TOTAL ELECTRIC LIVING IS A CLEAN BREAK WITH THE PAST

Palm Sunday! After services, I lingered for a moment in the sanctuary. The sun patterned the floor with gold and stippled the palms by the altar. A quiet stillness held me and for an instant it seemed I saw a crowd waving branches and heard them shouting "Hosanna to the Son of David; Hosanna in the highest."

And Jesus came, riding through the tumult of rejoicing. He had been in Galilee making blind men see, and lame ones walk, lifting up the dead and quickening men's hearts to goodness with his teachings. Many voices sang his praise, yet in a few short days, their screams would swell a cry of "crucify Him."

How could they, we wonder? How could anyone be blind to the goodness of this man, the rightness of His Word?

And still today, as we turn away from the hungry, the poor, and disregard the needs of our fellowman; we just as surely add our voices to that cry.

By A. R. Rutherford

Fencing, as the art of personal defense and offense with a sword, owes its origin, strangely enough, to the invention of gunpowder, For, while it is true that the sword was a weapon of combat long before the use of guns, it was not until armor was rendered obsolete and deadly by the use of explosivedriven projectiles that the use of the sword became an intricate and consummate skill. Naked of their protective iron clothing, gentlemen found themselves hard put to defend themselves until they learned the deadly art of the rapier and foil.
