**From Your State Capitol**

**Austin, Texas** — Texas has some 615,000 new voters as a result of the March 3-17 free registration period.

Turnout was six times larger than state officials had predicted and could be an indicator of a dawning new era in Texas politics.

More than half the total came from four big counties — Harris with an estimated 100,000, Dallas with 96,017, Bexar with 88,100 and Tarrant with 50,662.

**April allowable raised** — Texas Railroad Commission at a time when oil demand usually lightens, has raised statewide oil allowable for April to 33.7 per cent of potential.

Increase was the seventh straight monthly boost. Only once before in the last 20 years has April allowable been higher than March.

**Important addition** — Securities Commissioner William M. King believes a recent decision by the Texas Court of Criminal Appeals is an important addition to the legal protection afforded Texas investors against fraudulent practices in the sale of securities.

Court held that misrepresentation of material facts in offering securities for sale is a crime under penal provision of the Texas Securities Act.

Land Commissioner Jerry Sadler has announced that more than 515,000 acres of submerged lands off the coast of Texas and more than 16,000 acres of uplands and riverbeds, most of them in far West Texas, will be offered for oil and gas leases at the Lease Sale to be held in the General Land Office on May 3.

Texas crime rate increased nine per cent last year, to 2,967.2 for each 100,000 population, for an all-time high of 264,249 offenses, according to Col. Homer Garrison, Texas Department of Public Safety director.

Autos must have safety checks by April 15 inspection deadline and Department of Public Safety says more than 1,300,000 cars still are to be inspected.

## RESEARCH FEVER

By Connie Bradford

"Well, I guess it's time to start working on that research paper. No, I think I'll

wait til after church tonight, then I'll do it. I'll still have plenty of time."

"Now that church is over I can really get down to business. Let's see now — Introduction — 'Cancer may be Wait! It's time for 'Bonanza'. I'll start right after I watch that."

"Bonanza is over, but now the 'Wackiest Ship in the Army' comes on. I've just got to see it tonight. It's supposed to be real good."

Gosh, it's ten o'clock. If I don't get down to business I never will get it finished. Back to the Introduction. Cancer may be the cause of Mom, will you get the phone? For me? Oh, hi, Sue. No, you're supposed to double space instead of triple space. By the way, did you hear about Betty? Well, yesterday Ann told me . . .

It's 11:30. I didn't know I talked so long! Now I've really got to rush around to get it finished.

Three thirty! Oh well, all I lack is the Summary and Conclusion. That won't take too long. Let's see now. Based on the information . . .

Finished! It's 4:30 and I'm finished! That's not too bad. I bet there are a few seniors still up typing on their research papers. Nope, 4:30 isn't bad at all!"

## QUESTION OF THE WEEK

By Helen Hayes

What would you do if you were flying a plane and saw a rattlesnake in the cockpit?  
Gary E — I'd hope the snake could slide.

Connie B — I'd give him my pet rattler to keep him occupied.

Lana A — The snake had better have a parachute cause he's get ejected.

Celia — I'd say "What kind of deal is this?"

Lynn C — I probably wouldn't be flying the thing in the first place.

Jacque M — I'd play like I didn't see him and hope he'd do the same.

Billy C — I'd bite him to save a lot of time and fright.

Vicki Lynn M — Me? Fly a plane?

Sandy S — Jump!

Drake Mc — Cry a lot.

Gene W — We'd both jump out and hope we didn't land in the same place.

Pam S — Wish that it was Willard.

Patty W — Nothing. Some of my best friends are rattlesnakes.

## WHAT IF?

By Pon Seahorn

Saunders got shut down by Coach Gerber.

Mr. Moody decided he didn't want to grade the seniors' research papers.

Nobody took a date to the Jr. Sr. Banquet.

All the men teachers grew beards and all the women teachers wore long dresses and bonnets.

Four girls didn't had a good "tire changer" friend in Eldorado.

Mary Jo and Barbara D. didn't have a flats Saturday.

The seniors could go to Acapulco on their Senior trip.

Celia made a habit of falling down stairs.

Helen King slammed doors on everybody's finger and turned down a date with everybody.

Gary Elmore's car didn't break down Sunday night.

Win hadn't turned in Ronnie's research paper for him.

Billy had broken his index finger and hadn't been able to type.

**ARCTIC AIRLIFT**—Nearly three million pounds of oil drilling equipment have been airfreighted from Fairbanks, Alaska, to a wildcat drilling site on the Arctic Slope. The 21-day airlift was carried out by Humble Oil & Refining Company and Atlantic Refining Company. The two companies will drill for oil on a site 330 miles north of Fairbanks, where temperatures as low as 50 degrees below zero were encountered by the airlift crews. Above, on a frozen runway at Fairbanks, a native sled and dog team stand by as a section of drilling rig is loaded into the cargo aircraft.

The message of Holy Week is not a sad one. Rather, it is the most joyous news we will ever hear! The glory of the resurrection could not have happened without the stark tragedy of Good Friday . . . and because Christ overcame death, we are assured of eternal life. It is certain that we will live again and forever, in a new way that God has planned for us.

Jesus strove constantly to make this blessed truth plain. Time and time again we are told of God's great love, and of His constant concern for the world and people He created.

The highest point of Christ's ministry was the cross. Because of its tremendous power we, as Christians, have been given a ceaseless source of comfort. Come to the church of your choice.

## TIPS FOR OUTDOORSMEN

By Vern Sanford

Saves line loss — Lots of live bait fishermen use a sinker at the tip end of the line. Most attach the sinker to a weaker line than the regular line. This is if the sinker fouls you can break the leader line off and not lose the entire rigging.

Keeps Hooks from rusting — Carry a piece of cork in your tackle box. Then at the end of the day's fishing stick your fish hooks in the cork and you'll keep the points from rusting.

Pin-pointing fish — You can make an inexpensive fishing buoy with a discarded plastic detergent bottle. Tie a line to the handle and add just enough weight to keep it in one place. When you locate a school of fish, you can pinpoint the spot simply by anchoring your home-made buoy.

Stops oarlock squeaks — When oarlocks creak, rub them with paraffin or soap. That will eliminate the noise.

Excellent fire starter — Cement-type glue is mostly acetone. It will burn with intense flame. Makes an excellent fire starter even in wet weather.

Handy drinking Cup — Cellophane from a cigarette pack can make an emergency drinking cup. And those light-weight plastic containers some cigs are packed in make even better cups.

No broken egg worries — Best way to carry eggs to camp is to break them in a jar or leakproof plastic container and carry them in your cooler. Then you don't

have to worry about breakage.

Keep Chamois Handy — On a hunting trip carry a top-quality chamois soaked with oil. Chamois never looks oily, yet never seems to run out of it either. Great for rubbing down your weapon after each day afield. Keeps rust away.

Bottoms-up for worms — Can't get a worm out of your bait box? Well, keep the box top-side down when not in use. Then turn it over when you need one to bait a hook. These little rascals always work their way to the bottom of the container.

Silicone shines spoons — Small silicone-treated patches that you use for cleaning eyeglasses are a handy item in the tackle box. They'll shine spoons, spinners and all kind of metal in a twinkling. And silicone helps keep the shine fresh.

GARAGE SALE — Good used furniture — 1 bedroom suite — 1 living room suite — 2 bed springs and a few small items. 105 Ave. M Mrs. Delbert Stewart. 2-tc

Lion Track Team To Compete Sat. In Meet at Iraan

The Lion track team will be in Iraan this Saturday for their last warm-up meet prior to the big district track meet to be held in Ozona on April 16.

Last week-end Coach Chick Womack's cinder men were in San Angelo for the Angelo Relays. The Lion point total of 5 came on Billy Carson's second place finish in the pole vault.

George Cox, junior sprinter who pulled a muscle in the Eldorado meet, was held out of the Angelo meet and is expected to run in Iraan Saturday.

The Lions are defending District 8-A Champions as well as Regional Champions, but are expecting quite a battle for this year's title. Sonora, Eldorado, and Big Lake and possibly Rankin are expected to make this year's district meet a wide open affair.

This year's district meet in Ozona will be the 9th consecutive time that the district has been held in Ozona. The meet will be held in three divisions—High School, B-Team (Freshmen-Sophomore), and Jr. High. In the high school division, those finishing 1st or 2nd will qualify for regional competition.

in Crockett County, located on the L. P. Powell ranch northwest of Ozona; early postoffice sites of Hinde and Hembre northwest of Ozona; Eureka, proposed townsite for Crockett County west of Ozona, and the Ozona-Comstock stage stand twenty miles south of Ozona. Other sites will be listed in the future.

The Committee considers the two medallions on the bank and on the Courthouse are inadequate and plans to place interpretive plaques supplying additional historical data with them. Private donations for one have been given and the county is being asked to furnish funds for the courthouse and the jail. Costs of these plaques are nominal in recording local history permanently.

Also to be marked are the graves of Confederate Veterans in the Cedar Hill Cemetery. Families will be given the opportunity to pay for these official markers.

Mrs. Harrell brought to the attention of the committee a new law which permits the naming of geographical sites which are now un-named. They may not be named for living persons. Blanks for this purpose may be obtained from the committee.

It was voted that publicity for the restoration of Fort Lancaster would be placed in the Diamond Jubilee Publication.

It was noted that Fort Lancaster is listed in a publication of the National Park Service, United States Department of the Interior, entitled "Parks For America." This indicates that the Fort site is of both State and National concern.
