It's Your Privilege

VOTE SATURDAY AN EDITORIAL

With the Democratic system of government in the greatest peril in the history of the world, with millions of peoples in the old world ground under the ruthless heel of the dictator, their personal liberties abrogated, regimented and enslaved, the privilege of the ballot should appeal more strongly to Ameriicans this year than ever before.

Although the fellow who wins may not always be to our liking, the system by which he gets elected to office in this country is the thing our forefathers fought and died for and the sacred heritage which Americansreal Americans-are now dedicated to preserve.

The Democratic process is most forcefully demonstrated when a commanding majority of voters go to the polls on election day and register a choice for candidates. In this way only does a majority rule and that's the essence of democ-

Next Saturday Texans go to the polls to choose men to administer several important offices in this state. This election, the run-off primary in this oneparty state, is as important. perhaps more important, than the first primary. It is the final heat, the final choice for these public officers. There are not as many choices to make, of course but each one is important, and it is not only the duty but also the privilege of every qualified voter to register a choice for these offices.

Less than half the voters of Crockett county went to the polls in the first primary. This. no doubt, was due to a lack of an absorbing interest in any local races. But there is one important district race and the state races to be decided in the runoff. In a democracy, every voter should cast his vote, and it is to be hoped that voters in this county will realize their responsibility and go to the polls in numbers next Saturday.

School Athletes To Be Protected With Insurance

Policy To Pay Treatments For Injury In Contests

Ozona high school's athletes vill be insured against injuries berinning with the opening of school vith a blanket policy which was examined and recommended by nterscholastic League officials at Austin, according to announcement this week by C. S. Denham, superintendent.

28 boys of the school's prospective athletic squads, provides payment for all types of injuries, including fractures, with varying amount paid depending on the bone fractured and seriousness of the break, dislocations, eye, abdominal, dental or head injuries, sprains, lacerations, cuts, etc.

Benefits under the policy are payable only for injuries suffered while the student is engaged in a scheduled game or track meet or or intramural activity under the supervision of a regularly employed coach or director. Names of other students may be substituted in the event an insured student does not continue participation in some form of athletics.

In addition to the accident benefits provided in the regular polcy, the local schools provide a life insurance policy of \$500 payable in event of accidental death resulting from athletic activities. This provision as a rider was provided at an additional cost of 20 cents per student, the regular policy, covering all sports, being ob-

Dictator 'Chutists Targets In Novelty Shooting Gallery

The parachutists have landed in Ozona!

Hitler and Mussolini in person are dropping from the skies and for a nickel any Ozonan can get ten pot-shots at the European disturbers of the peace as they descend.

It's just another visible influence of the European war on the every-day life of Americans -game-loving Americans. The newest of the electric light beam shooting galleries, installed yesterday at Hancock's cafe, is a mechanical gadget with Hitler on one side and Mussolini on the other, each descending and ascending in parachutes, and with the vulnerable spot, the score-producing contact, being between the dictatorial eyes of each. Naturally, the target practice will prove popular here.

District Judge Race Spotlight Of Voting Here

Run-Off Primary Saturday To Decide Important Offices

Although considerable interest will attach to the state offices at stake, particularly in the race for the Railroad Commission seat, the race between Judge W. C. Jackson of Fort Stockton and Judge J. B. Randolph of Junction for the office of judge of the 112th judicial district court will highlight local interest in the Democratic run-off

primary next Saturday, August 24. Judge Jackson, who is serving on the bench at present under appointment of the governor to fill out the unexpired term of Judge Joe G. Montague, fell short by 193 votes of obtaining a majority in the first primary over his two opponents, Judge Randolph and W. A. Hadden of Fort Stockton. Both have been campaigning in doubtful areas and a spirited race is expected in Saturday's voting.

Of perhaps as much interest as the district race for local voters will be the vigorously fought battle for Railroad Commissioner between Pierce Brooks and Olin Culberson. These two emerged with the largest vote in the first primary of a field of eighteen candidates for the office.

The other two races left for decision of the voters at the run-off are both for judicial posts, for Chief Justic of the Supreme Court Court post and C. R. Sutton of Boys who are insured under the Bryan McDonald's Water Works Presidio county and A. T. Folsom

gaged in building a defense of her freedom.

This freedom of ours-freedom of action, freedom of thought. freedom from fear and oppression, freedom of enterprise-is the most precious thing in the world to protect.

Electric service will play a big part in this great program of strengthening our defenses. Your electric company is ready NOW to do its full share in any task this community may be called upon to perform.

We're ready because for years we have planned far in advance in order to meet your everincreasing demands for electrical service.

Because of this we have built power capacity in advance of any demands in the community.

To assure constant power under all conditions our several sources of electricity are linked together so that the switch at your finger-tip controls power from many sources. If one should fail, it is but a split second until a new source of power is at your bidding.

The highly skilled and trained staff of people who have built up your electric service, and who are serving you from day to day, are eager for any new task.

It is through these people, and this marvelous system of interconnected power plants and distribution lines they have built, that we are ready to do our part.

Meanwhile, we have not forgotten that our job in the future, as in the past, is to improve our service and its usefulness to you, and bring more of the good things of life to more people at less cost.

A RECORD OF HONEST, IMPARTIAL **ADMINISTRATION OF JUSTICE**

VOTE FOR W. C. JACKSON

District Judge Of The 112th Judicial District

Judge Jackson was appointed District Judge of the 112th Judicial District in January, 1939, by Governor O'Daniel and is asking for his first elective term to this office.

Judge Jackson is a long-time resident of West Texas and has had wide experience as a practicing lawyer in all of our courts. He has thoroughly demonstrated his fairness, understanding and ability to serve as our District Judge.

Judge Jackson lacked only 193 votes of receiving a clear majority over two opponents in the first primary.

Let's endorse Judge Jackson's record of the past eighteen months by electing him to serve the next four years as our District Judge.

> Go to the Polls and Vote SATURDAY, AUGUST 24th

Behind The Scenes

In American Business

By John Craddock

apparently has been broken up is

of prime importance. An agree-

ment has now been reached be-

tween the government and the air-

were expected to be signed within

does all this national, defense plant-building and equipment-in-stalling mount up to? Government

economists have just surveyed the

whole scene, and come up with the estimate that plant expansion

and new equipment purchases of industry, for 1941, will be right around \$3,000,000,000---as the re-

sult of the defense program. Such figures, of course, are always

merely relative. It makes them

more meaningful when it is ex-

plained that this is about one-third

more than was spent, on the aver-

age, in the years of the last de-

cade—and about three times as

much as for the low years of 1932

and 1933, when capital outlays for

new plant and equipment dropped

becomes necessary to create brand

new industries to supply Uncle

Sam with rubber and other strate-

gic materials now mostly import-

ed, the expenditure may go well

beyond that \$3,000,000,000 mark.

Hops are for flavor. They give to good beer and ale their lively, appetizing flavor, their pleasant, aromatic tang.

Brewers select and blend their hops with extreme care. In fact, every step in making beer and ale is conducted with masterly skill-to give you better-tasting, more wholesome beverages.

Now the brewing industry wants to do one thing more. It wants to protect your right to drink good beer

and ale-by keeping the places where beer and ale are sold wholesome,

We want undesirable, anti-social establishments "cleaned-up or closed-up." A plan of action has already been put into effect in a number of states. This plan is being extended. We'd like you to know about it. Send for interesting free booklet.
