I discovered an amazing way to New STRENGTH.. better LOOKS!

1—Promote the flow of vital digestive juices in the stomach
 2—Energize your body with RICH, RED BLOOD!

Getting value out of the food you eat is your No. 1 health problem whether you eat 500 or 2,000 pounds yearly.

To do this, scientists say, you must have an adequate supply of natural stomach digestive juices and rich, red blood must be present.

Improper diet, overwork, undue worries, colds, flu or other illness can stunt the stomach's digestive functions and reduce the red-blood strength.

A person who is operating on only a 75 to 78% healthy blood volume or a stomach digestive capacity of only 50 to 60% normal is severely handicapped.

Undigested food, causes gas... bloating... fails to supply the necessary body energy... tissue repair... often results in nervousness and loss of energy.

So with ample stomach digestive juices PLUS RICH, RED-BLOOD you should enjoy that sense of well-being which denotes physical fitness... mental alertness!

If you are subject to poor digestion or suspect deficient red-blood as the cause of your trouble, yet have no organic complication or focal infection, SSS Tonic may be just what you need as it is especially designed (1) to promote the flow of VITAL DIGESTIVE JUICES in the stomach and (2) to build-up BLOOD STRENGTH when deficient.

These two important results enable you to enjoy the food you eat... to make use of it as Nature intended. Thus you may get new vitality... you... become animated... more attractive!

Build Sturdy Health and Help America Win

Thousands and thousands of users have testified to the benefits SSS Tonic has brought to them and scientific research shows that it gets results—that's why so many say "S.S.S. Tonic builds sturdy health makes you feel like yourself again." All drug stores in 16 and 30 cc. sizes. U.S.S. Co.

HEALTH QUIZ

Do you have poor digestion? YES NO
 Do you feel headachy after eating? YES NO
 Do you get sour or upset easily? YES NO
 Do you feel tired—listless? YES NO

Do you feel headachy and upset due to poorly digested food? To feel cheerful and happy again your food must be digested properly.

Each day, Nature must produce about two pints of a vital digestive juice to help digest your food. If Nature fails, your food may remain undigested—leaving you headachy and irritable.

Therefore, you must increase the flow of this digestive juice. Carter's Little Liver Pills increase this flow quickly—often in as little as 30 minutes. And, you're on the road to feeling better.

Don't depend on artificial aids to counteract indigestion—when Carter's Little Liver Pills aid digestion after Nature's own order. Take Carter's Little Liver Pills as directed. Get them at any drugstore. Only 10¢ and 25¢.

Grandma Switches Millions of Mothers To Her Mutton Suet Idea For Chest Colds

Pioneer grandma liked to "rub colds" with a "home rub" containing mutton suet. Such a rub was her "old reliable" for relieving chest muscle tightness, soothing bronchial irritation, loosening phlegm, checking coughing, easing sting of chapped lips and nostrils. Today science has modernized this principle with Penetro, the salve with a base containing this same old-fashioned mutton suet, plus 5 active ingredients—so now Grandma's old idea is switching millions to this newer relief that is being hailed all over America.

You'll like Penetro the first time you feel it spread smoothly on chest, throat, back—its mutton suet makes it melt instantly, vanish quickly. It gets to work 3 ways at once to make you and your children more comfortable—(1) Penetro relieves colds' pain as its mutton suet helps carry medication to nerve ends in the skin. (2) Relieves muscular tightness and congestion through counter-irritation (increased blood flow). (3) Loosens phlegm, eases coughing through pleasant inhalation of instantly released vapors.

You'll feel relief so quickly—as painful misery eases, coughing is lessened, phlegm loosened, chest rawness soothed. You'll rest more comfortably, give nature a chance to restore vitality through sound sleep. That's why so many mothers thank Grandma for her idea—praise science for perfecting it—and buy Penetro at drugists everywhere. Relieve your chest cold miseries as millions are doing—today get your jar of white, easy-to-use Penetro.

Congress Prepares To Investigate Ways Of Improving Its Functioning

(Editor's Note: This is the first of two stories on the most successful attempt so far to find ways of streamlining congress.)

By JAMES MARLOW
WASHINGTON, Dec. 6 (AP) — Congress is on the verge of creating a committee of its own members to explore ways of improving congress.

In some ways congress is out of date: Its machinery creaks and it doesn't have all the help it needs

to do a job. Newspapers, political scientists and particularly younger congressmen have urged improvement. The proposed committee is the first step.

The work of that committee, which seems sure to be set up, undoubtedly will do some good. But don't expect too much or anything too radical.

Already some of the older congressmen are skeptical about the intentions of the younger congressmen who want the committee.

"This is just a dodge of these young fellows to try to get around us old fellows," one oldtime congressman said.

Another oldtimer said: "These young fellows just want to get ahead in a hurry without staying around long enough to take their turn."

The two oldtimers—both powerful—were talking about this: The committee rights and privileges which a congressman—representative or senator—acquires just by staying around a long time.

They—the oldtimers—suspected the special committee might recom-

mend a real change in the number and make-up of congressional committees.

In congress, if you're on a committee, you want to stay on. It carries prestige, power and publicity. The bigger the committee, the more important you are.

And a committee chairmanship is the big prize, powerful. You get it automatically as someone ahead steps out—if your political party has majority control in house or senate—by staying on the committee long enough, years.

Thus committee chairmanships are distributed by longevity—called seniority—and not by ability.

It has been suggested inside and outside congress that chairmen be appointed on ability and that where committees overlap in their work they be combined.

This would reduce the number of committees, chairmanships and committee memberships.

Pan-American Plans Financing Program

NEW YORK, Dec. 6 (AP)—Directors of Pan American Airways Corp., yesterday approved a financing program expected to raise at least \$25,000,000 for the purchase of a large fleet of new high speed transports to operate through this country and other nations.

Construction of the new ships, to start as soon as priorities permit, will replace its present fleet now flying out of Brownsville, Laredo, New Orleans, New York, Miami, Los Angeles, San Francisco and Seattle, Pan American announced.

Sheep Raisers End San Angelo Meeting

SAN ANGELO, Dec. 6 (AP) — San Antonio was chosen as the 1945 convention city and Ray W. Willoughby, of San Angelo, was elected as president of the Texas Sheep and Goat Raisers association in final session here yesterday.

Other officers named were: Steve Stumberg, Sanderson, first vice president; Bryan Hunt, Sonora, second vice president, and Vestal Askew, secretary.

Revised Rates For Taxes Come Jan. 1

The revised rates for withholding income tax from wages, provided by the individual income tax act of 1944, apply to all wages paid by an employer to his employees on and after January 1, 1945, regardless of when the wages were earned. W. A. Thomas, collector of internal revenue for the second district of Texas, explained today.

Under the new law, for example, any wages earned in December, but not paid to the employee until January 1 or after, are subject to the new withholding rates.

On the average, about the same amount of tax will be withheld under the new rates as was withheld under the old rates. However, since the rates were revised to adjust each employee's withholding more closely to his annual income tax, in individual cases the withholding may be either more or less than before.

Collector Thomas further explained that the Withholding Receipt Form W-2 (Rev.), for 1944 to be given by employers to all employees by January 31, 1945, must show all wages actually paid during 1944, together with the amount of income tax withheld during the calendar year.

If any wages earned in December are not paid to the employees until January 1, or later, such wages must not be included on the 1944 Withholding Receipt, he said. Inasmuch as practically all wage earners who may use these receipts as their 1944 returns file returns on the basis of income received during the year, inclusion in the receipt of any wages not actually paid in 1944 would result in incorrect returns.

Howard-Glasscock Red Cross Meet Set

Annual meeting of the Howard-Glasscock counties chapter of the American Red Cross has been set for Dec. 1, it was announced today by Roy Reeder, chapter chairman.

Reeder urged all members of the organization to participate in the meeting, which, among other things, will result in selection of officers for 1945.

Information Head Praises Cost Control

DALLAS, Dec. 6 (AP)—Cmdr. Alfred Stanford, national information head of the Office of Price Administration, said here yesterday that while the cost of living is up 26.5 per cent since the days prior to the war that the rise since administration of a control program is only a fraction of that amount.

"America's economic structure is in as much danger of upheaval after the war as that of the bomb-splattered nations unless governmental control succeeds," he said.

He Knew The Rules

CHARLOTTE, N. C., Dec. 5 (AP) — The county offered a confiscated automobile at auction to the high bidder.

Eleven would-be purchasers shouted out in unison, "Ceiling!" A twelfth was more specific, he bid \$1,525, the OPA top price.

The auctioneer knocked it down to the \$1,525 bidder, but the eleven protested. A proposal to draw straws was rejected.

Now the county attorney is hunting the solution in his law books.

Congress Has Billion-Dollar Baby

WASHINGTON, Dec. 5 (AP)—Congress has a billion-dollar baby. Some baby.

It's a plan which says within 10 years after the war this country will have 400,000 civilian airplanes—commercial and private. So, this country needs at least 6,000 airports. The cost: \$1,250,000,000.

It isn't a dream. The plan comes from the Civil Aeronautics Administration (CAA).

Congress asked CAA to whip it together so we can tell what to

expect in civil aviation.

Congress may do something about it next year or wait till full peace comes.

Some of what CAA's experts say and think is given here:

There are 3,000 existing airfields. CAA wants to improve 1,625 of them and add 3,050 more.

The total cost—spread over a 5-10 year period—could be shared by the federal and state or local governments.

Why is the CAA so optimistic about the growth of civilian flying?

Pointing out that we'll have plane-plant facilities to turn out the planes and air-minded men by the millions, CAA says:

"There will be at the end of the war approximately 350,000 army and navy pilots and 150,000 civilian pilots and students.

"Also interested in flying will be 2,500,000 men trained by the armed forces in other aviation skills and an almost equal number employed in our aviation factories.

"Add to these the 250,000 students who are taking aeronautical courses in the high schools each year and there is a total of 6 million potential fliers."

Fifty Local Men Interview Recruiter

Approximately 50 Big Spring men were interviewed Monday U.S. Merchant Marine was in the when Ens. Yale V. Clark of the US Employment Service offices.

Of the 50 applicants 25 men were eligible pending a physical examination, Ens. Clark stated. Of the 25 applicants more than half were in the 17 year age group. The physicals will be given at the Maritime office in Dallas, and those who pass their physicals will probably go to St. Petersburg, Fla. There they will be given qualifying tests and be assigned to the type of work for which they are fitted. From there they will be sent to special training schools, Ens. Clark said.

NASHVILLE, Dec. 6 (AP)—Capt. H. P. Moyers of Engine Company 12 directed the couple to the address they inquired about, but soon they came back. "The preacher wasn't in," they said.

The captain invited the couple into the station house. A marriage ceremony was performed by Pipeman Leonard Rowlett, who also is pastor of the Fairview Church of Christ in Williamson county. Three other firemen served as witnesses.

for Mrs. Crescencia Morales, who had said she was 119 years old. She died in Abilene Monday.

When, in 1943, she applied for a food ration card, Mrs. Morales gave her birth date as October 3, 1825. She was subsequently interviewed by John R. Hutto, principal of an Abilene public school, who reported that she had a good recollection of events that occurred during the early history of Texas.

Three Months After Its Liberation Paris Bears Deceptive Normality

By GLADWIN HILL

PARIS, Dec. 5 (AP)—Liberated three months ago, Paris wears today a deceptive mask of normality but underneath it remains a city rocked to its very foundations by the rigors of war.

Chic femininity strolls the boulevards. Open air bookstalls flourish quaintly along the Seine. The left bank is dotted with students. Fashion salon flunkies bow

and scrape. Champagne flows at hollow diplomatic receptions. Fabulous Montmartre erupts in a hundred hole-in-the-wall night clubs, and at the Folies Bergere artistic nudity is served up with the customary musical sauce.

But all this is superficial. Women's chic gowns are of light summer material because winter weight goods are scarce. Many Parisians are getting only half the requisite number of calories for good health because food supplies are inadequate. Most buildings in the city are unheated and likely to remain so throughout the winter.

Maxim's and scores of other noted restaurants are closed for lack of fuel and food.

Paris has 16 daily newspapers now, but they are limited to a single sheet each.

Visitors flock as of old to the Louvre—but only to see small special exhibits such as the Bayeux tapestries, for the museum's main treasure trove of art still is hidden in the country.

Motion picture houses are running full blast—but their marquee advertise films that were old in America before Pearl Harbor.

The meat ration is half a pound weekly. Fish is unobtainable because of transportation shortage. Poultry gravitates to the black market and winds up in \$20 dinners in night clubs, which the press is campaigning to close for the duration.

Some 10,000 Parisians are languishing in confinement on charges of suspicion of collaboration with the Germans during the occupation.

Almost everybody praises Gen. De Gaulle, but many shudder simultaneously at the mention of communism, while the communists in turn continually bewail the "reign of the trusts."

Siebert Endorses Reuters Agency

UREANA, Ill., Dec. 5 (AP)—Frederick S. Siebert, director of the University of Illinois journalism school, said today he was "glad to learn that the Reuters news agency of Great Britain has wholeheartedly endorsed the principles of freedom from government or political dictation of any kind, and complete freedom of international news exchange."

In commenting Dec. 2 on an article in the British weekly magazine, The Economist, which was critical of the campaign for international freedom of information, Siebert continued, "I said that Reuters enjoys a 'government assisted' monopoly, but I am now happy to learn that such a situation no longer exists, and that the comments in the Economist are contrary to the present objectives of Reuters, as shown both in word and deed.

"Reuters new form of contract with other news agencies in its preamble binds both parties to accept the principles of a free press and truthful unbiased news, and calls for a declaration that they are entirely independent in their selection and handling of news. I am glad to learn that Christopher Chancellor, general manager of Reuters, has strongly endorsed the principles of uniform, non-discriminatory communications rates throughout the world."

A story that hasn't been told

AN AMERICAN WAR PRODUCTION RECORD THAT DESERVES TELLING . . .

On December 14, at 3:00 o'clock in the afternoon, the men and women of Humble Oil & Refining Company will pause in their work to commemorate, in appropriate ceremony, a feat unparalleled in the petroleum industry: The production of ONE BILLION GALLONS of finished 100-octane aviation gasoline at the Baytown refinery.

This accomplishment merits special commendation, because it climaxes 25 years of development, planning, and teamwork of a great organization. The cooperative effort of Humble employees has brought about a uniform progress in all phases of the Company's operations which has enabled them to establish remarkable records in finding, producing, transporting and refining petroleum during a critical period in the history of our nation.

Humble research and development, in progress for many years before Pearl Harbor, made possible these accomplishments and contributed greatly to the total production of toluene, and the tremendous quantities of finished 100-octane aviation gasoline required by our Armed Forces.

Baytown Ordnance Works, first synthetic toluene plant in the world, has supplied toluene for at least one out of every two bombs used by the United Nations since Pearl Harbor. For this production feat, Baytown Ordnance Works has five times been awarded the Army-Navy "E".

Baytown Refinery has made one billion gallons of finished 100-octane aviation gasoline—more than has been produced by any other plant in the world. The world's first commercial alkylation plant was built at Baytown in 1938. The alkylation process is the very backbone of 100-octane aviation gasoline production by the entire petroleum industry.

Humble Oil & Refining Company is the nation's largest producer of crude oil, and is currently supplying about one-fourth of the increased production required for war, as measured by the gain since 1941.

Through the facilities of Humble Pipe Line Company, there is being transported more oil than is being carried by any other system in the country. Nearly 700,000 barrels move daily through Humble pipe lines—one-seventh of all the oil production in the United States.

United in a great singleness of purpose, 14,000 Humble men and women are devoting themselves to the task of providing vital petroleum products for war, looking to the day when their 3,000 fellow employees and all their comrades in arms will return.

OPEN HOUSE AT BAYTOWN REFINERY—DECEMBER 14-17

So that one of America's great war plants may be seen in action, Baytown Refinery is holding open house from Thursday, December 14, through Sunday, December 17. The story of the refinery at war will be told by dra-

matic exhibits of petroleum war products and a great Army and Navy show of war machines and materials. Specially conducted tours will take Humble's friends and neighbors into the heart of the refinery itself.

Huge Response In Colorado For Blood

COLORADO CITY, Dec. 6—A full-house response with lines of citizens patiently waiting their turn was met here Tuesday by the Texas State Health department mobile blood-donors' unit which operated for a day in the city-county building.

The chamber of commerce and members of the Parent-Teacher health committee assisted local registered nurses and doctors. By 3:30 p. m., the State Health Department officials with the traveling unit announced that they had all the Colorado City blood they could take care of with their equipment. By that time, in spite of near freezing weather and an icy drizzle, 150 persons had contributed blood to the plasma bank. At least 50 more were waiting in line when the temporary blood bank station was closed.

Articulate speech is said to be the root of culture.

Mrs. Helen Hatch Dies At Her Home

Mrs. Helen Gaines Hatch, 85, resident of Big Spring for the past 36 years, died at her home at 12:20 a. m. Wednesday following a week's illness.

Funeral will be held at 4 p. m. Thursday at the First Methodist church, where Mrs. Hatch was an active worker until health interfered, with the Rev. H. C. Smith, pastor, officiating. The First Methodist choir will be in charge of music.

A native of Alabama where she was born Jan. 18, 1859, Mrs. Hatch moved here in 1908 with her husband, the late Dell Hatch, to whom she was wed 55 years ago, and family. Besides her duties as a mother, she also was a devout member of the Methodist church.

Surviving are two daughters, Miss Nell Hatch and Mrs. H. B. Robb of Big Spring; one son, E. H. Hatch, Big Spring; eight grandchildren and seven great-grandchildren.

Among other survivors are a sister, Mrs. Betty Conley, Houston; a brother, Dave Gaines, Byler.

Burial will be in Mt. Olive cemetery beside the graves of her husband and two sons, Dick Hatch and Bubba Hatch, and a daughter, Mrs. Sadie Hatch. The body will lie in state at the Eberley-Curry chapel until time for services.

Pallbearers will be Gordon Hatch, Hilo Hatch, Bob Parks, Roy Reeder, Walter Jays and L. E. Coleman.

Docket Set For December Hearings

The following includes a list of those cases that have been set and the date for which a jury will be available:

Criminal docket set for Dec. 7, 1944. Jury summoned to appear on same date.

Dec. 11, case of W. V. Boyle versus the Howard County Refining Corporation and Joe Edwards.

Dec. 13, Mrs. Jesse L. Hush, et al, versus Transport Company of Texas.

Dec. 18, J. B. McCann, et al, versus A. F. McDaniel.

Dec. 20, Dorothy Jean Mann versus Jack Morris Mann.

Stanton Girl Dies In Relative's Home

Patsy Joyce Keele, three year old daughter of Mr. and Mrs. Arvel Keele of Stanton, died Tuesday at 9 p. m. in the home of her grandparents, Mr. and Mrs. Will Keele of Stanton.

Funeral services will be conducted in the First Baptist church of Stanton Thursday afternoon at 2 p. m. Rev. Stovall, pastor of that church, will conduct the services.

Survivors include the parents; one sister, Betty Joyce; the grandparents, Mr. and Mrs. Will Keele of Stanton and Mr. and Mrs. J. R. Conners of Junction; nine uncles one of whom is J. L. Conner of Big Spring; and three aunts including Mrs. Jack Munn of Big Spring.

Arrangements are being made by Eberley-Curry funeral home.

Chappell Tells Of Potter And Clay

The text of Dr. Clovis Chappell's sermon at the community revival Tuesday night was taken from Jeremiah and the story of the potter and the clay, which he used in his discussion of unrealized dreams.

There are three things, Dr. Chappell said, in the scriptures which coincide with life. The potter which symbolizes God, the Creator, the wheel or the circumstances of life and the vessel which is the individual or product.

God's failure to make a worth while vessel lies in the faulty materials with which He must work. He must have clay which will yield itself to his hand, the speaker stated.

Helen Blount sang a special number.

Morning services are held at 10 a. m., prayer services at 7:00 p. m. and regular services begin at 7:30 p. m.

Mrs. Mary Morrow Speaks To B&PW

Mrs. Mary Morrow, physical education instructor at the Big Spring high school, was the guest speaker at the Business and Professional women's club meeting Tuesday night. She discussed ways of keeping fit and the importance of exercise in maintaining good health.

The program was under the direction of Rhoda Marie Boyles. Plans were made for the selling of war bonds at the Ritz theater and for decorating the USO for Christmas social on Dec. 19.

Boy Scout Winter Camp Slated Jan. 1

The date for the Boy Scout winter camp was set for Dec. 26 through Jan. 1 it was announced Wednesday by Scout Executive H. D. Norris.

The camp will be held in the CCC camp and the Indian Lodge at Fort Davis. Scouts from the western part of the Buffalo Trail council will participate in this camp and another will be held for the boys of the eastern part of the council.

Norris also reminded that there will be a scoutmaster's round table Wednesday night at the Settles hotel at 6 p. m.

Noted Magician Here January 11

Blackstone, world famous magician, will be presented here Jan. 11 with his entire company under the sponsorship of the Lions club. The club took this action at its meeting Wednesday noon in the Settles.

Ted O. Groebel, drive chairman for the Sixth War Loan, reminded the club of the bond show this evening at the municipal auditorium when Col. H. Miller Alsworth and Sgt. James Logan, most decorated GI of World War II, are featured on a program. It is, said Groebel, a "four in one" show, with opportunity to hear the servicemen speak, entertainment, tickets to the theatre bond shows here Thursday and an opportunity to make the best monetary investment in existence.

J. H. Greener, chamber of commerce manager, appealed to club members to list rooms with the chamber or the USO to help meet a critical housing situation. Many servicemen and wives were obliged to sleep in lobbies, the USO and automobiles Tuesday evening due to the acute shortage, he said. He also reminded that time for the traditional Treasure Hunt—and the pre-Christmas arrival of Santa Claus—had been set up to 6 p. m. Friday.

NEXT TIME I'LL TAKE CARE OF MY CAR!

You probably don't expect to depend on a horse and surrey for future transportation. But consider this fact, which is brought out by government surveys—approximately 800,000 cars will wear out this winter.

To help keep your car from becoming one of these 800,000, ask your nearby Sinclair H-C Gasoline Dealer to Sinclair-ize your car for Winter now. This fall change-over service protects vital parts against wear and breakdowns as your car manufacturer recommends.

Sinclair Refining Company BUY WAR BONDS

HOW SINCLAIR-IZE FOR WINTER SERVICE SAVES YOUR CAR

- SAVES WEAR ON** transmission and differential gears in cold weather. Summer-grade lubricants are drained and replaced with tough Sinclair lubricants of right grade for winter.
- SAVES MOTOR WEAR** in cold weather—helps prevent the formation of dangerous sludge by draining and flushing the crankcase & refilling with Sinclair Pennsylvania or Opaline Motor Oil—winter-grade.
- SAVES CHASSIS** wear in cold weather—by lubricating bearings, springs, shackles and other vital parts as your car manufacturer recommends. Front wheels protected by special lubrication.
- SAVES COOLING SYSTEM** by cleaning out the rust and sludge, tightening hose connections and putting in the right amount of anti-freeze.
- SAVES BATTERY** and helps assure fast starts. Service includes checking and refilling battery with water, checking battery connections and testing strength of battery. Spark plugs tested, too.
- SAVES TIRES** by carefully inspecting for cuts and bruises and valve troubles. The Sinclair Dealer will also gladly cross-switch your tires to equalize wear.
