Even today, \$28,000,000 is a lot of money. But a survey shows that this vast amount has been spent recently for construction of new industrial plants in our service area, and for expansion of existing ones.

The figure is evidence of two things. One is that our service area is becoming more and more industrialized. The other is that when we say "The Center of the Southwest" is one of the Nation's fastest growing regions, we have the facts to back it up.

The industrial figure is one fact. The commercial and civic improve-ment figures are others. Day by day we become more than ever convinced that this region faces growth unlimited.

... more proof that the Center of the Southwest is one of the Nation's

astast growing region

they are so huge that they dwarf the work of man into total insignificance.

It is good to lie down on the grass and look up into the sky. Your mind starts to wander

You don't have to see God either, to know that He's there - though some people seem to feel it's something that has to be proved. They couldn't be more wrong. God's evidence is everywhere. Just walk into a church on Sunday and sit down and listen awhile, and then you will know for sure.

#### THE CHURCH FOR ALL . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regu-

The words from the song, Oh What A Beautiful Morning, from the musical "Oklahoma," inspired this picture taken at Six Flags Over Texas. At Fort St. Louis in the French section of the famous family fun land midway between Fort Worth and Dallas, corn and vegetables are grown just ar were cultivated in the early days to field the inhabitants. Now the corn — not the stalks — is as high as an elephant's eye, but baby elephant Sis Flagg and Hostess Mona Freeman are somewhat skeptical as to whether the Texas corn will "climb clear up to the sky," as it does in the famous song from the popular Rodgers and Hammerstein show, "Oklahoma."
