Ozona Has Too Much And Too Good Water To Use Saline Plant

Ozona has too much and too good water at present to merit consideration as a site for the proposed saline and brackish water conversion plant to be built by the government somewhere in the arid Southwest.

This was the conclusion reached here Saturday in a conference of local representatives with W. W. Rinne, an engineer from the Department of the Interior, who is making a tour of towns which made application as sites for the proposed government installation.

Despite the disappointments at Lubbock, Coaches Chick Womack and Sonny Cleere can look back on the most successful track season Ozona has ever had and look forward to a promising year next

Lost from this year's squad due to graduation will be some of the team's most valuable members, Billy Bob Holden as well as David Sikes, Bobby Sutton and Dizzy Reeves.

Holden worked hard all year and proved himself an excellent athlete by taking part and winning points in a number of events.

Sutton, though not a great sprinter was a fine team man and anchored his 440 and mile relay teams exceedingly well. In the sprints and discus, Sutton always gave his all and that was good enough for points in most of the meets the Lions made this season.

Sikes, with still a shot at state honors, won or tied for first place in every meet the Lions entered after the first one and not many people can do better than that. Sikes occasionally took part in the mile relay and in the high and broad jumps where he scored in the district meet with two fourths in addition to his first in the vault.

On the brighter side of the picture both Tony Parker and Jim Doran had down years as sophs. This is not uncommon particularly in track and it is quite likely that both sprinters will come on
