 21 at Port Arthur, Tex.

### FAVORS A CAMPAIGN AGAINST FRUIT FLY

WASHINGTON, June 10 (AP)—A spraying campaign over the citrus fruit belt of the Rio Grande valley to exterminate the Mexican fruit fly has been recommended by J. E. McDonald, Texas agriculture commissioner. McDonald conferred with S. A. Rohwer, assistant chief of the bureau of entomology and plant quarantine.

McDonald said he had been assured that present operations of the federal government against the fruit fly would be expanded if funds were available.

was captured, came into the courtroom on crutches.

### Britain Puts In Her Bid For Rule Over Vast Antarctic Territory

LONDON, June 10 (AP)—Britain advanced her claims to territorial sovereignty in the Antarctic today, seeking eventual domination of the southern polar wastes where the United States, too, has staked out an ice-bound domain.

Antarctica—the world's "lost continent"—is believed to contain vast hidden wealth in raw materials, including coal, but still retains it.

In a surprise move, the imperial conference now meeting in London adopted the report of a little publicized polar committee to inaugurate the extension of the British empire at the pole. The report, brought before the empire "family" yesterday, includes recommendations for dealing with any future territorial problems.

Some confusion exists over claims already made in the region by both British and United States explorers. At least a third country is involved too—Norway. Lars Christensen, an explorer who made plane flights from a whaler in February this year, claimed a section of the Antarctic for his country by dropping the Norwegian flag.

The conference's Polar committee report, it was learned, dealt fully with the last journey of the royal research ship Discovery II which has just returned to England after nearly two years of extensive work in the Antarctic.

A law enacted by the Australian legislature in 1933 claimed large areas.

When the American explorer, Lincoln Ellsworth, flew across the unconquered territory in 1935, he claimed 350,000 square miles in the name of the United States. Rear Admiral Richard E. Byrd and his expeditions also advanced claims of the United States.

### TO CALL FOR BIDS ON MAIL CONTRACT

WASHINGTON, June 10 (AP) — Post office officials planned to release bid advertisements today on mail contracts between Houston and Brownsville. The bids were to have been asked yesterday, but a day's delay was granted so the Oklahoma delegation would make a protest before Harlee Branch, assistant postmaster general.

The Oklahoma delegation contended the calling of bids might impair service of the Braniff Airlines in Oklahoma.

C. P. Graddock, superintendent of air mail service, told the Oklahomans that improvements, rather than impairment of service, was in store for that state.

### Must Break Habit Of Calling On Govt. Jones Tells Studes

PHILADELPHIA, June 10 (AP)—"How we are to get back to self-reliance and quit demanding so much of the government will test the wits and ingenuity of all of us," Jesse H. Jones, chairman of the Reconstruction Finance Corporation, told the graduating class at Temple university today.

"The federal government has never before been called upon to aid its citizens from the federal treasury," he said in describing the effects of the economic depression.

"Government agencies have provided approximately 15 billion dollars active credit in the past five years." He contended that "this has been the principal factor in recovery. In the main it has been done through loans made in a business-like way and will cost the taxpayer very little."

"It is a resourceful country that can meet emergencies in this manner. But however rich, there is a limit to what a government can do, or what it should be required to do, but no one should be allowed to suffer from want."

Jones received the honorary degree of doctor of laws at the commencement.

"Habits are not easily broken, and we have gotten into the habit of expecting everything from the federal government," Jones said. "The longer we put off correcting this, the more dangerous it will get, the more difficult to meet."

### SELECTING JURORS FOR MURDER TRIAL

PLAINVIEW, June 10 (AP) — A jury was being selected here today for the trial of Lawrence Brady, 19, accused of the hatchet slaying of E. P. Hammig near here Dec. 29. Many members of a special venire were excused by the court.

Nineteen witnesses for the defense and 13 for the state were sworn in.

THE SPORTS CIRCUIT Texas Swim Team In AAU Championships

By TOM BEASLEY E. V. SPENCE is still hopeful of founding up enough University of Texas boys to bring the Longhorn swimming team here this month for an exhibition at the Muni pool. Here's the letter Spence received from Tex Robertson, Texas coach: Mr. E. V. Spence, Big Spring, Tex. Dear Mr. Spence: "The University of Texas is sending to Houston and San Antonio, but with their permission the Texas swimming team is planning a tour on their way to the national meet; and we would like to stage an exhibition meet in your pool. "The Texas University swimmers are the champions of the entire south and rate as one of the five best teams in the nation. The trip will be taken by a team which includes such stars as Joe Bowling, Texas and southwest diving champion; Mike Sojka, America's fastest breast stroke swimmer and record holder at 100 yards and 100 meters; Honde Crouch, holder of all free style spring records in the southwest and acclaimed by national officials as the best free swimmer in America; Bob Tarleton, southwest, state and Gulf A. A. U. backstroke champion; James Willis, Texas 220 and 440-yard champion; Wally Huffrich, National Interscholastic breast stroke champion and foremost exponent of the famous flying fish stroke; Bill Shirley, former Florida state diving champion; Walter Blake, 100 and 220-yard star; and several other experts. "These champions will engage in real competitive races at close or better than record time. They will also demonstrated the various strokes and styles of swimming. We would be glad to have your local swimmers compete in the races. The divers will put on a side splitting comedy act from the board and in the water. "This swimming and diving exhibition will certainly increase swimming interest in your community. We will be glad to give free lessons. TEX ROBERTSON, U. of T. swimming coach. THE LONGHORNS ask a guarantee of \$50. SPENCE MADE an effort to get the Texas team here for a July 4 show but on that date they are due in Chicago for the outdoor A. A. U. championships. TONY MANERO has a big job on his hands as he starts defense of his national open crown. The odds are very much against him. The open dates back to 1894. Only three champions have successfully defended. In 1904, Willie Anderson shot 303 to retain the title he had won the year before. He won again in 1905 with 314. J. J. McDermott won in 1911 after finishing in a triple tie with Mike Brady and George Simpson. He was too good for the field the following year when he scored 294 over the Buffalo C. C. course. In 1920, the year of the grand slam, Bobby Jones retained the championship he had won at the Winged Foot G. C. in 1929. No open champion since Jones has won two in a row. Beams Record Traffic PIERRE, S. D. (UP)—Invisible infra-red light beams are recording the movement of traffic over principal routes in South Dakota this year for the information of the state highway department. The automatic devices were installed at the direction of Harper Hamilton, traffic manager for the state highway planning survey.

CARD TWIRLER DRAWS BOOS FOR POPPING OFF

DIZZY DEAN WINS FROM HUBBELL

By SID FEDER (Associated Press Sports Writer) They laugh one day and cheer the next—depending on whether Dizzy Dean is popping off or pitching. When he's doing the former, the folks seem to forget about his elbowing ability, and look on him as a sort of sideshow. But when he gets out there on that ball, and really puts his mind to fogginess, he is, as he did yesterday, a real pitcher. The crowd of Carl Hubbell and the New York Giants, 8-1, the crowd tips its hat. From the greeting Diz received before yesterday's game, it begins to appear that the faithful, generally, and the New York fans in particular, are getting mighty tired of his outbursts. A packed Polo Grounds let out one big "boo" and followed it up with a varied assortment of jeers for most of the game. But when it was all over, and Diz had polished off the Giants with three hits and one unearned run, the crowd roared approval of the pitching perfection he displayed in the opener of the doubleheader. Outside of Dizzy's top-flight flinging, the double bill, and particularly the advertised Hubbell-Dean duel, produced two outstanding developments: 1. That the promise of a fight will still pack them in anywhere; 2. That something serious is happening to Hubbell, who less than two weeks ago was being hailed as invincible. The Giants followed up the opener defeat to take the nightcap 3-2 on Harry Danning's ninth inning pinch homer, to hang onto the league lead. The Chicago Cubs climbed into second place by walloping Brooklyn's Dodgers, 8-4, while the Pittsburgh Pirates slipped to third by losing to the Phillies, 5-1. In the National League's other contests, the Boston Bees turned loose their two "old man" rookies, Lou Fette and Jim Turner, and knocked off the Cincinnati Reds twice, 5-2 and 5-0. Only one game escaped the weather man in the American League, the Cleveland Indians topping the Boston Red Sox 12-6 to climb within half a game of the deadlocked leaders, Chicago's White Sox and the Yankees. RED SOX SWAP WITH SENATORS BOSTON, June 10 (AP)—Eddie Collins, general manager of the Boston Red Sox, today announced a "straight swap" of Wes and Rick Ferrell and Mido Almada of the Sox for "Buck" Newsom and Ben Chapman of the Washington Senators. The Ferrells form the only brother battery in major league baseball. Wes won 20 games for the Sox last year, but has been going poorly this season. Catcher Rick Ferrell is at present out of the game with an almost-mended broken hand. "Buck" Newsom was a mainstay of the Senators last year, winning 17 games. Almada recently has been patrolling centerfield for the Red Sox, filling in for Cramer, also out with a lame wrist. Chapman, speedy outfielder for

TARZAN KRAUSE TO WRESTLE JACK REYNOLDS NEXT WEEK

Welterweight Champion To Appear Here Tuesday A catch weights match with world welterweight wrestling champion Jack Reynolds was the prize offered Tarzan Krause today by Herman Fuhrer, local promoter. Recognized all over the world as a top in the welterweight field, Reynolds will go two out of three falls here next Tuesday with the class Krause who defeated Ace Freeman for the right to meet the champion in a non-title bout. The match here will be Reynolds' first appearance in Texas. Tarzan will hold a weight advantage of six or eight pounds. Queensbury rules will be followed. Fuhrer stated. He expects to line up two supporting matches today.

WELTERWEIGHT JACK REYNOLDS—famous for the leg split.

MRS. WINGER POSTS 86 FOR WEST TEXAS MEDAL HONORS

Mrs. Phillips Turns In 88 For Qualifying Score SAN ANGELO, June 10 (AP)—Mrs. R. E. Winger of Fort Worth, defending champion, led a championship flight of 16 women into match play of the women's tournament of the West Texas Golf association today. Mrs. Winger's 39-47-86 in yesterday's qualifying round gave her medalist honors, only three other players were able to break 90. Strong winds and heat were added hazards. Pairings in today's championship round were: Mrs. Winger vs. Mrs. E. J. Woodward, Brownwood, 95. Mrs. Gordon Phillips, Big Spring, 88, vs. Mrs. M. E. Shane of Amarillo, 95. Mrs. Rhea J. Vernon, Abilene, 89, vs. Miss Catherine Burleson, San Angelo, 97. Mrs. C. L. Dean, Lubbock, 89, vs. Mrs. J. W. Rogers, Amarillo, 96. Mrs. Jesse Rogers, Amarillo, 90, vs. Miss M. E. Hall, Brownwood, 98. Mrs. Howard Edmiston, Brownwood, 92, vs. Mrs. Guy McAfee, Lubbock, 99. Mrs. Will O'Connell, San Angelo, 92, vs. Mrs. W. T. Chapman, El Paso, 95. Mrs. W. K. Powell, San Angelo, 95, vs. Mrs. Obbie Bristow, Big Spring, 99. Mrs. Willie Rix, Big Spring, who qualified with 116, drew a first round bye in the second flight. Mrs. Gordon Phillips qualifying card: Out nine ..... 645 454 545-42 In nine ..... 465 653 746-46-88

Dana Bible To Coach Hi School Stars

U. of T. Mentor To Instruct Boys For All-Star Grid Game FORT WORTH, June 10 (AP)—Dana Bible, who is used to big football players, will see plenty of them when he takes 22 South Texas high school boys to Waco August 7 to meet a team representing North Texas. The game will be played at night as a highlight of the state high school coaches' school. The southerners will run up against a team whose eight star backs weigh 170 pounds or more and whose linemen range from 180 to 215. Herman Clark, coach of Fort Worth's North Side high school, announced the North team last night. The 22 men selected were: Backs: Garland Terrell, Childress, 178; Odell Herman, Abilene, 180; Harry Hayes, San Angelo, 170; James Thomason, Brownwood, 190; Cecil Allbrook, Masonic Home, 175, and Marlon Fugh, 188, North Side, Fort Worth; Bob Cleason, Amarillo, 185, and Cliff Haggerman, Sunset High, Dallas, 170. Centers: Fred Shook, North Side, 182, and Buck Sloan, Breckenridge, 190. Guards: Shuler McHam, Masonic Home, 185; Dean Burkard, North Dallas, 190; R. S. Vaught, Olney, 180, and Randall Leggett, Polytchnic, Fort Worth, 185. Tackles—Lynn Barnett, Sunset, Dallas, 190; Leonard Jorris, Abilene, 220; Joe Pasqua, Dallas Tech, 215, and Virgil Oloer, Gainesville, 190. Ends: Morgan Nesbitt, North Dallas, 178; Dave Wofford, Midland, 195; C. L. Storrs, Lubbock, 180, and Bill Miller, Brownwood, 185. Bible, University of Texas mentor, will coach the Southerners and Raymond Wolf of North Carolina will coach the North team. DALLAS, June 10 (AP)—Head Coach "Bob" Nelson of Athens high school said today 19 senior schoolboy gridder had accepted invitations to play with the South Texas eleven in the annual north-south high school football classic at Waco, Aug. 7. An annual feature of the annual coaching school of the Texas High School Football Coaches' association, the game will be played under the direction of Dana X. Bible, University of Texas coach, who will tutor the South team, and Raymond (Bear) Wolf, North Carolina university mentor, who will head the Northern forces. Nelson said he was still looking for another tackle and guard but announced accepted invitations as: Backs—Jack Herring, Hillsboro; Con Suman, Harlandale (San Antonio); Carl Sandbig, Mart; Gus Tunnell, Van; J. Boulton, Henderson E. D. Dickerson, Waco; Odell Griffin, Cleburne. Ends—Carl Payne, Ruak; J. White, Cleburne; Simms, Longview; Keeton, Hillsboro. Tackles—Nelson, Bryan; Fawcett, Hillsboro and Paschal, Robstown. Guards—R. Everett, Corsicana; Gregory, Texarkana; Lee, Kerrville. Centers—Clarkson, Corpus Christi, and Hauser, Kerrville. Equator Ship Retired CAPETOWN (UP)—A steamer which has crossed the equator about 2,500 times, yet has never sailed the sea, has just ended her career after 25 years of service. She was the Clement Hill, the Central African lake steamer which has carried many famous travelers. The vessel operated on Lake Victoria.

Bone Market Soars

WALSENBURG, Colo. (UP)—A boom in the market price of bones has caused junk buyers to search the prairies for skeletons of cattle. The price of bones has jumped from \$9 a ton in 1935 to the present \$27.50. The boom is attributed to European rearmament. One of the earliest United States patents was granted to John Moon in 1825 on a corn sheller. The Senators, was obtained by them from the New York Yankees last year in exchange for Jake Powell.

Battle For Open Title Begins Over Wet Course

SAM SNEAD IS MADE FAVORITE

BIRMINGHAM, Mich., June 10 (AP)—America's crack golfers at Oakland Hills stood ready today for a three-day battle with par in which but one of 167 combatants had a chance to reach the objective—the 41st National Open championship. Heavy rains soaked the battlefield and threatened to turn the scrap into a naval engagement. Slamming Sam Snead, the West Virginia hill country youth, was in an unusual spot as the 142 professionals and 25 amateurs launched the 72-hole medalist test. Snead,

Santone Slips Into A Tie With Shippers

Five Teams In Battle Royal For First Three Positions By the Associated Press Today's games: Tulsa at San Antonio (night), Dallas at Galveston (night), Oklahoma City at Beaumont (day), Fort Worth at Houston (night). Nearly two months of the season have passed and the Texas league still finds itself locked in its warmest race in years. As they stood today five teams headed by Oklahoma City were in a battle royal for the first three positions and only six games separated those five. San Antonio's mercurial Missions slipped into a second-place tie with Beaumont in shelling two Fort Worth pitchers for a 10-3 victory. Jackie Reid, who has been something of a cross for the Padres to bear, lasted only six innings. Jim Moore, who followed him, received no better treatment and when the game was over the San Antonians had 11 hits, Bojma, Harshany and Mazzera swatted homers with a Padres aboard each time. Third Straight It must have seemed like old times to the Dallas Steers, who won their third straight game in a nine-hit attack against Beaumont which ended 4 to 1 for the Steers. Only on a few occasions have the Steers been able to get their bats working as they did last year, and last night was one of those occasions. Lefty Papias, meanwhile, was holding up his end with the pitch 'n' keeping the Beaumonters' nine hits effectively scattered. Home run and fine pitching availed Galveston little in its setto with Tulsa, which waited until the eighth inning to put on a four-run rally guaranteeing victory, 5 to 4. Pete Fleming hit two homers for the Pirates and Frank Anderson handcuffed the Oilers for seven innings. Then two errors and four hits turned the tide for the Oklahomaans. The league-leading Oklahoma City team rejoiced at the way their bats behaved against Houston. The Indians went on the warpath against three Buff hurlers, blasting out 19 hits and a 14 to 6 victory. Manager Jim Keesey and Paul Easterling led the way with four hits each. Recently Keesey bemoaned the lack-lustre batting of his boys. YESTERDAY'S STARS (By the Associated Press) Dizzy Dean, Cardinals and Harry Danning, Giants—Dean pitched three-hitter for 8-1 win in doubleheader opener; Danning's pinch homer won nightcap, 3-2. Jim Turner and Lou Fette, Bees—Each pitched six hitter to whip Reds 5-2 and 5-0 in doubleheader. Hal Trosky and Earl Averill, Indians—Each hit triple, double and single and scored three runs in 12-4 win over Red Sox. Augie Galan, Cubs—Hit two singles, drove in two runs and scored two runs in 5-4 victory over Dodgers. Frank Guernsey, Orlando, Fla., and Joel Hunt, rated second and also of Los Angeles, engaged Russell Bobbitt, Atlanta. Hunt had little difficulty eliminating Billy Westerfield, New Orleans, yesterday, 6-1, 6-2, while Riggs polished off Hugh Shelton, Columbia, Tenn., 6-0, 6-2.

SPORTS ROUNDUP

NEW YORK, June 10 (AP)—Some of the experts who have visited Joe Louis' camp insist the negro is taking James J. Braddock too lightly. . . . Anyway, Joe has used only eight sparring partners so far while at Lakewood last year he exhausted 32 preparing for Schmeling. . . . Wilbur Wood, sports editor of the New York Sun, now at the Braddock camp, warns Joe he is not going up against a decrepit old man when he faces the champion at Comiskey park, Chicago. The Cubs are winning and they're cocky and talkative. . . . They made a big impression here and in Boston. . . . Beaumont fans can't see how the Bruins can miss. . . . Gaby Hartnett, Charlie Grimm, et al are out-gassing the Gas House Gang. . . . The Cards may make the most noise, but they can't produce so many words per minute," writes Arthur Sampson in the Boston Herald. Six of 16 graduating athletes at Texas Christian this year will take a whirl at pro sports. . . . It will be Captain (coach to you) Gar Davidson from next Monday on. . . . New England gossip has Charley Falloon, Boston college captain, and Ray Ratajczak, captain at Dartmouth, headed for the Yankees the minute they get their sheepskins. . . . Eleanor Holm Jarrett will collect \$50,000 for her part in the swim show at the Great Lakes exposition in Cleveland. . . . Six major league clubs are hot after Les Mueller, ex-curler for the Belleville, Ill., high school team. College Boys Unchanged AUSTIN (UP)—College boys are still what they used to be. Three University of Texas undergraduates were fined when police found 13 assorted signs with an aggregate value of \$75 adorning their room. One of the signs was a police "no parking" placard. Corn now occupies more land than cotton in the south. In 1935 the south harvested 10 per cent more acres of corn than cotton.

RALPH KRESS SLUGGING HIS WAY TO THE TOP

CHICAGO, June 10 (AP)—Ralph (Red) Kress, former major leaguer with the St. Louis Browns, Chicago White Sox and Washington Senators, apparently is out to slug his way back from Minneapolis into the big top again. Kress has provided a big share of the Millers' punch in the American Association. His batting average today was .340, decorated with 15 home runs and 55 runs batted in. Kress' potent club drove in five runs yesterday as the Millers whipped Columbus, 10 to 7 in 10 innings, to move into a virtual tie with Toledo for second place, only a half-game behind the leader, but staggering Milwaukee Brewers. Milwaukee dropped an 8 to 7 decision to Indianapolis, and the last place St. Paul club broke out a 22-hit barrage to blister Toledo, 15 to 0. Cold weather caused postponement of the Louisville-Kansas City series opener. BROWN BOMBER GETS HEAVY ASSIGNMENT CHICAGO, June 10 (AP)—Joe Louis was due for a double barrel going over—including an official search for automobile accident injuries—by the Illinois State Athletic commission today at his Kenosha, Wis., training camp. Chairman Joe Triner, George Getz and Dr. Frank Lagorio, the commission's physician, had planned to devote this afternoon to seeing for themselves how far the brown bomber has progressed in preparing himself for his battle with Chamsey James J. Braddock at Comiskey park, June 22. The visit assumed more serious proportions after Louis' automobile, with the bomber himself aboard, rammmed another car after yesterday's light workout. The bomber was expected to turn loose the full fury of his punching power in today's demonstration. Braddock, who whipped through an impressive six-round boxing trick yesterday, planned no strenuous work for today.

Attention OUT-DOOR SPORTS

You need go no further than this modern, fully stocked sporting goods store to find every conceivable sporting goods item. **Rifle And Pistol Match**

At Stanton On June 27  
 STANTON, June 10—Second annual rifle and pistol match to be sponsored by the Stanton Service club will be held June 27 at the gravel pit range in the Ed Mill-hollen ranch pasture one mile east of Stanton, those in charge of arrangements have announced.

The shoot is open to all marksmen on payment of the entrance fees, which are 25 cents and 50 cents, with a flat rate of \$1.25 for the meet.

Four trophies will be presented in the five matches slated for this year's exhibition.

The Stanton Service club trophy will be presented to the winner in the first match, employing small bore (22 calibre) rifles.

Victor in the second match, also with small bore rifles, will receive the Joe Hall drug store trophy.

Stanton Service club's pistol trophy will be awarded to the winner in the pistol match.

The fourth match, called the Stanton Service club junior match, will be entered by marksmen under 16 years of age only and small bore rifles will be used.

The Jess Woody aggregate trophy match will be the fifth event in which aggregate scores of the first three matches will be counted. Five prizes are offered in this event.

Houston Woody, 13-year-old son of J. N. Woody, was winner of first place in all junior and senior matches with both pistol and rifle in last year's shoot.

Committee in charge of the matches includes J. N. Woody and Arlo Forrest.

WEST TEXAS-NEW MEXICO LEAGUE (Wednesday Games)

Roswell 17, Monahans 3.  
 Odessa 10, Hobbs 8.

**COSDEN MANAGER GETS NEW PLAYERS**

Two new faces will be seen in Pepper Martin's Cosden lineup when the Oilers return home for a Sunday game with the Amersola Oilers of Monument, N. M.

One will be Jack Holland, who performed at second base in the Lubbock game last Sunday while the other is John Bray, hard-hitting outfielder who has been playing football and baseball at Texas Wesleyan, Fort Worth.

Bill Cook will probably pitch for the locals.

Agriculture and stock raising are the chief industries of Mexico.

Prisoners in Mexico City no longer are officially known by that name. They are "natural biological units susceptible of correction."

**Strange Insects In Cave**

ELY, Nev. (UP)—Scientists are invited to visit Lehman caves where tiny, blind, white insects which are unresponsive to light, but sensitive to vibrations have been found. Park rangers stationed at the monument say the white bugs make their homes on the stalactites, but hide upon the appearance of tourists.

Citizen Obliges Firemen

BELLEUEVE, Ohio (UP)—Firemen wish everyone could be as obliging as Albert White. When White returned to his parked automobile and found a seat cushion ablaze he calmly carried the cushion to the fire station in city hall where firemen extinguished the flames.

**Major Bowes Amateurs To Appear At Magnolia Lounge At Exposition**

**Devils Rally To Beat Out Cosden, 8-5**

DALLAS, June 10—The best talent of Major Bowes' amateurs will appear, under auspices of the Magnolia Petroleum company, at the Greater Texas and Pan American exposition which opens Saturday. This announcement was made by Fred M. Lege, Jr., vice-president in charge of marketing.

The amateurs, to be presented five times daily at the Magnolia Lounge on the exposition grounds, will be selected by Major Bowes personally. Every Thursday night from 7 to 8 o'clock, during the exposition period, Major Bowes will include a Magnolia talent search in with his nationwide broadcast. From these programs the best acts are to appear at the Magnolia Lounge in the exposition grounds.

Wally Sharples will come direct from New York to act as master of ceremonies for the Dallas performance of the Major Bowes amateurs. To accommodate the acts scheduled to appear here beginning June 12 when the exposition opens, the Magnolia Lounge has been remodeled to provide an adequate stage, and additional seating capacity. The air-conditioned lounge is located near the Grand avenue entrance to the grounds.

"The five shows daily will be free and are being offered for the entertainment of exposition visitors," Lege said. Each unit of four acts will run two weeks; there will be ten entirely different shows during the June 12-October 31 exposition period.

**Buster Chaney Starts Scoring Drive In Last Stanza**

For eight and one-half innings of Wednesday night's softball game the Cosden Octanes threatened to break their jinx, win their ninth game of the season to sew up first half honors, but Ben Daniel's hustle Anderson Devils began to hit with surprising regularity and, before the smoke had cleared, they had come up with six runs in that final round and the decision, 8-5.

So quickly did the youngsters take the advantage that the Cosdenites did not have time to throw up an adequate defense.

Trailing 2-5 going into the last stanza Buster Chaney gave the Devils hope of prolonging the affair by clouting out a clean single and Alton Bostick promptly tripled to drive the run across. C. Burrus connected hard and "skied" to short center and Sherrod was there waiting for the putout.

After retiring Smith for the second out Horace Wallin weakened and Bobby Savage worked him for a free pass. Then the bottom dropped out. Watson Reed, Miller and Bethel hit in succession to drive the four runs across the plate that won the ball game.

The defeat was the second suffered by the Octanes this year, and left them half a game behind the Fincher Roadrunners.

"Gets On the Job" That Means "The Job Gets Done" and We Both Profit!

**Did you see it, Yourself?**

AMERICANS LIKE TO SEE THINGS with their own eyes. The first question we ask anyone describing an event of importance is: "Did you see it yourself?" A skeptical race, perhaps, but that is one reason this newspaper prints the extra-fast, world-girdling TELEMAT service of The Associated Press—so you may see the news for yourself.

Telemats take advantage of the swift transmission of pictures by wire—an average size picture is flashed from coast to coast in a few minutes—and enable us to print pictures of the news along with the story. They cost a little more than slower, ordinary pictures, but we believe our readers understand we are trying to produce the best possible newspaper, and appreciate the service.

Watch for Telemats daily in

No. 1 Woman 'Chute Jumper Worries, But It's Mostly About Her Age (28)

ST. LOUIS, June 10 (UP)—Faye Nellie Cox, foremost woman de- veiled parachute jumper, says it isn't the jumping or the waiting to all the record that she fears, but in landing.

"I've landed in some queer places," she said. "On tops of buildings, in water and between high tension electric wires. Once landed astride a cow, and another time the pistol-like report of my chute opening just above his head frightened a horse so much he ran until he burst a blood vessel."

Mrs. Cox has made 319 delayed parachute jumps. She is rated No. 1 woman parachute jumper by the American Aeronautic Association and holds four world's records, among them, altitude, jumping from 18,250 feet, low opening at 60 feet, and the Irvin parachute trophy for spot landing at Buffalo in 1935.

WAGER REPEAL LAW IS DECLARED VALID

DALLAS, June 10 (AP)—Attorney General William McCraw said here today that the new law repealing pari-mutuel wagering at race tracks in Texas is valid.

"When and if an attack is made on the validity of the repeal measure in court," McCraw said, "the attorney general will appear in behalf of the state to contend the repeal law is valid and should stand."

Mr. and Mrs. M. G. Burchett and children visited Mrs. G. H. Porch in Big Spring last Sunday.

J. W. Phillips and son, Ted Phillips, left last week for Phoenix, Ariz., and other parts of Arizona and New Mexico. They are visiting in the home of Tom Phillips and son, Tom Phillips, Jr., at Phoenix.

Guests in the home of Mr. and Mrs. O. A. Goodman and family last Sunday were Mrs. M. S. Warren, Mrs. Golden Montgomery, Mr. and Mrs. Lindy Laudermlak, and Mrs. O. C. Robbins and son, Harold Lloyd Robbins, all of Big Spring.

Miss Irene Brown returned last Monday from Stanton where she has been visiting relatives the past few days.

Miss Aubrey Little of Big Spring spent last Wednesday night and Thursday with Miss Lillian Goodman.

Miss Ima Lee Gent of Big Spring who has been visiting Miss Josephine Brown the past few days, has returned to her home.

A large crowd was present at singing at Moore last Sunday night. President L. J. Davidson extended a cordial invitation to the public to be present at Moore each Sunday night for singing. The young people are especially urged to attend.

Miss Lillian Goodman spent last Thursday night and Friday with Miss Aubrey Little in Big Spring.

Mr. and Mrs. Doyle Turney have moved to the Moore Teachers' and plan to remain there during the summer.

Guests of Miss Mary Pettey last Sunday were J. W. Hull, Miss

Frances Todd, Sidney Robinson, all of Big Spring.

Those from this community who attended Bible study at the home of Mr. and Mrs. W. W. Pettus last Tuesday night were as follows: Mrs. W. P. Pettey and daughters, Misses Viola, Mary, Pauline, Ruby Pettey, and Margaret Wheeler.

Miss Viola Pettey visited Miss Ella Ann Johnson in Big Spring last Tuesday night and Wednesday.

Guests in the home of Mr. and Mrs. Baker Merrick last Sunday were Mr. and Mrs. Andrew Merrick and family, Mr. and Mrs. Lee Massie and family.

Mr. and Mrs. H. G. Cockerell of Midway visited their daughter and husband, Mr. and Mrs. Donald Adkins last Sunday.

Mr. and Mrs. Ben Stuterville and family of Big Spring visited Mr. and Mrs. A. A. Landers last Monday night.

Friends of Rev. John R. Denning regret to hear that he is seriously ill.

Those who enjoyed a fishing trip to Paint Rock last week were Mr. and Mrs. Donald Adkins, A. J. Landers, Mr. and Mrs. Hoyle Nix, and Miss Pauline Davidson.

Misses Margaret and Callie Wheeler spent last Monday night with Mr. and Mrs. Clarence Dodd in Big Spring.

Volley ball games were enjoyed by a large number in the gymnasium last Tuesday night. This sport will be continued through the summer months. The public is invited to take part in this amusement.

Madison Smith, campus caretaker for Moore school, has dragged the school ground level, and will keep it clear until school begins next term. His efforts are appreciated by all interested in the school.

Sunday school was well attended last Sunday, and a good lesson and

WPA ELIGIBILITY LIST IN TEXAS IS UNDER 100,000

SAN ANTONIO, June 10 (AP) Fewer than 100,000 Texans — the lowest number since the establishment of the Works Progress administration — are eligible because of destitution for employment on WPA projects in Texas, H. P. Drought, state administrator, announced today.

The report indicated 92,643 eligible for WPA employment. "This week's report that less than 100,000 Texans are eligible to work on WPA projects is an encouraging milestone in our efforts to reduce unemployment in Texas," Drought asserted.

Business recovery in recent months is given as the cause for the steady decline in unemployment.

The current case load showed the Fort Worth district leading with 16,345; Dallas, second, 15,304; Houston, third, with 13,022; and Waco fifth, 9,999. Other districts reported by Drought were: Austin, 6,461; El Paso, 4,232; Amarillo, 4,521; Fort Worth, 4,511; San Angelo, 3,376, and El Paso, 2,690.

FIVE LOSE LIVES IN BLAZE IN GERMANY

HALLE, Germany, June 10 (AP) — A fiercely burning fire, fed by inflammable acids, killed at least five persons and injured four others today in a freight depot.

Nine other employees of the yards still were missing.

The mysterious blaze railway administration officials said, destroyed 120 freight cars loaded with 300 tons of goods and 45 empty cars.

Only the heroism of railway workers prevented a worse disaster. Realizing that some of the endangered cars were filled with tanks of liquid air that would have caused terrific explosions had the fire reached them, they shoved the cars out of danger with the flames at their backs.

The flames, swiftly spread by a series of explosions that showered loading platforms with blazing benzene and acids, were fought by the massed departments of this city, 20 surrounding villages, local factories, reich labor service detachments, brown-shirted storm troopers and black-shirted "SS" men.

Town Makes Own Movies

CHAUNCEY, Ohio (UP)—Every Chauncey citizen was given an opportunity to be a "minute" movie actor. The local Parent-Teacher association arranged for a cameraman to take random shots, which were shown later at a party given by the organization.

service was enjoyed by all present. M. L. Rowland, Sunday school superintendent, urges the public to take part, if possible, in this service each Sunday morning at 10:30.

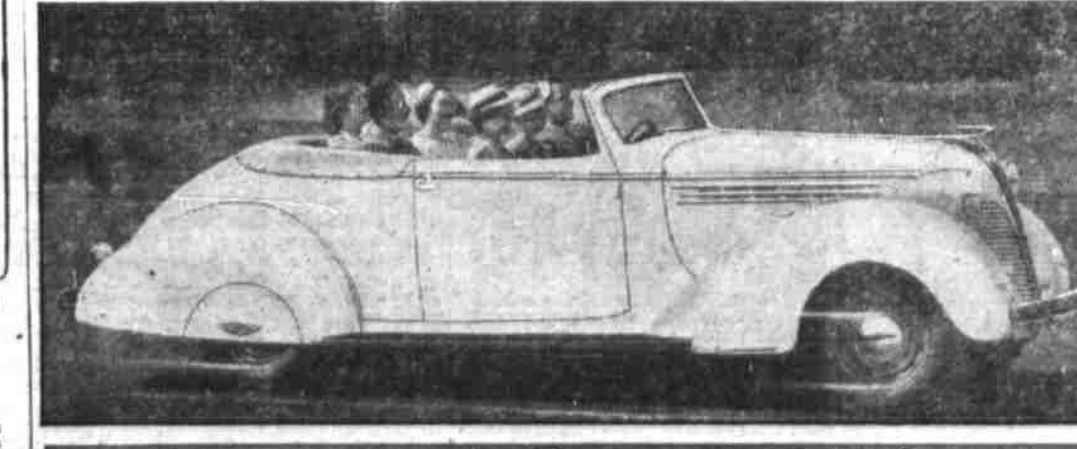

The Moore Parent-Teacher association met last Monday night with a large crowd present. A good program was enjoyed by all present. These meetings will continue through the summer months.

THERE IS SOMETHING NEW IN AUTOMOBILE PERFORMANCE! LET US SHOW YOU

No.1 Performance

The Bachelor... he loves to GO With lots of power and pep... and so His car takes second place to none... Stock car performer Number One!

Step on this accelerator... and meet a new driving thrill. You're boss of power that's No. 1 in the low and moderate price fields. And smoothest power, too! You're driving a running mate of the cars that broke 40 official American Automobile Association records out on the Utah Salt Flats... in the most punishing stock car test of all time.

## PAY THE PRICE FOR SAFETY

Coincident with the opening here of the state highway department's safety lane, in which automobiles are checked for mechanical defects, came the announcement in yesterday's press that the city of Big Spring is campaigning with renewed vigor against violators of the municipal traffic laws. Thus we have, simultaneously, an attack on traffic hazards on two fronts.

The mechanical deficiency in vehicles is an important factor in highway and street accidents. Poor brakes, lack of proper lighting, etc., are the cause of too many collisions. In Wednesday's check of automobiles here, highway patrolmen found 280 out of 845 cars had some sort of defect. Probably not all of these were major troubles, but they are indicative that a car must have a periodic checkup if it is to operate efficiently and safely.

The human element—and that is the sole factor in traffic law violations—is something else again. Apparently all methods of legislation have failed in some degree to put a stop to drunken, reckless and inefficient driving. The state of Texas has a good safety law; the city of Big Spring has a comprehensive set of traffic ordinances.

Enforcement "until it hurts" evidently is the answer. If traveling above the set speed limit, ignoring of stop signs and cutting of corners has become too prevalent here, it must be because public sentiment has been content with lack of rigid enforcement. The officers are not to be blamed in every case. There must, first of all, be a strong evidence public protest against traffic infractions; then officers will, as Hugh Johnson was wont to say, "crack down" on those who fail to observe the law.

Traffic observance must be a personal thing. You may be driving on an open street, exceeding the speed limit, but without threat of an accident. You are stopped by a traffic officer, given a ticket. You don't appreciate it. But you see another driver violating another traffic ordinance and you join in the chorus that "something ought to be done."

If we are going to have absolute traffic safety, we must be prepared to have everyone pay the price of maintaining mechanically efficient automobiles and of observing all statutes to the letter. That's a much cheaper price than that involved in destruction of property or maiming and killing people.

## Man About Manhattan

By GEORGE TUCKER

NEW YORK — Ever since that night seven years ago when I sat in a hotel in the midwest and ate apples with Otis Skinner I have wanted to talk with his daughter.

But it was not until she came in on the Britannic the other day that I finally met this dark-haired star of the American stage. It was the conclusion of her fourth and most successful London engagement, and now she is home to reminisce on the coronation and to do a lot of work—a disturbingly lot of work—getting ready for "Edna His Wife," which she is dramatizing for her own production this winter.

"How was London?" I asked with fine originality. "Great," she said, "but I ate too much over there. I always eat too much in London.... Now if I can waste away some four or five pounds."

This was really a laugh. No one has ever seen this actress over-weight and no one ever will.... One of the things that created a lot of interest among Haymarketters as well as visitors was the way the queen mother gets about. Miss Skinner ran into her at an art gallery herself, and an acquaintance happened to look up an found herself standing next to her in one of London's busy department stores, purchasing such personal bric-a-brac as handkerchiefs, linen and other accessories.

But about Miss Skinner herself.... She is really the only star who writes and gives whole productions by herself.... As she always appears alone in them, casting is never one of her problems.... It is an odd withal a fine achievement that she is able to carry through play-length monologues, which last an evening, and have people clamoring to see her.

There was "The Empress Eugenie," which she liked best of all her productions, yet it was the least popular of all. There was "The Wives of Henry VIII," which she did at Noel Castle, which the old king used to own.... When she brought "Loves of Charles II" to London she was vastly concerned over its reception there—but they adored it.

You see, most of her things have been historical, so she is looking forward with a lot of zest to this new dramatization of Margaret Ayer Barnes' novel, because it is typically American. More than that, it is middle western, with Chicago the locale. It concerns a man who placed success above all things, and his wife, who tried so hard to keep up with him and just couldn't make it. She was the type who should have remained in a little white house in the suburbs and had children. Cornelia Otis Skinner believes she is going to have a lot of fun doing this one.

## BEHIND THE NEWS

By **PAUL MALLON**

Copyright, 1937, By Paul Mallon

Farm bill viewed as virtually dead.  
 Granary, farm tenant provisions to pass.  
 Bulk of the measure to be discarded.  
 Present system held to be satisfactory.

Pruning  
 WASHINGTON, June 10—It is too much to say any farm bill is ever dead, but the pending O'Neal-Pharaoh-Wallace bill is as dead as one could get.

The reason you have heard no sounds of it is because it is being garroted by legislative friends of the farmer in the house. They are not ready to make any announcements yet, but have decided their course. They plan to prune the over-ambitious granary provision for wheat and a mild tenant farm provision from the measure. These two ideas they will pass before adjournment. The bulk of the omnibus bill (production control, surplus control, crop insurance, etc.) they do not want.

If they go through with their intentions, as now seems certain, it will be the first time in history that a farm bill, backed by farm organizations and the federal government, ever failed. The bill, as you know, is sponsored by Chairman O'Neal of the farm bureau federation, based on some ideas from Pharaoh, and worked up by Agriculture Secretary Wallace.

The opposition, as you should know by now, is based on belief that the farm situation is being fairly well handled at present, that the new production control measures may wreck the existing system on constitutional rocks.

Outlook  
 The line-up on other important legislation has not changed much lately. The prophets are somewhat fearful that President Roosevelt will spring a coup for a two-judge compromise on supreme court packing. There are about six senators you cannot put your finger on. They might backslide. However, odds still are against any increase in the court.

The minimum wage-maximum hour bill will become law with minor alterations. Word has come from the White House that it is must.... The power planning program is also must, but not in capital letters. The plot is to jam it through near the close of the session, but the plot may fail.

A few legislative stoppers will be put in tax evasion holes, after some anti magistrates, a friend of Coolidge, several publishers and a few ex-Liberty Leaguers are friend in publicity fat.... Some form of slush clearance will be passed. Details now are being argued out with the treasury, and the program will not amount to much for 1938, but will be enlarged for later years.

Congress will be in session until fall if Mr. R. can keep the boys here. He may have difficulty finding a quorum along about July 1.

Undying Fame  
 A great tribute to the late Sen. Huey P. Long was paid at the Louisiana State university commencement exercises a few days ago. A nationally known orator likened Long's educational efforts to those of Thomas Jefferson at the University of Virginia, and said:

"It is fitting, therefore, that adequate recognition be given by the state and by the nation to the part played by one of your outstanding leaders in the development of this institution. Some of his accomplishments will grow dim with the passing of time, but this university may remain for centuries as a monument to the unselfish zeal in the cause of education of your late distinguished United States Senator Long."

A prize of 100 stuffed ballots for any elective office will be awarded to any reader who guesses the identity of the orator without looking for the answer in the last line of this column.

Purpose  
 Capable Representative Dies of Texas led a movement on the floor of the house which puzzled his colleagues. He wanted to insert a provision in the bill authorizing a new South-Texas federal judge, which would have required Mr. Roosevelt to name someone from that district.

The inside cloakroom explanation is that Governor Allred of Texas is slated to get the job and some South-Texas wanted to block the deal.

Enlightenment  
 A congressman broke down and confessed why he was going to vote for the president's court packing plan at a meeting of the demagogic club this week. He said in substance:

"I want to stay in Washington. My wife and two daughters cannot stand out little home town of 3,500 or 4,000 people more than 60 days a year. If I oppose the president and am defeated, he would be unwilling to give me an appointment in Washington. If I support him, he will have to take care of me whether or not I am re-elected. That way I cannot lose."

I would be willing to risk voting against it, but only the thinking people of my district are opposed to it. The great bulk of the people either do not know anything

### Need Of More Practical, Vocational Training For Students Favored In Report Of Business Representatives

A revision of the high school curriculum to meet needs of a majority of the students is seen in a report compiled by Pascal Buckner, co-ordinator of diversified occupations courses, following a conference with committees representing the principal industries of the city.

### Installment Payments On Back Taxes

### New System Provided For In Bill Approved By Legislature

Installment payments on delinquent taxes are to be permitted under terms of an act passed by the legislature during the last regular session.

The plan was offered in the hope of collecting millions of outstanding tax obligations owing to the state, counties and other political subdivisions.

Terms of the bill, furnished by Sen. G. H. Nelson of the 30th district, provide that accounts on arrears taxes with counties and state may be opened provided the total amount owing is at least \$10 and no single payment less than \$1.

Figures show, he continued, that of about 1402 individual students attending the high school here in a 10-year period, only 10.7 per cent go to college. Only 65.5 per cent graduate, and of that number only 27.4 per cent go to college.

When the taxpayer has paid in a sufficient amount to cover all owing on any particular lot or tract of property, the tax collector may draw on a special trust fund, set up by the treasurer to handle the installment payments, for the amount and issue a redemption receipt on the particular piece of property.

Committees assisting in the survey and expressing themselves on the value and need of high school courses, almost universally wanted applied mathematics, particularly practical arithmetic. They wanted practical English such as spelling, composition, speech, business language, and training in comprehensive reading.

Proper authorities are given power, under the law, to file suit for unpaid balances against installment play taxpayers who fail for a period of four months to make payments.

It was significant that most of the committees specified desirable ages of young entrants into crafts as about 18 to 21 years, whereas the average age for graduation from high school is 16 or 17 years.

A special fund is to be set up by the county treasurer to handle the part payments until a sufficient amount has been paid in to cover one year's taxes. Then that amount is to be turned over to the collector for distribution among the county and state, according to law.

### U.S. To Spend 30 Millions For Air Map

### Face Of America To Be Composite Of Millions Of 'Shots'

WASHINGTON, June 10 (UP)—Uncle Sam is having his picture taken—the largest photograph in the world.

When it is finished, some years hence, it will cover an area of more than 3,000,000 square miles. The photograph was begun in 1934 and already is nearly one-third finished.

It is the most gigantic photographic effort in the world's history, this aerial picture of the United States. It likewise will be the most expensive photograph in all history, costing, when completed, about \$30,000,000.

The aerial survey is being made by three government services—the Agricultural Adjustment Administration, the Soil Conservation Service, and the Forest Service. The approximately 2,500,000 "shots" will be assembled into a composite map.

AAA Covers Most Territory The AAA has photographed, or has contracted for photographing this summer, a little more than 500,000 square miles. The Soil Conservation Service is nearing completion of aerial mapping of 400,000 square miles, and the Forest Service has photographs of 30,000 square miles.

The pictures are taken from a uniform height—14,000 feet—by a special camera. They will "overlap" at least 50 per cent—so that every point will appear in at least two pictures.

Each photograph is a farm on a miniature scale. More detailed information is required by the Soil Conservation Service. Drainage, slopes and types of soil are recorded for aid in plotting terraces, contour plowing, dams and other soil erosion control work.

The forest service mapping is the least expensive. It includes national parks and forests, mountain areas inaccessible to ground survey crews, and other public domain. Photographs are used to establish boundary lines, plan forest fire prevention and control and to record types of forests.

Several other agencies have done aerial photographing on a smaller scale. The Indian Service has photographed Indian reservations and the Tennessee Valley Authority photographed the TVA watershed from the air.

Officials said the completed aerial map would supply valuable information for planning flood control work. The only blocked-out places in this gigantic picture will be of forts, military reservations and other defense areas which the war department insisted be omitted.

FIVE-YEAR TERM PLAINVIEW, Tex., June 9 (UP)—A five-year penitentiary sentence was assessed Jerome Kirkwood in district court here last night on a conviction of robbery with firearms. It was the second five year term given him for the robbery of a local filling station. The first was reversed and remanded by the court of criminal appeals.

Agriculture Commissioner J. C. Holton of Mississippi regards soybeans as potentially the most valuable new crop for American farms.

### STATE MEN INSPECT SCENIC MT. PARK

Assigned to compile publicity on some 22 state parks, Everett Hutchinson and S. D. Rogers, state parks board representatives, spent Thursday here inspecting Scenic Mountain park.

Hutchinson is a publicity worker for the parks board and Rogers a photographer. Historical, legendary and outstanding information about the park, as well as details on flora and fauna, will be compiled for publicity material for the parks board.

Some of the material will go into colored folders to be issued by the parks board, publicizing some 26 state parks.

### RISKIND FACES WILMER ALLISON IN NET TOURNEY

SAN ANTONIO, June 10 (AP)—Rueben Riskind of Eagle Pass faced a former Davis cup player today in his quarter-finals match with formidable Wilmer Allison of Austin in the Texas state tennis tournament here.

While Allison was idle yesterday, Riskind was advancing with a decisive 6-4, 6-1 triumph over Ed Mather of Washington, D. C. Four San Antonians and a player each from Houston and Dallas also were able to win to the quarter-finals.

tonio, Curtis is the top-seeded junior player. Riskind will have another match also, meeting Tom Nixon in the semi-finals of the junior division. The other match will pair Curtis and Max Laxton of Pearland.

Leroy Cooper Milner, member of the Birmingham Southern college track team, was so near death with infantile paralysis in his childhood that his parents selected a burial lot and made funeral arrangements for him.

# WHEN TIRE SAFETY IS VALUED MOST!

BY DIRECT WIRE FROM  
**WESTERN UNION**

MR HARVEY S FIRESTONE CHAIRMAN—  
FIRESTONE TIRE & RUBBER COMPANY—  
AKRON OHIO—

HAVE TODAY WON THE SILVER ANNIVERSARY 500-MILE INDIANAPOLIS RACE ON FIRESTONE GUM-DIPPED TIRES AT 113.58 MILES PER HOUR BREAKING ALL RECORDS STOP I KNEW I COULD WIN IF MY TIRES COULD STAND THE TERRIFIC HEAT GENERATED AT THESE NEW HIGH SPEEDS STOP WORDS CANNOT EXPRESS MY GRATEFUL APPRECIATION FOR THE MARVELOUS STRENGTH BUILT INTO YOUR TIRES AND THEIR OUTSTANDING PERFORMANCE

WILBUR SHAW.

*Gum-dipped cords*

## PROVIDE THE EXTRA MARGIN OF SAFETY ON THE SPEEDWAY OR THE HIGHWAY

**THE MASTERPIECE OF TIRE CONSTRUCTION**

THOUSANDS said that tires could not stand the terrific grind. They said cars had been built with much greater speed, turns in the track had been repaved with granite-like surface, yet Wilbur Shaw drove to victory on Firestone Gum-Dipped Tires setting a new record of 113.58 miles per hour on one of the hottest days in the history of the Indianapolis track.

Here is stamina — here is dependability — here is performance that is proof of safety. 500 miles over the blistering hot brick track, at temperatures of more than 100°. Speeds of 130, 140, and even 150 were attained on the straightaways. Think of the terrific impact on these tires as the cars roared into the treacherous turns and out again. Tons of force straining, pulling, and twisting inside the tire, yet not one cord loosened, not one tread separated from the cord body — all because Gum-Dipping, the Firestone patented process, successfully counteracted the internal friction and heat that ordinarily destroy tire life.

Why have Firestone Gum-Dipped Tires been on all the winning cars at Indianapolis for the past eighteen years? Why did every one of the thirty-three drivers in this greatest of all racing events choose and buy Firestone

Tires? Race drivers make it their business to know how tires are made and they know that Firestone Tires are built with the Firestone patented construction features of Gum-Dipping and Two Extra Layers of Gum-Dipped Cords under the Tread. They know that because of these extra features Firestone Tires run up to 28° cooler and give greatest blowout protection. In fact, these men will not risk their lives or chances of victory on any other tire.

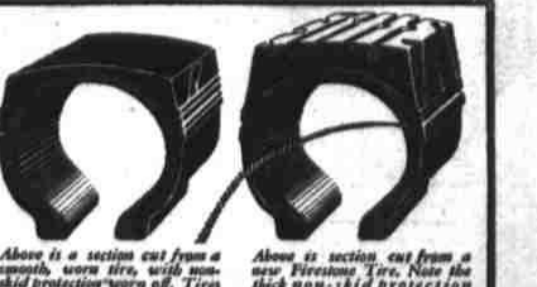

You will never drive your car at these record-breaking speeds, but for the safety of yourself and family you need the safest, strongest and most dependable tires. Come in today. Join the Firestone SAVE A LIFE Campaign by equipping your car with a set of new Firestone Gum-Dipped Tires — the safest tires that money can buy.

### DON'T RISK YOUR LIFE ON THIN WORN TIRES

No car owner is going to risk his life and the lives of his family knowingly on thin worn tires. Yet thousands of car owners are taking chances every day.

#### DO YOU KNOW

THAT last year highway accidents cost the lives of more than 38,000 men, women and children?  
THAT a million more were injured?  
THAT more than 46,000 of these deaths and injuries were caused directly by punctures, blowouts and skidding due to unsafe tires?

Listen to the Voice of Firestone Monday evenings over Nationwide N.B.C. Red Network
