Austin, Texas - Education stillrates top priority in the State capital. But it was

viewed in a new light after Gov. John Connally revealed his program to the State Legislature.

Connally took the suggestions of his Committee on Education Beyond the High School that a strong coordinating board be created to administer State colleges and universities. He adopted its plan to put public junior colleges under that board and then told the Legislators the State should assume full financing of instructional costs of junior college academic programs

It isn't automatic — this growing old gracefully. Worries seem to accumulate with the years. And there is often the gnawing sense that opportunities once brimming with promise lie empty where we tossed them . . . along a road without return.

But these later years are not meant to be a burden. There is much to suggest that God intended them to bring reward.

He gave us the blessing of memories, so precious moments of joy may be lived again and again.

He gave us the gift of love, so we can experience anew the adventures of youth, the achievements of maturity, in the lives of our children and grandchildren.

And He gave us a Way of Life, revealed in the teachings of Christ. So that every today . . . when it has become yesterday . . . will be another graceful stone in the arch of Tomorrow.

THE CHURCH FOR ALL ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regu-

larly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself which needs his moral and material support. Plan to go to church regu-larly and read your Bible daily.

APARTMENTS

FURNISHED OR UNFURNISHED

We are contemplating building a new apartment building here in Ozona. We have already obtained the site. It will be near The Village Shopping Center, and should be finished before spring.

These apartments will be furnished, unless the tennant wishes to use his own furniture and contacts us before we buy furnishings. Any one who will sign a oneyear lease may select their own color scheme (paint, carpets, cabinet, dressing table tops, etc.)

These will be modern apartments in every sense.

The grounds will be landscaped and kept by owner.

Anyone interested in something nice, new and modern may contact W. H. Whitaker at South Texas Lumber Co., or call 392-2545 or 392-3141. We would like to know your needs as to number of bedrooms, etc.

Accurate and Complete

RANCH RECORDS

Are More Important Today Than Ever

Government regulations and heavy tax programs are destined to be a part of the American way of doing business for a long time. For that reason, it is more important today that every business keep accurate records of its operations.

The ranch business is no exception. With the stiff federal taxes, you will want to take advantage of every saving item in your expense account and at the same time have clear and convincing records available for inspection by tax agents to prove up any item on your income tax return.

Start now to keep a complete record covering all operations in your business with the Stockman's RANCH RECORD BOOK. Your cancelled checks or your present records can be transcribed to this handy record book, together with your income and inventory records and you can have your entire record in a simplified form contained in one volume.
