Ozona Man Arrested On Marijuana Sale Charge

Investigation which said had been under way since February of last year, resulted Saturday in the arrest in San Antonio of a 46-year-old Ozona man by state narcotics agents. Sheriff Billy Mills of San Angelo police department arrested the man at county — and the man was held in jail pending further investigation.

BULLETIN!
Sheriff Billy Mills announced yesterday that a second suspect in the alleged marijuana trafficking here had been arrested and is being held in jail at San Angelo pending further investigation.

Officers here, assisted by the San Angelo officers and narcotics agents, continued late in the week their search for the source of the marijuana weed which officers seized in the arrest of Joe Arredondo in San Angelo. No announcement of their progress was made but it is believed that valuable information is being assembled which may lead to other arrests.

Fem Softballers Take 2 In Row For 4th Straight

The Ozona Women's softball team went on a scoring binge this week when they walloped Sanderson 16 to 5 here last Saturday night, and then traveled to Junction, where they belted the Junction Dizzy Dames 26 to 10 Tuesday night.

In the Sanderson contest, Brenda Brown collected four hits in as many trips to the plate and Peggy Williams had a 3 for 3 night to lead Ozona's attack.

Willena Holden started for Ozona on the mound and was relieved by Marsha Haire. Allena Hokit and Pauline Maness did the catching.

In the Tuesday night contest, the Ozona girls left Junction even dizzier than before the game as they galloped around the bases to score 26 runs, not counting a number of other runners who did not make it all the way to home plate.

Velma Cook, with a 4 for 5 night at the plate, and Mary Stroope, who had three hits in six trips, led the Ozona attack against Junction pitcher, Mary Taylor.

Marsha Haire went the distance for Ozona pitching and Allena Hokit was the catcher.

The two wins following two victories last week gave the locals a 4 won and 1 lost record as they face Big Lake in Big Lake tonight with a return game slated for Ozona July 21st.

Williams Attends W.T.C.C. Meeting

Troy Williams, president of the local Chamber of Commerce attended a Board of Directors meeting of the West Texas Chamber of Commerce in Lubbock July 8-9. Mr. Williams was recently appointed to a position on the board by Beeman Fisher, president of the Chamber group.

Committee reports were given in the field of Agriculture, Education, National Affairs, Oil & Gas, Tourist Development, and Water Resources. A report was also given on the Program of Work and Finance and Membership.

Other local members of the West Texas Chamber of Commerce are: Crockett County Water Control, West Texas Utilities and Ozona National Bank.

Moe Barbee

Moe Barbee Gets Lone Star Award In San Antonio

The highest degree that be earned by an FFA member in Texas will be awarded Moe Barbee, son of Mr. and Mrs. Beal Barbee, tonight in San Antonio. Only 2% of the FFA membership in Texas may receive this award each year. Membership in Texas totals some 40,000 boys.

The awards banquet will be held as a part of the three-day 36th annual State FFA Convention. For this honor Moe was selected on the basis of his project program, leadership ability in the FFA, participation in contests, co-operation in the total high school program.

For the project program, Moe has had cattle for calf production, range goats for kid production, range ewes for lamb and wool production. At the commercial show in Ozona he has had champions in the goat and lamb show each of the three years he has fed.

The past year Moe served as vice-president of the local FFA chapter, president of the Concho District and was elected to serve this next school year as vice-president of the Area II association, which includes some 35 West Texas high school departments. This week he is on the program at the state convention to help carry on the duties of the state Association.

In the contest work of the Ozona FFA department, Moe has entered range contest, plant identification, wool grading and judging, mohair grading and judging, and this year was on the livestock team that participated in the State finals at Texas A&M University. Each year he has worked on a leadership team and this past school year was on a second place radio team in the district contest.

In the FFA program at Ozona he has served on a number of committees, been a class officer, served on the student council and has represented Ozona at a number of workshops. He has just recently returned from a 22-day FFA people-to-people tour to Europe with a delegation from the Texas Association.

The voting delegate for the Ozona FFA chapter at the convention is Jerry Johnson, son of Mr. and Mrs. E. E. Johnson, M. A. Barber, vocational ag. teacher and FFA sponsor, is attending the convention with the Ozona boys. The convention ends Friday afternoon.

Concentrated fly Drop After New Screworm Cases

An outbreak of screwworms in Crockett county, in the immediate Ozona area, has prompted screwworm eradication officials to order a concentrated drop of sterile flies over a grid 160 miles long and 60 miles wide through this area. County Agent Pete Jacoby was informed this week by Dr. Dale Crawford, Del Rio veterinarian and in charge of the survey program in this area.

Latest outbreaks of screwworms occurred around July 1 on the Chas. E. Davidson, III, ranch 7 miles east of Ozona, where two cases in sheep were found; on Bill Hemphill's place 5 miles south of Ozona, where three cases in sheep were discovered and on the George Bunker, Jr., ranch 12 miles west of Ozona, with one case found in a horse.

The last appearance of screwworms in this county was on May 11, on the Troy Williams ranch, and on May 1 on the P. C. Permer ranch.

Dr. Crawford notified Mr. Jacoby that a grid has been set up extending from 6 miles west of Sonora to 32 miles west of Fort Stockton and the north-south limits are 6 miles north of Juno to 3 miles south of Big Lake.

"We are putting 4,096,000 flies in this area per week," Dr. Crawford wrote. "In addition to this we will treat each screwworm case with 100,000 additional flies per week for three consecutive weeks."

"We plan to continue this drop until the cases are under control or subside in the above mentioned area." (Continued on Page Six)

Pools Open Two Nights Weekly For Night Swimmers

The Ozona swimming pools had favorable response from swimmers last week, when the North and South pools were open from 7 to 9 p.m.

Last Friday the North pool reported about 60 swimmers in for the night session even though cool breezes sent a number of them scurrying for cover before long.

Operators indicated that the pools would be open on Tuesday and Friday nights as long as swimmers are willing to attend in good numbers.

The recent streak of hot weather has brought large numbers of swimmers to the afternoon sessions.

Fred Hickman and Hack Leath are operating the north pool while Charles Womack and Walter Black have been operating the south pool.

Welcome Mat Out For Visitors to Ozona's 7th Annual Junior Rodeo

New Committee Named By Court On Civic Center

With proceeds from the sale of the \$125,000 bond issue in the bank, the Crockett County Commissioners Court moved ponderously this week toward realization of the goal of backers of the project — the construction of a civic center for community use in public gatherings, conventions, entertainments and club and group meetings.

The court named a committee which it called a building committee to assist and advise the court in the planning and construction of the building.

This committee is composed of Joe Couch, Mrs. Joe Bean, Nat Read, Kirby Moore, Sam Martinez, Mrs. L. D. Kirby and Mrs. Leonard Boyd. A meeting has been called by the court with this committee for 2 p. m. Tuesday, July 21, when the court and the committee will discuss plan for the proposed building, the employment of an architect and other procedures looking toward completion of the building.

Two out of the seven members of the newly appointed committee served on the original representative committee named last December by the Chamber of Commerce, and composed of a representative from most of the organized clubs and groups in the city. Joe Couch and Mrs. Leonard Boyd were members of that committee which studied civic center plans and enlisted the free services of Architect Jack McDermitt of San Angelo to draw floor plans and elevations and make cost estimates which were finally approved by the committee and presented as the basis for its request for the bond issue.

Chairman of the committee which initiated the civic center plan was Mrs. Boyd Baker. Other members were Mrs. Max Schneemann, of the Ozona Garden Club; Mrs. O. D. West, Ozona W.O. (Continued on Last Page)

Cheryl Clayton To Be Honored At C of C Reception

Miss Cheryl Clayton, first alternate Miss Wool of Texas, will be honored at a reception by the Ozona Chamber of Commerce at the C of C building Saturday morning from 9:30 to 11 o'clock.

Miss Clayton, daughter of Mr. and Mrs. Joe Clayton of Ozona, was runner-up to Miss Lynda Allen of Sterling City, the Miss Wool of Texas selection at the recent pageant in Odessa.

The Chamber reception will give Ozonans an opportunity to meet this community's contribution of beauty, talent and personality to the statewide industry promotion program. Everybody is urged to make the reception their morning's coffee break.

Miss Clayton is spending the summer at home before returning to Southern Methodist University in Dallas in the fall where she will be a sophomore.

Season Title To Ozona Oilers By Playoff Victory

The Ozona Oilers pushed across one run in the fifth inning Monday night to win a 4 to 3 victory over Moore Oil and thereby capture the Little League title for 1964.

A walk to David Huff and a double to the opposite field by brother Donald accounted for the lone run off losing pitcher, Walter Higginbottom, who came on in the bottom of the fourth inning after Arturo Torres pitched the first three frames.

David Huff went the route for the winners and gave up but three hits but several walks, some alert base running by the Oilers and an error gave the Green team three runs.

Moore went ahead in the first frame when Walter Higginbottom lined a single to center to lead off. After two were out, Arturo Torres drew a walk and then with Torres on first and Higginbottom on third the two pulled a double steal that caught the Ozona Oil team asleep and accounted for one run.

Ozona Oil tied the count in the second inning without a hit. John Bland hit a sharp grounder down the first base line that the first baseman failed to handle. (Continued on Last Page)

Armstrong And Wright top Team In Ozona Tourney

Ted Wright of Midland and Boots Armstrong of Big Lake, both veterans of many tournaments in Ozona, fired a sizzling 8 under par 27 holes Sunday to take the championship of the first Ozona Invitational Country Club partnership tournament.

The Sunday victory gave the Wright - Armstrong combination a clean sweep of the two days play, since they shot a 66 Saturday to edge Art Kyle and Art Kyle Jr., who posted a 67 in A flight low ball play.

Craig Adams and Brooks Dozier, who lost a playoff to Kyle and Kyle for runner up honors in the A flight Saturday, downed Tommy Knight and Bill Joe Mullins of San Angelo in a two-hole playoff for the runner up honors in the Championship flight Sunday.

Adams of McCamey and Dozier of Ozona posted a 102, six strokes under Sunday to get the tie, then edged the San Angelo pair on the second hole in a sudden death playoff. (Continued on Last Page)

like will have further entertainment each night at 10:30 p. m. when a dance will be held on the slab adjacent to the rodeo stadium in the Fair Grounds. Music for the dances will be furnished by the Rocksprings Playboys who have been furnishing music for the dances for the past five or six years.

The AJRA approved rodeo will have events for three age groups, with boys and girls events in each age bracket and rodeo chairman Oscar Kost indicated that entrance applications were being received at a fast pace early this week.

It was also announced this week that the Deason Shows will be on the Fair grounds in connection with the rodeo and under the sponsorship of the Lions Club.

During the week many business firms had their buildings decorated with bunting to Welcome the influx of visitors expected in town for the rodeo over the weekend.

In order to combat dust, the arena and the parking areas were to be watered this week. The watering will also improve the footing for animals and riders.

The rodeo is expected to draw many of the top Junior performers from all over the area, among whom are a number of fine local performers.

The parade will offer a number of attractions in addition to the riders. Miss Robin Jones, reigning Queen of the Ozona Junior Rodeo, will lead the candidates for this year's title and in addition there will be Miss Janet Ward of Del Rio, representing the Mohair Industry; Miss Amy Harper, Miss AJRA of 1964, and also Miss Sand Hills Rodeo from Marfa; Miss Cheryl Clayton, first alternate to Miss Wool of Texas; the Ozona Lions Club Sweetheart Miss Vicki Applewhite and a number of colorful floats.

Contestants will, in addition to the three nights of the show, be scheduled for all additional time needed Friday morning when it is hoped that ad of the slack time can be taken care of.

The rodeo is one of the principal fund raising projects of the Ozona Lions Club and profits, if any, are used in the Club's civic projects.

Ozona Reservists Included In Call To Active Duty

Officers and Airmen of the 9413th Air Force Reserve Recovery Squadron at Mathis Field have been called to active duty for 15 days. A total of 64 men will begin the third active duty tour on July 19th since their activation in 1961.

Included in the group that will report for duty Sunday are the following Ozona men: M-Sgt. Charlie Fuantoz, T-Sgt. Napoleon Vitela, S-Sgt. W. B. Lewis, and S-Sgt. Jesus Castro.

Lt. Col. Elmer C. Dendie, Commander, stated that the tour will be utilized for continuous training in the recovery mission. An exercise is scheduled to test the effectiveness of the group under field conditions with the tests being monitored by staff members of the 8507 Air Force Group

THE ROAD TO ANARCHY

California's Representative Craig Hosmer makes the timely observation that the Civil Rights law "is only one of thousands of the laws of our land," and calls for vigorous enforcement of all laws, the protection of the rights of the majority as well as those of the minority, including protection against the acts of criminals.

"I therefore call upon the President, the Attorney General and all the state and local law enforcement officers for the equal enforcement of the law," declared Mr. Hosmer in extended remarks in the Congressional Record, "for the relentless pursuit of all criminal offenders, irrespective of race, color, creed or other irrelevant considerations. I demand that the American citizen's right to protection against criminal acts be held in greater dignity than the criminal's opportunities to avoid punishment for his crimes."

The Congressman noted a steady decline in effective law enforcement, and a sharp rise in serious crimes. He charged the Supreme Court with hampering enforcement and "a philosophy holding the criminal's so-called right to a fair trial more dear than the honest citizen's right not to be the criminal's victim." He also charged the President and the Attorney General with a part of the responsibility.

"Although it has not been their intention to do so," said the California Congressman, "the constantly publicized zeal of these highest officials in our land in the matter of Civil Rights laws unfortunately has given the impression that obedience to other laws is, somehow, less necessary and important. That use of law enforcement resources in instances when a 'cause' is involved has priority over their use when only ordinary law-abiding citizens are concerned."

Mr. Hosmer called attention to recent events "in the forests of Mississippi and the jungles of New York City," the disappear-

ance of the three Civil Rights workers in Mississippi; the maiming and terrorizing of New York subway riders by lawless gangs and the murder of New Yorkers in the streets and in apartment house elevators. He noted the mobilization of Federal agents in Mississippi, the lack of "similar action" in New York City.

"Is an American's life," he asks, "less precious, less to be protected, in New York than in Mississippi? Is an American's right not to be the victim of a criminal act greater in Mississippi than in another state? Are some individuals in some locations on some pursuits more entitled to the full protection of the law than other individuals in other locations?"

The American people, Rep. Hosmer plainly suspects, will say NO!

ATTENTION, ALL DEMOCRATS!

Just in case you missed a little AP dispatch from Moscow in a neighboring daily yesterday, we quote it below, and ask you if you haven't heard some very similar arguments from the Administration people in Washington — possibly excepting the last two features of the Republican program enunciated by Tass.

The item reads as follows: Moscow (AP) — Tass took a caustic view Monday of Republican preparations for the American elections in November.

"The Republican party is going into the elections with a program of the most reactionary quarters in the country, a program for a 'sacred war against communism," the Soviet news agency said in a dispatch from San Francisco.

"This is the program of the most belligerent quarters of the American imperialism. The most insane ideas of the wild men are included in it. The program rejects peaceful coexistence demands a tough policy vis-a-vis the socialist (Communist) states, restoration of capitalism in Eastern Europe, dismemberment of the Soviet Union..."

THE SCRANTON "IMAGE"

William W. Scranton, being a late starter in his last-ditch, free-style battle for delegates to vote his nomination at the Cow Palace, will doubtless enter those politically hallowed portals still unknown to millions—except as a name and a governor of some eastern state, Pennsylvania, we believe.

To assist the Governor in overcoming this unfortunate turn in the fortunes of politics, Ohio's Congressman John H. Ashbrook, in presenting "This Was the Week that Was on Capitol Hill" in extended remarks in the July 1 Congressional Record, concludes his production with the following:

"Then, we study an attractive brochure which crosses our desk. It depicts the Governor of Pennsylvania (Mr. Scranton) with the caption 'The Man Who Gets Things Done.' On the back it lists his qualifications thusly:

"In a technical sense, this man is a most attractive political property. What one sees in the flesh is a six-foot-two of lean American man, the body slender and muscular from skiing in winter, tennis in summer. The face is thin and boyish; the hair silvering without a trace of balding; the voice is robust, Hudson, Valley rather than Ivy League — and sexy. From Washington, Pa., to Washington, D. C., when William Warren Scranton moves through a room the eyes of the dowagers caress him as a son, and young girls wriggle."

"Whoopie!" says Republican Ashbrook signing off. "Maybe next time we can run Charles Atlas or Miss America with a topless bathing suit."

We bring you the foregoing as a public service. It should be of assistance to those less familiar with Governor Scranton than his publicity writer in visualizing the man whom Dr. Mil-

ton Eisenhower (that's the General's eastern brother) will be explaining to the Convention as he places the Scranton name in nomination.

To quote Congressman Ashbrook once more: "Whoopie!"

BORROWED . . .

"Getting Old. "It suddenly dawns that you are getting old when you realize that there is a generation today who never heard of Hoot Gibson or a rumble seat, who never tasted homemade root beer or a cornsilk cigarette, never heard of Tarawa or Normandy Beachhead, cannot imagine gas rationing and bellbottom trousers, care

little about digging mayapple root or making rabbit traps, do not remember the before-television, kerosene-lamp days, never chased an ice-wagon for the chips, never had a haircut with handpowered clippers, never wore a mustard poultice on the chest or an asafetida bag around the neck, never cranked an automobile or enjoyed a moonlight excursion boat ride, cannot remember penny post cards or silent movies, never hitched up a horse, or carried in a bucket of coal, never chewed roofing tar or sassafras bark, never felt a depression or a shuck-tick bed. "Ain't life been good to us old timers?"

Accurate and Complete RANCH RECORDS Are More Important Today Than Ever

Government regulations and heavy tax programs are destined to be a part of the American way of doing business for a long time. For that reason, it is more important today that every business keep accurate records of its operations.

The ranch business is no exception. With the stiff federal taxes, you will want to take advantage of every saving item in your expense account and at the same time have clear and convincing records available for inspection by tax agents to prove up any item on your income tax return.

Start now to keep a complete record covering all operations in your business with the Stockman's RANCH RECORD BOOK. Your cancelled checks or your present records can be transcribed to this handy record book, together with your income and inventory records and you can have your entire record in a simplified form contained in one volume.

Mrs. Pete Jacoby is expected home late this week after having undergone surgery in a San Angelo hospital last week.

HIGHLIGHTS AND SIDELIGHTS

From Your State Capitol

Austin, Texas — New preliminary steps, inching Texas toward the inevitable realignment of congressional and legislative districts, were taken last week.

Atty. Gen. Waggoner Carr asked that the federal district court at Houston allow time for the Legislature to redraw the districts in its session next year... as the court had done earlier with congressional apportionment.

In view of U. S. Supreme Court decisions that both houses of the state legislature must be selected on the basis of population alone, Carr concluded that there is little doubt that Texas districts would be declared unconstitutional.

School Fund Allotment Approved — State Board of Education raised the per student apportionment of state available school fund money to local districts from \$78.50 to \$81.50.

This \$3 per capita hike represents an overall \$7,600,000 raise in available fund aid to the districts for 1964-65, based on a current estimate of more than 2,500,000 students.

Comptroller Robert S. Calvert estimate the fund for the coming school year

at \$218,300,000. Board allocated \$10,500,000 to finance the cost of purchasing and handling text books. This left \$207,800,000 to be distributed on a per capita basis.

Army Exams — The number of 18-year-olds who will be given Army mental, physical exams by Texas draft boards during August will be increased to 2,762 (from 1,816 in July).

Tests are in line with the President's call for examination of all newly registered men out of school and available for service. They will not be considered for immediate armed forces service. But those failing the examination will be referred to the Texas Employment Commission for advice and counsel on job or job training.

Park & Wildlife Dept. — Weldon Watson, director of the State Department of Parks & Wildlife, reports that a lot of people want state parks built near the many reservoirs under construction around the state. He feels, however, that nothing should be added until old parks are rehabilitated.

Watson made this statement when he filed a request for a \$25,700,000 budget for 1966-67. This is an increase over the current biennial budget of \$11,000,000. Included are \$7,000,000 more for parks and \$4,000,000 more for wildlife projects.

He pointed out that most of the facilities in existing parks were built by C. C. C. workers some 30 years ago, and they're in bad repair.

Youth Conference Held — Some 1,800 teenagers from 230 counties convened here for the attorney general's second Youth Conference. All are outstanding teenagers who were sponsored by a civic, church or school group.

Purpose of the conference is to promote a free exchange of ideas, and then inspire the youngsters to go home and offer help to

curb potential teenage troublemakers.

Attorney General Carr, conference sponsor, delivered the keynote address. He brought them up-to-date on two pressing problems—school dropouts and juvenile delinquency—and said that adult leaders need help from the new generation.

Oilfield Waste Order Readied — As of August the Texas Railroad Commission and the State Board of Insurance will put into effect a 1963 law which requires oil and gas operators to file bonds with the Railroad Commission. Requirement is to assure that abandoned wells are properly plugged in accordance with all commission rules.

Law requires a \$5,000 bond for a single well. But it allows operators to post a \$10,000 blanket bond covering all wells they operate.

Enforcement of the act is part of the state's drive to prevent pollution of water supplies by oilfield salt water.

Leon Drago, son of Mr. and Mrs. Leonard L. Drago, is attending Sam Houston State in Huntsville this summer. Drago has been a student at Sul Ross during the past school year.

Mr. and Mrs. Dale Booher and daughter of New York City were in Ozona this week visiting with Mrs. Booher's parents, Mr. and Mrs. Roy Thompson.

Mr. and Mrs. Hack Leath, daughter, Linda, and Miss Carmen Childress have returned to Ozona after a vacation in Colorado where they visited with Mr. and Mrs. B. E. Cleere at their summer camp near Breckenridge, Colorado.

Mrs. Max Wilson and children of Roswell, New Mexico, visited with Mrs. Wilson's parents, Mr. and Mrs. Hudson Mayes, in Ozona last week.

Mrs. Ollie Whitley and daughter, Elizabeth, have been guests this week of Mrs. Whitley's mother, Mrs. Hilton North, and Janet North.

Miss Roberta Johnigan, who has been in summer school at Howard Payne in Brownwood this summer, is home for a summer vacation.

"LET'S GO!" ... see centuries of change in General Telephone Country

Palo Duro Canyon State Park

Etched deeply in the high plains of the Panhandle, just south of Amarillo, lies a spectacular gorge, widely renowned for its scenic beauty. This is Palo Duro Canyon, a great 15,000 acre state park of Texas. You enter it on a road which winds for miles along the bottom of the vast gorge. You see many remarkable formations such as the "Lighthouse" and "Balanced Rock" which have been formed by centuries of erosion which created the Canyon. As you drive slowly along the Canyon's beauty is enhanced by constant changes in delicate coloring. Coronado explored the Canyon in 1541, and in 1876 Col. Goodnight drove the first wagon train down a huge rock slide into its great gulf. Palo Duro Canyon is easily reached on major highways through many of our towns, and is a high spot in places to go and things to see in General Telephone Country.

Nature has a way of taking care of her own problems. If you take a tract of land and never touch it, the balance of nature to available habitat will remain fairly stable all the time. Nature has many devices for such control — predators, disease, starvation. None of them are very pretty, but nonetheless they are quite effective.

The real trouble starts when someone begins tinkering with this delicate balance of nature.

As things now stand in Texas, there are no lands left which haven't, in one way or another, felt the presence of civilization.

This, of course, compounds the problem. When a rancher chains the brush off his land, he destroys much of the wildlife habitat. As some of the predators are killed, it also knocks the balance out of proportion. The more this balance is altered, the bigger the need for competent wildlife biologists to try and get things back in some semblance of order again. Perhaps heavier hunting pressure is desired, to compensate for the lack of natural predators.

But despite all the work of man, nature still makes her presence felt, quite dramatically at times. Experience has shown us that there are cycles of wildlife, diminishing populations in lean years, booming populations in years of plenty. Nothing we can do will alter this natural cycle.

A drastic die-off of deer in Llano County a couple of years back was a dramatic example of this. It was, simply, nature's way of balancing the deer herd to the available habitat.

Contrary to popular belief, game can not be stockpiled. Only so much wildlife can survive on any given number of acres.

A covey of quail, for example, never will get any larger in numbers no matter how much it is protected. It may diminish in lean years, but even during good years it will go only to a certain level and remain there. This, whether the birds are hunted or not.

Natural attrition annually takes care of about 80

per cent of the birds. This means that 80 of every 100 quail each year will be young birds.

This also is true of deer. Many ranchers, upon seeing a drastic increase of deer on their lands, attempt to resort to artificial feeding. According to James Teer, with the wildlife management department at Texas A&M, this only compounds their troubles.

"Such feeding programs only prolong and aggravate the problems," he said. "Such programs only treat the symptoms, not the disease. The symptoms are poor deer; the disease, poor range."

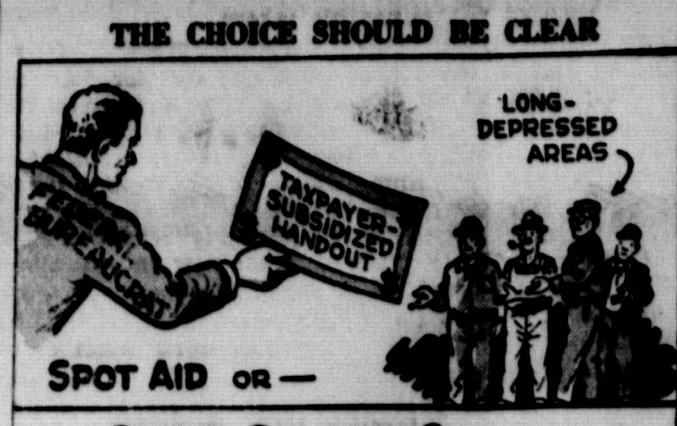

Teer points out that deer are increasing in numbers, despite the fact that more have starved, annually, than legally were taken by buck hunters. Parasites also take a heavy toll. Yet we still have more deer today than ever before.

"Removing surplus deer is a vital part of deer herd management," said Teer. "And common sense tells us that harvesting both sexes is sound and practical on some ranges."

He asks landowners to look at the problem like this: Selling only bulls, rams or billies from herds of domestic stock is impractical management. Unless both sexes of livestock are marketed, the pastures soon become so overstocked with females that the range can not produce enough forage to feed them. The number of deer generally is determined by carrying capacity of rangelands, not by the annual harvest of deer by hunters.

This, then, points up some of the problems encountered when man starts tinkering with nature.

"Most deer never reach

what is considered a ripe old age for whitetails," Teer went on. "Although some deer do live 20 years, a buck that escapes hunters and the toll of nature for five years is considered old. As far as the total deer production is concerned, deer over 7½ years are not common members of the herd. About 95 per cent never see their fifth birthdays."

So it readily can be seen that the sport of hunting is vitally necessary, not only for the economical value it brings to the various communities and the fun it provides for people of all ages, but also for the role it plays in wildlife management. Man has taken much of the control of nature away from the Old Lady herself.

But nevertheless, the Old Lady Nature still makes herself felt quite dramatically and strongly in our everyday scheme of things, particularly in the great outdoors.

'Peter Pan' To Be Theme of Stockton Water Carnival

Fort Stockton's annual Water Carnival, widely known as an entertainment standout for the summer season in the Trans-Pecos country, is scheduled for July 23, 24 and 25.

The stage show, to be presented beside the spacious Comanche Springs pool, will be based on James Barrie's "Peter Pan", being directed by Neil Whiting, professional Odessa director of the Permian Playhouse.

Beauty revues, water ballets and amateur swimming contests are other features of the traditional event, sponsored since 1936 by the Fort Stockton Lions Club, with assistance from many individuals and other civic organizations.

The complete presentation of "Peter Pan", with stage action and water numbers, will be given each night. Beauty reviews are

planned prior to the production of "Peter Pan" each evening, with the several divisions of the Fort Stockton revue on Thursday and Friday nights and the all-Southwest revue scheduled for Saturday night.

Vicki Carter, winner of the Fort Stockton senior division revue in 1963, will preside as Queen of the Carnival until her successor is chosen Friday night.

while Nancy Berthel... anans will reign... pending the selection... night as Miss... 1964 winner.

Former Teacher In Ozona Schools Wins Prize For New Book

Mrs. Etelle Carruth Work of Lubbock, a former teacher in the South Elementary school here, recently won a prize for her book of fiction in a writing competition by the National Federation of Press Women at their convention in Richmond, Va.

The book, "Three Sides to the River" was published by Naylor Publishing Co. of San Antonio. Mrs. Work is currently employed as a supervisor for Lubbock County Schools.

The book is dedicated to another former Ozona teacher, Margarethe Meyer Anderson, who taught in the same school here with Mrs. Work.

WONDERFUL PRIVILEGE

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

We are proud of our freedom . . . whether it be freedom of speech, freedom of assembly (the ayes have it), freedom of the press, or freedom of religion. Of all these, we sing: "Let freedom ring!"

Freedom of religion is not the property of the clergy, but of *all* the people. Every schoolboy knows that the Constitution says so. It guarantees freedom of worship . . . freedom to honor God according to one's own conscience. It is a precious gift.

How you worship is *your* business! That you *must* worship, ah, that's God's business! Choose the church to honor God with your fellowman . . . thanking God for this wonderful privilege. For, so often in other lands, such worship is forbidden and outlawed. Sunday is *His* day! Make it *your* day!

Miss Joanna Patton
... bride-elect of Bob Meinecke

Patton-Meinecke Wedding Plan Told

Rev. and Mrs. Alton Patton of Uvalde, Texas, have announced the engagement and forthcoming marriage of their daughter, Joanna, to Bob Meinecke, son of Mr. and Mrs. Hurst Meinecke of Ozona.

Miss Patton graduated from Uvalde High School and attended Baylor University, where she was a member of Phi Beta Mu sorority and on the Dean's list. She attended Southwest Texas Junior College this summer.

Mr. Meinecke graduated from Ozona High School and from Southwest Texas Junior College. He received his B. B. A. from the University of Texas this past May.

The bride's father will perform the ceremony on Saturday evening, August 29, 1964, in the First Baptist Church in Uvalde.

Mr. and Mrs. H. O. Hoover and sons, Tommy and Tony, have returned to Ozona from Commerce, Texas, where Mr. Hoover attended the first six weeks session of summer school at East Texas State.

17 Boy Scouts Attend Week Long Camp At Sol Mayer

Seventeen Boy Scouts from Troop 153 and Scout Leaders Joe Tom Davidson and Buddy Mills, spent last week at Camp Sol Mayer, near Fort McKavett, where they enjoyed outdoor activities and worked on second class badges.

Several of the parents went to the camp Thursday night for Parents Night. A barbecue supper was served and the Scouts presented a program. The group returned to Ozona Saturday afternoon.

Scouts attending the week's camping were Tony Cullins, Terry Lindsey, Bill King, Cuatro Davidson, Tom Davidson, Lane Garrett, Stephen Hubbard, Fred Deaton, Craig Deaton, Dubby Mills, Mike Womack, Tommy Jenkins, Morris Lee Coates, Sooner Williams, David Williams, Phillip Perner and Donald Roman.

Mr. and Mrs. Joe Bean and children left this week on a vacation trip to Corpus Christi and the Rio Grande valley.

Mr. and Mrs. Bascomb Cox and Mrs. John R. Bailey spent last week in Dallas visiting Mr. and Mrs. Ed Reynolds and children.

RANCH SUPPLIES

Screwworm —

(Continued from Page One)

The sporadic outbreak of screwworms in the southwest have become fewer each year. There are ranches in Crockett and surrounding counties that are going on their third year without a case of worms.

Livestock producers in northern Mexico are pleased with the reduction of screwworm infestation as a result of the eradication program which has sought to maintain a live-fly barrier across northern Mexico and livestock producers

in this buffer zone are contributing money to the program to help continue it.

An area of nearly 250,000 square miles in northern Mexico is covered in the sterile fly drop to prevent a buildup of fertile flies that could migrate into the areas of the U. S. where the insect has been eradicated. The action has reduced screwworm problems for Mexican ranchers as well.

Maintenance of the live-fly barrier between the two countries is credited with keeping the incidence of screwworm infestations in

the eradication area at an all-time low for the season. Less than 90 screwworm cases were reported in Texas for the first six months of 1964 against 2,464 in 1963 and 17,693 in 1962. New Mexico has reported two cases in 1964.

The News Reel

A re-run of "The Ozona Story" cleaned from the files of The Ozona Stockman

From the Stockman July 18, 1935

Early award of contract the hard surfacing of highway 27 west from Ozona to the Pecos county is in prospect according to available information from the highway department.

—30 years ago— innocent looking enough the uninitiated, but a weed to those who acquainted with its possibilities if properly handled is the marijuana, a native plant of Mexico, smuggled across the border and cultivated by Mexicans on this side of the Rio Grande, "outside" the law each instance. One of the plants, some four feet in height, and apparently of rapid growth under the care of the planter, was seized Monday by Sheriff Ellis. The plant growing in the ward of a local resident was carefully concealed among flowers and shrubbery and protected by a vicious dog chained near by.

—30 years ago— Kennedy Sisters Stock Co. one of the highest class stock companies on circuit this area, and a familiar name to Ozona play lovers, will pitch their big tent for week's stay here starting Monday July 22.

WHAT A WAY TO GO!

Meeting in Pecos, Texas, Saturday, Miss Eda Schneeman and Miller Robinson of Ozona stole a march on friends here when they were married early Saturday evening in Pecos. Leaving there Sunday for a trip to New Mexico before returning here to make their home.

—30 years ago— Mrs. Albert Bogges and son Albert Jr., returned to their home in Waco Saturday after a two weeks visit with Mr. and Mrs. C. C. Montgomery.

—30 years ago— Bill Seahorn, son of Mr. and Mrs. W. P. Seahorn, suffered a broken bone in his wrist Sunday when a horse fell with him on the Glasscock ranch. He was taken to Sonora where the bone was set.

Game Dept. Plans Good Fishin' Hole In Amistad Lake

Austin — The biggest fishing hole of them all, and possibly the best, is bidding for attention at Parks and Wildlife Department headquarters. It's the enormous Amistad Reservoir now being fashioned from the Rio Grande, Pecos and Devils Rivers just up river from Del Rio on the Mexican border.

This reservoir, one of the largest water impoundments in the world, will create fresh-water habitat supreme, according to Larry Campbell, department aquatic biologist, stationed at San Angelo.

Certainly there will be room for many fishes in an area already famed for its catfish. The reservoir will extend 120 miles upstream on the Rio Grande, twenty and seventeen miles respectively up the tributary Devils and Pecos Rivers. Overall capacity will approximate 6,000,000 acre feet. By comparison, mighty Lake Texoma has only 1,730,000 acre feet.

Departmental scientists, already shrinking the \$100,000,000 project to terms of providing area capable of meeting the expected tremendous angling pressure.

Biologist Campbell emphasized that both the Devils and Pecos Rivers are permanent flowing, spring-fed unsurpassed as blue catfish areas and will have vastly expanded water space.

Probing possibilities for the future, Campbell noted in his latest report to headquarters: "The preliminary (management program) plans being considered are to establish a high population of desirable size large mouth bass in this clear water area (of Lake Walk and Devils Lake) which would serve as a brood stock

for the huge new impoundment and also improve fishing prior to inundation, while the more turbid Rio Grande and Pecos stream areas would stock Amistad with flathead, blue and channel catfish."

HELP WANTED

your U.S. Savings Bond won't lose its value...or even stop growing

What hasn't happened to U. S. Savings Bonds?

They've been stolen and thrown into a river. Mistakenly left in an oven and baked at 400°. Hidden in a cookie jar and eaten full of holes by hungry beetles. Forgotten in a pair of work pants and washed, bleached and spin dried. Cut into tiny pieces by an irate wife. Gnawed by mice, and gobbled up by goats.

Yet, in spite of all these misfortunes, these Bonds weren't lost to their owners. They didn't even stop growing in value.

The Treasury Department keeps a record on microfilm of every Savings Bond sold. So every Bond that's lost, destroyed or stolen

can be replaced. And the service is free.

The safety is just one of the many reasons why U. S. Savings Bonds are the most widely held securities in the world. Another good reason why you should invest in Bonds is the important job they can do right now in making America safer from the enemies of freedom.

Buy Bonds and see if you don't feel pretty good about it.

Quick facts about U.S. Savings Bonds
• You get \$4 for every \$3 at maturity
• You can get your money anytime
• Your Bonds are replaced free if lost, destroyed or stolen • You can save automatically on Payroll Savings

Keep freedom in your future with

Ozona Man —

(Continued from Page One)

puties were busy early this week following up on the case. State agents said they believe they know who has been supplying Arredondo with the weed and that they believed it to be grown somewhere around Ozona. The low quality of the weed led officers to this conclusion, since marijuana smuggled across the border from Mexico is of much better quality, they said.

Sheriff Mills and the San Angelo officers and narcotic agents combed ranch country near Ozona in search of a suspect but the suspect had gone on vacation, they were told, and a thorough search of the ranch failed to turn up any of the growing weed. Meanwhile, the sheriff's department is continuing its investigation of the case, seeking to run down the source of the narcotic weed and to find out if others are involved. Arredondo disclaimed any knowledge of the whereabouts of the weed patch.

Two charges of possession of narcotics have been filed in justice court here against Arredondo and he will be Arredondo and he will be make bond on the pending cases in San Angelo.

Sheriff Mills and Deputy Von Parker gave much credit to Police Chief Melvin James of San Angelo and Detectives B. C. Dominguez and George James for their tireless work in helping in the long investigation

which led to the breaking up of the marijuana traffic here. The special agents who worked under cover must remain unidentified for their own protection and for their effective work, the local sheriff said.

Golf Journey —

(Continued from Page One)

In the first flight Joe Johnson and Audrey Edwards of Big Lake were at even par to capture the title while a three way tie developed for second place between teams composed of John Childress and Byron Williams of Ozona, Bill Clegg of Ozona and Graydon Trussier of San Angelo and Bill and Bruce Ashcraft of Big Lake.

In the second flight J. G. Hufstetler and Warren Tallaterra of Ozona took first place with a 111 while James Mercer and Roy Waterhouse of San Angelo and Joe Clayton and Red Greer of Ozona tied for second at 112.

In the third flight, Pleas Childress and Buddy Moore of Ozona posted a 115 to take first, while Tom Ed Montgomery and Jack Baggett, also of Ozona, took second place.

In Saturday's play, in the B flight Red Greer and Joe Clayton of Ozona had a 68 for first place, while Sleepy Leech and C. D. Downey of McCamey had a 73 for second place.

In the C flight, Dub Reeves and Don Reeves of Ozona had a 72 for first place, with a tie between

R. H. Beckett and R. G. Beckett of Iraan, and Bill Berger of Sonora, and Jim Barroee of Ozona.

Wright and Armstrong in their winning round Sunday, posted a 34, 34, 32 to get under par by eight and down the teams of Adams and Dozier and Knight and Mullins who also had some good rounds. Dozier and Adams posted a 32 on the first 9 and a 34 on the third round but had a 36 on the second nine to lose the two strokes.

Fifty-two teams were entered in the two-day meet which was adjudged a success by club officials, as cooler though slightly windy weather greeted the full field of contestants.

Little League —

(Continued from Page One)

then a walk, a wild pitch and an infield out got the run home.

The winners picked up two runs in the third and went ahead 3 to 1 when leadoff man Ruben Tambunga singled to right and scored all the way from first on Gregory Stuart's double. Stuart moved to third on a wild pitch and then scored as Donald Huff grounded to first.

Moore cut the lead to one in the third when they scored on a walk and Cuatro Davidson's double to right after two were out, and then tied it up in the fourth on two walks and an error on a short fly ball to right. Ozona Oil had four runs on eight hits and made two

errors while Moore got three runs on three hits and also made two errors.

The Oiler win ended what might have been a two-game play-off, since, had Moore won, a second game for the year's title would have been necessary.

Following the game it was announced that Dick Webster would manage the all-stars instead of Taylor Deaton, with the first workout for the all-star crew slated for Tuesday morning.

One of the all-star selections, Sooner Williams, was forced to withdraw from the roster because of illness and Monday it was discovered that one of the alternates was only 10 years of age and not eligible for the all-star team.

In losing Williams, the Ozona team lost one of its better players and a particularly valuable man to an all-star team because of the many positions he could play.

Civic Center —

(Continued from Page One)

man's Club; Mrs. R. A. Harrell, and Joe Couch of Crockett County Historical Society; Mrs. Bill Clegg, Woman's Forum; Mrs. Boyd of the Woman's League; John Childress from the Chamber of Commerce; Mrs. Otis Pridemore of the Ozona Music Club and County Judge Brock Jones.

The \$125,000 bond issue was submitted at an election held April 18 and approved by the voters.

Dick Henderson, whose ranch adjoins Ozona on the north and who has been most generous in donating land for public use, has agreed to donate a lot across from the football field on the north. The building site will be 200 by 200 feet on the corner. Deed to the property is being prepared by attorneys for the county and will be submitted to

Mr. and Mrs. Henderson for signing in the near future, Judge Jones said.

Applications have been received by the county judge from other architects and architectural firms, he said, and these will be considered in the coming conferences with the citizens committee. The court itself will name the architect and after plans are approved, will come the process of advertising for bids, letting of contracts and finally construction of the building.

DAUGHTER TO REEVES

Mr. and Mrs. E. E. 'Diz' Reeves of Rankin are the parents of a daughter, Michelle Dion, born on July 10, 1964 in the Crockett Co. Hospital.

Grandparents are Mr. and Mrs. W. O. Reeves and Mr. and Mrs. L. M. Spurgers, all of Ozona.
