Johnson welcomes Jack Daniels back to the Home following his recent appointment as chaplain. In his first sermon Rev. Daniels told the children he can understand their feelings well because he has been on both sides of the Methodist Home pulpit. Rev. Daniels felt his call to the ministry while growing up in the Christian atmosphere of the Home. His good record in public school and at the Home helped him earn an Albaugh Scholarship for his

or's degree.

Daniels worked his way through theological school as a Acv. Daniels worked his way through theological school as a student pastor. After graduation he served Methodist churches in the Central Texas Conference for seven years preceding his appointment to the Methodist Home. He will guide a program of bible study for the children, supervise daily devotional services in each Home unit and hold regular services in the chapel. As the children's pastor Rev. Daniels will offer experienced counsel in helping solve problems of faith and life.

The Methodist Home serves both Texas and New Mexico and since its founding 74 years ago has cared for over 8,700 children orphaned by death and human failings.

What do you see here? Figures of statuary? A symbol of religion? A monument to the Master? Look with your heart and you'll see something else. You'll see the soul of the sculptor.

A man mightily inspired — who wanted with his talents to worship Christ — who took stone and chisel and hammer . . . and all the strength of his body . . . and all the faith of his heart. He said to the world with his Art-Words that which he could never have spoken with his lips nor written with his pen.

For twenty centuries Jesus, the Saviour, has inspired our best. In the annals of mankind a million thrilling breakthroughs in human achievement have been dedicated to His service.

So never pass the humblest creation of sacred art — not even the crayoned Bible-picture of a child without remembering that you too have a soul. And talents to give your God!

HIGHLIGHTS AND SIDELIGHTS From State Capitol

Austin, Texas - For the first time in history, Texas Republicans will have on opportunity to express their preferences for the GOP presidential nomination in a statewide straw poll.

Republican Executive Commit-tee voted to hold the presidential referendum on the May 2 primary ballot. The opinion sampling has no binding efect. Principal purpose is to boost the stock of Goldwater and to lure restless conservative Democrats into the GOP primary.

Democratic Executive Committee offered no special voter bonus to keep their own partisens in the fold.

Leader of both parties, in simultaneous meetings in Austin, declined to submit requested referendums on sale of liquor by the drink and curtailment of Mexican national's commuting to jobs in Texas.

Names of Goldwater, Nelson Rockefeller, Margaret Chase Smith and Harold Stassen will appear on the GOP ballot. Originally the names of Richard Nixon, William Scranton, George Romney and Henry Cabot Lodge were inhe already had announced.

PATTERNS FOR PROGRESS

WTU is proud to be a part of your community

NATURAL RESOURCES

. basic factor in economic development

Many industries are established close to natural resources. One is pictured above — the Bestwall Gypsum Company near Quanah, where gypsum wall board and allied products are made. It is near Quanah because of large gypsum deposits there, and is a perfect illustration of the economic value of a natural resource to a community.

Employing 200 people, it adds payrolls, increases consumer sales, builds deposits in banks such as the one pictured left, and is a major factor in the Quanah economy.

This is a PATTERN FOR PROGRESS.

It is because here is a manufacturer using a natural resource. National studies show that each 100 new factory workers in a community increase local personal income by \$660,000, bank deposits by \$229,000, and create 65 new nonmanufacturing jobs, besides increasing all types of consumer sales.

The manufacture of natural resources pays big profits to a community, and almost every community has natural resources subject to development. WTU urges every community to assess and evaluate its own natural resources as a basic step in economic development.

Smart as a station wagon inside—and as comfortable! And wait till you try Ford's new longwheelbase ride!

From the sharp way it looks and handles, you might call our '64 F-100 Styleside an "uncovered wagon." When you see what a 128-in. wheelbase does for riding comfort, you'll want to call it yours!

In back, you'll find a strong new box with onehand tailgate. Underneath, big-truck muscle for extra durability. Come look it over, all
