The winners were announced and awards presented at an assembly session in the High School auditorium last week. Troy Williams, a member of the SCD board of supervisors and chairman of the essay contest, presented the cash awards. The winners, pictured above, are left to right, Larry Williams, Junior High School winner; Line Maness, first place, high school; Bill Jacoby, second place; Perner, third place, and Ronnie Houston, fourth place.

## U Professor To Speak Tonight At Methodist Church

Franklin H. Littell, professor of church history at Southern Methodist University in Dallas, a member of the Religious staff and senior Protestant representative to the U. S. High Commission for Germany and later representative in Germany for the Franz Lieber Foundation.

Littell, long identified with development of lay leadership in European countries and in organizations identified with leadership in the move for religion in education in the United States, will be the guest speaker at the World Day of Prayer observance at the Methodist Church.

Littell, a native of Synnott, N. Y., and is a graduate of Cornell College, Union Theological Seminary and Yale University. He is a former member of the National Executive Council of the National Council of Christian Youth, a member of the World Council of Churches, and a representative of the National Council of Churches in Europe at Geneva, 1953-58, and now a member of the National Advisory Council on "Faith and Life" Commission at Austin, Texas.

World Day of Prayer is a world-wide Protestant observance with participants of men and women in all countries of the globe joining in spiritual fellowship on the same theme. The service this year is prepared by the women of the United Methodist Church.

Dr. Littell will speak at 7:30 p. m. at the Methodist Church. The service will be held in the sanctuary and will be broadcast on radio.

## MAN TAKES NEW RAP

His days presumably now filled with fewer and fewer, he continued his detourments on West Texas roads, with temperatures sagging as low as 10 degrees below zero. An approaching "Pacific" and a south-wind moisture yesterday led the weather to cautiously hint at possible rain in the area last night.

## W. P. (Bill) Conklin Dead of Heart Attack

W. P. (Bill) Conklin, Crockett county surveyor and rancher, died at his home here shortly after 11 o'clock Wednesday night from a heart attack.

Mr. Conklin had become ill around 10 p. m. at his home and was attended by a physician. His condition seemed to improve but another seizure later was fatal. With him at the time of the attack were Mrs. Conklin and their son, Carl.

Funeral arrangements were pending this morning.

## Public School Week Observed By Visits Of Parents To Classrooms

Ozona Public Schools observed Texas Public School week this week with a large group of Ozona parents visiting the schools which their children attend.

The largest number of parents visited in North Elementary and in South Elementary both of which extended a special invitation to parents to visit their children's classrooms on Wednesday.

Members of the P. T. A. registered parents and refreshments were served to parents on Wednesday but the visiting parents were welcome and did visit on other days during the week.

As is usual in public school visits the number of parents visiting with children above elementary level dropped off sharply.

The Ozona schools did not put on special displays or alter their usual program of study, in the belief that parents need to see the school as it operates from day to day and not an unrealistic display that is totally unrelated to everyday affairs, school officials pointed out.

## Conservative For Congress Seat Is Club Speaker Here

Ed Foreman of Odessa For Sound Gov't., Individual Freedom

"We will not have communism in this country unless we have socialism first," Ed Foreman, Odessa, businessman and Republican candidate for Congressman from the 16th Texas District, told members of the Ozona Rotary Club and their guests at the club's weekly luncheon Tuesday noon.

Foreman, who is seeking the seat now held by Rep. J. T. Rutherford, told his hearers that, "the way to defeat communism is to defeat socialism. The way to defeat socialism is to defeat the socialists in our government."

Great Britain, the speaker declared, was once the world's greatest nation, its navy the most powerful that ever sailed the seven seas. Now Great Britain has been reduced to a tiny England, looking to the rest of the world for its very existence. This fall was brought about by socialism, by the welfare state, Foreman declared. This was accomplished by the nationalization of industry and government provision for the people instead of allowing them to provide for themselves.

"They were taken, as we are being, by the philosophy of something for nothing from government", the speaker declared. "But sometime we will find it is nothing for something."

There are those in our government today who speak of Americanism and conservatism to their constituents and then vote for bigger government and socialism through welfare state when they are in Washington, he said. This is the sort of thing that will bring about communism to destroy this great nation.

Mr. Foreman, an outspoken conservative, was named outstanding young man of Odessa in 1960 and he has received the Jaycee distinguished service award. He is a successful business man, holding executive positions in three oil field service companies which he and his partner have built from the ground up.

He is making the campaign for the Congressional seat as a "sensible business man dedicated to a cause — the fight for sound, conservative government and freedom of the individual."

## Southland Royalty Gets Field Extender

Third Clearfork oil producer and 1/4-mile west and north extension to that pay has been indicated in the Ozona, West (Clearfork oil and Strawn gas) field of Crockett County, with the recovery of 1,000 feet of free oil on a drillstem test at Southland Royalty Co., et al, Midland, No. 3-23 University Lands, in 23-31-University, 14 miles northwest of Ozona.

Tool was open two hours on the test taken between 3,420-45 feet. Flowing pressure was 40-360 pounds; 30-minute final shut-in pressure, 530 pounds.

The project was drilling below 3,445 feet on a 3,600-foot contract.

## OZONA DOCTORS' OFFICES ARE AMONG NEARLY 600 BURGLARIES CONFESSED BY ABILENE MAN IN SOUTHWEST RAIDS

A man who has cleared up by his confession some 500 to 600 burglaries throughout Texas and the southwest included the April, 1959 burglaries of three doctor offices in Ozona among his accomplishments in his extensive crime operations.

A statement was secured by Sheriff Billy Mills of Crockett county from James Hugh Leggett, 33, of Abilene who has confessed to officers all across the state to burglaries covering the last three or four years.

One night in April, 1959, somebody broke the locks on the front doors to the offices of Dr. Lloyd

## Girls Volleyball Team Jumps Off To Win Four Straight

Play in Sonora Tonight And Meet Iraan Here Tuesday Night

By Ernie Boyd

The Ozona High School girls volleyball team jumped into the lead in district 8-A play over the weekend by plastering Eldorado in two straight games 15 to 7 and 15 to 2 last Friday night and then winning two in a row over Junction in Junction Tuesday night.

The Tuesday night games were the first in which members of the basketball team were available for service but it was too early for the basketball team members to make their presence felt.

In Junction Tuesday the Ozona girls won 15 to 6 and 16 to 14 thereby erasing the need for a third game in the two out of three game matches.

Tonight the Ozona team will travel to Sonora for a district match and Tuesday night will return to its home floor to play Iraan in three matches pitting the Jr. High and both A and B squads. The three-game match is scheduled to get started about 6:30 with the A match about 8 p. m.

Miss Geneve Knox, the team's Coach, indicated that she expected better play soon following the acquisition of several of last year's regulars from the basketball squad but complimented the Sophomores who have played very well thus far this season.

## C.M. Hobaugh, Father Of Ozonan, Is Dead

C. M. Hobaugh, 96, of Noble, Oklahoma, died at his home Monday in Noble. Mr. Hobaugh was one of the original Sooners and was in the retail business until a few years ago when he retired.

Mr. Hobaugh was the father of John M. Hobaugh, of Ozona teacher in the South Elementary school here. Mr. and Mrs. John Hobaugh left Ozona Monday to attend his father's funeral in Noble.

The elder Mr. Hobaugh succumbed following a long illness and is survived by his wife and twelve children.

## 15 Teams Line Up For Annual Ozona Track, Field Meet

Eldorado And Sonora Show Strength As Possible Winners

By Ernie Boyd

Fifteen track teams will be present Saturday morning in Ozona as the 10th Annual Invitation track and field meet opens Ozona's track season at Lion Stadium.

The Ozona team, with only about two weeks of work, some of that hampered by cold weather, will probably not be ready for a top effort but may prove one of the front runners with its depth in the hurdles and field events.

Fred Sallings, Supt. of Schools at Miles, will be the starter for the meet which will find Eldorado and Sonora two of the teams to be watched for possible team victory in the meet.

Eldorado will have Jim Runge, a star runner who copped the 440 titles all over the country last spring, but who could be used with great effect in the 100 and 220 as well, as anchor for both relay teams. A rule limiting the number of running events in which an athlete may take part will limit his use, however.

Big Lake will also offer a top sprinter in Mike Holmes who was barely nosed out of the 100 yard dash in district by Jim Doran last spring.

Ozona's top strength will come from basketball players. Van Miller, Carl and Pete Montgomery and Phil Carnes along with weight men Darrel Rasberry and Penn Baggett.

Coach Chick Womack will be trying to mold a number of other hopefuls into point producers including Rodney and Gary Stewart, Joe Martinez and several other performers who were squadmen last season.

This year's extended basketball season not only has kept many of Ozona's track stars off the track but also extended through a streak of good weather which turned sour as soon as the indoor sport ended.

Teams entered in this year's meet include: Sonora; Eldorado; Big Lake, Junction, Sanderson, Robert Lee, Melvin, Garden City, Rocksprings, Eden, Rankin, Iraan, Sterling City, Miles and Ozona.

## Ozona Girl Cagers Dumped By Sundown In Regional Contest

By Ernie Boyd

The Ozona High School girls basketball team ended its 1961-62 season in Regional Play in Lubbock Saturday when they were dumped 73 to 38 by eventual Regional Champion Sundown.

The Sundown team which also won regional and made the state meet last year had four regulars returning from that squad and had little trouble with the Ozona team.

Janie Lara led the Ozona attack with 16 points but the Sundown team was never in any real trouble. Don Nell Carnes was second with 13 points and Beverly Alford contributed 9. Sue Jones of Sundown dropped in a whopping 32 points for the winners.

The loss left the Ozona team winner of its district and bi-district and with a season won and loss record of 20 wins and 9 losses.

Beverly Alford, Don Nell Carnes and Janie Lara, all three starting forwards completed their eligibility as did co-captain Glenda Friend and letterman guard Janet Mason.

## INITIATED BY THETAS

Linda Millsbaugh, daughter of Mrs. Sidney Millsbaugh, Jr. of Ozona, was recently initiated into Kappa Alpha Theta sorority at the University of Texas where she is a sophomore student.

Kappa Alpha Theta is one of the oldest Greek letter fraternities for women, it was founded at Depauw University in 1870.

**Are You Listening, Congress?**

Realistic recommendations that would cut \$6.4 billion from appropriations asked by the Administration for fiscal 1963 — and \$4.6 billion in spending during the year — have been proposed by the Federal Finance Committee of the Council of State Chambers of Commerce.

In addition to rejection of eight new spending programs the White House is anxious to launch in 1963, this committee of businessmen representing 30 State Chambers of Commerce organizations would throw out one more for good measure — the \$100 million UN bond purchase proposal. This would relieve 1962 appropriations by just this much — and the feelings of responsible citizens immeasurably.

The Committee's report, signed by Eugene F. Rinta, director of Research for the Council, takes exception to the appropriation of \$460 million as a Federal incentive in CD fallout shelter construction, noting "wide disagreement among scientists and others as to the practical usefulness of a major fallout shelter program."

Turning thumbs down also on Federal aid to public schools, supplementary teacher training and teaching aids, college facilities and scholarships, medical school facilities and schoraships, a manpower development and training program

**Aid Finances Thievery**

It has long been a fetish with those who administer US largesse to needy, underdeveloped and otherwise supposedly deserving countries that there must be "no strings attached" to foreign aid. All measures to retain some control have failed. Thus, the specta-

zilian state of Rio Grande do Sul of the American-owned National Telephone Company — as a sequel to earlier seizure of an American-owned power company and fore-runner of the take-over of all foreign-owned enterprises, it seems high time to protect ourselves. In all, something over 600 American concerns — who play a considerable part in producing the taxes that support foreign aid — have large investments in Brazil.

To make matters worse, or even more ridiculous (depending on whether you are another Latin American politico planning to take us for a ride,) the Brazilian Government under far-leftist President Joao Goulart solemnly declares it cannot interfere with the actions of Rio Grande do Sul as a sovereign state. This raises the question of how Goulart can administer our aid millions if he is unable to protect American interests. And this comes as President Goulart plans an April call on President Kennedy to pick up a billion or so of those Alliance for Progress dollars — indirectly to finance such expropriation.

Thus, there is now a bill before Congress to amend the Foreign Assistance Act of 1961. It provides that no assistance shall be given to any country that has not established procedures satisfactory to the President for "equitable and speedy compensation" to the American owners of expropriated property.

Many would go farther, and deny aid funds wherever expropriation has taken place—even though repayment was made in full. But this restriction is the very least we can impose. No move has yet been made to check the present flow of aid to Brazil — in spite of this confiscation of some \$20 million of US-owned property. Now the need for action is urgent.

The Communist-inspired program of making us look ridiculous by stealing our property with one hand while taking our gifts with the other has gone far enough. Tell your Senators and Congressman you expect their help in stopping it.

**MORE HOAX THAN HELP**

There is a general impression abroad in the land among both the aged and their sympathetic, well-meaning juniors that the Administration's Medicare proposal (specially, the King-Anderson Bill) now before Congress will provide a neat and comprehensive solution to the health problems of all over age 65.

Cruel as it may seem to question this sublime, if ill-founded faith, it is about time to look into this bill and see just what it does offer. You will find that it would pay for:

1. Up to 90 days of inpatient hospitalization, the patient to pay the first \$10 of cost each day for the first nine days. ("Deductible" is the word for that ninety bucks).

2. After hospitalization (but not without it), up to 180 days of nursing home services.

3. Home health services (by others than physicians) up to 240 visits per year.

4. Outpatient hospital diagnostic services — in this case with a \$20 "deductible" (to be paid by the patient) on each examination.

And if these services appear on casual reading to be fairly comprehensive, consider the medical needs that are not provided for: There is no allowance for the bills of your own doctor or surgeon — in or out of the hospital or nursing home. There is no provision for drugs needed to continue treatment at home, and no help with doctors' or druggists' bills for those who suffer at home with arthritis, heart trouble, diabetes and kindred chronic ailments.

And it is moot to ask just where would those of limited means (for whom this legislation is primarily urged) get the \$90 required for the first nine days of a hospital sojourn? The question is especially pertinent when you consider that senior-citizen health insurance policies without deductibles are available for the amount of money from established, tax-paying insurance companies.

The best assessment of the King-Anderson bill, perhaps, comes from statistics presented by the Secretary of Health, Education and Welfare in testimony before the House Ways and Means Committee. They show, on careful

**LETTER TO THE EDITOR:**

**Comments of a Fed-Up Farmer**

The United States declared itself independent from the British Empire as a result of a fundamental difference between American belief and British practice regarding human and property rights. Our constitution set forth definitions of certain of these rights.

The passage of the years result in natural change. Even granite erodes a half inch or so per million years. But the rate of erosion of human rights and property rights in our country has rapidly accelerated in very recent times.

Combat veterans of our last three "wars" know times and places where we spent freely of our resources of material and human life to secure possession of a forsaken forest or beach, jungle or plain air space or portion of the sea.

Most of us did not too greatly grudge the cost. We thought we were fighting for our way of life, the right to go back to the farm, the independence of our society etc. Little did we know!

Among those things we thought we were attempting to save was the right to run our own personal business as we saw fit under the Golden Rule. We all hoped to acquire property that we could use, dissipate or leave to our heirs as we chose. We wanted, and hoped to attain, the right to choose, and be chosen by our friends and associates. We bragged of American business freedom and the merits of legal competition. We boasted to the four corners of the earth of a society that promised the individual rewards for his efforts, that were commensurate with his ability, and (as a farmer) luck as fortune (or the weather) smiled on him.

This we thought dated back to the Parable of the Talents as taught by Christ and practiced by the Pilgrims. Now we are shown the folly of our ways. The Supreme Court makes analysis, that this legislation would cover less than 25 percent of the average medical expense of those over 65. At an estimated cost of \$2 billion a year in additional Social Security taxes, it is not only a bad bargain but a costly deception.

ings that appear to render portions of the constitution obsolete. The Executive Department decides that competition between farmers and between handlers of many farm products is a bad thing.

The Secretary of Agriculture decides that he would like to have authority to say who should be allowed to farm. He wants the authority to condemn farms and convert them to parks, green belts and recreation sites. He has asked for the farmers to hold elections to determine whether farmers and farm production are to be fully regulated by the Secretary of Agriculture or his per diem employees or, if we fail to vote properly in the "free elections."

The public has a stake in the matter. Everyone uses food of fiber. Not all of us agree with the farm problem. The writer in the past used to plant as much as a hundred acres of wheat some years. Now he is guaranteed around \$2 per bushel but he could have planted 19 acres this year. It might do better and the consumer surely would, with more acres of cheaper wheat.

Bureaucrats have not as yet repealed the law of supply and demand, but neither have they tried.

It is suggested that a sound move toward national stability would be the abolition of the Department of Agriculture. Such action would more than balance the budget, would set a precedent toward return to constitutional government.

The writer has long been turned on the story of Colonel Travis and his legendary last stand on the ground at the Alamo. As a farmer, it seems imperative that we draw a line in the sand and take our stand.

## DROP-OUT JEOPARDIZE ENTIRE FUTURE

By Leroy Drago

American's lives are hanging in the balance. Their futures can be either good or bad, depending a great deal on their abilities to make decisions now and in later life.

A matter on which a great deal of attention is being focused presently is education — should not one complete his high school education. Today, more than ever before possession of a high school diploma is necessary in order for one to compete favorably with others in almost any field.

On May 17, 1962, a number of OHS seniors will receive a certificate called a diploma. That diploma can mean a happier, more successful life to its recipient, yet many are the times that a student has the diploma practically within his grasp, only to lose it through carelessness. After such a loss, the student may lose sight of his objectives and commit a rash act known as "dropping out" of school. This should not be done! If there is no great hindrance to continuance in school and the working toward the goal of a diploma, then, by all means, that work should be continued! Who knows? Next year may be a more successful one. Through a wise decision, that of continuing to strive and to learn, you may "save your life."

## CARL MONTGOMERY FINISHES BUSY CAREER

Most popular boy for 61-62, Carl Montgomery, began his school career in Ozona. Carl was born in San Antonio on March 17. He moved to Ozona before he reached school age. Carl has one brother, Pete, who is a junior.

Carl's high school days have been filled with sports activities. His freshman, sophomore, junior, and senior years, Carl participated in football, basketball, and track. In his junior year 60-61, Carl made the all-district in football and was a state-finalist in track. Carl's senior year 61-62, he made the all tournament team in four different basketball tournaments and was chosen track captain.

Carl served his class as vice-president during his sophomore year 59-60, and he was elected president of his junior class and president of his senior class.

Carl plans to attend San Angelo College, but his plans are not definite.

# SATURDAY IS THE TENTH!

Saturday, the 10th, is important to three groups of individuals especially:

FIRST - it is important to you who enjoy the privilege of credit, because you pay your bills promptly by the 10th - You are a "select group" and you maintain your place in this group by continuing to pay your bills on time.

SECOND - it is important to the merchants who grant you credit privileges. They learn on whom they can depend to maintain their standard of good business and

friendly relationship, and the opportunity they have to choose from this "select group", the "cream of the customer crop."

THIRD - it is important to your local Retail Merchants - the credit bureau - who is able to keep your credit rating in this "select group" only as you yourself Main- tain it by payment of all bills promptly - or by drop- ping your name from that group because you have de- faulted in your "Promise to pay promptly."

**Hospital Closed By Gonzales Foundation Still Offers Service**

A new expanded program for the Gonzales Warm Springs Foundation was announced today by John Skelly, Foundation president.

In entering upon the new program, the Foundation is relinquishing its patient care role which has been carried on at Warm Springs since 1941.

This action was unanimously approved by the Foundation's executive committee in session at Austin this week. It has previously been studied and strongly endorsed by leading authorities in rehabilitation.

In withdrawing from patient care — or the direct operation of a hospital, the Foundation proposes to enter an expanded field with three basic purposes:

1. Provision of a program of assistance to needy, physically disabled Texas citizens in the increasing number of available facilities within the state of Texas.
2. Promoting the cause of rehabilitation through a state-wide program of information and education.
3. Rendering assistance in developing rehabilitation facilities and services in Texas.

"This means", said Skelly, "that the Foundation, within its financial limits, will continue to provide

**Price, spice and everything nice!**

Who ever thought a car that saves like this could have so much sizzle? Chevrolet engineers, that's who! Liveliness and luxury for a low, low price were exactly what they had in mind to begin with. And they began from scratch with a whole carload of ingenious new ideas designed to give you more for your money. That spunky 6 with gas-sipping stinginess is just one example. Another: a new unitized Body by Fisher that's fit for a full-size family inside, easy to park

outside. Still another: tough but gentle one-piece Mono-Plate rear springs that outdo many a bigger car for quiet comfort. Any wonder Chevy II won Car Life magazine's 1962 Engineering Excellence award hands down? **Notes From The  
County Agent's Office**  
By Pete W. Jacoby

Wool production was the highest since 1948 when the state produced 32.2 million pounds of wool in 1961, according to the Crop and Livestock Report Service. A total of 6,431,000 pounds of sheep shorn on Texas farms averaged 8.1 pounds per head. Average price was 43 cents per pound. The total U. S. production was down 1 percent from a year earlier.

Texas mohair production in 1961 was the highest on record at 5,690,000 pounds of mohair. This was an increase of 13 percent over 1960. Texas produced 3 percent of the mohair in the U. S. Total number of goats shorn in 1961 was reported at 3,000 head. Average clip per head was 6.7 pounds per head, the highest on record. Average price

per pound received was 88 cents compared with 90 cents in 1960.

The Texas 1961 lamb crop was the largest since 1950, totaling 3,239,000 head. The 1961 crop was 17 percent above the 10 year (1950-59) average. The 1961 lambing percentage was 79 percent as compared to the 10 year average of 73 percent. The U. S. lamb percentage in 1961 was 95 percent. Lambing percentage in the Western states was reported at 91 percent and in the Native States at 105.

**Confirmer Spotted  
In University Block,  
Lancaster Hill Area**

Drilling & Exploration Co., Inc., Dallas, will drill the No. 1-D University as a 1 1/2-mile east outpost to San Andres production in the Lancaster Hill multipay oil and gas field of Crockett County, eight miles east of Sheffield.

Location is 1,587 feet from the north and 610 feet from the east lines of 3-29-University. Contract depth is 1,900 feet with rotary, elevation 2,336 feet.

It is a twin to the firm's No. 2-3 University, a Strawn gas well. The field has two San Andres oil producers.

Phillips Petroleum Co. is attempting completion as a third Strawn producer and a location east extension to that pay in the Lancaster Hill multipay field of Crockett County at its No. 2-L University Lands, in 10-29-University.

Operator perforated opposite the Strawn from 6,836-6,990 feet and was preparing to swab natural.

Total depth is 7,462 feet; plug-back depth 7,164 feet.

Mr. and Mrs. Ernie Boyd and children spent the week-end in Sulphur Springs where they were called on account of the serious illness of Mr. Boyd's mother. Some improvement was noted in the elder Mrs. Boyd's condition early in the week, Mr. Boyd, who is South Elementary school principal, reported.

**Certain Educational  
Advancement Expenses  
May Be Tax Deductible**

Under one of two conditions, direct costs of education and necessary expenses for travel, meals and lodging while taking educational courses away from home overnight are deductible on that 1961 federal income tax return.

S. Baker, Administrative Officer, Internal Revenue Service, San Angelo, Texas, revealed the two conditions:

1. If the education was undertaken primarily to maintain or improve the skills of a taxpayer required in the performance of his employment duties when the education expense was incurred; or,

2. If the education was undertaken primarily to meet the express requirements of a taxpayer's employer, or the requirements of applicable law or regulations imposed as a condition for retaining the taxpayer's present employment, salary, or position.

**OUR 1st  
ANNIVERSARY**

**In Business In Ozona**

DEAR FRIENDS:

On our first anniversary of our residence in Ozona, we wish to express our sincere thanks for your patronage and kindness throughout the past year.

If you had not accepted us so generously, we would not be able to celebrate "our first anniversary" and become a part of your community. For this we are truly grateful.

We are looking forward to a visit from you and to serve you.

Thanking you again, we remain,

Very sincerely yours,
