Letters to the Editor

Dear Evart:

I have always been an avid reader of "The News Reel" but must confess that I have been reading it with more enthusiasm recently. My increased interest dates from the January reference to my arrival 29 years ago to pastor the First Baptist Church. The delightful 6 years and 10 months that followed still stand forth as some of the happiest and most pleasant of my life. Not only did I enjoy my association with the fine people of First Baptist Church but the splendid people of the entire community made a valuable and lasting contribution to my life. Of course, Lois esteems those years as highly as I.

Needless to say, Lois and I enjoy everything in The Stockman and look forward to its arrival each week. You are still doing your usual fine job.

You may already be aware

of the fact that I am joining the administrative staff of Hardin-Simmons University on June 1 as Assistant to the President for Development. My work will probably bring me to Ozona often in the future and I will look forward to renewing old acquaintances.

Sincerely yours,
Clyde J. Childers

EDITORIAL

Today our nation is in war against communism. In the papers every day we read about how many Americans were killed and where the main points of combat were the day before. Most of us really are not interested unless a person we know is killed. This lack of interest has not only hurt our cause in foreign lands, but it has also hurt our nation at home.

We have people who refuse to fight for their nation. This not only hurts our image but it also hurts the men who are fighting for us and our nation. Our country and our government should mean much to us. Let us support our nation in the ways we can!

END OF SCHOOL DRAWS NEAR

By Patsy Walker
As the 66-67 school year is approaching its end, it is well and wise for all OHS students to start the wheels rolling in accumulating knowledge for their final exams. The staff of the Lion's Roar can look back and remember the first few papers when they were placing great emphasis on starting the year off right by study, study, study! That advice will be just as important, and perhaps more-so, when stu-

dents are taking their finals in only about two weeks.

The six-week tests, which are all that most seniors will be taking, will greatly aid in determining if they will be exempt from final tests. Anyway you look at it, Now is the time to start preparing for those tests, because they can make you or break you!

WILL OF 1967

by Esther Williams, Cookie Coates, Cynthia Mahon

After the trials and tribulations of 12 long, trying years, the class of 67 wish to will many great and special qualities to individuals of the class of 68, with the hope in mind that they will continue to make OHS as great as it was when we were there.

Bound for T. W. U. wishing to be well remembered Kay Kyle leaves her charter membership card in the "Appreciable Aggies Club" to Magoo who really deep down loves aggies and is jealous because he's not a member. Gig 'em Aggies, Magoo.

We know OHS will be marked with the sounds of silence with out the class of 67 to remedy this, Rick Logan has left his way with words to Joe Martinez.

Every couple needs compatibility from experience in Rankin Oscar Flores has found the truth of this statement and is therefore leaving Lupe and Antonio the ability to get along.

Cynthia Appel will her Karate chops to Larry Don Webb, the Mullet, in order that he might defend himself from Coach Dozier's famous thumps. Too bad Larry Don, she didn't will you some of her brain.

Duwain Vinson, and Bill Everett are happy to know that Rex Bland is leaving you his art of chewing tobacco behind Coach Gerber's back.

Glenn Southard, Alias Frank, hates to lose his ever-ready smile, but feels that there are two Juniors, who would make more use of it

Tommy Allen and David Cooke.
We did not want OHS to be without Don Leach's hypothetical "What If's".
What if — Coach Gerber and Mr. Leath — He left them to you.
Drummer boy . . . Hank Miller knows the mal Function will have a hard time replacing him therefore in order to compensate for the great loss he wills his magic drum sticks to Calvin Montgomery. So that Calvin can fill in.

The Industrious two Jack Applewhite and Derold Maney will their ability to get by with doing almost nothing to J. A. Pelto who has often had the privilege to watch them operate. Warning J. A. Beware of Miss North's study hall!

One of our future secretaries Kathy McAllister, will her old short hand tests to Carolyn Leach because Kathy wont be in class to help Carolyn along next year. Bonnie Glynn, and Cheryl Jenkins, you are the lucky two. Kathy is leaving you her outstanding abilities in volleyball as a fringe benefit you will receive her bruises, jammed fingers and all other hard knocks.

When Maggie Galindo rounds the third lap of that long, long mile, he will no longer hear in the background the voices of our senior cheerleaders because of this, they are leaving a tape recorder to encourage

him with the crite and familiar sound of "You can do it Maggie, You Can, You can!"
No longer will Mike Winder and Rosa Arredondo be at sea while researching. Leliee is throwing them a raft, this raft contains three years supply of research material. Now you see what she does on her weekends.

The track will be all but lost next year without one of its top speedsters, Thomas De Hoyos, but the track's teams' loss will be the Basketball team's gain Thomas is leaving the little round bear, John De Hoyos, so much speed that he could never be mistaken for a ball.

Although Esther really needs her legacy, she has generously decided that there are two members in the Junior class that would benefit more by it than she does. Esperanza. You can stop gorging now Esther leaves you ten curvey pounds

Now, Coaches, you worrying about what coming line David have an added interest in football sign up now —

Roblen Miller special qualities which sires to leave to members of the junior class and Bonnie Carman her sense of combat basketball. Next she Thelma Lara to hot lips for playing rone. Last but not Roblen wants Jerry her boots plus her and slow driving

Owners Warned To Be On Lookout For Pecan Tree Pest

State Entomologists of the Texas Agricultural Extension have warned that the pecan casebearer is ahead of schedule this year, according to county agent Pete W. Jacoby. In certain areas of the state the pecan nut casebearer appears to be about ten days ahead of normal schedule according to several area entomologists.

Local people with pecan trees should check their trees closely for egg clusters and damage to nut clusters by casebearer larvae, advises the county agent.

Trees should be sprayed when the larvae have hatched from the egg clusters and prior to heavy feeding on the nut clusters for the best results and protection.

The invention of the horseless carriage near the turn of the twentieth century gave rise to the development of our newer sports... auto racing. This sport appeals not only to speed fanatics, but to those who admire human skill and mechanical endurance as well. The world's first automobile contest was held in 1894 between Paris and Rouen, France. The following year, the craze hit America. On Thanksgiving Day of that year, a race was sponsored by the "Chicago Times-Herald." The winner, J. F. Duryea, went a distance of 53 1/2 miles in the astonishing time of 10 hours, 23 minutes.

Drive the cost of living down, without giving up all this.

Chevrolet's room, ride and price. When *Automotive News* made its annual roominess study, Chevrolet got the most points. It's roomier inside, they reported, than any other American car. The ride is Full Coil suspension smooth. And Chevrolet hardtops and convertibles are still the lowest priced full-size cars of this kind you can buy. **Chevelle's quick size.** It's quick to climb, quick to turn. Other mid-size cars might be like Chevelle, true. But they're not as low priced. And they're not made by Chevrolet with Body by Fisher, GM-developed energy-absorbing steering column, inner fenders and Full Coil suspension. **Camaro's road-hugging stance.** At its price, Camaro is the only sportster to give you wide-stance design. It rides steadier, clings to curves better, hugs the road closer. It's the roomiest car you can buy. Plus, you get a bigger standard engine.
