13-Minute Grand Jury Session Is Believed Record

Investigators Find No Business From Law-Abiding Crockett

Thirteen minutes from the time the last "O Yez" had died on the crisp atmosphere of the town square Monday morning, a grand jury had been impaneled by Judge W. C. Jackson to open the April term of District Court, the grand jury had met, organized, made its findings, reported to the court and received his dismissal with thanks.

Quote District Attorney Weaver Baker, that means either one of two things—that Crockett county has the most law-abiding citizenry or it has the poorest group of law enforcement officers—and quickly pointed to the first as his and the general opinion as the reason for record in brevity in grand jury proceedings. No law violations other than those involving minor infractions, which were disposed of by fines in justice court, had been recorded since the last term of the court.

There being no criminal cases up for consideration and no civil matters in which either side demanded a jury, the petit jury panel, sum-

New District Takes Over Operation As Of April First

Formal conclusion of transfer of properties of the Ozona Water Works to the newly created Crockett County Water Control and Improvement District No. 1 was effected here Friday afternoon when deed to the property was given by Judge C. E. Davidson for the water company and received by directors of the district. Payment of \$50,000 was made for the property.

Transfer of the property was made as of April 1. Accounts of the old company up to that date will be handled at the Davidson and Smith offices.

The system in its present form will be operated until such time as the contemplated improvements and expansion can get under way, it was announced by Joe North, president of the board of directors.

A fund of \$25,000, balance of a bond issue of \$75,000, approved by the voters to purchase and improve the water system, will be available for necessary preliminary improvements of the system. Among the first steps to be taken is the drilling of a ten-inch well and installation of modern electric pumping equipment if sufficient volume of water can be found.

Voters Re-Name Members School Board To Posts

Perner, Carson, Cox Elected Over Opposition Ticket

A campaign which did not materialize until election day brought spirited voting Saturday in the election for trustees of the Crockett County common school district board, resulting in a total of 127 votes cast and re-election by substantial majorities of the three members of the present board whose terms had expired.

Despite the fact that there were no avowed seekers after the offices and voters were handed blank ballots, campaign methods peculiar to this community or an unusual voluntary surge of interest in the balloting brought out a vote of 127, something of a record for recent years in trustee elections.

Elected by majorities of nearly two to one over three candidates apparently settled on by an opposition group were the present members of the board, Paul Perner, Ira Carson and Bascomb Cox. Candidates advanced by the voters as an opposition ticket were T. A. Kincaid, Jr., R. L. Flowers and Alvin Harrell. Paul Perner topped the vote with a total of 78. Ira Carson was second with 76 and Bascomb Cox third with 61. Flowers polled 36, Harrell 35 and Kincaid 33. Five votes were cast for Doug Kirby.

In the election for two members of the county board, C. C. Montgomery, trustee at large, and W. R. Baggett, members of the county board, were re-elected easily. Montgomery with 93 votes and Baggett with 96.

Rotary Comes To Ozona

With the charter presentation at the charter night banquet next Saturday evening, the fledgling Ozona Rotary Club will attain its majority among the more than 5,000 Rotary clubs with a combined membership of more than 210,000 business and professional men scattered throughout the world in more than 70 countries, or geographic regions of the world.

The ideals and aims of Rotary are adaptable to any community large or small, but perhaps there never was a Rotary or any other service organization formed that is more genuinely needed than this one to come into full and official being next Saturday night. Ozona has felt the need of an organization of its men, and the men themselves have felt that need, not only from the standpoint of community need but from their own viewpoint—that desire to become better acquainted with their fellow citizens, to know better their aims and ambitions and ideas, and to weld a closer knit community for the common good of all of us. It

is the fervent hope of every man in the organization that this movement, started on a firm foundation of determination to carry on, will serve the urgent need of this community for an organization of its kind.

The ideal of service, which is the basis of Rotary, is thoughtfulness and helpfulness to others in business and community life. Rotary's potentialities for the application of the ideal of service point in four directions and are embodied in its four objects which have been translated into the languages and lives of men in more than 70 different regions of the world. These four objects are:

- 1. To encourage and foster the ideal of service as a basis of worthy enterprise and, in particular, to encourage and foster:
1. The development of acquaintance as an opportunity for service;
2. High ethical standards in business and professions; the recognition of the worthiness of all useful occupations; and the dignifying by each Rotarian of his occupation as an opportunity to serve society;
3. The application of the ideal of service by every Rotarian to his personal, business, and community life;
4. The advancement of international understanding, good will, and peace through a world fellowship of business and professional men united in the ideal of service.

The Newspapermen Know

It is significant that one of the greatest waves of applause at the President's recent speech before the White House Correspondents' Associations came when he said that unnecessary strikes cannot be tolerated.

The Washington newspapermen know better than any other group to what extent labor racketeering has been interfering with the defense program. They know that the total defense we are after can never be attained so long as a few unscrupulous labor leaders seem to have no other ambition than to exploit the emergency to the limit.

Honest labor should keep this in mind. The man who delays defense through an unjustified

WELL, it's longer going downhill than up, longer going slow than fast—but the important new discovery of the year (or since Buick's Compound Carburetion* appeared) is that it's longer when you have two carburetors teamed like Buick's than when you have one!

Here's why:

In easy going like most of your travel, just one of Buick's smaller-than-usual carburetors thrifly handles all engine requirements.

Only when you want extra power does the second carburetor come in.

Then, momentarily, it adds extra fuel and extra power *only while it's needed.*

Result is that carburetion is *always* fitted to your driving need.

You're never driving with a carburetor that's bigger than you need for low-range travel, or one that's too small for top-range performance.

Now the net result is that the same-size engines give up as much as 10% to 15% more miles-per-gallon than last year.

And that's a handsome saving—mighty handsome in a car big and roomy and smart as a Buick.

Look over the next Buick that passes you—or better yet, go trial-drive one—and see if you don't agree. *Optional equipment on the Buick SPECIAL, standard on all other models.

Value Of Chritian Leadership Stressed In Birthday Services

Forty-nine years of development in Christian leadership, continuing the ministry of Christ and the value of the church in today's mad world were outstanding among the themes developed by visiting ministers during the series of services at the local Baptist Church last week-end in observance of the church's 49th anniversary.

Opening the series of services Wednesday evening was the Rev. Cecil Goff of Iraan, substituting for the Rev. J. A. Kidd of Alpine, who was ill. Rev. Goff developed the theme of the continuing ministry of Christ and the need for continued emphasis on His teachings. Rev. A. J. Carson of Kerrville, former pastor, outlined the church's position in the present world crisis, and opportunities for church people in righting the world's wrong. Rev. M. M. Fulmer, another former pastor and Friday evening's speaker, spoke on "Freedom is a Hard Bought Thing." Dr. Thomas H. Taylor, president of Howard Payne College in Brownwood, spoke Sunday morning on the value of the church and the Christian religion to the community and Sunday evening on Christian education.

The University of Texas is currently sponsoring a conference on "Education of Youth for American citizenship."

IF YOU LIVE IN *West Texas* YOU'RE IN THE OIL BUSINESS

I am a rancher who knows what oil means to West Texas.

Each year, West Texas ranchers and farmers get from the oil man nearly 27 cents extra for every dollar we receive for our livestock and crops. Over 12 million acres of West Texas land are now under lease and nearly one million already produce oil. Our income from this source alone amounts to 28 million dollars a year.

Over 50,000 West Texans, including oil workers and their families, get their entire living from oil. The wage earners of this group are paid 16 million dollars a year. Tax collectors receive an additional 10 millions. All told, this industry pays out 86 million dollars a year in West Texas.

This money is spent and respent until every merchant and business and professional man . . . in fact everyone . . . in our section gets his share of it.

Every West Texan has an important stake in the oil industry and its future in Texas.

THE RECORD . . . Facts That Concern You No. 2, of a Series

ARE YOU SEEING ONLY PART OF THE PICTURE?

The great majority of beer retail establishments are clean wholesome places.

Yet it is the once-in-a-while exception—the anti-social, law-violating tavern that everybody notices.

Such undesirable retailers give beer a bad name it doesn't deserve. Furthermore, by arousing public indignation, retailing abuses endanger your right to enjoy good beer, the beverage of moderation. They also endanger the benefits that beer has brought to Texas—31,165 persons employed since re-legalization, an annual payroll of \$22,076,182 and \$2,273,968.64 taxes paid last year.

While it is the brewers' responsibility to brew good beer and the retailers' responsibility to sell it under wholesome conditions, nevertheless the brewing industry wants anti-social retailing eliminated entirely.

You can help us by (1) patronizing only the legal and reputable places where beer is sold and (2) by reporting any law violations you may observe to the duly constituted law enforcement authorities.

"He Profits Most Who Serves Best"

Right now more is being said about American traditions and American ideals than ever before in the history of our Nation. The devastating conflict in the Old World brings us to a closer realization of the freedom and benefits under which we live and do business in the U. S. A.

America is a rich and versatile empire. It was founded upon the principles of right, honor and justice, and its traditions of achievement through sacrifice are firmly implanted in the hearts and minds of our citizens of today.

Many factors have contributed to the elevation and progress of the American people. Faith in our institutions, a Christian consciousness and a willingness on the part of every individual citizen to incur sacrifice that we may have better schools, better churches, better government, and better social and fraternal advantages is a distinct American trait.

Civic organizations, whose memberships are usually composed of outstanding citizens in their respective communities, are among America's best assets. Their influence in promoting good will, building character, abolishing factionalism, and bringing together in amity the problems of community life and expansion, are contributions to social progress. The ability to lay down individual greed for the promotion of community interest is our answer to the dictator's challenge to democracy. The Rotarian's creed of "Service Above Self" and "He Profits Most Who Serves Best" is truly an inspiring purpose for living.

Best Wishes and Success to the New Ozona Rotary Club

Organization Of Ozona Rotary Club Hailed By Business Men As Community Advancement

Voicing whole-hearted approval and support of the newly organized Ozona Rotary Club, local merchants and businessmen are expecting it to be an important factor in the advancement of community interests and in the stimulation of civic affairs. The full page advertisement appearing in this week's issue of the Stockman is a striking testimonial of the warm welcome with which Ozona business houses are greeting their fellow Rotarians.

A complete survey and recording of public opinion in regard to the newly launched Rotary Club reveals not a dissenting voice as to its purposeful and prospective value to the community. To a man, business leaders here acclaim it a worthwhile asset to Ozona and stress the long-felt need for just such an organization. One merchant declared that the town's

greatest need in the past has been a civic club for men. Another stated that in securing a Rotary Club charter, Ozona places itself in a class with much larger towns and cities. One merchant even went so far as to say that he believed the constructive work which could be accomplished by this Rotary Club would surpass anything that could be expected from a Chamber of Commerce or the like.

at a luncheon today to be given by Mrs. Carl Colwick for members of the local working committee. A quota of \$50 has been set for this county, with enlistments at \$1 or more.

This April marks the fifth national campaign against cancer. The month has been designated Cancer Control month and agencies of public enlightenment, radio, newspapers and magazines unite with volunteer workers of the cancer movement in a great national effort to save lives from this disease.

During April, as well as conducting an educational campaign, the Army enlists volunteers at \$1 each man and woman who wishes to join the movement. These soldiers of the army to save lives receive literature and valuable information which it is hoped they will pass on to their friends, thus spreading knowledge of cancer. Seventy cents of each \$1 fee goes to cancer educational efforts in the state and 30 cents to the national campaign.

Enlistments may be made with any of the following committee members or with Lowell Littleton at the Ozona National Bank: Mrs. Lowell Littleton, Mrs. Joe Oberkamp, Mrs. Victor Pierce, Mrs. Johnnie Henderson, Mrs. Evert White, Mrs. W. E. Friend, Jr., Mrs. Hillery Phillips, Mrs. Rex Russell, Mrs. Stephen Perner, Mrs. George Bean, Mrs. J. S. Whatley, Mrs. Alvin Harrell, Mrs. B. B. Ingham, Mrs. P. T.
