If a UN Police Force is sent to Lebanon to seal its frontiers against smuggled arms, the members should be from the smaller countries, Pentagon strategists believe. They reason that American forces should be left free to face repercussions from Russia which has indicated it would consider UN troops as aggressors.

The threat of Lebanon to the precarious standoff between the West and the Reds cannot be over-estimated. We cannot afford another Korea — as the Pentagon ought to know.

LESSON OF THE RECESSION

According to news reports, business and employment are picking up. This is good news. But the recession of the past few months reveals something that deserves a lot of thought by all who value the ideal of individual freedom. That something is the new relationship between government and private citizens. At the first sign of down-turn government was called upon to "do something" in an economy supposedly dedicated to the principle of the free market and competitive enterprise. The first reaction to recession was an instinctive attempt to pass the initiative to the central government. And why not?

For more than a generation, the philosophy of the welfare state has been assiduously promoted. At the same time corporation taxes, social security taxes, personal income taxes, excise taxes, taxes by the score have soared to the point where the average person spends approximately a third of his productive hours working to pay them.

Aside from psychological conditioning for acceptance of the welfare state, neither individuals nor businesses under present tax laws are permitted to retain enough of the money they earn to cushion themselves against normal exigencies. Basic industries, which furnish the necessities to an expanding population are faced with an increasingly grim problem which can be described in three words— inflation (or rising costs), taxes and over-regulation. These three evils are slowly backing the free market private enterprise system into a corner.

The recession brought demands for tax cuts. They will have to come. But there also will have to be tax reform to rebuild some of the strength and resiliency of our people and industries to meet the inevitable ups and downs of a free market, free enterprise country. This is the lesson of the current recession.

ped up shipments of boned beef entering the United States on the West Coast have slowed down the operations of processors, in some cases 75 to 80 percent. One spokesman said, "Even if cows were 10 cents a pound cheaper, it would not slow down the imports."

The meat is used primarily by canners and sausage makers. The Florida Cattlemen's Association recently passed a resolution demanding that imported meats be labelled plainly as such, so as to minimize competition with United States meat.

New Zealand newspapers are also claiming that final arrangements have been made to ship 1,300 cattle from North Island, New Zealand to San Diego, California. These reports indicate the Modern Imperial Cattle Company of California is expected to supervise the shipment which will be the first shipment of feeders to the United States. United States tariff is 1.5 cents per pound.

Projected imports of live cattle had been talked some months ago but it was reported later the prospective importers had abandoned the notion.

Cattle Open Fully Steady To Stronger. Stockers Active

Cattle trade was active and prices were generally fully steady at Fort Worth Monday. Fat steers and yearlings were highly uneven, as some buyers showed little interest in the offering at current prices. However, the few lots that were on hand cleared without mishap. Cows and bulls were active, and stocker and feeder classes of cattle and calves again enjoyed very broad demand. Choice fat calves were in small supply.

Good and choice slaughter steers and yearlings cashed at \$24 to \$27, and common to medium sorts cashed at \$18 to \$23. Some pasture fed steers cashed at \$25 and \$26.25.

Good and choice slaughter calves cleared at \$24 to \$27.50, a few higher. Common and medium grades sold from \$17.50 to \$24. Culls drew \$14 to \$17.

Medium and good stocker steer calves cashed at \$24 to \$30 and a few steer calves of lighter weights sold to \$32. Stocker heifer calves of medium to good grade sold from \$23 to \$29. Medium to good stocker and feeder steers cashed at \$22 to \$28, and commoner quality sold from \$18 to \$21. Stocker heifers ranged from \$24 downward.

Sheep and Lambs Sell Fully Steady

High grade offerings were virtually lacking in the sheep barns at Fort Worth Trade was active and prices fully steady Monday on all

kinds, quality considered. Good to choice slaughter lambs cashed at \$21 to \$23 and cull to medium Springers sold from \$13 to \$20. Feeder lambs cashed at \$17 to \$19.

Good fat yearlings sold from \$17 to \$18, and cull to medium yearlings sold from \$12 to \$16. Aged wethers sold mostly from \$10 to \$12.50. Slaughter ewes sold from \$6.50 to \$7.50. Aged bucks sold around \$6 and a few solid mouthed bucks sold to \$9. Goats cashed at \$7 to \$7.25.

Perry." That fellow had an idea which we hope some Chamber of Commerce will pick up and follow through on. We do need that big range, and we do need many smaller ones.

I realized this just the other day when a friend called me and asked where his 11-year-old son could get some 22 rifle practice. He had been shooting in a country gravel pit, but someone put a stop to that.

I couldn't keep from thinking how open the country was when I was a kid. We could shoot 22's anywhere. Today, however, cities are expanding rapidly and random 22 shooting is extremely dangerous.

Perhaps the problem could be solved locally in many places by some rancher dedicating one small canyon to 22 shooters under the age of 17. Anyway, it's a good idea.

Faster on the Draw — Another thing that interested me at the NRA convention was the work of amateur gunslingers. There were several fellows there who'd better not run into Marshal Dillon. If they do, Gunsmoke will disappear in a puff.

Some of these quick draw artists are older men, but most of them are young fellows, who have quick reflexes and use a lot of science. They can flick out a long barrel six gun with either or both hands faster and faster.

Most of them were using the old

single action, cocking type revolver. It will be interesting to see now whether another fraction of a second can be shaved from drawing and firing time with a new fast gun just announced by High Standard. It is patterned after the frontier models, but is double action and chambers nine 22 caliber cartridges.

This "Double Nine," as it is called, is sure to be showing up in all quick draw and rapid fire competitions where western guns will be required.

For years High Standard has been making top quality automatic pistols and revolvers for 22 ammunition. This gun should be their best.

Better Ammunition Too — Ammunition manufacturers are continuing to bring out new and souped up versions of sporting ammunition that make us wonder how we ever killed anything with the old "thuty-thuty".

Winchester has just announced a couple of new loads. One is the 264 Winchester Magnum, which will provide hunters with a high velocity, flat shooting, long range load, ideal for deer, sheep and antelope.

The other is a 338 Magnum, as an intermediate cartridge for moose, Kodiak bear, lion, tiger and other heavier game.

Both cartridges are based on a case similar to the 458 Winchester Magnum, which permits the use of the Model 70 action.

Pellet Guns Popular Now — While on the subject of guns we were also impressed with the Crosman display at the NRA show. Here is a pellet gun that has made very rapid strides in the last few

years, especially for indoor targets.

These guns are available either air or gas powered. They are made in both 22 and 177 calibers.

The pelletgun offers a great deal for both indoor and outdoor shooting. It is less dangerous in the open than conventional rifles. It must not be sold short however, in power, and should be handled with the same care as any other gun.

Crosman provides an indoor target range for the pelletgun, which permits a lot of target practice at a very reasonable price.

Newest in the Crosman line is the CO2 pistol, which gives power without powder. The Medalist model, which was on display at the Dallas show attracted a great deal of attention from military marksmen.

"Straight To The Point"

A Summary of Vacation News From The Teenage Set

By Sally Baggett

Tomorrow is the 4th and most of the kids are going fishing or to the Rocksprings rodeo.

Sandra Whitaker, Sandy Ratliff, and Barbara Barbee went to Mt. Wesley to church camp. They'll be there a week.

Darrell Rasberry and Floyd Danely are keeping in shape by walking. One minute they are riding around with some Sophomore girls and the next they are returning on foot from somewhere.

Beth Garreth has returned to Midland and for just a visit. We are sure going to miss that girl. Barbara Barbee had a surprise going-away party for her. From all

accounts it was loads of fun but they lost Beth when Wayne appeared.

Coach Hickman's brother-in-law was here Saturday and Sunday. Alleane Young and June Bunger are making a steady stream of traffic to Pandale and surrounding vicinity. Maybe it's the cold cokes Moss Mills sells. They are the coldest in Pandale.

Jakie Young and Rod Franklin came home a few days too late. Sharon Boyd and her family were here for a visit. She sure is cute, Rod.

Molly Sue Richardson is back from Galveston and she said she had a wonderful time.

Anne Davidson is spending most of the summer on the road between the ranch and town. She is staying with Camille Adams.

Carolyn Mayfield has gone and gotten herself taken apart. Sunday she had an emergency appendectomy. We hope you are up and around in a short while, Carolyn.

Johnny Jones has been coming in more often. Is it Pam you come to see or is Brock coming in to see Carol.

Say, Jerry, where is your shrunken head? Did Gwynel get tired of staring it in the face? It was on your mirror.

Who is the goodlooking brute who comes nearly every weekend to see you, Suzanne?

Mark White has turned house keeper on us. His boss in Big Lake left for a few days so Mark is staying in his trailer until he returns.

Bill Black, Susie Chandler and Pierce Miller are in Corona, New Mexico, hunting arrowheads. They had better be careful or some old chief will yell "boo", at them from

the Happy Hunting Grounds.

Dartha Melton has come back from Dallas. Too hot up there, Dartha?

Donald McCaleb and Jim and Johnathan Burton had an accident in the car Saturday night. The only thing hurt was the car. Lucky boys.

Nellie Childress seems to have left the face of the map. She hasn't been seen in so long she will almost be a stranger. Nellie, where are you?

Joe Clayton is in Hawaii going to school. Wonder how much schooling he is getting?

Clayton Friend is spending all his time at the ranch.

Ronnie Paulk has a goodlooking girl at his house. It's a shame big brother has her pinned, isn't it Ronnie?

Frances Childress is making off with most of the available males. Maybe it would be better if she were going steady again.

Mills Tandy is mixing business with pleasure in Florida working for the University of Texas Marine division.

Nonie Conklin has come back from Sweetwater all excited about what a good time she had. When she told me what all she did I could see why she was excited.

Joe McMullan, Alleane Young, Johnny Cooper, Bill Meinecke, June Bunger, and David Sikes came out to the ranch and swam and ate, and saved Jr. Cauthorn, from Del Rio, and me from the task of housekeeping. Oh Yeah!

Alleane and June had to leave early, so they could go to Pandale. (I'm still wondering what the attraction is, Young!) That's 30!

The News Reel

A re-run of "The Ozona Story" as gleaned from the files of The Ozona Stockman

From The Stockman, July 4, 1929

Rains that could not have been more perfect had they been carefully sent upon the order of every ranchman in West Texas soaked the greater part of the stock raising country Saturday, Sunday and Monday. The fall ended a long period of scorching hot, dry weather which threatened to parch ranges and dry up water holes.

Mr. and Mrs. Edgar Schwarz are the parents of an 8 1/2-pound boy born Friday morning in Boerne. Mrs. Schwarz is the former Inettah Cooke, daughter of R. J. Cooke of Ozona.

Mr. and Mrs. Sid Millsbaugh from San Angelo are rodeo visitors here this week.

With approximately 4,000 visitors here for the opening day and more than twice that many here before noon on July 4 for the holiday program, the fourth annual Crockett County Rodeo, Race Meet and Stock Show is expected to show up as a record breaker when the final check on attendance is made at the close Friday night.

Dr. and Mrs. A. Helbing and family of Big Lake were guests of Mr. and Mrs. S. E. Couch Wednesday.

Two trained bloodhounds have been added to the Crockett county Sheriff's Department and hereafter the criminal who seeks to take to

the wide open spaces of Crockett county to escape the law will find his tracks hard to cover from these nosey hounds, Sheriff W. S. Willis announced.

Lowell Littleton left Sunday for Abilene where he will visit his family while receiving medical attention.

Mrs. T. A. Kincaid, Jr., has returned from a visit with her parents in Caldwell, Texas.

Mr. and Mrs. Joe B. Johnston and Mr. and Mrs. Ben Mayes and family and Mrs. James Farr are the guests of Mr. and Mrs. W. E. Friend.

Mrs. Jess Marley of Hastings, Okla., is here visiting her sister, Mrs. Tom Smith, and family.

Mr. and Mrs. Claude Hudspeth and Roy Hudspeth are in Ozona for the rodeo.

Circling the public square a few times in the 97th county seat in Texas they have visited on their non-stop run in a Model A Ford, H. C. Gore, Walter Wright and W. C. Breedlove of Levelland, stopped in Ozona Monday long enough to replenish their gas and were on their way to the next stop, the county seat to Terrell county, Sanderson. The run was started June 26 and since that time the car's motor has never stopped.

Mr. and Mrs. Paschal Odom and Miss Vivian Baggett left Wednesday for a tour of California.

For the first time, Ozona is to have a telephone directory all its own. The directory was printed under the direction of the San Angelo Telephone Co., recent purchasers of the local system. A raise

in rates from \$2 to \$2.50 for residence phones and from \$3 to \$4 for business phones was also announced by the company.

George Montgomery has leased his 20-section Terrell county ranch to Earl Berry and Hurst Meimecke of Ozona at 65 cents per acre for five years. Montgomery has leased the Ernest Sparkman place in the same county and has bought 2,600 yearling ewes at \$11 per head.

Misses Jean and Alice Henderson are entertaining a number of guests at a house party on the Lee Henderson ranch.

HIGHLIGHTS AND SIDELIGHTS From State Capitol

By Vern Sanford
Texas Press Association

Austin, Texas — Texas has a fairly new addition to its long and much-vaunted list of "firsts" and "mosts." But this one's no fun to brag about.

Texas has the greatest number of designated potential enemy bomb targets of any state in the union, says State Defense Coordinator William L. McGill.

This added to Texas' long-standing record of leading the nation in natural disasters, puts a heavy responsibility for defense preparedness on Texans, McGill told the annual State Defense Advisory Council conference in Austin.

Officially designated "aiming areas," as they are called, are Fort Worth, Dallas, Houston, Austin, San Antonio, Galveston, Beaumont, Port Arthur, Amarillo, Corpus

Christi, El Paso, Laredo, Lubbock, San Angelo, Waco and Wichita Falls.

Others considered possible targets because of nearby military installations are Abilene, Beeville, Big Spring, Brownsville, Bryan, Dalhart, Del Rio, Killeen, Marfa, Pecos, Pyote, Sherman, Victoria and Wink.

Texas has received a \$320,000 federal grant, conferees were told, to draw up a state Survival Plan. Several larger city plans are complete, and the state plan, a massive and complex thing affecting the lives of millions, is due to be finished by December 31.

Rural residents cannot feel themselves invulnerable, the Council was told. In case of a large-scale bombing, it is felt likely that radioactive fallout would cover most of our terrain, contaminating crops, cattle, pasturage and ponds.

Under the present national civil defense plan, considerable responsibility for advance training and preparation rests with the individual family. Each would be responsible for feeding itself for the first two weeks of a post-disaster period. After that, state and local government would take over for two weeks, and after that, if ne-

cessary, the federal government would step in.

Persons or organizations wanting to obtain official civil defense information and study materials may write the State Defense and Disaster Relief Office, Capitol Station, Austin.

Hot Potato — Atty. Gen. Will Wilson is being asked to give an official ruling on a highly controversial question.

It is whether Texas, under present law, can accept additional federal funds to extend the period of unemployment payments. Texas Employment Commission and Gov. Price Daniel are asking for the opinion.

Pros and cons already have been the subject of heated discussion. A recently passed federal law would allocate to the state, funds to provide an additional 12 weeks of \$14-a-week payments to persons who had already come to the end of their 24-week benefit period. An estimated 60,000 Texans are in this category.

But, to receive this money, the state must repay the funds to the federal government. If it doesn't get the money by some other means such as the normal accumulation during high employment periods,

it would be pledged to raise the tax on employers after Jan. 1, 1963.

Some argue that this would violate the constitutional prohibition against pledging the state's credit. Others say there is no obstacle since the state merely serves as a collecting and disbursing agent for the federal government, with no state money involved.

Spokesmen for organized labor have strongly urged that Texas enter into an agreement to receive the extra money.

Holiday Heartache — Department of Public Safety predicts 28 Texans will die in traffic accidents during the July 4-5-6 holiday week-end.

Col. Homer Garrison Jr., DPS director, said the Highway Patrol would do all in its power to make the prediction false. Every available patrolman will be on duty, plus extras from the licensing and weights and vehicle inspection divisions, to remove dangerous drivers from the roads.

Beyond that, said Garrison, it's up to each driver to do his part by following the law to the letter and not trying to drive too long.
