have come up with the most marvelous idea for getting the Jubilee Corp. out of town. I think an exhibition between ex-football players and the Dallas boys would more than pay for the loss.

This idea came to my mind the other night as Tom was talking to me about the benefit of his ball playing experience, the form of a three-hour session or lecture on how to use it.

Think of the money poured into the coffers from the bets of the wives and sons of these sideline coaches. In only and not only would the deficit be wiped out, there would no doubt be enough for the centennial.

Tom wasn't nearly as excited about the idea as I, and I asked who would pay hospital bills. I told him I'd be sure the Cowboys had the sort of group insurance cover their injuries.

Jeanette Bailey, president of the local PTA, ran into difficulty getting room numbers which is normal. However, she told me that most of the excuses came from men who declined because they had children in school.

Well it has been a week since school began, and things are so quiet and still in downtown Ozona that you could shoot a cannon ball in the street without danger of injuring a person.

I guess everybody has their little idiosyncrasies, but my peeve is people who always know a great deal more about it than an eyewitness. If they hear a bit of gossip, they have to tell it and spice it up a bit before they repeat it, and repeat it they do.

When I hear women complain about being golf widows on weekends, I always think of the story about the general procession passing Sunday morning about 10 o'clock. There were two golfers on the golf course one by the road, who respectfully laid down their clubs and removed their hats.

The golfer commented on the large number of birds the deceased must have had by the number of birds that passed by.

His partner crossed him before replying and said she was the finest woman who ever lived; we had a married 20 years.

MASSIE MEMORIAL — Furnishings And Decor Selected For New Library

A San Angelo interior decorator consulted with school officials last Friday and plans for furnishing the adult reading room in the new library were revealed.

The room will be paneled with walnut and feature a walnut credenza over which oil pictures of Robert and Mary Massie will hang. The room is to be furnished as a memorial to the Massies, the furnishings donated by Clayton and Dow Puckett of Fort Stockton, nephews of Mrs. Massie.

Robert and Mary Massie were Crockett County pioneers. The Puckett brothers, in appreciation for all the Massies had done for them in their youth, asked to furnish the room in their memory several months ago, and the school accepted their generous offer.

The room will be done in a Mediterranean decor featuring colors of tangerine and green. The couch will be upholstered in a nubby fabric of tangerine with the chairs done in leather of the same color. A low lounge chair will be covered in a green and tangerine print on a natural background.

The drapes will be made of natural wool with the two colors woven in to form a design at the hem.

A sculptured two-tone wool carpet will be the floor covering. The reading table, which will be four feet wide and eight feet long, will be made of curly pine from the original Massie home. A side table to balance the room will be made from a carved mantle, it too came from the Massie home.

Miss Mildred North, librarian, says she expects the room to be completed by December 1, and plans to hold an open house before the Christmas holidays so that the public may go through the entire building.

Crockett Hiways Accident Free In Holiday Week-End

While national rates for traffic accidents on a labor Day weekend soared to an all-time record high, Crockett County did not have a single traffic mishap during the three-day holiday, the Highway Patrol and Sheriff's Department reports.

All law enforcement officers were on duty and the county was well patrolled. Highway 290 was heavily traveled and was badly crowded part of the time, according to a local officer, but luckily there were no incidents. Surrounding counties all reported traffic mishaps.

Young 'Toughs' 'Going Nowhere' Held For Thefts

Ozona officers apprehended a group of young toughs Tuesday afternoon after being alerted that they had stolen an undetermined amount of stamps in Eldorado and a tire and battery from a car in Sonora.

The six ranged in age from 14 to 26, three girls and three boys, and were driving an ancient Pontiac station wagon with Alabama license plates. Officers picked them up from the description of the car given by Sonora officers.

A search revealed that between the six of them they had exactly 3c in cash. Officers confiscated a gun found in the car.

Two of the girls, ages 14 and 16, were run-aways from Ft. Worth. Their parents came for them today.

Spokesman for the group was the 26-year-old, who said he was from Arkansas and claimed they were going nowhere in particular.

They were turned over to Sonora officers Tuesday night and are enjoying the hospitality of the Sonora jail at present.

Ozona And Area West Favored By Generous Rains

Ozona and a swath of ranch country west to beyond Sheffield enjoyed bountiful rainfall early Sunday morning as a weather front kicked off a line of thunder showers in the area.

Ozona rain fall reached from 1 1/2 to 2 plus inches in different parts of the city and the fall was as spotted over the ranch area covered. Falls up to nearly three inches were reported along the Pecos river in west Crockett county while in-between falls were reported at a 1.5 inches average.

The heavy shower in Ozona, which did not extend far north or east, nevertheless, made both draws flow through the city for a short time. A heavy rain on the W. E. Friend ranch on Ozona's east edge put Gurley draw on a moderate rise with rainfall that fell below the flood control dam located on the Friend ranch.

Son Of Ozona Couple Cited In Vietnam Action

Mr. and Mrs. W. A. Davis recently received word that their son, Pvt. Douglas E. Davis, a member of the armed forces serving in Vietnam, had been awarded the Army Commendation Medal for heroism.

The commendation reads: "For heroism in connection with military operations against a hostile force; Private First Class Davis distinguished himself by heroic actions on 26 July 1966 in the Republic of Vietnam. On this date, he was operating the 25th Aviation switchboard during the period of 1920 to 2120 hours, the battalion headquarters was under heavy mortar and rocket fire attack.

Throughout the duration of the enemy attack, Private Davis remained at his switchboard in an exposed location, with no personal protection from the incoming (Continued on Last Page)

Post Administrators Hospital; Board Seeks Successor

Bailey Post, former Crockett County Hospital Administrator for many years, has accepted the position again on a temporary basis since the resignation of Norman Olson became effective August 31, and is holding down the job while the Hospital Board and Commissioners Court seek a replacement.

Olson, who accepted the position last year when Mr. Post asked to be relieved because of ill health, resigned and left the hospital August 31. He is now administrator of the Overall Memorial Hospital in Coleman.

According to Mr. Post, things are pretty slow at the hospital right now with only six patients being cared for there.

There has been no definite word from Dr. Claude Tate, Austin physician who visited Ozona several weeks ago, looking over the prospects of moving his practice here. However, a member of the hospital board spoke to him by telephone earlier this week and he said he was still deliberating.

Several inquiries and applications for the position as administrator have been received by the board since announcement of Olson's resignation. Nat Read, board chairman, said. The board will meet in regular monthly session tonight at which time members will discuss the question of naming another administrator.

Scout leaders present were Mrs. Charles Davidson, III, Mrs. Lawrence Janes, Mrs. Jim Marks, Mrs. Chapman, Miss Dorothy Price, Mrs. Ralph Hall, Mrs. Claude Montya, Ronald Pennington and Mrs. McMullan.

FORUM OPENS SEASON

The Ozona Woman's Forum will begin the current club year with a covered-dish luncheon to be held at the Civic Center Saturday, Sept. 10, at 11:30 a. m.

termen the Lions, ranked second in District 8A, have good speed and size but are lean on squad depth and have several Lions not able to go at full speed.

Don Leech, 177 lb. tackle, will not be able to play tomorrow night because of an ankle injury, and T. DeHoyos, the sturdy 170 lb. fullback will be hampered by a knee injury and may see offensive duty only.

Leading the Lion offense from the "I" and "winged-T" formations will be Randal Clepper, the 155 lb. sophomore who stepped in at quarterback last year when the regular QB became ill in mid season. T. DeHoyos will be the full back, and Beto Ramos, 182, converted from a guard spot, and George Cox, 168, the Lion's All-West Texas high scoring speedster, will be the halfbacks. Ramos has better than average speed, and Cox is probably the fastest back in District 8-A.

At the ends, the Lions have Oscar Flores, 160, and Larry Kilgore, 160. Gary Sutton (All-District last year), 203, and Wesley West, 166, will start at tackles. John DeHoyos, 185, and Rex Bland, 165, will get the call at guard. Big Marlin Farris, 200, will start at center.

On defense for the Lions Farris, J. DeHoyos, West, and Sutton will be the four up-front. Flores and Maney or Jack Applewhite are the cornermen with Ramos and Kilgore as linebackers. Clepper and Bland will be at defensive halfback post, and Cox will be safety.

The starting lineup for the Badgers includes Ricky Trumble, 140, and Joe Carrasco, 140 at ends; Bruce McKee, 170 and Bill Robbins, 235, tackles; Mike Holguin and Tony Fuentes, both 170, at guards, and Willy Martinez, 178, center. Warren Jeter will be at QB; John Harris, 170, and Ricky Thornton, 140, halfbacks; Armando Galindo, 155, fullback.

Leading the Badger attack from the "I" and "slot" formations are quarterback Jeter, 165, and Harris, both members of the fine 1966 Badger track team. Big Robbins (235) leads the McCamey forward wall.

Admission for all Lion ball games this year will be \$1.25 for adults and 50c for students. These are prices as passed upon by members Schools of District 8A.

San Antonio — Captain Joe E. Crenwelge, son of Mr. and Mrs. E. O. Crenwelge of Ozona, Texas, has been graduated from the U. S. Air Force pilot instructor course at Randolph AFB, Tex.

Captain Crenwelge is now qualified to teach student pilots to fly jets. He is being assigned to Webb AFB, Tex., as a member of the Air Training Command which conducts the educational programs necessary to provide skilled fliers and technicians for the aerospace force.

The captain, a graduate of Fredericksburg, (Tex.) High School, received a B. S. degree in 1955 from Texas A&M University and was commissioned there upon completion of the Reserve Officers Training Corps program. His wife, Elizabeth, is the daughter of Mr. and Mrs. H. C. Meurer of 3619 Lisa Drive, San Antonio.

FRONTIER HOSTELRY — One of the most popular early day West Texas hotels was Ozona's Kirkpatrick Hotel in the fine photo reproduction above, done by Mrs. Ira Carson from the collection of her mother the late Mrs. W. E. West "Mammy Kirk" as she was affectionately known to her pioneer patrons and friends, is shown in front of her hostelry. The structure, located north of the Ozona National Bank building and occupying the lot to include the present United Department Store, was destroyed by fire in December of 1919.

NO GUNS FOR WRONG PERSONS

"Quick enactment" of federal gun-control laws has again been urged by President Johnson in the immediate aftermath of a shooting in his home state. The object, so he said, is to "help prevent the wrong persons from obtaining firearms." There's no denying that the wild spree of an apparently demented gunman at Texas University was a grim and sorrowful event. But by what stretch of whose imagination can it therefore be concluded that a federal law covering the sale of rifles, shotguns and handguns would have prevented it, or that passage of such a law now will really prevent similar tragedies in the future?

The primarily emotional character of this new surge of "anti-gun" activity — in other places besides the White House — is demonstrated by both the similarities to and differences from that which followed the assassination of President Kennedy in Mr. Johnson's home state 3 years ago. The chief target, or focal point of the anti-gun crusaders then was "mail-orders" guns (Remember all those picture and cartoons?) This time the picture is of several weapons and the comments generally stress the fact that the sniper had a veritable arsenal with him, without nearly so much emphasis on how he obtained the weapons. Which really proves, when logic prevails over emotion, that how or from whom a gun is obtained has nothing at all to do with how or to what purpose it will be used.

We realize that from his standpoint as a politician, Mr. Johnson may be quite shrewd in trying to ride the crest of this new wave of anti-gun emotionalism. But we think it demeaning of his present office that he would do so. And as a former member of what has sometimes been called "the greatest deliberative body in the world" (the U. S. Congress), the President surely realizes the dangers to long range national interests and to constitutional government when laws are passed hurriedly in an atmosphere of emotionalism.

NOTED AND PASSED

Bring Money to Washington: American Legion National HC estimated beforehand that \$7,500,000 would be brought to and left in Washington, D. C., by Legionnaires who assembled there for this year's annual convention. No wonder President Johnson gave government employees the afternoon off to watch the Legion parade. Most organized crowds that assemble in our Nation's capital have come to take it away rather than to leave it.

Crime Doesn't Pay — After Taxes: The Internal Revenue Service — ever alert for another tax source — has assessed income taxes against a man for money which his wife embezzled from her employer. The man claimed he didn't owe anything because he didn't participate in the theft. The Tax Court ruled against him, however, because he had filed a joint return with his wife. Which is only fair, we suppose, even if it isn't yet full justice. Now if the woman is convicted of theft, there may still be some doubt that her husband should be charged as an accomplice, if he was unaware at the time of filing that his wife's gains were ill-gotten. But no matter how that works out, the IRS is unquestionably a receiver of stolen goods.

How to Stir up Violence, Peacefully: Arrange for the taxpayers to provide armed guards to clear the way with clubs or whatever is necessary if residents of a community get in the way when you and your peaceful demonstrators come storming through their neighborhood. If the residents of the chosen community have the good sense and forbearance to ignore your mob, you can usually count on some other professional agitators from elsewhere to show up and help you with a counter-demonstration. One word of caution — always insist on Federal troops or agents to perform that armed guard service, local police and national guardsmen are not generally acceptable. We're not entirely sure why this is the case, but that's the way Martin Luther King does it. And we're not about to see-

and guess him because he's been awarded a Nobel Peace prize for just this sort of leadership.

Find the Typhoid Marys: Attorney General Katzenbach says careful investigation by the Justice Department has proved that the epidemic of riots now plaguing the nation is not caused by Communist, black nationalist or other terrorist agitators, but by a combination of disease and poverty. Perhaps, then Dr. Katzenbach should enlist the help of the Public Health Service to track down which of those well-financed fellows who traveled to those poverty pockets in advance of the outbursts may be carrying this riotous disease.

GUARANTEED DESTRUCTION

Supporters of the idea that the federal government should provide a guaranteed annual personal income are no longer just talkers but full-fledged promoters. A Guaranteed Annual Income Newsletter is now being put out by a group at the University of Chicago. So far, the advocates of a government allowance are campaigning on the premise that it would do away with poverty. They reason that since poverty is essentially caused by the lack of money, giving everyone an income on which to live will help cause poverty to go away.

It is one thing to say poverty will go away when everyone is guaranteed a specific income. But, it is quite another thing to overcome the economic reality that it would not work. Those who advance the theories of giving something for nothing overlook one simple fact: the government can only give to the people what it first takes away from the people. And the amount of additional taxes necessary to sustain a guaranteed dole for everyone and the accompanying inflation that would result would be enough to bankrupt the United States. A great many more citizens classed as "poverty stricken" would be the unfortunate by-product of a guaranteed dole as dependency replaced self-reliance in the United States.

History supplies ample proof that no theory has ever provided more moral and material rewards for the poor than is available through U. S. freedom of opportunity.

TIPS FOR OUTDOORSMEN
by Vern Sanford

Emergency Ear Plugs — If you're going to do a lot of shooting on the target range, consider using filter tips off filter cigarettes as ear plug silencers.

Rubber Bands Hold Boots — Cut two thick rubber bands out of an innertube. Then slip the bands over your socks in a figure eight around your instep and ankle. You'll find this will prevent boots and waders from slipping off while fishing in mud or when duck hunting.

Duck Hunter's Delight — Duck hunters can take a tip from scuba divers and wear neoprene boots and britches under their regular hunting clothes to keep warm and dry.

Camping Boots — Don't try to walk mountain trails in the same sort of boots you use when rabbit hunting. Best authorities recommend rugged footwear equipped with vibram lug soles. Ordinary boots are much too soft for such hard wear.

Underhand Casting — Underhand casting is of little use to the average angler. It is more of an exhibition stunt. Better concentrate on the usual styles.

Emergency Gunsight — Now and then even the best of the hunters will accidentally knock off a rear gunsight. This needn't be a catastrophe if you have an old fishing rod handy. Just take off the guide and tape it in position on your gun.

Bore Cleaner — A handy bore cleaner to carry with you can be toted in any small pocket. Take a 4 or 5 foot length of heavy monofilament fishing line, make a knotted loop at one end, insert a rag in the loop and draw tight. A smaller, similar loop at the other end makes a good finger grip.

Cut Motor Vibration — Rubber mats between your outboard's motor clamps and the boat's transom cut vibration way down.

Buy a "store-bought" version or cut a piece of a discarded rug.

Removing Birdshot — It's not much fun to chomp down on a hidden shot pellet when enjoying a game dinner. The cook can easily prevent such a painful occurrence by inserting a small light bulb in the bird's cavity before cooking. Light enables the cook to quickly locate imbedded shot.

Clothes Hangers Useful — Wire clothes hangers serve a myriad of purposes around

camp.

Examples: Shaping the hanger to clasp boat gunwale and serve as rodholder. It is a rack for towels, a toilet paper holder, boot hanger, lantern stand, steak grill, or a pot hanger.

You can even use 'em to hang clothes on.

Wrapping the Fishing Rod — If you want to rewrap your fishing rod, try using your wife's sewing machine.

There is a tension attachment for the thread spool that is exactly the thing to keep rod winding thread under light but steady pressure as you wrap the guides.

Improvised Pork Rind Strips — Makeshift pork rind strips for lures can be improvised by cutting white strips from the belly of the bass you caught and preserve them in a saline solution.

Use for Plastic Bottles — Don't throw away those plastic containers that detergent comes in. Cooking oil for camp can be put into such a bottle with no fear of leakage.

Save Tinfoil Plates — Those foil plates that TV dinners come in make perfect eating utensils for camp. Once you use them at the campground, you can discard them or save for another trip.

HIGHLIGHTS AND SIDELIGHTS

From Your State Capitol
Austin, Texas — It seems that a power struggle between House and Senate leaders on the Legislative Budget Board cost Director Vernon McGee his \$20,000 a year job.

Board is made up of five state senators and five house members. In the past they have fashioned the State budget... mainly behind closed doors.

House Speaker Ben Barnes maintains that the budget should be written "on the floor" by the lawmakers and that all committee hearings on it should be open to legislators and the public.

Millions asked for Buildings — State Department of Mental Health and Mental Retardation is seeking \$53,600,000 for new buildings and for expansion of existing facilities during the next biennium.

Money would go to facilities at Abilene, Austin, Denton, Corpus Christi, El Paso, Lubbock, Lufkin, Mexia, Big Spring, Richmond, Kerrville, Rusk, San Antonio, Terrell, Wichita Falls and in the Rio Grande Valley (site of be selected).

Revenue Split "Barred" — Staff attorneys for the Texas Legislative Council say a proposal by big-city mayors that municipalities get a share of state tax revenue is unconstitutional.

But municipal officials still are convinced that where there's a will, there's a way to obtain a partial refund of broad-based taxes collected by the state in their boundaries.

Texas Municipal League Director Steve Mathews says he feels "things can be worked out" if the Legislature wants to provide a source of supplemental aid to hard-pressed cities.

Connally Says No — Gov. John Connally told Rio Grande Valley farm workers

he will not call a special legislative session to consider a \$1.25 an hour minimum wage act. Connally went to New Braunfels to meet the marchers who were on a 400-mile trek to the Capital for a Labor Day rally.

Short Snorts

Texas business activity dropped four per cent in July — sharpest break since last fall and second sharpest since 1963.

State Health Department urges Texans to destroy all possible mosquito breeding places (water traps) to combat disease.

Texas Department of Public Safety is seeking authentic objects, used by Texas Rangers during any period, to be permanently placed in a public museum being organized at the department headquarters in Austin.

1 cup shredded cheese
1 tbs. sherry (if desired)
16-oz. pkg. spaghetti (cooked)

In skillet, brown 1 cup diced ham and chopped onion in margarine until onion is tender. Blend in soup, water, cheese and sherry; cook over low heat till cheese melts, stirring often. Add spaghetti, pimiento and par-

Sees Trend Conservatism in Congress

Washington, D. C.—Changing patterns of voting by members of Congress, many from liberal or conservative toward Conservatism, highlighted the first months of the present Session, 89th Congress, according to an unofficial release by American Constitutional Action.

New ACA ratings listing records of all members of both the Senate and the House of Representatives on a wide range of relative issues. Simultaneously, this non-partisan conservative organization headquartered in Houston, which has cumulative voting records for Members of the House since 1955 and for Members since 1957, is communicating its anger far more effectively to its re-

lected members of the present Congress and other candidates in 1966 is the strongest in any non-presidential election year in ACA's history.

"Strong currents are running throughout the nation this year for drastic curbs on the Ultra Liberal policies and practices of this Administration," declared Charles A. McManus, Executive Director of ACA.

"The most dramatic political fact of the year is that numerous members of both parties in both Senate and House are establishing voting patterns markedly less Liberal and more Conservative than in the past.

"Conservatism, far from dying as its critics contend, is making striking gains. The current ACA ratings offer conclusive evidence that an aroused and angry electorate — with Goldwater's 27-million-plus voters as a base — is communicating its anger far more effectively to its re-

presentatives in Congress.

"A voter revolution unquestionably is in the making. The Liberals of both parties are on the spot this time in the upcoming November elections and many of them are scuttling their old Liberal voting records to present a somewhat different and improved image.

"A number of the Liberal losses undoubtedly will be among the 83 Freshmen in the House, many of whom came in on the Goldwater defeat. Actually, 62 of these 83 Freshmen improved their ACA ratings to some extent, some of them quite sharply upward, in contrast with their 1st session ratings.

"Mounting Conservative strength, and the disenchantment of countless in-

dependents now confront a frightened and sharply divided Liberal coalition."

AN ETERNAL FORCE

The wind is like the power of God.

It is invisible — you can neither see nor touch it. And yet it will carry a sailboat skimming across the waves with all the beauty and grace and freedom of a seagull.

But whereas the wind may die and leave you drifting aimlessly and helplessly with the tide, the strength of God remains eternally steadfast.

It is through the Church that man is given understanding of this Power. For by worshipping God he can acquire the spiritual insight which gives fuel to his soul and purpose for his pursuits.

TOWER UPHOLDS RIGHT TO BEAR ARMS (Weekly Report)

By Senator John Towers

No well-meaning person could fail to have been moved by the tragedy which took place several weeks ago in the capital city of our state...

legislation aimed at curtailing the distribution of firearms, I could support specific legislation aimed at keeping firearms from the possession of felons and minors.

I think this is as far as we can justifiably go in this direction at the federal level. I oppose all proposed legislation which would impede the sale and distribution of firearms for sporting purposes...

Americans have a constitutional guarantee which we must fully observe in considering this legislation. I will not support, and I hope the Senate does not see fit to enact, legislation which would abridge the right of the people to keep and bear arms.
