4-Year-Old Boy Killed In Accident

A one-car accident Monday morning on Bachelor Hill, 21 miles west of Ozona on Hwy. 290, claimed the life of a small boy while his mother escaped with only minor cuts and bruises.

Dead is Russell Ray Reta, 4, of Phoenix, Arizona, who was dead on arrival at the hospital here. His mother, Mrs. Eleanor Zimmerman, 26, also of Phoenix was hospitalized and treated for shock. She was released from the hospital Tuesday.

The accident occurred around 10:30 Monday morning when Mrs. Zimmerman lost control of the 1965 Buick she was driving after it went off the right side of the road as she was traveling toward Ozona. The car went into a skid when the brakes were applied, careened across the road and plunged head-long into a 50-foot canyon on the left side of the highway. The boy was thrown out as the car overturned end over end several times before coming to rest in the bottom of the canyon.

Mrs. Zimmermann and her son were enroute to Houston, where they were to reunite with the boy's father Barney Reta. Reta arrived in Ozona late Monday.

Services are pending for the child at Mission Funeral Home in San Antonio with burial there. James Funeral Home handled local arrangements. Highway Patrol Officers Dale Copeland and Orville Perry investigated the accident.

234,000 Pounds Fall Wool Sold At Sealed Bids

Approximately 234,000 pounds of Crockett county wool sold at sealed bid sale at Ozona Wool & Mohair Co. Wednesday, Beal Barbee, manager, reported.

Eight buyers were on hand to look over and bid in the fall clip, described by Barbee and many of the buyers as some of the cleanest and brightest fall wool ever to be shown from Crockett county. Length was not the best but most of the wool was rain washed and free from defect, Barbee said.

Prices averaged from 44 to 46 cents per pound with one choice clip of yearling wool of good length at 50 1/4 cents. The prices showed some strength above recent area sales, it was noted.

The warehouse served a barbecue dinner at noon for buyers and customers.

Flood Relief Materials Flow To Center Here

Home Demonstration members have had a busy week at the old Continental Oil building across from the post office. The building was opened Friday for donations to benefit flood victims in the Rio Grande Valley.

To date, most of the donations have been clothing and club members have been sorting, mending and in some cases washing items of wearing apparel daily from 8:30 until 6 o'clock in the evening.

The building will be open through Saturday for donations of anything usable, especially staple foods, cooking utensils, small appliances and canned goods.

Club members are sorting and packing the items into boxes and the Red Cross will take the responsibility of having them transferred to the needy areas.

Donations of money are badly needed and will be accepted at the bank, where a special account has been set up, or at the Water District office.

The building will be open tonight until 10 p. m. A message just before press-time informed that there is a desperate need for baby clothes.

Mrs. Bob Stephens also announced that the Home Demonstration Club will meet at the building Monday in order to make blankets from flannel donated. Other donations will be accepted at that time.

Junior Hi Cubs First To Bring 1967 Ozona Win

Ozona's Junior High Cubs were the first local football team to attain a victory on the football field this season by beating out the Sonora Colts 14-8 on the home field Thursday afternoon, while the Lion-B took a 16-0 loss.

The Cubs scored first when a pass from Ruben Tambunga to Mike Jenkins was good for 38 yards and a first down on the Colts 5 yd. line. Tambunga punched it in for the score. The try for extra points was no good and at the end of the first quarter it was 6-0 Ozona.

Tambunga scored on the kick-off late in the second quarter, running the ball back 79 yards to hit paydirt. Chuck Womack ran the ball over for the extra 2 points. At halftime the Cubs were leading the Colts 14-0.

After a scoreless third quarter, the second and third string alternated on each team and late in the fourth quarter the Colts' Steven Street took the ball over from the 4 yd. line for the only Sonora td. Mark Roussetol plunged over to add the extra 2 points and the game ended 14-8 in the Cubs' favor.

Tambunga was the leading ground gainer for the Cubs and sparked the defense, along with Chuck Womack and Gerald Huff.

The Lions-B game followed and although they were the losers by a 16-0 score, they picked up more yardage and first downs than the Sonora-B.

Looking like a different ball club, the Lions dug in and held the Sonora eleven almost every time they got the ball. The first Sonora score came on an Ozona fumble and the second after a series of penalties against the Lions.

Property Tax Paying Period Opened Oct. 1st

Tax statements were mailed from the county tax office Friday to Crockett County property owners. Mrs. Gertrude Perry, deputy tax assessor-collector said county assessments were up a little over 3 million dollars from last year. She attributed the rise to the increased gas play in the county.

A 3% discount will be given on all property taxes except the school tax if paid this month. A 2% discount will be given in November and 1% in December. Taxes become delinquent February 1 and penalties will be added after that date.

Property tax payments on one-half the total amount may be made during the months of October and November. The balance may be paid by June without penalty.

Mrs. Perry said that 40 voters had registered until noon yesterday since voter registration began Monday. She also reminded Crockett County voters that under the new law, all voters must register in order to be eligible to vote. Anyone unable to get to the tax office to register in person may call and have an application for voter registration mailed to them.

Wise and Otherwise
 Rambling Reflections
 By Dr. R. F. Curl

None of us like to pay taxes. I certainly am no exception to the rule and grumble as much as the next person.

But taxes have always been with us. In one form or another they can be found in all early societies of men. The Old Testament seems to indicate that the Jews had three tithes — 30% — which supported their theocratic government. One of the oppressions of New Testament times was the excessive taxation system of the Roman Empire.

Today taxes hit us from three levels: national, state, and local. We perhaps grumble more about the federal levies than any other. But in view of the fact that almost 2/3 of these to the defense effort — paying for past wars waging present war, and preparing for possible necessary defense against attack on us as a nation — they are not likely to be greatly lowered. Nor would anyone of us want essential services needed to make our country secure from without and within neglected.

But what of state taxes? In the fiscal year just ended Texas spent two billion dollars. What for? Eighty-six cents out of every dollar went for education, highways, and welfare. Welfare in Texas takes the form of institutional care for the mentally disturbed, the hospitals, public health programs, old age assistance, aid to blind, deaf, spastic, and dependent children.

Unless we wish to curtail these three very popular forms of public service, we'll not cut state taxes very much, in fact less than 15%.

Local taxes also take a healthy bite out of our incomes. Mrs. Curl and I own a little house at Kerrville last spring city and school district brought in an outside firm to equalize valuations. Well, when they raised my property valuation by 16% I howled just like you probably would. By the way, I appear good at howling, for I got the figure lowered below the original starting valuation, but then the School Board upped the percentage for tax valuation and the rate, and I came out paying a neat little increase.

But I have no complaint. I did not want my property improperly valued at more than its worth. But I am happy to pay my part for free public education. Somebody paid years ago so I

could have a grade and a high school education. My folks sure weren't paying much in taxes when I was a boy for we were poor people. But I had the same opportunity as did the children of the wealthiest man in town.

I am sure I didn't pay what the grade and high school education of my son and daughter cost the state. And I have five grandchildren in public schools.

Police and fire protection, lighted streets at night, good water, public libraries, and good public health services and hospitals are only a few of the many services provided by our local tax dollars.

Yes, we pay lots of taxes, but we get lots of service. And the good people of Crockett County are, according to information coming to a newcomer, extremely fortunate in matters of taxation at the local level. Large natural resources, a consolidated system of government for city and county, well run civic offices and schools combine to make possible a minimum local tax.

Hurricane Beulah is still with us and will be for many months to come in the severe wreckage it left behind. And as could be expected open-hearted Americans have moved in to aid disaster victims. The Red Cross, the Salvation Army, Church World Service, and other groups are co-operating.

Ozona residents are, according to reports I hear, responding in cash and clothing and other supplies. I observed one small group of church women gather together \$150 in a few minutes for Red Cross.

Red Cross is the organized compassionate gifts of the American people, tested and proved by long years of service in many lands. In the flood area Red Cross has been caring for 144,000 refugees in 266 centers for more than two weeks. Thousands of emergency needs are being met by this agency now, but it is when the emergency is over, when press and television cameras leave, and when rehabilitation services are needed that the Red Cross really goes into action. Then scores of case workers will be mobilized to begin the staggering task of cataloguing furniture, clothing and

Dear Gabby, My plastic ivy plant just won't grow. I've watered it

and watered it and it just won't grow. I don't know what to do. Can you help? Frustrated.

Dear Frustrated, Put some H₂O on it. If you don't have any of that, try some cow manure.

Dear Gabby, I play on the fighting Ozona Lions football team. My problem is how do I tell the coaches that I am married and have a children. Thanks. Married plus 2

Dear Married, Keep your mouth shut until after football season and don't have any more kids. We're having enough troubles as it is this year.

Dear Gabby, My cousin is in high school with me and we don't get along very well. He makes ugly faces at me and tells me to shut up all the time. I've tried avoiding him, but that's impossible as we have some classes together. I haven't done anything to make him mad, so how can I change his attitude towards me?

Dear Cousin, Well Beaver, just grin and bear it.

Dear Gabby, My problem isn't really as bad as some people's are, but I still thought maybe you could help me. I'm always running into things. It's not that I don't watch where I'm going because I do. Like yesterday, I walked into class and before I knew what was happening I was flat on the floor. Can you possibly help me. Co-ordinated.

Dear Co-ordinated, Take Sandy Stokes remedy and quit walking.

Dear Gabby, I have this problem. My boyfriend is shorter than me by about three feet. He's not a midget, it's just that I'm 9 feet tall. Should I feed him corn flakes to make him grow? Average.

Dear Average, Feed him Grape Nuts, they

make you grow up, not out.

Dear Gabby, There is a couple, going steady, that care very much for each other. Not long ago they broke up for unimportant reasons. Well, the girl's sister has had her eye on the boy, and as soon as they broke up, the other sister snatched him. The first sister, now realizing her mistake in breaking up with the boy, is desperately trying to get him back while her sister is hanging on to her fine catch for dear life. Should his first steady forget him and their close relationship or should she start a Family Fued?

Dear Wondering and, Good luck and may the best woman win.

SONORA GAME

By Deborah Mills

The Lions lost a hard fought battle to Sonora Friday night with the final score being 13 to 7.

There was a scoreless third quarter as Rodney Pagan scored from the one and the PAT by Larry Don Webb was good.

Renfro scored on a 59-yard run up the middle and Gosney scored in the fourth quarter from the five with three minutes remaining.

The Lions will be looking for their first victory when they meet Menard here Friday night at 7:30.

SENIOR PICTURES

By Anna Mendez

Mr. Ralph Hutsell, photographer from Whit's Studio, will be at the high school auditorium to take the senior pictures. These pictures scheduled to be taken in the morning of October 6.

Students are to dress up and to wear bright colors as these pictures are the ones that appear in the hall in picture frames and in the annual. They will also be suitable for putting in a frame for a family picture.

LIBRARY RULES

By Lupe Maldonado

Ozona's library is something which everyone should feel proud of. You should visit it for you might even find some books you want to read.

When a person goes into a library, he should feel at home and not lost. Books open up new worlds for people. They mean adventure, relaxation, and most of all enjoyment.

Feeling at home does not mean leaving the library in a mess. Here are a few tips to keep in mind when you are in a library. You should handle all books with care since other people will probably want to read them, put all books back in their proper places, return all books on time, and never be rowdy or noisy. If you cannot find what you are looking for, ask for some help.

If these rules are followed, we will keep the library in excellent shape for students and adults who use the library.

HE IS CURTAINS

Throw me the measuring tape, or pass the scissors, is a familiar remark in the senior home economics class this year. We are in the process of making new curtains for the H. E. department. Upon completion the bright printed cotton material will be made into pleated curtains to harmonize with the decor in the sewing room. The seven girls, under the instruction of Miss Lynn Lawson, work on them from 2:30 until 3:30 each week day. It is hoped that they will be completed within a month.

WHO?

The girl who is this week's guest who has lived here long and is new. Upon her head is short blond hair. Her skin is neither dark nor fair. With freckles sprinkled her nose. But the reason why I chose this girl is for her smile as winning. Can you guess who, from this beginning?

—And where we'll stop, who can know?

We do have the best educational system in the world. But what will your child think and want and demand once we've educated him?

For in our system—unlike the Russian — we impart truth rather than ideas. We give our children the tools of thought, not the party line.

Does your child know that the center of all truth is God? Does he measure his aims by Christian standards of faith and morality? Has he learned where unbridled human passions of greed and power and selfishness can lead? Does he respect the religious faith and spiritual opportunities which motivated American Liberty?

Nobody can brainwash an American family. But it's up to each American family to choose every Sunday between the "around and around," and the center of truth—GOD.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Fast on the dry? Old Sol at high noon . . . or any means of drying can't come even close to Gas for speed. Then, too, gentle Gas heat blows moisture away—instead of baking it out—so your clothes are always soft, fluffy and almost wrinkle-free. All this and economy, too, in today's most modern dryer.

THE GAS MAKES THE BIG DIFFERENCE . . . COSTS LESS, TOO.

CONCESSION CREDIT

Vending machine systems permitting credit card purchases of food and drink have been put into operation in two Chicago, Ill. firms. Users insert their credit cards into a slot on the machine where the card is registered, then returned. A computerized, punched-tape, record-keeping system records each purchase by date, item, amount and card number.

Sounds simple? Sounds fantastic? Convenient?

First how do you obtain such a card? It is by a simple process of checking a person's credit record with their local Credit Bureau. If your paying-record is good, prompt, "as agreed" — then you may be issued one of these cards.

In our area we may not have such vending machines as yet, but we have something just as valuable and convenient and simple: That of having the privilege of making purchases from our local merchants and asking them to "charge it."

For this privilege, the same process is necessary — How do you take care of your local obligations? Is it "prompt", "as agreed", or "30 days"? This is important to your credit record as it is kept by the local bureau — It is also very important to your very way of life. "Protect Your Credit — It is The Most Valuable Asset You Have."
