MA'S SEVENTH ANNUAL GOLF TOURNAMENT ATTRACTS FULL FIELD; ABILENE PLAYER IS WINNER

Ernie Boyd
South, a steady young Abilene, survived a case of the jitters and found to win the seventh Ozona Country Club In-Golf tournament Sunday.

cently won the Brady tournament, turned in the best rounds of the day as Wright edged Taylor by scoring a three on number nine while Taylor had to settle for a four. The one stroke on the final hole gave a Wright a 33 while Taylor posted a 34.

In the championship match, South found himself opposed by Brooks Dozier of Ozona, who won runner up honors, Bud Reeves of Monahans, and Ted Wright of Midland.

Wright and South were in the lead going into number four but Wright hit two over the fence and South followed suit by hitting one out on the next hole, as Reeves and Dozier closed the gap. But South picked up one stroke on the next hole and was able to hold off Reeves and Dozier who in turn just edged Wright as the finish ran 39-40-40-41.

Dozier drove and putted well through the final match but had trouble with his approach shots while Reeves could not get to ball down once on the green. The pair went three holes in the playoff before Dozier won the undisputed claim to runner up honors.

Consolation honors in the championship flight went to James Scott of Ozona, who lost to Champion South in the first round and defeated Dick Gilbert and Boots Armstrong to win the honors, posting a good 36 on the final nine to get a one stroke win over Armstrong.

Play in the first round of the champion flight went this way: Brooks Dozier, Ozona, over Boots Armstrong, Big Lake; O. B. Pool, Jr., Del Rio, over Chase Thompson, San Angelo; Bud Reeves, Monahans, over John Lewis, Ft. Stockton; Beecher Montgomery, Ozona over Chester Burks, Ft. Stockton; Ted Wright, Midland, over John Broyles, Ft. Stockton; T. J. Bailey, Ozona, over Dick Gilbert, Del Rio, and Johnny South, Abilene, over James Scott, Ozona.

In the second round Dozier defeated Poole, Reeves downed Montgomery, Wright defeated Taylor, and South defeated Bailey.

In the first flight Art Kyle, an Ozona youngster who will be a soph at Texas A&M next fall, posted a 37 to win honors by three strokes over Gene York of San

T. A. KINCAID of Ozona, trustee of the Southwest Animal Health Research Foundation, greets State Senator Dorsey Hardeman of San Angelo during tour of sterile fly factory at Mission, headquarters of the Southwest Screwworm Eradication Program. Vice-President Lyndon B. Johnson took part in the dedication of the 75-million-per-week fly production plant June 16.

1961 Wool Sales Incentive Scale Set At 44.5 Pct.

Lamb Payment at Rate Of 76c Cwt.; Checks Ready July 3

Wool incentive payment scale for the 1961-62 marketing year was announced yesterday by Claude Russell, Crockett county ASCS office manager, following receipt of information transmitted by the state ASC office in Austin.

The percentage factor to be used in arriving at the incentive pay scale for shorn wool has been determined at 44.5 percent of dollar sales total, the local ASC office has been advised. This factor is determined on the basis of the national average price at which wool was sold during the marketing year. The percentage factor showing the difference between the average wool sales price and the support level, which is 62 cents a pound, is used to determine the incentive pay for ranchmen. Deducted from each check will be 1 cent per pound of wool sold, to be used for advertising and promotion of wool and lamb.

In addition to the payment for shorn wool, the wool on unshorn lambs marketed by a producer during the year will be paid for at the rate of 76 cents per hundred pounds of live lamb weight.

Incentive checks for Crockett county producers may be ready at the ASCS office by July 3, Mr. Russell said. Those who wish may pick up their checks at the office, barring some unforeseen cause for delay, but those who fail to do so will receive theirs by mail.

Miss June McMullan Of Big Lake Added To Teaching Staff

Miss June McMullan, a spring graduate at Texas Tech, has signed a teaching contract with the Ozona Public Schools to teach in the elementary grades next fall.

Miss McMullan is a native of Big Lake and is a graduate of Big Lake High School where she took part in many school activities.

Miss McMullan will be assigned to North Elementary, where she will replace Miss Lola Mae Daniel, who retired at the end of the past school year.

The new teacher is the daughter of Mrs. Floyd McMullan and the late Mr. McMullan of Big Lake, and a niece of Frank McMullan of Ozona.

Superintendent Sikes also announced that Ron Murdock, who was on half year contract to teach driver education, had returned to North Texas University for the summer in order to be prepared to take Roger Goteher's place as social studies teacher and girls basketball coach next year.

The hiring of Mr. Murdock is conditional, depending on the completion of the work he is taking this summer.

HELPED EDIT IT —

Virginia Ladies Stop Off To View Setting for Bosworth's New Book

A couple of Easterners saw a bit of the west and peeked briefly into some Texas history the past weekend as Capt. Allan R. Bosworth, former Ozonan, Naval officer and writer, here doing research on a new book, entertained a couple of Virginia ladies on their way home from the West Coast.

The ladies were Miss Anne Dobbie Peebles of Stony Creek, Va., past president of the Virginia State Federated Women's Clubs, a member of the State Board of Education, a member of the Alumni Board of the College of William and Mary, and a number of other positions that a civic and political leader falls heir to, and her sister Mrs. Rebecca Bowen of Lynchburg, Va., whose husband is a surgeon in Lynchburg.

Miss Peebles assisted Captain Bosworth in doing research on his latest book, "New Country" and is mentioned in his acknowledgments. Captain Bosworth met them in El Paso where they landed by air from California and drove them across the West Texas country which is described in the Bosworth book and here in Ozona they visited two ranches, being guests of Mr. and Mrs. R. A. Harrell for supper at the Harrell ranch south of Ozona and later at a gathering for a barbecue supper at the ranch home of Mr. and Mrs. T. A. Kincaid, Jr.

"It was wonderful seeing the country he wrote about in the book," Miss Peebles who assisted in editing the book, declared.

Captain Bosworth and the ladies visited San Antonio before boarding airplane for home. There they toured the Alamo, saw La Villita, and various other historic spots of interest in and around old San Antonio.

Southside Lions Club Installs New Officers; Johnny Ramirez, Prexy

The Southside Lions Club held its installation of officers Saturday night at the South Elementary Cafeteria. Johnny Ramirez was installed as president and Felipe Castro took office as first vice-president.

Ladies night and initiation of new members was held in conjunction with the installation of officers. A dinner was held for the members and their guests, with a dance after the occasion.

Other officers who were installed included, Felipe Vargas, III, second vice president; Joe Martinez, third vice-president; Onesimo Ortiz, tail twister; D. C. Torres, Lion Tamer; Jesus Castro, secretary; Joe Galvan, treasurer; Albert Ramoz, Grabieli Longoria, Sam Vargas, and Antonio Mendez, are the new Directors. Bekie Diaz is the club's chairman for club's Crippled Children.

Outgoing president for the newly organized club is Alfonso Ramirez, Jr.

ELECTION SET JULY 7 FOR \$50,000 BOND ISSUE FOR NEW SCHOOL CONSTRUCTION

An election to determine whether or not \$50,000 in bonds shall be issued by the Crockett Consolidated Common School District for the purpose of constructing an administration building and for construction or purchase of a residence to be used as superintendent's home, will be held in the county Saturday, July 7.

The election was called by the board of trustees in response to a petition signed by 18 qualified taxpayers in the district asking for such an issue for the purposes outlined.

Health Officer Cites Stock Pens In City As Menace

Spraying For Fly Control Urged As Disease Prevention

County Health Officers Dr. Ralph E. Simon this week called attention to the growing number of stockpens within the limits of the town of Ozona and urged strict sanitary measures on the part of their owners to reduce the fly population in Ozona and the health menace flies present.

"It has been brought to my attention that there is an increasing menace with the fly situation in the confines of the city limits, especially where people have stock pens," Dr. Simon said in a prepared statement addressed to citizens of Ozona concerning the local health situation.

"As you all know, the fly is a carrier of a number of diseases and it is, therefore, urged that all people who have stock or stock pens within the confines of the city limits spray the animals and these areas in order to help exterminate the flies and the possible unnecessary spread of disease.

"Those people who have this problem can contact any of the supply houses here in town in order to find which spray is the most suitable in order to exterminate these flies and handle this problem."

Joe Jacobs

Former Ozona Student, Joe Jacobs, Top Student And Athlete At Hobbs

Joe Jacobs, son of Mr. and Mrs. Paul Jacobs formerly of Ozona and now of Hobbs, New Mexico, has been elected president of the student body at the Highland Junior High in Hobbs.

Joe has been on the school honor roll all year with a straight A average on his eighth year work.

In addition to his other honors Joe was quarterback of the Junior High football team and led the team in scoring with 72 points in addition to being the only 8th grader to make the starting lineup.

In basketball the former Ozonan led his team in scoring with 167 points and in track broke the school records in the 100 yard dash the 220, and the discus.

Joe was showing great promise before leaving Ozona, and his loss has caused Ozona coaches a great deal of anguish, or as Linnus would say "good grief".

The proposed bond issue is a bare minimum needed for the two projects which the school board has determined as necessary expansions of the school system plant to take care of a growing community.

The proposed administration or office building will be built on the site of the superintendent's home now in use, a frame residence across from the high school on the east and just south of the Davidson gym.

Cramped and inadequate office quarters now in use in the high school building will be converted to use as principal's offices and the administrative offices moved to the new building. The building, to be approximately 38X38 feet will provide space for the superintendent's office, a conference room, a secretary's office, waiting room and business office and a fireproof storage vault for the preservation of the invaluable school records.

The present high school building, erected in 1932, has so far met the needs of the high school student body which has more than tripled since its construction, what with the additional construction of a band hall, new gymnasium, H. E. building, industrial arts building, and vocational ag building. But the original building allocated a very small space to the administrative and business end of the school operation, a small office for the superintendent, with a vault cut off at one end and an adjoining tiny room for an administrative assistant, with the principal's office squeezed into the compact area. Situated at the west main entrance, the tiny administrative offices have been almost a hallway for traffic in the building, adding to the confusion of inadequate space.

The new building will take care of the school system's administrative needs for many years to come, board members calculate.

Ozona Junior Rodeo Performers Win Five Firsts At Ft. Stockton

Ozona cowboys and cowgirls, mostly the latter, had a big time at the second annual Ft. Stockton, Junior Rodeo last weekend as they carried away a number of the top honors in the show.

Pam Perner was a double winner, taking first place both in the pole bending and ribbon roping, while Nancy Friend won the barrel race to give Ozona three firsts in the girls senior division competition.

Cary Pitts took first place in the bull riding and Becky Bland won the barrel race in the junior division for Ozona's other two first places.

A prize not often sought after was won by Mary Ann Pitts, that of "Hard Luck" as her horse ran away at a critical stage to start just a few of her difficulties.

Among those who took part from Ozona in a less successful way were Hughie Coates, a bull rider, Jerry Lyn Morrison, and Diltzie, Steve, and Rex Bland along with Paul Perner.

A rodeo at Langtry June 30, the Rocksprings Rodeo on July 2, and 3rd and the rodeo at Pecos during the holiday period will draw both junior rodeo entries and open professionals in the case of Pecos and Rocksprings.

Showers Continue To Hop-Skip Over Parched West Texas

Mid-Week Downpours To The South Put Draws on Run

Summer showers dropped hot Crockett County temperatures and provided some moisture in widely scattered areas the past week as cloudy skies and cool winds continue to give hope of rain to area residents.

Good rains were reported from around Comstock, Pandale, and up near Eldorado, but most Crockett County ranchers garnered nothing more than sprinkles or in some cases a tenth or so of moisture.

Thermometer readings that have been ranging in the nineties had plunged to a cool 67 Tuesday afternoon and even though some warmer Wednesday, did not get back up into the mid-summer like readings of the past few weeks.

Rain remained in the weather forecast for Thursday and Friday and reports of heavy rains from practically every section of Texas gives hope that Ozona may yet get some rain.

Draws were running up to about 15 miles north of Comstock Wednesday afternoon and Pandale was reported to have had a heavy rain Tuesday afternoon. Tom Ed Montgomery's ranch picked up nearly an inch from the rain Tuesday as did a number of other ranches just north of Pandale.

Bosworth b—

(Continued from Page One)

next town, Sonora. When the bull ride was announced, he leaped forward, paid his five bucks, and cinched the saddle to suit himself. He rode the bull to a fare-thee-well, and collected fifty dollars.

The show was playing one night stands. When it opened in Eldorado, Coots was in a ringside seat. He picked up another fifty dollars.

That sort of thing could break a little wild west show, in those days, and it nearly did. In the town of Menard, the ringmaster refused to let Coots ride. He yelled for the sheriff — and once more rode the bull.

Coots was making himself a career out of riding that bull. But in Junction, the next evening, the show retired the act. I heard that the whole enterprise went bankrupt a few days later.

Moral: Never take a wild west show too far west.

oOo—
Mrs. Bill Mason and daughter, Kevin, were visitors in the home of her parents Mr. and Mrs. R. C. Ward of Ozona, this week. Mr. Mason remained at their home in Austin studying for the state bar exam.

Ozonans Attend Austin Wedding Of Miss Susan Brown - Richard Swint

Miss Susan Brown, daughter of Mr. and Mrs. Hiram S. Brown of Austin and granddaughter of Mrs. J. M. Baggett of Ozona, became the bride of Richard Bennett Swint, son of Mr. and Mrs. F. E. Swint of Paris, Texas, Saturday evening at the Harris Memorial Chapel in Austin.

The altar decorations featured standing baskets of gladioli and chrysanthemums in shades of yellow and white, flanked by candelabra and fern. The altar rail and candelabra were garlanded with mock orange blossoms.

Given in marriage by her father, the bride wore an heirloom gown, first worn by her maternal grandmother in 1909 and also by her mother, the former Lillian Baggett of Ozona. Panels of hand-made rose point lace draped over each shoulder. Crocheted buttons ornament the front. A rose point waistband, high in the back, dipped to a point in front over a gored skirt of hand made net, appliqued with lace over horizontal pin tucks. Her fingertip veil of illusion was held by a Stuart cap of shirred illusion. She wore a diamond and

pearl pin, given by her grandfather to be worn with the wedding dress and worn by many of the family's brides.

The bride's bouquet was a cascade of majestic and Esther Reed daisies in powder blue and white, with English ivy and streamers of blue and white.

Miss Sally Baggett of Ozona, daughter of Mr. and Mrs. James Baggett and a cousin of the bride was one of the bridesmaids.

At the reception in the home of the bride's parents following the ceremony, Mrs. J. M. Baggett, Mrs. James Baggett and Mrs. Duane Oswald of Ozona were among members of the houseparty.

After a wedding trip to Washington and New York the couple will be at home in Houston where he will be a senior in Baylor college of Medicine and she will attend Rice University.

Mrs. Swint was a student at the University of Texas, majoring in chemistry. She was a member of Spooks, Orange Jackets, Alpha Lambda Delta, freshman scholastic honorary, and Junior Fellows. She was treasurer and pledge class president of Delta Gamma sorority, outstanding Freshman Council Advisor, orientation leader, Cactus Goodfellow, and American Specialist grant to India in the State Department cultural exchange program last year.

The groom received his B. S. in chemistry from Baylor University, where he was a member of the Men of Baylor, and at the Baylor College of Medicine is a member of the men's chorus, and reporter for Alpha Epsilon Delta, honorary pre-med fraternity.

CROCKETT HOSPITAL NEWS

Patients admitted to the hospital since June 12th:

Mrs. Oscar Kost, Ozona, medical; Mrs. Robert Graves, Ozona, medical; Douglas Stuart, Ozona, surgical; Dorina Ramos, Ozona, accident; Mrs. John Boyd, Clint, medical; Richard Sowders, Dryden, surgical; H. C. Delgado, Ozona, medical.

Patients dismissed: Mrs. D. D.

Odams, Mrs. Beecher Montgomery, Mrs. Wilbur Grove, Mrs. Wayne Beavers and infant daughter, Mrs. Oscar Kost, Mrs. Robert Graves, Dorina Ramos and Mrs. Bennie Nameth.

DAY CAMP

The Ozona Community Center begins two weeks of Day Camping for Cub Pack 163 and Brownie Troop 5. Crafts, games and studies

will be centered around the Scouting interest. Cubmaster Enrique Longoria and Den Leader Mrs. Adela Martinez, Mrs. Arturo Torres and Mrs. Enrique Longoria.

The Brownies will be led by Miss Alicia Rodriguez, Miss Diaz, Miss Connie Price and Al Ramirez.

Miss Dorothy Price and Ethel Wolf are supervising the two weeks activities.

And, he is trained to be of assistance to customers in many ways, including proper placement of your telephone.

As your "telephone man" he is one of many of us here at General Telephone who works hard to provide you with good service from the world's most necessary convenience.

TWICE AS MUCH COOLING

With the patented features of Paramount Coolers

Yes! This famous Paramount 3000 c.f.m. evaporative cooler gives you up to twice as much cooling because of these patented features:

- Many coolers lose as much as 70% of cooling efficiency because dust, dirt and salts clog the filters. Patented No-Clog Sta-Fresh Filters are guaranteed clog-proof, assuring 100% cooling efficiency all summer long.
- Filters saturated with water become heavy and often sag and settle from the top, drawing hot, unfiltered, uncooled air into the cooler which may create as much as a 70% cooling loss. Patented Grip-Lock Filter Holders are guaranteed to prevent sagging and settling of filters assuring 100% cool, clean, filtered air.
- Without correct water trough adjustment, sections of the filters remain dry, resulting in substantial cooling loss and costly service expense. Patented Free Flo Visible Water Troughs with external adjustment assure 100% saturation, and 100% cooling for the entire life of the cooler.
- Added feature — Patented Window Closing Attachment lets you close and lock your window. Eliminates entry of dust, rain and drafts into your home.

Science Cause Mixup of Sexes

March of Dimes announced that scientists have found that the sex of a chick is determined by the sex of its parent. This discovery is significant for the poultry industry and for understanding the genetics of sex determination in birds.

1961 Wool Sales Incentive Scale Set At 44.5 Pct.

Lamb Payment at Rate Of 76c Cwt.; Checks Ready July 3

Wool incentive payment scale for the 1961-62 marketing year was announced yesterday by Claude Russell, Crockett county ASCS office manager, following receipt of information transmitted by the state ASC office in Austin. The percentage factor to be used in arriving at the incentive pay scale for shorn wool has been determined at 44.5 percent of dollar sales total, the local ASC office has been advised. This factor is determined on the basis of the national average price at which wool was sold during the marketing year. The percentage factor showing the difference between the average wool sales price and the support level, which is 82 cents a pound, is used to determine the incentive pay for ranchmen. Deducted from each check will be 1 cent per pound of wool sold, to be used for advertising and promotion of wool and lamb.

In addition to the payment for shorn wool, the wool on unborn lambs marketed by a producer during the year will be paid for at the rate of 76 cents per hundred pounds of live lamb weight. Incentive checks for Crockett county producers may be ready at the ASCS office by July 3, Mr. Russell said. Those who wish may pick up their checks at the office, barring some unforeseen delay, but those who fail to do so will receive theirs by mail.

Showers Continue To Hop-Skip Over Parched West Texas

Mid-Week Downpours To The South Put Draws on Run

Summer showers dropped hot Crockett County temperatures and provided some moisture in widely scattered areas the past week as cloudy skies and cool winds continue to give hope of rain to area residents. Good rains were reported from around Comstock, Pandale, and up near Eldorado, but most Crockett County ranchers garnered nothing more than sprinkles or in some cases a tenth or so of moisture.

Thermometer readings that have been ranging in the nineties had plunged to a cool 67 Tuesday afternoon and even though some warmer Wednesday did not get back up into the mid-summer like readings of the past few weeks. Rain remained in the weather forecast for Thursday and Friday and reports of heavy rains from practically every section of Texas gives hope that Ozona may yet get some rain.

Superintendent also announced that Ben Musick was on half year contract for driver education, has been at North Texas University this summer in order to be able to take Rogers' course in social studies in the fall. The hiring of additional help is being considered, depending on the completion of the work he is taking this summer.

Virginia Ladies Stop Off To View Setting for Bosworth's New Book

HELPED EDIT IT — they are on

A couple of Eastern writers, Mrs. Rebecca Bosworth and her husband, Dr. Alan Erickson, visited San Antonio last week to view the setting for her new book, "The Ladies of the West." The book is a historical novel set in the late 19th century. The authors were accompanied by a local guide who showed them the various locations mentioned in the book. The visit was a success and the authors are confident that the book will be a hit.

Miss June McMullan Of Big Lake Added To Teaching Staff

Miss June McMullan, a spring graduate at Texas Tech, has accepted a teaching contract with the Ozona Public Schools. She will be teaching elementary grades in the fall. Miss McMullan is a native of Big Lake and is a graduate of the local high school. She has a strong background in education and is excited to be joining the teaching staff at Ozona.

Health Officers Cause Mixup of Sexes

County Health Officers Dr. Alan Erickson this week called attention to the growing number of stockpens within the limits of the town of Ozona and urged the necessary measures on the part of their owners to reduce the population in Ozona and the surrounding areas. The health officers are concerned about the spread of disease and the impact on the local community.

Dr. Gregory Pincus holds tray of eggs before dipping them into solution containing a female sex hormone which will "feminize" an embryonic rooster. He is a March of Dimes research grantee.

Further hormone treatment, most of them eventually revert to the maleness that nature had intended for them. They grow combs and wattles and crow like any self-respecting rooster. Internally, too, matters are corrected and organs usually appear to be normal.

When they came to trying the reverse egg-dipping experiment, changing the sex of a female chick to male, the Worcester Foundation researchers ran into a baffling obstacle. The obvious procedure — dipping the eggs into a solution of male hormone — didn't work.

So they checked a variety of other hormones. When they finally found a hormone that did the trick, it went against all textbook expectations. The hormone was progesterone, a female sex hormone.

Their long-range study, they believe, will help explain some of the earliest stages of human development. Their results have already pinned down one important point beyond contention: heredity is by no means the only factor that determines sex. Whatever comes in contact with embryonic cells may alter them, or even destroy them.

Allen White, an established merchant in Kansas once told William the publisher of The Emporia Gazette. "Everybody knows me and the church bell." This is a reference to the fact that White's store is located near the church, and the bell is a well-known landmark in the community.

It May Be For Sale

Minutes after his arrival in West Berlin from Paris, Secretary of State Dean Rusk was shown The Wall. It is, he declared, "an affront to human dignity — something the long story of human history must bring to right". He assured the West Germans that "we will find a way to break it down."

In February, Attorney General Bobby Kennedy stopped by on his mysterious round-the-world junket and made Berliners the same promise. Later, in a call on Chancellor Adenauer in Bonn, the legal eagle assured Der Alt that Germany would be reunited some day, even though the Allies had no "magic formula."

With the closing of the Brandenburg Gate by the Russians last August and construction of the first segment of the five-foot concrete block barrier at the Potsdamer Platz to reinforce the hastily-erected barbed wire that divided Berlin, President Kennedy sent Vice President Johnson to the scene and ordered reinforcement of the US garrison in West Berlin.

On his arrival, the Vice President declared profoundly that: "The Communist dictatorship has the power temporarily to seal off a border, but no tyranny can survive beyond the shadow of its evil strength." He went on to say that we would "fulfill all our obligations and honor all our commitments." At that time, a lot of Americans thought this meant we weren't going to put up with this

divided-city foolishness.

The following week, as tension mounted, the US, Britain and France called upon Russia to remove the barricades, but Khrushchev, in turn, threatened to remove the air corridors into Berlin that he was allowing the West to use "on a temporary basis."

Thus, The Wall remains, having withstood all the words our Big Guns have hurled at it. But, as Mr. Rusk has just indicated, there may be a way to level it. One recent development is East German's cry for help from West Germany, of all things! Herr Ulbricht, Khrush's East German stooge, would like an accommodation of \$700 million in credit for ten years.

And when Secretary Rusk says, as he did in the West Berlin City Hall, "I continue to be ready to explore further with the Soviet Union whether a basis of negotiation exists", it may provide a glimmer. Since we lacked the decision to tear down The Wall block-by-block as it was put up, perhaps we can now buy it!

GALLANTRY IN ACTION

The stunning defeat of the Administration's omnibus farm bill in the House by a roll-call vote of 215 to 205 is generally regarded as the most serious setback the New Frontier has yet received. Indications of this came swiftly from the White House, where a spokesman lashed at the Republicans for playing politics with the nation's welfare — even though 48 Demo-

crats voted with the opposition. And while the Department of Agriculture had said that the drastic control program in the bill would save \$600 million the first year, the White House blasted the figure, saying its rejection would cost the taxpayers \$1-million during this period.

The majority, however, apparently agreed with House Republican leader Halleck who called the original estimate "phony", and with Minnesota's Congressman Albert H. Quie who told his colleagues they had the chance of "killing the farmer or killing the bill."

Perhaps even more important than rescuing the farmer from what would have been intolerable regimentation and the nation from still deeper agricultural involvement, the House by this vote has demonstrated its collective sense of responsibility and its individual backbone in resisting pressure.

From this inspiring incident the Congress and the people may take courage. This is "gallantry in action" — but not beyond the call of duty!

Bubbling Over With Joy. Comrade Khrushchev has called President Kennedy his congratulations on the new coalition (troika, of Neutralist, Communist and Loyalist heads of Government) in Laos. Delighted that the "mutual understanding we achieved in Vienna . . . begins to be translated into life" the Butcher of Budapest cherishes "the conviction that success in solving other international problems . . . can be achieved on the same road."

What other conviction could there be?

Bernard Lemmons, District Manager for the American National Life Insurance Company, has completed the basic course at the Institute of Insurance Marketing, Southern Methodist University, Dallas, Texas, and has returned to continue his work in this area. He is a son of Mrs. Ben Lemmons of Ozona.

Bud Reeves of Monahans was a visitor in the home of Mr. and Mrs. T. J. Bailey Saturday and Sunday while he took part in the Country Club's invitational golf tourney.

Conservation Practices As They Look From Air Featured In Publication

A new publication intended to help air travelers understand what soil and water conservation practices look like from the air has just been issued by the Soil Conservation Service.

A copy of the publication, "That Land Down There," may be obtained from the local SCS office in Ozona, according to James Glynn, local Work Unit Conservationist.

Mr. Glynn said the publication consists of 16 pages well illustrated with pictures taken from the air, along with some from the ground, showing close-ups of what is going on "down there."

Unique patterns on the land may consist of a watershed with the network of draws that drain into the channel. Ponds that dot the landscape illustrate a practice that has mushroomed among the nation's conservation minded ranchers. A well managed grazing showing beef on the hoof ranging an excellent stand of grass.

These and other land features are well illustrated in this new publication.

Mary Lou Johnigan To Teach In Kermit

Miss Mary Lou Johnigan has accepted a position with the Kermit Schools beginning this fall.

Mary Lou is a graduate of Ozona High School and Hardin-Simmons University and taught the last half of last year in the Texas Valley.

She is the daughter of Mr. and Mrs. Hartley Johnigan of Ozona.

Miss Mildred North was in Austin Friday and Saturday where she submitted the finished copy of the 1961-62 Ayer to the printers and worked out last minute details with the printing firm.

CORALIE MEINECKE BACK

Mrs. Coralie Meinecke, who has been under treatment in a Houston hospital for the past several weeks, returned home Monday and is expected to be back at her desk as manager of the Crockett County Abstract Co. and her insurance agency here.

While Mrs. Meinecke was away her son, Bud Meinecke, assistant manager, was in charge of the of-

fered a daughter in the office of Santa Anna. Bud Meinecke was driving his mother to the hospital. Make School easier. Educational plan for school age children for \$8.00 a month. See Leath, Ph. 392-3068.

Accurate and Complete

RANCH RECORD

Are More Important Today Than Ever

Government regulations and heavy tax programs are destined to be a part of the American way of doing business for a long time. For that reason, it is more important today that every business keep accurate records of its operations.

The ranch business is no exception. With the stiff federal taxes, you will want to take advantage of every saving item in your expense account and at the same time have clear and convincing records available for inspection by tax agents to prove up any item on your income tax return.

Start now to keep a complete record covering all operations in your business with the Stockman's RANCH RECORD BOOK. Your cancelled checks or your present records can be transcribed to this handy record book, together with your income and inventory records and you can have your entire record in a simplified form contained in one volume.

Easy To Keep - Complete Record - In 1 Volume

This is about the... I can think... make FDR sound... we are in... from a man who... of national... figure in govern-... in this country... Kennedy was still... London School of

Economics and Political Science, in London. President Kennedy has a legislative program before the Congress in which he requests vast new federal powers in almost every important economic field. No President has ever sought the power he seeks when our country has not been engaged in a shooting war. I am glad that the Congress, for the present session, at least, has already denied or sidetracked some of these proposals. To illustrate the pattern of power the President seeks, let me enumerate seven principal instances:

1. The effort to extend federal power into state and local communities, through a Department of Urban Affairs. This was soundly defeated in both the House and the Senate.
2. The abortive farm bill proposals of Agriculture Secretary Freeman, to increase the regimentation and control over the Nation's farmers. Narrowly passed through the Senate, with amendments, I am hopeful the House will further amend it, and reduce its menace.
3. Requested authorization to reduce tariffs by 50 percent, over five years, in reciprocal negotia-

tions by broad categories, rather than by item by item review.

4. The President asks authority to name his own Federal Reserve Board Chairman for four years, and thus influence the cost and supply of money.

5. Requested stand-by authority to manipulate a massive federal works program, recently passed by the Senate with insufficient restrictions.

6. Requested power to cut taxes as much as 5 percent without prior approval of Congress. This is a direct invasion of the constitutional authority of the Congress.

7. A requested fantastic "backdoor" financial proposal to borrow public works money from funds of such agencies as FDIC, FHLB, and the Federal Savings and Loan Insurance Corporation, which would undermine trust and integrity of the agencies. This was caught by Democrats and Republicans alike in the Senate, and stricken.

In something less than a year and a half for our new Chief Executive, as my Democratic Senator friend remarked, none of us has ever seen anything like it.

Memo From Home: After a discussion of the abortive Kennedy-Freeman farm bill with a delegation of Texans in Washington, it was encouraging to get the following note from a member of the delegation: "I was one of the cattlemen in your office the other day. I hope we can, and I think we will, send up some help next November. We all got a good look at the faces of our representatives when they admitted their obligations to go along with the Administration. This is a frightening thing. Many of the younger members of our party had never seen such a raw, naked, subservience. It was good for them and for all of us, to get this picture. We may not have many votes, but we can all holler. Thanks and regards, from myself and the many others who I have reported to since we got back."

Fusselman Pay For South Tippet Field

Fusselman oil production was opened in the Crockett County portion of Tippet, South multipay field with completion of Shell Oil Co. No. 2-B Forristall, 10 miles southeast of McCamey, for a daily flowing potential of 93 barrels of 40.5 gravity oil, no water.

Production was through a 16-64-inch choke and perforations between 6117-154 feet, which had been acidized with 1,500 gallons. Top of pay was picked at 6,117 feet on derrick floor elevation of 2,333 feet.

Moore Oilers Wrap Up First Half Title In Little League Play

The threat of rain and a light shower caused the postponement of Monday night's Little League activity as Moore Oil won its Thursday contest to wrap up the second half title.

Moore toyed with Mason, grabbing an 8 to 0 lead and then dropped behind while playing its reserves and had to return its regulars to the lineup in order to win

11 to 9.

George Cox started on the hill for Moore and had a shutout for three innings before the reserves took over. Walter Higginbotham came on in the fifth inning to finish up and get credit for the win.

Despite a brilliant one-hit pitching performance by Tony Garza and two r u n homers by David North, Tony Garza, and Gary Sutton the B&B Grocers went down

to defeat at the hands of the Ozona Oil team 11 to 10 in the final game Thursday night.

Garza started for B&B and gave up a run producing single in the first inning, but then settled down fanning the last seven hitters to face him, before being relieved in the fourth frame. Extreme wildness on the part of Garza's successors was largely responsible for B&B's loss.

Scientists Cause Mixup of Sexes

March of Dimes-supported scientists have found that if they dip an egg into the right kind of hormone solution, they can change the sex of the unhatched chick from what it started out to be.

This, of course, is of concern to a chick which is supposed to be a rooster and hatches out with most of the features of a hen, or vice versa.

The research also is of direct concern to people, because the scientists believe they are on the track of what may cause some human beings to be born with mixed-up sex characteristics.

A few cases of sex changes in people have become world famous. But according to Dr. Virginia Apgar, director of the birth defects division of The National Foundation-March of Dimes, "It is a more common and important problem than most people realize. More and more infants and children are being found who are somewhere between pure male and pure female sex."

Such "intersex" is a biologic contradiction and a major mystery. How does it come about? Perhaps if we had the explanation, doctors could devise ways to prevent it or treat it to straighten things out again.

That's why March of Dimes funds have been awarded to support investigations by Dr. Gregory Pincus, an internationally recognized authority on hormones and research director of the Worcester Foundation for Experimental Biology, Shrewsbury, Mass.

It is known that heredity factors can lead to sex abnormalities. But Dr. Pincus points out, "obviously heredity isn't the whole story." Hormones are undoubtedly involved, too. Scientists speculate that certain hormones or other substances in a pregnant mother's body may reach the cells of her unborn baby during the critical early days of growth and completely change the direction of the baby's sex development.

Though their project is still in its early stages, Dr. Pincus and his associate, Dr. Alan Erickson, have found that this theory holds water.

If an egg containing a four-day-old chick embryo is dipped for just ten seconds into a solution containing a female sex hormone a budding rooster can be "feminized."

If such birds are allowed to hatch and mature without any

Dr. Alan Erickson holds rooster hatched with characteristics of a hen. March of Dimes-supported scientists found that in nature roosters assert themselves and "hen" began to crow like a rooster.

Dr. Gregory Pincus holds tray of eggs before dipping them into solution containing a female sex hormone which will "feminize" an embryonic rooster. He is a March of Dimes research grantee.

further hormone treatment, most of them eventually revert to the maleness that nature had intended for them. They grow combs and wattles and crow like any self-respecting rooster. Internally, too, matters are corrected and organs usually appear to be normal.

But once in a while there's an exception. The bird doesn't revert to male, but stays somewhere in-between. As a potential rooster, the bird is sterile. As a potential hen, it does not lay eggs.

When they came to trying the reverse egg-dipping experiment, changing the sex of a female chick to male, the Worcester Foundation researchers ran into a baffling obstacle.

The obvious procedure — dipping the eggs into a solution of male hormone — didn't work.

So they checked a variety of other hormones. When they finally found a hormone that did the trick, it went against all textbook expectations.

For the hormone that "masculinized" female chick embryos was progesterone. This isn't a male sex hormone by a long shot. In fact, it is mostly connected with female ovaries and its primary function is to keep things going smoothly during the course of pregnancy.

Just why a "pregnancy hormone" should have such drastic effect on the sex of a female chick is another puzzling element in the birth development riddle that Dr. Pincus and his colleagues are trying to decipher. Their long-range study, they believe, will help explain some of the earliest stages of human development. Their results have already pinned down one important point beyond contention: heredity is by no means the only factor that determines sex. Whatever comes in contact with embryonic cells may alter them, or even destroy them.

"Certainly the possible influence of hormones needs further investigation," Dr. Apgar states. "We already know, for instance, that excessive hormone treatment of a pregnant woman sometimes 'feminizes' her baby if it is a male, producing changes parallel to those observed by Dr. Pincus in his experiments."

The story of

WILLIAM ALLEN WHITE and The Church Bell

"I don't need to advertise," an established merchant in Kansas once told William Allen White, renowned publisher of The Emporia Gazette. "Everybody knows me and knows what I sell."

"In that event," replied the thoughtful publisher, "we can dispense with the oldest advertising medium for the oldest institution in the world. See that church down the street," continued Mr. White, pointing to one of Emporia's oldest and most beautiful structures, "That church has been established here for many years. Everyone knows what it is and what it does. In the tower of the church is a bell and every Sunday it rings out to remind folks to come to church."

"Shoppers go where they are invited and stay where they are well treated," concluded the publisher.

"Regardless of how well established a firm may be, newspaper advertising is a repeated invitation and a reminder to come and do business with that store."

The News Reel

A re-run of "The Ozona Story" as gleaned from the files of The Ozona Stockman

From The Stockman, June 29, 1933

Dr. Henry Schwartze, formerly of New Orleans, La., and a graduate of Tulane University Medical school of that place, has become associated with Dr. F. T. McIntire in the practice of medicine here.

Mr. and Mrs. "Peck" Miller, who for the past three and a half years have operated the Llano Hotel at Llano, under lease, arrived late last week to take over management of the Hotel Ozona, succeeding R. M. Johnson and family.

Announcement is made this week of the purchase by F. H. (Stump) Palmer of the interest of Joe Forehand in the Ozona Motor Co. Mr. Palmer and Mr. Forehand have done business as a partnership for the last several years.

Mrs. Johnny Puckett of Lubbock was here last week visiting her two sisters, Mrs. Paul Perner and Mrs. E. B. Baggett, Jr.

Rev. and Mrs. L. N. Moody left last week for their annual summer trip. Rev. Moody will conduct a series of revival meetings through Arkansas, Mississippi, and Tennessee, during the summer months. Mrs. Moody will spend most of the summer visiting relatives in Portia, Arkansas.

Sherman Taylor was carrying both hands in bandages early this week as a result of infections. He had washed his hands in gasoline after finishing with some painting around the ranch and the gasoline irritated his skin producing burns.

Mrs. A. E. Deland, Mrs. C. J. Watts, Mrs. J. P. Pogue and Miss Louise Crowder entertained with a miscellaneous shower at the Deland home Tuesday afternoon in

COOLER FOR SALE — See at Hillcrest Motel West Hiway 290. 2tp-11

honor of Mrs. Glyn Cates, a recent bride. More than thirty guests assembled for the afternoon. Mrs. Fulmer and Miss Elizabeth Fussell were winners in a contest in which all guests participated.

"Tunny 848" a fine registered Rambouillet yearling ram, a top animal from the fine registered flock of J. W. Owens and Son, Crockett County breeders, will be sold from the auction ring during the seventh annual Crockett County Rodeo, Race Meet, Stock Show and Sale here next week. Proceeds from the sale go into the permanent fund of the Ozona Cemetery Association.

All attendance records are expected to be broken when the Seventh Annual Crockett County Rodeo, Race Meet, Stock Show and Sale gets under way here Monday morning for a three-day celebration, surpassing any previous effort of Crockett county folk to entertain the people of West Texas. A free barbecue each day at noon, an annual feature of the local July celebration since its inception, will once again be provided for the hordes of visitors expected here next week. The barbecue committee has secured a beautiful supply of meat and all the trimmings and R. J. Cooke is ready to turn out the barbecue to an even brown in his patented pits. The barbecue will be served under the shade of the mulberry trees in the City Park.

FOR RENT — One - bedroom house, living room, kitchen, bath. Furnished. Call John Patrick, collector, Hickory 53889, Pecos, Texas, or see Cleophas Cooke at Cooke's Market. 14-3tp

Dr. John E. Redden, who practiced veterinary medicine here until recently, has established a practice in Kerrville. His office there will be at 217 W. Water street. Dr. Redden said on a brief visit here this week to wind up his affairs locally that he enjoyed the time he lived in Ozona and was grateful for the fine practice he had here. Dr. Redden sold his practice here to Dr. Jimmy McMullan.

Notes From The County Agent's Office

By Pete W. Jacoby

Bagworms are now occurring in rather large numbers on trees and other plants in many parts of the state. This insect is a general feeder and can cause serious damage to certain trees, especially evergreens, points out C. F. Garner, extension entomologist.

At this time, the worms are small and can be successfully controlled by proper spraying or dusting of the plants with insecticides. It is important to apply chemicals early enough to control the worms before they become too large and cause serious damage, adds Garner. He suggests a check of all plants around the home, especially evergreens, for the spindle-shaped sacks which may be hanging from the twigs, leaves and branches.

The following insecticides are recommended for bagworm control. Malathion (50% emulsifiable concentrate 2 to 1½ ounces per 5 gallons of water), Toxaphene (60% emulsifiable concentrate, 2½ ounces per 5 gallons of water) or lead arsenate (2½ to 3 ounces per 5 gallons water).

Insecticides are poisons and should be handled with caution. Follow safety directions listed on the label and keep children and pets out of the treated area. After spraying, wash the grass to remove the chemical residue, advises Garner.

You don't have to spend time while you are out-of-doors. Such fighting off insects this summer pests as mosquitoes, ticks, fleas, chiggers and biting flies can be made to keep their distance by applying a repellent developed by U. S. Department of Agriculture scientists on exposed skin areas.

The repellent is commonly called DEET. Diethyl-toluamide is the chemical designation. It was synthesized and tested by chemists and entomologists of USDA's Agricultural Research Service. It is now available in ready-to-use containers under several trade names, and has been approved as the standard military repellent.

DEET is effective and safe for general use on the skin or certain

By the light of the silvery moon

On the job for you!

Long after you and your family have gone to sleep, our drivers are still on the road—heading your way with gasoline to power your car, oil for heating your home and hundreds of other oil products that make for better living.

In America's progressive and competitive oil industry, every oilman has a special job. As your local oil jobber and distributor, our job is to see that this community gets ample supplies of oil products where and when they are needed.

This is our pledge that we'll never let you down—never stop trying to bring you even better service in the future.

HIGHLIGHTS AND DELIGHTS from State Capitol

...n, Texas—Texas has some-
brag about: The best traf-
fety record in Texas history.
National Safety Council
all states on traffic safe-
possible 100 points, Tex-
4 for its efforts to solve
deaths and injury during
big share came from the
lowest traffic death toll
1949 — "only" 2,314 killed
highways in 1961.
ornia had the best score
Michigan was second with
as tied with Illinois and
or third place among the
"traffic" states.
's Cost — Hurricane Carla,
hit Texas last September,
a delayed blow this week.
insurance companies paid
than \$110,000,000 in insur-
claims, the State Board of
nce ran up the statistics in
new rates for extended cov-
insurance — which includes
orm damage.
result — a 27 per cent in-
in dwelling rates in the
east territory" and a 5.3 per
increase in the two inland
eries.
coast territory" comprises
nties on the Gulf of Mexico,
a tier of counties adjoining
those counties, where \$100
of extended coverage insur-
most 35 cents this year — it
ost 44 cents after July 1.
is just the dwelling rate.
are dozens of other varia-
in the complicated business
ing insurance rates.
It's all based on statistics.
insurance companies have
gest losses in history in 1961
rates for a number of

years to even things out.
Here To Stay — From the way
Texas Democratic nominees for the
state Senate are thinking now —
the new sales tax is here to stay.
There likely will be some modifi-
cations — but no chance of re-
peal, and little chance of making it
one per cent on everything instead
of two per cent on most things.
That is the result of a newspaper
survey of Democratic nominees for
the Senate.
A clear majority — 17 of the
31 — felt that the sales tax would
not be repealed. Only one among
the 17 said he would vote to re-
peal it.
But several feel there should be
some changes made. Major item
suggested was to do something to
ease the strain on small vendors.
Interpretations of the law are
that the merchant can't collect the
tax on sales of less than 25 cents,
but must pay the tax to the state
on those sales as a part of his gross
sales.
Gift Declined — The State Parks
Board had before it a bold offer—
but with a half million dollar
string attached.
Mr. and Mrs. C. A. Wheatley of
San Antonio, offered the state their
4,778-acre ranch in Blanco County
for a state park. But the condi-
tion was that the state spend \$500,-
000 to make a sure enough park
out of it.
Parks Board members divided.
Harry Hornby, Uvalde publisher,
said yes. He was joined by two
members, but three opposed. So it
was a 3-3 tie.
The Wheatley ranch lies along
the Perdarnales River. It abounds
in wildgame and scenic country for
10 miles along that stream.
Parks Board, fighting a hard
fight with a short stick on money,
just couldn't see how it could pro-
mise to spend \$500,000.

Ozona Group Attends Baptist Girls Aux. Meet In San Antonio

In celebration of the 50th anniversary of the organization of the Girls Auxiliary to the Baptist Woman's Missionary Union of the Southern Baptist Convention, the days of June 26 thru 28 have been set aside for a "Galaxy" to be held in the Municipal auditorium in San Antonio with over 4,200 girls and sponsors expected to be on hand.

Highlights of the meeting will be plays, songs and the meeting of important Baptist workers from all over the state, nation and foreign countries. On Wednesday afternoon in honor of the new state of Hawaii, a Hawaiian style autograph party will be held during which time the girls may obtain autographs of workers and friends who will be present.

Attending from Ozona will be Mrs. Ralph Simon and her daughters Mary and Margaret, Mrs. Buster Loudamy and daughters Beverly and Gloria, Mrs. George Glyn and daughter Bonnie and Jacques Meadows, Nancy Deland and Fannie Everett.

Before the meeting begins, the Ozona group plans to make a visit to the Mexican Baptist Children's Home in San Antonio, a home supported by Southern Baptist Churches.

The number of persons attending the "Galaxy" was curtailed due to shortage of hotel and tourist court space available at this time of year.

Ozona VA Teacher Has Gas Engine Training

Lubbock — A small gas engine short course held at Texas Tech last week drew vocational agriculture instructors from Texas and New Mexico.

The course is being taught by R. C. McWilliams, Briggs and Stratton Corp., and Lewis Eggenberger, assistant professor of agriculture education, to 20 agricultural instructors.

Instructors attending the course include M. A. Barber, vocational ag teacher from Ozona.

FOR SALE — Duplex and garage apartment. Carpet and one side furnished. Located one block south, 1/2 block east of Ford garage in Ozona \$13,900. Write Carl Stevens, Eldorado, Texas. 1-11c

Office Supplies at the Stockman

LETTERS To The Editor:

Dear Editor:

The story of Emerald is true. My father and grandfather, E. C. Moore and W. A. Moore, and John Noyes and Grandfather Benjamin Bean were the first families to build.

There are four children of Ed Moore still living, Clyde Moore of Warren, Ind., Myrtle Moore Gephart of Warren, Ind., Birdie Moore Alexander, Robinson, Illinois, and Arthur M. Moore, Hollansburg, Ohio.

I have seen Ozona in tents and in lime stone. It is a fine city. Schools and roads can not be beat. I have always had a warm feeling for Texas. The people were still old neighbors. I would like to hear from Mrs. H. A. Rosch. I wrote to her but the letter came back. I sent the names to her. I went to school in the tent and the new school house.

They are the good old days we like to think about. I was in Ozona four years ago. I have been taking the Stockman ever since. Been looking for something to turn up.

Arthur M. Moore, Hollansburg, Ohio. (Editor's Note: Mrs. Rosch's San Angelo address is 206 N. Van Buren Street.)

Dual Gas Discovery Assured In Sunray DX Ruby Helbing Test

A dual gas discovery virtually was assured in Crockett County with the flowing of gas from two zones at Sunray DX Oil Co. No. 1 Ruby Helbing in 8-MN-GC&SF 6 1/2 miles south of Ozona and 2 1/2 miles north-northeast of the Hunt-Baggett (Strawn lime gas) field and 3,200-foot (Wichita-Albany) oil production in the Refoil multipay field.

Flowed 19 1/2 hours through a 24-64-inch choke and upper Strawn perforations between 8,446-56 feet, it made gas at the estimated daily rate of 4 million cubic feet daily, plus 300 barrels of acid water. There still are 700 barrels of acid water remaining to be recovered.

Flowed 19 1/2 hours through a 14-64-inch choke and lower Permian Perforations between 3,051-64 feet, it made gas at the estimated daily rate of 200,000 cubic feet daily.

Testing continued.

Film Story Of Holy City, Jerusalem, To Be Shown Here July 3

Evangelist Billy Graham fulfills an ambition of many years as he tells the fascinating story of ancient "Jerusalem" in World Wide Pictures' newest film release.

"Jerusalem" will be shown in Ozona at 7:30 p. m. July 3, in the auditorium at the First Baptist Church.

The City of Jerusalem, for four thousand years the focal point of human history and divine intervention, has been totally destroyed, at least two occasions; has been captured by conquering armies more than thirty times; but has re-built from the rubble of its own ruins to outlive all conquerors, clinging tenaciously to its rocky foundations as if determined to await a future day of glory.

The feature length motion picture, "Jerusalem", was filmed in beautiful 35mm Eastman color by the same Company whose film document of the Graham Team's 1960 African itinerary, "Africa on the Bridge", won the American Film Festival's Golden Reel Award in the "Church At Work" Category. "Jerusalem", an hour-long motion picture, rich in color and the authentic sounds of the Land, is admirably scored with music composed and conducted by Ralph Carmichael.

The film "Jerusalem" is an unforgettable thrill and challenge.

Shallow Wildcat Set On Shannon Estate

Cal-Mon Oil Co., Midland, will drill the No. 1 Shannon estate, a 2,500-foot rotary wildcat, in Crockett County, 25 miles northwest of Ozona and 1 1/2 miles southeast of 2,224-foot San Andres production in the Shannon multipay field.

Location is 330 feet from the north and west lines of the southeast quarter of 23-YZ-EL&RR.

Miss Mary Lou Zunker, a student nurse at Brackenridge Hospital School of Nursing, Austin, Texas, successfully completed the first nine months of the preclinical program and was awarded her cap Sunday June 17, 1962.

Miss Zunker, a graduate of Ozona High School, is the daughter of Lt. Colonel and Mrs. Leroy O. Zunker, 776 Encino Drive, New Braunfels, Texas. Colonel Zunker is a former Commanding Officer at Ozona Air Force Station.

Ozona Girls Return From Paisano Camp

Four Ozona girls and their counselors have returned to Ozona after attending G. A. camp held at Paisano Baptist Encampment near Alpine.

The camp was held from June 18 to 22 with Rev. Bill Perdue of Crane serving as camp Pastor and Mr. and Mrs. L. B. Akins of Taiwan and Japan serving as camp missionaries.

The theme, "To Be Like Jesus" was carried out in the daily devotional, handwork periods, mission study, worship services and recreation periods.

Nearly 200 girls and their counselors from District 7 took part in the camp with the Ozona girls present being Lois Poundexter and Beverly Upham of the Ozona First Baptist and Nora Wagoner and Sallie Sales of Calvary. Mrs. Jack Matthews served as counselor for the Ozona group.

MAKES HONOR ROLL

Jake Young Jr. was on the honor roll at Texas Western for the spring semester having attained a 3.2 grade point average on the twenty-one hours of work carried this spring.

Jake will get his B. S. in business Administration at Texas Western this summer. He is the son of Mr. and Mrs. Jake Young of Ozona.

IRONING WANTED!

Also baby sitting \$1.50 mixed family bundle or \$1.75 if all shirts, pants and large pieces.

Two Ozona Youths Attend S. A. College

San Angelo — George Blackstone, II, son of Mr. and Mrs. Nip Blackstone, Ozona, and Joe McMullan, son of Mrs. Ashby McMullan, Ozona, are among the 296 students attending the summer session at San Angelo College in San Angelo.

Blackstone is a freshman who plans to major in business administration. McMullan, a sophomore,

is majoring in history and government. San Angelo College, a four-year school, has 150 young men and 143 young women enrolled this summer and all indications are that the fall enrollment will gain exceed 1,000 students.

Mr. and Mrs. Dale Booher of York City following a visit with Mrs. Booher's parents, Mr. and Mrs. Roy Thompson of Ozona and Mr. Booher's parents in Wichita Falls.

How the money you save for your family's future can help your country now

Some up-to-date facts about the U.S. Savings Bond way to security

It takes more than arithmetic to add up the benefits you get from U.S. Savings Bonds. You'll have no trouble counting the dollars and cents at 3 1/2% interest, but the other benefits—not so easily counted—are every bit as necessary to your family's future.

One of these benefits is freedom itself.

Every dollar you invest in a Savings Bond gives Uncle Sam exactly that much more help in the vital task of safeguarding liberty today. You not only save money, at the same time you also help save your future freedom to enjoy it.

That's why Bonds are such a sound way today to reach any savings goal. With Bonds, you save for a home and a better world to build it in. With Bonds, you save for your own retirement and the liberty to enjoy it as you choose.

Why not buy a Bond today? All you need is \$18.75 and a little of the "spirit of '76."

Keep freedom in your future with **U.S. SAVINGS BONDS**

The U.S. Government does not pay for this advertisement. The Treasury Department funds The Advertising Council and this newspaper for their patriotic support.

Why buy this Bond? One important reason for buying Savings Bonds today is to help preserve your freedom to own a share in your country.

Communism clamps binders on the mind. One of America's great strengths is our free press. Keep freedom in your future with U.S. Savings Bonds.

This Bel Air Sedan is One of 14 New 1962 Chevrolet Models

A distinctively new styling touch in both the front and rear ends of the 1962 Chevrolets is a sharp departure from the sloping hood formerly used. The Bel Air 4-Door Sedan with twin windshield splits on the hood is one of 14 new standard size passenger cars offered by Chevrolet in '62. The Bel Air models are exquisite, with new luxurious interiors and appointments. A new Chevy II series will also be shown by Chevrolet dealers when the 1962 passenger car lines go on display Sept. 29.

TO BE AN ANNUAL AFFAIR— Pumpville Hobby Club Meets at Ranch Home Of Mrs. Cam Longley

By Mrs. Andy White
The Pumpville Hobby Club held its June Meeting with a barbecue at the lovely ranch home of Mrs. Cam Longley. The hostesses were Mrs. Dewey Word, Mrs. Earl Davenport and Mrs. Newman Billings. The guests were greeted by the hostesses and Mrs. Longley who was seated in the center of the arrangement of chairs on the cool lawn. She made a lovely picture, dressed in blue as she greeted old friends and members of the Hobby Club. Tables were placed under trees decorated with colored Japanese lanterns which cast a soft glow over the tables laden with a typical style western menu consisting of beef and goat barbecue, vegetables, salads, pies and cakes with tea and coffee to drink. Later in the evening the guests were invited into the living room where Mrs. Word and Mrs. Earl Davenport accompanied by Weldon Werneking on the electric guitar, gave many old time favorite songs along with some current ones. This was one of the nicest Hobby Club meetings of the year as some 75 guests got to visit with friends and it was the unanimous opinion of the Hobby Club members that the barbecue should be made an annual affair and Mrs. Longley and Mrs. Word very graciously offered their home for the meeting place. Mrs. Longley's daughter, Mrs. Calvart Curry of Lubbock, arrived just in time for the barbecue and other out of county guests were, Mrs. Andy White's sister, Mrs. Etta Mae Baker and her cousin, Johnny Baxter, a June High School Graduate of Bay City, Texas.

DPS Predicts Eight To Die On Highways In July 4th Holidays

Austin — The Director of the Texas Department of Public Safety reported today that past experience indicates eight persons will be killed in traffic accidents during the coming Fourth of July holiday in Texas. Colonel Homer Garrison, Jr., announced that "Operation Motorcycle" will be in effect from 12:01 a. m. through 11:59 p. m. July 4, and that during this period the regular Highway Patrol force will be joined by units of the License and Weight and Motor Vehicle Inspection services in the general traffic supervision effort. Garrison called for the "cooperation of all Texas drivers to help prove that the estimate of eight traffic deaths compiled by our Statistical Services Section is too high." He continued:

PLAN HOME RITES

Mr. and Mrs. Walter Sparks of Ozona announce the engagement of their daughter, Ora Mae, to Airman 3C Allen Louis King of Ozona Air Force Station. He is the son of Mr. and Mrs. Arthur Louis King of Prescott, Arizona. The couple plan an Ozona home wedding July 21.

Mr. and Mrs. Sid Moughon and family of Gilmer, Texas, and Mr. and Mrs. Alex Ogilvy and children of Odessa have been visiting with Mrs. Moughon's and Mrs. Ogilvy's parents, Mr. and Mrs. Evart White, this week.

HOME - CRAFT Fire Protection Chest

PROTECT YOUR VALUABLE PAPERS FROM FIRE

Your Bonds — Insurance Policies — Notes — Mortgages — Contracts
Income Tax Receipts — Birth Certificate — Discharge Papers —
Leases — Rent Receipts — Your Will — Livestock Registration Papers
Cancelled Checks — Stamp and Coin Collections, and many other things of personal and sentimental value, which would be destroyed (and could not be replaced) if you had a fire. There is one about every 20 seconds.

HOME CRAFT FIRE PROTECTION CHEST

Made of heavy gauge steel inside and out, all electric welded, between these steel walls is 1 1/2 inches of solid Fire Proof Vermiculite Insulation which has over 300,000 tiny air cells to the square inch. It has the universally used tongue and groove principle around the door with 1 1/2-inch fireproof seal completely around it. Outside dimensions 14x11 1/2 x 7 1/2 inches. Inside dimensions 8 1/2 x 11 x 4 1/2 inches. Equipped with heavy standard type key lock, with two keys. Very attractive gray finish.

YOURS FOR ONLY \$19.95

Everyone Can Afford This New FIRE PROTECTION CHEST at Such a Low Price —

Election —

(Continued from Page One)

Although no commitments have been made, the school board is eyeing residential property now for sale which might be suitable for a home for the superintendent. The final determination of whether to buy or build will be made by the board if and when the bonds are approved by the voters.

The new administration building, if the bonds are approved, will be constructed next to the gym with an alleyway left between. Space between the new building and the H. E. building to the south will be available for any future building needs.

The proposed new bond issue will be paid off in six years, the bonds to be issued serially, \$5,000 due in 1965, \$10,000 each in 1964, 1965, 1966 and 1967 and another \$5,000 in 1968. They are to bear interest at a rate not to exceed 3 percent, according to the election call. Approval of the bonds will not increase the tax rate.

With a county valuation of nearly 32 million dollars, the school district's present unpaid bonded indebtedness will be only \$130,500 in September of this year. The district's bonded indebtedness has been reduced from \$686,000 in 1958 to that amount. The last building bond issue was approved by voters in 1956, for \$200,000, used for construction of 18 teacher housing units and a cafeteria at the South Elementary School.

Voters may vote absentee on the bond issue through Tuesday, July 2.

(Continued from Page One)

I sat like scientists in Bloomfield actually pined a panel of people against a panel of rats, in button-pushing tests. The people pushed buttons for pennies, when certain lights flashed. The rats did the same, except they were working for water.

"Let them go thirsty!" Pearl said. "Never lead a rat to water."

"It was amazing," I said. "In less than twenty hours, a rat can learn to get a drink by waiting until the light flashes, then hitting lever A six times and lever B once. The scientists found that rats can keep track of time intervals, and make tallies just as accurately as people."

"Stop the rat!" Pearl roared. "Let me see, before I bust my four stitches."

"What's the matter with you?" I asked.

"What's the matter? Why, when I have been working my arse to the bone to feed my children, you people start releasing rats! What

HE DIDN'T GET THE MESSAGE

a foolhardy move! Not all the rats are in Russia, you know — we have many rats right here at home, eager to take over. You'll be sorry."

I tried to change the subject. Barry, the Welsh Corgi, has had a fungus infection on his left front foot. Pearl is quite fond of Barry.

"By the way," I said. "You'll be sorry to hear that Barry's paw has taken a turn for the worse." But she snorted derisively. "That shows what you people know about time intervals!" she said. "Barry told me his Paw has been dead for at least three years — died of a distemper."

I never did get around to telling Pearl that her Operation cost me fifteen dollars.

Golf Tourney —

(Continued from Page One)

Angelo.

A-1 reached the finals by downing Tommy Hay of Ozona in the second round and Rusty Horton of San Angelo in the first round.

Consolation honors in the first flight went to J. W. Nevill of San Antonio with Charlie Taylor of Ozona. In that second flight Jim Hay, a golfer from Dallas, won first place, posting a 37 in beating O. G. Hubbschler, who picked up the runner-up honors. In the consolation play, Jerry Hayes of Ozona shot a 37 in the final round to defeat Bud Helm of Del Rio.

In the third flight, Ross Hardin of McCamey defeated Pete Jacoby

of Ozona by one stroke. Hardin reached the finals with wins in the first round over W. W. Ramirez of San Antonio and in the second round over Rusty Horton of Ozona.

Consolation honors went to Jim Dudley of Ozona who posted a three stroke win over Richard Beuchert of Del Rio.

Fourth flight title went to Warren Tallaferra of Ozona who edged Vic Montgomery in a playoff after both posted 41 in the final round. Consolation in the fourth flight went to C. J. Ashcraft of Big Lake who had to go extra holes to down Billy Van Dusen of Eldorado. Both golfers posted a 44 in the final round.

In still another tie, J. L. Alexander of Ft. Worth defeated Vernon Rodgers of Eldorado in a playoff after both golfers came in off the final nine with 44's. Consolation title went to Bill Schneemann of Big Lake who defeated Rusty Jenkins by one stroke. Schneemann came in with a 45.

In the sixth and final flight, J. E. Hightshier of Del Rio, New Mexico, defeated Brent Stuart of Ozona for the title and Brent Clayton took consolation honors by downing Japan Perini of Big Lake.

In partnership play Saturday, Ted Wright of Midland and partner Tony White of Big Lake won the low ball play with a 88 while Wright posted a three under par, 88 to win the medal play for the day.

O. B. Poole, Jr. and Gloria Taylor, both of Del Rio, were runners

up in the low ball score for the day.

One of the largest turnouts so far in the Invitational tourney history showed up for the fellowship and barbecue Saturday night.

Foy Fanning of Abilene did an excellent job of starting the field of 112 golfers. The six flights plus championship had been set up as the maximum number and the card was filled Wednesday night with a number of golfers having to be turned down.

LAMB RECIPES

EASY LAMB LOAF (8 servings)

- 2 cups soft bread crumbs
- 1/2 cup milk
- 2 eggs slightly beaten
- 1 medium size onion
- 1 can pimientos chopped
- 1 cup drained sweet pickles relish
- 1 1/2 pounds ground lamb
- 2 tsp salt

Combine all ingredients. Mix well. Press into greased 9x5x3 inch loaf pan. Bake in moderate (375) oven 1 hour. Drain off drippings. Turn out on serving platter. Garnish.

Good served with whipped potatoes, broccoli with cheese sauce, pineapple salad.

GLYNN'S EL PASO SERVICE

At last! From Arkla-Servel comes a GAS heating and air conditioning unit that's really new... converts an ounce of GAS into more than enough heating and cooling to slug it out with Summer heat and Winter cold and never yield a degree... laughs at repair and utility bills, because it has NO MOVING PARTS in the heating and cooling cycle... wrings out, sifts and cools or heats to just the temperature that suits you... leaves dust and pollen outside to irritate the bees... operates like a coffee percolator and who ever heard of a coffee percolator wearing out?

If spending a penny to get 2c worth of heating and cooling makes sense to you, then call us for further information about the Arkla-Servel Sun Valley® All-Year® GAS air conditioner.

Let us give you a FREE National Gas Company

WEST TEXAS BANK GAINS SHOW WEST TEXAS GROWTH

For months West Texas Utilities Company has talked about this area's fast growth and about our expansion to keep pace with its growth. Recent reports of big gains by West Texas banks are further evidence of this growth. Such facts strengthen our conviction that the area faces GROWTH UNLIMITED. Our expansion plans are based on this belief. They are designed to enable us to serve more people, more business, more industries in the growing Center of the Southwest.
