THREE MINUTES OUT OF LIFE

Three minutes in a lifetime is nothing. They pass in a flash, like the blinking of an eye. Yet in three minutes tremendous things, both good and bad, can happen. In three minutes a life can be made or broken, a city can be wiped out by an earthquake, a whole nation can be plunged into joy or grief.

In three minutes, for instance, a man can be infected by a polio virus which may knock him flat on his back for the rest of his life. Or, in three minutes he can get three shots of Salk vaccine — at 60 seconds per shot — and be saved from a lifetime of crippling.

Over 65 million Americans have been wise enough to get their polio shots. Some 46 million are still flirting with disaster by neglecting to do so.

What's more, if you're one of those 46 million unvaccinated Americans, you're encouraging the outbreak of new polio epidemics in your community. Not till everybody has received his series of three Salk shots will the dread plague of paralytic polio be completely wiped out in this country.

Summertime is polio time. Now is the time to start your polio vaccination. It's painless. It's inexpensive. Don't take a chance — take your polio shots!

THAT POWER GIVE-AWAY

Every time a taxpaying-private utility company is licensed to build a hydroelectric dam on some river, a political cry is raised that this amounts to an almost criminal "give-away" of priceless natural resources that belong to all the people.

Wayne Gard, of the Dallas (Texas) Morning News, has something interesting to say about that. He writes: "A canyon, no matter how scenic, produces no electricity. Power development calls for expensive dams, tunnels, turbines and generators. The only places where the government gives those away are in the public power projects."

"The give-away power plants are the public ones. They give away taxpayers' money by lending it at less than cost. They toss out more by freeing the public plants from normal tax levies. That puts an extra burden on all other taxpay-

ers. The private utility companies put \$1.1 billion a year into the Treasury in federal taxes. But a single one of the public power projects, TVA, costs taxpayers about \$90 million a year. Which is the give-away?"

Mr. Gard points to another give-away — the Rural Electrification Administration. As he puts it: "The government has been borrowing money from taxpayers at 4 per cent and lending it to the REA at 2 per cent." And proposals that this rate be raised have been greeted with screams of anguish by REA spokesmen. They want their give-away not only continued, but extended on an ever-increasing scale.

There's a power give-away, all right. It's found in socialized power.

NO 'PUMP PRIMING' PLEASE!

This recession is similar to recessions in 1949 and 1954 in which the Government did no "pump priming." Those recessions ended quickly, and business went on to new highs, bringing greater prosperity than before.

But this time there is a great hue and cry for "pump priming" schemes of the kind that kept the depression of the '30's with us for ten years. Time and again it has been learned that such schemes interfere with real recovery, that they are costly, and that they bring inflation.

The best prescription for recovery is not more Government programs but fewer. Not more Government spending, but less.

The special interests are using the recession as an excuse to try to get every discredited project in the files authorized by Congress.

It's up to every citizen to help beat off this attempt to loot the Treasury.

Foundation Opens Out, All-Ages Polio Vaccination Campaign

YORK — The National Foundation for Infantile Paralysis has launched an "all-out all-around" campaign to increase the number of people vaccinated against the disease.

The first time since April 1955 that vaccine supplies are plentiful to support an all-out vaccination program across the country, Basil O'Connor, National Foundation president, said in a speech.

Communication addressed to the Foundation's 3,100 chapters, Mr. O'Connor pointed out that more than 172 million people have not had a single shot of vaccine.

Major target groups for vaccination were listed: children and other pre-schoolers, the age group accounted for the highest paralytic rate in 1957.

Parents, who "don't realize that their children's protection won't come from them."

Teenagers, highly vulnerable to polio but "needing scaring and encouragement."

Adults, who think no one

over 40 is eligible for vaccination. The National Foundation's vaccination program is timed to coincide with the spring Stamp-Out-Polio campaign of the Advertising Council which is sponsored by the American Medical Association, the U. S. Public Health Service and the National Foundation.

What are you doing to strengthen America's Peace Power?

Not everybody can fly a jet to help keep the peace. But fortunately, everybody can do something to help strengthen America's Peace Power. Here's how:

Peace costs money. Money for many different things. To help us keep the peace, through industrial and military strength. To help make it lasting for the future, through science

and education. And, (most important) it takes money saved by individuals. Your Savings Bonds, as a direct investment in your country, make you a partner in the job of strengthening America's Peace Power.

So—buy Bonds now. Buy them where you bank, or where you work, through Payroll Savings. They're a good way to save. And they're your investment in the future!

Nearly \$200,000 worth of Crockett county lambs, 25,000 head, were contracted by 21 Crockett County ranchmen, established a local record for sale of lambs in a single block or pool. The sale was made to Joe Evans of the Producers Coop Assn., of Chicago. The sale price was 11 cents per pound for all mutton lambs.

Mrs. Albert Kay was elected president of the Ozona Parent-Teachers Assn. at the regular meeting of the Association Monday afternoon. Mrs. Kay succeeds Mrs. J. M. Dudley. Mrs. Poon Seaborn was elected vice president; Mrs. Welton Bunker secretary, and Mrs. Joe T. Davidson, treasurer.

War on the fly pest and a general clean-up of the town as a sanitary safeguard during the summer months was urged by Dr. G. Miller in a brief talk before the Lions Club Monday.

"Ozona, Biggest Little Town In The World" will be the message to blaze forth over the downtown streets in the near future, to be seen by every visitor. An order for an electric sign carrying this message was placed by the Lions Club committee in charge this week following approval by the board of directors.

Pay from 1925-29 feet in W. A. Moncrief and others No. 1 J. S. Todd, which early promised to bring about the opening of Crockett county's second oil pool but proved a failure on tests, will be cased off early this week and the wildcat will be deepened to con-

tract depth of 2,000 feet.

Seventeen Cagers Start Spring Practice; Peltó Faces Rebuilding Task

By Ernie Boyd

Seventeen candidates for Ozona's next basketball team started spring practice in Davidson Gym Monday under the direction of Coach J. A. Peltó.

Three other prospects for next year's squad are still on the track team.

Only one player with extensive first team service is taking part in the practice at the moment with seven B team members and three freshmen rounding out the high schoolers. Next year freshmen now number five to round out the seventeen.

The boys are: David Sikes, Johnny Jones, Johnny Cooper, Don Rowan, Arthur Stevens, Muggins Good, Dick Flanagan, Roy Killingsworth, Wayne Albers, Mark Baggett, Alvin Bob Blondell, Jimmy Adams, Phillips Carnes, Carl Montgomery, Van Miller, Bobby Duro, and Billy Carrebus.

Missing from practice at the moment due to prolonged track activities are Jerry Jacobs, Jim Williams, and Bobby Sutton.

Coach Peltó faces a general rebuilding program but will still have such experienced and talented hands as Jacobs, Sutton, and Sikes around which to build a new team.

Most promising candidates for next starting roles seem to be Johnny Cooper, Johnny Jones and Jim Williams but it is clear that there is a good bit of young talent which is going to come along strongly in the next few years.

Wayne Albers, Carl Montgomery, and Mark Baggett now show promise of making up one of the tallest teams in recent Lion history in years to come but right now the problem is centered around next year's team.

Extensive damage to the Gym floor was incurred some months ago when a steam line placed beneath the floor broke and caused an estimated \$2,000 damaged to the gym. Work on repairs will not be started until after spring practice or until after school is dismissed next month.

Dr. Ralph Simon left the middle of the week for Tiffin, Ohio, to be at the bedside of his grandfather who is seriously ill.

YOUR HOMETOWN NEWSPAPER IS A REAL CONVENIENCE

A wonderful way for a busy young mother to save countless hours is by shopping the ads in her hometown newspaper. By knowing, before she goes to town, which products she wants and where to buy them, she can do an efficient job of marketing. While the housewife spends her time becoming an expert nurse, laundress, cook, playmate, and bookkeeper, the local newspaper is bringing her the shopping news. It tells her about the latest products and services that will help her accomplish her work most efficiently. It tells her where to find the best prices offered on items she needs. It saves her many long hours of "shopping around".

COMIN' AND GOIN'

By Sally Baggett

The Seniors are really getting important, so it seems, to go on their trip. That is all they ever talk about.

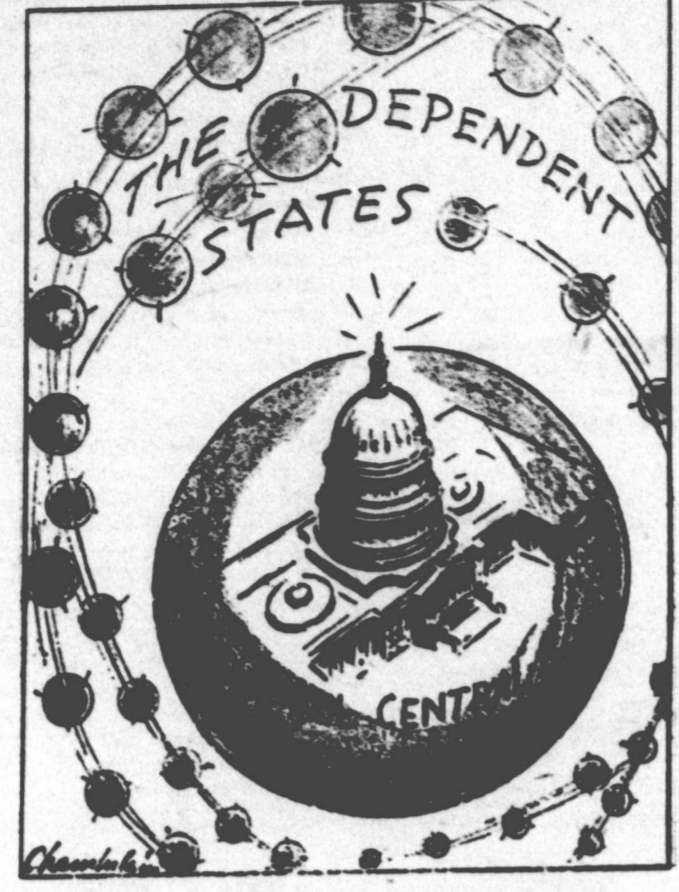

All of the Juniors have been running around trying to sell tickets to the Jr. play, "You Can't Beat the Drums", they seemed to have done a good job of it too. It was Monday and Tuesday night and it was real cute!

Friday nite Sandra W. had a slumber party (freshmen only) from the reports they had a wonderful time. They didn't go to bed and were with the sun just so they could wake June, Linda, Anne, and Camille all up over at Linda's. Those last four were rather unhappy little girls at some fish.

The boys went to Sonora Saturday for grass judging and came home with a 2nd. Congrats!

Lots of kids were at the show Saturday nite. Rod and Alleane, Diz and Nonie, Bess and Wayne A.

WASHINGTON SATELLITES

There is a carnival in town. If you want to find anyone just go over there.

Susie C. must really be mean! Johnny Cooper had her in handcuffs Tuesday nite. Really the 'Ferret' had used them in the play and Susie was playing with them when Bill B. locked them shut. Poor Oscar Groff got rooted out of a nites slup just so Susie could be free again!

Well, that's all for this week. So-long!

CHORAL CLUB PROGRAM

The members of the Parent-Teacher Association and the general public will be entertained tonight, April 24, at 7:30 p. m. by the high school chorus directed by Corbett Smith. The meeting will be held in the high school auditorium. Since the Christmas program, the choral club has been preparing for this spring program. The numbers have been carefully selected in order that many favorites, old and new, may be enjoyed.

The choral club meets an hour a week, and, because it is a club activity, no one is required to sing. Its members will tell you that they sing because they enjoy it. It is their hope that others enjoy hearing their music as much as they do presenting it.

Had visitors in your home, been visiting out of town, know a neighbor who's had company or been visiting? Please phone the news to the Stockman, No. 210. tf

FRIDAY BRIDGE CLUB

Mrs. V. I. Pierce entertained the Friday Bridge club in her home last week. Spring flowers were used in arrangements in the rooms. High score award went to Mrs. Lindsey Hicks, second high to Mrs. Lovella Dudley and cuts to Mrs. Tom Harris and Mrs. Lee Childress. Others attending were Mrs. Stephen Perner, Mrs. Bailey Post, Mrs. Eldred Roach, Mrs. J. W. HEALTH, FOOD AND BUDGET

Left to right: Dr. Willa Vaughn Tinsley, Dean of the College of Home Economics at Texas Technological College, Lubbock; Miss Cleo Butler, retiring state president of the Nebraska Home Economics Association, and Mrs. Donald Walton (center) to wheat growers and bakers an Amber Fields) home economist of the Nebraska Wheat Commission.

Omaha, Neb. — People who spend more than the average amount of their family budget for food aren't necessarily the best fed. Even at the top income levels there are many families whose diet is nutritionally inadequate.

These comments were included in an address by Dr. Willa Vaughn Tinsley, Dean of the School of Home Economics, Texas Technological College, Lubbock, at the recent meeting here of the Food and Nutrition Section of the Nebraska Home Economics and Dietetics state convention. She added that "people in all income groups need help in improving food habits."

"Although the acne of adolescence may be unrelated to nutrition, a good all-around diet will help to maintain a healthy condition of the skin, and together with cleanliness, may help to combat it," Dr. Tinsley said.

She added that the skin of a well-nourished person is usually smooth, slightly moist and tinged with pink. The skin of a poorly nourished person is likely to be dull and lifeless.

"It is important to protect each child from embarrassment over any shortcomings which study of his dietary habits may reveal. Food practices are personal and, as such, merit respect and confidential treatment," she declared.

"Good eating habits are important at all age levels... Nutrition is a lifetime business... It is an endless cycle—the habit today in the adults and parent tomorrow—the problems of later years often having onset in earlier years and we bring what we are because of our yesterday."

Most children like sweets, Dr. Tinsley said. That is all right, she said, but "we should get children to eat what they need, and then foods they consume which are superfluous to their needs will not loom in importance."

"It is important to recognize the good points in each child's food habits, the practices which should be encouraged to maintain as sort of bulwark against the realizations that there may be other practices (most often omissions) that need changing."

"Bread and cereals are a must start because this group of food is likely to measure up well... and the meat group must come next as it is about as likely to measure up well against recommendations—in all but extremely low economic circumstances."

Dean Tinsley pointed out that some nutrition teachers and pupils whose breakfasts consisted of beans, and that some girls prefer their cereal for supper.

"Nutritive value," she said, "is not dependent upon the size of the day."

to call. The services of the operator will still be used on placing all long distance calls, as well as for information, repair, and other service calls however.

At the time of the conversion, a new "2 Letter — 5 Numeral" numbering plan will also go into effect. This means, said McCullough, that all telephones will have a two-letter prefix, followed by five numerals. The prefix "EXbrook" has been assigned to all telephones in Ozona. In dialing this prefix, the letters "E X" will stand for the word "EXbrook." These letters will be dialed first, and then the appropriate five numerals, signifying the individual telephone number. This is another phase of the modern "national-inter-toll" network, that signifies different areas throughout the United States.

The entire country has been broken down into "inter-toll" areas, and each one is designated by a certain prefix. Nowhere in this area will the prefix "EXbrook" be found except in Ozona. This enables operators anywhere in the nation to dial directly to individual telephones, without the services of additional operators when the person placing the call knows the correct telephone number of the person that he wishes to call in a distant city.

McCullough pointed up the importance of customers knowing the correct number when placing a long distance call. This enables long distance calls to be completed without delay, since the operator does not have to call information in the distant city to obtain this number.

Ozona Wins 2nd —

(Continued from page one)

have lost more than the race as Bobby Sutton, the Lions anchor man, was painfully injured in a fall at the finish and is not expected to be able to run again this spring.

The Lion team led Junction all the way in the colorful event and with scant feet to go still held a lead of some two feet when Sutton fell, skidding across the finish line. Judges were undecided as to who won but finally awarded the decision to Junction, but the team had qualified and the loss of Sutton was a far more serious blow.

Jim Williams, a soph sprinter who did not take part in the district meet as a sprinter, will replace Sutton this week in Lubbock and in Austin next week unless Sutton improves more rapidly than expected.

Junction withdrew from the 880 run in which Brown probably would have been able to finish at least second in order to run the mile relay and in so doing edged Eldorado for first place with the Green and White Eagles getting second.

The meet was a great victory for district 8-A which copped over 60 points among its four entries as compared with only a little over 80 for the other sixty plus teams entered.

District 7-A actually won a big majority of the remaining points as Alpine, Iraan and Big Lake each garnered a number of points.

As a result of placing six men in the state meet the Ozona team has been invited to an invitational meet in Lubbock this weekend in which all of the athletes qualifying for the state event from West Texas have been invited. It was not known whether the meet would be run off by division or not.

In the literary events at the regional meet, Genelle Childress won first place in extemporaneous speaking, thus qualifying for competition at the state meet in literary events.

An And Wife Headon Crashed West Hiway
Alice Couple, 67, After Freak Crash, Injured On 163

Mr. and Mrs. Charles Headon, of Alice, Texas both 67 years of age, were killed almost instantaneously at 9:50 o'clock Wednesday when the car in which they were riding went out of control on Highway 163, east of Lubbock, and swerved across the left bar ditch, struck a fence, and caromed off the highway into the pasture.

Mr. and Mrs. Pitman, of the car to the left, were killed by the force of the impact. Highway Patrol Officer Cawyer, who investigated the accident, said Mr. Pitman's car was crushed and Mrs. Pitman's body was crushed. Both were killed when the officer arrested Douglas Rufus Bray, 34, of Lubbock, Tex., driver of the truck, said the driver skidded on the wet highway and bounced into the highway directly in the path of the oncoming truck. The Studebaker, struck the bumper of the truck around several times, and the couple out. The truck was traveling west and the truck was damaged.

Deaths of the Alice couple were the second and third in Crockett county this year. The highway department said this county was two days behind the Highway 290 fatal crash the second crash in the past week. The Texas State College students were seriously injured in a one-car accident on Highway 163, east of Ozona on Highway 163, the three youths, John H. Hodkins, 18, of Silvertown, Billy Jack Harvey, 21, of Pecos, and Billy O'Neal, 21, of Pecos, were thrown clear of their car and went out of control on Highway 163, east of Ozona, and crashed into a right-of-way fence on the property of Thomas Cooke pasture. The trio of students were killed over several times. The bodies of the students were buried at the Crockett County Hospital.

The bodies of Mr. and Mrs. Headon are at the Cody Funeral Home, awaiting a burial.

Wildcat Location Montgomery Range Miles S'west of Ozona

D. D. Bodkins of Midland applied for a location to drill a 300-foot well in Crockett County southwest of Ozona, on a 640-acre tract located on the north side of 14-NG-GC&SF. The prospector is 3/4 mile east of Ralph E. Fair No. 1-A. A Montgomery 223-foot failure, that was abandoned March 1, 1957, is also 1 1/4 miles due west of the one-well Refoil (3.1 mile) field that was abandoned by Ralph E. Fair No. 1-A.

Strawn Returns Salt Water In Test

F. W. Holbrook of Midland is waiting on orders at the location in 38-BB-TCN Crockett County wildcat located southwest of Big Lake, Texas southeast of product world, West (Strawn) field covering oil and salt water. The two-hour test on the two-hour test recovered 138 feet, recovery of oil, 330 feet of salt water, 420 feet of oil-cut salt water. Flowing pressure was 100 pounds; 30-minute shut-in pressure, 2,850 pounds.
