# **5 Youths Charged** With Burglary Of **Gas Station Here**

# Money From Cigarette Vending Machine Is Spent In Acuna

Five youths, 16 to 19 years of age, four from Big Spring and one from Sweetwater, face charges of burglary here in connection with the recent burglary of the Fuantoz Dixie Station at the south edge of Ozona on Highway 163.

The five, arrested by West Texas officers following an exhaustive investigation by Sheriff Billy Mills of Crockett county, are also charged with the attempted burglary of a filling station at Comstock the same night as the Ozona entry.

Statements have been secured from two of the boys confessing their participation in the burglary and implicating the others. Three of the Big Spring youths, Jackie Snow, Gerald Graham and Bobby Ward, were arrested in Snyder and a fourth Big Spring lad, Floyd L. Holland, was arrested by Big Spring officers. Gerald Oden of Sweetwater was arrested in that city at the request of Sheriff Mills. Young Graham is only 16 years of age and his case is being handled by juvenille authorities.

Money taken from a cigarette vending machine in the Ozona station was spent in a binge at Villa Acuna, the youths told arresting officers. Nothing else was taken from the station.

At Comstock a siren mounted atop the station and set to go off is molested scared the youths amarked their attainment of all- way before they got anything from according to Sheriff Mills.

The Crocktet county sheriff went to Big Spring following arlead toward identification of the burglars from officers in Eldorado ied to Ozona by backfield coach where they were detained for a Hayden Fry, formerly of Odessa, short time when officers there con-

THURSDAY, JAN. 14, 1960

#### LABOR STATESMAN WANTED

Horse-and-buggy work - rules, popularly characterized as "featherbedding", loomed as major issues in the dock strike of 1959 and in the record - breaking steel strike that was ended ingloriously under political auspices on the first Monday of the new year. But in each way, there was no work-rule clarification to be found. In both inswept under the conference room rug - in the steel hassle for the future consideration of a committee whose recommendations will be binding on no one.

inevitable that the railroads must and one third that of general man- sarily vague. ufacturing. Of all industries, the railroads can best prove the injury that featherbedding inflicts not only on the public, on investors, on the industry but most especially on railroad workers.

These antiquated work - rules that requires payment for work that isn't done or for work that isn't needed have admittedly been a bonanza to a relatively few railroad workers, but at the expense of 500,000 others who have lost their jobs in the last ten years. And these unfortunate men, who are probably the most dedicated and

It may be too much to ask that the rail union bosses give a thought to the welfare and security of their tax" of inflation. Then he said: dues-paying members, since the ailroads have been vainly asking the unions since last winter for their collaboration in solving this problem of mutual concern. The labor chiefs have likewise rejected all suggestions for impartial outside study of the facts. This, it's time now for them to take a good look at the handwriting on the wall.

Let them consider where they and the workers they are supposed to serve would get off if and when their obstructionism pushes the railroads into bankruptcy. And let them consider, too, that even at this eleventh hour, we need but a single labor statesman to lead the way to recovery of the railroads ever before under the soul-satisfying pledge of a fair day's work for a fair day's pay.

#### -000 SHAPE OF THINGS-TO-COME?

President Eisenhower's 45-minute address to the joint session of Congress on January 7 - despite its double-talk on inflation, on Federal concern for problems such as urban planning and education, which he emphasized were state and local matters - provided eloquent testimony on our accelerating drift into globalism.

This was basically a state-ofthe-world address, and dealt only incidentally with the state of the case, when the smoke cleared a- Union. Most encouraging, perhaps, was the variously repeated thought that the time has come for the ostances this bitter controversy was ther free nations that are "prepared to assist" to help carry the financial burden of aid to backward and undeveloped nations. The President also pointed out as an "indispensable element" of the aid But the featherbedding issue program the necessity for "nationmust still be faced and it seems al discipline" in the aided countries to make the best use of assistance do it . . . or else. The railroads are received. The assurances of our in a class by themselves, with strong defense posture were also company earnings at half the rate heartening - even if given in of our other regulated industries terms that were perhaps neces-

Reconvening in the usual high spirits - accentuated, perhaps, by the added excitement of Presidential election year - the halls of Congress were still overflowing with 'gemutlicheit' as the President was escorted to the rostrum of the House chamber: Applause was libspeech hardly calculated to raise Mrs. Max Morris. cheers from a "spending" Congress

"nagging disorders" that distress 12:30. the nation as labor disputes, antiprotection of the law." He urged Griffin.

that we must try "living within Range Lands Soaked our means" and accept "stern selfdiscipline" to avoid the "crippling

"One major method by which the Federal Government can counter inflation and rising prices is to insure that its expenditures are below its revenues.

And then it was that the Congressional cheers and hand-clapping reached their climax! The Chief Executive went on to announce that he would submit a balanced budget of \$79.8 billion with a surplus of \$4.2 billion that should be applied against our \$290 billion national debt, saving \$200 million a year in interest.

But we shall see what we shall see. The business of politics-asusual was to resume the following

After that it will be too late to get a poll tax receipt that will enable him to participate in this year's merry-go-round of political

Since 1960 is a presidential elec-tion year, lines will probably be long on the night of the 31st. Safest course is to do it now.

This year's poll tax receipts, for the first time, have a place for the owner's party affiliation to be stamped. But the voter doesn't have to decide this when he pays the tax.

Decision is made when the holder costs his primary vote. A person who votes in the Democratic prie Saturday night with a two mary will have his receipt stampint win over favored Wall. The ed "Democrat." That means he can't go to a Republican conven-

Also, if he fails to go to the to even hit their lay ups and Democratic primary to vote and oped behind 11 to 3. Wall ral- doesn't have his receipt stamped to go ahead twice but could at all, he can't get into a Demo-

As far as the general election in November is concerned, the new party registration law apparently makes little difference. There would be no way for anyone to know whether the holder of a receipt stamped for one party voted

general election. Relocation Payments Upheld City officials and private utilities are joyful over a State Supreme Court's decision that will save the cities and companies some \$28,-000,000.

High court ruled constitutional the law that provides for the state to reimburse cities and companies for the expense of moving utilities for interstate highway building

Law was passed by the Legislature in 1957. It was challenged by the Attorney General's Department for the Highway Department on grounds it violated the constitutional prohibition of "donating" public funds to private firms.

Auto Rates Become Issue - Pros and cons of the new merit rating system for auto insurance are expected to be at issue in the 1960 typewriters at the Stockman.

Some legislators have been highly critical of the plan to make drivers with accident and violation records pay more for insurance, Other lawmakers have defended it.

Gov. Price Daniel says he favors correction of any inequities that may exist in the program.

Industry is divided. A spokesman for the National Association of Independent Insurers has announced that his group will try to get the Insurance Board's plan Ozona, surgical; Mrs. R. L. Bixreplaced with a flexible rating law. Legislature has twice turned down flexible rating, which allows companies to set their own rates.

Other industry groups have endorsed the merit plan, some with goria, Ozona, obstetrical; Jeanette statements that it may need adjustments, but should be given a fair trial.

FOR SALE - Three-bedroom home. Extra lot, fenced backyard, double garage with large storage room, large kitchen, central heat. Phone 2-2221.

# Notes From The County Agent's Office By Pete W. Jacoby

Were profits made from your ranching operation in 1959? If improvement is needed, consider carefully your plans for the new year.

When good farm records are summarized they may reflect vital points of slack in the business, points out C. H. Bates, extension farm management specialist. Some operators are using their financial records primarily for income tax reporting. Others are getting an "extra" dividend of stabilizing their future plans by study of all records. Records may be used as a mariner's compass to direct the future course of operations.

How may cost reduction be made? One example may be a study of the major item of operating costs - that of machinery and equipment, says the specialist. As mechanization and labor - saving practices are extended to more operations, ownership of some equipment items may become prohibitive for smaller farms. Vo'ume of business is often insufficient to justify overall investment costs. Careful consideration should be given to custom service or joint ownership of equipment items if savings will result.

Similarly, such practices as the purchase of feed in bulk or during seasons of lowest prices may reduce costs in livestock operations. A small percentage saving on major, recurring cost items can boost profits materially.

Now is the time to review last year's business to plan adjustments prompted by the current outlook situation. Also, emphasizes Bates, consideration should be given to every opportunity for reducing costs per unit of output.

Use your farm records in discussing plans for 1960 operations if assistance is desired from county extension agents. Records, Bates adds, may be especially helpful where credit is needed to expand or adjust operations.

See your local county agent for assistance in record keeping and management problems. Where intensive management problems ex-

ist, your local county agent has access to trained specialists in the field of management.

# Soil Conservation Service Studies Show Chemical Spraying Effective in Controlling Perennial Broomweed On Crockett Range Land

By Bob Scott, SCS

Thousands of acres of rangeland in the Crockett Soil Conservation District are infested with perennial broomweed (Turpentine weed, broom snakeweed) to such an extent that it has greatly reduced areas. A number of ranchers have become alarmed at the rapid increase and comeback perennial broomweed has made the past two years. This alarm is justified due to the double threat caused by the pest. Cows eating the weed in certain stages of its growth often lose | used. their calves before or shortly after birth. Because of the decreased production of grass on these areas, cost per animal unit is exceptionally high.

The heavy infestations are centered on shallow soils on areas that somewhere back down the line were subjected to heavy grazing pressure. However, once perennail broomweed is established, the plant recurs from time to time, seemingly, regardless of the degree of use on the area. This can partly be accounted for by the fact that light use, according to normal conditions, is heavy, based on the amount of grass being pro- wanted. We pay highest marke duced on heavy infestations of prices orable years the plant greens up very early, before grass has a chance to get started, and quickly utilizes available moisture. It cent bare areas, and during the 22591. past year has been observed creeping into areas with a heavy turf of grass.

It has been shown that grass can be established to such an extent as to retard broomweed, with careful management. However, this takes a great deal of time, (years) and the weed will recur if a good start of grass has not been established.

Although an economical remedy has not been found, it is gnerally agreed that something is going to have to be done to eliminate the weed, thereby speeding up the recovery of the grass. Plans have been made by several ranchmen in the area to try several methods of control, including chemical spraying and possibly mowing.

Several ranchers in the Bronco area have been carrying on trials with chemical herbicides in an attempt to find an economical treatment. Following is a summary of some of the results of a rancher at Bronco, as reported by A. L. Wilhite, range conservationist with

The first trials were carried out in September of 1957. This time of the year proved to be the wrong time, but the rancher carrying on the trial wanted to try various times. As you will note, the results in spring were far greater than those in the fall.

Eight - hundred acres (60 - 70% density snakeweed) were sprayed with 2-4-5T. The spray varied in gallons per acre. On evaluation of Grsas. these plots, it was found that less than 5% kill was obtained. I believe this could be attributed to season of the year more than anything else.

On March 28, 1957, 800 more acres (60 to 70% density) were sprayed with 2-4-5-T and 2-4D. Different strengths of spray were

1/4-lb. 2-4D with 1 gallon diesel and enough water for 3 gal. 1/211b. 2-4D with 1 gallon diesel

and enough water for 3 gal. 3/4-lb. 2-4D with 1 gallon diesel and enough water for 3 gal. 1lb. 2-4D with 1 gallon diesel and enough water for 3 gal.

This was applied at the rate of 3 gallons per acre. The application of 2-4-5T was applied the same as in 1957.

The acreage that was sprayed with 2-4D resulted in a 99% kill

### Ozona Student Member A-M Livestock Judging Team To Denver Show

College Station, Texas - The th and Mrs. Quebe Al- junior wool judging team of Texas A & M College is on the way to Denver, Colo., to try its skill in judging competition at the National Western Livestock Show, Jan. 15-23

Charles Parker, instructor in the A&M Animal Husbandry Department and the team coach, said the group will compete with about 12 teams from other agriculture

Team members are Henry Fitz-ch of San Antonio; Carl Conklin, Ozone; Leroy Keese, Banders, and Derrell Smith of Crone.

Judging will take place on Jan.
17 and the Aggies will return to A&M on Jan. 19.

#### **Polio Drive Meeting** With Good Response, Chairman Reports

A good response is reported by Mrs. Jerry Hayes, March of Dimes Legislative Post A good response is reported by campaign chairman for Ozona, to special donation letters mailed during the past week to business firms and individuals who might not be contacted personally in the drive which will continue through the balance of the month.

A recent bowling tournament brought approximately \$150 to the fund, Mrs. Hayes reported, and a benefit basketball game, sponsored by the Ozona Rotary Club, is set for the evening of January 30 between the Ozona Air Force Radar Station team and area coaches to be played in Davidson Memorial Gym. A "points for polio" contri-butor list may be made up at one of the games in which the Ozona High School team participates in the current invitational basketball tournament at the local gym this week-end.

The March of Dimes campaign, with funds going to the National Foundation to combat crippling diseases of children and adults, will be climaxed here with the annual Mothers March on Polio, set for the evening of January 28. This is the annual "Porch Light" campaign in which residents who wish to contribute to the fund are asked to leave their porch lights burning to facilitate the work of the canvassing mothers. Mrs. James Childress is chairman of the Mothers

Steve Preslar

# McCamey Attorney District Judgeship

# Steve Preslar Opposed Authorized Raise In Judge's Salary

Steve Preslar has announced that he is making application to Junction and ACCHS. the voters of Sutton, Crockett, Pecos and Upton Counties for promotion to Judge of the 112th District objectives would be forthcoming his second term as County Attorof Texas. He is presently serving ney of Upton County and is not seeking re-election in keeping with the promise made when he first sought the office that he would not ask for more than two terms.

In addition to his County Attorney work, Preslar enjoys a successful law practice in McCamey in partnership with S. M. Swearingen in the same location where Preslar practiced with Judge Jim C. Langdon until Judge Langdon's retirement from private prarctice to serve as Judge of the 112th Judicial District.

The Upton County attorney said he wanted it understood that he was not seeking the office because of the pay - increase bill which This was the bill which allows the of \$8,500.00 per year. Preslar stated that he was opposed to such principle, on the basis that the legislature should not spend its time passing one-man bills instead of legislating for the other eight million Texans; and, you will remember that the last session of the legislature required two overtime sessions in order to write a tax bill and that they never did find time to do anything about the pay of school teachers. No one can quarrel with the proposition that to attract good men as judges you need good pay, but this is not the way to do it. Secondly, I am satisfied with the present pay of \$15,000.00 per year as being in keeping with the present work load of the Court."

In making his announcement (Continued on Last Page)

Diplomas will be awarded by Dr. J. G. Flowers, president. Dr.

# **Brackets Drawn** For 29th Annual Cage Tourney Here

### Meet Opens Today For Three-Day Festival of Basketball

By Ernie Boyd

The twenty-ninth annual Invitational Basketball tourney opened at Davidson Gym at noon today with three solid days of varied and entertaining basketball in store for Ozona fans.

Tournament director Brooks Dozier who is also Ozona's basketball coach had to re-set the brackets Monday following the last minute withdrawal of Grand Falls after Brady had been replaced by San Angelo B in some late scramb-

ling last week. Tonight's schedule of games, somwhat revised from the list last issued, will find San Angelo B and Ozona B going at 6 p. m. followed by Big Lake and Wall at 7:30 and Ozona and Rankin at 9:00 p. m.

Mertzon's surprising win over Wall in Wall Tuesday night marks the Hornets as a team to be watched but favorites still remain Wall,

Miss Mildred North and her crew of girls have been hard at work securing housing for visiting teams planning to spend one or two nights while Miss Janie Hull has been preparing food and refreshments for the coaches and refereees who will be at the tourney

Officials for this year's meet will be Pete Creasey of Midland, Lou Turlow of Midland, Truman Nix of Wink, and Buck Owens of Barn-

The Ozona tourney is unique in that it is one of the few school sponsored and financed tourneys in the area. Most tourneys staged in the area and throughout the state are usually backed by local business establishments who bought. The Ozona tourney has supported itself through its gate returns and has thereby become somewhat of a freak.

The tourney is run by the staff reason no school will be held Friday as has been the custom for many years.

# Ozona Boy To Show Hereford Heifer In **Houston Junior Show**

## Mrs. Baker Named Local Chairman Of Businessmen's Group

Announcement of the appointment of Mrs. Hubert Baker of the Baker Insurance Co., as Chairman of the Ozona Chapter of the National Federation of Independent Business, was made today by Al Sperling, district manager of the Federation in this area.

Each business member of this organization maintains a voting membership, and is polled by ballot each month on the bills and issues that affect independent business enterprise in the nation.

In an effort to do everything possible to maintain the American Wildflowers Of Texas way of life, and keep our free competitive system of business, the Mrs. Baker, who makes a tabula- the evening. tion of the total number and the manner in which they voted.

# OZONA STILL HAS AMBULANCE SERVICE

Steel Unioneer MacDonald Says the steel strike. As we heard it, the wrong Kennedy for

Because Ozona is blessed with many civic-minded citizens who are interested in the welfare of everyone. the problem of continuing ambulance service is in the process of being solved.

No solution has been found so far, but with the support and good will of every citizen there is no reason why Ozona can't have this vital service continued on a permanent basis.

With the above in mind and because Ozona should not be without ambulance service for even the shortest period of time, we will continue to operate ambulance service until the problem can be worked out on a basis satisfactory to everyone.

Thank you for understanding the problems involved, and please don't hesitate to call for ambulance service should the need arise.

> Sincerely Ken Cody
